In the Circuit Court of the United States for the District of Kansas.

Sallie E. Hillmon, Plaintiff,
vs. Petition.
The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, Defendant.

The said Sallie E. Hillmon, who is a citizen of the State of Kansas and the plaintiff in the above entitled action complains of The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, the defendant herein, which said defendant is a citizen of the State of Connecticut and is and was at the several times herein mentioned an existing corporation with power and authority among other things to contract as such and to make and enter into such contracts and agreements as are hereinafter mentioned, and to make and execute the policy of insurance hereinafter mentioned, which said corporation was created and organized and exists in said State of Connecticut and under and [—] virtue of the laws thereof.

And said plaintiff further avers that heretofore to wit, on the fourth day of March, A. D. 1879, said defendant by Jacob

L. Greene its president, and D. H. Wells, its assistant secretary, its agents in that behalf by it thereunto duly appointed and authorized for certain considerations and premiums including the annual premium of one hundred and sixteen and 45/100 dollars to it paid and to be paid, made, executed and delivered to said plaintiff, its certain written instrument of that date commonly called a policy of insurance of which said policy a copy is herewith filed hereto attached marked "Exhibit No. I" and made part hereof.

And said plaintiff further avers that the John W. Hillmon in said policy mentioned was at the time of the execu-
2 tion thereof and until his death the husband of said plaintiff and said plaintiff then had and until the death of said John W. Hillmon continued to have a valuable and insurable interest in his life.

And said plaintiff further avers that said defendant did in and by said policy of insurance insure the life of said John W. Hillmon for the term of his natural life in the sum and to the amount of Five thousand dollars for the sole use and benefit of said plaintiff to be paid at the office of said defendant in Hartford, Connecticut, to said plaintiff or to her legal representatives thirty days after due notice and satisfactory evidence of the death of said John W. Hillmon, while that contract, that is the contract shown by said policy was in full force and effect should have been received at said office in Hartford, Connecticut, or if the said plaintiff should be not then living that said sum insured should be payable as above to her children or to their guardian if under age any balance of the years premium when not all paid at the beginning of the year and any other indebtedness to said defendant on account of that policy being first deducted therefrom as shown by that policy and said copy thereof, is referred to for a more full description of the same.

And said plaintiff further avers that afterwards and heretofore "to wit"; on the seventeenth day of March, A. D. 1879, said John W. Hillmon died and his natural life and the term thereof ended during the continuance of said policy and while the aforesaid contract was in full force and effect and he did not die because of any excepted or objectional cause in said policy specified or referred to.

And said plaintiff further avers that said John W. Hillmon in his lifetime duly performed all and singular the conditions and requirements on their or either of their part and all the conditions in or by said policy of insurance made, shown or referred to on their said plaintiff and John W. Hillmon or either of their part to be done or performed including the

giving of due notice and furnishing of satisfactory evidence by said plaintiff to said defendant of the death of said John
W. Hillmon while said contract was in full force and
3 effect and which was duly received by said defendant at its office in Hartford aforesaid more than ninety days before the time of the commencement of this action and during the continuance of said policy.

Yet said defendant though often requested has not as yet ever paid to said plaintiff the sum of money above mentioned nor any part thereof nor any interest thereon, but on the contrary to pay the same or any part thereof said defendant has hitherto and still does wholly neglect and refuses.

Wherefore said plaintiff prays and demands judgment against said defendant in the sum of five thousand dollars with interest thereon at the rate of seven per cent per annum from the nineteenth day of August A. D. 1879 and for costs of suit etc.

vs.
The Connecticut Mutual Life Insurance Company, Defendant.

Answer.

The defendant, The Connecticut Mutual Life Insurance Company, for its first defense, represents and shows to the court, that it denies all and singular the allegations and averments contained and set forth in said plaintiff's petition filed herein, and for a further and second defense said defendant shows that on or about the .... day of ....., A. D. 1879, a dispute, difference and controversy subsisted between said plaintiff and defendant, in this, to wit: said plaintiff claimed that one John W. Hillmon, the person mentioned in the insurance policy in said plaintiff's petition, set forth, died near Medicine Lodge in Barbour county, State of Kansas, on or about the .... day of ....., A. D. 1879, from a gunshot wound received from a gun then and there accidentally discharged by one John S. Brown, and that by reason thereof a cause of action had accrued to her, this plaintiff; while the said defendant denied that the said John W. Hillmon was dead, and that any cause of action had accrued to said plaintiff.

That for the purpose of ending said dispute and controversy said plaintiff for a good and valuable consideration to her by said defendant paid, made, executed and to said defendant delivered her certain release and satisfaction in writing, of which the following is a true copy, to wit:

"Leavenworth, Kansas, Sept. 15, 1879.

In consideration of one dollar to me in hand paid, the receipt whereof is hereby acknowledged, I hereby acknowledge satisfaction in full and release and surrender all claims under and by reason of Policy No. 153614, dated March 4th,
19 1879, for five thousand dollars, issued by the Connecticut Mutual Life Insurance Company of Connecticut, on the life of my husband, John W. Hillmon, and hereby enter satisfaction in full and order the dismissal of any and all suits or proceedings commenced or that may hereafter be

vs.
The Connecticut Mutual Life Insurance Company, Deft.

Reply.

The plaintiff for her reply to the answer of the defendant herein filed says:

I. That she denies each and every allegation in said answer contained.

II. The said so-called release and satisfaction in writing in the second defence in defendant's said answer set out was obtained from the plaintiff without any consideration whatever and was and is inoperative and void.

III. That at the county of Barbour in the State of Kansas, on or about the 17th day of March, A. D. 1879, John W. Hillmon, the husband of this plaintiff and the person whose life was insured in and by the policies set out in plaintiff's petition, died from a gun shot wound produced by the accidental discharge of a gun in the hands of one John H. Brown; that on or about the 15th day of September, A. D. 1879, the date of the so-called release and satisfaction set out in defendant's second defence the said defendant by its duly authorized agents and other persons by the procurement of said defendant, falsely and fraudulently represented to this plaintiff that her husband the said John W. Hillmon, was then still living and the said John H. Brown would so testify on the trial of any action brought to recover the amount due under said policies and that he would testify that the body which had been produced and identified by her as the body of her said hus-

band was not the body of the said John W. Hillmon, but was the body of another and different person and to induce the plaintiff to believe the said false and fraudulent representations procured the said John H. Brown, upon whose
21 testimony the plaintiff relying to establish the fact of the death of her said husband and her right to recover the amount of said policy, to make a statement in writing to the effect that the said John W. Hillmon was still living as aforesaid, and that the body which had been produced and identified by her as the body of her said husband was not the body of said John W. Hillmon but was the body of another and different person; that the said representations at the time the same were made, and at the time the so-called release and satisfaction was signed by this plaintiff, were false and were known to be false by said defendant, its agents and the persons making the same, and the same were made for the purpose and with the intention of deceiving and defrauding this plaintiff of the right to recover the amount due her on and under the said policy.

That the said plaintiff by means of said false and fraudulent representations and the said statement of said John H. Brown and being thereby led and influenced to believe that the said Brown would testify as the defendant and its agents had represented, contrary to the truth and facts in the premises, was induced by said defendant and its agents and other persons acting in its behalf to sign and deliver without consideration the so-called release and satisfaction set out in defendants second defense.

23 In the Circuit Court of the United States for the District of Kansas.

Sallie E. Hillmon, Plaintiff,
vs. Answer.
The Connecticut Mutual Life Insurance Company, Defendant.

1st. The defendant, The Connecticut Mutual Life Insurance Company, for its first defense represents and shows to the court that it denies all and singular the allegations and averments contained and set forth in said plaintiff's petition, filed herein.

2nd. Said defendant further answering, says that on and before the 30th day of November A. D. 1878, one John W. Hillmon, John H. Brown and Levi Baldwin and divers other persons, to the defendant unknown, unlawfully and fraudulentlyl, confederating, conspiring, contriving and intending to cheat and defraud this defendant, procured a large amount of insurance to be taken on the life of the said John W. Hillman, to wit: in the New York Life Insurance Company, by its policy numbered 134,418 and dated November 30th, 1878, for the sum of ten thousand dollars; in the Mutual Life Insurance Company of New York, by its policy numbered 195,132 and dated Dec. 10th, 1878, for the sum of ten thousand dollars; and in the Connecticut Mutual Life Insurance Company, by its policy numbered 153,614 and dated March 4th, 1881, for the sum of five thousand dollars.

That thereafter and in pursuance of said conspiracy, and with said intent, said Hillmon, Brown and Baldwin did falsely and fraudulently pretend and represent unto this defendant and others that said Hillmon was dead and did, on or about the months of March and April A. D. 1879, and thereafter for the purpose of securing the payment of said policies and obtaining the money thereon, falsely and fraudulently claim, pretend and represent unto this defendant that the said John W. Hillmon was dead, and that a certain dead body which they had procured and had was the dead body of the
24 said John W. Hillmon; whereas said John W. Hillmon was not and is not dead; that since said time the said Hillmon has kept himself concealed, and has and is keeping himself concealed under assumed names, for the purpose of consumating the conspiracy entered into as aforesaid.

That no premium or payment of any kind has ever been made on or on account of said policy and that said policy is void.

3rd. Said defendant, further answering, says that on or about the .... day of ...., A. D. 1879, a dispute, difference and controversy subsisted between said plaintiff and defendant in this, to wit: said plaintiff claimed that one John W. Hillmon, the person mentioned in the policy of insurance, set forth in said plaintiff's petition, died near Medicine Lodge, in Barbour county, state of Kansas, on or about the .... day of ...., A. D. 1879, from a gunshot wound then and there accidentally discharged by one John S. Brown and that by reason thereof a cause of action had accrued to her, this plaintiff; while the said defendant denied that the said John W. Hillmon was dead and that any cause of action had accrued to said plaintiff.

That for the purpose of ending said dispute and controversy, said plaintiff for a good and valuable consideration to her by said defendant paid, made, executed and delivered to said defendant her certain release and satisfaction in writing, of which the following is a true copy, to wit:

"Leavenworth, Kansas, Sept. 15, 1879.

In consideration of one dollar, to me in hand paid, the receipt whereof is hereby acknowledged, I hereby release, surrender and acknowledge satisfaction in full of all claims against the

Connecticut Mutual Life Insurance Company

by reason of policy No. 153614, issued by said company, dated March 4, 1881, and for the sum of five thousand dollars, on the life of my husband John W. Hillmon, and hereby enter satisfaction in full and order the dismissal of any and all
25 suits or proceedings commenced or that hereafter may be commenced, by any person in my behalf, for the collection of the same.

Attest: (Signed) SALLIE E. HILLMON.
W. J. BUCHAN,
JOHN H. BROWN."

Wherefore defendant asks judgment that said policy be declared null and void for costs.

Sallie E. Hillmon, Plaintiff,
vs.
The Connecticut Mutual Life Insurance Company, Defendant.

Amended Reply.

The plaintiff for her amended reply to the amended answer of the defendant herein filed says:

1st. That she denies each and every allegation in said amended answer contained.

2nd. The said so-called release and satisfaction in writing in the third defense in defendant's said amended answer set out was obtained from the plaintiff without any consideration whatever and was and is inoperative and void.

3d. That at the County of Barbour, State of Kansas on or about the 17th day of March A. D. 1879 John W. Hillmon the husband of this plaintiff and the person whose life was insured in and by the policy set out in plaintiffs petition died from a gun shot wound produced by the accidental discharge of a gun in the hands of one John H. Brown. That on or about the 15th day of September A. D. 1879 the date of the so-

called release and satisfaction set out in the defendants 3d defense in its amended answer the said defendant by its duly authorized agents and other persons by the procurement of said defendant falsely and fraudulently represented to this plaintiff that her husband the said John W. Hillmon was then still living and had been seen alive since his alleged death on or about the 17th day of March A. D. 1879 and that they could produce him the said Hillmon alive as aforesaid. That the said John H. Brown would testify in the trial of any action brought to recover the amount due under or upon said policy that the said Hillmon was not dead but was still living and that the body which had been produced and identified by her the said plaintiff as the body of her said husband was not the body of said John W. Hillmon, but was the body of
29 another and different person; and to induce the plaintiff to believe the said false and fraudulent representations and that the said Brown would testify as aforesaid and to prevent her from suing on the policy mentioned in the petition herein and to induce her to surrender the same, procured the said John H. Brown upon whose testimony the plaintiff was relying to establish the fact of the death of her said husband and her right to recover the amount of said policy to make a statement in writing to the effect that the said John W. Hillmon was still living as aforesaid and that the body which had been produced and identified by her as the body of her said husband was not the body of said John W. Hillmon but was the body of another and different person who had been murdered by the said John W. Hillmon and procured the said John H. Brown to state to this plaintiff that he would in any action brought on or under said policy testify as aforesaid and that he would testify that the whole transaction relating to the procurement of said policy and the alleged death of her said husband was a fraud and that she was a party to said fraud; that on or about the said 15th day of September 1879 the said defendant by its duly authorized agents and other persons by its procurement fraudulently represented to this plaintiff that unless she executed and delivered the release of the policy which is set out in the 3d defense of defendants amended answer, they would prosecute her for conspiring with divers other persons to defraud said defendant out of the amount of said policy, and that upon the said testimony of said Brown she would be convicted, but they would save her from such prosecution if she made and delivered the release aforesaid. That the said plaintiff being in ill health was overcome by the said false and fraudulent statements and threats so made as aforesaid and relying upon the said false and fraudulent statements as to what the said Brown would swear to and being thereby led and influenced to believe that the said Brown would testify as the defendant

its agents and other persons by its procurement had represented, contrary to the truth and facts in the premises, and that she could not against such testimony of said Brown recover the amount due her on said policy, was induced by said defendant its agents and other persons acting in its behalf, to sign and deliver without consideration the so-called release and satisfaction set out in the third defense of the defendants amended answer.

That the said representations so made by the said defendant its agents and other persons by the procurement and in behalf of the said defendant at the time and times the same were made and at the time the said so-called release and satisfaction was signed by this plaintiff were false and were known to be false by the said defendant and its said agents and the said other persons making the same and the same were made for the purpose and with the intent of defrauding this plaintiff of her right to recover the amount due her on and under the said policy.

Objections to Deposition.

On page 4 of the deposition of Mrs. Mary Judson, all of the defendants object to the question: "Could he have had a missing upper front tooth, the absence of which was noticeable when talking or laughing and you not have known it?" for the reason that the same is leading and suggestive.

On page 7 of said deposition to the question: "State what, if any, conversation you heard at that time between Mrs. Hillmon, the plaintiff, and Mr. Tillinghast or Mr. Selig?" and the answer thereto: "The subject that was being discussed was whether Mrs. Hillmon should see the body of her husband when it was brought to Lawrence. Mr. Tillinghost spoke and said that he had lost a child and had taken it up—that he wanted to see it—and was always sorry afterwards that he had had it done, and then he said to her that he would rather not see the body, but remember him as she had last seen him" is objected to on behalf of the defendants because said question and answer is incompetent as evidence.

1st. Because said Tillinghast was not the agent of either of these defendants.

2nd. The statement was not made in connection with the performance of any duty for the companies for which he might have been agent for the transaction of certain business.

3rd. Because said statement is mere hearsay.

Said defendants also object to and ask to have stricken out the following statement on page 8 of said deposition, to wit: "I think Mr. Selig advised her the same as Mr. Tillinghast" for the reason that the same is incompetent as against all
48 of the defendants particularly as against the defendant with which Mr. Selig had no connection whatever.

On page 8 of said deposition to the question: "Why did you not see it?" State the conversation," and the answer thereto: "Mrs. Hillmon, her mother, my son and myself came down to see the body while it was at Bailey & Smith's, the undertakers. The undertaker, Mr. Smith, refused to let us see him. He said the body was not in proper condition for us to see him." The defendants object for the reason that the same is incompetent as testimony against each of the defendants.

vs.

Sallie E. Hillmon
vs.
The New York Life Insurance Co.

Sallie E. Hillmon
vs.
The Connecticut Mutual Life Ins. Co.

Affidavit.

George J. Barker and J. W. Green being duly sworn, say:

That they are attorneys for the defendants in the above entitled actions and the only attorneys for said defendants residing in Douglas county, Kansas; that about ten days before the commencement of the present term of this court they each received notice from A. S. Thomas, Esq., clerk of said court, that the above entitled cases were set for trial on the 5th day of June, A. D. 1885 specially; that they received no notice whatever of the change of such setting of said cases until on the afternoon of the second day of June, 1885, which was a friendly dispatch from W. W. Guthrie of Atchison; that on the same afternoon George J. Barker was informed by John Hutchings that Mr. Wheat had notified him that said cases were set for trial and would be called for trial on the 4th day of June, 1885; that on the afternoon of said 2nd day of June both of these parties were also informed by Mr. Riggs that Mr. Borgalthaus had received a letter from Mr. Wheat which letter is hereto attached marked Exhibit A notifying him that said cases would be called for trial on the 4th day of June, 1885, and requesting him to notify the attorneys for the defendant to that effect; that on the morning of the 3d day of June said Green received a letter from L. A. Wheat one of the attorneys for the plaintiff informing him that said cases would be called for trial on the 4th day of June; that up to
52 the time of receiving notice from Mr. Hutchings these affiants did not intend to leave Lawrence until the 4th day of June; that upon receiving said telegrams and letters affiants immediately began to prepare to attend this court on the 4th day of June; that at the time Mr. Riggs came to the

office of George J. Barker and informed him that Dr. Fuller was at his office waiting to give his deposition, both said Barker and Green were busily engaged in arranging their papers and other matters in this case so as to enable them to leave Lawrence for Leavenworth on the afternoon train of that day; that they were so busily engaged in that case during the entire day of the 3d day of June 1885 up to the time of leaving for Leavenworth upon the 4 o'clock train that they could not, nor could either of them, have attended to the taking of this deposition on that day; that when Mr. Riggs came to the office of said Barker he was informed by him that they could not attend upon the taking of the deposition they did not believe; that if they could they would but that it was not worth while to keep the doctor waiting but to go on and take the deposition. Not only did neither of these attorneys have any time on the 3d day of June in which to attend upon the taking of depositions, but they did not have sufficient time to properly arrange their papers and books on that day and get ready to come to Leavenworth; that by being compelled to go to Leavenworth sooner than they had expected, they left behind several books and papers for which they have been compelled to send or go after since that time.

That at the time the notice to take this deposition was served on said affiants they fully intended to waive the insufficiency of time and attend the taking of said deposition but owing to the telegram and letters of said Wheat they were led to believe they could not spare the time before the cases in which it was to be taken would be called for trial.

That said Fuller has been living in the city of Lawrence, Kansas, for many years; that on the 2d day of June, 1885, he was not more feeble in health than he has been for many months past as they believe in fact affiants are informed and believe that he is in a better state of health now than he has been for several months past; that Sam Riggs also
53 lives in Lawrence and is well acquainted with said Fuller. That said Riggs is a relative of the family of said Fuller by marriage.

State of Kansas,
County of Douglas—ss.

William T. Sinclair, being first duly sworn, says that he is a resident of the County of Douglas and State of Kansas, and by virtue of a bond entered into by him in each of the foregoing cases on the 8th day of October, 1883, he is security for all costs in each of the above entitled actions, which may accrue to any of the officers of said court subsequent to the 8th day of June, 1883.

Affiant further says that at the time of signing the undertaking for costs in said actions, as above referred to, the said Sallie E. Hillmon, Plaintiff, was a resident of the City of Lawrence, in said county of Douglas and State of Kansas, and that affiant entered into said bond at the urgent request of the attorneys of record for said plaintiff, and that no indemnity has at any time been given to affiant to protect or secure him in any way against any costs which he may be required to pay, by virtue of such undertaking.

55 Affiant further says that since the giving of said undertaking for costs, the said Sallie E. Hillmon, as affiant is informed and believes, has removed from the county of Douglas and state of Kansas, and is no longer within the jurisdiction of this court; that the said Sallie E. Hillmon has become and is utterly insolvent, and has no property either exempt from execution or not exempt from execution from or out of which she, the said Sallie E. Hillman, might or could pay any costs adjudged against her in any of the foregoing suits.

Affiant further says that since the execution of said undertaking for costs by this affiant, the said Sallie E. Hillmon has assigned and parted with all of her interest in and to the several causes of action above set forth, and is no longer the owner of the same, as affiant is informed and believes.

Affiant further says that since the execution of said undertaking by affiant, the said Sallie E. Hillmon has assigned and transferred all of her interest in said several suits to John Hutchings, Esq., S. A. Riggs, Esq., L. B. Wheat, Esq., R. J. Borgholthaus, Esq.,and H. S. Clark, and that all of said several parties are citizens of the state of aKnsas, except R. J. Borgholthaus, Esq., who is a citizen of the State of Minnesota and are possessed of sufficient means to give such undertakings and security for costs in each of the foregoing actions, as may be properly required therein.

Affiant further says that at the time of the execution of said Bond he was informed and did verily believe that the said several actions would be speedily terminated, either by a compromise, which affiant understood was then under consideration between the various parties thereto, or by a trial thereof at the November term of said court next ensuing, and affiant verily believes that none of said actions will soon be terminated, either by agreement of the parties or by a final trial thereof, and he desires to be released from any further liability for costs therein.

Affiant further says that he [in] engaged in the mortgage loan business in said county of Douglas, which said
56 business involves a special, financial responsibility and trust in affiant, in connection with the management of the same, and that his position as security for costs in said actions has been deterimental to him in his said business as affiant verily believes, and affiant fears that his said business may suffer serious injury, should he continue further as such security in said suits.

Affiant further says that he has been informed by the attorneys for said several defendants in each of the foregoing actions, that a bond for costs in said actions, executed by the said L. B. Wheat, Esq., would be approved and accepted by said defendants, in lieu of said bond executed by this affiant.

This day the three causes above named coming up for trial in pursuance of the order heretofore made by this court re-

And thereupon by direction of the court a jury was empanelled for the trial of said causes, the several defendants claiming the right to challenge three persons peremptorily for each defendant, which claim was denied, the court ruling that but three per-

Isham, its attorneys, and it appearing to the court that heretofore, to wit,

on the 14th day of June, 1882, an order was entered in these cases by this court consolidating them for trial, it is now here ordered that said order consolidating the said cases be and the same is continued in force. To which order of the court the defendants and each of them duly except. And to try the issues joined in these three several actions respectively, come a jury, to wit: W. W. Wells, Joseph Young, J. W. McGhe, Charles S. Uhl, M. W. Whitney, S. W. Carney, Fred

Sallie E. Hillmon, Plaintiff,

vs.

Connecticut Mutual Life Insurance Company, Defendant.

Now comes the defendant, the Connecticut Mutual Life Insurance Company, and moves, asks and requests the court to set aside the order of consolidation heretofore made in this action, as to this defendant, and to withdraw this defendant's case from the jury and enter judgment in said case for the defendant, for the following reasons:

First. That from the evidence adduced in this trial the issues in this case are not the same and identical with those of the other two defendants.

Second. For the additional reason that before any contract of insurance between this defendant and the assured, John W. Hillmon, was consummated he, the said Hillmon, refused to complete the same.

Third: Because no contract for insurance was ever entered into between this defendant and the plaintiff in this case.

Fourth: Because from the evidence in this case the plaintiff is not entitled to recover.

Sallie E. Hillmon, Plaintiff,
vs.
The Connecticut Mutual Life Insurance Company, Defendant,

Motion.

Now comes the said defendant, The Connecticut Mutual Life Insurance Company, and respectively moves the Court for an order requiring the plaintiff to give security for costs in this action for the following reasons, among others, to-wit:

First. That this action is being prosecuted largely in the interest of, and on the behalf of said plaintiff's attorneys of record, who are financially interested in the result of this action and are promoting the same, and are abundantly able to give security for costs.

Second. Because said plaintiff is able to give security for costs.

Third. Because there is no merit in said plaintiff's action.

In support of this motion, the defendant offers in evidence the testimony of Samuel A. Riggs, one of the attorneys of record for the plaintiff, given upon a former trial of this action, which evidence is hereto attached, and made a part of this motion.

73 A portion of the testimony of Samuel A. Riggs, Esq., given on behalf of the plaintiff in the trial of the case of Sallie E. Hillmon vs. the Insurance companies in 1895.

Cross-Examination by Mr. Barker, Counsel for the Defendants.

Q. Mr. Riggs, you stated that you are one of the attorneys for the plaintiff in this case? A. I am.

Q. I will ask you if you have a contingent fee in this case?

A. I have sir.

Q. I will ask you, Mr. Riggs, if this claim of the plaintiff in this suit is not owned by a syndicate consisting of yourself and the other attorneys in this case, and other parties?

A. It is not.

Q. I will ask you if the syndicate don't furnish the money for carrying on this suit, including the payment of Mrs. Hillmon's expenses, and the expenses of one Mr. Smith?

A. No, sir, there is no such arrangement or any such syndicate.

Q. I will ask you if you are not treasurer of that syndicate, and if you do not pay out money?

A. I am not treasurer of any syndicate, and I do not pay out any money except——

Q. You haven't paid out any money in this case since you have been here? A. Not for any syndicate, sir.

Q. Let me see if I understand you, then; you pay out money, but you do not pay it out on behalf of a syndicate?

A. On behalf of nobody except the plaintiff, sir.

Q. The plaintiffs? A. Nobody except the plaintiff.

Q. What I want to get at now, does the plaintiff furnish the money? A. The plaintiff will furnish money.

Q. I ask you if the plaintiff had furnished money.

A. The plaintiff has not furnished money.

Q. As a matter of fact, you, Mr. Wheat and Mr. Hutchings have furnished money, haven't you?

A. That is not a fact, sir.

Q. Haven't you furnished a portion of the money?

A. I think so.

74 Q. And Mr. Hutchings? A. Probably.

Q. You then have, and you say—have you a written contract with reference to your interest in this claim?

A. Yes, sir.

Q. That is to say, if the plaintiff recovers in this case, why, you get a certain amount, and this money back which you have expended? A. The contract speaks for itself.

Q. I am asking you with reference to that; if you recover, if the plaintiff recovers in this case, you get the money back again, do you not?

A. There is no arrangement in relation to money advanced at all; it is a matter of our own volition; it is not a matter of contract.

Q. Then I understand you are advancing money without any arrangement with reference to it?

A. There is no arrangement by which we were to advance one penny in this case, not one penny.

Q. Then, I will ask you, Mr. Riggs, what, in a certain notice is meant by the twenty-five hundred dollars in excess of fifty per cent of the amount you should recover?

A. It was the probable amount of money that we had advanced for Mrs. Hillmon without any arrangement so to do, without any obligation so to do.

Q. For that twenty-five hundred dollars you claim a lien?

A. Simply because she is to refund it; she is to pay it.

Q. Since that time you have advanced a large amount of money have you not?

A. Well, not a very large amount; some considerable.

Q. A considerable amount of money?

A. Oh, yes, quite a little amount.

Q. You pay your own expenses?

A. We do, sir; I generally do that in my practice.

Q. I will ask you how much of the expense money or the money for carrying on this suit the plaintiff furnished during this trial? A. I cannot say.

Q. Has the plaintiff furnished any money for the purpose of carrying on this suit during the present trial?

A. Well, if you know—if you will make your question a little more specific; what kind of money do you mean? She has paid her own expenses, unquestionably, at least,
75 I presume so, nobody else has paid them to my knowledge.

Q. I am not asking you in regard to that; I am asking you whether she has furnished the money for the purpose of carrying on the trial? A. She has not, to me, sir.

Q. Don't you look after the financial part of this case?

A. I do not.

Q. Who does?

A. I do not know that any one does particularly; I suppose the other counsel—

Q. (Interrupting.) I am not asking you—

A. Very well; no one does.

Q. No one looks after the financial part of this case?

A. No arrangement at all.

Q. Who pays the expenses, who has paid the expenses of the witnesses here?

A. Well, sir, I think I have advanced some money to pay the expenses of witnesses.

Q. I know, but I asked you who paid them, Mr. Riggs?

A. I have paid some, I think, perhaps Mr. Wheat some, and possibly Mr. Hutchings has paid some.

Q. You have paid some and Mr. Wheat some, and Mr. Hutchings some? A. I believe so.

Q. And what you have paid, you have paid out of your own money? A. I have, certainly.

Q. What the other parties have paid—you don't know with reference to that, I suppose? A. I do not.

Q. Do you remember of a proceeding, a certain proceeding, before Mr. Snider, the commissioner of Insurance, Superintendent of Insurance? A. Yes, sir.

Q. I will ask you who paid Mrs. Hillmon's expenses at Topeka on that occasion? A. I don't know sir.

Q. Is it not a fact that you paid or caused them to be paid?

A. It is not.

Q. Then, I want to see if I understand your connection; your compensation, you have stated, is dependent upon the amount of your recovery in this case?

A. I told you that we received a contingent fee.

Q. Yes, sir, that is what I want to get at; in addition to that the amount of money which you attorneys advance

76 is dependent, is it not, upon your recovery in this case?

A. No arrangement of that kind, sir.

Q. I know, but I ask you if it is not dependent upon your recovery in this case? A. It is not.

Q. What is it dependent on not anything.

Q. Who is to refund that money?

A. Mrs. Smith is under obligations to refund it.

Q. How will she refund it?

A. I don't know, sir, that is not in the contract.

Q. I will ask you how much is your contingent fee; what is the contingent fee claimed by the counsel for the plaintiff in this case?

A. Counsel for the plaintiff, in this case among them, are to receive an amount equal to fifty per cent of the amount recovered.

[A.] And they are to be reimbursed for all money that they expend in this case? A. Yes, sir, except personal expenses.

Q. That is the arrangement, is it? A. Yes, sir.

Q. Fifty per cent and expenses; that is the arrangement between you and the plaintiff in this case? A. Yes, sir.

Q. Is it not a fact that there are persons outside of the attorneys in this case who are financially interested in the result of this case? A. It is not, sir.

Q. Have other parties furnished, I mean now, I am speaking of parties outside of the attorneys for the plaintiff in this case, and of the plaintiff herself, if other parties haven't furnished money for the purpose of carrying on this litigation?

A. Not a dollar.

Q. Have they furnished services contingent, the payment of which was contingent upon your recovery in this case?

A. No, sir.

Q. I will ask you if Mr. Clark's fees ain't dependent upon your recovery?

A. I don't know what the arrangement between Mr. Clark and Mr. Hutchings was, because I was not present when made; I don't know, there was a private arrangement between Mr. John Hutchings who is now dead, and Mr. Clark.

Q. In regard to what the arrangement was, you don't know?

77 A. No, sir, I don't know; Mr. Hutchings was one of the attorneys with me in the case, called into the case by me.

By Mr. C. F. Hutchings:

Q. You may state to the jury, Mr. Riggs, whether you as counsel for the plaintiff in this case, ever used any money for any purpose except to enable the plaintiff to have a fair trial.

By Mr. Barker: I object to that; nobody said they did.

Now come the defendants above named and move the court to vacate and set aside all orders heretofore made in said action, allowing said plaintiff to sue without giving security for costs.

And also for an order requiring said plaintiff to give security for costs in this action, for the following reasons:

Because since the making of the last order in said case in regard to security for costs, the financial condition of said plaintiff has materially changed in this to wit:

That since said date she has received a large amount of money and is now abundantly able to give security for costs.

The said defendants also move the court to require said plaintiff to give security for costs for the reason that she has never complied with the law allowing plaintiffs to sue as a poor person.

Sallie E. Hillmon
vs.
Connecticut Mutual Life Insurance Company.

And now comes the said defendants, the Mutual Life Insurance Company of New York, and the Connecticut Mutual Life Insurance Company on this 9th day of May A. D. 1898, and this cause having been heretofore by order of this court,

and by and with the consent of the parties set down for trial on the 14th day of February, A. D. 1898; and said trial having been then on that date, on the application of the plaintiff, on the ground of her illness postponed until the 3rd day of May A. D. 1898; and the said trial having been again on that 3rd day of May, upon the suggestion of the plaintiff's attorneys, of sickness in the family of one of said attorneys postponed until this 9th day of May; and application for the continuance of said cause and the postponement of the trial thereof necessarily beyond the present term, being now again renewed upon like suggestion merely of plaintiff's attorneys, and the ground of said suggestion having existed with equal force since before the said 14th day of February, 1898, and there being no representation to the court, that the said ground may not continue for a long time and almost indefinitely; and the said cause having been now pending for about nineteen years, to wit: since the 13 day of July, 1880, and having already tried five times before five different judges of this court; the average duration of each of said trials having been more than four weeks; and for other reasons hereinafter referred to, this defendant moves the court for
94 an order, that this cause proceed immediately to trial, or that the same be dismissed forthwith for want of prosecution.

This motion is founded upon the matters above suggested, and, also upon the proceedings and findings of this court, shown in the files and records of this court, and of the District Court of this district in certain proceedings had therein, to which this defendant refers for all purposes of this motion, to-wit:

First. An application of the New York Life Insurance Company, The Mutual Life Insurance of New York, and the Connecticut Mutual Life Insurance Company, filed in this court —— day of March, 1897, for a rule on Webb McNall, Superintendent of Insurance of the State of Kansas, to show cause why he should not for reasons stated in said application be proceeded against for contempt of court.

Second. The case of the United States against Webb McNall, being number 3401 of the Criminal Calendar of the District Court aforesaid, being an indictment of said McNall in the court founded upon the same matters which were the ground of the aforesaid application concerning contempt of this court.

Third. A bill in chancery against the said McNall and others for injunction founded on the grounds aforesaid, and

filed in this court on the 27th day of July, 1897, and being case Number 7503 on the Equity Docket of this court.

And I still owe and am indebted in sums of money more than that last named sum, and more than I am now able to pay, and I feel sure and believe that I would not be able to procure any person or persons to become security for costs in this said above entitled action, even if I should be ordered or required to give security for costs in this said action.

C. F. Hutchings being duly sworn, deposes and says that he is and has been for several years one of the attorneys for the said plaintiff and during said time has assisted in the trials and other proceedings had in the above causes; that if said causes are tried, or the trial thereof commenced during the present month of May, 1898, affiant cannot be present to assist in such trial for the following reasons, to wit: Affiant's daughter in the month of March last was very sick of the disease called acute spinal meningitis, and by the advice and instruction of her physician, affiant took her to Hot Springs, Arkansas for medical treatment, the baths there administered from the natural hot waters being considered beneficial in such cases. That as the result of said disease affiant's daughter entirely lost the use of her limbs and became so nervous, weak and paralyzed that she could not walk or stand upon her feet and was confined to her bed most of the time and could only be removed from her room by carrying her or by means of a rolling chair, and her life was for a long time despaired of; that in addition to said bodily weakness her mind became greatly affected so that she was almost constantly in a state of great mental despondency and depression of spirits, and required the most constant and assiduous attention; that during

99 all of the time since her removal to Hot Springs her mother had been her attendant, but from the incessant strain incident thereto has become wearied and ill, and is very desirous of returning to her home where her other children, one of whom is a young lad are left without other attention than such as affiant or a servant is able to bestow; that his wife has urgently requested affiant to come to her assistance and it is necessary that affiant should either go to Hot Springs and take the place of his wife or bring his sick daughter home, and he has resolved upon the latter course as soon as it can be done with the approval of the attending physician; that affiant is informed that his daughter is improving very slowly, but is subject to sudden and dangerous relapses; that affiant started to go to Hot Springs last week for the purpose of

accompanying his daughter home, but before reaching there was informed by his wife that the attending physician strongly advised against such course at that time, but was of opinion that in a week or ten days she may in the absence of a relapse, be safely brought home; that affiant has accordingly arranged to go to Hot Springs on the 11th day of May for that purpose; that in affiants opinion it would be wholly impracticable for his daughter in her sick and enfeebled condition to undertake the journey home without the personal presence and assistance of affiant; that it is necessary on the journey home to change cars at St. Louis and wait sometime for a connecting train, and both affiant's wife and daughter are unaccustomed to traveling; that for the reasons stated affiant cannot until after she shall have been brought home engage in the trial of said causes, at least without neglecting his duty to his, affiant's daughter; that it is impossible to state or fix a time when she can be brought home, but affiant is strongly encouraged by reports from his wife and the attending physician to believe that she will in all probability be able to undertake and accomplish the journey before the 1st day of June; that if affiant's daughter should become worse, or if she should remain in her present condition without further improvement it is necessary that affiant should go to Hot Springs and remain there and devote his entire time and personal attention to her care.

Now come the parties herein, the plaintiff appearing by L. B. Wheat, her attorney, and the defendant by J. W. Green and George J. Sallie E. Hillmon, Plaintiff,
vs.
The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, Defendant.

The defendant The Connecticut Mutual Life Insurance Company of Hartford, moves the court to quash the venire and discharge the entire panel of jurors, drawn for the trial of the above entitled action to be had on the 16th day of October, 1899; for the following reasons:

First. That said jurors were not publicly drawn from a box containing at the time of such drawing, the names of not less than three hundred (300) persons, possessing the qualifications provided in section 800 of the Revised Statutes of the United States.

Second. Because said jurors were not publicly drawn.

Third. Because said jurors were privately drawn.

Fourth. Because said jurors were privately drawn without any notice, knowledge of information to said defendant of the time or place when the drawing of said jurors would take place.

Fifth. Because said jurors were not drawn in the manner prescribed by law.

Sixth. Because the names and residences of the jurors so privately drawn, were kept concealed from this defendant.

Seventh. Because at the time of the filing of this motion the names of said jurors were unknown to this defendant nor could it ascertain the names or residences thereof, by any means within its power.

The defendant The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, respectfully moves, asks and requests the court to vacate and set aside so much of the order of said court of May 9, 1898, which consolidates or attempts to consolidate this action for trial with the case of Sallie E. Hillmon, Plaintiff, vs. The Mutual Life Insurance Company of New York, defendant, for the following reasons:

First. That said order was inadvertently made.

Second. Because said actions are not such actions as can be, under the law, consolidated for the purposes of trial.

Third. Because the issues in said cases are not the same.

Fourth. Because said court theretofore and on the 15" day of February, 1897, made an order severing said actions and setting aside the order of consolidation theretofore made.

Fifth. Because it was agreed, in writing, between said parties that each should be entitled to a separate trial.

Sixth. Because such an order of consolidation would be greatly prejudicial to the rights of this defendant.

v.
The Mutual Life Insurance Company of New York, Defendant.

Sallie E. Hillmon, Plaintiff,
v.
The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, Defendant.

Motion.

The defendants respectfully move, ask and request the court to discharge the jury empaneled in this case and to issue a new venire on account of the remarks of the Judge of said court, made in the presence of the jury and while said court was in session, which are as follows, and which greatly prejudice and impair the rights of said defendants before said jury and on account of which the defendants cannot have a fair and impartial trial before said jury;

By the Court: I desire to say this: There is a juror whose conduct is very commendable, and whom I honor for it, has stated to me that a communication was made to him which he interpreted as a preliminary to an offer to bribe. He stated to me the language that was used to him and it looks to me very much as it did to him, but inasmuch as there might be some mistake, I think it best not to mention the name of the party who made the communication, or the name of the juror to whom it was made, but I desire to say this, that if there is any further effort made in that direction, I will have

hat man's name presented to the next grand jury for in-
ictment: It is no lawyer connected with this case. I do
ot mean to say that the effort came from either side of this
ase, and no counsel is called upon, it is not necessary in the
ind of the court for any counsel to say anything one way or
the other about it. There is no reflection cast upon any
23 one directly connected with this case, so far as I know,
but I desire to say to the person that that must be
topped, and it must proceed no further. If I can prevent it,
his case will not be tried with anything of that sort in it.

Remembering, gentlemen, the admonition that has been
iven you return into court at 2 o'clock.

142 In this case the question to be determined is whether the body brought to Lawrence in April, 1879, was the body of John W. Hillmon. Proof has been offered, which has not been disputed, that the corpse had a perfect set of teeth, without decay or imperfection. If it appear by a preponderance of the evidence that John W. Hillmon in his life time had lost a tooth or that any of his teeth were imperfect then it follows that the body at Lawrence was not the body of John W. Hillmon but the body of some other person and if you find from a preponderance of the evidence that John W. Hillmon in his life time had lost a tooth or had imperfect teeth, then you will return a verdict for the defendants. In determining the preponderance of the evidence on this question, if the number of the witnesses testifying on this question are persons of equal credibility and standing and with equal means of knowledge, then the party producing the greater number of witnesses on that question must prevail in this case.

No. 1.

No. 2.

In determining the issues in this case you will be careful to exclude from your minds, and from all consideration, the financial condition of the defendant insurance companies. This case is to be decided solely upon the evidence, unaffected by such considerations, as they are not legitimate matters to be

brought into this case either in evidence, argument or otherwise.

No. 2.

It is not only necessary for the plaintiff to prove by a preponderance of the evidence that John W. Hillmon is dead, but it is also necessary for her to prove by a preponderance of evidence that he was dead before the commencement of this action, and that he died at the time and in the manner in her petition and reply in this action averred.

No. 3.

143 In order to enable the plaintiff to recover upon the policies of insurance, it is necessary that she prove that the death of John W. Hillmon occurred at the time and in the manner alleged in the pleadings of the plaintiff in this case.

No. 4.

No. 5.

The plaintiff must prove that the body brought to Lawrence was the body of John W. Hillmon to the satisfaction of the jury by a preponderance of testimony.

No. 5.

No. 6.

It is not necessary that the defendants should prove that the body was the body of Walters, but the plaintiff must prove by a preponderance of testimony that it was the body of Hillmon.

No. 6.

No. 7.

The preponderance of testimony in this case is that the body was not the body of Hillmon.

No. 7.

The evidence introduced to the effect that John H. Brown testified to certain things before the coroner's jury at Lawrence is no proof of the truth of the statements, but is only to be considered by the jury as evidence of the fact that such a statement was made by Brown then and there.

No. 8.

144 That it is undisputed in this case that two men, Hillmon and Walters, disappeared during the month of March, 1879. That one of them, namely Hillmon, if alive, had every reason for concealment, while with regard to Walters, no reason for his disappearance is shown to exist. That Hillmon, if alive, after that month, was guilty of murder, and an attempt to swindle the insurance companies, while Wal-

ters was guilty of no offense which would induce him to conceal himself.
No. 9.

That the evidence tending to identify the body as that of F. A. Walters of Fort Madison, Iowa, is not contradicted by any direct evidence in this case.
No. 10.

That every witness who identifies the body as that of F. A. Walters in effect denies the identity of the body as that of Hillmon.
No. 11.

The releases signed by the plaintiff, Mrs. Hillmon, discharging and releasing the defendant companies, from all claim under and liability upon the policies sued on are such written instruments as, under the law, import a consideration, and the execution of said releases being admitted, they are admissible on the part of the defendants as evidence as admissions on the part of the plaintiff that no lawful claim could be made under said policies, or that no right of action thereon existed when said releases were made, and in considering her act in executing these releases, and in ordering the policies to be surrendered and delivered up to the defendants, the jury should ascribe to her only the ordinary and usual motives which ordinarily influence persons, and not ascribe to her unusual or fanciful motives, inducements or controlling influences.
No. 12.

145 The execution of an order for the policies and releases of the policies by Mrs. Hillmon would justify the jury in finding that Mrs. Hillmon knew at the time of the execution of the aforesaid papers, that her husband was alive.
No. 13.

That the jury are at liberty to find that the reason why the plaintiff executed the order for the policies and also executed the releases of the policies was the fact that she was aware that John H. Brown had made a statement and that her executing this paper was an acquiescence on her part in the fact that her husband was not killed in Barber county, but was still alive.
No. 14.

No. 15

It is not necessary that the conspiracy alleged in the answer of the defendants should be proved in order to defeat the plaintiff's right to recover in this action, the question being whether or not the body brought to Lawrence was the body of John W. Hillmon.
No. 15.

It is not necessary in this case that the defendant companies prove the alleged conspiracy or prove fraud or any fraudulent intent. But nevertheless, if the jury find that the body brought to Lawrence was not the body of John W. Hillmon, then Mrs. Hillmon cannot recover.

No. 16

The essential point of this case is the identity of the body, and if you believe the body brought to Lawrence was not the body of Hillmon then the plaintiff, Mrs. Hillmon, cannot recover even though the defendant companies fail to show any fraud or conspiracy.

No. 17

146

No. 18

If it is a fact that the relatives and parents of Frederick A. Walters at once recognized the picture of the dead body immediately on seeing it as the body of their son, such fact is entitled to great weight on the question of the identity of the body at Lawrence. This identification in connection with the letter of Frederick A. Walters to his sister, from Wichita, stating that he would start from Wichita west on March 5th with a man named Hillmon; and in connection with the confession of John H. Brown as to the killing by Hillmon of a man near Medicine Lodge on March 17th, 1879, constitute evidence of great weight in determining the identity of the body brought to Lawrence.

No. 18

The causes and reasons why human beings recognize one another with whom they are acquainted do not depend upon analysis of separate features, but rather upon general appearance, in which many elements combine, and it is therefore immaterial if a witness, when called upon to describe in detail the features of a party whom he is identifying, differs in some of these details from others, if he is able to say that as a whole he recognizes the person by his general appearance. As a matter of fact, the act of recognition between friends and even members of the same family, may not depend upon the color of the hair, the condition of the teeth, the size or shape of the nose, or any independent feature, but upon the individual appearance of the individual as it makes an impression upon the mind or brain of the observer.

No. 19.

There is no evidence in this case showing or tending to show that the coroner's inquest held at Lawrence in 1879 was not a properly and legally constituted tribunal, engaged in a proper and legal inquiry. The law of Kansas provides that "when the coroner has notice of a dead body of a person supposed to have died by unlawful means, the cause of whose

death is unknown, found or being in the county, it shall b
his duty to summon forthwith six citizens of the count
147 to appear before him at the time and place named b
him," and under this provision of the law of Kansa
the coroner had jurisdiction to hold an inquest over the bod
that was brought to Lawrence.
No. 20.

Under the facts and circumstances developed in this case
I instruct you as a matter of law that it was not only legal bu
it was the duty of the coroner of Douglas county to hold a
inquest over the body brought there on or about the secon
day of April, 1879.
No. 21.

Flight by a party is legitimate evidence tending to sho
his consciousness of guilt, and in this case, you can take int
consideration that fact for the purpose of determining whethe
or not there was not a crime committed in Barber county wit
which he, Brown, was connected, the fact that he, Brown fle
from the State of Kansas.
No. 22.

No. 23

There is no evidence in this case proving or tending to prov
that Wm. J. Buchan has been guilty of any illegal or unpro
fessional acts or conduct in connection with this case, or tha
he was not duly and properly authorized by John H. Brown t
deal with the insurance companies and receive his compensa
tion from them. Members of the bar are officers of the court
and are engaged with the court in the administration of jus
tice, and it is the duty of the court to state its opinion to th
jury, if the court sees that an unjust or unfounded charge b
made against any member of the bar in connection with an
suit then pending before the court.
No. 23.

The jury are not at liberty to arbitrarily and capriciously
reject or disregard the testimony of an uncontradicted wit
ness, but it is the duty of the jury to so reconcile the testi
mony in the case as to give effect to the testimony o
148 such witnesses.
No. 24.

Exhibit number "26" which has been called in this case th
"Munn paper" is not, under the laws of Kansas the compound
ing of a felony, nor is it possible as a matter of law for an
agent of a corporation to bind his principles or agree for them
to compound a felony.
No. 25.

If you find that W. J. Buchan as the attorney of John H. Brown was given by him authority to get the compensation for his Buchan's services from the insurance companies and did with his client's consent so obtain his compensation the court instructs you that obtaining of his compensation in such manner was in nowise illegal, improper or unprofessional.

No. 26.

The coroner in the exercise of his functions would have a right during the progress of an inquest, if in his judgment the conditions demanded it, to order an exhumation of a buried body over which the inquest was being held, in order to make further examinations.

No. 27.

The lapse of time since the alleged death of John W. Hillmon is an immaterial matter in this case for the reason that the real question in this case is whether or not John W. Hillmon died at the time and in the manner in said petition alleged, that is from a gun-shot wound at the hands of one John H. Brown at Barber county on the 17th day of March, 1897.

No. 28.

In weighing and considering the testimony of witnesses the jury should take into consideration among other things their interest in the controversy; that while the laws of the
149 State of Kansas provide that no person is disqualified as a witness in any civil action by reason of his or her interest in the event of the suit as a party or otherwise, yet such interest should be taken into consideration by the jury for the purpose of affecting the credibility of such party or witnesses.

No. 29.

The jury are the sole judges of the weight of testimony and of the credibility of witnesses and in determining the credibility of witnesses you should take into consideration the interest, motive, conduct and appearance of the witness upon the stand, and if you are satisfied from the evidence that any witness has testified falsely in regard to a material fact you are at liberty to reject the testimony of such witness entirely.

No. 30.

The statement by J. W. Hillmon to the agents of the Life Insurance Company when he made out applications for policies that he was 5′ 11″ in height is not to be taken by you as evidence that such was his height.

No. 31.

In considering the testimony of witnesses, you are to allow greater weight to those witnesses whose testimony is affirma-

tive than to those whose testimony is negative. In oth
words, that the evidence of a witness who affirmatively tes
fies that a conversation took place or an occurrence happen
in the presence of other parties, is entitled to more weig
than the evidence of a witness claiming to be present, but w
simply testifies that he did not hear the words spoken or s
the occurrence.

No. 32.

150 There is no proof in this case that the plaintiff h
married since the commencement of the action, and
would not be competent for the plaintiff to make such pro
because she could not by her own acts make evidence for h
self or attempt to strengthen the presumption of the death
the said John W. Hillmon on March 17th, 1879, by her subs
quent remarriage.

No. 33.

The Supreme court of the United States in the case of Greg
vs. Houston, 104 U. S. 553, speaking through Chief Justi
Waite:

"If upon the evidence the jury had brought in a verdi
against the defendants, it would have been the duty of t
court to set it aside and grant a new trial. It is right, ther
fore, to direct a verdict for the defendants."

In accordance with the rule of law which is again enun
ated by the same court in the case of Randall vs. The B. & O
Rd. Co., 109 U. S. 478, being of opinion that it would be n
duty in the event of a verdict for the plaintiff, to set the sam
aside, I charge you that you must find a verdict for the d
fendants.

No. 34.

The jury are instructed that all efforts or attempts by an
one interested in any matter to suppress or destroy or to a
complish the suppression or destruction of pertinent evidenc
are always deemed prejudicial circumstances of great weigh
against such party; and that all attempts by any such perso
to disturb the current of truth and justice, or to prevent a fa
or impartial trial by endeavors to intimidate witnesses or pe
suade them to the concealment, suppression, destruction o
alteration of any matter of evidence, are to be regarded a
denoting on the part of such person a consciousness of gui
and a desire to evade the pressure of facts tending to establis
it.

No. 35.

151 The jury are instructed that if they believe from th
evidence that before the institution of this suit, th
plaintiff had been told and was informed and was thereby no

tified that Levi Baldwin, John H. Brown and John W. Hillmon had confederated and conspired together to procure from the defendant insurance companies the policies sued upon in these cases, for the purpose and with the intent to procure and fraudulently present to the defendants a dead body of another person than the insured, as that of the insured and of thereby falsely representing the said insured to be dead; and that they had accordingly in fact produced, received and accepted said policies in execution to that extent of the design and purpose aforesaid; and that the dead body presented to the defendants was one procured and presented by said persons conspiring together as aforesaid and was falsely represented by them to be the body of the insured; then by the institution of this suit and by claiming therein the body so presented to be the body of the insured she thereby availed herself of and adopted and made in legal effect, her own, all the acts done by said persons and each of them so confederating and conspiring in aid and furtherance of the matter of said unlawful combination and conspiracy with like legal effect as to her as if she had been one of the parties originally conspiring.

No. 36.

The jury are instructed that if they believe from the evidence that Levi Baldwin, John H. Brown and John W. Hillmon confederated and conspired together to procure from the defendant insurance companies the policies sued upon in this case for the purpose and with the intent to defraud the said defendants by procuring and presenting to the said defendants a dead body of another person than the insured, representing the same to be that of said John W. Hillmon, thereby pretending to the defendants that said insured was dead, though still living; and that they procured and accepted the said policies in pursuance and in furtherance of said unlawful scheme and that thereafter while engaged in the prosecution of said unlawful scheme, the said John W. Hillmon
152 actually came to his death; then the jury are instructed that right of action against the defendants accrued and no action can lie on the said policies even though the dead body actually presented to the defendants was really that of the said John W. Hillmon.

No. 37.

The jury are instructed that if they believe from the evidence that Levi Baldwin, John H. Brown and John W. Hillmon confederated and conspired together to procure from the defendant insurance companies the policies sued upon in this case, for the purpose and with the intent to procure and fraudulently present to the defendants a dead body of another person than the insured, as that of the insured, and of thereby

falsely representing the said insured [—] be dead; and that they did accordingly, in fact procure, receive and accept said policies in execution to that extent of the design and purpose aforesaid; then and in such case, the said contracts of insurance, so fraudulently and with such fraudulent intent procured and received, were never valid, but were void, and never attached to the life of said John W. Hillmon, and no right of action can be founded thereon in this case, and the jury must find for the defendants.

No. 38.

The jury are instructed that where there are a number of witnesses upon any general subject, combination among them is rendered more difficult and opportunities and facilities of contradictory alleged facts, if they be not true, are increased in proportion to the number of such witnesses or circumstances. The general accordance of all material circumstances and the general credit of the whole are confirmed by subordinate and slight diversities which show that the general agreement and concord have not been produced by meditation or fraudulent contrivances but must necessarily be true. Differences between witnesses or between statements of the same witness upon such matters as dates, localities or other subordinate matters may often confirm the substan-
153 tial truth of the testimony. In all such cases the jury may consider and determine whether such diversities arise from a purpose of the witness to deceive or whether they illustrate, merely, the general uncertainty of human memory in matters of minute and subordinate detail.

No. 39.

There has been some allusion in the course of the trial to the compounding of a felony. The court, during the progress of the trial, instructed you that you were to pay no attention to the insinuations of counsel, and the court now further instructs you that there has been no proof introduced of the compounding of any felony nor is there any issue of that kind in this case, and you are to wholly disregard any illusions of counsel on that subject.

No. 40.

If you believe that John W. Hillmon sold or disposed of mortgaged chattel property in such a manner, in 1878, as to be guilty of a crime in Texas, punishable with imprisonment, in the penitentiary you are then at liberty to consider the probability that such crime would tend to induce him to disappear or to go to unknown parts or conceal himself, and this tendency you may further consider in your deliberations as to whether the body found at Crooked Creek was the body of Hillmon.

No. 41.

You are instructed that by the laws of the State of Texas in the year 1878, it was provided that if any person had given a mortgage in writing upon any personal or movable property and should, during the existence of such chattel mortgage, remove the said property out of the state or dispose of the same with intent to defraud the person having such lien; such act or acts would be criminal and the person found guilty thereof would be subject to imprisonment in the penitentiary of Texas for a term not less than two nor more than five years.

No. 42.

154 You are instructed that Exhibit [—] called the Munn paper, had nothing to do with the obtaining of the insurance, or with the alleged death, or with the proof of death, or with the making of the alleged releases, and had no influence upon the plaintiff or any of her acts and in no wise affected her interests or her rights, and the said paper may be wholly disregarded by you, and you are not to consider it in arriving at a verdict.

No. 43.

The jury are instructed that the statement signed and sworn to by John H. Brown on the 4th day of September, 1879, having been introduced in evidence by the plaintiff, may be considered in connection with the deposition of John H. Brown as evidence of the facts therein stated under oath, against the plaintiff, with like effect as the deposition of John H. Brown; and may also be considered as affecting the credibility of said Brown as a witness.

No. 44.

It is not incumbent for the defendants to account for the absence or whereabouts of John W. Hillmon.

No. 45.

The jury are instructed that if they believe from the evidence that the issuance of the policy of insurance by the defendant, The Mutual Life Insurance Company of New York upon the life of John W. Hillmon was procured through fraud or through any attempt at fraud by said Hillmon alone or by said Hillmon confederating and conspiring with Levi Baldwin and John H. Brown then said policy is absolutely null and void and they are to find for the defendant.

No. 46.

The jury are instructed that if they believe from the evidence that the issuance of the policy of insurance by the defendant, The Connecticut Mutual Life Insurance Com-

155 pany of Hartford, Conn., upon the life of John W. Hillmon was fraudulently procured by said Hillmon alone

or by said Hillmon confederating and conspiring with Levi Baldwin and John H. Brown, then such policy is absolutely null and void, and they are to find for the defendant.

No. 47.

There has been testimony offered that the defendant companies paid a part of the expenses of the coroner's inquest and for the transcribing of the notes of evidence and for the post mortem examination, and the exhuming of the body, and the taking of photographs and plaster cast of the teeth of the corpse. You are instructed that the defendants had a perfect right to make such payments if they so desired; that by so doing, they wronged nobody, and that such acts in no wise injured the plaintiff, and she has no right to complain that such payments were made; and I instruct you that in arriving at a verdict, you are to wholly disregard the fact of such payments.

J. W. GREEN,
E. F. WARE,
EDWARD S. ISHAM,
GEO. J. BARKER,
for Defts.

Indorsed: No. 3147-3149. Hillmon vs. Insurance Companies. Instructions requested by defts, forty-eight in number. Filed Nov. 18, 1899. Geo. F. Sharitt, clerk, All refused except as given in general charge. William C. Hook, Judge.

United States of America,
156 District of Kansas.

In the Circuit Court of the United States for said District.

Sallie E. Hillmon, Plaintiff,
No. 3147 vs.
The Mutual Life Insurance Company of New York, Defendant.
and
Sallie E. Hillmon, Plaintiff,
No. 3149 vs.
The Connecticut Mutual Life Insurance Company, Defendant.

And now the plaintiff in each of the above entitled actions askes the Court to give the following instructions to the jury, which request is made separately and severally as to each of said instructions respectively as written and numbered as follows, to-wit:

1st. That if the jury believe from the evidence that John W. Hillmon was killed in March, 1879, about the 17th or 18th of that month they should in each of these cases find for the

plaintiff and assess her damages at the amount of the policies sued on made by each defendant respectively, with interest thereon at the rate of six per cent. per annum from the first day of October, 1879.

2nd. The undisputed evidence in these cases shows that there was no consideration for the releases signed by the plaintiff, and therefore the same are wholly inoperative to release the plaintiff's causes of action upon the policies.

3d. That if the jury believe from the evidence that there was not any consideration for any of the releases plead by either of the defendants—or that they were obtained under circumstances and in the manner stated by plaintiff; and if the jury also believes from the evidence that John W.
157 Hillmon was killed in March, 1879, then they should find for the plaintiff and assess her damages at the amounts of the policies in each case with interest thereon at the rate of six per cent. per annum from the first day of October, 1879.

4th. That if the corpse brought to Lawrence in April, 1879, was that of John W. Hillmon, then the jury should, upon the evidence given in relation to the manner said releases were obtained, and of want of consideration therefor, disregard these releases and find for the plaintiff.

5th. That it is not incumbent on the plaintiff to account for the whereabouts or absence of Frederick A. Walters.

6th. The jury are instructed that they must use their common knowledge such as any man may bring to the subject when considering the evidence in this case and every part thereof for the purpose of determining the reasonableness thereof and the weight and effect to be given the same.

7th. That neither fraud or any intention to commit fraud should be presumed against plaintiff or John W. Hillmon, and none should be found unless established by a preponderance of evidence, the law presumes in favor of innocence, and that there was neither fraud nor crime either in the matter of procuring the policies or of the death of the person whose corpse was taken from Barber county to Lawrence unless shown by a preponderance of the evidence.

8th. That the statement signed by John H. Brown and by him sworn to on the 4th day of September, 1879, before a Notary Public, is not evidence in these cases of any fact therein stated as against the plaintiff and should not be considered further than on the question of credibility of John H. Brown as a witness, and on that question of credibility the jury

should consider all of the testimony showing, under what circumstances he made the same, and as to whether he was or was not induced to make the same by W. J. Buchan and whether Buchan was acting as his attorney at the time and all other evidence that will help to show why Brown made that statement.

9th. That the evidence is not sufficient to show that
158 plaintiff was a party to any conspiracy to defraud the defendants, and no statement made by John H. Brown, either in his conversations with W. J. Buchan, or in the paper signed by said Brown, dated the 4th day of September, 1879, is evidence that the plaintiff was a party to any conspiracy or other wrong, or that she had any knowledge of or that there was any such conspiracy as claimed by the defendants.

10th. The jury are instructed that the vaccination sores on the arm of the body examined at Lawrence were important as proofs bearing upon the question of identity. And if the jury shall find from the evidence that any of the witnesses testifying on the behalf of the defendants at this trial removed and carried away such vaccinations sores or a part thereof or the skin showing the same, without the knowledge or consent of the plaintiff with a view to prevent, hinder or impede the plaintiff in the examination or investigation of such sores, the jury are at liberty to disregard all the testimony given by such witnesses touching such vaccination sores, their condition, appearance, and may consider the facts of such removal in determining the weight to be given to the testimony of such witnesses upon all other matters.

11th. The jury are instructed that the jury have a right to determine from all the circumstances surrounding and attending that so-called inquest held at Lawrence whether or not it was planned and conducted with a view to controlling, in the interest of the defendants, the custody and inspection of the body and shaping proofs bearing on the question of the identity of that body.

12th. That when a party is shown to have suppressed evidence, the presumption is that the evidence was injurious to the party suppressing the same; and the jury may consider whether the defendants by their agents for the managements of these suits have purposely suppressed or lost the piece of flesh containing the whole or any part of both or of either of the vaccination marks or scabs that were on the arm of the dead body at Lawrence or the tintype mentioned in the testimony as having upon it likenesses of John H. Brown and John W. Hillmon, or the hair that was taken from the dead body at Lawrence by Dr. J. H. Stuart.

159 13th. That it would not have been improper for Levi Baldwin if he was second cousin of the plaintiff to have assisted her in preparing proofs required by the policies sued on to be furnished before suit;

Men have a lawful right and frequently ought to assist their female relatives in the protection and enforcements of their rights.

14th. And all men have a right to assist the weak and the needy, whether that necessity or weakness consists in matters personal or want of knowledge or education, or habit of life. Especially is it proper for men to assist women in matters of business with which the women may at the time be unacquainted.

15th. That it would have been perjury in the witness, John H. Brown to have intentionally testified untruthfully in regard to any material matter at either of the inquests held in Barbour county, or at the inquest held at Lawrence if such inquest was a legal one, or in his deposition in this case; but it was not perjury in him to make false statements in his affidavit made on the 4th day of September, 1879, at Parkville, Missouri, because that affidavit was given ex-parte and not in a proceeding in court nor authorized by law; and any untruthful statement in that affidavit is in contemplation of law like any other false statement not made under oath and is no more an offense against the law of the land than the statements contained in the letters of Charles R. Walters, should the jury find them to be false.

16th. If you believe from the evidence that the statements made by Charles R. Walters in his letters to H. S. Clarke, are true and were believed by said Walters to be true when he wrote the same, then the court instructs you that in denying the truth of said statements and testifying that they are false upon the trial of this case, the said Charles R. Walters, committed the crime of perjury; and if you further believe that he did wilfully testify falsely in relation to said letters upon this trial of this case, then you are at liberty to disregard the whole of his testimony.

17. In determining the weight to be given the testi-
160 mony of Charles R. Walters, you, have a right to take into consideration and it is your duty to do so his statements in relation to the letters written to H. S. Clarke, and that some of the statements therein contained are false and were written for the purpose of misleading and deceiving said H. S. Clarke, and to conceal the facts in relation to the identity of his brother, Frederick Adolph Walters. You have

a right to take into consideration all of the facts in relation to the writing of said letters, to determine whether the statements made by said Walters was true or false. You may also consider whether said Walters has at previous trials of this case, testified that said letters were intentionally false.

18. And the Jury are further instructed that the plaintiff's case does not at all depend on the question as to whether the jury believed John H. Brown to be a truthful witness or not. If the dead body brought to Lawrence was that of John W. Hillmon, the plaintiff is entitled to recover even if the jury should disregard the evidence of John H. Brown.

19. That the jury may consider whether the affidavit of John H. Brown, made on the 4th day of September, 1879, at Parkville, Missouri, was obtained for the purpose of preventing him from testifying to the truth in actions on the policies sued on in these cases.

20. The Jury are instructed that the evidence is not sufficient to show that John W. Hillmon was a party to any conspiracy.

21. That if the Jury believe from the evidence that the dead body mentioned by witnesses as having been brought from Barbour county to Lawrence about the first of April, A. D. 1879, was the dead body of John W. Hillmon, then it is not necessary for the jury to find whether there was or was not a conspiracy.

22. If the dead body mentioned by the witnesses as having been brought to Lawrence in the first part of April, A. D. 1879, was the dead body of John W. Hillmon, then it is immaterial whether there was or was not a conspiracy as claimed by the defendants.

161 24. All contracts and agreements by which any persons or corporations having knowledge that any crime has been committed promises or agrees to withhold or suppress any such knowledge, or grant immunity from prosecution to the person or persons guilty of such crimes are against public policy and absolutely void; and all persons entering into such contracts or agreements in consideration of any benefits received or promised them for so doing are guilty of a criminal offense.

And if you believe from the evidence that the defendants, through their representatives, acquired information which they believed to be true that Hillmon and Brown had entered into a conspiracy to kill a human being for the purpose of wrongfully obtaining the payment of the policies sued on and that to procure the surrender of said policies the defendants prom-

ised through their representatives not to prosecute or furnish evidence to prosecute John H. Brown for such supposed crime and by the means of such promise procured the releases set up in the answer, then such releases are void.

25. That the evidence is not sufficient to sustain any verdict or finding that Levi Baldwin, John H. Brown and John W. Hillmon or any of them made or entered into any such conspiracy as claimed by defendants.

26. That if the Jury believe from the evidence that Alvah Baldwin and Levi Baldwin were second cousins of plaintiff then they ought to consider whether it was not proper that these cousins should do whatever they did to aid the plaintiff in respect to any of her matters of business and the jury would not be justified in finding that Levi Baldwin was a party to any conspiracy because of any act shown to have been done by him for the plaintiff.

162 27. That the Jury may consider the evidence relating to the matter of the height of John W. Hillmon as it is in the certificate of Dr. J. H. Stuart, dated on the 25th of February, A. D. 1879—and if the Jury believe from the evidence that the erasure on the paper in connection with the matter of that height was made at the instance of defendants to cast suspicion on the plaintiff or any one acting for her or for the purpose of creating doubt as to whether that height was first therein written as being five feet eleven inches, then the Jury may consider that matter in connection with all the evidence introduced by defendants even on other subjects and matters; because if defendants so did in relation to that matter for such purpose then the jury may rightfully consider whether any other evidence in the case had or has not been manufactured by defendants; and in considering such matter the Jury may also take into consideration the testimony in relation to the transaction between William J. Buchan, John H. Brown and the defendants to assist in determining what defendants would do either to procure evidence or destroy either the evidence or character of a witness for the purpose of injuring plaintiff's case.

28. That the Jury is the sole Judge of the credibility of the witnesses, and if the jury believe from the evidence that any witness has wilfully testified, falsely in regard to any material matter then the Jury may disregard all of the testimony of any such witness.

29. That the Jurors are the sole judges of the credibility of the witnesses, and if the Jury believe from the evidence that any witness has wilfully testified falsely in regard to any material matter then the Jury may disregard all of the testimony

of any such witness and if the jury further believe, from the evidence, that any witness testified falsely with regard to the matter of whether the height of John W. Hillmon was first written 5 feet 11 inches in the certificate of Dr. J. H. Stuart dated on the 25th day of February, A. D. 1879, at the instance of defendants, or of those representing the defendants in the matter of the defense in these actions, for the purpose of casting imputation on the plaintiff or those representing her, then the jury may consider that matter in connection with
163 any other testimony introduced by defendants which could have been either manufactured or obtained or produced by improper means—this because if a party would do such acts for such purpose that may be by the Jury considered in considering whether those representatives would intentionally introduce false or perjured testimony.

30. That, because of receiving and retaining the premium paid for a period of time later than March, 1879, the defendants are not in position to ask that the policies be considered void and inoperative because of any fraud or conspiracy by any of them alleged; therefore, if the jury believe from the evidence that John W. Hillmon died in March 1879, and that there was not any consideration for any of the releases, they should find for the plaintiff.

31. That the testimony given by William J. Buchan in relation to statements he testifies were by John H. Brown made to him concerning or as to who was killed, or as to who did the killing, is not competent or proper to be by the jury considered as evidence either showing or tending to show as against plaintiff, who was killed or that John W. Hillmon killed any other person, but only go to the question of the credit to be given to the testimony of John H. Brown.

32. The statement made in writing by John H. Brown dated of the 4th day of September, 1879, is not competent or proper testimony to prove against plaintiff, that John W. Hillmon killed any person or that John W. Hillmon was party to any conspiracy or that there was any conspiracy or wrongful act done.

33. That if the Jury believe from the evidence that about the 15th day of March, 1879, plaintiff offered to surrender or to give up the policy made by the Connecticut Mutual Life Insurance Company if Selig would give her the premium paid thereon, they may consider that as bearing upon the question of the good faith of John W. Hillmon in his transactions with defendant companies.

34. That the uncontradicted testimony clearly shows that there was not any lawful consideration for the papers referred

to in the evidence and answers as releases, and because
164 thereof the Jury should find their verdict on the basis that those so-called releases are void, and that the plaintiff did not by any of them release or discharge any cause of action or other right.

35. That there is no allegation in defendants answers that plaintiff was a party to, or knew of the formation of any conspiracy before the dead body was brought to Lawrence, or that she became a party to any conspiracy after, and before it can be properly claimed that she became a party to any conspiracy it must be shown by a preponderance of the evidence that when she saw the dead body or subsequently she knew or believed that it was not the body of John W. Hillmon.

36. That the evidence and policies of insurance sued on in these actions, show that for consideration the policies sued on were respectively made; and there is not any evidence or claim made indicating or tending to show that either of the defendants ever offered to return any part of either of the premiums paid—therefore the policies continued to be valid and binding until after April, 1879, and if the Jury believe from the evidence that the John W. Hillmon mentioned in the policies died in March, 1879, A. D., and that the releases were made without consideration, then the Jury should find for the plaintiff and assess her damages against each defendant respectively at the amount of the policy or policies, made by each defendant respectively, with interest thereon at the rate of six (6%) per cent. per annum from the first day of October, 1879.

37. That unless the Jury believe from the evidence other than and independent of any letter, postal card or other writing of Frederick Adolph Walters, that he went or was with John W. Hillmon on a trip into Barbour county in March, 1879, they should not find said Walters was with said Hillmon on such a trip.

38. That the letters and other writings claimed by defendants to have been written in March, 1879, by Frederick Adolph Walters are not either sufficient or competent to prove that he went with John W. Hillmon on any trip.

39. That such letters and writings are not sufficient
165 to prove that Frederick Adolph Walters was personally in Wichita.

40. Where a party to suit has introduced the testimony of witnesses known by him to be false or which he does not believe to be true, the Jury may take such fact into consideration

as tending to discredit such party's case and tending to show that such party is not acting in good faith.

41. The preponderance of evidence required in the preceding instructions does not mean the greater number of witnesses. The Jury should look rather to the quality of the evidence than to the quantity thereof; the Jury are under no obligation to believe the testimony of any witness which appears to them to be improbable. The Jury may disbelieve the testimony of any witness which seems to them from their common knowledge to be unnatural and contrary to the laws of probability.

43. That the letters mentioned by witnesses as having been written by Frederick Adolph Walters are not of themselves sufficient to show that he ever went from Wichita with any man named Hillmon—or that he went from Wichita at all.

44. That if from all the evidence it is as reasonable to find that the dead man was accidentally killed as to find he was murdered, then there is a presumption in favor of innocence rather than of guilt.

45. If considering the evidence if the jury shall find the same in any respect as to any question in the case to be conflicting, then the jury should if compelled to determine
166 as between conflicting evidences as to which is true, presume in favor of innocence rather than guilt if consistently with the preponderance of the evidence in the case the Jury can do so.

And in considering as to whether the Hillmon referred to in any letter was John W. Hillmon or not, the Jury should consider all the other evidence in the case, bearing on that point, including the testimony of the witnesses Moesh and Helda in relation to the time of Brown and Hillmon being with them and any effort of Brown and Hillmon to get either of those witnesses to go with them, and also as to any other evidence as to the whereabouts of Frederick Adolph Walters in the Spring of 1879 and his intentions as expressed by him.

46. That the plaintiff does not have to prove beyond a reasonable doubt that the dead body was that of her husband—it is sufficient [is] she has so proven by a mere preponderance of the testimony—and by preponderance is not meant the greater number of witnesses, but all the circumstances, evidence and facts should be considered in determining which side to the issue has a preponderance of the testimony.

47. The plaintiff is not required to prove her case by evidence that removes all possible doubt.

Absolute certainty is seldom attainable in determining disputed questions of fact. The plaintiff is only required to prove the death of John W. Hillmon by a preponderance of the evidence. This preponderance need not be great, it is sufficient if in the estimation of the jury it barely outweighs the contrary proof and renders it more probable that what the plaintiff claims in relation thereto is true, than the opposite.

By preponderance of the evidence is not meant the greater number of witnesses, but that evidence which is the most convincing and satisfactory to the jury. In considering the testimony upon any given question you should not alone count the witnesses, it is not always the most satisfactory neither is it the most certain criterion of truth. 19 Kans. 28—34.

48. That in considering the testimony in relation to whose body the corpse brought from Medicine Lodge to Law-
167 rence was, the jury may refer to the testimony of Fannie Walters as to the entire condition of the teeth of Frederick Adolph Walters in connection with the testimony of the witness Patterson in relation to a part of one of the teeth of the corpse having been broken off or worn away, and give due weight thereto as well as to all of the testimony in the case relating to the teeth or other matters of identification.

49. That the Jury should consider and give due weight to the testimony in relation to Frederick Adolph Walters having been bitten by a dog, and the testimony of those who examined the body of the corpse and their statements as to what, if any, scars or marks they found or did not find.

50. That as against the Mutual Life Insurance Company the jury should consider the answer "none" as to marks of identification in its medical examiner's certificate or statement read in evidence. The jury may consider that answer "none" when considering, the evidence given by witnesses in relation to any claimed mark or marks of identification. And as to such defendant the jury should consider the opportunities shown by the evidence had by different representatives, of each defendant respectively, to observe as to the teeth and hands of John W. Hillmon, as well as to the matter of his height when taking his application for insurance or measuring or seeing him for any purpose in connection with any such application or examining him in reference to any matters stated in medical examiner's certificate of such companies respectively.

51. That the statement as to the height of John W. Hillmon or other statement relating to description of John W. Hillmon in any medical examiners certificate of the defendants respectively are to be considered as statements of the

defendant whose medical examiner made the same as again
such defendant, and as having been so made with opportuni
to know the truth as to the facts so stated at the time wh
it was proper to state the truth and when the truth ought
have been stated in the certificate being made and as stron
evidence against such companies that Hillmon was
168 the height therein stated; and such statement of heig
should be considered by the jury as true unless t
same has been shown to be actually wrong by evidence su
ficient not only to overcome such written statement of heig
but also to overcome all evidence supporting the writte
statement so made in medical examiners certificates respe
tively.

52. That the Jury ought to consider the statements of d
scription of John W. Hillmon in the medical examiner's ce
tificates respectively of each defendant as against such d
fendant as true unless the same has by evidence sufficient n
only as against such statement of description in such ce
tificates respectively, but also as against any oral evidenc
in conformity to such description in certificates, to overcom
all the same by a preponderance of evidence contrary to suc
certificates. This as to each defendant, the certificates
each company being evidence of description only as again
the company whose examiner made the same.

53. The opinions of medical experts are to be considered b
you in connection with all the other evidence in the case, bu
you are not bound to act upon them to the entire exclusion
other testimony; taking into consideration the opinions of th
medical experts and giving them just weight, you are to d
termine for yourself what the facts are in relation to the va
cination marks and the other matters concerning which the
have testified.

54. The court instructs you that the testimony in relatio
to the notes claimed to have been executed by John W. Hil
mon in his life time to one McCamey, and which it is als
claimed he did not pay, should not be considered by you an
the same is now withdrawn from your consideration by th
court. The facts that John W. Hillmon obtained a larg
amount of personal property that he converted to his own us
and did not pay for, if such be the facts, does not tend
show his financial condition or that he was unable to carr
the amount of insurance taken out by him.

169 55. If the court refuses to give the next precedin
instruction prayed for, then the plaintiff asks the cou
to give the following:

Some evidence has been introduced in relation to promissory notes and a chattel mortgage executed by John W. Hillmon and which it is claimed by the defendants have not been paid. This testimony was admitted and is to be considered by the Jury as solely upon the question of the financial condition of said John W. Hillmon, and as to whether the amount of insurance taken out by him was in excess of his ability or was unreasonably large, and is not to be considered by the jury for any other purpose whatever. The fact that said John W. Hillmon did not pay said promissory notes, if you find that he did not do so, is not to be considered by the Jury as affecting his character or in any manner as affecting the right of the plaintiff to recover upon the policies sued on, if you believe that the person killed at Crooked Creek in March, 1879, was John W. Hillmon.

If the person killed on Crooked Creek in March, 1879, was John W. Hillmon, then it become wholly immaterial what his financial condition was at the time said policies were issued, and whether the amount of insurance taken out by him was unreasonably large or not.

56. It is wholly immaterial in this case whether the amount of insurance taken out by John W. Hillmon upon his life was unreasonably large or not, if John W. Hillmon was killed in March, 1879.

57. In considering the testimony in relation to the notes given by John W. Hillmon and which it is claimed were not paid by him, you may take into consideration the fact that a mortgage was given to secure the same upon a large number of buffalo hides, and all other testimony that has been introduced in relation to the dealings between said Hillmon and the holder of said notes.

58. That the absence for a period of 7 years from the home and friends of a person is ordinarily prima facie sufficient to show that such person is dead; that if the jury believe from the evidence that John W. Hillmon left Lawrence in February, 1879, with the intention of locating a ranch or place of doing business in the southerly portion of Kansas or
170 adjacent country with the intention of residing thereon with himself and family or of returning to Lawrence and that he has not been heard from or seen alive since the first part of March, 1879, by those with whom he had corresponded or associated you are justified in believing that he is dead and such absence and matter of not hearing from him since then may and should be considered by the Jury in the matter of determining whether it was his body that was brought as shown by the evidence to Lawrence, Kans., in the spring of 1879.

59. The jury should take into consideration the want of any evidence showing that John W. Hillmon has been either seen alive or heard from as living since the first part of March, 1879, in determining the matter as to whose dead body it was taken from the banks of Crooked Creek to Medicine Lodge and from there to Lawrence Kansas as shown by the evidence.

The want of any such evidence of Hillmon having been seen alive or heard from since the first part of March A. D. 1879 raises a strong presumption of his death and should be taken into consideration by the Jury in considering the evidence of this case.

60. That in determining whose dead body it was that was brought to Lawrence in 1879 as shown by the evidence the Jury should take into consideration the length of time that has expired since John W. Hillmon is shown to have been seen alive or heard from seven years of absence unaccounted for is sufficient to raise a presumption of death if such absence is contrary to the habits and expressed intention of a person absent. And this independent of any evidence of actual death.

61. That in considering the question of the whereabouts of F. A. Walters the Jury may take into consideration the evidence of the witness Charles W. Schott in relation to having seen him in the fore part of February, 1879, and in the spring of 1879 together with any intention expressed by Frederick Adolph Walters of going to his brother and of taking the wagon road to Independence. And also any other evidence in relation to the whereabouts of said Frederick Adolph Walters at the last times he has been shown to have been
171 seen by any person from whose testimony the Jury believe that said Frederick Adolph Walters was seen.

62. That the jury should take into consideration the conflict of evidence in relation to the whereabouts of Frederick Adolph Walters in February, 1879, shown by witnesses called to the stand, or by depositions taken by defendants and also in the conflict of evidence shown by such witnesses as to the matter of intention of said Frederick Adolph Walters and also by shortage of finances of his shown by evidence of defendants witnesses and they may also take into consideration the evidence of any other witness as to the whereabouts of Frederick Adolph Walters before or after the corpse was found.

63. The jury should also take into consideration as to whether Frederick Adolph Walters is shown to have been of changeable mind on the matter of intentions as to where he

would go and in this connection they may consider any evidence on that subject shown by letters or postal cards the jury believes written by Frederick Adolph Walters in the year of 1878.

64. That in relation to the amount of insurance on the life of John W. Hillmon the jury are instructed that an appropriate time to have considered the mater of such amount of insurance was when the application were being made and the premiums for the insurance being paid—that the jury may find [they] verdict on the presumption that the defendants respectively were satisfied with such amount of insurance being on the life of John W. Hillmon as the defendants respectively or their agents in relation to the matter of taking same had notice of from application or otherwise.

65. That the jury may take into consideration in this case the reasons why John W. Hillmon did not take one of the policies offered him because as shown by the evidence, of talked of prohibition therein against fast riding after stock and the carrying of firearms as expressed by Mr. Hillmon as shown by the testimony of the witness Selig.

Sallie E. Hillmon
v.
Mutual Life Insurance Company

Sallie E. Hillmon
v.
Connecticut Mutual Life Insurance Company.

Gentlemen of the Jury:

The cases which have been tried and which are submitted to you with the conclusion of this charge are two in number.

Sallie E. Hillmon is the plaintiff in both cases. One of them is against the Mutual Life Insurance Company of New York and the other against the Connecticut Mutual Life Insurance

Company. They were commenced in this court on the 13th day of July, 1880. The issues in the cases being substantially identical they were by the order of the court consolidated for purposes of trial in order to effect a saving of time and expense. Each of the actions is brought upon a policy of life insurance issued upon the life of John W. Hillmon for the benefit of Sallie E. Hillmon, his wife. The policy issued by the Mutual Life is for the sum of ten thousand dollars and that issued by the Connecticut Mutual is for the sum of five thousand dollars. It is conceded that the policies sued upon were duly issued and delivered and would constitute valid and binding obligations of the insurance companies respectively except for the defenses set up and maintained by them and to which your attention will be called. It is also admitted that if the plaintiff is entitled to recover the verdicts should be for the amounts of the policies respectively with interest thereon at the rate of 6 per cent per annum from October 1, 1879, until the date of your verdict, that is to say, in the case against the Mutual Life for the sum of ten thousand dollars and in the case against the Connecticut Mutual for five thousand
174 dollars, both with interest as stated. The policies are what is known as ordinary life policies and in order that plaintiff may recover thereon it must appear that John W. Hillmon died whilst the policies were still in force. It is not denied that the premiums on the policies were paid to a period later than March, 1879.

It is claimed in the plaintiff's pleadings that John W. Hillmon was accidentally killed near Medicine Lodge, Kansas, on or about the 17th day of March, 1879. It is admitted that proper proofs of death were furnished the companies by or on behalf of Mrs. Hillmon.

Each of the defendant companies as matter of defense denies that John W. Hillmon died as alleged by the plaintiff but claims on the contrary that he is still living; that on and before November 30, 1878, John W. Hillmon, John H. Brown, Levi Baldwin and divers other persons unknown to the defendants conspired together for the purpose of defrauding the insurance companies and with such purpose in view procured the two policies of insurance mentioned, amounting to the sum of fifteen thousand dollars and an additional policy in the New York Life Insurance Company for the sum of ten thousand dollars and that thereafter in pursuance of the conspiracy and with the said purpose in mind Hillmon, Brown and Baldwin falsely and fraudulently pretended and represented unto the companies and others that Hillmon was dead and that in the months of March, and April, 1879, and thereafter, for the purpose of securing the payment of the policies and obtaining

the money thereon, falsely and fraudulently claimed and represented to the companies that Hillmon was dead and that a certain dead body which they had procured and had was the body of Hillmon, whereas Hillmon was not dead; and that since said time Hillmon has kept himself concealed and is keeping himself concealed under assumed names for the purpose of consummating the alleged conspiracy. The companies for another defense allege that Mrs. Hillmon, the plaintiff, for a valuable consideration, executed and delivered to the companies her release and satisfaction of the policies.

In reply to these claims on the part of the companies the plaintiff denies that her husband is living, avers that on or about March 17, 1879, he was accidentally killed by the discharge of a gun, denies the charges of fraud and fraudu-
175 lent conspiracy and claims that the written releases set forth in the answers of the companies were procured from her by them, their authorized agents and other persons acting by their procurement, through false and fraudulent statements and by unfair means and at a time when she was in ill health and unable to resist the improper and unfair influences brought to bear on her, and that no consideration was paid for such releases and that the same are therefore void and of no effect.

These are substantially the issues presented by the pleadings in the cases.

We are now near the end of the fifth week of this trial and such an enormous amount of evidence has been introduced of such a varied, complex and contradictory character that even were I desirous of doing so it would be impossible for me to give you an intelligible and comprehensive resume thereof without the attendant danger of omitting the mention of evidence and matters of importance. While it is within my province to indicate to you my own opinions, gathered from the evidence without encroaching upon your exclusive right as the final judges of the evidence, I shall not avail myself of it but shall confine myself as closely as possible to the declaration of legal principles that are to control and govern you in your consideration of your verdicts.

The principal question for your determination and it may be said to be the crucial question in the cases, is whether John W. Hillmon died as claimed by the plaintiff in March, 1879, and whether it was his body that was brought to Lawrence, Kansas, in April of that year. I will explain to you at this time the meaning of certain expressions which will be used in the delivery of this charge to you, so that you may fully un-

derstand their purport and signification at the time they were used.

Preponderance of the evidence means the greater weight or value of the entire evidence adduced at the trial, considering each part thereof in connection with everything appear-
176 ing in the cases that goes to make for or against its credibility and value. It does not mean that a greater number of witnesses have testified on the one side or on the other, although that fact, if it be one, is to be taken into consideration. A party who is required to prove a fact or an issue by a preponderance of the evidence is not required to prove it beyond a reasonable doubt. The requirement that an issue or fact be proven beyond a reasonable doubt exists in criminal cases but does not generally apply in civil cases, and it does not apply to the cases on trial.

In determining the weight and value of the evidence the credibility of the witnesses must necessarily be passed upon by you. You are the exclusive judges of the evidence and of the credibility of the witnesses. If any witness has wilfully testified falsely regarding any material matter you are at liberty to disregard his entire testimony but you are not bound to do so. You may accept that portion of his testimony which you deem consistent with truth or probability and reject the remainder or as I have told you, you may entirely disregard the evidence of the witness so falsely testifying.

You should not arbitrarily and capriciously reject or disregard the credible testimony of any uncontradicted witness, but it is your duty to so reconcile all of the evidence in the case as to give effect to the testimony of such witness if the same is possible. A person is not disqualified as a witness in a civil action by reason of his interest in the event of the suit as a party or otherwise, yet such interest should be taken into consideration in estimating the weight or value to be given to his testimony. You should also take into consideration the conduct, demeanor, and appearance of the witnesses upon the witness stand, the probability or improbability of their testimony, the bias or prejudice that they may have shown, if any, in favor of or against the one side or the other; the means and sources of knowledge they may show themselves to be possessed of; the length of time that elapsed between the happening of a fact or circumstance and the date they first testified thereto, giving due consideration to anything that might serve to cause a remembrance thereof.

A witness who testifies to an affirmative is ordinarily
177 entitled to credit in preference to one who testifies to a negative, but you are not required to believe a witness

whose testimony appears to you to be improbable and unreasonable.

In considering of your verdicts and the weight and value of the evidence and of the credibility of the witnesses you are entitled to use and exercise your common knowledge such as is possessed by men generally, regarding the ordinary affairs of life, not however any particular facts resting in your private knowledge, nor any special knowledge not possessed by men generally, for you should be governed by the evidence. You may apply such common general knowledge as you may possess of the subject of inquiry to the testimony of any witness and you are entitled to disregard such as is believed by you to be unnatural and contrary to the laws of probability. In other words, you should apply the same rules of good sense and sound judgment to the facts in evidence that you would apply to any other subject that comes under your consideration.

In order that the plaintiff may recover in these cases it is her duty to prove by a preponderance of the evidence that her husband died as claimed by her in March, 1879, that is to say, whether it was his corpse that was brought to Lawrence in April of that year. If she should fail in so proving your verdicts should be for the defendants, but if she should succeed in so proving your verdicts should be in her favor. The plaintiff is not required to prove that the corpse was that of John W. Hillmon by evidence that removes all possible doubt, nor beyond a reasonable doubt, but simply by a preponderance of the evidence. Such preponderance need not be great, for it is sufficient if in the estimation of the jury it fairly and reasonably outweighs the contrary proof and renders it more probable that what she claims with reference thereto is true, than the opposite.

Plaintiff's right to recover does not turn upon your determination whether John H. Brown is a truthful witness or not, that is to say, if you should disbelieve the testimony of John H. Brown and still find from the evidence that the corpse in question was that of John W. Hillmon the plaintiff in
178 such case would be entitled to recover. It is not incumbent upon the plaintiff to account for the whereabouts or absence of F. A. Walters, nor is it incumbent on the defendants to prove that the corpse was that of Walters or to account for the absence or whereabouts of Hillmon.

As bearing upon the question whether John W. Hillmon died as claimed by the plaintiff and whether it was his corpse that was brought to Lawrence, you are entitled to consider the fact, if it be one, that he has not been seen nor heard from

alive since the 17th or 18th day of March, 1879, at which time it is claimed he was killed. The unexplained absence of a person from his home and friends without being heard from, if continued for a sufficient length of time, may become evidence tending to show that he is dead and it may be taken in connection with other evidence tending to show that he died at a certain time and place. For some purposes, such as the settlement of estates and the like, the law adopts the presumption that an unexplained absence of seven years without tidings being received from the absent one is evidence of his death. The weight to be given to such continued absence depends upon circumstances. If it appears that a motive may exist for absence and a continuance thereof and to keep his whereabouts concealed, such motive is to be given due consideration in determining what weight is to be given to the continued absence as evidence tending to show death.

As to the alleged conspiracy: a conspiracy is a combination or confederation between two or more persons to do an unlawful act or to do a lawful act by unlawful means. In these cases the defendants allege that John W. Hillmon, John H. Brown and Levi Baldwin and divers other persons to the defendants unknown, unlawfully conspired together to cheat and defraud the defendants by procuring the insurance policies by substituting the body of another person, claiming it to be the body of Hillmon, and by thereby obtaining the money upon the policies. The objects of the conspiracy alleged to have been formed contemplated the commission of a crime, that of obtaining money by false and fraudulent pretenses, and it is
claimed by the defendants that during the progress of
179 the conspiracy it resulted in the commission of murder.

Whoever alleges a conspiracy or a fraud, whether as a cause of action or as a defense against the cause of action of another, is required to be definite and precise not only in the description of the conspiracy or fraud charged but also in respect of the persons sought to be held as conspirators or participators in the fraud, especially if they are parties to the suit in which the charge is made. In these cases, although it was known, that the policies of insurance were made payable to Sallie E. Hillmon and that no one else could obtain the money thereon without her act and assent, there is no allegation in the answers of the defendants that she was either a party to the alleged conspiracy or participated therein at any time or had any knowledge thereof. Consquently it cannot be claimed in this case that she was a party to any alleged conspiracy or had any guilty participation therein or knowledge thereof.

If the acts done by the three parties who are claimed to have engaged in the conspiracy are consistent equally with an hon-

est and lawful intent as with a fraudulent or criminal purpose, your finding should be in their favor in that respect, because there is always a presumption of honesty and innocence until the contrary is shown, and in order to overthrow such presumption of honesty and innocence there must be at least a preponderance of the evidence showing the existence of the contrary and of the alleged conspiracy. If you believe from the evidence that John W. Hillmon, Brown and Baldwin did conspire as charged by the defendants and pursuant to such combination the policies of insurance were obtained and that Hillmon did not die in March, 1879, that is to say, that it was not the body of Hillmon that was brought to Lawrence in the early days of April, 1879, then your verdicts should be for the defendants. Even if you should find that there was no unlawful conspiracy or fraud or fraudulent intent as charged by the defendants, but should further find that the body brought to Lawrence as aforesaid was not the body of Hillmon, your verdicts in such event should be for the defendants. In other words, it is not necessary for defendants to prove a con-
180 spiracy or fraud or fraudulent intent in order to defeat a recovery. On the other hand, even if you should find that there was a conspiracy between the three men as charged by the defendants, but should also find that Hillmon died in March, 1879, and that it was his body that was brought to Lawrence as I have stated, your verdicts in such event should be for the plaintiff and against the defendants. In other words, the existence or non-existence of the conspiracy is not the controlling question in the case. The existence of the conspiracy, if you should find one to have existed, may be given such weight as you deem proper in considering the identity of the corpse brought to Lawrence. If you believe from the evidence that the corpse brought to Lawrence was that of John W. Hillmon, then it is unnecessary for you to find whether there was or was not a conspiracy. The essential point in these cases is the identity of the corpse.

As to the releases executed by the plaintiff and set up in the answers of the defendants. While under the law the execution of the written instruments of release by the plaintiff imports a consideration therefor, nevertheless the undisputed evidence in this case shows that the said releases were wholly without consideration and therefore they are inoperative as releases and do not constitute a valid defense, and the plaintiff did not by any of them release or discharge any cause of action or any other right that she may have had. Although they may be inoperative and void as releases and insufficient to constitute a defense you may nevertheless consider them

and the fact that she executed them as acts and declarations of the plaintiff and give such weight thereto against the plaintiff in determining the other questions in the cases as you may deem just and proper. In doing so, however, you should consider all of the facts and circumstances surrounding the giving of such releases, when, to whom and under what circumstances they were given, all as shown by the evidence.

Do not take into consideration the financial condition of the defendants, but confine yourselves to the evidence adduced at this trial as weighed in the scale of your judgment and interpreted in the light of your common knowledge as I have defined it. Evidence has been introduced in relation to some promissory notes and a chattel mortgage executed by
181 John W. Hillmon and which it is claimed have not been paid. This testimony was admitted and is to be considered by you solely as bearing upon the question of Hillmon's financial condition and as to whether the amount of insurance taken out by him was in excess of his ability or was unreasonably large, and it is to be considered by you for no other purpose. The fact that Hillmon did not pay said notes or some them, if it be a fact, is not to be considered by you as affecting his character or as affecting the right of the plaintiff to recover in these cases if you believe that it was Hillmon who was killed near Medicine Lodge in March, 1879. In other words, if it was Hillmon who was killed and whose corpse was brought to Lawrence it is immaterial what his financial condition was at the time the policies were issued and whether the amount of insurance taken by him was unreasonably large or not.

Various statements and declarations of various parties have been offered in evidence not as affirmative proof of the truth of such declaration and statements, but for the purpose of contradicting and impeaching the testimony of the parties making them. It is proper when a witness has given his testimony at a trial to contradict him and affect the weight and value of his testimony by showing that at some other time he has made statements or declarations contrary to what he has testified to. The unsworn statements of any person which have been admitted in evidence are not evidence as to the truth of such statements; but if the statements are made by a party to the suits and are contrary to the interest of such party they may be considered against him.

The deposition of John H. Brown was read to you on behalf of the plaintiff. On behalf of the defendants evidence was introduced tending to show that he made oral declarations to W. J. Buchan and showing that he also signed and swore to a statement contrary to his testimony given before you. The

oral declarations of said Brown not under oath and the statement signed and sworn to by him are not affirmative evidence of the truth of any matter therein contained or mentioned and they should not be considered by you excepting as af-
182 fecting the credibility of the evidence of the said Brown given in his deposition, and in determining this matter of credibility you should consider the testimony of both sides showing the circumstances under which Brown made said declarations and statement as well as all other evidence bearing on that question.

I will also call your attention to the evidence of C. R. Walters who testified on behalf of the defendants. Letters written by him to H. S. Clarke of Lawrence were introduced in evidence by plaintiff, tending to show that he made statements in such letters contrary to his evidence given upon the witness stand. That such letters were written and such contradictory statements made, if such is the case, is to be considered by you solely as affecting the credibility of the testimony of said Walters and not as affirmative evidence of any statement made by him in the letters, and in that connection you should take into consideration the testimony of the said Walters as to his motive and purpose in writing the letters as he did. Certain letters written by Frederick Adolph Walters were given in evidence by defendants. The contents of such letters should be considered by you not as narratives of facts communicated to said Frederick Adolph by others, nor yet as proof that he actually went away from Wichita, but as evidence that shortly before the time when other evidence tended to show that he went away, he had the intention of going and of going with Hillmon, which makes it more probable that he went and that he went with Hillmon than if there had been no proof of such intention.

It was lawful for the coroner of Douglas county, Kansas, to hold an inquest over the body that was brought to Lawrence, and he had the authority to order the exhumation of the body for further examination after it was once interred.

Evidence introduced at this trial that John H. Brown testified to certain things before the coroner's jury at Lawrence is not proof of the truth of the statement there made by him, but is only to be considered by you as evidence of the fact that such a statement was then and there made by Brown. If a witness at the coroner's inquest should have wilfully testified falsely regarding any material matter in such proceeding he would have been guiity of perjury. The sworn state-
183 ment of John H. Brown given to W. J. Buchan, even if wilfully and intentionally false would not constitute

perjury because it was given ex parte and not in any proceeding in court nor in any proceeding authorized by law.

The causes and reasons why human being recognize one another with whom they are acquainted do not generally depend upon analysis of separate features but rather upon general appearance in which many elements combine and it is therefore immaterial if a witness when called upon to describe in detail the features of a party whom he is identifying differs in some of these details from others if he is able to say that as a whole he recognizes the person by his general appearance. The act of recognition between friends and even members of the same family may not depend upon the color of the hair, the condition of the teeth, the size or shape of the nose or any independent feature, but upon the individual appearance of the person as it makes an impression upon the mind or brain of the observer.

All efforts or attempts by anyone interested in any manner under investigation to suppress or destroy or to accomplish the suppression or destruction of pertinent evidence are always deemed prejudicial circumstances of great weight against such person; and all attempts by any such person to disturb the current of truth and justice or to prevent a fair or impartial trial by endeavors to intimidate witnesses or persuade them to the concealment, suppression, destruction or alteration of any matter of evidence are to be regarded as denoting on the part of such person a consciousness of wrong and a desire to evade the pressure of facts tending to establish it.

This is an important case, gentlemen of the jury, and is the conclusion of six long, expensive trials. It is very desirable that you should agree upon a verdict. I do not desire however that any juror should surrender his conscientious convictions. On the other hand each juror should perform his duty conscientiously and honestly according to the law and the evidence and the verdicts rendered should in the end be the result of his convictions. In conferring together you should pay respect to each others opinions with a disposition to be convinced by each others arguments and you should endeavor to harmonize the conflicting testimony of credible witnesses if the same may be reasonably done and come ultimately to some unanimous conclusion that will be in accord with your honest judgment respecting the merits of this controversy.

184

I will hand you four forms of verdict, two in each case; one in each case being prepared upon the theory that your verdict may be for the plaintiff and the other upon the theory that your verdict may be for the defendant in such case.

Whichever forms may be in accord with the result of your determination you should sign by one of your number as foreman and return the same into court. You may retire.

Now on this 20th day of November, 1899, came said plaintiff by L. B. Wheat, C. F. Hutchings and John H. Atwood, her attorneys, and came also the defendant by James W. Green and Edward S. Isham its attorneys; and thereupon the motion and application of the defendant for an order extending the time for making, signing, settling and allowing a bill of exceptions in said action beyond the present term of this court came regularly on for hearing by the court. And it appearing to the court that said bill of exceptions can not be prepared and completed at the present term of this court, it is by the court considered, ordered and adjudged that the time for settling, allowing and signing a bill of exceptions in this case be, and the same is, hereby extended to and including the second day of April, 1900 and that the allowing, settling

and signing the same at said time shall have the same effect in all respects as if the same had been signed, settled and allowed at the present term of this court, to wit: the term at which said cause was tried. It is further ordered by the court that said bill of exceptions shall be served upon the plaintiff's attorneys of record on or before the 1st day of March, 1900 that the plaintiff shall have twenty days from the time of such service upon her within which to suggest amendments thereto; that said bill of exceptions shall then
192 on April 2, 1900 be settled, allowed and signed but the same shall not be settled, allowed and signed later than said 2nd day of April, 1900 without the further order of this court, or the judge thereof.

It is further ordered that execution in said action be stayed until said 2nd day of April, 1900.

Sallie E. Hillmon, Plaintiff,
No. 3149. vs.
The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, Defendant.

Be it remembered that heretofore and on to wit: the second day of April A. D. 1900 before the bill of exceptions in the above entitled action signed by the undersigned W. C. Hook Judge of date of the second day of April A. D. 1900 and prepared by the defendant in said action with reference to exceptions taken at the trial thereof had in October and November A. D. 1899 in the above named Court as Consolidated with another action, was allowed, settled or signed or examined for settlement allowance or signing by said Judge, the plaintiff in said action applied to and moved said defendant and the above named Court and William C. Hook the Judge before whom said action was last tried to further amend the proposed bill of exceptions in said action by striking out of and from the same all thereof except merely and only such exceptions as said defendant does and will actually rely in good faith and so much more more thereof as may be necessary to explain such exceptions, for the following reasons namely:

Because more than that is useless expense, unnecessary and improper and will oppressively and unnecessarily greatly increase costs, but said defendant and said Judge refused to consider, said motion or to sustain the same in any part or to strike out of and from the same any part thereof now in said bill of exceptions as signed by said judge, to which rulings and decisions of said judge said plaintiff then excepted.

And be it further remembered that then and when said Judge was examining said proposed bill of exceptions
201 with reference to settling and allowance of the same so far as he should deem proper said plaintiff further orally applied to and moved said defendant and the judge aforesaid to strike out of and from the same said proposed bill of exceptions each copy of any deposition therein or any part of any deposition therein other than the copy of the depositions of James S. Crew and so much of the copy of the deposition of John H. Brown as would be necessary to explain the questions and answers in the deposition of said Brown excluded on the objection of said plaintiff, and all thereof except such questions and answers—and also all of the testimony of any and every witness given at any former trial of said action, and also so much of the testimony of any witness at said first mentioned trial in A. D. 1899 as is not necessary to explain any exception of said defendant in relation to any part thereof and also each copy of any and every policy, application, Medical examiners certificate, receipt, letter or other writing, paper, picture or diary and written instrument read or given in evidence in said action, or in said action and the other action with which it was consolidated for trial, for the following reasons namely:

Because the same were and are respectively useless, expensive, unnecessary and improper, and that to have the same in said bill of exceptions respectively will operate oppressively on said plaintiff and greatly and unnecessarily increase costs—and for the same reasons said plaintiff then objected to any thereof, that is, to any of the matter so moved to be stricken out being left in said bill of exceptions, which objections and the last aforesaid application and motion was then by said plaintiff made separately and severally as to each copy of every deposition and of any part of any deposition, policy, application, Medical Examiners' certificates, receipt, letter and other writing, paper, pictures, diary and written instruments aforesaid.

And as to the parts objected to of testimony of each witness aforesaid, so referred to for the following reasons namely: Because the same were respectively useless, expensive, unnecessary and improper and that it will operate oppressively on and against said plaintiff and unnecessarily greatly increase costs to leave the same or any thereof in said bill of exceptions, but said defendant and said Judge refused to
202 strike out of and from said bill of exceptions anything left therein when signed, or any of the matters so objected to or moved to be stricken out.

And then said defendant and said Judge as to each matter so objected to or moved to be stricken out respectively, refused to strike out of and from said bill of exceptions any matter or thing left therein when so signed by the said Judge and said Judge overruled such objections severally and separately respectively as to each thereof, to which action of said defendant and to such rulings and decisions of the court and Judge respectively said plaintiff then at the time thereof excepted as to each thereof separately and severally and respectively.

And be it further remembered that after said bill of exceptions was on the second day of April A. D. 1900 presented to said Judge as aforesaid and before he had signed the same plaintiff objected to the same being settled, allowed, or signed because after the morning of the 19th day of March A. D. 1900 and after the same had been returned to said defendant the three following parts of said bill of exceptions namely: the parts thereof in substance as follows to wit:

"And thereupon the plaintiff peremptorily challenged Andrew Johnson who was excused by the Court"—

"And thereupon, the plaintiff peremptorily challenged A. O. Leslie, who was excused by the Court"—

"And thereupon, the plaintiff peremptorily challenged Martin Yoste, who was excused by the Court"—

Were respectivly written and placed in said bill of exceptions without the knowledge or consent of said plaintiff, and that, at the instance of said defendant by its attorneys—and thus said bill of exceptions was altered and changed materially without the knowledge or consent of said plaintiff to such extent that the same was not and is not, in substance or effect what was served on plaintiff within the time allowed for service of the bill of exceptions on plaintiff.

And said plaintiff then also asked the said judge to strike those copied parts of said bill of exceptions out of and from the same if he signed or allowed the same or any part thereof, because of the reasons for the making of said objection—
203 and thereupon said judge overruled said objection and request and signed the same bill of exceptions with those copied parts thereof therein as thereby shown to each of which acts, rulings and decisions of the Judge said plaintiff then duly excepted.

And inasmuch as the matters aforesaid do not appear of record thus the above and foregoing statement showing the aforesaid applications, motions, objections and exceptions of said plaintiff is now allowed and signed by said Judge after

service thereof on said defendant and made part of the record in said action at the same time when said bill of exceptions is signed by said Judge as the same appears.

Sallie E. Hillmon, Plaintiff,
No. 3147. vs.
The Mutual Life Insurance Company of New York, Defendant.

Be it remembered: That on the 16th day of October, A. D. 1899, the same being one of the judicial days of the regular June, 1899, term of the Circuit Court of the United States for the District of Kansas, First Division, begun and held in the city of Leavenworth, in said district and division on the first Monday in June, 1899, the above entitled cause came on for trial before the court and a jury upon the issues therein joined pursuant to the order of the Court theretofore made, fixing said date for the trial thereof.

The plaintiff appeared in person and by L. B. Wheat, C. F. Hutchings and John H. Atwood, her attorneys.

The defendant appeared by Edward S. Isham, George J. Barker and E. F. Ware, its attorneys.

And thereupon the following proceedings were had, to wit:

The following writen motion, filed by the defendant on the 9th day of October, 1899, to wit:

In the Circuit Court of the United States for the District of Kansas.

Sallie E. Hillmon, Plaintiff,
vs.
The Mutual Life Insurance Company of New York, Defendant.

The defendant, The Mutual Life Insurance Company of New York moves the court to quash the venire and discharge the

entire panel of jurors drawn for the trial of the above entitled action, to be had on the 16th day of October, 1899, for the following reasons:

222 First: That said jurors were not publicly drawn, from a box containing at the time of such drawing the names of not less than three hundred (300) persons, possessing the qualifications provided in section 800 of the Revised Statutes of the United States.

Second: Because said jurors were not publicly drawn.

Third: Because said jurors were privately drawn.

Fourth: Because said jurors were privately drawn without any notice, knowledge or information to said defendants of the time or place when the drawing of said jurors would take place.

Fifth: Because said jurors were not drawn in the manner prescribed by law.

Sixth: Because the names and residences of the jurors so privately drawn were kept concealed from this defendant.

Seventh: Because at the time of the filing of this motion the names of said jurors were unknown to this defendant, nor could it ascertain the names or residences thereof by any means within its power.

came on for hearing by the court; whereupon the defendant in order to maintain the issue in that behalf, produced as a witness George F. Sharitt, who being duly sworn, testified as follows, to wit:

223

George F. Sharitt, being first duly sworn to testify the truth, the whole truth and nothing but the truth, deposes and says as follows:

Direct Examination

By Mr. Barker:

Q. You are the clerk of this court and have been for some time? A. Yes, sir.

Q. You were present at the drawing of this jury?

A. Yes, sir.

Q. No notice was given to either party, was there, of the drawing of the jury? A. No, sir.

Q. And neither party was present at the drawing?

A. No, sir.

Q. After the jury had been drawn some time, and you may state the date, the defendant applied for a list of the jurymen drawn, did they not?

A. The jury was drawn about the 2nd of October. On the 5th a young man from your office called for a list of the names?

Q. That was on the 5th? A. Yes, sir.

Q. And at that time you declined to furnish us with a list?

A. Yes, sir.

Q. Afterwards, and on what day did you send the list?

A. On the 7th.

Q. That was on Saturday or Sunday?

A. Saturday, the 7th, I mailed you a copy of the venire.

Q. Then it would reach Lawrence on Sunday?

A. It would reach Lawrence Saturday evening on the fast mail.

Q. How many jurymen were drawn. A. 40.

Q. From what counties were they drawn?

A. I don't know that I can tell you the counties; I can make a pretty good guess at most of them.

Q. State as definitely as you can—you have the venire before you, haven't you? A. Yes, sir.

Q. The venire shows, does it not?

A. It shows the postoffice. The first man is from Onaga, I think that is in Pottawatomie county. The next one is from White City, I think Morris county; Wa Keeney, Trego county; Ackerland, Leavenworth county; Centralia, Nemaha county; Washington, Washington county; Oak Mills, Atchison county; Farmington, Atchison county; Courtland, Republic county; Council Grove[m], Morris county; Clifton, Washington county; Winona, Logan county; Clay Center, Clay county; Junction City, Geary county; Topeka, Shawnee county; Osage City, Osage county; Delaware—I don't know the county; Harrisonville—it seems there is no such postoffice; Lincoln, Lincoln county; Belleville; Russell, Goodland, St. Mary's, Beloit, Sabetha, Olathe, America—Victor, Colver, Hill City, Ellsworth.

Q. Have you made an estimate now of how many counties the jurymen were drawn from? A. No, sir; I haven't.

Q. You can state very readily, can you not, by figuring out that? A. I think so.

Q. Take, for instance, the remote counties and state about how far those counties are situated from Leavenworth.

A. The farthest is about 420 miles. Winona, I should judge, would be the farthest point.

Q. And the nearest is Leavenworth county?

A. No, sir; possibly Atchison is a little nearer; Oak Mills, possibly, is a little nearer.

I think the Court will take judicial cognizance of the location of the counties.

Q. From these various counties there is only one county from which there are more than two jurymen drawn, is there not, and that is from Morris county?

A. That I don't remember.

Cross-Examination

By Mr. Hutchings:

Q. That was a special venire for this case?

A. Drawn under the order of the Court to try this case, yes, sir.

Q. When was the order made? A. Last June.

Q. The jury was drawn on what day?

A. The 2nd day of October.

Q. And a list was furnished to the defendants on the 7th?

A. Mailed on the 7th to you and to Mr. Barker.

Q. They made application for it on the 5th? A. Yes, sir.

Q. What date was the venire dated? A. The 2nd.

Q. When was it delivered to the marshal?

A. The Thursday following, I think.

Q. At the time they applied for this list the venire had not yet been issued had it?

A. It had been issued, but not delivered to the marshal.

Q. Do you remember what time on the 7th you mailed it?

A. About 4 o'clock.

Q. In the afternoon. A. Yes, sir .

Q. It would get to Lawrence the same day?

A. It would get to Lawrence about 9:30 that night.

Redirect Examination

By Mr. Barker:

Q. The list you furnished was mailed to me, was it not?

A. G. J. Barker, Lawrence, Kansas, yes, sir.

By the Court:

Q. Did you mail a list to both sides of this case at the same time?

A. In the same mail, one addressed to C. F. Hutchings, Kansas City, Kansas, one addressed to G. J. Barker, Lawrence, Kansas; they were copies of the venire that was issued.

Q. At the time of the application for the copies, was or was not the original delivered to the marshal? No, sir, it was not.

By Mr. Barker:

I will state that I received a copy of the list by mail on Sunday, October 8th, 1899.

By Mr. Hutchings:

And I will state that I received a copy of the list by mail on Monday, October 9th, 1899.

224 And thereupon after hearing the evidence, the Court overruled said motion of the defendant to quash the venire, to which action and ruling of the Court, the defendant then and there duly excepted.

And thereupon, the following further proceedings were had: The Court upon its own motion made, and caused to be entered upon the journal of the court, an order consolidating for trial the above entitled cause with a certain other cause then pending and undetermined upon the law side of said court, wherein Sallie E. Hillmon is plaintiff, and the Connecticut Mutual Life Insurance Company of Hartford, Ct., is defendant, numbered 3149.

To which action and ruling of the Court, the defendants and each of them then and there duly excepted.

And thereupon, the defendants The Mutual Life Insurance Company of New York, filed the following written motion, to-wit:

In the Circuit Court of the United States for the District of Kansas.

Sallie E. Hillmon, Plaintiff,

No. 3147. vs.

The Mutual Life Insurance Company of New York, Defendant.

Motion.

The defendant, The Mutual Life Insurance Company of New York respectively moves, asks and requests the Court to vacate and set aside so much of the order of said court of May 9, 1898, which consolidates or attempts to consolidate this action for trial with the case of Sallie E. Hillmon, plaintiff, vs. The Connecticut Mutual Life Insurance Company, defendant, for the reasons:

First. That said order was inadvertently made.

Second. Because said actions are not such actions as can be under the law, consolidated for the purposes of trial.

Third. Because the issues in said cases are not the same.

Fourth. Because said court theretofore, and on the 15th day of February, 1897, made an order severing said actions and setting aside the order of consolidation theretofore made.

225 Fifth: Because it was agreed in writing between said parties that each should be entitled to a separate trial.

Sixth: Because such an order of consolidation would be greatly prejudicial to the rights of this defendant.

GEO. J. BARKER,
E. F. WARE,
for said Deft."

Filed Oct. 16, 1899. Geo. F. Sharitt, clerk."

And thereupon, the defendant, to maintain the issue upon its behalf, read in evidence to the court, the following stipulation, to wit:

In the Circuit Court of the United States for the District of Kansas.

Sallie E. Hillmon
vs.
New York Life Insurance Company.

Sallie E. Hillmon
vs.
Mutual Life Insurance Company of New York.

Sallie E. Hillmon
vs.
Connecticut Mutual Life Insurance Company.

Whereas, since the making and entering by the court of the order consolidating the above entitled action for trial, the said plaintiff, Sallie E. Hillmon, now Sallie E. Smith, has sold and conveyed her interest and claim against the defendant, the New York Life Insurance Company, to one James F. Lord, who has become plaintiff in said action. And whereas, the reason for the consolidation of said action for trial no longer exists. It is therefore stipulated and agreed by and between the parties hereto, that is, the said Sallie E. Hillmon now Sallie E. Smith the said James F. Lord, the defendant, the New York Life Insurance Company and the other two defendants above named, that the order of consolidation heretofore made shall be by the court annulled and wholly set aside, and that each plaintiff and each defendant shall be entitled to have, and shall have a separate trial in each of said actions.

GEO. J. BARKER &
J. W. GREEN,
Attys. for defendants."

No. 3147-3149. Stipulation. Filed Oct. 16, 1899. Geo. F. Sharitt, Clerk."

It is admitted by the parties that said stipulation was made some time in December, 1897.

This stipulation was presented to Judge Williams, holding this Court in February, and in May 1898, when these causes were up for trial, and a request was made for separate trials thereof, pursuant to said stipulation; the Court, nevertheless, renewed the order of consolidation thereof, so far as these two causes are concerned, as shown by the records.

After argument by counsel, the Court said that if there was no consolidation, he would certainly make the order; that if there was reason for consolidating the three, there was equal reason for consolidating the two.

And thereupon, the Court, after hearing said stipulation read, and the arguments of counsel, overruled said motion to vacate and set aside the order of consolidation, to which action and ruling of the Court, the defendants and each of them then and there duly excepted.

227 And thereupon, all parties announcing themselves as ready for trial, twelve good and lawful men from the body of said district and division were called into the jury box, and having taken their seats therein were each duly sworn to well and truly answer all questions put to them by court or counsel touching their qualifications to sit as jurors in the trial of said causes. And thereupon, the empaneling of a jury to try said causes was proceeded with.

P. Botkin, one of said tweleve men, was asked the following question upon his voir dire by counsel for the defendants:

Q. Suppose the testimony in this case was just equally balanced, no preponderance either way; which way would your vedict go under those circumstances?

To which said Botkin made answer:

A. The verdict would be for the woman, of course.

And thereupon, the defendants and each of them, challenged the juror for cause.

By the Court: Suppose the instructions of the Court should be that if the evidence were equal, the verdict should be in favor of the defendants. Would you so find?

By the Juror: That is, if the Court so instructed?

By the Court: Yes; you would obey the instructions of the Court?

By the Juror: Yes sir.

And thereupon, the Court overruled the challenge of the defendants to which action and ruling of the Court, the de-

fendants and each of them then and there duly excepted.

228 And thereupon, in the progress of the empanelling of the jury, when twelve men had taken their seats in the jury, who were qualified to serve as jurors in the trial of said causes, the Court said: "It is my opinion that the plaintiff has six peremptory challenges and each of the defendants three."

To which statement and ruling of the Court, the defendants and each of them then and there duly excepted.

And thereupon, the parties proceeded to exercise their peremptory challenges.

The plaintiff peremptorily challenged one juror.

The defendant, the Mutual Life Insurance Company of New York, peremptorily challenged one juror.

The plaintiff peremptorily challenged a second juror.

The defendant, the Connecticut Mutual Life Insurance Company, peremptorily challenged one juror.

The plaintiff peremptorily challenged a third juror.

The defendant, the Mutual Life Insurance Company of New York, peremptorily challenged a second juror.

And thereupon, the plaintiff, having already exercised three peremptory challenges, claimed the right to exercise a fourth peremptory challenge. The defendants and each of them objected to the exercise by the plaintiff of a fourth peremptory challenge. The Court overruled the objection, to which action and ruling of the Court, the defendants and each of them then and there duly excepted, and thereupon the plaintiff peremptorily challenged Andrew Johnson, who was excused by the Court.

The defendants, the Connecticut Mutual Life Insurance Company of Hartford, Connecticut, exercised a second peremptory challenge.

And thereupon, the plaintiff claimed the right to exercise a fifth peremptory challenge. The defendants and each of them objected to the exercise by her of a fifth peremptory challenge. The Court overruled the objection, to which action and ruling of the Court, the defendants and each of them then and there duly excepted, and thereupon the plaintiff peremptorily challenged A. O. Leslie who was excused by the Court.

The defendant, the Mutual Life Insurance Company,
229 waived its third peremptory challenge.

And thereupon, the plaintiff claimed the right to exercise to sixth peremptory challenge.

The defendants and each of them objected to the exercise by her of a sixth peremptory challenge. The Court overruled the objection to which action and ruling of the Court, the defendants and each of them then and there duly excepted, and

thereupon the plaintiff peremptorily challenged Martin Yoste who was excused by the Court.

The defendant, The Connecticut Mutual Life Insurance Company of Hartford, Connecticut, waived its third and last challenge.

And thereupon, all challenges having been exercised or waived by the parties, respectively, and the empaneling of the jury completed, the defendants, and each of them separately, filed a written motion, which is in words and figures as follows, to wit:

In the Circuit Court of the United States for the District of Kansas, Eastern Division.
Sallie E. Hillmon, Plaintiff,
vs.
The Mutual Life Insurance Company of New York, Defendant.
Motion.

230 Now comes the above named defendant and objects to the trial of this case before the jury now impaneled herein for the reason that said jury is not constituted according to law, in this:

That the plaintiff has been given by the Court and has exercised under the order of the Court, six peremptory challenges to the jury, now impaneled for the trial of the case, between the said plaintiff and this defendant, which is a greater number of peremptory challenges than the said plaintiff is entitled to by law, so that said jury is illegally constituted as against this defendant; and said defendant moves the Court accordingly that said jury may be discharged and that a new venire be ordered.

E. F. WARE &
GEO. J. BARKER,
Counsel for defendant.

Filed Oct. 17, 1899. Geo. F. Sharitt, "Clerk."

After hearing arguments of counsel, the Court overruled and denied said motion, to which action and ruling of the Court, the defendants, and each of them then and there duly excepted.

And thereupon, the twelve men then in the jury box, so selected to try the causes, arose and were duly sworn to well and truly try the causes, and true verdicts render according to the law and evidence.

231 And thereupon, Mr. Atwood stated the cause of the plaintiff to the jury.

And thereupon, Mr. Green, stated the defenses of the defendants, and each of them to the jury. Among other things, he said:

"The second defense is that John W. Hillmon, Levi Baldwin and John H. Brown, entered into a conspiracy to defraud these insurance companies out of the money which was called for by these policies. It is said by the gentleman who addressed you that we have never claimed that Mrs. Hillmon is a party to this conspiracy; what the evidence will be deduced on that point is for you gentlemen to determine; what we say on paper is that John W. Hillmon, Levi Baldwin and John H. Brown did conspire to defraud these insurance companies." * * * And by the way, these applications as is stated to you, show that he was five feet, eleven inches in height."

And the hour for adjournment having now arrived, the Court, after admonishing the jury as to their duties during the separation, arose and adjourned until 9:30 A. M. Wednesday, October 18th, 1899.

Wednesday, October 18th, 1899, 9:30 A. M.

Court convened pursuant to the adjournment. All parties present as before. The trial of the cause was proceeded with.

And thereupon, the plaintiff to maintain the issues upon her part produced and offered evidence, oral and documentary as follows, to wit:

232 Plaintiff offered and read in evidence the policy of insurance issued by the Mutual Life Insurance Company of New York to John W. Hillmon and the indorsements thereon, being the policy sued on in these actions. Said policy is marked "Exhibit I. M. L. J." and a copy thereof is attached to plaintiff's petition herein and a copy is also attached hereto.

Plaintiff then offered and read in evidence a receipt given to the owner of policy 195132, dated December 10th, 1878, for the first semi-annual premium on said policy last above referred to. Said receipt was marked "Ex. 2. M. L. J." and is in the words and figures following:

The Mutual Life Insurance Company of New York.
140 to 146 Broadway, New York, December 10, 1878.

Received from the owner of Policy No. 195,132 the annual premium due December 10, 1878 $121.40
(for terms of Mutual agreement see Application and Policy)
C. SCHROEDER, Asst. Secretary.

Notice to Policy Holders: The agreement is mutual (see application and policy) that unless the premium is paid on or before the day it becomes due, the policy is forfeited and void. No person except the President or Secretary is authorized to

make, alter or discharge contracts or waive forfeitures and no contract, alteration, discharge or waiver is valid except it be in writing and signed by the president or secretary. Payments of Premiums are evidenced by receipts signed by the President or Secretary.

All premiums are due and payable at the Home office in New York. When receipts are sent to any person for delivery with authority to receive the money, such person shall countersign the same as evidence of payment to him.

Upon the following conditions:

1. If any statement made in the Application for this Policy be in any respect untrue, the consideration of this contract shall be deemed to have failed, and the Company shall be without liability under it.

2. If any premium, or installment of a premium, on this policy, shall not be paid when due, the consideration of this contract shall be deemeed to have failed, and the Company shall be released from liability; and the only evidence of payment shall be the receipt of the Company, signed by the President or Secretary.

4. It is hereby declared and agreeed that the self-destruction of the person, during the continuance of this insurance, whether voluntary or involuntary, and whether he be sane or insane at the time is not a risk assumed by the company in this contract; but in every such case, the company will, upon demand made and the surrender of this policy, accompanied with satisfactory proofs of such death, within sixty days after its occurrence, pay the net reserve upon it held by the company at the beginning of the year in which death occurs, calculated by the present legal standard of the state of New York, first deducting therefrom any indebtedness which shall have accrued to the Company on account of this contract.

234 5. The contract between the parties hereto is completely set forth in this policy and the application therefor, taken together, and none of its terms can be modified, nor any forfeiture under it waived, except by an agreement in writing signed by the President or Secretary of the Company, whose authority for this purpose will not be delegated; and it is further declared and agreed, that in case the obligation of the Company under this contract be defeated by the failure of any of the considerations, or by the violation of any of the covenants or conditions recited or referred to herein, all payments which shall have been made to the Company on account of this contract shall be forfeited to the Company.

8. The provisions and requirements printed by the Company upon the back of this Policy are hereby referred to and accepted as part of this contract as fully as if they were recited at length over the signatures hereto affixed.

In witness whereof, the said The Mutual Life Insurance Company of New York has caused this Policy to be signed by its President and Secretary, at its office in the City of New York, the tenth day of December, A. D. one thousand eight hundred and seventy-eight.

ISAAC F. LLOYD, Secretary. ROBT. A. GRANNISS, Vice-President.

C. and to visit the towns and cities on and in the vicinity of the Mississippi River, the Atlantic Ocean and Gulf of Mexico, within the United States, for a period of not over three days in any one place, but in case of death by yellow fever or its consequences contracted while residing in Savannah (Georgia), or Charleston, S. C. or during any visit permitted as above, then and in that case the Company shall not be liable to pay the sum insured or any part thereof, except in the cases of such persons as shall have resided for seven years continuously in either of the said cities of Charleston or Savannah; and in no case shall the said Company be liable, if death shall result from yellow fever, contracted in any such city, after that disease shall have been declared epidemic by the public authorities of said city, and before such epidemic shall have been, in like manner, declared no longer existing.

No payment made to any person except in exchange for such receipt and in cash, will be recognized by the Company. Should the Company, upon any occasion, consent to renew or revive the Policy by the acceptance of premium after the same is due and payable, or by the acceptance at the option of the Company of any premium in any other way or manner than herein in anywise pro-
236 vided, such acceptance is in every case to be, and shall always be, viewed and understood by the parties in interest, as an independent act of grace and courtesy of the Company, and in no case in anywise to be considered as creating an obligation or precedent for waiving, or as a waiver of, any forfeiture or any conditions in the policy.

Agents general or other, are not authorized to make any change whatsoever in Forms of Application, for Insurance, or in Policies or Receipts for Premiums, or to extend the time of payment of any premium in any form, or to give or allow any credit therefor, or to waive forfeiture or any condition of any Application for Insurance, or of a policy or premium receipt, to name an extra rate for special risks, issue permits of any kind or bind the company in any way; they being permitted and authorized simply to solicit Applications for Policies to receive Premiums and to deliver Premium Receipts to

Upon any proposed surrender of this policy, and cancellation thereof, or any substitution of any Policy of any kind therefor, by [—] then apparent holder or holders thereof, claiming the sole right thereto, the manual possession and production of this policy, together with evidence of ownership satisfactory to the President or Secretary of the Company, and none other, shall thereupon, at the sole option of the Company, be conclusive evidence of ownership in the party claiming the same, and producing said Policy, as between the Company and the real parties in interest, unless notice to the contrary, in writing signed by such real parties in interest and duly acknowledged, shall have been filed previously with the President of said Company. And said delivery upon surrender and cancellation of said Policy so actually produced and given up, and the release executed by said party, so producing and claiming to own said policy of all claims thereupon, all parties in interest do hereby authorize said Company to make or receive, accept or confirm, and will, and do hereby ratify the same, and upon the same being done, do hereby release and discharge said company from any claim and liability to them, or either of them, for the same, notwithstanding the same, or any of the same, may have been done without any other express authority, consent or knowledge than that herein expressed.

Commencement of Assurance, Year, and Balance of Year's Premiums. All premiums are payable annually in advance. When the premium is made payable in semi-annual or quarterly installments, that part of the year's premium, if any, which remains unpaid at the maturity of this contract, shall be regarded as an indebtedness to the Company on account of this contract, and shall be deducted from the amount of the claim; and if any such payment be not made on or before the day it is due, the Company shall, from that day, be released from all liability under this contract; and no credit for surplus accumulated upon this Policy shall be deemed applicable to the payment of any premium, unless the previous consent of the Company be obtained in writing.

237 Assignments. This Company will not take notice of any assignment of this policy until a duplicate or a certified copy thereof shall be delivered to the Company at its principal office; and under no circumstances, will the Company assume any responsibility for the validity of such assignment. If any claim be made under an assignment, proof of interest to the extent of the claim will be required.

It is expressly declared and agreed that none of the clauses or conditions of this Policy, or of the application thereof, shall be varied in their interpretation or legal effect by evidence of, or by the existence of any usage or custom whatsoever.

The Connecticut Mutual Life Insurance Company.

Form B. Ex'd. by J.

242 Plaintiff then offered in evidence the policy of insurance issued by the Connecticut Mutual Life Insurance Company, of Hartford, Connecticut, to John W. Hillmon, and the endorsements thereon; said policy being the policy sued on in the action against that company. Said policy is attached to the plaintiff's petition in that action, and marked "Ex. 3, M. L. J." and a copy is hereto attached.

To the introduction of which said policy the defendant, the Mutual Life Insurance Company of New York, objected on the ground that the same is incompetent, and irrelevant as against the said Mutual Life Insurance Company of New York.

Objection overruled, the defendants, and each of them, duly excepting.

Mr. Barker: When an objection is overruled, I suppose an exception will be saved without stating it each time.

The Court: So far as the rulings of the Court upon objections to testimony are concerned, they may be considered as being excepted to without the formal exception being made.

Mr. Barker: When there is an adverse ruling?

The Court: That statement, however, applies only to rulings on objections to testimony or evidence.

Mr. Atwood: That applies to both sides, of course?

The Court: Yes.

Mr. Ware: Then the stenographer can be instructed to make them as we go along?

The Court: Yes; but as to anything else, counsel will have to note their exceptions at the time.

Mr. Green: I desire to make the same exception to the introduction of the Mutual Life policy as is now made to the Connecticut Mutual policy.

The Court: It will do just as well to make that objection when you come to something later. The Mutual Life
243 policy was offered and read without objection, and I don't care at this time to have the stenographer go back and interpolate an objection that was not made. The point can be preserved later on just as well as now.

Said policy, Exhibit 3 was then read in evidence over the objection of the defendant, the Mutual Life Insurance Company of New York. Being attached to plaintiff's petition, it is not here set forth.

Mr. Green: We wish to have it understood that when an objection is made by one of the companies, the record will show that it is made by both companies; so that, when Mr. Barker, representing the Mutual Life, states an objection, it will apply to both companies, and we need not arise and make the objection for the other company.

The Court: Counsel's suggestion is very proper, and it may be stated now that whenever any counsel for the defendants make an objection without specifying that it is made especially in the interest of one defendant, it shall be considered as having been made in the interests of both defendants.

All papers, documents, records, books, pictures, cast of teeth and other objects, which are referred to by witnesses in the testimony set forth in this bill of exceptions, as exhibits, bearing marks of identification either figures or letters, or figures and letters, were offered and received in evidence, and are set forth herein, save the plaster cast of the teeth of the cadaver, which will be transmitted with the record to the Court of Appeals.

244 Sallie E. Smith, called as a witness in her own behalf, being duly sworn, was examined in chief by Mr. Wheat, and testified as follows:

Q. What is your name? A. Sallie E. Smith.
Q. State what your name was when this suit was brought?
A. Sallie E. Hillmon.
Q. You have been married since then?

Mr. Barker: We object to that on the ground that it is incompetent, irrelevant, and simply self-serving testimony.

The Court: I will instruct the jury that the fact that Mrs. Hillmon remarried since the commencement of these suits is not evidence of the death of John W. Hillmon, and the jury will not so consider it. With that statement, the objection is overruled, and the witness may answer.

To which ruling of the Court the defendants and each of them at the time duly excepted and still except.

A. Yes, sir.
Q. Whom did you marry?
Same objection as last about.

The Court: The same ruling with the same admonition to the jury.

To which ruling the defendants and each of them at the time duly excepted and still except.

A. James C. Smith.
Q. State whether that was since both of these suits were commenced? A. Yes, sir.
Q. Look at this Connecticut Mutual policy and state from whom you received it?

Mr. Barker: To that and to all the testimony of this witness concerning the Connecticut Mutual, we interpose an ob-

jection on behalf of the Mutual Life of New York, that it is wholly incompetent and irrelevant.

Objection overruled, to which ruling the defendant,
245 The Mutual Life Insurance Company of New York, duly excepted and still excepts.

A. I received this of Mr. Selig.
Q. What are his initials? A. A. L. Selig.
Q. State whether you know his signature or not? Did you ever see him write? A. Yes, sir.
Q. State whether you know his signature?
A. I think I do.
The Court: A little louder.
Witness: Yes, I know his handwriting—his signature.
Q. State whose handwriting that is, the "A. L. Selig" on this policy there? State whether that is his handwriting there? A. . Yes, sir; I think it is.
Q. State whose signature this is to this receipt?
A. A. L. Seelig's.
Q. The same man? A. Yes, sir.
Q. And from him you received this policy?
A. I did; yes, sir.
Q. State whether he said anything to you at the time you received that policy? Where was it rather that you received that policy from him, whether it was at his office or not.

Mr. Barker: The Mutual Life company objects on the ground that the same is wholly incompetent, irrelevant and hearsay as to that company.
Objection overruled, defendant Mutual Life Insurance Company of New York excepting.

Mr. Isham: I object on another ground on behalf of the Connecticut Mutual, that it must be shown that this man Seelig was an agent having at the time authority to issue that policy.
Objection overruled, defendant Connecticut Mutual Life Insurance Company excepting.

A. I received that policy at Mr. Selig's office on Massachusetts street in Lawrence, Kansas.
Q. State what day it was as nearly as you can?
A. On the 15th day of March, 1879.
246 Q. State whether he said anything at the time on the subject as to whether the premium had been paid or not?

The Court: That was the question you asked before the ruling was made to these various objections.
Mr. Barker. That is what I understood.

Q. Answer that question?
A. He told me that the premium had been paid.
Q. Now with reference to a part of that, state whose signature that is (indicating to witness)—whose writing you think that is, "A. L. Selig" on that paper?
A. It is his handwriting.

Mr. Wheat: We offer that in evidence.
Same is marked Exhibit 4.

Mr. Barker: We make the same objection on behalf of the Mutual Life of New York, that it is incompetent and irrelevant against that company.
Objection overruled, defendant excepting.

Counsel for defendant reads said exhibit to the jury, the same being in the words and figures as follows:

$60.70 Lawrence, Kan., Dec. 12, 1878.

Received of J. W. Hillmon sixty and 70-100 Dollars to be credited to the account of insurance $5000 in Conn. Mutual Life Ins. Co. this amount to be returned if application is not accepted. A. L. SELIG.

247 Q. State whether he delivered that to you at the same time he delivered the policy or not, and whether you saw it at that time or not, and when you first found that piece of paper and where?
A. Some time after I received this policy I found this receipt in it.
Q. Found the receipt?
A. Yes I found the receipt in the policy.
Q. You didn't see it at the time?
A. No I didn't see it; I didn't open the policy at the time I received it.
Q. What did you do with it—carry it home?
A. Yes I took it home and put it away.
Q. And then afterwards you found that particular piece of paper in it? A. Yes.
Q. In that same policy? A. Yes.

Cross-examination waived.
Witness excused.

248 Sallie E. Smith, recalled on her own behalf, during the examination of J. W. Green, testified as follows:

Q. To this application made the 4th day of December, 1878, can you tell me whose signature that is?
A. Yes sir; that is John W. Hillmon's.
Q. Written by whom? A. By John W. Hillmon.
Q. Your husband? A. Yes sir.

Q. I will ask you who wrote the signature "Sallie E. Hillmon by John W. Hillmon" and then "John W. Hillmon" below it. Who wrote those signatures on this application which appears to be dated the 4th of December, 1878?

A. That is John W. Hillmon's.

Q. John W. Hillmon wrote it? A. Yes sir.

Q. You think that is his handwriting? A. Yes sir.

Q. State who wrote each of those signatures on the side of those applications? A. John W. Hillmon.

Q. Your husband? A. Yes sir.

Q. State who wrote the signatures "Sallie E. Hillmon by John W. Hillmon" and then "John W. Hillmon" below that on this application dated the 24th of February 1879. This is exhibit 8. A. John W. Hillmon.

Q. You know his handwriting do you? A. Yes sir.

Q. Now look at the signature "Sallie E. Hillmon by John W. Hillmon" and "John W. Hillmon" on this application dated the 24th of December, 1878?

A. Yes sir that is John W. Hillmon's signature.

Q. This signature, "A. L. Selig" on each of these applications on the same page where John W. Hillmon did the writing that you spoke of on three of these applications. Who wrote that "A. L. Selig?" A. A. L. Selig wrote them.

Q. And the same as to these two here?

A. Yes sir, A. L. Selig those are his signatures on both of these.

249 Q. Is that the same A. L. Selig that handed you the policies? A. Yes sir the same man.

Q. The same Seelig that wrote this signature?

A. Yes sir.

Q. That is his handwriting? A. Yes sir.

* * * * * * * *

Q. State who wrote that signature "John Wesley Hillmon" if you know? A. No answer, question not pressed.

* * * * * * * *

Q. I will ask you with reference to this signature, "Sallie E. Hillmon by John W. Hillmon" and below "John Wesley Hillmon"—who wrote this signature?

A. Those are his signatures (referring to application dated December 5th, 1878.)

Q. That was written by John W. Hillmon?

A. Yes sir.

Witness excused.

250 James W. Green, a witness produced by the plaintiff, being first duly sworn to testify the truth, the whole truth and nothing but the truth, in answer to direct interrogatories propounded to him by Mr. L. B. Wheat, counsel for the plaintiff, testified as follows, to wit:

Q. What is your name? A. James W. Green.
Q. Where do you reside?
A. I reside at Lawrence, Kansas.
Q. You have been present as an attorney for these defendants, all or some of them, at every trial of these cases, have you not? A. I have.
Q. You have had possession of these applications during all the years of the pendency of these suits, have you not?
A. I have.
Q. When did you receive those applications in those two companies, the Connecticut Mutual and the Mutual Life, as near as you can tell? A. Prior to the first suit.
Q. Prior to the first trial? A. Yes.
Q. Prior to 1882? A. Yes.
Q. And you have had possession of them ever since except when they would be in the court room and somebody else—
A. I have been custodian of those papers ever since, excepting when I have handed them at various times to the attorneys for the plaintiff, and also to the attorneys for the defendants.
Q. That would be just temporarily, at the times of the trial of the cases, would it not? A. Yes sir.
Q. For the purposes of the trial?
A. During the trial of the case.
Q. Now, will you produce the application to the Connecticut Mutual, the first application to the Connecticut Mutual?
A. Can you give me the date of it?
Q. The last one is dated the 24th of February, I think.
[—] No sir; I can't give you the date of it, the first one. I think there is two.

By Mr. Atwood: Ask for both of them.
Q. Yes; let me have both of them. Let me have all that you have in the Connecticut Mutual—all the applications to the Connecticut Mutual.
A. There are four (handing same to counsel.)
Q. Four? A. Yes.
Q. From whom did you receive these several applications you have handed me, these four?
A. I received them from the Connecticut Mutual Life Insurance Company.
Q. State if you know J. H. Stewart, M. D.
A. Yes, I know a doctor by that name; he formerly resided in Lawrence.
Q. Where does he reside now?
A. He resides now at Minneapolis, Minnesota.
Q. Where is he at this present time? A. I can't tell.
Q. He resides at Minneapolis, Minnesota? A. Yes sir.
Q. State when you last saw him.

A. The last time I saw him was the date of the last trial of this case; I wouldn't want to swear as to just what that date was.

251 Q. Supposing that was in March, 1896, the first part of 1896; the record will show that?

A. Yes, whatever the date is; that would be my recollection.

Q. He was present at the trial at Topeka?

A. It was about that time. He was present at the trial at Topeka.

Q. State if you know where he left to go to when he left there; or did he leave. A. He left to go to Lawrence.

Q. Did you see him afterwards? A. I did not.

Q. State whether he intended to go back to Minneapolis or not; or do you know?

A. Yes; after stopping in Lawrence for a day or so he informed me he intended to go back to Minneapolis.

Q. Have you seen him in Lawrence since? A. No, sir.

Q. Have you been residing there ever since? A. Yes, sir.

Q. You would have seen him if he had been there, in all probability?

A. The probabilities are that I would.

Q. Have you heard from him in Minneapolis yourself recently? A. Yes, I have.

Q. Received letters from him in Minneapolis. Within how long a time?

A. Oh, I had a letter from Dr. Stewart within the last two weeks.

Q. State whether he had been a witness in these cases on every trial thereof? A. He has.

Q. All five trials? A. Yes, sir.

Q. State whether or not on those trials he stated who wrote that five feet eleven in this particular application dated the 4th day of December, 1878.

Counsel for the defendant objects to the question as incompetent, irrelevant and immaterial. The Court overruled the objection, to which ruling the defendant at the time duly excepted.

A. My recollection is that he testified that he wrote the figures "5" and "11."

Q. Do you remember who the doctor was for the Mutual Life company?

A. Miller, I think.

Q. The four applications were then marked respectively Exhibits 5, 6, 7 and 8.

Q. Now, with reference to all four of these applications, I will ask you whether at the trial in 1882 in this court—these two cases were tried at the same time? A. Yes, sir.

Q. Whether, at the trial of these two cases which took place in June and July, 1882, Dr. J. H. Stewart testified as to who wrote the five feet eleven in those policies?

Counsel for the defendant objects to the question because the same is incompetent, irrelevant and immaterial. The Court overruled the objection to which ruling the defendant at the time duly excepted.

A. I don't remember whether all four of those applications were admitted in evidence at that time. I may say that my recollection is that sometimes all four have been admitted in evidence, and at other times they have not.

252 Q. This application where "J. H. Stewart, M. D." is written and dated the 25th day of February, 1879, hasn't that been introduced in evidence at every trial?

A. I wouldn't want to say that my recollection serves me well enough to so state. I presume this one has.

[A.] Isn't that your best recollection?

A. That would be my best recollection.

Q. That that one has? A. Yes.

Q. I will ask you whether at those three trials—the trial in 1882, the trial in 1885 and the trial in 1888—this Doctor Stewart we are talking of testified who wrote the "5 feet 11" in that application?

Counsel for the defendant object to the question because the same is incompetent, irrelevant and immaterial. The Court overruled the objection, to which ruling of the Court the defendant at the time duly excepted.

A. I can only answer that by saying that if this application was admitted in evidence at each of those three trials, Doctor Stewart said that he wrote the figures "5" and "11."

Q. State whether or not he stated that with reference to every one of these applications at those three trials.

Counsel for the defendant objects to the question because the same is incompetent, irrelevant and immaterial. The Court overuled the objection, to which action the defendant at the time duly excepted.

Q. That was introduced at those three trials?

By the Court:

When you say "stated" you mean testified as a witness?

By Mr. Wheat:

Yes, I mean testified as a witness in the case.

A. Yes, sir.

Q. As to each one of these applications to the Connecticut Mutual, he testified that the 5 feet 11 was written by him—each one that was introduced? A. Yes, sir.

Q. With reference to these other three applications, other than this one dated—part of it signed by Hillmon on the 24th of February and part of it signed by Stewart on the 25th of February, 1879, I will ask you whether at the last trial Doctor Stewart didn't testify as to the five feet eleven in the other three applications—that he wrote the "5 feet 11" in each of them?

Counsel for the defendant objects to the question because the same is incompetent, irrelevant and immaterial. The Court overruled the objection, to which ruling the defendant at the time duly excepted.

A. That would be my recollection.

Q. That he did?

A. It would be my recollection that those three were offered—at least those three were offered at the last trial.

Q. Well, the other one was offered, too, at the last trial?

A. Well, I don't remember.

Q. Well, that don't matter. You do remember that these other three were? A. Yes.

Q. And he said he wrote the 5 feet 11 in them, these applications? A. Yes, sir.

253 By Mr. Wheat: Now I offer all four of these applications, and draw particular attention to the height given in each.

By the Court: Do I understand you to say that the one which is dated the 24th and 25th of February was used in evidence at some one trial or other?

Witness: That was used at each of the trials.

By the Court: The last one was?

Witness. The last one.

By the Court: And that Doctor Stewart testified with reference to having written those figures in? A. Yes, sir.

Q. By Mr. Wheat: I understand you to say that previous to the trial in 1895, before Judge Thomas, that he swore that he wrote the five feet eleven in this application dated the 25th of February?

A. My recollection is that that application has been introduced in evidence at each of the trials of this case.

Q. And that he testified at the first three trials that he wrote the five feet eleven in it?

A. He testified that he—

Q. (Interrupting.) I am now speaking of the trials of 1888, '85 and '82?

A. The first three trials he testified that he wrote the figures "5" feet "11."

Q. That he wrote them? A. Yes, sir.

Q. Where it refers to the height? A. Yes.

Q. I will ask you if at that trial in 1895, before Judge Thomas, if you didn't produce this application where the doctor's signature is dated the 25th of February, 1879, deliver it to me in the court-house at Topeka during the trial of these cases and I offered it in evidence and read it there as five feet eleven, the height?

A. Well, I won't say that my recollection serves me so well that you were the one that offered it, but that would be my best recollection and that it was read in evidence there as five feet eleven.

Q. That is, on the trial in 1895?

A. That was the "Thomas" trial.

Q. Now state whether or not, by examining carefully, you can see that there has probably been some scratching done around the "11" in this application, the one dated the 25th of February?

A. Yes; it is very evident that there has been some scratching done there.

Q. Around the "11"? A. Yes.

Q. Now I will ask you whether anything was ever said or noticed, so far as you know, by anybody with reference to any scratching around that "11" until some days after that paper had been read in evidence at that trial in 1895, the fourth trial? A. Not that I know of.

Q. State whether you ever heard of it, so far as you were concerned? A. No, sir, I never discovered it.

254 Q. Nothing ever said about it in the court-house?

A. Not to my recollection; no.

Q Not until he came on the stand; there was nothing ever said in the court-house about it until he came on the stand as a witness in that 1895 trial, was there? A. Never.

Q. It had alaways passed as five feet eleven up to that time?

Counsel for the defendant objects to the question because the same is incompetent, irrelevant and immaterial. The Court sustained the objection to which action and ruling of the Court the plaintiff at the time duly excepted.

By Mr. Wheat: Now we offer these four applications in evidence.

Counsel for the defendant objects to the same as being incompetent, irrelevant and hearsay.

By the Court: Has the signature been identified as the signature of Hillmon?

By Mr. Wheat: No, sir.

By Mr. Hutchings: Mrs. Hillmon can prove the signatures.

Q. Now I will ask you, Mr. Green, if you have one or more applications in the Mutual Life Insurance Company?

A. I have one application in the Mutual Life Insurance Company.

Q. I will ask you to produce that?

(Witness hands same to counsel.)

Q. I notice that this one to the Mutual Life is badly torn. When you originally got it it was all one paper?

A. Yes; it has been worn out by frequent use.

Said paper is marked Exhibit 9.

Q. From whom did you receive this paper?

A. From the Mutual Life Insurance Company of New York.

Q. After these suits were brought?

A. After these suits were brought and before the first trial.

Q. You have had it ever since?

A. I have been the custodian of the paper ever since.

Q. Your name is signed to the answer as one of the attorneys in this case of the Mutual Life Insurance Company, isn't it? A. I believe it is, yes, sir.

Q. And you have had possession of this paper ever since, with the exception of—

A. (Interrupting.) With the exception of the times I have handed it to other parties for examination, attorneys on the opposite side and attorneys who were associated with me.

Q. Now I will ask you if this "5 feet 11 inches" hasn't been in there just as it is now ever since you first received it; if it wasn't there when you first received it and if it isn't now just as it was then?

255 A. I have never observed whether it was or not; I have never paid particular attention to it. I should say, yes.

Q. That application has been read at all five trials, hasn't it? A. Yes, sir.

Q. And that five feet eleven has been referred to at each of the trials as being in that application? A. Yes, sir.

Q. Each of the five trials? A. Yes, sir.

Q. Now, this "Amount of insurance in other companies" is just the same now as when you got it?

A. It is so far as I know.

Q. According to your recollection?

A. I haven't any recollection about it.

By Mr. Wheat: Now we offer this in evidence.

(Admitted as against defendant, Mutual Life Ins. Co.)

And in answer to Cross-Interrogatories propounded to him by Mr. G. J. Barker, counsel for the defendant, the witness testified as follows, to wit:

Q. Please give us the date of the application in the Mutual Life Insurance Company case?

A. It is dated the 5th day of December, 1878; that is the date, I think. I think there are two dates, December 4th and December 5th.

Q. Is that correct, December 5th, 1878?

A. It sems to be dated December 5th, 1878.

Q. Now, at the time Doctor Stewart testified that certain portions of that application were in his handwriting; for instance, the figures 5 and 11, did he state how those figures happened to be put in there? A. He did.

Q. You may go on and state what he said in regard to what source his information was received from wh[illegible]n was put in there?

A. He said he derived the information from John W. Hillmon.

Q. Did John W. Hillmon tell him at that time that that was his height—did he so testify? A. He so testified.

Q. Had Doctor Stewart at that time measured John W. Hillmon? A. He had not, he so stated.

Q. What did he testify in regard to whether he had at the time those figures were written in there measured John W. Hillmon or not?

A. He stated that he hadn't measured him at that time.

Q. Now, will you take up the applications in the Connecticut Mutual and give the date of the first application in the Connecticut Mutual—I mean the earliest dated one?

A. The earliest date is December 4th, 1878.

Q. At the time Doctor Stewart testified in regard to having written in the date of the first application, concerning the height, did he explain to the jury and testify how he came to write those in? A. He did.

Q. You may state what he said in regard to that?

A. He stated that he derived his information in this, as I remember, from John W. Hillmon.

Q. State whether at that he stated that he had
256 measured John W. Hillmon?

A. He stated that he had not that time.

Q. Now, will you give the date of the next application in the Connecticut Mutual? A. January 14th, 1879.

Q. Is there still one later than that?

A. That is the latest.

Q. I thought there were four applications made to the Connecticut Mutual?

A. There is another application of December 4th.

Q. Two applications of December 4th? A. Yes, sir.

Q. Now, in regard to the statement that was in the other application of December 4th, in regard to his height, did Doctor Stewart state how that happened to be in there?

A. He did.

Q. You may explain what he said in his testimony in regard to that matter.

A. He stated that he took the statement of John W. Hillmon, or he derived the information from John W. Hillmon; that he took his word.

Q. Now, in regard to those various applications, did Doctor Stewart testify that five feet, eleven inches and a fraction was not the height of John W. Hillmon?

Counsel for the plaintiff objects to the question because the same is incompetent, irrelevant and immaterial.

Q. At the time he testified that he wrote the figures in there on those occasions, did he also testify in regard to the height of John W. Hillmon?

Counsel for the plaintiff objects to the question as not being proper cross-examination. The Court sustained the objection to which action and ruling of the Court the defendant at the time duly excepted.

Q. I will ask you if Doctor Stewart did not testify at that same time that he afterwards measured John W. Hillmon and that instead of being five feet eleven inches and a fraction he was five feet nine inches high by actual measurement?

Counsel for the plaintiff objects to the question because the same is not proper cross-examination. The Court sustained the objection to which action and ruling of the Court the defendant at the time duly excepted.

Q. Now, I desire to call your attention to the last application, February 24th, I believe. Doctor Stewart testified in regard to that, did he? A. Yes, sir.

Q. You have already spoken about his having testified in regard to that. They have asked you about the custody of these various applications by you that is, in regard to your being the custodian of them. I will ask you if this application has ever been out of your possession, and if so when and for about how long and what was done with them, particularly at the various trials of this case?

A. At the very first trial of this case, and for several trials since then—I can't speak distinctly as to which of them—these papers or these applications that application was delivered to the attorneys for the plaintiff.

257 Q. Now, when you speak of that application, I wish you would designate by number and date or by the number of the exhibit what application you have reference to.

A. I have reference to the application dated the 24th day of February, 1879.

Q. Is that the application in which a change appears?

A. It is.

Q. I will ask you to state when if ever you ever discovered a change in that application and under what circumstances?

A. It was during the trial of this case at Topeka at which Judge Thomas presided. I was examining the application one evening at my room at the hotel. I was sitting under the gaslight and the light happened to strike in such a way that I discovered that the paper had been scratched and that there was an appearance of the figures having been changed.

Q. That was the first time you discovered that change?

A. The first time I ever discovered it.

Q. Now, did Doctor Stuart testify in regard to that change at the last trial?

A. The doctor said that the paper evidently had been changed and that they were not his figures, as I recollect.

Q. Did he state how it had been changed?

A. I don't remember that he did. He stated how it appeared to have been changed.

Q. How did he state it appeared to have been changed?

A. By changing the figure "9" to a figure "11."

Q. Was he asked at that time whether or not he made the change or knew of its having been made?

A. He was asked that.

Q. What did he say in regard to that matter?

A. He said he had never made the change.

Q. What did he say in regard to having had no knowledge of the change having been made?

A. He stated that the first he knew of it was at the time I discovered it in my room at the hotel at Topeka. He was present at that time.

Q. Did he state at that time how he originally wrote that height in this particular application?

A. I don't remember that he did.

Q. Did he state at that time that he had measured John W. Hillmon? A. He did.

Q. Excuse me; I didn't put that as I wanted to. Did he state at that time that before that time; that is, before the time of filling out this application in that particular, that he had measured John W. Hillmon? A. He did.

Q. Did he state at that time how much John W. Hillmon measured or what his measurement was? A. He did.

Q. You may state what he said the measurement of John W. Hillmon was. A. Five feet nine inches.

Q. I will ask you to state if he testified on that subject at every trial of this case? A. My recollection is that he did.

Q. Doctor Stewart has testified upon the question of the height of John W. Hillmon at every trial of this case since it has been pending?

258 A. My recollection is that he has.

Q. I will ask you if Doctor Stuart stated at each one of those trials what his actual height was.

A. If he testified at each trial, and I think he did, as to the actual height of John W. Hillmon, he testified that his height was five feet nine inches.

Q. Did he state how it happened that he came to measure John W. Hillmon?

Counsel for the plaintiff objects to the question because the same is incompetent, irrelevant and immaterial. The Court sustained the objection to which action and ruling of the Court the defendant at the time duly excepted.

Q. Do you remember of his stating when he first measured John W. Hillmon? A. I do.

Q. When did he state that he measured John W. Hillmon?

Counsel for the plaintiff objects to the question because the same is incompetent, irrelevant and immaterial. The Court sustained the objection to which action and ruling of the Court the defendant at the time duly excepted.

Q. You have stated you discovered the change in these figures at a certain time. I will ask you if you had any knowledge of those figures having been changed before that?

A. No sir.

Q. I will ask you if you ever assented to the changing of these figures? A. No sir.

Q. Or were they ever changed by you? A. No sir.

Q. My co-counsel desires me to ask how long these applications, and this particular application, were out of your hands at any time?

A. I can't give the length of time at any one time. I know they were out of my hands over night, but whether longer than that I don't remember.

Q. And when they were out of your hands for that length of time, in whose hands were they?

A. My recollection is that I gave them, at the first trial to Mr. Wheat, and that they were out of my hands over night at that time. I don't remember of having handed them to any other person than Mr. Wheat, he representing the other side and asking me for the papers.

Q. You say they have been out of your hands only on that one occasion?

A. Oh, no; they have been out of my hands at other times, but I don't have a distinct recollection of when or at what times.

Q. Do you recollect how long they were out of your hands on other occasions? A. Probably over night at times.

Q. And then they would be in the hands of the opposite side? A. Yes sir.

259 And in answer to redirect interrogatories propounded to him by Mr. L. R. Wheat, counsel for the plaintiff, the witness testified as follows, to wit:

Q. If I understood you right, in your examination in chief you testified—well, I will ask nothing about that. This was always treated and read as five feet eleven at those three first trials? A. Yes, always.

Q. Always read at the three first trials as five feet eleven in that particular policy—application? A. Yes—

Q. And that same application was always exhibited to Dr. Stuart every time he was a witness, wasn't it?

A. I think so.

Q. And I understand you that at the three first trials he stated in substance that the five feet eleven was written by him?

A. I think he did, but put it in a general way that he had made the entries. He was asked if he recollected who made the entries in that medical examination.

Q. Do I understand you to say that he explained at each trial how he came to put it in "5 feet 11" at each of these three first trials?

A. He explained how it must have been that he put it in in that way.

Q. Didn't he state how it was? Didn't he say he did it because Hillmon told him he was five feet eleven? A. No.

Q. Didn't he say that each time that Hillmon told him he was five feet eleven? A. No, not to my recollection.

Q. I understand you to say here on re-examination that Dr. Stewart swore that he wrote that in there because Hillmon told him he was five feet eleven?

A. If I did so state I didn't intend to so state.

Q. I thought you didn't; I wanted to give you a chance to correct that.

A. I don't think Dr. Stuart had anything to do with that.

Q. That is, the Mutual Life Insurance Company of New York? A. I stated it inadvertently, if I so stated.

Q. That is, over Theodore Wiseman's signature?

A. Possibly.

Q. And Miller's both?

A. I wouldn't say; I notice it purports to be signed by G. G. Miller.

Q. And isn't one of those heights signed by Theodore Wiseman too? A. Possibly.

Q. And John Eldridge's signature is there, too, isn't it?

A. I don't find Theodore Wiseman's here.

Q. I will ask you if underneath one of those "five feet eleven" in the medical examination, there is not the signature of Dr. Miller?

A. It is very badly torn and the name is nearly obliterated, but I should say that it was Miller's signature.

Q. The Miller that was medical examiner for the Mutual Life at that time, according to your understanding?

A. It is V. G. Miller, M. D.

Q. The Miller who gave testimony in this case sometimes?

260 A. Yes, he gave testimony in this case.

Q. Is he dead now or alive? A. He is dead.

Q. Now in the other place where it is five feet eleven and where the amount of the policy is given, I will ask you if that is not signed by Hillmon and by Theodore Wiseman both?

A. Yes.

Q. Theodore Wiseman was the agent, wasn't he, of the Mutual Life Insurance Company? A. I don't know.

Q. Isn't he the man that has been a witness here at the different trials?

A. He has been a witness here at different trials.

Q. It is the same Theodore Wiseman that has given evidence in this case?

A. Yes sir, the same Theodore Wiseman that has given evidence in this case.

Q. And the same Theodore Wiseman that you referred to in your opening statement? A. The same man.

Q. You only referred to one Wiseman? A. That is all.

Q. And that was this man whose name is signed to that?

A. Yes sir.

And in answer to recross-interrogatories propounded to him by Mr. Barker, counsel for the defendant, the witness testified as follows, to wit:

Q. You were asked by my friend on the other side if the height in these applications to the Connecticut Mutual had been treated as the height of Hillmon on these trials. I will ask you to state if, after Dr. Stuart discovered the mistake, they were so treated or considered—after Dr. Stuart discovered the mistake or the change in this application if there was any such matter considered?

A. I don't understand that the height of Hillmon was considered to be five feet eleven at any time.

By the Court: I don't understand that the witness has so testified; he simply testified that those figures there were considered as five feet eleven at the different trials.

Q. That is, they were so considered up to the time of the last trial when this change was discovered, was it not?

A. Yes sir.

Q. Now you have been asked in regard to Dr. Stuart explaining as to how these things happened to be written in. I will ask you if Dr. Stuart could ever explain or did ever explain how it happened to be five feet eleven in this last application, until he discovered the change?

A. He couldn't understand how that the figures five feet eleven were there, but he stated it must have been through inadvertence in taking the figures from the former applications.

Q. That was the statement of Dr. Stuart before discovering the change? A. Yes.

Q. That was the reason and the only excuse he could
261 give of its being in there? A. Yes.

Q. You have already stated before this last application was made, he had measured John W. Hillmon?

A. Yes, sir.

Q. And you have stated what his measurement was?

A. Yes sir.

Q. I don't know whether you have testified as to when that measurement took place.

Counsel for the plaintiff objects to the question because the same is incompetent, irrelevant and immaterial.

The Court sustained the objection to which action and ruling of the Court the defendants and each of them at the time duly excepted.

Witness excused.

That any fraud or attempt at fraud on the part of any person interested or named in the said policy, by false swearing, production of false or fraudulent papers, simulated death, pretended accident, fraudulent disappearance, or otherwise, shall forfeit all claim on this company, and be a perpetual bar to any recovery under the policy. 6. That said person whose life is proposed for insurance is not now afflicted with any disease or disorder, and that he does not now, and that he will not, practice any pernicious habits that tend to the shortening of life; that the said company shall have the right at any time, if a policy shall be issued, to dispute the truth of the application, and the person accepting said policy hereby waives the benefit of any statute or statutes of limitation in conflict herewith.

Alteration of Policies. Changes in the manner of paying premiums (as from yearly to half-yearly or quarterly, or the reverse) can only be made at the end of a year, dating from the commencement of a policy; and when such a change is desired by a policy holder, the policy must be forwarded to the office of the company for the proper and requisite endorsement.

A change of interest in a policy can only be made on the written request of the legal owner of the policy, and with the consent of the company. The dates of payment cannot be changed after a policy has been issued, and the amount assured can only be increased (if desired) by a new policy. The fiscal (or business) year of the company closes on the 31st of December. A policy issued in any year must be dated within that year; it cannot be dated prior to the commencement, or subsequent to the close, of the fiscal year of the company.

Assignments. A wife cannot legally assign a policy issued under the married women's act for the benefit of herself and children. But see Special Notice to Applicants and Policy-holders as to policies issued subsequent to June 23d, 1873, printed on outside page.

283 This Company will not take notice of any assignment of this Policy until a duplicate or a certified copy thereof shall be delivered to the Company at its principal office; and under no circumstances will the Company assume any responsibility for the validity of such assignment. If any claim be made under an assignment, proof of interest to the extent of the claim will be inquired.

Extra Rates.—Permits are required for travel or residence beyond the limits assigned in the Policy, and for hazardous occupations; for which application must be made to the principal office. Extra rates, in such cases, are always charged, as a percentage on the amount assured, and not on the amount of premium. In reviewing the family record, the Medical Examiner should invariably explain obscure causes of death, such as "Dropsy," "Change of Life," "Cold," "Exposure," "Childbirth," "Debility," etc., and in case the party examined states "he does not know" the cause of death or duration of illness, the Medical Examiner should ascertain and state the reason why; and should question and report upon the point of possible hereditary disease.

The Medical Examiner is earnestly requested to answer the above questions minutely, and to propose such other queries as in his judgment are necessary for a full elucidation of the risk.

Should the examination develop points of doubt as to the safety of a risk believed on the whole to be good, the Examiner may send a letter direct to the Company at New York with full explanations. This letter will be considered strictly confidential.

The Examiner will feel the responsibility of his position, bearing in mind that in deciding whether to accept or decline a risk at a distance, the Company place great reliance upon his statements. If hereafter it should turn out that this examination had not been thorough—that due care had not been used—that the party examined was not so good a subject as had been represented,—it would be not only detrimental to the interests of the Company, but injurious to the Examiner.

The Examiner will require the party examined or agent to procure the family physician's certificate, as it may contain important suggestions, unless such certificate is clearly unnecessary.

I certify that the answers to the questions above are in my own handwriting, and that I have made in private a physical examination of the person proposed for insurance.

293 L. B. Wheat, called as a witness on behalf of the plaintiff, being duly sworn, testified as follows:

Direct Examination

By Mr. Hutchings:

Q. State your name? A. L. B. Wheat.

Q. In reference to this case being tried now, you may state when you first became counsel in the case?

A. I think it was on the 14th day of May, 1879, that I was first employed in relation to the matter. I have been an attorney in it ever since.

Q. Have you been present at all the trials we have had?

A. I have.

Q. You were present at the trial which was held in 1882 at which Judge Foster presided? A. I was.

Q. Now, I will exhibit to you this application to the Connecticut Mutual Life Insurance Company, which is marked

"Ex. 8," being an application dated the 24th day of February, 1878, and get you to state when you first saw that application, if you ever saw it before.

A. You refer to it as dated the 24th of February. That is the date over Hillmon's signature. Over Stuart's signature it is dated the 25th.

Q. In order that the jury may understand,—that is the application where there has, apparently, a change been made in the figures in regard to height?

A. Yes; that is the particular one we have been talking about.

Q. Now you may state when you first saw that application, if you ever saw it before?

A. I first saw this application in June, 1882, in the west courtroom of the courthouse of this county, Leavenworth, in court. It was in the presence of Judge Foster, presiding, and I first saw it there during the trial of these cases.

Q. What year did you say that was?

A. That was in June, 1882; I can't state just what particular date it was, but it was early in the trial of that case. By looking at the records, you can get to it very closely. I
294 won't say it was the first day, but it was very near the commencement of that trial.

Q. Do you know from what custody it came when you first saw it?

A. It came from the custody of James W. Green.

Q. The witness who has just left the stand?

A. Just left the stand; yes.

Q. You may state to the jury whether in 1882, at the time you have described, you had occasion to examine that apppli-cation carefully with reference to those figures "5 feet, 11?"

A. I examined it right then and there in the courtroom myself, and Mr. John Hutchings who is now dead, and I think Mr. Samuel A. Riggs also, and several others.

Q. You may state whether or not at that time there was in fact or apparently any change or scratching or alteration in that application?

A. I think at that time that the "5 feet, 11" was two straight—the eleven was represented by two ones, and now you can notice there is three up-and-down marks that you can see where the "11" stands, and by putting a magnifying glass on here you will see one of them has two up-and-down marks.

Q. When did you have occasion to see that application again, if you ever did?

A. Well, I saw it during that trial several times. I can't say it was used during the argument. It was used right along through the case. It was read in evidence, and seen right along in the case. It was just a straight "5—11" when I first

saw it—when it was first produced by James W. Green. I remember well there was a good many of us looking at it.

Q. After that trial when did you see it again, if you ever did?

A. On the trial before Judge Brewer in June, 1885, in the same court-room in this court—same courthouse.

Q. What was its condition at that time?

A. The same as at first so far as I have any recollection of it, and I recollect it was a straight five-eleven; because if there had been any such thing as it is now, or any such look, I would have seen it at once.

295 Q. When did you ever have occasion to see it again after the trial of 1885, if you ever did?

A. Again in March, 1888, at the trial in Topeka, before the Honorable O. P. Shiras, I think his name is; Judge Shiras any way. I saw it on that trial.

Q. What was its condition then as to being scratched or otherwise?

A. It was straight five feet eleven, without any scratching at all.

Q. When did you have occasion next to see it?

A. I next saw it in 1895, in January. I called on Mr. Green for it. That is when I next saw it.

Q. What was the occasion then of calling for it?

A. I wanted it to introduce in evidence. I called on Mr. Green for it there in the United States court room in Topeka. It was in Topeka when Shiras was there, too.

Q. The trial was then being had?

A. The trials of the cases were then proceeding, and of course it was the three cases; it wasn't just two.

Q. You are speaking now of the trial in 1895?

A. Yes; 1895; the trials were in progress.

Q. Before what Judge?

A. Before the Honorable Judge Thomas; I forget his given name.

Q. What was the condition of that application at that time?

A. It was straight five feet eleven, and there was no such marks of erasure as there is now.

Q. Now I want you to state to the jury when it was you discovered—

A. (Interrupting.) Since I am on the stand I would like to explain that I introduced it—called on Mr. Green for it, and I took it and introduced it—

Mr. Barker: To what he did with it, we object.

Witness: It was introduced in evidence.

Mr. Barker: Mr. Wheat, I desire respectfully to make an objection to the Court. What he did with it is incompetent

and irrelevant. It is only in regard to its condition he is inquiring about.

296 The Court: Anything that enables him to recall the fact to his mind is proper for him to state.

Mr. Hutchings: That was the purpose of it—rather to fix the time.

Q. You may go on.

A. I introduced this application with several others in evidence, I forget how many, I think more than we introduced here today, and I read this one in evidence amongst others—five ft. eleven.

Q. What was its condition then as to being changed or not?

A. It was just as it always had been before, so far as my remembrance goes. I noticed no difference; I looked at it carefully; looked at every one of them. I remember reading it to the jury, this particular five feet eleven.

Q. Now when, with reference to the time you read it to the jury, as five feet eleven, did you discover that it had been changed?

A. I didn't discover it then; there was no change in it then so far as I could see.

Q. I say, when, with reference to that time, did you discover it?

A. The first I heard of it was when Dr. Stuart came on the stand in 1895, at the trial, and testified to this change. I would state that I took either this or another magnifier like it, and got hold of the application pretty soon and looked at it through the magnifier, and you could then see the erasure in the paper, the cutting in the paper, plainer than you can now; it had a fresh appearance; didn't present the old appearance that it presents now. You see it is nearly four years since then. It presented a fresh appearance as though it had been freshly cut. That was in 1895.

Q. Now this Dr. Stuart you speak of was a witness at each of these trials, I believe it has been stated here. Now you may state to the jury who produced Dr. Stuart as a witness—whose witness he was at each trial.

A. He was a witness for the defendants.

Q. Defendant [incurance] companies?

A. Defendant insurance companies; yes.

297 Q. You may state now whether you were present at the time that he gave testimony in each of these trials?

A. I was, at every trial of the cases that he has given in testimony, I was present. It half seems to me as though there was one trial at which he was not present; but I won't say that for certain. There have been so many that there have been absent ones; but at every trial that he gave testimony I was present and heard him throughout.

Now in the conduct of this case, you may state whether
s fallen to your lot as counsel for the plaintiff, at each
to attend to the matter of introducing this documentary
ence?

I can't be positive as to that, but I think it has been at
trial. I examined a great many witnesses in addition,
t fell to my lot to present what would be called the techni-
pening of the case—the showing of the policies, and the
ications, then with reference to the proofs of loss, and
ng the case in prima facie shape. It was my lot to either
d to the evidence directly or to superintend it, and the
counsel acted in accordance with my directions; in other
s, I conducted that branch of the case at every trial.

Now in introducing this documentary evidence, you
state what course has been pursued with reference to
cross-examination of Dr. Stuart—whether these docu-
s have been exhibited to him or not?

At every trial at which he was present this policy has
shown him—this particular application, I mean—and
al others signed by him; I won't say how many at each
I will not say that at every trial all four of these were
duced in evidence, but this was introduced at every trial.

Let's confine it to this particular one. You say it was
ited to Dr. Stuart; you may state, in that connection,
her Dr. Stuart's attention was directed particularly to
particular part of it?

His attention was particularly directed to the five feet
n at every trial. I think also his attention was drawn
particularly to the personal knowledge clause; I know
it was sometimes; but amongst other parts that his
attention was drawn to at any rate was the five feet
n in this application at every trial that he was a wit-
at.

Now do you remember what Dr. Stuart testified to at
various trials in relation to that entry there, five feet
n. when his attention was particularly called to it and
paper exhibited to him?

Every time that he testified about that five feet eleven,
at every trial that he was present at, down to the time of
895 trial—that is, each of the trials that he was present
'82, '85 and '88—not saying that he was present at every
but each time that he was present and testified he said
he wrote the five feet eleven—must have done it—did do
I can't remember just the words, but the substance of it
that he wrote it.

You may state whether or not at those trials up to the
of 1895, it was suggested by anybody, or attention called

by anybody, to any erasure or scratching or change as it appears there now?

A. No, sir; it was straight five feet eleven, and it was commented on.

Q. Of course it is hardly necessary, in view of the questions already asked and answered, but it has been stated that the paper was in your possession off and on,—you may state whether or not you ever changed that paper?

A. I never changed the paper. The paper was five feet eleven, straight five feet eleven, every time I saw the paper before the trial of '95. Dr. Stuart drawed attention to the erasure, and it was marked as it is now. Before that it was five feet eleven and nothing more or less, just five feet eleven, straight.

Cross-examination

By Mr. Barker:

Q. I understand you first saw this application in 1882?

A. Yes, sir; that is the first time I saw it.

Q. At the trial of the case? A. Yes.

Q. Mr. Green had the custody of it at that time?

A. That is my recollection.

299 Q. And he allowed the attorneys upon the opposite side to have it and examine it, did he not? A. Yes.

Q. You all had it and examined it?

A. O, yes; we asked him for it and if he wasn't too busy with something else he would give it to us.

[A.] Just as gentlemen ought to be and as in customary about such things.

Q. Sometimes you had it a longer time and sometimes a shorter time?

A. It must have been so. I don't remember of having it over night myself, but I wont say I didn't.

Q. And you discovered at that time those figures "5 feet, 11"? A. We saw them in that application.

Q. You saw it in that application? You saw it in 1882?

A. '82; yes, sir.

Q. Now I will ask you if there was any controversy at that time in regard to those figures being in there five feet eleven?

A. No, sir; there was no controversy about it being five feet eleven.

Q. No dispute about it being any other at that time?

A. No, sir.

Q. Then you saw it again in 1885? A. Yes, sir.

Q. And you state that you examined it minutely at that time? A. Looked at it to see the 5 feet eleven.

Q. Why should you examine it so minutely if there hadn't been no controversy about it?

A. Examined them all along.

Q. You simply ran them over at that time?
A. Ran them over to find the five feet eleven, the place where it was.
Q. Simply to find the place where it was? A. Yes, sir.
Q. Now you saw it again when? A. In 1888.
Q. And up to that time there had been no controversy in regard to that matter?
A. No, sir; it stood five feet eleven all around.
Q. There hadn't been any dispute in regard to it then?
A. No, sir.
Q. Did you make a minute examination of it then?
A. I looked at it.
300 Q. But I ask you if you made a minute examination of it, and if you did why you did so?
A. Now I will tell you why.
Q. I asked you first if you did?
A. Yes, I did; I looked at that every time—every one of these applications.
Q. I asked you if you looked at it at that time minutely?
A. I said I did; and you asked me why also, didn't you?
Q. Yes; I asked you why.
A. Well, I will say why now. Dr. Stewart on the first trial—we first looked at it to see about the five feet eleven. I had heard from some source—
Q. (Interrupting) So far as that is concerned—

Mr. Atwood: Let him state it. You have asked him for the reason.

Mr. Barker: I will withdraw that part of it if he wants to go into a discussion; we will leave it stand without the reason why. I will withdraw that part of the question.

Q. Now I will ask you if Dr. Stuart did not, on each one of those trials say that he had measured Hillmon, John W. Hillmon, and that he measured five feet nine inches?
A. That is my recollection, that every time he swore, he swore that he measured five feet nine inches, on measurement.
Q. And he swore every time, did he not, that five feet eleven inches was not a correct statement?
A. He said he was five feet nine inches on actual measurement.
Q. I know; but he also said that five feet eleven was not a correct statement, did he not?
A I can't say as to those words; he said he was only five feet nine.
Q. I didn't ask you to give his exact language?
A. I thought you insisted that I should.
Q. Didn't he say in sustance that that five feet eleven,—that there was some mistake in regard to that; that that was not his correct height?

A. He said it was not his correct height; yes. He explained; he stated how it came to be written there that way.

Q. Now in regard to the discovery of this mistake,—that was in eighteen hundred and what?

A. 1895, January, I think. I can't say when Stew-
301 art came on the stand, whether it was January or whether it had run into February. It was when you were in the defendants' evidence in the 1895 trial.

Q. Then attention was called—

A. (Interrupting) Just what day it was I can't say, but it was during that trial, the latter part of January or the first part of February, would be my recollection.

Q. I will ask you to state if you didn't upon cross-examination of him at that time, ask him how it happened that this was written five feet eleven when he was only five feet nine, and that if he didn't say there must have been a mistake or some inadvertence, and he couldn't explain how it happened?

A. No, sir; I don't think the attorneys for the plaintiff asked him that question. I think the attorneys for the defendants asked him how it was.

Q. I will ask you if you didn't ask him that very question?

A. I don't think I did; don't think I ever asked him that question.

Q. If you didn't ask him if he could state how it happened except it must have been by inadvertence?

A. I didn't say inadvertence.

Q. Didn't he say so?

A. No, sir; I don't think he said inadvertence. He answered the question how it came to be written, by defendants' counsel, not in answer to questions by plaintiff's counsel.

Q. Well, the change there would appear to be from five feet nine to five feet eleven, would it not?

A. I didn't figure it out that way at the time. The matter was fresh—

Q. (Interrupting) Of course the paper will show for itself.

A. Shows for itself whatever it shows.

Q. It was for the interest of your client to have it five feet eleven? That is the way you desired to have it, isn't it?

A. I want it according to facts.

Q. I know; but it was for your interest to have it five feet eleven, was it not?

A. I believe five feet eleven was the right height.

Q. I am asking you if that wasn't the way you desired to have it?

A. I never thought upon that subject. Of course I was pleased when I saw the application had it five feet eleven, if that is what you mean by desire.

302 Q. But if it had been written five feet nine and changed to five feet eleven, it would have been to your interest, would it not?

A. We would never have introduced it if it hadn't been the fact.

Q. I will ask you if it had been written in there five feet nine, and was changed to five feet eleven, then that change would have been in the interest of your client?

A. I shouldn't think it would have been in the interest of my client to have a changed paper.

Q. I say if it was changed and appeared that way, that would be to your interest?

A. I shouldn't think so; I think it would damage us. You are asking what I think. I thought the plaintiff's case was damaged when I saw the scratching there, just so as to get up a slur over the five feet eleven; that is what I thought.

Q. I ask you if you didn't regard it as a change made in the interest of your client?

A. I thought the scratching was against the interest of our client.

Q. But it was to the interest of your client to have it five feet eleven? (No answer) Now you have been in this case a long time?

A. Just depends on what you call a long time. If you are talking about eternity it would be short; for a lifetime, however, it would be a long time. It was the 14th of May, 1879, the day I was employed in this matter.

Q. You have a large interest in this case?

A. I have a contingent fee.

Q. That fee is dependent upon recovery? A. Yes sir.

Q. Haven't you more than a contingent fee? Haven't you an assignment of the plaintiff's cause of action?

A. No, sir; never had any assignment of the plaintiff's cause of action in any shape manner or form. She never signed any such a thing, and I wouldn't have taken it if it had been offered. Never heard of her having made an assignment.

Q. Isn't it a fact you claimed a lien upon these policies for ten thousand dollars before any suit had been commenced?

A. I don't remember whether we did or not—no; no, sir; I didn't claim a lien; didn't do it in that way. I said I thought we had a lien.

303 Q. I asked you if you didn't claim a lien of ten thousand dollars? Answer, Yes or No.

A. It would depend on the construction of my language. If you want the language used, I can give it to you. I didn't intend to make a claim for a lien. I think I said I thought we had a lien for ten thousand dollars; I thought we had a

lien, and they asked how much it was, and I said I thought it ought to be about ten thousand dollars. I think that is the language I used. I think I ought to be permitted to say why I used those words.

The Court: Just answer the question, and if there is any explanation, your counsel will ask for it, or you may explain when Judge Barker is through.

Q. You say you never noticed any change in that until your attention was called to it by Dr. Stuart?

A. By Dr. Stewart testifying on the subject on the stand; that is the first time I ever noticed any change.

Q. That is the first time you ever noticed it?

A. That I ever noticed the paper had been erased or cut, or anything there except the straight eleven, is when he was on the stand testifying about it in 1895.

Redirect Examination

By Mr. Hutchings:

Q. You said something about making some explanation in relation to your claim for lien. You may do so now with the permission of the Court?

A. On, I think it was, the 15th of September, 1879,—if it wasn't, it was about that time; my memory is kept fresh as to the dates by looking frequently at the papers which bear, I think, that date; it is the date of the so-called releases that are referred to in the pleadings in this case,—on that day William J. Buchan and the plaintiff in the action, then Sallie Hillmon, the lady sitting there, came into the office of Clough & Wheat on Delaware street in this city. They came together; they both of them said a few words to me, but I had seen Buchan some time before and therefore he didn't say much of anything. Mrs. Hillmon asked me—

304 Mr. Barker: As to the conversation which took place between him and his client, and what was said there between them, we object on the ground that it is incompetent, irrelevant and hearsay.

Witness: It explains why I used those words.

The Court: Without giving the words or who spoke to you, you may state whether the possession of the policies was requested.

Witness: Yes, sir; the two came there and they requested the possession—they requested that I deliver to them four certain policies of insurance that had previously been delivred to me. They were either in my sole custody, or, you might say, the custody of Clough & Wheat, my partner; but they had been delivered to me and I considered them in my custody. They were there in my vault in my office at the

time; these two policies of insurance, among others, were asked for; the possession of them was demanded and I asked why they wanted them. I can't give the reason without stating this. I asked why they wanted them; and they declined to give me any answer as to why they were wanted—why they wanted them. They were demanded from me. I took a little time for consideration and walked to the back end of the office and back again and thought the matter over a little, and I says, "Why do you want them?" and they again declined to give me the reason why they wanted them. Says I to them: "This thing looks to me like a fraud. I want to understand why you want them." They still declined to give me any reason why they wanted them but again demanded them. I walked back again and thought the matter over a little and came back to them and says I, "I think I have a lien on these policies—" I think I said, "I think I and my associates have a lien on these policies." I think I brought my associates in, and on that account declined to deliver them unless that lien was paid; and thereupon—may I state who made the
305 next remark? I was asked how much the lien was. Mr. Buchan, if I may state it, asked me how much the lien was—

Mr. Barker: I understood the Court to say that the conversation was not to be given.

The Court: He may give any reasonable detail of the circumstances under which he, as counsel for defendant stated, claimed a lien on these policies. That is offered for the purpose of showing the financial interest of this witness in the controversy.

Witness: My claim for a lien was bona fide. Mr. Buchan asked me how much it was. I then didn't know how to fix it, and thinks I to myself—

Mr. Barker: We object to what he thought.

Witness: This is the reason why; it comes in in the explanation. I want to say that it occurred to my mind—I remember it distinctly. May I give the reason for saying it?

The Court: State what you said.

Witness: Well, I can't be sure whether I said just straight ten thousand, but I think I said ten thousand dollars—that I fixed ten thousand dollars as the amount of the lien. I didn't mean to fix the figure at that exact sum—

Mr. Barker: I object to his stating that he didn't mean what he said.

The Court: It may stand.

To which ruling of the Court the defendants and each of them at the time duly excepted.

Witness: I stated ten thousand dollars. I am not pretending to give the exact words. I think I said ten thousand dollars.

Q. Well, Mr. Buchan didn't get the policies?
A. No, sir; they didn't get them.
Q. He didn't pay the ten thousand dollars?
A. No, sir; didn't offer to.
Q. That is all.

A. He asked me why I noticed this—these figures
306 —and I think I ought to be permitted to say why I examined these every time so closely and why I looked the papers through every time.

Mr. Barker: We object.

Q. Well, with the permission of the Court, you may state.
A. They asked the question and withdrew it after I began to answer it. I think it is justice to me that I be permitted to state why.
Q. They asked you if you examined that particularly and why you did so, and now you may explain why.

Mr. Barker: I withdrew that question and it is not before the Court.
The Court: He may answer.
Mr. Barker: We object to it as incompetent, irrelevant and immaterial.
Objection overruled, to which ruling the defendants and each of them duly excepted.

A. As stated by Mr. Green, if I understood him right, at these different trials as already stated, that Mr. Stewart stated at every trial—swore that Hillmon actually measured five feet nine inches, and here it was five feet eleven in the policies; and in the arguments we did what would be called "ringing the changes" on its being five feet eleven in this application made on the—dated the 24th over the signature of Hillmon and the 25th over the signature of Stewart—this application here that we have been talking about; that that appeared, according to the testimony, to have been dated and written out after the time Stewart fixed as that at which he had made the measurement five feet nine. It is dated after the time he had fixed in these previous trials as the time he had made the measurement, some little while before that; and the others being five feet eleven also, we rung the changes on that, being still written five feet eleven right straight through, and that was commented on, and there was particular points made in the talk to the jury, and in the bluffing outside.

307 Q. What?

A. In the talk to the jury and in all the talk amongst the lawyers outside—discussion outside, around the courtroom,—about that application still standing—the last application having been written five feet eleven after a time when some of these witnesses swore to Hillmon's having been measured as five feet nine; and that was the reason why we made a careful examination of the papers every time that came in, to get it before the jury that it was straight five feet eleven in every particular every time, and therefore it was a particular thing. That was the reason I was careful about the five feet eleven every time, and drew attention to it first. I never thought of any change in it and never suspected any thing of that sort until it was mentioned by Dr. Stuart, but it made us look for the five feet eleven and examine it carefully every time.

By Mr. Barker:

Q. From whom did you receive these policies, and when did you get them?

A. I got these policies, I think, the 14th day of May, 1879. I received them in the office of Mr. Borgolthaus; I think his name is R. J. Borgolthaus. It is the Borgolthaus whose name is signed to this petition, and I received them in his office. The plaintiff, Sallie E. Hillmon, was present; R. J. Borgolthaus was present; Samuel A. Riggs was present, and I think some one or two other persons who were about the office of Mr. Borgolthaus were there. Whether I got them personally from Sallie E. Hillmon, or whether Borgolthaus handed them to me, or not, I can't say. I think all of us had them there in our hands on that day, and they were given to me there whilst we were all present. They were given to me to bring to Leavenworth for certain purposes, it don't matter what unless you want to know. They were given to me, and I took them there, and I think that was the 14th day of May, 1879.

Q. You either received them from the plaintiff or in her presence?

A. In her presence and from Borgolthaus, and with her knowledge and consent, right then and there.

Witness excused.

308 The plaintiff next offered in evidence the testimony of Dr. N. Simmons given upon the trial in 1896.

It is admitted by the parties that Dr. Simmons is dead.

Said testimony was thereupon read to the court and jury, and is in words and figures as follows, to wit:

Dr. N. Simmons, witness on behalf of plaintiff, being duly sworn, testified as follows:

Direct Examination by Mr. Hutchings.

Q. State to the jury your name, place of residence and occupation? A. N. Simmons, residence Lawrence.

Q. What is your occupation?

A. Occupation is practicing medicine.

Q. How long have you been engaged in the practice of medicine? A. About 42 years.

Q. Were you acquainted with John W. Hillmon in his lifetime? A. Yes, sir.

Q. I will get you to examine this picture marked No. 3, and state whose picture it is, if you know?

A. I judge that to be the picture of Hillmon.

Q. Is it a good picture of him, as you knew him?

A. Yes, sir.

Q. Did you have at any time any transaction with John W. Hillmon? A. Yes, sir.

Q. I will get you to state what you know, if anything, in reference to the condition of his nose. State the facts that came under your observation in relation to it.

A. Well, I think it was about the year 1873, perhaps, he received an injury to his nose, and I saw him after he received that injury, before it had healed, when he consulted me in regard to it—binding it, etc.

309 Q. Where was the injury located, and what was the nature of it?

A. The injury was located on the left side of the nose, and it was a lacerated wound, as if it was made by a dull instrument that lacerated the skin, and was not a clean cut wound—like it was made with a dull instrument or rock, that tore it; on the left side near the center of the nose, and down on the left cheek.

Q. What has been the extent of your practice?

A. With the exception of a month or two at a time, for over 42 years.

Q. Are you also a surgeon?

A. I have attended to that business all the time.

Q. Are you educated as a surgeon?

A. I have taken the regular degrees of medicine in college.

Q. State what appearance, if any, an injury of this kind, received in life would leave?

A. Well, if permitted, I would like to state that question in my own way.

Q. State what you can?

A. In the first place, when I saw the wound and examined it, it was swollen considerably. There was a bruise connected with the wound, and it was swollen, and it would be a pretty difficult matter for me to tell what the extent or result of the wound would be after it finally healed, so far as that is concerned; and it would be a very difficult matter for me to tell what the result would be—at least, the after effects.

310 Q. State whether in your opinion an injury of the kind you have spoken of would cause, after death, a more rapid decay of the parts than there would be in the sound parts about it?

By the Court: Can you tell from your examination of that wound, when it was in existence,—First, can you tell sufficiently as to the extent of it to say what would be the result afterwards—can you?

A. Well, I don't know as I can. I couldn't say whether I could. The fact that the wound was a bruise to a considerable extent, and not a very deep wound—

Q. State whether in your opinion, if the cartilage of the nose was affected by this injury that you saw, it would begin a more rapid decay at that point after death, than on the sound part of it?

311 A. This has reference to the cartilage of the nose?

Q. Yes, sir. (Question read.)

A. I want to answer that again just as I did it in this way: In 3 or 4 weeks' and one month's time perhaps, so far as the cartilage was concerned, it might not show much change; it would be different from any other part. After a considerable length of time it might break down more rapidly and show decomposition more rapidly than if the cartilage was uninjured, but it would take some time before that was manifest.

Q. What time?

A. That would depend upon the weather and surroundings of the corpse. If the surroundings would decompose it rapidly it would break down sooner. But in an ordinary spring when the ground is cold, I should think it would take a month or two at any rate before anything would be manifest. So that the tissues might be influenced earlier.

Q. How tall a man was Mr. Hillmon, according to your recollection?

A. Well, I walked about with him in business transactions. I would take him to be very nearly my own height.

Q. How tall are you? A. Five feet 11.

Q. Eleven inches?

A. Five feet eleven inches. Nearly—I can't say exactly, but he was something near it.

Q. Will you describe to the jury by your finger the place on your nose where you say the injury to Mr. Hillmon's nose was?

A. It was located near the center of the nose; up and down, and then run off on the cheek—left cheek—from
312 an inch to an inch and a half. Something like that; of course I didn't take any measurements at the time.

Q. I will get you to state whether you noticed at any time, during your acquaintance with Mr. Hillmon, any defect in his teeth? A. I did not.

Cross-examination

By Mr. Barker:

Q. Your acquaintance with Mr. Hillmon was slight—you saw him at the time the nose was injured?

A. I saw him a great many times outside of my few business transactions—I was not very intimately acquainted with him at all.

Q. So he came to your house to be treated for this injury?

A. Yes, sir.

Q. And you think that was in 1873?

A. I think likely it was, I am not positive.

Q. And that would be over one quarter of a century ago?

A. Quite a while.

Q. And after you treated him, you gave him some treatment for this injury, did you? A. Yes, sir.

Q. And then you didn't see him for some time after that?

A. No, sir, didn't see him until after he was well.

Q. You only treated him once? A. Once—that's all.

Q. When you saw him after he was well, you didn't make any examination of this injury? A. No, sir, I did not.

Q. Of his face? A. No, sir.

Q. You don't know how long it was from the time you saw him in 1873 until you saw him again—that is,
313 whether a term of years elapsed or not—whether he was out on the plains or gone away?

A. I couldn't say positively; I saw him occasionally.

Q. You couldn't say positively whether you saw him in 1873 at all, could you?

A. I couldn't say positively; he was coming and going in the neighborhood.

Q. I will ask you if you remember what season of the year it was when you saw him? A. When he was hurt?

A. Yes, sir, whether it was in the fall or spring, or what season?

A. I couldn't say what season it was—I think it was—I don't think it was in the summer—it might have been in the summer possibly, but I don't think it was—he paid his bill and I made no record.

Q. Would you say it was in the fall or spring—or can you? A. I couldn't be positive.

Q. Can't you fix the season of the year? A. No, sir.

Q. In regard to his height; that was a mere guess?

A. That's comparison.

Q. You never stood up together? A. No, sir.

Q. You never measured him? A. I never measured him.

Q. You never walked together for the purpose of seeing how high you were, or never discussed the question of height with him? A. No, sir, not at all.

Q. Nothing stronger than your guess of the height of that man.

Q. Is that just your guess on what you saw?

A. That's all of it—walking about together. I guess he was something similar to my own.

314 Q. Your walking about was simply casual; you never walked to determine the subject of height, and it was not discussed—the height—and you never thought about his height until this case was brought?

A. I sold him a large stack of hay.

Q. Your attention—you were looking at the hay, and not at the height of Mr. Hillmon? A. No, sir, not specially.

Q. Now in regard to this injury of the face: You have described it before, haven't you? A. Yes, sir.

Q. Now I will ask you if you have not described it this way: "I think up against the side of the nose it was not cut clean through the skin, but farther down it was?"

A. Yes, sir.

Q. Up here on the side of the nose it was not (indicating)?

A. The cut was deepest on the bridge of the nose, or near the center of the nose.

Q. Didn't you testify contrary to that—"I think upon the side of the nose it was not cut clean through the skin, but farther down it was?"

A. On top of the nose it was cut deeper than on the side and on the cheek it run out on the cheek, and cut deeper on the cheek than down on,—

Q. The deepest cut was out on the cheek?

A. Yes, sir, and up on the nose.

Q. On the side of the nose it was not cut?

A. It was not cut down deep; it was bruised.

Q. Now, which way did the cut run; down the nose, as we say, or across?

A. No, sir, it run across—run from near the center of the nose.

Q. Out under the eye?

A. Yes, sir, out under the eye.

Q. Tell how about the width or size of that wound—

315 could you tell anything about that from the condition it was in, or was the face so swollen you couldn't get at that?

A. The points that the tools hit seemed to show where it had struck, but it was bruised to such an extent as it wouldn't show whether it was a clean cut wound.

Q. Was the bone, the nasal bone broken in this way?

A. I couldn't say whether it was or not; it was so swollen. I think it was done the evening before I saw it.

Q. Was the nose put out of its place in any way—out of line? A. It was badly out of line from being swollen.

Q. Is this all you can say about it?
A. That's all I can say about it.
Q. You stated that you saw him afterwards, but you did not know how long it was after this injury that you saw him?
Ans. I saw him a short time before he went away—before he went west.
Q. At that time, or any other time did you notice the appearance of this injury? A. No, sir.
Q. You saw him frequently after that, and you saw nothing upon his face to indicate where this injury was?
A. I didn't examine, no, sir.
Q. You saw him this spring you say?
A. I saw him this spring (that he went away), but I didn't have any conversation with him.
Q. Did you see any indication of this injury upon his face?
A. No, sir.
Q. In regard to this photograph, you think that's a pretty good photograph of Mr. Hilmon?
A. Pretty fair as I remember him.
Q. You have testified in regard to this case before, haven't you Dr., and the first time you testified, a good many years ago, didn't you testify that wasn't a very good picture of him, but you recognized it as a picture of Mr. Hilmon?
316 A. Yes, sir.
Q. That's a fact? A. Yes, sir, that's a fact.
Q. What makes you say it is a pretty good picture now?
A. Well, it ain't a pretty good picture of anybody.
Q. Didn't you say it was not a very correct likeness?
A. I think it gives the outlines very well.
Q. On the previous trials didn't you state it was not a very good picture, but you thought you recognized it?
A. I may have stated it in that way—in that language, perhaps.
Q. Can you state it any stronger now?
A. Well, I do not know; I think it is about the same.
Q. You think the same now as you did then?
A. I think about the same—it's a fair representation of Mr. Hilmon, and it is now.
Q. Look at this picture, Dr. (handing witness picture marked by stenographer in blue pencil Ex. "A.")
Q. Do you recognize that picture?
A. That's a picture of Mr. Hilmon.

Witness excused.

The photograph identified by the witness as a picture of John W. Hillmon is marked, "exhibit number 10" of the trial of 1899.

A. E. Wellman, called as a witness on behalf of the plaintiff, being first duly sworn, was examined in chief Mr. Hutchings, and testified as follows:

Q. What is your name? A. A. E. Wellman.
Q. Where do you reside? A. Topeka, Kansas.
Q. What business do you follow?
A. Stationary engineer.
Q. How long have you lived in Topeka?
A. Lived there some thirteen or fourteen years.
Q. Where did you formerly reside?
A. In Jefferson county.
Q. How long did you live in Jefferson county, and in what rt of the county?
A. I lived in Jefferson county since—about thirty-eight ars I have lived in Jefferson county—since I first came here.
Q. Did your family—your father live in that vicinity?
A. Yes, sir.
Q. How long did you live there in Jefferson county?
A. About eighteen years, before I left the county.
Q. Were you acquainted with John W. Hillmon?
A. Yes, sir.
Q. How long did you know him?
A. O, I had known him some five or six years; or longer.
Q. Where were you living in the spring of 1879, say in the onth of April? A. I was living in Lawrence.
Q. Lawrence, Kansas? A. Yes, sir.
Q. Do you remember the circumstance of a dead body be- g brought to Lawrence in April, 1879, as the body of John . Hillmon? A. Yes, sir.
Q. Did you see that body? A. Yes, sir; I did.
Q. Where did you see it?
A. At Bailey & Smith's undertaking establishment.
Q. You may state who, in your opinion, that was—whose dy it was.

Mr. Barker: We object to that as incompetent.
The Court: In what respect is it incompetent?
Mr. Barker: To call for an opinion of the witness on 8 a matter of that kind; it is not a subject of expert testimony.

Objection overruled; to which ruling the defendants and ch of them at the time duly execepted.

A. I thought it was Hillmon.

Cross-examination

Q. Do you remember who did?
A. No, sir; no one came after me as I know of.
Q. Were you informed by any one that the body of John W. Hillmon was down there? A. Yes, sir.
Q. Do you remember who it was who informed you, Mr. Wellman?
A. I couldn't say positively. I know it was spoken of that the remains—
Q. (Interrupting) I asked you if you remember who it was told you?

A. No; I don't remember positively; I can't recall to memory right now.
Q. Who do you think it was?
A. I don't know. My cousin and myself were together, and there was others talking, and some one mentioned it.
Q. Who is your cousin? A. Fallace Wellman.
Q. Then you went down to Bail & Smith's place? A. Yes.

Q. Anybody else?
A. Well, there was a string of people going down the street.
Q. String of people going in and out there, was there?
A. Yes, sir.
Q. Quite a good many people in there while you were in there, was there? A. Yes; several.
Q. In there looking at the remains? A. Yes, sir.

A. Several people in there; yes, sir.
Q. Do you recall who they were?

Q. You don't remember anybody else?
320 A. No; I don't.
Q. You think you don't remember the names of anybody else? A. No, I think not.
Q. You didn't have any trouble in getting in there?
A. No, sir.
Q. No one tried to prevent you from going in?
A. No, sir.
Q. It was public. You didn't remain there, of course, but a very short time?
A. O, probably three or four minutes; something like that.
Q. Three or four minutes, and then went out?
A. (No answer.)
Q. Of course, having been informed that Mr. Hillmon was down there, you went down there expecting to see his body, didn't you? A. Yes —
Q. You went down there expecting to see it?
A. (No answer.)
Q. Are you acquainted with Mrs. Hillmon?
A. I know her when I see her.
Q. How long have you known her?
A. I haven't been personally acquainted with her at all, any more than I know her when I see her.
Q. That is all, Mr. Wellman.

Witness excused.

George P. Ware, called as a witness on behalf of the plaintiff, being first duly sworn, was examined in chief by Mr. Hutchings, and testified as follows:

Q. What is your name? A. George P. Ware.
Q. Where do you reside? A. Lawrence, Kansas.
Q. How long have you resided in Lawrence?
A. Since the fall of 1870.
Q. Since the fall of 1870? A. Yes, sir.
Q. What is your business now?
A. I am street commissioner.
Q. Street commissioner of the city of Lawrence?
A. Yes, sir.
Q. Did you know John W. Hillmon?
A. I had a slight acquaintance with him. I was introduced to him.
321 Q. I will get you [—] state whether or not you saw him more than once.
A. I saw him perhaps half a dozen times.
Q. Now I will get you to state to the jury what in your opinion was the height of John W. Hillmon?

Objected to as incompetent, irrelevant, immaterial, and not a proper subject for expert testimony—testimony of that kind.

The Court: What kind of testimony would be proper in a case of that kind?

Mr. Barker: For somebody to testify who knew his height—somebody who had some knowledge on the subject, and not a mere guess or opinion.

Objection overruled; to which ruling the defendants and each of them duly excepted.

A. I would think he was in the neighborhood of six feet tall.

Cross-examination

By Mr. Barker:

Q. When did you see him last, Mr. Ware, if you remember,—what year?
A. It was the year that he went to Medicine Lodge; I don't know whether it was '78 or '79. I think it was '79 though.
Q. You think you saw him then, do you? A. Yes, sir.
Q. That year. Where did you see him?
A. I saw him on Henry, on the south side.
Q. I understood you to say that your acquaintance with him was quite limited? that you wouldn't say you had seen him to exceed five or six times? A. That is the idea, sir.
Q. Am I right in regard to that? A. That is correct.

Q. You were not intimate with him at all? A. No, sir.
Q. Now this matter of height,—you never measured eights with him at all? A. Never did.
Q. Never saw him measured? A. No, sir; never did.
Q. And at that time there was no question in regard to his height? That is, there was nothing up that way that 22 would call your attention to his height? A. No, sir.
Q. Isn't it a fact, that so far as the question of eight is concerned, it is a mere guess, Mr. Ware?
A. Well, it was a matter of opinion; that is all.
Q. Your opinion from having seem him a few times?
A. Yes, sir.
Q. And your attention never having been called to the uestion of his height? A. No, sir.
Q. And that matter not being in controversy? A. No, sir.
Q. Any more than you would have if you had seen any ther stranger a few times on the street and was asked in egard to his height? A. (No answer).
Q. And you say it was in the neighborhood of six feet? It as there or thereabouts, was it?
A. I would take it that he was very close to six feet tall.
Q. How?
A. That would be my opinion, that he was very close to ix feet.
Q. What do you mean by "in the neighborhood"?
A. Well, close to it; that would be my opinion of it.
Q. Five feet, six, seven, eight or nine?
A. O, closer than that; five feet ten or eleven; along there.
Q. Five feet ten or eleven? A. (No answer).
Q. Now isn't it a fact that your attention never was called o his height until after this case was commenced; that it was ears before you thought anything about it?
A. That is correct.
Q. Until this controversy arose, you had even forgotten ou had ever seen the man?
A. O, no; I remembered that I had seen him.
Q. But you had no recollection in regard to his height hen?
A. I remembered of seeing him on the street when he was talking, or being talked of; that is all.
Q. And you never estimated in your own mind, or expressed any estimate of his height, until after this suit was brought and until after this controversy in regard to who that was that was down there at Bailey & Smith's came up; you never made any estimate of his height either in your own mind, or expressed any estimate? A. I did not.

323 Redirect examination

By Mr. Hutchings:

Q. Did you reside in Lawrence in April, 1879?

A. I lived in Lawrence in 1878 and '79; yes, sir.

Q. You were living there at the time the body was brought back there that was said to be Hillmon's?

A. Yes, sir; I was.

Q. You may state whether or not you heard the discussion about the height of John W. Hillmon?

A. No, sir; I didn't at the time; just simply heard that the dead body of John W. Hillmon had been—

Mr. Barker: We object to what he heard as incompetent, and ask to have it taken from the jury.

The Court: That may stand, but not as evidence that that was the body of John W. Hillmon.

To which ruling of the court the defendants and each of them at the time duly excepted.

Q. I believe you didn't see the body when it was there?

A. No, sir.

Q. Were you at Lawrence at the time?

A. I was there at the time; yes, sir.

Q. But you didn't go to see the body?

A. I didn't go to see it; no, sir.

The Court: I wish to make it plain to the jury that when the witness says that he heard that the body of John W. Hillmon was brought back to Lawrence, he simply mentions that for the purpose of fixing the time of his residence there, but it is no evidence whatever that that body was the body of Hillmon.

Witness excused.

324 Joseph Rahskopf, called as a witness on the part of the plaintiff, and being duly sworn, was examined in chief by Mr. Hutchings, and testified as follows:

Q. What is your name? A. Joseph Rahskopf.

Q. Where do you reside? A. Lawrence, Kansas.

Q. How long have you resided there?

[—] I have been there since 1867.

Q. What business [of] occupation do you follow?

A. I am in no particular business just now.

Q. Were you acquainted with John W. Hillmon?

A. I was slightly acquainted with him.

Q. Do you remember the circumstance of a body being brought there to Lawrence in 1879 which was said to be Hillmon's? A. Yes sir.

Q. Did you see that body? A. I did.

Q. When and where did you see it?

A. I seen it out at the cemetery.

Q. I will get you to state to the jury, in your opinion, how tall a man was John W. Hillmon?

Objected to as incompetent.

Objection overruled to which ruling of the court the defendants and each of them at the time duly excepted and still except.

A. To the best of my judgment I think he was a man between five feet ten and five feet eleven—as near as I could judge; I wouldn't be positive.

Q. Now I wish you would state to the jury the circumstances in the first place state to the jury how long you knew Hillmon—how long you had known him at the time the body was brought there?

A. I got acquainted with himin 1878. I was introduced to him by some gentlemen. I was not intimately acquainted with him. I had some conversation with him. I have seen him on the streets more or less.

325 Q. I will get you to look at this photograph that is marked Exhibit No. 10, and ask you to state to the jury, in your opinion, whose photograph it is?

A. Well I would take that for Mr. Hillmon's photograph.

Q. Now you may state to the jury the circumstances under which you went out to the cemetery and what you saw there?

A. I was invited by Mr. Van Hausen and Mr. J. Burnham—

Mr. Barker: Who invited him and how he went out there is immaterial.

Q. Well you went out there at some one's invitation?

A. They asked me to go out there with them and I went out with them, just merely to see the body taken up. It was the second time they took him up when I was at the cemetery.

Q. What was the condition of this corpse that you saw out there at the cemetery?

A. Well the condition was just as a corpse would naturally be that had laid for four or six weeks.

Q. How was it situated?

A. It was in the casket—in the coffin.

Q. Was there anything done while you were there with reference to the corpse?

A. Yes sir they brought him into a position to take his photograph while I was there.

Q. What was the condition of the hair and the face of the corpse?

A. Well the hair was rather badly mussed up by handling him, turning him, and bringing him into position to take his photograph.

326 Q. Did you see the photograph after it was taken; or did you see the position that the body was in [was] the photograph was taken?

A. Yes sir, I stod right on the left side of the casket when it was taken.

Q. I will show you a picture of a cadaver, which will be marked Exhibit No. 13, and get you to state whether or not you can recognize that as the photograph of that cadaver that you saw in the cemetery?

A. Yes sir, that is the one that was taken. He was in that position when he was taken, when I was there.

The Court: I think that would be No. 12, wouldn't it?

Mr. Hutchings: Yes No. 12 instead of 13.

Q. You may state whether the corpse was photographed in more than one position?

A. I rather think it was but I couldn't say positively that I was there when that was taken. I rather think I was, but I wouldn't be positive that I was.

Q. I exhibit to you another photograph of a cadaver, to be marked Exhibit 13, and will get you to state whether or not you were there at the time that photograph was taken?

A. I ain't certain whether I was there when that was taken or not. I rather think I was.

Mr. Hutchings: I will state that it will be shown that [it will be shown that] that is another picture of that cadaver. It is agreed between us, isn't it, that that is a picture of that cadaver?

Mr. Barker: It is a picture of the cadaver; there is no doubt about that.

Q. Now you may state to the jury whose body, in your opinion, it was you saw in the cemetery there?

Objected to as incompetent; objection overruled, to which ruling the defendants and each of them at the time duly excepted and still except.

A. In the condition it was in?

Q. No. Whose body in your opinion was it that you saw there?

A. Well my best judgment is that it was Mr. Hillmon's body.

327 The Court: Is that second picture, Exhibit 13, offered in evidence?

Mr. Hutchings: Yes sir.
Mr. Barker: Yes that was handed to the jury by consent.
Q. Now did you examine that body? A. Yes sir I did.
Q. Did you examine its hands? A. Yes.
Q. State to the jury what if anything you noticed in relation to its hands or either of its hands?
A. My attention was called by Dr. Miller to look at his hands, and consequently I answered the question and examined the hands, and both of his feet, and I didn't see anything particular about his hands except I remarked that—

Mr. Barker: Wait a moment.
The Court: What you remarked would not be proper. What you noticed would be proper.

Witness: Well, his hands were the hands of a man that didn't work very hard, and the appearance was like they were used to handling lines and reins of teams, or something like that; and if I recollect right I saw the mark of a ring but I couldn't say positively on which finger, whether it was the little finger or the next finger; and I couldn't say on which hand, neither.
Q. Now then did you lok at the face of the cadaver, and if so, state whether you noticed anything in relation to the nose?
A. Yes; I recollect that there was something like a scar on his nose, and it had decayed in some degree. I never knew that he had a scar on his nose in his lifetime, but at the time I saw the corpse I saw that scar; but I didn't know about what the cause of it was.
Q. Now in this picture of the cadaver, No. 13, I will get you to look at that picture and state where this scar was upon the nose that you noticed with reference to the mark on that picture?

Objected to as incompetent, irrelevant and not being the best evidence; the picture being introduced in evidence,
328 speaks for itself and shows the condition of the nose.

The Court: The question is, Where on the picture?
Mr. Hutchings: Where on the body was that spot that you noticed as compared with the spot that appears on the nose in the picture?
The Court: He may answer.

To which ruling of the Court the defendants at the time duly excepted and stil except.

A. Well I would think the scar waas about on the middle of the nose, not quite that far down, I think, and on the left side running from the center on the left side down, that is, down towards his cheek.

Cross-Examination

By Mr. Barker:

Q. You are still living in Lawrence are you, Mr. Rahskopf?

A. Yes sir.

Q. You were living there, you have already stated, in 1878 and possibly '79? A. Yes sir.

Q. I understood you to say that you- acquaintance with Mr. Hillmon was very slight? A. Yes sir.

Q. Isn't it a fact that you had not seen him to exceed three times, and didn't you so state?

A. I think I made a statement to that effect—I seen him on the street several times.

Q. It is a fact you have no recollection of ever having seen him but three times? A. (No answer.)

Q. And you were not intimately acquainted with him at all?

A. I was not intimately acquainted with him at all—that is what I should call intimately. I was acquainted with him but—

[—] I know but isn't it a fact that you have testified twice in this case already that you have no recollection of having seen him but three times? A. Yes sir.

Q. And it is a fact you have no recollection of having seen him but three times? A. Yes sir.

Q. Now in regard to his height,—I will ask you if
329 having seen him three times, and the question of his height not being involved in any way, you can say now in regard to his height?

A. Well, the way I would judge of that—

Q. I know; but can you do that?

A. Let me tell you how I can do it.

Q. I am not asking you how you can do it; I am simply asking you if you can do it?

A. Certainly I can, if I can tell you how I can do it.

Q. Now let me ask you if you didn't testify in this case in 1895 before Judge Thomas at Topeka, and in 1896 before Judge Williams at Topeka, and if you were not asked to state how high he was, and if you didn't state you couldn't tell how high Mr. Hillmon was, and if you didn't state—I will read it. I wish to withdraw that last question and make it a little more definite. I will ask you if in 1896, before Judge Williams, this question wasn't asked you, "State whether you remember how how high he was," and if you didn't answer, "I couldn't state as to that; to the best of my judgment I think he was about five feet"? A. No, sir.

Q. Did you not make that statement?

A. No, sir, I did not.

Q. Then I will ask you if you didn't state on the trial of that case before Judge Williams in 1896 that you couldn't tell how high he was?

A. Well, for the reason I didn't measure him; but then as to my stating he was five feet, that isn't so. That would be a very small man.

Q. You say you didn't say that? A. I didn't say that.

Q. Now, I am calling your attention to the testimony on the subject of height given before Judge Williams in Topeka in 1896. This question was asked you, "You don't have any definite knowledge in regard to his height or weight, anything of that sort," and if you didn't answer, "No, sir, only from my judgment."

Mr. Hutchings: I submit that doesn't contradict the
330 witness. A. I suppose that is—that is correct.

Q. Wasn't this question asked you—that is, didn't you, before on the trial of this case, state that you couldn't give his height and that you didn't have any ready guess? and to that didn't you answer, "Well, I wouldn't swear positively about his height. That is my opinion or guess as near as I can judge"?

Mr. Hutchings: We object on the ground that that does not tend to contradict the witness and it encumbers the record.

Objection overruled.

Q. Did you not answer the question in that way?

A. Well, I might; I might have answered it in that way.

Q. Then is your statement now in regard to his height any more than a guess?

A. Well, I suppose it is; I didn't measure him. If I had measured I could say positively just what it was, but I didn't measure him and consequently I can't say positively. That is merely my opinion, as I am five feet ten myself.

Q. I am not asking you in regard to that now. Now, you said you went out to the cemetery? A. Yes, sir.

Q. And that the body had been taken up? A. Yes.

Q. And you saw the body photographed there, did you?

A. Yes, sir.

Q. Do you remember who was present at that time?

A. Yes, sir—I don't know as I can remember all, but I can tell you some of them that was there.

Q. State as near as you can now who was present?

A. Well, there was Dr. Patterson, Mr. J. Farnham, and Mr. Van Hausen and Dr. Miller, and quite a number of others that I don't just recollect their names, were there at the time.

Q. Was the coffin opened while you were there?

A. Yes, sir, they just was opening it when I got there.

Q. Did you see the people who were present? Were
331 they in a position to see the coffin when it was opened?
A. What is that?
Q. Were they in a position where they could see the coffin when it was opened—were they around close by?
A. Yes. They were just getting it into position to take a photograph of him, when I got there; just had got it out and opened it.
Q. Now you spoke, while you were there, about examining the hands?
A. That was afterwards—after the photograph was taken
Q. After the photograph was taken? A. Yes.
Q. Then you made this examination of the hands after the photograph was taken? A. Yes, sir.
Q. You examined, I understand, both of his hands?
A. Yes, sir.
Q. His right hand as well as his left? A. (No answer)
Q. You saw no scars upon his hands?
A. No, I did not see no scars, no particular scar on his hand—not to my recollection.
Q. You looked at them quite minutely, did you not?
A. Well, yes.
Q. Now, you have spoken something about his hands having the appearance of having handled lines?
A. Lines and reins.
Q. In driving? A. Yes.
Q. You think that handling lines would make their appearance upon the hands so you could tell by the appearance of a man's hands that he had been a rangeman, do you?
A. Well, I thought so, according to my judgment; I might have been mistaken, but that was my opinion.
Q. That is your judgment of this man, from his hands, that he had been driving? A. Yes, sir.
Q. Now, what would you say in regard to the difference in the appearance of a man's hands in handling tools like reins?
Wouldn't they make some general appearance upon a
332 person's hands? A. No, sir.
Q. You think there would be a distinction between a man who handled lines and a man who handled tools?
A. Yes, I would think so.
Q. Other people made an examination of his hands there did they not? A. Dr. Miller did.
Q. Dr. Miller made a critical examination there?
A. I don't know as to that whether he did or not. He was the one that drew my attention to them in the first place.
Q. Didn't you see him examining the hands?
A. Yes, sir, I did.
Q. Didn't you see him applying a glass to the hands—examining the hands with a glass?

A. No, sir, not to my recollection, I didn't see him.

Q. Could you say at this length of time whether you saw a glass there or not? A. No, I couldn't say as to that.

Q. Now, I believe you described his hands generally; if not you may describe to some extent?

A. Well, his hands did not seem like—

Q. (Interrupting) I mean the size of his hands; I mean the hands of the body that you saw out there?

A. It was an ordinary hand, not a very large hand, an ordinary hand; I couldn't say as to the size.

Q. Was it not a long, large, bony hand?

A. I rather think it was rather a large hand.

Q. Bony hand? A. Yes.

Q. It was a long, large bony hand, was it not?

A. Well, not so very long. I just considered it an ordinary hand.

Q. Just an ordinary hand? A. Ordinary hand.

Q. On the other trials of this case, both of them, haven't you spoken of his hands as long, rather large bony hands?

A. I don't know.

Q. Is that your recollection now in regard to it—

A. No, sir.

333 Q. Your attention having been called to his hands?

A. I did'nt think he had a very large hand.

Q. I said rather large.

A. Well, rather large. I said ordinary; that is what I call rather—

Q. (Interrupting.) Now I understand you to say something about a ring mark—that you saw something of that sort.

A. Well I—

Q. I will ask you first if you can tell which hand it was?

A. No, I couldn't tell which hand.

Q. Can't recollect anything in regard to which hand?

A. No, sir it wasn't very plain, neither, as I recollect at the time; and I don't believe I would have noticed if the doctor hadn't called my attention to it.

Q. I am not asking you what the Dr. did; I am asking you if you know which hand it was on?

A. No, I couldn't tell you on which hand it was.

Q. And you say that whatever mark there was there was very dim? A. Was dim, yes; the ring mark was dim.

Q. Very dim was it not?

A. Well, it wasn't so dim but what I could tell there was a ring there.

Q. You could tell that? A. Yes, sir.

Q. You can tell that now, can you?

A. I rather think—when I come to think over the matter, I do recollect of a ring mark. I had almost forgotten about the ring mark.

Q. How?

A. I say I had almost forgotten about the ring mark; but it being recalled to my mind, I recollect now, and it refreshes my memory that I did see a ring mark, dim mark, but I couldn't say on which hand.

Q. Couldn't say in regard to that? A. No, sir.

Q. Now other people had the same opportunity to see it that you had? A. I suppose so.

Q. At the trial of this case in 1896 didn't you answer this question: "State whether there was any ring mark"—that was the question—and didn't you answer: "I couldn't say positively whether I saw ring marks or not. I remember making some remark in regard to the hands."

334

Wasn't that your answer in regard to the question of ring marks, that you couldn't say positively whether you saw ring marks or not?

A. Well, I couldn't say—I couldn't recall at the present time whether I did or not; but to think over the matter, I did afterwards; yes.

Q. I know, but I am asking you whether you didn't make that statement at the trial of this case in 1896?

A. I think that is correct; yes.

Q. You think you did make the statement there?

A. Yes.

Q. That you couldn't say that you saw the ring marks?

A. Yes; but to think over the matter afterwards, I recalled it to memory.

Q. I know; but I am only asking you in regard to what you said at the trial in 1896? A. Yes.

Q. And you stated then you couldn't remember any ring marks and you say now that you now remember seeing ring marks?

A. Yes, sir; after thinking it over and my attention having been recalled to it I remember it. I had forgotten it.

Q. By whom was your attention called to those ring marks—I mean since 1896 at the time you couldn't say whether you saw ring marks or not?

A. It was sometime afterwards, and when I come to think it over at the time—

Q. I asked you with whom you talked and who called your attention to these ring marks, since 1896.

A. I couldn't tell you if [you] had any talk.

Q. I will ask you if you had any talk with any person to-day in regard to ring marks? A. To-day?

Q. Yes. A. I don't know whether I have or not.

Q. You can't remember to-day whether you had any talk in regard to ring marks or not to-day; but you are able to state that you saw ring marks eighteen or nineteen years ago are you? A. Yes, I can.

Q. Twenty-one years ago? I will ask you to state if you haven't had a conversation with Dr. Patterson to-day
335 in regard to ring marks? A. No, sir, I did'nt.

Q. Have you had a conversation in his presence in regard to it? A. No, sir.

Q. You remember that fact?

A. I do, that I had no conversation in regard to it at all—in regard to Mr. Hillmon.

Q. In the trial in 1895 before Judge Thomas, did you not state in answer to the question, "State whether you looked at the left hand of the corpse," and you stated, "Yes, I looked at both hands?" A. Yes, sir.

Q. That is correct? A. Yes, sir.

Q. And to the question, "Do you remember any marks on either of the fingers," did you not answer, "I didn't notice marks, but I couldn't make a statement now just what the condition was." Wasn't that your answer to that question?

A. Well, that depends on what condition it was to be in; I wasn't exactly—

Q. I know; but the question is whether you made that answer in substance?

A. Yes, I did; that is, as to what condition it was.

Q. Were you not asked, "I asked if there was any ring marks" and to that question did you not answer, "I couldn't say positive I saw ring marks or not." Wasn't that your answer to the question in 1895? A. I guess it was.

Q. It was correct, then, was it?

A. Well, there is an open question there that I couldn't positively—there might be a possibility that there was.

Q. Might be a possibility? A. Yes.

Q. But that is the way you answered the question?

A. (No answer audible.)

Q. To this question, "State whether or not you remember any mark or anything about the nose? and did you not answer, "I couldn't say as to that whether I did or not at that time; it had been so long. It seems to me I did notice a scar on the nose, but I couldn't say."

336 A. Well, I had reference to his nose while he was living.

Q. I know but wasn't that the manner in which you answered that question? A. I guess it is.

Q. You couldn't tell in regard to the nose at that time, could you?

A. Why, yes, I could positively tell because it was very plain to see. I didn't need no [mycroscope] at all to see it.

Q. I know; but of course your recollection in 1896 in regard to those matters would be as good as it is now.

Mr. Hutchings: We object to that as argumentative. The witness has stated that he referred then to the time that he was living.

Mr. Barker: I am speaking about the mark on the nose of the corpse.

Witness: That isn't the way I answered it. I answered in regard to his living time. I never noticed any mark on his nose; that is what I understood, and that is what I answered.

The Court: Does that refer, Mr. Barker, to the mark on the corpse or to the [remark] on Hillmon when he was alive?

Mr. Barker: He wasn't examined at all in regard to any mark on Hillmon's nose. The whole examination was in regard to the mark on the corpse—I mean at that time.

Mr. Hutchings: That is not my recollection of it; I have the notes taken at the time by your—

Q. Taking into consideration your limited acquaintance with Mr. Hillmon and your opportunities for observing him and the fact that you never measured or saw him measured, do you feel as if you could state with any degree of accuracy in regard to his height—taking all those matters into consideration? A. Well the only way I could tell—

Q. I know; but I am not asking you to tell how you could do it, but I am asking you, taking those matters into
337 consideration do you feel you could speak with any degree of accuracy with regard to his height—taking into consideration the matters I have spoken about, the length of time you knew him and your opportunities for observing him?

A. I could, standing right by the side of him, which I did.

Q. That is the way you—

A. (Interrupting.) That is the way I could tell, by standing beside the man, and knowing what I measured, and I think he was pretty near the same height I was and a little—I thought, a little taller.

Q. You think you could speak with some little degree of accuracy, do you, in regard to that—taking everything into consideration?

A. Well, that is as near as I could come to it I wouldn't want to be positive.

Q. But on the other trial of this case you stated that it was a mere guess, did you not?

A. Why certainly; it is all a guess with me—certainly; I never measured him.

Redirect Examination

By Mr. Hutchings:

Q. How tall are you, Mr. Rahskopf? A. Five feet ten.

Q. And you have stood up by the side of Hillmon?

A. Yes, sir; I have stood up by the side of him and talked to him.

[—] And upon that you based your opinion?
A. And upon that I based my opinion.
Q. Counsel asked you if that was a mere guess. A. Yes.
Q. Do you mean by guess—

Mr. Barker: We object to that as not cross-examination.
The Court: O well, the witness stated it was his opinion or
ıess. You just asked him whether that was a mere guess,
ıd it is proper for counsel for the plaintiff to ask him what
: means by "guess."
Mr. Barker: Isn't that for the jury to say. Isn't it a ques-
tion of fact instead of a question of law whether it is
38 a mere guess.
The Court: He may answer the question.

A. I have reference to the height, not [the other to] the
art.
Q. Well, what do you mean by guess?
A. Well, to the best of my judgment, and I am a pretty
ood judge.
Q. You have testified at every trial of this case, haven't
ou?
A. I don't know that I have testified at every trial; this
s the fourth one.
Q. This is the fourth trial? A. Yes.
Q. That you have testified at? A. Yes, sir.
Q. Now you spoke about your recollection being refreshed
oncerning those ring marks on the finger? A. Yes, sir.
Q. I will get you to state, if your recollection was refreshed
n that matter by the fact of reading the testimony that
ou gave the first time you testified? A. Yes, sir.
Q. And in these later trials in 1895 and '96, you had for-
gotten that circumstance?

Mr. Green: We object to the question as leading.
Mr. Hutchings: I suspect the question is leading.
The Court: Yes it is leading.
Mr. Hutchings: Well he has already stated.

Q. Do you remember the name of the photographer who
took these photographs? A. Yes, Mr. Layman I think.
Q. Layman? A. Yes.
Q. Did you know him? A. I used to know him.
Q. Was he a photographer there in the city of Lawrence?
A. Yes, sir.
Witness excused.

339 Dr. John D. Patterson, called as a witness on the part of the plaintiff, being duly sworn, testified as fol-
lows:

Direct Examination

By Mr. Hutchings:

Q. State to the jury your name, place of residence and occupation.

A. John D. Patterson. I reside in Kansas City; I am a practicing dentist.

Q. How long have you been engaged in the practice of dentistry? A. Thirty-two years.

Q. Did you formerly reside in Lawrence, Kansas?

A. Yes, sir.

Q. Were you residing there in 1879? A. I was.

Q. Did you know Dr. Stewart?

A. Very well, at the time I lived there.

Q. What connection, if any, did you have with him in Lawrence in 1879,—that is, association I would rather say?

A. Well, adjoining office with a door opening between.

Q. You had communicating offices? A. Yes, sir.

Q. Do you remember the circumstance of a body being brought to Lawrence in April, 1879, that was said to be the body of Hillmon? A. I do.

Q. Now, if you had anything to do in connection with that body or saw it, I wish you would state to the jury in your own language the facts about it; what you did.

A. I was employed by an agent of the company—a Mr. Tillinghast—to take models of the teeth and jaws of that body; and with Mr. Tillinghast and I believe another man, maybe, another insurance man, I did so,—working over the body three or four days—very difficult to get impressions and then make models—until I finally secured models that were satisfactory under the circumstances. The body was in an outhouse across the alley from Bailey & Smith's store—a little further down the alley.

Q. You did finally make a model, did you?

A. Yes, sir.

340 Q. I will get you to state to the jury what kind of teeth that cadaver had.

A. Seemingly good teeth; teeth were all present.

(Counsel here exhibits a model to witness.)

Q. I will get you to state whether or not this that is handed to you now is the model that you made of the teeth of that corpse? A. It is.

Q. Is it a correct model?

A. Approximately correct; I might do better now. The jaws were very capacious, as you will see; all the teeth are in the mouth—all thirty-two teeth; a slight irregularity only; an unusually perfect set of teeth.

Q. What irregularity was there that you discovered, if any?

A. There is an irregularity in the lower front teeth. There is an irregularity here—a little shortness there in that tooth.

Q. What tooth?

A. That is the lateral incisor upon the left-hand side.

Q. That is an upper jaw tooth?

A. Yes, sir; that we speak of. They are very unusual in their regularity.

Q. Now as to that upper incisor?

A. It is that tooth there (indicating).

Q. You say it is slightly shorter?

A. Shorter than its mate on the opposite side, as you will see. That is one of the facts—it gives evidence of having been worn by a pipe stem or something of that order, considerably at that point—more than any other point on the front teeth.

Q. Now, you may state whether, in your opinion, from the examination of that body in making that model, the shortness of that tooth might have made an appearance as though there was an absent tooth.

Objected to by defendants as incompetent, irrelevant and immaterial.

Mr. Barker: He can describe the appearance and any one else can tell as well as he what it would show.

341 Mr. Hutchings: No; he examined the teeth and jaws and it depends on the build of the mouth.

The Court: If he can answer the question from his examination of the corpse, he may do so.

To which ruling and action of the court the defendants at the time excepted and still except.

Q. Yes; in the shape of the lips and knowledge that you derived of the shape of the jaws and mouth and lips and teeth.

A. Well, the straight lines drawn—or lip—drawn evenly around the upper teeth, the major part of that tooth would not appear, while the others would—in the front part of the mouth. I can show it to you here, if you wish—show it to the jury. Compare the opening—that is, the opening to the jaws, evenly, and you will see the shortness of the lateral compared with the teeth on the other side.

Q. Now how long were [—] engaged in working about the —?

A. I can't remember; three or four days, being out and in several times a day.

Q. In order to make this model, what did you have to do?

A. Make an impression of the teeth and from that make the model.

Q. How did you get into the mouth?

A. Pried it open and washed it out. The jaw was—the shot entered here, you understand; and this was hanging loose, this condile. The end of the jaw was shot off I believe on this side so that there wasn't much difficulty in prying it open. The body was not rigid. It was very well preserved at that time.

Q. Now during that time, or soon after the time you had been working with this body, as you say some days, I will get you to state whether or not you saw a photograph of what you at that time believed to be that—the living person—that person living? A. How is that?

Q. Whether since the time, or after you were working with that body, you saw a photograph that you believed to be a photograph of that body when alive and living.

A. I did, a few days after I was through my work.

342 Q. Who exhibited to you that photograph?

A. I think it was Dr. Morris, the coroner.

Q. The coroner of Douglas county? A. Yes.

Q. Now what kind of a photograph or picture was that?

A. I saw two —

Objected to as incompetent, irrelevant, and not the best evidence.

Mr. Hutchings: This is preliminary.

The Court: Yes, it may be preliminary, unless you ask him to describe the photograph itself, the person shown on the photograph. You wouldn't be authorized to state from that that it was a photograph of Hillmon or a photograph of somebody else, unless he knew.

Mr. Hutchings: It is in line with this other testimony.

The Court: You expect to follow the testimony of this witness up by other testimony identifying that picture?

Mr. Hutchings: Yes; I expect to show there was a picture of that kind taken by Mrs. Hillmon to the coroner, Dr. Morris, and that Dr. Morris showed it to this witness and he recognized it.

Witness: I am not positive. Dr. Morris was there in his own store, and I think he had it. I wouldn't swear to that positively.

The Court: If you say you propose to connect the photograph that he has in his hand with a photograph of Hillmon, he may answer the question.

Mr. Hutchings: We certainly do, and we submit that the existence of such a photograph is admitted by the opening statements of both counsel, and the loss of it.

The Court: That would be immaterial to consider that at present, because if you show there was such a photograph, you can certainly show its existence to make the connection.

Mr. Hutchings: Of course we don't expect to make
343 the connection by this witness.

Q. Where did you see that picture?

Mr. Barker: To the introduction of this testimony we desire to save an exception as incompetent and irrelevant.

Objection overruled; to which ruling of the Court the defendants and each of them at the time duly excepted and still except.

A. I saw it in the store in which Dr. Morris was interested at that time.

Q. How many pictures were there on the tintype?

A. There were two—supposed to be Mr. Hillmon and Mr. Brown.

Mr. Barker: We ask to have that stricken out, what they were supposed to be.

The Court: That may be stricken out.

Mr. Barker: Because the witness doesn't claim to have any personal knowledge.

Mr. Hutchings: We are willing it should be stricken out.

Witness: I never saw any of these men up to this time that I know of, in life.

344 Q. You saw a tintype there with two pictures on it?

A. Yes.

Q. What was their positions?

A. They were standing.

Q. You may state, if you remember, their relative heights.

A. One was very heavy—considerably taller than the other, and larger also.

Q. You may state whether you recognized the taller of those pictures as being the picture of this cadaver when living?

Objected to as incompetent, irrelevant and immaterial; objection overruled, defendants excepting.

A. I was told it was a picture of Mr. Hillmon.

Defendants move to strike out the answer; motion sustained, plaintiff excepting.

By the Court: The purpose is to establish the identity between the taller person, whose picture was taken whilst living, and the cadaver that you saw.

Witness: I surely thought it was the picture of the man I had been working over those three or four days.

By the Court: I don't know as it is a question of what you thought it is a matter of judgment. What the witness thought will be stricken out.

Witness: It was my judgment, then.

By Mr. Barker: We will ask to have stricken out his last answer, as being wholly incompetent and immaterial.

By the Court: Wherein is it incompetent and immaterial?

By Mr. Barker: I think, so far as that is concerned, that for a witness to attempt to carry shadows and [and] identify one he doesn't know by a picture that is not shown to be a good picture, or anything of that sort, that it is wholly incompetent. In the first place, in order to make a picture of that sort competent at all, its identity would have to be thoroughly established.

By Mr. Hutchings: We will establish it.

By the Court: That is true; it must be at some time established or else this witness' testimony as to that, as to the comparison, should be excluded; and not only must it be
345 shown that there was such a picture containing the two figures, but that the representation of the taller man was a fair picture of Hillmon. Unless it is shown, this testimony drops out.

By Mr. Hutchings: We promise to show all that.

Witness: There was another picture, a separate picture, of Mr. Hillmon shown at the same time.

Q. Now, your recollection is that these pictures were shown you by Dr. Morris of Lawrence? A. Yes sir.

By Mr. Isham: It seems to me, if the Court, please, that this is altogether too remote to be in any respect whatever a competent instrument of evidence. This witness never saw the original of that picture, which he says was simply shown to him by somebody and was told it was a photograph of Mr. Hillmon. He never saw Hillmon. He never saw living the person whose half decomposed cadaver he saw photographed when wrenched out of position and the face distorted, as can be seen by these pictures. He never saw either of those individuals living; and for him to attempt to testify to the identity of those persons shown by those pictures, is like the testimony of a lunatic about two drifting clouds in the sky. It is impossible in the nature of things, and it is too remote to be respectably offered in a court of law. It is utterly too remote; it is beyond the range of facts.

By the Court: I don't understand that the pictures which the witness refers to having seen, are pictures of the cadaver with the features tortured out of resemblance. I understand that the pictures which he has in mind, and referred to, were pictures of Hillmon. Now, it is incumbent uopn the plaintiff to show hereafter that those pictures were fair photographs or representations of John W. Hillmon in his lifetime. Now, if, in his judgment, the cadaver which he saw was the dead

body of the person whose picture he saw, that I think
346 is competent evidence, and it is only to that extent that it is admitted.

(The last question was then repeated by plaintiff's stenographer as follows: Now your recollection is that these pictures were shown you by Dr. Morris of Lawrence?
A. Yes sir.)

By the Court: The witness referred to a second picture as the picture of John W. Hillmon. That statement should be stricken out because the witness did not know John W. Hillmon.

By Mr. Hutchings: Yes; that was not responsive.

347 Q. Now I don't know but you stated, but I will ask you again to state, what the condition of this corpse was that you worked with there two or three days, at the time you went to work on it—whether it was distorted, or what condition it was in?

A. It was in a very good state of preservation; the third and fourth day it got to be a little different.

Q. Did you see this cadaver afterwards and if so where after you had finished your work with it?

A. Yes. I went out to the cemetery with Dr. Stewart; he asked me to go out with him and I saw the body taken up, examined and photographed.

Q. Who was the photographer who took the photographs?

A. Layman.

Q. Now describe to the jury what took place there when this body was taken up. What was done with the body if anything before these photographs were taken?

A. The body was propped up in the box, and I think a slab was put in beneath the shoulders and head so that it stood out of the coffin somewhat, and pictures were taken. Before the pictures was taken, Dr. Stewart went up to the head and twisted his finger in a tuft of hair and yanked it out—pulled it out—and opened his pocket book and put it in his pocket book. The hair was very badly disarranged and full of dust—earth—clay out there, and the face was also covered with dirt; and the eyes were very much sunken at that time, and decomposition had taken place very rapidly indeed I wouldn't have recognized the corpse with the man I had been working over had it not been for the teeth.

Q. There had been then a very great change since—

A. A very great change indeed. Whether it had turned warm or decomposition had set in before he went to the grave I don't know. It was a cool day when he was taken up, as I remember; but decomposition had taken place very rap-

idly. I don't remember how long it was; however, the change was very great.

Q. After Dr. Stewart pulled out a lock of hair in the manner you have described you may state what if anything
348 was done to compose the hair before the picture was taken? A. Nothing whatever.

Q. Now I will get you to state whether or not you noticed any mark of any kind upon his body—whether you made any examination of the hands or any other part of the body, and if so describe to the jury what you saw?

A. I looked on while others were handling the feet and hands and so on; and upon the litttle finger of the left hand there was a mark as if a ring had been worn—depressed all around the finger and of a lighter color than the dark brown parchment like color which a dead body will take on—upon the little finger of the left hand. The body lay up hill with the head to the south and the feet to the north, or a little southwest and northeast and I was standing at his side, and I know it was the left hand because on account of the position which I remember in which I stood.

Q. Now, you have testified, I believe, as a witness at each trial of the case, have you, doctor? A. I have.

Q. Do you remember the trial that was had at Topeka in 1895 before Judge Thomas?

A. I remember; I was there; Judge Thomas tried the case once; yes sir.

Q. Do you remember at that trial of a ring being produced by the plaintiff and submitted to you for examination?

A. Yes sir it was produced at more than one trial—I don't remember. I remember a ring was handed to me, yes.

Q. Now I will get you to state whether or not you remember that ring being presented to you at the prior trials?

A. I think so; I am sure I had it more than once.

Q. Now you may state to the jury whether or not from an examination of that ring and this mark upon the finger, on your opinion the size, shape or width of the ring could have made the mark on the finger?

Objected to as calling for incompetent, irrelevant and immaterial testimony and not a proper subject of expert testi-
mony.

349 Objection overruled, to which ruling the defendants and each of them at the time duly excepted and still excepts.

A. I think so; I think it could.

Q. You may state in your opinion whether the wearing of that ring upon that finger would have made that mark?

Objected to as calling for incompetent, irrelevant and immaterial testimony and not a subject of expert testimony, and further that the witness has not shown himself competent to testify.

Mr. Hutchings: I withdraw the question; I think everybody knows that has ever seen a ring on a man's finger.

Witness: I can qualify if you desire.

Q. Very well.

A. In medical studies and dental studies, I passed a great deal of time in dissecting rooms, and a ring worn and removed will have just the same appearance that was on this hand, when you find it in the dissecting rooms where rings have been removed before the bodies come into the dissecting room, you understand; and those marks appear very frequently.

Mr. Barker: We ask to have stricken out the last statement of this witness in regard as to what took place in dissecting rooms, as wholly incompetent and irrelevant in this case.

The Court: The motion is overruled.

To which ruling of the Court the defendants and each of them at the time duly excepted and stil except.

Cross-Examination

By Mr. Barker:

Q. You have already stated that you were living in Lawrence in 1879? A. I was.

Q. And practicing your profession there? A. I was.

Q. You had been living there then sometime?

A. I went there in 1868, I believe.

350 Q. And was living there in 1879? A. Yes, sir.

Q. You have already stated that you had no acquaintance with John W. Hillmon? A. None whatever.

Q. Didn't know him by sight even?

A. I may have seen him, but if I did I never knew him.

Q. You were called upon by Mr. Tillinghast to make a cast of the teeth of the body which was over there in Bailey and Smith's establishment? A. I was.

Q. Bailey & Smith at that time were the principal undertakers in the city of Lawrence, were they not?

A. They were.

Q. Their main office was on Massachusetts street?

A. Yes, Massachusetts street—the main street.

Q. And this undertaking establishment extended back.

A. Well, this was an out-house back [—] which they used for different purposes, a shedlike place.

Q. There is where the body was when you saw it first?

A. Yes, sir.

Q. Do you remember on what day of the month and wha
month you first saw the body?

A. No, I don't except my recollection is that the man wa
[burried] in March and laid in the ground in the cold Marc
weather; so it must have been the last of March or the fir
of April. That is all the recollection I have.

Q. That is as definite as you can be in regard to that; tha
being in 1879? A. I suppose it was 79.

Q. Do you recollect whether it was 79 or not?

A. Except from my recollection of the case. I know th
case developed in 1879; yes.

Q. Do you remember who was in this room where the bod
was when you first went in? A. Nobody.

Q. You went in when there was no one there?

A. Mr. Smith always went in and let me in, and while
was there no one was in there; and [—] I went out I locked th
door and took the key to Mr. Smith or some one in his stor
There was no one whatever in there with me. I was not i
structed not to take any one in with me, but I didn
351 want anybody and didn't need anybody and I suppose
my business was of a personal, private nature. So n
one was there with me whatever.

Q. Of course, in order to make a cast of the teeth you ha
to examine them and did examine them, I mean the teeth
the cadaver? A. Yes, sir.

Q. You have alreadpy stated that the cadaver had remar
ably good teeth—

[—] That is quite right—very strong.

Q. And I believe you stated, perhaps in some other exam
ination than this, that they were quite large?

A. Yes, sir.

Q. More than ordinarily large teeth?

A. Yes, they were more than ordinarily large.

Q. I wish you would describe them in that matter fully
in regard to the size of the teeth, whether they were unusual
large, or whatever the facts were?

A. I have seen larger teeth, but they were unusually larg
larger than usual.

Q. Unusually large? A. Yes.

Q. And the teeth were all perfect, were they not?

A. Except they were—yes, the teeth were perfect excep
they were a little worn by attrition and mastication.

Q. I believe you stated there was no evidence of any de
tistry having been done upon them? A. Absolutely non

Q. No fillings? A. No fillings.

Q. No decays? A. No decays.

Q. Nothing of that sort? A. No, sir.

Q. You were several days in making this cast, were you—a day or two? A. (No answer audible.)

Q. The teeth were not discolored either, were they?

A. Why, when I tackled them they were all covered with the debris of putrefaction.

Q. I mean discoloration?

A. They were yellowish teeth. I think they were as clean as usual, as people's teeth usually are that are not brushed well; but they were all covered with sordes, various kinds of decaying mucus and blood—all covered with blood.

352 Of course, I cleaned them off thoroughly before I commenced work on them.

Q. And this was the cast of teeth which you produced there—which you made there—and this was at the instance of someone on behalf of the insurance companies? A. Yes.

Q. Do you remember what you did with this cast after you had made it? A. Gave it to Mr. Tillinghast.

Q. Do you remember how long the body was lying there in Bailey & Smith's at the undertaker's there, before it was buried? A. No.

Q. About how long?

A. O, I think it was there perhaps a couple of days before I commenced work on it; I don't know; I can't remember about that; and it was there probably sometime after I stopped word.

Q. Do you know of the body being embalmed? A. No.

Q. Didn't see that operation performed?

A. Well, you can't perfectly embalm a body shot and bleeding in that way, the way that body was; can't perfectly embalm it; might partially do it.

Q. I asked you if you knew anything about the embalming of that body? A. Not a particle.

Q. Don't know anything about that then? A. No, sir.

Q. Do you know of people going out and in there?

A. No; there was no one going out and in at all when I was there. There had been; I understood people had been down there to see him and identify him.

Q. While you were there though you didn't have any one in there? A. No, sir; the door was kept locked.

Q. The larger amount of your work was done at your office, was it not?

A. Yes, I took the heater over there to melt the bee's wax—warm the bee's wax.

Q. But the bulk of your time in making this cast was spent at your office? A. O yes.

Q. You didn't spend but little time over there?

353 A. No, sir, not at a time.

Q. I understand you to say you went out to the cemetery? A. Yes, sir.

Q. You went out to the cemetery at the time these photographs were taken? A. (No answer audible.)

Q. Do you remember who was there?

A. I remember a portion of them; there must have been fifteen or twenty-five people there.

Q. Just give us a few names of those you remember being there?

A. I listened to Mr. Rahskopf's testimony, and he called up one name I had forgotten, Mr. Van Hausen, the undertaker's assistant.

Q. Who was the undertaker who was out there; Mr. Smith himself or his assistant?

A. I think it was Mr. Smith; he had his assistants with him.

Q. Do you remember who they were?

A. No, sir. Mr. Layman, the photographer was there. I went out with Dr. Stewart, Dr. Miller was there, and Dr. Sam Walker was there; that is about as far—and Joe Farnham was there; that is about as far as my recollection goes.

Q. I understood you to say you made or saw an examination of the hands made there? A. Yes.

Q. Then of course you had an opportunity to observe and did observe the character of the hands of this cadaver?

A. Quite good.

Q. What did you say in regard to the character of his hands, whether they were large or small or long and bony?

A. Unusually long.

Q. Unusually long? A. The man was a large man.

Q. The man was a large man and had an unusually long hand? A. Well, yes.

Q. What would you say in regard to its being a broad and wide hand?

A. Well, that is hard to tell after the flesh has—

Q. You couldn't say in regard to that?

A. I noticed that out there more than I did in the undertaker's room, because they were examining for marks
354 out there, and nobody did that when I was working on it.

Q. I will inquire particularly in regard to the joints of the fingers, whether they were large or not?

A. When the flesh, the soft tissue is shriveled, of course the joints always stand out in a cadaver.

Q. Were what would [—] called large joints?

A. Large enough for a man of that size; no more or no less.

Q. You spoke about the doctor pulling out a lock of his hair. A. Dr. Stewart.

Q. The body was out of the grave of course?

A. Yes, sir.

Q. And they attempted to rub the hair the right way did they not. A. Yes.

Q. Did you see the body reinterred?

A. No, I came away about that time, when they commenced that.

Q. You knew it was about to be done.

Q. Of course if the doctor had not taken this hair, he would have gone into the grave without any of his hair being saved so far as anybody else there was concerned.

A. (No answer audible.)

Q. Nobody else took a lock of his hair?

A. Not that I saw.

Q. That is the only lock of his hair that you know of being preserved?

A. O yes. There was no other lock of hair taken out when I was there, and I was there all the time.

Q. You think that was done before the body was photographed. A. I know it was.

Q. And after that, the body was photographed in two positions?

A. Yes, that is—no; it was photographed from two positions. He wasn't moved; he was photographed looking out that way.

Q. I accept your correction. It was photographed from two positions. Did you see the photographs?

A. I have seen them at all the trials. I saw them at this. I saw them before any of the trials, I guess.

Q. You saw them before the trials?

A. Yes, down at Lawrence—the beginning of the case.

Q. Who went out there to the cemetery with you?

355 A. I went out with Dr. Stewart in his buggy.

Q. Perhaps I asked you before, but I will stand a repetition—did you examine the hands yourself?

A. No, I didn't touch it. I was within two or three feet of it. I think Dr.—I don't know who was handling it and looking all around and at the feet and legs too.

Q. I am asking you now in regard to the hands.

A. I didn't handle the hands myself, but I saw them.

Q. How close did you stand to the body?

A. I was within two feet of the foot of the coffin—right close up.

Q. Right close up? A. Yes, sir.

Q. And there is the time when you say you first discovered what you called a ring mark? A. Yes.

Q. Are you sure that is the first time you discovered that?

A. I didn't—

Q. You hadn't noticed that before?

A. No, I hadn't noticed it before.

Q. You had been working over that body, you stated, for two or three days? A. Quite right; and worked hard.

Q. Worked hard and the hands of course were uncovered while you were in there?

A. No question as to identity had been raised with me then, but out there at the cemetery they were looking for marks, and so was I.

Q. If you will answer my question we will get along faster? I say you didn't discover any marks until you went out there?

A. No, sir; not on the hand—not that ring mark.

Q. And you had seen his hands repeatedly before that?

A. Unquestionably.

Q. You couldn't tell how many times you had seen his before that.

A. No, sir; I couldn't; my attention was given of course to the teeth when I was working over the cadaver.

Q. I understood you to say that you didn't know of any question of identity being raised until you were down at the cemetery.

356 A. Well, I wasn't looking for any marks—

[—] No, but I understood you to say that; am I right about that?

A. No; I think the question had been raised. They went out there and took the body up in order to look for identity marks.

Q. The question of identity had been raised, hadn't it, immediately [—] arriving at Lawrence. That was really the question that was raised? A. Yes, I think that was so.

Q. I am correct about that? A. Yes.

Q. The question of identity was raised immediately upon the arrival of the body there, and even before that.

A. Yes, that is right.

Q. You understood that was why the cast of the teeth was being taken, why the hair was being preserved and why this examination was being made; it was on the question of identity for the purpose of determining the identity of the body.

A. That is the reason I made the casts.

Q. You understood that was why these other things were done, did you not?

A. You asked in regard to the hair. It is possible the hair might have been taken from some other portion of the head so as not to spoil the picture as I considered it helped to spoil it.

Q. You understood these things were preserved for the purpose of determining the question of identity? A. Yes.

Q. Now in regard to a photograph—you have been asked in regard to that. You say somebody showed you a photograph? A. Yes.

Q. Can you state when that was?

A. That was after I had done that work; I think it was after the body was interred.

Q. Where was it?

A. In the store in Frazer's Hall. There used to be a drug store in which Dr. Morris, the coroner, at that time was interested. He was with others, and he—I am quite sure it was he—showed me the picture.

Q. You think Dr. Morris showed you the picture.

A. Dr. Morris, yes.

357 Q. Dr. Morris showed you the pictures. A. Yes.

Q. The coroner at that time?

A. Yes; that is, I think he was.

Q. That is the only time you saw that picture?

A. O, I saw that picture more than once.

Q. Where did you see it after that?

A. I saw it in Dr. Morris's office.

Q. When? A. Within a few days.

Q. Who was present when you saw that?

A. Nobody but Dr. Morris and I.

Q. Nobody but you and the doctor. A. No, sir.

Q Now I will ask you in regard to a ring. You said you had a ring here at the trial of this case in 1895?

A. Well in one or two or three trials I saw the ring; I don't remember—but I saw it more than once.

Q. You saw a ring? A. Yes.

Q. You never applied that ring to that hand? A. No.

Q. Don't know whether it would fit the little finger or any other finger on the hand?

A. It certainly wouldn't after I saw the corpse.

Q. How is that?

A. It wouldn't fit, after I saw the corpse, because the soft tissue had—

Q. (Interrupting.) I know, but I am simply asking you whether you know anything about that, whether it would fit or not? A. No.

Q. You stated, I understood you, in your direct examination that that mark might have been made by that ring.

A. So it might.

Q. And might have been made by any other ring.

A. Any other ring? No.

Q. That would go upon the finger?

A. Why, the same mark might have been made by rings of various sizes or widths undoubtedly.

Q. Do you remember in regard to the size of this ring that you saw there? A. The size of the ring—

Q. Do you remember, I ask you first.

A. It was rather a large ring for a little finger; that

358 is my recollection.

Q. Was it a broad ring or a narrow ring?

A. O it was about 1-8—from 1-8 or 1-16 to 1-4 of an inch.
Q. Was it oval or a flat ring?
A. It was oval—flattish oval.
Q. The last time you saw that ring you had it in your possession, didn't you?
A. Yes at the trial, is the last time I saw it.

By Mr. Hutchings:
Q. At the cemetery when you noticed the ring mark as you have stated, you may state to the jury how you were situated with reference to the hand. Were you in a position where you could see them?

Mr. Barker: The witness has already answered that question and told just where he stood.
The Court: Yes I think so.

Q. I will get you to state whether or not upon the hands of this corpse there was any crooked little finger?
A. I don't know.
Q. You spoke of this corpse being of a large man and having a long hand; I think you used the word unusually long.
A. Well it looked so when they were examining it. Of course when the flesh shrivels the hand of course looks—it would add to the lengthy look rather than to the contrary; because the adipose tissue has shriveled up, and it looks skinny; but it was a long hand—unusually long—unusually long; no question about that at all.
Q. You have stated that you saw pictures or photographs [of] that were taken of the cadaver while you were there. I exhibit to you exhibits Nos. 12 and 13, and will get you to state to the jury whether or not you recognize those as the pictures that were taken at that time? A. Yes I do.

Witness excused.

359 Mr. Barker: I desire on behalf of the defendants to submit the following motion: The defendants, the Mutual Life Insurance Company of New York and the Connecticut Mutual Life Insurance Company of Hartford, Connecticut, request the court to withdraw from the jury all the testimony of the witness, J. D. Patterson, concerning the photograph or picture which he testified to having seen in the possession of one Dr. Morris in Lawrence, and all that was said to said witness concerning the same, because said witness had no acquaintance with John W. Hillmon and no knowledge of what person or persons, if any, said picture was a representation, except what was told him by others than the defendants, and no knowledge whatever as to the correctness or genuineness of said picture; because all of said testimony of

said witness on said matter and subject is wholly incompetent, irrelevant and hearsay.

The Court: It has been stated by counsel for the plaintiff that they propose to show that the picture with which Dr. Patterson made his comparison was a good photograph of John W. Hillmon. If they should not do so during the progress of the trial, and the attention of the court is called to such failure, this motion, or one similar to it, will be sustained. At the present it is overruled.

To which ruling and action of the court the defendants and each of them duly excepted.

360 Ed. Canovan, called as a witness on behalf of the plaintiff, being first duly sworn, was examined in chief by Mr. Hutchings, and testified as follows:

Q. What is your name? A. Ed. Canovan.
Q. Where do you reside? A. Douglas county.
Q. Did you ever reside in Jefferson county? A. Yes, sir.
Q. When? A. About thirty-five years, I think.
Q. What is your business? A. Farming.
Q. How long have you been engaged in the business of farming? A. About forty years.
Q. Were you acquainted with John W. Hillmon?
A. Yes, sir.
Q. What was the extent of your acquaintance with him?
A. Well, I met him on the street, and other places where we happened to meet.
Q. I will exhibit to you a picture which has been introduced in evidence and marked exhibit number 10, and get you to state if you know whose picture it is?
A. I would say that was John Hillmon's.
Q. In your opinion how tall a man was John W. Hillmon?
A. Well, I have no way of knowing exactly. I think he was about five feet and eleven inches.
Q. When did you see Hillmon last?
A. When did I see him last?
Q. Yes; that is, alive? A. In Lawrence.
Q. About what time? A. I don't know; 1888 or '89.
Q. Do you mean '88 or '78? A. 1878.
Q. Do you remember the circumstance of a body having been brought to Lawrence in April, 1879, that was said to be Hillmon—claimed by some to be Hillmon?
A. I seen it; yes.
Q. I will get you to state in your opinion whose body that was. A. Well, I don't know how to come at that hardly.
Q. Well, in your opinion, whose body was it?
A. I thought it was Hillmon's.

Cross-examination

By Mr. Barker:

Q. You were living out in Jefferson county on your
361 farm in 1878 and '79, were you not? A. Yes, sir.

Q. You didn't remove to Douglas county until within a few years—a year or two, did you? A. Couple of years.

Q. Been living in Douglas county a couple of years?

A. (No answer audible).

Q. Your acquaintance with Mr. Hillmon was quite slight, was it not? It was a very limited acquaintance you had with him?

A. Well, no; I was acquainted with him only about seven or eight months, but we met frequently.

Q. You met several times, did you? A. Yes, sir.

Q. Now in regard to his height,—you have already stated that was a mere matter of opinion? A. Yes, sir.

Q. Never thought anything about his height until this case arose, did you? A. I don't know that I did.

Q. And you have no means of telling what his height was, have you? It is just an impression which you have from having seen him? A. That is all.

Q. Now do you know about when you first saw this man Hillmon? Along in '78 some time, was it?

A. I think it was along in the latter part of 1878.

Q. Along the latter part of 1878? A. Probably in March.

Q. In March, 1878?

A. Might have been February; I can't say as to that.

Q. February or March, 1878? A. (No answer).

Q. You think you made his acquaintance along in February or March, 1878, do you? A. I think so.

Q. It might have been much later than that, might it not? Might have been August or September, 1878?

A. No; I think not.

Q. You think it was in February or March, 1878?

A. (No answer.)

Q. Well, wherever you saw him was in the city of Lawrence, was it? A. In the city of Lawrence; yes, sir.

Q. Didn't make his acquaintance in any other state or anything of that sort? A. No.

Q. In Colorado? A. No.

362 Q. So that if he was in Colorado or outside of the state in February and March, 1878, you would be mistaken in regard to having met him then?

A. Well, I — (answer not finished).

Q. Now in regard to seeing that body there,—you were in Lawrence on that day, were you? A. Yes, sir.

Q. And the body was down at Bailey & Smith's, the undertakers? A. Yes, sir.

Q. And there were a good many people going out and in there?

A. Well, there wasn't very many, but there was some moving.

Q. Do you remember who was in there while you were?

A. No, sir; I don't remember.

Q. Do you remember how you happened to go down there, Mr. Canovan? A. Yes; Mr. Baldwin asked me to go.

Q. Mr. Baldwin found you on the street and asked you to go down with him? A. Yes, sir.

Q. That was Mr. Levi Baldwin? A. Yes, sir.

Q. You had been acquainted with him for some time?

A. Acquainted with who?

Q. Mr. Baldwin? A. Yes, sir.

Q. And he asked you to go down there? He told you that Mr. Hillmon's body was down there at the undertaker's?

A. Yes.

Q. Bailey & Smith's, the undertakers?

A. (No answer.)

Q. Asked you to go down and see him?

A. (No answer audible.)

Q. And you went down there, of course expecting to see the body of Mr. Hillmon? A. I presume I did.

Q. And I understood you to say you wouldn't be positive in regard to it, but it was your impression it was the body of John W. Hillmon? Am I correct about that? A. Yes.

Redirect Examination

By Mr. Hutchings:

Q. State a little more definitely to the jury where you lived in 1878 and '79, or at the time you knew Mr. Hillmon?

A. I lived in Jefferson county.

363 Q. Where did he live at that time?

A. What part of the county?

Q. Yes. A. South part.

Q. Did you have business transactions with him?

A. With Mr. Hillmon?

Q. Yes.

A. No, sir; he was at my house two or three times—he and Mr. Baldwin.

Q. At your house in Jefferson county? A. Yes, sir.

Q. In cross-examination you stated that when you saw him you saw him in Lawrence?

A. Well, I did see him in Lawrence too.

Q. Saw him in Lawrence also? A. Yes.

Q. Did you ever notice Mr. Hillmon's teeth?

Mr. Barker: We think that is not re-examination.

The Court: Counsel wouldn't wish that line drawn strictly throughout this trial.

Mr. Barker: No, not so far as that is concerned; but I think a reasonable enforcement of the rule would probably be beneficial to both sides.

The Court: I suppose counsel forgot to ask him that when he was examining him in chief. I will not enforce that rule very strictly excepting when it may be abused.

Q. Did you ever notice Mr. Hillmon's teeth?
A. No; I can't say that I did.
Q. Did you ever notice any defect in his teeth?
A. No, sir.

By Mr. Barker:

Q. As a matter of fact you never noticed his teeth, did you?

A. I can't say now; it has been a good while ago; whether I did or not.

Witness excused.

364 Phillip Olmstead, called as a witness on behalf of the plaintiff, being first duly sworn, was examined in chief by Mr. Hutchings, and testified as follows:

Q. What is your name? A. Phillip Olmstead.
Q. Where do you reside, Mr. Olmstead?
A. In Lawrence.
Q. How long have you resided there?
A. Well, about twenty-one years.
Q. You were residing there in 1878 and '79?
A. Yes, sir.
Q. What business are you engaged in?

A. I was engaged in the tanning business—tanning buffalo hides into robes.

Q. Were you acquainted with John W. Hillmon?
A. I was.
Q. What was the extent of your acquaintance with him?
A. It didn't run over only a small length of time.

Q. Well, state about the extent of it—about the number of times you saw him and under what circumstances, and how you came to meet him?

A. I couldn't tell the number of times I saw him; I met him probably a number of times on the street, but he came to my tannery, if I remember correctly, three times. Mr. Brown came with him the first time. The other two times he came alone.

Q. On these occasions that he came to your tannery, did you have business transactions with him? A. I did.

Q. (Showing witness photograph). I will get you to examine this photograph which has been introduced in evidence as

exhibit 10, and state if you know whose photograph it is—who it represents?

A. I should say that was John W. Hillmon.

Q. Do you remember the circumstance, in the spring of 1879, of a body having been brought to Lawrence that was claimed to be the dead body of John W. Hillmon? A. I do.

Q. Did you see that body? A. I did.

Q. I will get you to state, in your opinion, whose body that was? A. The body of John W. Hillmon.

365 Cross-examination

By Mr. Barker:

Q. You stated that you were living in Lawrence now and have been living there for some time? A. Yes, sir.

Q. [A. Q.] Are you engaged in business now?

A. No sir, not in any particular business.

Q. Were you engaged in the tanning business in 1878?

A. Yes, sir.

Q. Whereabouts was your place of business?

A. It was in the old Smith & Bailey building. Everybody knew where that was in Lawrence on account of its peculiar construction.

Q. I am not asking you that? State where it was?

A. You asked me where it was?

Q. You didn't give the street.

A. You wouldn't have known it by the street. I believe though it was on Peyton street, between Vermont (?) and Kentucky.

Q. How long were you engaged in the tanning business there? A. Well I should think three or four years.

Q. Three or four years? A. Yes, sir.

Q. You say you saw Hillmon at your place of business?

A. Yes, sir.

Q. Can you state when it was—what year it was?

A. You ask me can I?

Q. Yes? A. Yes, sir.

Q. What year did you see him there, if you can state?

A. It was in the fall of the year in 1878.

Q. In the fall of the year? A. Yes, sir.

Q. About what time in the fall?

A. Well probably late in the fall.

Q. Late in the fall of 1878? A. Yes.

Q. And you think there was somebody with him, do you?

A. Mr. Brown was with him the first time.

Q. That was the first time you had seen this party, was it?

[Q.] The first time I saw him in the tannery; yes, sir.

Q. In 1896, before Judge Williams, was the first

366 time you testified in this case, was it not?

A. Yes, sir.

Q. I will ask you if at that time you were able to tell what year you saw him, and you said you saw him in 1877, 1878, or 1879?

A. Well, I couldn't remember definitely what year; I couldn't fix it just at that time.

Q. You can fix it now?

A. Since that time I have been able to fix the date accurately.

Q. Now you fix the date, do you? A. Yes.

Q. And you fix it as 1878 that you saw the man?

A. Yes, sir.

Q. Now, you have testified in regard to exhibit number 10. Have you seen that picture before? A. Not that I know of.

Q. Have you [since] it since you have been here in town?

A. No, sir, only from—as I sat back yonder. I couldn't see whose picture it was. I presume it was that. They said it was number 10.

Q. You said you never saw that picture before?

A. No, sir, I didn't see it closely.

Q. Didn't you see that picture in 1896? A. No, sir.

[Q.] (Counsel hands witness picture and witness examines same.) A. No, sir.

Q. Now, those are the only occasions when you remember of seeing this man Hillmon, was it? A. No, sir.

Q. The three times? A. No, sir.

Q. Who introduced you to Mr. Hillmon?

A. He introduced himself, he and Mr. Brown.

Q. Then the way you know it was Mr. Hillmon at that time was that he told you himself that his name was Hillmon?

A. (No answer.)

Q. That is a fact, isn't it? A. Yes, sir.

Q. I will ask you if on your examination in chief, before Judge Williams in 1896, you didn't testify as follows: "Q. Were you at Bailey & Smith's undertaking establishment at any time in April, 1897? and did you not answer: I couldn't tell as to that date; I don't remember the date but I was there and saw a body purporting to be the body of Hillmon, and to the best of my knowledge and belief it was the body of John W. Hillmon. I wouldn't swear to the identity of the body
367 unless it came positively under my observation." That was your statement on that occasion, was it not?

A. That is my statement.

Q. That was your statement then and it is your statement now? A. Yes, sir.

The Court: Mr. Barker, do you mean '97 or '79?

Mr. Barker: I mean in 1896; that was a mistake in calling it '97.

Q. That was your testimony in 1896, was it?

The Court: I know; but you read the question, were you present in Bailey & Smith's undertaking establishment in 1897.

Mr. Barker: It should be '79. The witness understood it. I want to correct that by making it 1879.

Mr. Hutchings: That shows how easy it is to be mistaken as to dates.

Redirect Examination

By Mr. Hutchings:

Q. You were asked about your testimony on a previous trial of the case, and your inability to state the year. I will get you to state whether, in your testimony before Judge Williams, you didn't say in connection with the same matter that was read here, that it was about three months before you saw him dead that he came to your tannery but that you wouldn't fix the year?

Objected to as leading and not re-examination.

The Court: It is leading; objection sustained.

Q. In your testimony before Judge Williams, you may state how you fixed the time in which you saw him at your tannery in relation to the time when you saw him dead?

A. Why, I knew the time of the year that he was there; but I couldn't fix at that time just the absolute year that it was; that was all. I think, on a little reflection, I might have done so at that time.

368 Q. You may state now how long it was after you saw Mr. Hillmon at your tannery that you saw this body that you think was Hillmon's?

A. Somewhere about three months; I couldn't tell exactly.

Q. In your cross-examination you were asked whether you had seen this Hillmon at any place except your tannery. I wish you would state a little more definitely to the jury how frequently you saw Hillmon and where you saw him?

A. I couldn't state how frequently I saw him.

Q. Approximately?

A. I met him a number of times on the street I know, and I spoke to him sometimes, and sometimes I saw him passing when I didn't speak to him. Now, I can fix the number of times at all.

Q. Well, was it very few times, or was it many times? Can't you approximate it?

A. Quite a number of times; yes, sir.

Q. Now, one question I omitted to ask before, I will

get you to state what, in your opinion, was the height of John W. Hillmon? A. Well, he was very near my height.

Q. How tall are you? A. I am six feet.

Recross-Examination

By Mr. Barker:

Q. Of course you never measured; never thought anything about the question of height until since this case arose and since you have been called as a witness? Isn't that a fact?

A. I don't know that I did, more than this—

Q. (Interrupting). I know, but you can answer whether that is a fact or not. A. Well that is all. Could I explain?

The Court: He desires an answer, yes or no.

Q. What do you say in regard to that, whether you ever thought anything about the question of his height until after this case arose and until after you were called as a witness in this case, did you?

A. Well, I couldn't answer that yes or no; because I saw the man there; made a contract with him, and I took pretty good notice of him so as to remember him, that he would fill the contract. He was a comparative stranger to me
369 when I first saw him.

Q. And you had a contract with him there?

A. Yes, sir, and I took some notice of his height.

Q. You looked at his height, did you?

A. I took some notice of it.

Q. That is, you observed the man, but did you think anything about the question of his height? Can you answer that, that twenty years ago you thought anything about the question of his height?

A. No, not his measurement; I wasn't thinking anything about that.

Q. And your estimate of his height is from an impression which you formed of the man when you saw him nineteen or twenty years ago was it? A. Yes, sir.

Q. What was that contract you entered into with him about?

A. He was to furnish me a quantity of buffalo hides, either buy them, or kill them, or both.

Q. That was in the fall of 1878, about three months before you say you saw this body?

A. Well, that is the first time I saw him; yes, sir. I saw him after that, and when he completed the contract after that.

Witness excused.

John Osborne, called as a witness on behalf of the plaintiff, being first duly sworn, was examined in chief by Mr. Hutchings, and testified as follows:

Q. State your name to the jury?
A. My name is John Osborne.
Q. Where do you reside?
A. One mile west of Reno in the southern part of Leavenworth County.
Q. What is your business? A. Farmer.
Q. How long have you been engaged in farming?
A. All my life. I was raised on a farm, and have worked at nothing else all my life.
Q. How long have you lived near Reno?
A. Well, at the place where I now live, this is the third season, but I have been close about Reno for about eleven years.
370 Q. Were you ever acquainted with John W. Hillmon? A. Yes, sir.
Q. State to the jury the extent of your acquaintance with him?
A. Well, I got acquainted with Mr. Hillmon I think in about 1871, but I ain't positive about that, calling the dates back, but I think it was about that. He was at work at Mr. Levi Baldwin's herding cattle and I had an uncle that lived about a quarter of a mile from there, and I used to meet Mr. Hillmon quite a number of times there and see him go backwards and forwards and so forth to his work. He was herding cattle on the prairie out there, and I would see him pass backwards and forwards quite a good many times. I don't know as I can enumerate any nearer than twenty times—twenty-five—more or less. I couldn't give the certain times, because that is something I thought nothing about.
Q. I will get you to examine the picture introduced in evidence and marked exhibit number 10, and state in your opinion whose picture that is?
A. Well, sir, I would take that to be the picture of John W. Hillmon.
Q. In your opinion how tall a man was John W. Hillmon?
A. Well, sir, he must have been—well, I could only go by my own height. He was probably three inches taller than I am, or more, and I am five feet seven; and in talking with him and being with him I had to look up and look him in the face right smart.
Q. Do you remember of the circumstance of a dead body having been brought to Lawrence that was claimed to be the body of Hillmon? A. Yes sir.
Q. Did you that body? A. Yes, sir.
Q. In your opinion whose body was it?
A. It was my opinion that it was John W. Hillmon.

Cross-Examination

By Mr. Barker:

Q. You are living in Leavenworth county, now, are you?

A. Yes, sir.

Q. You formerly lived in Douglas county?

A. I never lived in Douglas county except two
371 months I lived in Lawrence two months once.

Q. You lived in Jefferson county?

A. Yes, many years.

Q. You lived there for a long time?

A. Nineteen years, I think.

Q. And you think that you formed the acquaintance of Mr. Hillmon in 1871?

A. I think—I won't be positive about the date, but I think it was about 1871.

Q. Of course it was while you were living in Jefferson county?

A. Yes, sir; I was living in Jefferson county.

Q. Now do you remember of his being absent a long time; that is gone for three or four years? A. After this?

Q. Yes.

A. Yes; he was gone for awhile. I don't know how long, but he was gone for quite awhile that I didn't see or hear him mentioned that I know of.

Q. Now wasn't he gone from that time until 1878? Wasn't he out of the state or out of the neighborhood anyway, so that you didn't see him a good share of the time—most of the time? A. Well, I rather think not.

Q. I will ask you if the only times you would see him would be in the interims when he would come back; if you didn't understand and know that he was out in the western part of the country—out on the plains and in Colorado a good deal of the time from 1871 or '2 to 1878,—not all the time, Mr. Osborne, but a good many years during that time?

A. Well, he was gone a considerable time, but I couldn't state exactly how much of the time, for he and Mr. Baldwin was in business together once after this before 1878, I think.

Q. But what portion of the time he was absent you wouldn't undertake to state? A. No, no; I wouldn't.

Q. But you do know that he was absent a good deal of the time?

A. Yes; he was absent quite a little bit of the time; I don't know how much time, but quite a while.

Q. Now in regard to his height; so far as that is concerned that is a mere matter of opinion from having seen him, and the fact you had to look up to him?

A. Certainly; he was a man considerably taller than I was.

372 Q. And you are five feet seven inches? A. Yes, sir.
Q. With your boots on?
A. Well, I don't remember whether I was measured in my stocking feet or in my boots.
Q. You couldn't say in regard to that?
A. No, I declare I don't know. It has been several years since I have been measured.
Q. That is as definite as you could be in regard to your own measurement? You are about five feet seven inches?
A. I rather think I measured five feet seven without any boots on, but I wouldn't be right positive as to that now.
Q. You have probably been growing a little the last few years?
A. If it is, it is down-hill. It is downhill in weight, and whether in size or not I don't know.
Q. Do you remember how Hillmon was dressed in regard to his feet when you saw him? A. I don't remember.
Q. If he didn't wear boots and high-heeled boots at that time? A. I couldn't answer that.
Q. I want to call attention particularly to that, if that wasn't one of his peculiarities, that he wore high-heeled boots, and he rode a good deal, didn't he?
A. O, yes; he rode a great deal, but I don't remember of noticing whether his boots had any heels or high heels or what.
Q. You don't remember in regard to that?
A. I don't think I do.
Q. You won't say in regard to that? A. I think not.
Q. Now in regard to seeing the body in Lawrence; you were there in 1879, were you?
A. I was at Lawrence; yes, sir.
Q. Yes, at the time that body was there, whatever body it was? A. Yes, sir.
Q. There was a good deal of discussion in regard to whose body it was, was there not? You heard the matter debated and talked about didn't you?
A. Not very much at the time I saw him. This was the first day he had arrived there.
Q. The first day it had arrived?
A. Yes, sir; noon about that day when I got to Lawrence.
Q. Did you see the body more than once?
A. I did not. I saw it but once.
373 Q. Do you remember with whom you went in?
A. Yes; I remember with whom I went in?
Q. Whom did you go in with?
A. I went in with Mr. George Yates, and Mr. James Gilluly and Charles Smith, the undertaker.
Q. Whereabouts were the undertaking rooms at that time where these remains were?

A. It was across the alley in a little house east of his furniture store there. We went back through the furniture store and crossed the alley, and the first thing when we got in the room there was this body.

Q. You three people went in together?

A. There was four really—myself and Mr. Yates and Mr. Gilluly, and Mr. Charles Smith.

Q. Was there anybody else in there when you went in?

A. No, sir; there was no one there. Mr. Smith unlocked the door.

Q. Did anybody go in while you were there?

A. I think not.

Q. You remained in there only a few minutes, of course?

A. Not very long; just a few minutes.

Q. What was the condition of the body so far as to being clothed preparatory to burial or not?

A. Yes; he was clothed; it seemed to be the clothes he had been wearing where he was killed, I think.

Q. It had on a suit of clothes? A. Yes.

Q. Had the body been—face been washed and shaved?

A. It looked as though it had been washed and shaved after death to look at the face I think. It was poorly shaved.

Q. Poorly shaved? A. I think so.

Q. How did you come to go down there?

A. I was in Mr. George Yates' drugstore when the question came up—next door to this undertaker's office.

Q. Had some one told you Mr. Hillmon's remains were down there? A. (No answer audible).

Q. Do you remember who it was?

A. I think that Mr. Gates spoke about it, I think, and Mr. Gilluly spoke and says, "This gentleman was acquainted with Mr. Hillmon." He had reference to me, and then they made a proposition that we go in and see.

374 Q. Well, in that conversation, did either Mr. Gilluly or Mr. Yates tell you that Mr. Hillmon's remains were only a little ways from there?

A. Well, sir, I don't think they did tell me that Mr. Hillmon's body was there. I don't think either one claimed to know whose body it was. I know Mr. Gilluly didn't.

Q. I know, but so far as that is concerned, I understood you to say that they said Mr. Hillmon was there and you were the gentleman that knew him, Mr. Hillmon? At all events they said they all knew Mr. Hillmon, did they not?

A. Yes, sir.

Q. Then the subject of whose body it was must have been discussed, must it not?

A. Well, I can't say that it was, Mr. Barker,—that it was discussed whose body it was; though I believe that the other two parties didn't claim to know whether it was Hillmon's

body or not. I know Mr. Gilluly didn't, for I talked with him since and he always claimed ignorance.

Q. I know; but how did they happen to say that you knew Mr. Hillmon if the subject of his body being down there was not discussed—if that matter wasn't talked about? How did they come to say that "this gentleman"—meaning you, Mr. Osborne,—"knew Mr. Hillmon"?

A. Well, I don't know as I can exactly tell you why they —The subject in Mr. Yates' drug store there was about Mr. Hillmon being dead and being at the undertaker's office.

Q. Wait a moment. The subject of Mr. Hillmon's death was spoken about there in Yates' store? A. Yes, sir.

Q. And in addition to that wasn't the fact talked about of his body being down at the undertakers' only a few steps from there, and then didn't somebody suggest that you, Mr. Osborne, knew Mr. Hillmon, and propose that you should go down there? A. Well, that might be; very likely.

Q. Then you and various parties went down there?

A. Yes, sir.

Q. And you thought that was the body of John W. Hillmon? A. I did, sir.

Q. That was the impression which you received—which you had at that time, was it?

A. Which? That it was Hillmon's body?

375 Q. Yes. A. Yes, sir.

Q. It was only an impression, was it not? It was only an impression; that was all?

A. Well, I tell you, it was impressed upon my mind pretty deeply.

Q. I will ask you if you didn't testify on the last trial of this case in 1896, in answer to this question: "I understand you to state from what acquaintance you had, that those were the remains of John W. Hillmon? Answer: Yes, sir; that was my impression." Did you so testify?

Mr. Hutchings: How does that contradict the witness? I object to it as not proper cross-examination.

The Court: I think the jury will look at that in a reasonable way. One man may say his "impression"; another may say his "judgment" and another may say his "belief" and another may say his "opinion"; and unless attention is called to the degree of the strength of the belief or opinion or impression, the jury may consider those expressions as synonomous. I don't mean to say that they are synonomous, but it frequently happens that men use them in the same way as being synonomous.

Q. Now you never thought anything about the height of Hillmon until after this case arose, did you, Mr. Osborne?

A. No; I don't know as I ever thought about how many inches high he was.

Q. Then your impression or opinion in regard to his height is from your recollection of him twenty years ago or more?

A. Certainly. I haven't saw him for more than twenty years.

Q. And you state your recollection of a fact that length of time. A. He was a taller man than I am; I am sure of that.

Redirect-examination

By Mr. Hutchings:

Q. You have been a witness at each trial of this case, have you?

A. I have been a witness the third time—'95, '96 and this trial. Earlier than that I was not.

376 Q. To refresh your recollection,—at the time your attention was first called to the fact that there was a body there, I will get you to state whether George Yates didn't claim that it was not the body of Hillmon?

A. Well, I don't know as I can answer that positively. There was a man, a doctor, that claimed it was not; but whether Mr. Yates did or did not, I don't believe I can say positively.

Q. When you examined the body there, did you know there was a claim or that it was claimed that it was not the body of Hillmon? A. I did, sir.

Witness excused.

377 Plaintiff next offers to read in evidence the testimony of Hezekiah Covey given upon the trial of [these] case in 1895.

It is admitted by the parties that Mr. Covey is not within the jurisdiction of the court.

Said testimony was thereupon read to the court and jury and is in words and figures as follows, to wit:

Hezekiah Covey, of lawful age, being sworn testified as follows:

Q. You examined the body a second time?

379 A. Yes, sir.

Q. You may state if you know anything about the marks or moles on the body of John W. Hillmon?

A. Why there was one on the left shoulder, I remember putting court plaster on it many a time.

Q. What was the object of putting court plaster on it?

A. He said his suspenders rubbed it.

The defendants moved to strike out the answer as hearsay, motion overruled, the defendants and each of them duly except.

Q. State what examination you made, if any, with reference to this mole?

A. Well they asked me to go in and look at him and examine him and I went and looked thoroughly, the second time I went in and I looked pretty well, convinced myself and I took hold of his shoulder and turned him over and it was there, I was satisfied.

Q. What was there?

A. That little mole. It was very small, and I was satisfied it was Hillmon.

Q. Now Mr. Covey you say you have slept and roomed and worked with John W. Hillmon,—I will get you to state to the jury in your opinion what was his height?

A. Well I should judge he was about my height or a little taller.

Q. Five feet, eleven inches?

A. Yes, sir, that is what I measure.

Q. I will get you to examine this photograph that is marked Exhibit "18" and state to the jury whether you recognize that person and if so who it is,—whose picture it is?

A. Well sir, that is Hillmon.

380 Q. I will get you to examine this photograph marked Exhibit "19" and state to the jury whose picture that is, if you know? A. That is Hillmon.

Q. That is all, take the witness.

Cross-examination

Q. How long did you say you lived at Lawrence?

A. Since 1865.at Lawrence and about Lawrence.
Q. And you came from Illinois to Lawrence?
A. Yes, sir.

Q. Where did he stop when he came?
A. Well he rented a house in Lawrence and lived there probably a couple or three months and from there we went on to Governor Robinson's farm?
Q. And you remember how long he lived on Governor Robinson's farm?
A. Well no not exactly, he lived there a great deal longer than I was, we lived there probably six, seven or eight years.
Q. You lived there off and on with your family?
A. Yes, sir.
Q. Where did you say you herded cattle?
A. There on Governor Robinson's farm.
Q. On the bottom farm or on the hill farm?
A. On the hills there, we kept them in the corral, in Mr. Robinson's corral in the bottom.
Q. In that land back of Governor Robinson's house?
A. He has two,—one we lived in in the bottom down there and the one he lived in himself. Yes, sir, the one down there on the creek,— yes, sir, that corral.
381 Q. What I am speaking of is the land lying west of Governor Robinson's house opened at that time?

Q. Seventy-one and two? A. Yes, sir.
Q. And what time in the year was it?
A. Well now I just could not say exactly what time of th. year it was.
Q. Well give your best recollection?
A. Well I could not say, it was after grass got up so as the cattle could live good.
Q. Well was it the early part of the season?
A. Well, when they brought them there, yes, sir.
Q. And how long did you say you were there?
A. Well it was in the neighborhood of two or three months, maybe not quite three, pretty close to it.
Q. Then that would take it to what part of the summer?

A. Well I think we moved the cattle away along the latter part of July.

Q. And do you know where they took them, what place?

A. Took them up on the creek above Eldridge's, took them four or five miles above our place.

Q. And whose cattle were they?

A. They belonged to Uncle Tommy White when I went to work for him.

Q. Uncle Tommy White of Lawrence? A. Yes, sir.

Q. And you went to work for Mr. White?

A. He employed me, yes, sir, Mr. White.

382 Q. And when did you next see Hillmon after 1871 or 2 when you were herding cattle?

A. Well, I would see him frequently in town at John Eldridge's he was buying cattle and hogs.

Q. When? A. Well, I cannot state when.

Q. Well, canot you give any idea?

A. Well, no, when I went to town after I went to work driving team why I would see him different times.

Q. And did he live in town that time?

A. Part of the time.

Q. And part of the time he was-

A. He was away part of the time.

Q. And you do not know where he lived in town?

A. Well, one time, yes, I did, he lived at North Lawrence one time.

Q. And when was that? A. Well now I could not state.

Q. Could not state the time? A. No, sir.

Q. Well, could you give us any idea?

A. No, I could not, it is between 1872 and 1879.

Q. Between 1872 and 1879?

A. John Eldridge was a brother-in-law of mine and I would frequently go there and hire horses to ride and Hillmon would come there to get a horse. Eldridge had one horse he used to ride a good deal.

Q. Well, can't you state a little more definitely than from 1872 to 1879?

A. Well, I know he did live there, but I do not know when. I know it was between 1872 and 1879, he lived in one of Petty's houses.

Q. And where was that house located?

A. Located in North Lawrence.

Q. What part of North Lawrence?

A. Well, the north part of North Lawrence, out on Bridge street.

383 Q. That is Massachusetts street extended?

A. No, sir, it ain't. Massachusetts street goes straight across the river and this is Bridge street.

Q. Then this is the street going directly north from the bridge?

A. Yes, sir, I think he lived in Lyon, the second house from the corner.

Q. And who was living with him?

A. I think Mrs. Hillmon's folks was living there at that time, I think she was there and her mother was living there.

Q. Now can you tell the year they were living there?

A. No, sir, I cannot.

Q. Can you give us about the year?

A. No, sir, I ain't abouting anything about it only it was between 1872 and 1879, I was in town and I used to see him frequently and he told me he lived over there.

Q. But you saw him frequently?

A. I saw him once after that and he said he was running a restaurant again after that.

Q. I wish you would answer my question. Now will you attempt to fix the next time you saw him after you were herding cattle with him?

A. No, sir, I would not attempt to fix it at all.

Q. Well, would you say it was a year?

A. I would not say how long it was, I seen him frequently in town around and talked to him, I would not state the time I talked to him—just before he started away I saw him and Mr. Baldwin sitting on the bridge, I was crossing the bridge going north and I saw them sitting on the south end.

Q. You saw him there in 1872?

A. Yes, sir, on our place in 1872.

384 Q. And did you see him again in 1873?

A. I would not say.

Q. Would you say you saw him in 1874?

A. I would not.

Q. May you have seen him in 1874?

A. I would not say whether I did or did not, I have seen him frequently after he quit and went away from there.

Q. Would you say you saw him in 1875?

A. I would not.

Q. Or 1876? A. No, I would not.

Q. Or 1877? A. No, sir.

Q. Or 1878?

A. No I would not, I saw him between those times, but I would not state the times.

Q. And what year did you live in Atchison, Mr. Covey?

Q. Well, that was in, along in seventy, let's see, I forget just now when I did go to Atchison.

Q. And now were you in Atchison several years?

A. I was in Atchison a little over a year, yes, sir.

Q. And driving team for?

A. I think it was 1880 or 1881 I went to Atchison.

Q. 1880 or '81? A. I would not state just which.

Q. Now don't you know, Mr. Covey, that it was along in the seventies? A. No, sir, I think it was in 1881.

Q. Well, was it before or after you saw the body you speak of? A. It was after.

Q. After that? A. Yes, sir.

Q. Then you say that from 1871 or '2 up to 1879 you were continuously at Lawrence?

A. I was there at Lawrence, of course, yes, sir.

Q. About how many months would elapse between the times you would see Hillmon?

A. I could not tell you how many months would elapse.

Q. Would you see him every month or two?

385 A. Well sometimes it would be quite a while, I would not be willing to say anything about it, that is about the times.

Q. Now how long would you say that it was the longest time at any one time that you did not see Hillmon in Lawrence? A. I could not state that.

Q. Will you state when you last saw him prior to the time you saw that dead body?

A. No, I could not do that either.

Q. Could not do that?

A. As I state the last time I saw him was sitting on the bridge, him and Levi Baldwin together.

Q. Would you say that you had seen him within a year prior to that time? A. No, I would not.

Q. And it would be your best judgment you had not seen him within a year?

A. I would not say whether I had or had not, I would see him at lots of times and speak to him.

Q. But you saw him at your brother-in-law's, John Eldridge's? A. Yes, sir, I would see him there frequently.

Q. I think you stated John Eldridge was a brother-in-law of yours? A. Yes, sir.

Q. And he was keeping a livery stable there north of the bridge in North Lawrence? A. Yes, sir.

Q. How many times would you say you saw him there at John Eldridge's? A. Well, I saw him frequently.

Q. All during those years?

A. No, sir, not all during those years, there was quite awhile he was away.

Q. Well, would you say what years he was gone?

A. No, sir.

Q. Have you any recollection of the years he was gone?

386 A. No, sir, but it was between those years that we worked together and he was killed that he was gone. I could not say where he was gone only he was gone.

Q. How many times did you see him from the time you worked there together? A. I could not tell.

Q. Now do you remember when it was that you saw that dead body? A. Well not just the exact time, no sir, I do not.

Q. Do you remember what year you saw it?

A. Well, yes, sir.

Q. Well now will you state what year you saw it?

A. 1879.

Q. What is there that fixes your mind as to that date?

A. Well I was in there, and the death of him, and I was called in there.

Q. Well would that fix the time as to the date you saw him? A. Yes sir.

Q. That would fix the time?—and is that the only thing that you have by which you fix the date at which you saw him?

A. Yes sir, I have heard it often enough, I have heard it repeated often enough I come pretty near knowing the year it was in.

Q. Then it was from having heard it repeated often you know the date? A. Yes sir, and knowing it too.

Q. And where were you when you drove up, you say?

A. I was right at Ridenour and Baker's warehouse in the alley.

Q. And how far is that?

A. That is a little over fifty feet from the undertaker's.

Q. And you jumped off and went in? A. Yes sir.

Q. And no one requested you at that time, you just went in?

A. No, sir, I called my brother's attention to it, I said, "Let's go and see if it is Hillmon."

Q. Do you remember what time in the day it was?

A. No sir, I do not.

387 Q. Would you say it was in the forenoon or afternoon?

A. I would not state. We just drove in there with nails and I spoke to him.

Q. Well you have told that often enough.

A. I would not state as to the exact hour.

Q. I am not asking you the exact hour, but whether it was before you had dinner or not? A. I do not remember.

Q. You do not remember that? A. No, sir.

Q. Now whom did you say was in there at that time?

A. Well I could not state who was in there exactly.

Q. Well, anyone?

A. Well I think I met Ed Monroe, and I think Smith was in there at the time, I know he was, and Monroe had just come out and people were walking in and out.

Q. Quite a number were walking in and out?

A. There was not so many, no sir.
Q. But there were people walking in and out?
A. Yes, sir.
Q. You do not recollect who you saw there?
A. I saw Ed Monroe.
Q. And that is the only one you remember?
A. The only one I spoke to.
Q. How long did you remain there that time?
A. I presume I was there 15 minutes.
Q. And the body was lying on boards?
A. I think it was laying on trestles.
Q. Do you remember what day of the week it was?
A. No, sir.
Q. Do you know how long the body had been there?
A. I think it had been put in there that same day just before we drove up a little while.
Q. And you say you think the body was lying on a board?
A. Yes, sir, I think it was lying on trestles and on a board.
388 Q. Well now Mr. Covey isn't it a fact that the body was in a coffin and the coffin was on the trestles?
A. No sir, I do not think at that time. I think at that time, it laid on a plank I know the second time I was in there.
Q. We are not asking you about the second time, I am asking you about the first time now.
A. I should judge it was laying on a plank the first time.
Q. Well do you know he was? A. No, sir.
Q. You would not swear then whether this body at the time you first saw it was in the coffin or lying on a board?
A. No sir, I would not.
Q. Now was the body dressed at his time?
A. Yes, sir, he had on clothes.
Q. And you examined the face?
A. The first time I just walked around him and looked at him, and I was convinced it was him and I walked out.
Q. Well did you say it was that took fifteen minutes?
A. Yes sir, I walked in and looked at him.
Q. I understood you to say you walked in and just turned around and walked out? A. Yes, sir.
Q. Well I will ask you again, did it take you all of fifteen minutes?
A. Yes sir, but I was not walking all the time.
Q. When did you next see the body again after that?
A. I think it was the next day, I am not positive whether it was the second or third day.
Q. How did you come to go there at that time?
A. I was requested to go there by Sheriff Clark, I think it was.

Q. Did you inform him that you had seen the body?
A. No, sir; I did not. Somebody informed Sheriff Clark that we was acquainted with him.
389 Q. And you did not inform Sheriff Clark that you had already seen the body fifteen minutes and knew who it was? A. No, sir.
Q. Where was you when he came to you?
A. I was right up there about where Poehler's building was near Pendleton's building.
Q. That is north of Bailey & Smith's? A. Yes, sir.
Q. And about how many yards distant?
A. About three hundred feet it would be.
Q. And what were you doing? A. I was hauling freight.
Q. Well were you loading or unloading?
A. I was either loading or unloading, I was right there at Mr. Poehler's store.
Q. And who was keeping store there at that time.
A. I do not remember.
Q. Whose freight were you unloading?
A. I was unloading freight at that time, I do not recollect whether it was Resting's (???) or Poehler's.
Q. And who went with you this second time?
A. Well I ain't positive, I do not remember whether Clark asked me to go or not.
Q. I am asking you who went with you?
A. There was no one.
Q. Who was there? A. I think Smith was there.
Q. Were there other people there?
A. There was not any in there hardly when I went in.
Q. Do you remember anyone that was in there?
A. No, I think Smith was in there, I do not know that positively, he was there at the door I think; he asked me to go and look and I went and looked.
Q. You were not thoroughly convinced the first time?
A. Yes, sir, I was.
390 Q. You were thoroughly convinced the first time?
A. I was convinced the first time I laid my eyes on him.
Q. You could not be mistaken?
A. No more than if it was my brother.
Q. Why did you go there a second time?
A. Because they requested me.
Q. And no one went with you?
A. No, I think not, I do not think anyone went down with me.
Q. In what state of preservation was this body in there when you were in there the second time?

A. Well, it was in pretty good shape to be buried as long as it had been.

Q. Well, I was not asking you for your opinion as to how long it had been buried. I asked if it was in a good state of preservation.

A. Yes, sir, I think it was; it looked natural to me.

Q. Well, did you know the time you went there the first time that there was a question as to whose body it was?

A. No, sir. Not when I went in.

Q. You did after you got in you say? A. Yes, sir.

Q. And so you took a good look at the body? A. Yes, sir.

Q. Now, you have lived in Lawrence since 1879?

A. I have lived in Lawrence and about it since 1865.

Q. I was fixing it since 1879,—have you lived there since 1879?

A. Not all the time, I have been in Atchison part of the time since, I think I was in Atchison a little over a year.

Q. Now do you remember of testifying in this case before?

A. Yes, sir.

Q. How many times have you testified?

A. I think twice.

Q. Twice,—at the first and second trial or the second and third trial?

391 A. I was at Leavenworth once and here once.

Q. Do you remember what year this case was tried at Leavenworth? A. No, sir.

Q. Do you remember what year it was tried here?

A. No, sir.

Q. You were not sworn on the first trial? A. No, sir.

Q. When did you first tell anyone,—

A. The first trial I was not there.

Q. I am not asking you where you were, I am asking you who you first told?

A. I never told anybody, I think some of the witnesses here told it first and I was subpoenaed, I think it was Eldridge first stated about our acquaintance.

Q. You never stated it to anyone? A. No, sir.

Q. Did you ever state it to anyone before you were put on the stand?

A. No, sir, there were lots of witnesses knew it.

Q. I will ask you if you talked to anyone in regard to this case before you were placed on the stand? A. No.

By Mr. Hutchings:

Q. When?

By Mr. Green:

Q. The second trial?

A. No, only there was a talk there, they came around,—

Q. I am not asking you about the time. I am asking you for a fact.

By Mr. Hutchings:

Q. You do not give the witness a chance to explain.

A. Well, yes, I talked, they came to me before I was subpoenaed.

Q. I am not asking you whether they came to you or anything of the kind, I am simply asking you if you talked to anyone about what you would testify to, before you were put on the stand? A. Yes, sir.

Q. And do you remember who you first talked with?

A. Well, I think the first one I ever talked with was H. S. Clark in regard to it.

392 Q. I am speaking now about the time you were called as a witness in this case.

A. Now I forget who it was came to me and they asked me all about it, I could not say positively who it was now.

Q. You do not remember?

A. Well, I do, too, I think Mr. Riggs was the first one that came around to me and asked me all about it and I made a statement to him.

Q. Do you remember how long that was before the trial?

A. I do not.

Q. Now, do you remember where you said you had driven that team or where you stopped your team when you got off the wagon and went in to see that body the first time,—now do you remember what you testified in regard to that the first time you testified in this case?

A. I was on a load of nails in the alley, yes, sir.

Q. I asked you if you remember what you testified to?

A. I think I testified to that same thing exactly.

By the Court: If you would pay a little more attention to the question and simply answer that question we would get along better. Answer that and nothing more.

A. Yes, sir.

By Mr. Green:

Q. Now, did you state at that time that you were driving along Massachusetts Street when you first found he was there and that you got off and went in? A. I did not.

Q. You did not? A. No, sir.

Q. Now did you testify at that time that you examined the body twice?

A. I think I did not, I do not think I was asked the question.

Q. You do not think you were asked the question and do not think you testified you examined the body twice?

A. do not think I testified to it.

393 Q. Did you testify on the last trial of this case that you examined this body twice? A. I did not.

Q. Did you ever testify before that there was a mole on Hillmon's back? A. No, sir, it never was asked before.

Q. I was not asking you whether it was asked or not,—did you ever testify to it? A. No, sir.

Q. When did you first disclose the fact to the plaintiff or any of her attorneys as to his having a mole on his back?

A. Well, they was asking me if there was any marks on him.

Q. When was it they first asked you?

A. Well, I do not recollect the first time, it was since I was here as a witness before.

Q. They did not ask you if there was any marks then?

A. They did not ask the question.

Q. And you did not tell them what you knew there was marks on the body? A. They did not ask me.

Q. When did you first tell them you examined that body more than once? A. I cannot remember that, not when.

Q. Well, about when?

A. Oh, I can't about it at all, I told you I could not tell only it is since I was here before.

Q. Did you disclose to them after these other trials that you examined that body twice? A. Yes, sir, I did.

Q. Well, before the last two trials you did not tell them that? A. No, sir.

Q. And you did not tell them about this mole before that?

A. No, sir.

Q. And don't you know that would be a mark of identification?

A. I do not know anything about that, I suppose it would be if they knew it.

394 Q. But you knew it and did not tell them?

A. They was asking me if there was any marks.—

Q. When was that? A. I cannot state.

Q. Can you state about when? A. No sir.

Q. Well was it within the last year?

A. I think it was within a year, yes sir, we was talking about it.

Q. Within a year,—now on this second occasion you do not remember who was present?

A. No I do not. I think Smith was.

Q. Do you remember whether the body was lying in the coffin at that time or not? A. It was not.

Q. It was not? A. No sir.

Q. And you think it was on the second or third day?

A. I think so, yes sir, not longer than that I do not think.

Q. It was not on the day you got off the wagon and went in?

A. No sir, I saw the body three times really, I was in there when Dr. Mottram was in there once.

Q. You say that it was lying, how was it lying at that time? A. Lying, I think, on a board of the same tressels.

Q. Now sir how was this body dressed the second time you was there?

A. Well I think it had no coat on it the second time, just kind of something throwed over him, pants on, I did not notice particularly about the pants.

Q. Do you remember whether or not he had a coat on?

A. I think he had none on.

Q. Well do you say he had not?

A. I think he had none on at that time, I am pretty positive he did not.

Q. Well do you say he did not?

A. I think he had no coat on at that time.

Q. Did he have any other clothes?

A. Yes sir I think he had a pair of pants on and a shirt on.

395 Q. He was not lying in the coffin at that time?

A. I am pretty sure he was lying on the boards.

Q. Did you ever see that body in the coffin?

A. Not that I know of. I think the first time I was here he was lying on a plank taken out of the box.

Q. Well when was it you saw it the third time?

A. Well I could not state the time.

Q. Was it the same day you saw it the second time?

A. No, I think it was after that, Doctor Mottram was there I think that trip.

Q. When you saw the body at that time was it in the coffin or on the plank?

A. Well I think it was still on the plank.

Q. Well this at least would be the third day the body was there?

A. I would not state whether that would be the third day or whether it was the third day I went there the second time.

Q. You did not go there twice on the same day?

A. I would not say whether I did or did not.

Q. I understood you to say you did not?

A. I said I would not say whether it was the second or third day I went there the second time.

Q. Then you went there three times? A. Yes sir.

Q. Well was that the second or third day?

A. I do not know whether it was the same day or the day after.

Q. Was it the same day you say you went in and examined and saw the mole? A. No sir, it was after that.

Q. The day after that, some day after that?

A. It was after that.

Q. And was the body in the coffin at that time?

A. No sir.

Q. Now how did you come to go there that day?

A. Well I just walked around there, I worked there right close.

396 Q. How did you come to just walk around there?

A. Well I was in there at the alley after freight again and seen a crowd there and I walked down there.

Q. Crowd going in and out?

A. Well they was not walking in and out much that day. I just walked down there and Mottram was making an examination and there was quite a stench there and I did not notice many go in there.

Q. Could you state who was there the second time?

A. Well I would not say positively, but I think Smith was there and I think that cabinetmaker he had there, I would not say positively.

Q. Well were there any other people there?

A. I think they were around there, I would not say whether they was or not.

Q. Now on this second trial you say you testified at Leavenworth?

A. Well I would not say whether it was the second or third time.

Q. Do you remember how many times this case has been tried? A. No, sir.

Q. Do you know who presided at the trial at Leavenworth?

A. Judge Brewer, I think.

Q. Well at that trial were you not asked this question, "Now by what particular feature, if any, did you recognize the remains as being Hillmon?" and didn't you answer that question, "Nothing any more than I would you?"

A. Well that is it, at that time, what I meant by that was,—

Q. And were you not asked at that time, "Didn't recognize him by any particular feature or mark?" and didn't you answer to that, "No sir"?

A. I do not think I answered that way, no, sir.

397 Q. Do you say you did or did not?

A. Well, I say I do not think I did because,—

Q. Well I am not asking you if they were. A. Because,—

Q. No, I am not asking for any reasons either. Did you or did you not?

A. Well I do not know, I do not recollect.

By Mr. Green:

Q. Were you not also asked on that examination, "Was there any peculiarity about Hillmon by which you could recognize him" and did you not answer to that question, "Not particularly, no marks that I knowed of?" Was that question asked you and did you answer in that way?

A. Well if I did I answered it wrong because there was marks.

By the Court: Answer the question. Did you or did you not.

A. Well I do not recollect whether I did or did not answer it in that way. If I did I did not understand it.

Q. And again another question, were you not asked, "Do not remember of any marks?" and did you not say, "No sir." What do you say to that?

A. I said if I did I did not understand the question.

Q. I did not ask you that, I asked you whether you so testified? A. I do not know.

398 Q. Will you say you did not?

A. No, I would not say whether I did or did not.

Q. How long ago was that, Mr. Covey, that you gave your first evidence in this case?

A. I do not recollect exactly.

Q. Give the best of your recollection.

A. I should judge six or seven years.

Q. Now at the trial at Leavenworth over which Justice Brewer presided were you not asked this further question, "Did they look natural, well preserved, in good order?" answer, "They looked natural to me." Question, "Perfectly natural?"—Was that question asked you and that answer given?

A. I think it was.

Q. Then the next question, "Perfectly natural?" and did you not answer, "Not perfectly natural,"—was that your answer.

A. Well I do not think I did, he looked natural to me.

Q. I am asking you whether you said that or not?

A. I do not remember whether I did or did not.

Q. Will you say you did not or that you did?

A. I do not think I said it.

Q. Were you not then asked, "The remains were sufficiently well preserved so that you had no trouble in recognizing Hillmon" and did you not answer that, "I got it down in my head that that was Hillmon." A. Yes, sir, I have yet.

Q. Well I asked if you were asked that question and did you not answer that?

A. I answered that I was positive that was Hillmon I said.

Q. Pay attention to the question,—I asked now if he was asked this question, "The remains were sufficiently well pre-

served so that you had no trouble in recognizing Hillmon," and did you not answer that question as follows, "I got
399 it down in my head that that ws Hillmon"?

A. Yes that is right.

Q. Do you remember of that question being asked and you answering it?

A. I do not remember just how I answered it, I do not remember just how it was put to me.

Q. Do you remember of that question being asked?

A. I do not.

Q. Do you remember the question being answered?

A. No sir, I do not.

Q. Do you remember whether the question was asked or not? A. I say I do not recollect.

Q. Now your recollections of any marks would be quite as good in 1885 as they are now, would they not?

A. I do not know whether they would or not.

Q. Don't know whether they would or not,—Mr. Covey where did you first see that mole that you speak of?

A. Why it was when we was at work when we was herding cattle together on the prairies the first time I ever saw it.

Q. Where were you when you first saw it?

A. I was up on the prairie back of Governor Robinson's.

Q. And what was the occasion?

A. He asked me to put a court plaster over it.

Q. And you put a court plaster over it? A. Yes sir, I did.

Q. Were you carrying court plaster along with you for the occasion? A. No sir, I did not, he did.

Q. He had court plaster with him? A. Yes sir.

Q. . Now what season of the year was this?

A. Along in hot weather, I do not recollect just what season of the year.

Q. Well about what month would you say it was?

A. I could not say.

Q. Well could you give us your best impression?

A. I could not, we was out there herding cattle and he asked me to put it on and he said the suspender rubbed it and asked me to put it on.

400 Q. Isn't it a fact that Hillmon did not wear suspenders? A. He did at that time.

Q. Where did you locate that mole?

A. It was a small one on the left shoulder.

Q. How large?

A. I could not say how large, but it was small.

Q. Was it as large as a walnut?

A. No sir, It was very small.

Q. About how large was it?

A. It wasn't as large as a pea, nothing like it.

Q. What was the shape of that mole?

A. It was a little bit of a black spot.
Q. What shoulder was it on, did you say?
A. It was the left shoulder blade.
Q. How do you remember it was the left shoulder blade?
A. Well the time I examined him there and I put it on him enough to know.
Q. About how many times do you remember you put it on?
A. Four or five times while we worked together.
Q. You are positive, you say, it was on the left instead of right? A. I did not say it was the right.
Q. You said it was the left shoulder?
A. The left shoulder.
Q. Was it near the center of the back or toward the side?
A. It was just right down there where the suspender came, right there on the shoulder, his suspender used to rub it.
Q. Yes, but I am trying to locate it?
A. Yes sir, I come pretty near telling you where it was.
Q. Was it on the spine? A. No sir.
Q. How far was it from the spine?
A. Well it was between his back and shoulder.
401 Q. About how far?
A. Well I could not tell about how far.
Q. Give us your best impression, was it an inch or two inches? A. I do not know.
Q. Or three inches?
A. I could not say, I never measured.
Q. Well can you give us your best judgment?
A. Well it was just down by the left shoulder, I said between the back and shoulder, I do not know how wide he is between his back and shoulder.
Q. Please give your best judgment as to the distance that mole is located from the spine?
A. Well I could not say, it was not very far.
Q. Well in inches how far was it? A. I could not tell.
Q. You would not pretend to say?
A. Not the distance, no sir.
Q. Where abouts on the prairie was it?
A. Right east of Governor Robinson's and north.
Q. Right east and north?
A. Yes, sir, right east where we herded together, from Governor Robinson's house.
Q. Now what condition did you find that mole in?
A. What condition I found the mole in?
Q. Well I know, but what condition was the mole?
A. Well it looked natural enough.
Q. Looked natural?
A. Yes, sir, I did not stop to examine it very long, I just located it and that was all there was of it, to see that it was there.

Q. Now how did you get at this mole?

A. Well I just put my hand on the shoulder and raised it up a little.

Q. You do not understand. A. What do you mean?

Q. When you saw the mole on the prairie.

A. Well he would raise his shirt up a little and I would get down and put the court plaster on it.

402 Q. Do you remember of his unbuttoning his suspenders?

A. No, sir, he generally would take them down without unbuttoning them.

Q. Then you would raise the shirt and put this plaster on?

A. Put a little court-plaster on.

Q. What was the effect of this court-plaster?

A. Well it just kept his shoulder and suspenders from rubbing, that is what he told me.

Q. Now after the first time you discovered it when was the next time you saw it?

A. Well whenever it would get to hurting him a little he would ask me to put court-plaster on it.

Q. Now I asked you when was the next time?

A. Well I could not say.

Q. Well how long did it go?

A. Well sometimes it would go three or four days and sometimes I would put it on the next morning.

Q. Now what was the effect of that court-plaster?

A. Why he put it on to keep from rubbing the shoulder I understood.

Q. You did not examine him to see how it affected him?

A. He told me it was to keep his suspenders from rubbing.

Q. Now do you think it was the next morning after your attention was first called to it you saw it again?

A. No, sir, I would not say, sometimes I put two on,—I would not say it was the next morning or a week after.

Q. You would not say at all as to that?

A. Oh, yes, I remember putting it on.

Q. Now do you remember whether this plaster stuck or not?

A. Sometimes it would and sometimes it would not.

Q. How long? A. I do not remember.

Q. Were you riding hard at that time?

A. Not very hard.

403 Q. And the cattle were not troubling you a great deal? A. Not much, no.

Q. Now after you put this mole on did he say anything about the effect at all? A. I did not put the mole on.

Q. The plaster on?

A. Well he never said anything to me only he had it there to keep his suspenders from rubbing as I told you.

Q. Now did this plaster draw or irritate the mole?
A. I could not tell you.
Q. You did not hear him say whether it drew or irritated the mole or whether it soothed the mole?
A. He did not say any thing about that.
Q. And then after you put it on then you would hear nothing further from it?
A. Yes, it would come off sometimes and I would put another one on.
Q. Then the intention was to keep plaster on there all the time, wasn't it?
A. No, sir, not all the time, sometimes he would say his suspenders would rub it or his shirt and I would put it on.
Q. Well when it came off and you would put it on again you had an opportunity of seeing the effect that plaster had on there?
A. Well it would stay on there, I could not say what effect it had on there, I could if it was on me.
Q. When the plaster would come off and you were called upon to put another one on you could then observe what effect this had upon the mole? A. No, sir.
Q. You did not observe that at all? A. No, sir.
Q. How much was the mole irritated?
A. Not any hardly, not to notice, very little.
Q. You could hardly notice the irritation,—do you remember what wages he was getting then?
A. I do not.
404 Q. How much did you get?
A. I got sixty dollars at that time.
Q. And board yourself? A. Yes, sir.
Q. A month? A. Yes, sir.
Q. Hillmon was doing the same service I presume?
A. Well he was doing a little bit more. He was in charge of the cattle, selling cattle.
Q. You say he was selling cattle? A. Yes, sir.
Q. Didn't White live in Lawrence?
A. Yes, sir, but he let Mr. Hillmon sell the cattle. Purchasers would come out there to see the cattle and would not see Mr. White, I suppose,—

By Mr. Smith:
Never mind what you suppose now.

By Mr. Green:
Q. Now you said that H. S. Clarke asked you to go down there the second time you saw this mole?
A. I would not be positive whether it was Clark or Smith.
Q. Did you state anything to the persons there about what you found? A. Well there was several times,—

Q. No I asked you if you said anything to the person who requested you to go down there as to what you found on that body? A. No, sir.

Q. Then I understand you went immediately from the place they requested you down to where the body was?

A. They requested me.

Q. I say you immediately went after they requested you down to the place where the body was? A. Yes, sir.

Q. I understand you to say you immediately went to where the body was? A. Yes, sir.

Q. And immediately you examined to find this mole?

A. No sir, not immediately, I looked around, I examined and I was satisfied it was Hillmon and they did not ask me.

Q. No, I did not ask you that, now what did you do?

405 A. Well they asked me to go down and see if it was Hillmon.

Q. No I am asking you what you did when you went in there? A. I went in and looked at it.

Q. How long did you look at him before you made this examination for this mole? A. I could not say how long.

Q. Well about how long?

A. I only looked at it a few minutes.

Q. Well I want your best judgment?

A. Well you can say ten or twenty.

Q. Well would you say which it was, ten or twenty?

A. I would not.

Q. Now how was the body lying at this time?

A. Lying on his back.

Q. Lying on the back, and as I understand on a board, and this board was resting on?

A. I think it was on tressels.

Q. By tressels you mean saw-horses?

A. Yes, saw-horses.

Q. Such as carpenters use when they put boards on to saw?

A. Yes, sir.

Q. Now will you state how that body was clothed at that time?

A. Well I think the second time I went in he had just a pair of pants on and a shirt.

Q. Now this is the time you examined for the mole?

A. Yes, I think the shirt had been on him since the first time.

Q. I mean how was he dressed at the time you examined for the mole?

A. I think just the pants and shirt, I think the shirt had been off.

Q. Now this shirt was open in the front?

A. I think it was opened in the back, I would not say positively whether it was or was not, I think it was not opened in front.

Q. It was not a shirt that was opened in the front?

A. I would not say positive it was or was not, I think it was,—

Q. Well do you know? A. No, sir.

406 Q. You saw it?

A. Yes sir,—I wasn't there to examine it for that purpose.

Q. And who did you say was there at that time?

A. Well I could not say positively who they was because I did not know them, that is a fact.

Q. Well will you try and recollect who was there?

A. No sir.

Q. You won't,—do you know whether there was more than one person there?

A. There was several looking in the windows.

Q. Several looking in the windows?

A. At the time, yes sir.

Q. And you were the only person in there? A. Yes sir.

Q. Do you remember who they were? A. No sir.

Q. Did you see Clark or Smith?

A. Well, I do not remember which one of those two, if they was in there.

Q. Well then did Clark come in there?

A. Well I think he went in there. I think it was either him or Smith.

Q. Well did you find Clark there when you got there?

A. Well I ain't sure whether he went out and came down the alley, or Smith, it was either him or Smith opened the door for me.

Q. You do not remember which one it was opened the door for you? A. No sir, when I went in.

Q. Will you swear whether it was either one of them?

A. No sir, I would not swear positively.

Q. Will you say it was one of them?

A. Well I think that it was one of them.

Q. You would not swear positively whether it was Smith or Clark?

A. Yes sir, or Mr. Cole, I think Mr. Cole was there, a gentleman that worked for him.

Q. Well if it wasn't Clark or Smith that went with you who went with you?

A. There was not anyone, you asked me who I met

407 there and I said Smith came out of the door.

Q. I am asking who went down with you, Clark or Smith?

By Mr. Hutchings:

He has gone over and over that and we object to it.

A. I do not recollect which one did open the door or whether it was Mr. Cole, he worked there for them at that time, I could not say positively it was not him.

By Mr. Green:

Q. Do you recollect whether it was one of those two men or not? A. No, I do not.

Q. Then if it was not one of those two men who was it?

A. Well I could not say, I say Mr. Cole worked there.

Q. Well would you say it was Mr. Cole? A. No sir.

Q. Well would you swear it was one of those two men?

A. No sir.

Q. Well if it wasn't them who was it?

A. I would not swear which one it was opened the door, I went in and there was several came in afterwards but I do not recollect who they was.

Q. If the door was unlocked there wasn't any necessity of either Mr. Clark or Mr. Smith unlocking it?

A. I did not say the door was locked, there was several looked in the windows, I ain't positive but a brother of mine, Dan, came right down.

Q. Well now Mr. Covey will you swear positively that you did not go there alone? A. That I did not go alone?

Q. That is go into the room alone? A. No, I would not.

Q. Someone did go? A. I do not understand.

By Mr. Hutchings:

It seems to me the frequency with which they go over that tends to confuse. The witness stated that he went there alone and that someone opened the door.

408 A. And several looked into the windows.

By Mr. Green:

Q. But he did not say whether it was Clark or Smith or Cole or anybody else.

By Mr. Hutchings:

I do not think anybody else would after sixteen years.

By Mr. Green:

Q. Now what did you do in order that you might see this mole? A. What did I do?

Q. Yes. A. Just merely raised him up.

By the Court:

Q. Merely what?

A. Raised him up, raised his head up.

By Mr. Green:

Q. You just raised the head up?

A. I raised the body a little, yes sir, I had taken him by the head, I raised him up a little and kind of twisted him over, I did not raise him up straight.

Q. Did you twist the whole body over?

A. No sir, I did not, I did not stay long enough.

Q. Is that the reason you did not turn him over?

A. There was quite a stench there and I just raised him and satisfied myself and left.

Q. How did you get at the mole after you raised the body up?

A. Well I just stripped the shirt up a little and looked at it, I would not be positive whether that shirt was opened, whether it was open at the back or whether it was open at the front, there was an opening, I got in there.

Q. Then you pulled the shirt up after you raised the body and looked? A. Yes sir.

Q. Did you replace the shirt?

A. Well I would not say. I did not replace it very good.

Q. Did you call the attention of any person there to
409 the fact that there was a mole on the body? Did you call the attention of any person there that you had discovered this mole? A. No, I did not.

Q. You were requested to go down there and identify this body, were you not?

A. Yes, sir, they said they had heard I was acquainted with him and wanted me to go and see.

By Mr. Green:

Q. Answer my question,—and being so requested you went down there and discovered this mole on the body and did not call the attention of any person present to the fact that you had so discovered it? A. No sir, I did not.

Q. You did not tell anyone there that Hillmon did have such a mole and that you had found such a mole on the body?

A. No sir.

Q. You did know that it was questioned at that time whether the body was Hillmon?

A. At that time I guess I did, that is why they requested me to go.

Q. Well why did you not tell a person there what you had discovered?

A. I was not asked the question, they just asked me to go down and convince myself whether that was Hillmon or not.

Q. They asked you to go down and identify the body, did they not? A. Yes sir.

Q. And after you went down there and found this identifying mark you did not report it to anybody at all?

410 By Mr. Green:

Q. I have asked this question before,—when did you say you first informed anyone of the fact that you found this mark on the body?

A. Why, I do not recollect just when it was.

Q. Well about how long?

A. I could not say, I have been asked that since this last trial.

Q. Was it within a year, will you fix the time as near as you can?

A. Well, I do not know whether it is one year or a year and a half.

Q. Now you knew at the former trials of this case that the question at issue between the plaintiffs and defendants was whether this was the body of John W. Hillmon, did you not?

A. Yes, sir.

Q. And you never disclosed the fact to the plaintiff or her attorneys that you had found this mole was on this body until after the last trial? A. Yes, sir, it was not asked me.

Q. But you were requested to go down and identify the body?

A. Yes, sir, I did—and I did identify him the first time I saw him.

Q. Mr. Covey, to refer again to the body, how high were those supports? A. I could not tell you.

Q. But I will ask you what was the distance from the body to the floor? A. Oh I never measured the distance.

Q. You did not take a measure along with you to ascertain that fact? A. How far it was down,—no, I did not.

Q. Well, can you give us your best judgment?

411 A. Well, I would say about that high (indicating) not quite as high as that table.

Q. Well, so as you can get it in the record, about how many feet? A. I would not say how many feet.

Q. You say not quite so high as this table, give us your best judgment of the distance between the body and the floor.

A. Well, it might have been three feet, it might have been two feet, I would not say.

Q. Would you say between two and three feet?

A. It was two feet up anyway, I would say, it might have been a little more than that up off the floor.

Q. Now which hand did you raise the body with?

A. Which hand?

Q. Yes.

A. I stood on the south side, head this way and I turned him over this way (indicating), and stuffed something, I forget what it was, some old clothes I guess, and went around the other side and took the head up.

Q. Which direction was the body lying?

A. Well, his feet was lying to the west and his head to the east and I went around to this side and pulled him over.

Q. Now, which is the side,—the south side?

A. No, I went on the south first and went around and twisted him over and got to the left shoulder and looked at him.

Q. Now which side were you on and where were you standing when you twisted the body?

A. Well, I went on both sides.

Q. Well no.

A. Well, I was on the north side of him at the time I turned him.

Q. How did you take hold of the head?

A. I just took hold of him this way and I could not raise him this way (indicating) and I put my hand under him this way and raised him a little and walked around to the other side.

412 Q. Now were you standing now at the head of the body or on the side of the body?

A. Oh, I was standing on the side.

Q. And you took hold of the head and twisted it over?

A. Yes, sir, head and shoulder.

Q. The head and shoulder? A. Yes, sir.

Q. And then you say you propped him up with old clothes?

A. Then I went around to the other side and pushed some things under and looked.

Q. Now, did the body move while you were walking around there?

A. Didn't move but very little because I kept one hand on it.

Q. Which hand?

A. I do not recollect. I walked around his head I know. went around from the north side, went around his head and came on the south side.

Q. Walked around then from the north side to the south side? A. Yes, sir, first stood to the east.

Q. And I think you say you propped it up with some old clothes?

A. I do not recollect what it was, whether it was an old coat or what it was.

Q. Do you recollect where you got it?

A. Well, it was laying right there.

Q. You say "Laying right there,"—right where?

A. Well, it was laying right there by the side of him, there was several things there.

Q. Right by the side of him?
A. Well, it was right there.
Q. Do you recollect what color it was? A. No, sir.
Q. Do you recollect whether it was of one color or different colors? A. I do not.
Q. Do you recollect whether it was a plaid or whether it was not? A. I do not.
Q. And you cannot tell any more about it but that it was an old coat?
A. I said I could not tell about it, may be it was
413 an old coat.
Q. What made you think it was an old coat?
A. Well, I do not know, I wasn't thinking of the coat.
Q. You know a coat when you see it?
A. Yes, sir, I do not know what it was, it was old clothes of some kind I stuffed under it.
Q. Why do you not know?
A. Why I did not stop to examine it, I did not go there to examine that.
Q. You did not take those clothes with you, you found them there? A. Yes, sir.
Q. What portion did you prop up?
A. I just turned them under,—after I got over on that side I stuffed the clothes right kind of under his hips, kind of pushed him over.
Q. Well, you twisted him over instead of turning him over?
A. Well, have it the way you please, I pushed him over.
Q. Well, did you pull him or push him?
A. I both pushed and pulled, I guess.
Q. And I understand you twisted the body so that you could get at it to see? A. Twisted and lifted it together.
Q. Did you keep your hands on the body during all this time? A. Part of the time.
Q. All the time you were making this examination did you keep your hands on the body? A. Not all the time.
Q. After you had twisted it and put these clothes under it then it laid quiet, did it? A. Yes, sir.
Q. And these clothes were under about the hip?
A. Yes, sir.
Q. And did you have to keep your hand on it to keep the body in that position?
A. No, sir, I did not have to, no sir, after I pushed him over he stayed there pretty well.
Q. Now, which hand did you use in raising the shirt?
A. Well, I do not know which hand I used, I used both of them.
Q. You did raise the shirt?

A. I think I pulled the shirt down from the top, I think I opened it, I think it was open at the top and I think
414 I pushed it down the back, I think the shirt was split down the back.

Q. Well, do you remember? A. I do not, no, sir.

Q. But you think you examined it by removing the shirt from the front? A. Yes, sir.

Q. Did you have any difficulty? A. No, sir, I did not.

Q. Did the persons in there ask you what you were doing?

A. No, sir. Nobody asked me.

Q. If the persons there did not ask you why you were twisting the body over?—

A. No, sir, there was not anybody.

Q. Did the persons there give you permission to do it?

A. Yes, sir, they told me to go in and look at it.

Q. Well, did they give you permission to push it this way?

A. I did not ask them, I took permission.

Q. They did not ask you what your object was in doing this way? A. No, sir, I done that to convince myself.

Q. And having taken the liberty of examining this body in this way for the purpose of discovering this mole you then kept it to yourself for fifteen years before letting anyone know you knew of it?

A. I did not say I kept it for fifteen years.

Q. Well, how long did you keep it?

A. I could not tell you.

Q. Have you any idea? A. No, sir.

Q. You kept it from that time until about a year ago, didn't you?

A. Yes, sir, I think about that time we was talking about it, yes, sir.

Q. Well, why did you go to this trouble if you did not state it to anyone?

A. Why we was talking about this Hillmon case,—

Q. Well, I am asking you why you did that?

A. Well, I cannot answer you, I do not understand.

Q. Well, I will ask you why you went through all this examination, turning that dead body which you say was
415 offensive on account of the odor, and then you did not disclose the fact that you found a mole there until fifteen years afterwards?

A. I wanted to convince myself that it was Hillmon.

Q. Well, I understood you to say you knew it was Hillmon the first time you saw it?

A. I did know it. A little more would not hurt any.

Q. Well, what object did you have in convincing yourself it was Hillmon?

A. They were talking about it and I wanted to make sure.

Q. Well, why didn't you disclose it?
A. Well, I did not, I did not even want to go on the witness stand.
Q. You are not answering my question, I say why did you not disclose it?
A. Well, the fact of it is I never was asked whether there was marks on him or not.
Q. You were asked to go there and identify the body?
A. Yes, I did identify I said again.
Q. Well, you were asked about identifying marks on the body at the last trial, the trial before Judge Brewer, were you not? A. I think so, yes.
Q. And you did not give this mole?
A. No, sir, I did not.
Q. Now, when did you first learn that this body had a mole on the back?
A. I learned that when I was at work that time there on Governor Robinson's place.
Q. No, this body I am speaking of, when did you first learn that the physicians had discovered it?
A. I do not know whether they did or did not discover it.
Q. You never heard of that? A. No, sir.
416 Q. Were you here at two trials?
A. I have been here at one,—

By Mr. Riggs: Q. That is all.

By Mr. Green:
Q. You have been at two trials? A. Yes, sir.
Q. Had not heard this matter of moles mentioned?
A. I have not.
Q. Had not heard that even mentioned? A. No, sir.
Q. Never heard that mentioned before? A. No, sir.
Q. Do you remember to whom you first disclosed this fact?
A. Well, I do not recollect whether it was Mr. Riggs or not. I am not positive.
Q. Do you remember how you came to do it?
A. No, I do not. I was talking to him in a conversation.
Q. You do not remember that?
A. Well, I do not know how it came around, no sir.
Q. And you do not remember when it was?
A. No, I do not.
Q. You do not remember the occasion?
A. Why, I do not remember, no, I forget where it was now we had that talk, me and him.
Q. Do you remember whether there was more than one present? A. Well, I do not recollect that.
Q. Do not recollect that now?—How long have you known the plaintiff?

A. Well, I could not say exactly how long.

417 Q. What, you remember led up to the conversation between you and Mr. Riggs, if it was Riggs, to your disclosing in regard to this?

A. No, sir, I do not, only think he said that he guessed he would have to have me up as a witness again and that is about all. I think that is the way it started.

Q. Well, how did you come to disclose to him at that time about this mole?

A. Well, I think I just spoke to him about it, told him there was something they had never asked me any questions about it, I think that is the way it came around.

Q. That is your recollection about it, how you came to disclose this fact, that they had never asked you in regard to it?

A. Yes, sir.

Q. How long had you known plaintiff?

A. I do not know how long.

Q. Well, about how long?

A. Well, I could not tell how long.

Q. Have you any idea? A. No.

Q. Can you tell that it was as early as 1879?

A. Well, I could not say positively how long I have known her.

Q. Well give us your best recollection?

A. Well I could not say.

Q. Can you give us any idea? A. No, not positively.

Q. Well, did you know her five years?

A. Known her five years?

Q. Yes? A. Oh, yes.

Q. Have you known her ten years? A. Yes, sir.

Q. Did you know her at the time this body was brought back to Lawrence? A. Never had spoken to her.

Q. Never had spoken to her then? A. No, sir.

Q. Became acquainted with her afterwards? A. Yes, sir.

Q. Didn't you know her when she was living in Petty's house?

A. I had seen her but had not become acquainted with her.

418 Q. About how long after the body was brought back there before you became acquainted with her?

A. Well I could not state, I ain't positive that some body didn't send her to me.

Q. Well can you give us any idea?

A. Well it was before she had that trial at Leavenworth I know, and I ain't sure then whether it was her came to me, or Mr. Riggs, about it.

Q. Well you have known her since that time, have you not?

A. I have known her by sight ever since I heard Mr. Hillmon was married.

Q. You have been acquainted with her a number of years?

A. Yes, sir, I suppose.

Q. You have had frequent conversations with her?

A. No, sir, I have not.

Q. Haven't you frequently conversed with her during these trials? A. I do not think I have conversed with the lady.

Q. I mean at these trials?

A. I have conversed with her I think about once at each trial, I think at Leavenworth was the first time I had an introduction to her.

Q. You think the first time you met her was at Leavenworth?

A. I think the first time I had an introduction to her was at Leavenworth.

Q. You saw her there at the trial?

A. I saw her just as I have seen her here.

Q. You had a conversation with her in regard to the case?

A. Well I think the first time was just before I got on the stand.

Q. Have you had any conversation with her in regard to the case? A. Yes, sir.

Q. You have conversed with the attorneys between that trial and the third trial?

A. Not often, I have conversed with them but not often.

Q. Now you may state then whether it was either
419 Mrs. Hillmon or Mr. Riggs who came to you and asked you about what you knew?

A. Why I think it was Mr. Riggs.

Q. Well now he wanted to know, I presume, if you were acquainted with Hillmon? A. Yes, sir.

Q. And he further wanted to know if you saw that body?

A. Yes, sir.

Q. And if you identified that body? A. Yes, sir.

Q. And how you identified that body?

A. Well I don't know as he done that, I do not know as he asked all those questions.

Q. Don't think he asked that?

A. No, sir, he merely came down to me and asked me if I was acquainted with Hillmon and I told him the straight thing of it and he had me subpoenaed to go to Leavenworth.

Q. Your recollection is he did not ask you how you identified the body?

A. I do not think he asked me how, I think it was some of the witnesses and they told about me being acquainted when on the stand.

Q. Well I am asking you about Mr. Riggs.

A. I think I told him I was acquainted.

Q. And you told him you saw that body?
A. Yes, sir.
420 Q. And you said it was Hillmon? A. Yes, sir.
Q. And you did not tell him how you knew it,— did he ask you how you could say that was Hillmon?
A. No, he did not.
Q. He did not ask you anything of that kind?
A. He did not.
Q. Now if Mrs. Hillmon came to you did she say who sent her?
A. No she did not, and I do not know whether she came to me or not, I am not positive.
Q. Now are you acquainted with Levi Baldwin?
A. Yes, sir.
Q. How long have you known Levi Baldwin?
A. Oh, I have known him since 1865 I guess, pretty near ever since I came here; in 1865 or 6.
Q. Have you been intimately acquainted with him?
A. No, not intimately, no sir.
Q. How well have you been acquainted with him?
A. Well I have been acquainted just enough to know who he was and talk to him, he lived on a farm just north of where my father lived.
Q. You lived in the same vicinity? A. Yes, sir.
Q. You would see him frequently? A. Yes, sir.
Q. You would see him frequently since the question of whether that was the body of Hillmon came up?
A. I have not seen Mr. Baldwin since the trial at Leavenworth until the other day.
Q. I asked you if you had not seen him frequently since the question of the identity of that body which was at Lawrence was raised?
A. No, sir, I have not seen him very often.
Q. Haven't seen him very often?
A. No, sir, not at that time, he left here about that time.
Q. You saw him at the trial at Leavenworth?
A. Yes, sir.
Q. How many times do you think you saw him between those two times?
421 A. I could not state how many times.
Q. You saw him at the trial, however, at Leavenworth? A. Yes, sir.
Q. Did you disclose to him this fact that you found this mole?

By the Court:
Q. What is the question?

By Mr. Green:

Q. Now have you ever conversed about this case with John Eldridge? A. Mightly little sir.

Q. The question was whether you ever had?

A. I have, yes sir.

By Mr. Green:

Q. Did you say, Mr. Covey, that you saw Hillmon and Baldwin at one time at the bridge? A. I did, yes, sir.

Q. What bridge did you refer to?

A. Lawrence, south end of the bridge at Lawrence.

422 Q. North end of the bridge at Lawrence?

A. South end.

Q. South end of the bridge at Lawrence? A. Yes sir.

Q. Can you tell me when that was?

A. Well that was in about 1879 I think.

Q. About 1879? A. I think so, yes.

Q. What time of the year 1879?

A. I could not tell you, it was not long before he went south I know. It was the last time I ever saw him alive. Levi Baldwin and him was sitting together up on the rail of the bridge.

Q. That was when?

A. It was not long before he was starting away I think.

Q. Mr. Covey where do your father and mother reside now?

A. Live in North Lawrence.

Q. Do they still reside there? A. Yes sir.

Q. And where did this brother reside who may have gone down there with you? A. Dan, he lives in North Lawrence.

Q. How many brothers and sisters have you?

A. I have one sister and seven brothers.

Q. John Eldridge, I understand, married your sister?

A. Yes sir.

Q. And you have seven brothers? A. Yes sir.

Q. Where are they?

A. Well there are some of them at home and some at Lawrence.

Q. How many of them were there? A. All of them.

Q. And were they living there in 1879?

A. Was they there in 1879,—I think not, I think father was in Illinois at the time. Dan and me I think was the only two of us boys that was here at the time, I think the rest was in Illinois.

Q. Was your sister living at that time?

A. My sister was dead at that time.

Q. It is not Mr. Eldridge's present wife? A. No sir.

Q. Now I will ask you this Exhibit "H" (handing

423 defendants' Exhibit "H" to the witness)—do you identify that picture? A. Yes sir.

Q. Look at the picture marked Exhibit "F" (handing the witness defendants' Exhibit "F") and see if you identify that?

A. Well I would not say positively, I think that is Hillmon,—for I do not know, I would not say positively about that one.

Redirect Examination

By Mr. Hutchings:

Q. Mr. Covey, I wish you would state where it was that you first say the dead body in Lawrence, at what place?

A. Bailey & Smith's.

Q. Where is that, in what part of the city of Lawrence?

A. Well it is in the alley in the rear of Massachusetts Street, it is in Block eight.

Q. Which side of Massachusetts Street?

A. It is on the east side. Really the [low] would front on New Hampshire Street, but the little undertaking establishment fronted on the alley at that time, right in the rear of their furniture place is the undertaking establishment.

Q. I will change the question,—at the time that you testified before in this case you may state whether it was in reference to this first visit that you testified?

424 A. Well I testified in regard to the first visit as there was no question asked me in regard to the—

Q. That answers the question,—now I will get you to state whether at the time of that examination, that is upon the trial of this case where you testified as a witness, you answered all the questions that were put to you and which the court permitted you to answer? A. Yes sir. (???)

Q. You may state whether upon that trial, the previous trial of this case you were asked any question relating to any visit or examination of this body except only,—except the first one.

A. No sir.

Q. You may state whether upon that trial at which you testified you were asked any question with reference to any mole upon the person of r. iHllmon.

425 A. I was not.

Q. You may state, Mr. Covey, whether or not you recognized this body as being Mr. Hillmon, before you saw that mole at all? A. Yes sir.

Q. You may state to the jury where it was that you saw the body the second time?

Counsel for defendants object as it is re-examination of something that has been gone over.

By the Court: Yes it has been gone over,—you may answer the question.

By the Court: I understand he examined it at each time at the same place?

By Mr. Hutchings:

Q. Is this correct? A. Yes, sir.

Q. Were you examined as a witness at the Coroner's inquest at Lawrence? A. No, sir.

Q. That is all.

426 Recross examination

By Mr. Green, continuation:

Q. I was about to ask you, Mr. Covey, before adjournment last night some questions in regard to your examination the first time you testified I believe, before Judge Brewer, presiding, do you remember what year that was?

A. I do not know, not exactly.

Q. About 1885? A. I do not know exactly.

Q. You do not know,—now I will ask you, in your direct examination at that time if you remember who conducted your direct-examination?

A. I think it was Mr. Hutchings.

Q. That is Mr. Hutchings, John Hutchings?

A. I think so, yes.

Q. Now I[was]to ask you if on your direct examination he did not ask you this question, "About when did you last see him alive," and did you not answer, "It was in 1879 some time. I seen him and Mr. Baldwin sitting on the bridge the last time I saw them, right at the end of the bridge, and I was coming over with a team. They were sitting there talking. I spoke to them." Do you remember that question and answer? A. Yes sir, I do.

Q. Then the next question, "The bridge at Lawrence," and you answered, "Yes sir." A. Yes sir.

Q. Now the next question, you will remember this being asked, "In what condition did you next see him", and you answer, "I saw the remains of him there at Bailey & Smith's the undertakers." Do you remember that question and answer? A. Yes sir.

Q. And were you further asked this question,

427 "About how long after that", and did you not answer, "I could not say exactly how long it was after that."

A. Yes sir.

Q. Do you remember the further question, "Can you tell about what time of the year it was," and did you not answer, "It was in 1879 some time, but I could not tell the exact time"?

A. Yes sir.

Q. And you were asked then, "Tell whether it was in the spring or fall", and you answer, "It was in March or April, along there some time in the spring I think." Did you make that reply? A. I don't recollect whether I did or not,—

Q. Were you then asked the further question, "Who was present when you saw the dead body", and did you not an-

swer, "Well there was a good many." "I could not name them all. I did not look to see who was present. I just walked in to see the corpse. Ed Monroe was present. He is the only one I remember who was there."

By Mr. Hutchings:
Q. Answer. A. How was that question?

By Mr. Green:
Q. He asked you, "Who was present when you saw the dead body", and did you not answer, "Well there was a good many, I could not name them all, I did not look to see who was present. I just walked in to see the corpse. Ed Monroe was present. He is the only one I remember who was there."
A. I think I answered that question in this way, that my brother and me went in there together and we met Ed Monroe coming out of the building. I think I answered that
428 question that way. It is probable there was a good many in there. I do not recollect who was present, but I think I met Ed Monroe coming out when we went in.
Q. Did you ever testify that your brother Lee went in with you at either of the trials?

By Mr. Green:
Q. Now you may state,—will you read that question to the witness? (Question read). "Did you testify in either of the former trials that your brother Lee

By Mr. Green:
Change that to "Dan".

(Continuation)—Dan went in with you?"
A. I did not to "Lee". I think that I testified that Dan went with me and I think he went with me and I think I testified to it.
A. I do not know whether I did it.
Q. Were you not asked this question on the cross-examination, "Do you remember seeing",—at the same time and place,—"Do you remember seeing Levi Baldwin there at Lawrence at the same time the remains were there", and your answer, "No sir, I do not."

429 By Mr. Green:
Q. You were asked, "Do you remember seeing Levi Baldwin there at Lawrence at the same time the remains were there", and did you answer, "No, I do not."
A. I do not recollect of seeing him.

By the Court: He is not asking you as to the fact, the question is simply, did you testify as he read on the former trial.
A. I do not think I did.

By the Court: Your answer would be you did or did not or do not remember.

A. Well I do not think I saw him.

By Mr. Green:

Q. The question is did you so testify on the former trial?

A. I do not think I did.

Q. I do not think he understands it exactly.

A. Well I say I have no recollection of testifying that I saw Mr. Baldwin.

Q. Then were you asked this question, "Didn't you see him around there?" and to that did you not answer, "No sir, I just happened in with a load of nails, I saw them taking the remains in. I jumped off to see the remains. That is how I came to be there."

By Mr. Green:

Q. Now I will ask the question,—were you asked
430 the question, "Didn't you see him around there?" and did you not answer, "No sir, I just happened in with a load of nails. I saw them taking the remains in. I jumped off to see the remains. That is how I came to be there."

A. I do not recollect saying that I saw Mr. Baldwin there. I got off the wagon and went in to see the remains.

By the Court: Did you testify or not?

A. Well, I do not recollect.

Q. Did you further testify, "Now you identified these remains, did you," and did you not answer, "In my own mind I did." And the further question, "Who was the first person you told in regard to it," and did you not answer, "Ed Monroe."

A. Yes, sir, I think I did.

Q. Were you then asked, "Did they look natural, well preserved, in good order," and did you not answer, "They looked natural to me." A. Yes, sir, I did.

Q. Were you then asked, "Perfectly natural?" and did you answer, "Not perfectly natural."

A. Natural as any dead man.

By the Court: Do not forget what I said to you, state whether you so testified or not. A. I think I did.

Q. Were you not then asked, "The remains were well preserved so that you had no trouble in recognizing Hillmon?" and did you not answer, "I got it down in my head that that was Hillmon," and then were you then asked the question,
"Now by what particular feature, if any, did you recog-
431 nize the remains as being Hillmon," and did you answer, "Nothing any more than I would you?" What do you say? A. What is it?

Q. Were you asked "Now by what particular feature, if any, did you recognize the remains as being Hillmon?" and did you answer, "Nothing any more than I would you?"

A. Yes, sir, I think I would—

Q. And were you then asked, "Did not recognize him by any particular mark?" and did you not answer, "No, sir," and were you asked this question, "It was just an impression you had that these were the remains of Hillmon?" and did you answer, "Yes, I had seen him a good many times."

A. I do not recollect how I answered that question.

Q. And were you then asked, "It was talked over these were the remains of John W. Hillmon," and did you answer, "some said it was and some said it wasn't?" A. Yes, sir.

A. I do not recollect how I answered that question.

Q. Will you say that you did not answer it that way?

A. I say that I do not know, I have no recollection how I answered that question.

Q. And were you then asked, "Don't remember of any marks," and did you answer to that, "No, sir."

A. I do not think I made that answer.

Q. Will you say you did not answer that?

A. I would not say I did not, I do not think I answered in that way.

Q. Now, I would like to ask one or two questions which I neglected to ask yesterday, proper examination, you stated, Mr. Covey, that this body had a shirt on,—will you tell the jury what cloth or character of the cloth that shirt was?

432 A. No, sir.

Q. Do you remember whether it was a woolen shirt or a linen shirt?

A. Well, I think it was linen, I think it was a light shirt, but I would not be positive about that.

Q. Was it linen or cotton? A. I could not say.

Q. Was it what we call a cheviot shirt?

A. I could not tell you. I am no judge of cloth.

Q. Now was the shirt which this man had on a cheviot shirt,—you say you are not a judge of that? A. No, sir.

Q. Was it plain white or was it colored?

A. Well, I should judge it had been a white shirt. It was a light shirt, it was a little soiled, it looked to me as if it had been a light shirt, but I do not remember.

Q. Now, don't you remember that it was what is called a checked shirt?

A. No sir, I do not remember, it was a light shirt, I do not remember what it was.

Q. You are pretty certain that it was not a woolen shirt?

A. I say I do not know. It was a light shirt, I do not remember whether it was cotton or not.
Q. What do you mean by light,—in heft?
A. In color.
Q. Was it a light or heavy shirt?
A. It was not very heavy.
Q. While you were examining there you noticed it?
A. I noticed he had a shirt on, it was a light shirt, soiled.
Q. Well as to the heft?
A. Well, I could not say anything about the heft of it at all, I did not weigh the shirt or anything of the kind. I could not say anything about the heft of the shirt, any shirt.
Q. I do not understand you to say whether this shirt opened in the back or in the front?
433 A. I do not,—I think it was open in the back, but I do not remember positive about it now at present.
Q. That is all.

A. I could not tell.
Q. You knew he was back there? A. Yes, sir.

A. Yes, sir.
Q. Well, do you know what he was doing then?
A. No, I do not.
Q. Well have you any recollection of seeing him, or having anything to do with him, from the time he went to Colorado until you saw him in 1878? A. Yes, sir.
Q. Well when was it, tell us the year?

A. I could not tell what year but he always used to come to me to hire his rigs.

Q. And you think you saw him after he left for Colorado and prior to his marriage in 1878?

A. I cannot remember the dates.

Q. Well you had no intimate acquaintance with him?

Q. Well you are acquainted with Levi Baldwin?

A. Yes, sir.

Q. And you had known him for a long time? A. Yes, sir.

Q. He was living out from North Lawrence? A. Yes, sir.

Q. How far? A. About thirteen miles.

Q. That was in Leavenworth or Jefferson county, do you know?

A. I think Leavenworth county, I do not know.

Q. Well, how long had Levi Baldwin been living there?

A. I could not say.

Q. Now you say you remember of the fact of this body being brought there to Lawrence? A. Yes, sir.

Q. That is of its being there? A. Yes, sir.

Q. And you remember of going down there? A. Yes, sir.

Q. And you remember of Levi Baldwin coming over to get you to go down? A. Yes, sir.

Q. And you lived on the north side of the river and the body was at Bailey & Smith's on the south side?

A. Yes, sir.

Q. And about how far was it, did you say, from your place of business to where this body was lying at the undertakers, half a mile or a mile?

A. Well a short quarter of a mile, well a quarter of a mile.

Q. Do you remember who came with him when Levi Baldwin came over to ask you to view the remains? A. With who?

Q. With Levi Baldwin when he came after you?

A. I do not remember anybody.

Q. And you went over there with him?

447 Q. Prior to that Levi Baldwin told you the remains were down at Bailey & Smith's? A. Yes, sir.

Q. And he told you where to find them, told you to go in the front and go back?

A. No, I do not think he did.

Q. And you went in there expecting to find the remains of John W. Hillmon? A. Yes, sir.

Q. Well do you know who went in with you when you went in?

A. I do not remember who went in with me but there was quite a number going in there.

Q. There was quite a crowd passing in and out?

A. Yes, sir.

Q. There was no appearance of any restriction about people going in there? A. I do not think there was.

Q. Mr. Eldridge, would you undertake to testify to the coarseness or fineness of a man's hair?

A. I would think you had pretty fine hair.

Q. Did you undertake to examine Mr. Hillmon's hair?

A. I would say he had— I never observed anything that was unusually coarse.

Q. You never observed anything peculiar about his hair, that it was unusually fine or unusually coarse?

A. I do not think that there was anything unusual. I simply always admired his hair when he wore it about a certain length and combed it back.

Q. You admired his hair—he wore it kind of long, didn't he? A. Not at all times.

Q. And because you admired it did you say it was of a peculiar character, fine or coarse?

A. I told you that he had a nice head of hair.

Q. He had a nice head of hair, you said that when it was long it—

Q. You do not know your height exactly now, do you?

A. No, sir.

Q. Well, I asked you at that time, the time you testified but you did not know your height?

A. I do not know that I did.

Q. And I understood you to say you do not know your height now? A. No, sir.

Q. Have you been measured here for the purpose of testifying or anything of that sort. A. No, sir.

Q. So you do not know anything more in regard to your height than you did before when you testified that you did not know your height---you know as much now as you knew then?

A. Well I testified about my height.

Q. I asked you if you did not know just as much about your height when you testified before as you do now?

A. I do not know it just to the quarter of an inch.

Q. Now in regard to the length of his foot or anything of that sort—did you say you had any special knowledge of that?

A. I would have had if [had] had an extra small foot or an extra large foot.

Q. But there being nothing peculiar about his feet you never noticed them in the world? A. Oh, yes I would.
Q. But you said you would not have noticed them?
A. I said if they had been unusually small I would have noticed them, or if he had had a very large foot.
448 Q. But because they were neither unusually small or unusually large feet you do not know as to the size of them? A. No, sir.
Q. Well what would you call a very large foot?
A. Well a man of his size?
Q. Well not as to his size, I am asking you what you would call a very large foot, large foot, what number boot?
A. Well, I would call a ten or eleven.
Q. And what would you call a very small one?
A. I do not know.
Q. You only know what you would call a large one and you cannot tell what you would call a small foot and I understood you to say if it had been a small foot you would have noticed it? A. Yes, sir.
Q. Now this is the first time you have ever testified to anything in regard to his feet?
A. I do not remember, I think it is.
Q. You would have remembered any particular peculiarity of his in regard to his feet in 1882 just as well as you do now?
A. I think I would.
Q. And you never testified to anything before in regard to his feet as you said?
A. I said I did not think I ever did.
Q. Now I am speaking about you going down there to view these remains now you were down there and you do not remember who went with you?
A. No, I do not think anybody went in there with me.
Q. Now state the names of any persons whom you saw in there while you were there?
A. Well my goodness I don't know, there was so many.
Q. Well I know but I want you—
A. Why I remember Doctor Fugate being in there and I remember of Smith and Bailey being in there.
Q. There was so many in there it would trouble you to remember all the names, wouldn't it?
A. Well I could not tell you; there were persons going in and out all the time and I didn't think anything about it.
Q. And of that crowd you have testified all the names that you can remember?
A. Well the transfer teams they stopped there I don't know, Dan Covey, he was in there and a lot of his drivers, I don't remember their names.
Q. Was there anybody else?

A. Well I told you there was a continuous stream going in and out there.

Q. Do you remember what day of the week or what day of the month that was that you went in there?

A. I could not tell.

Q. Could you say anything in regard to that?

A. No, sir, I could not.

Q. Do you know anything about how long it was after the body had arrived before you went down there to see it?

A. I do not.

Q. Do you know whether Mr. Baldwin told you when the body had arrived?

A. Why I didn't know the body was in town until they told me that morning.

Q. You mean until Mr. Baldwin told you? A. Yes, sir.

Q. And you do not know anything from what he said how long it had been in town? A. No, sir.

449 Q. It laid there for a day or two?

A. I do not think it did.

Q. State whether it was the first or second day when you went down there? A. I judge it was the first day.

Q. State why you think it was the first day?

A. Why, Levi stopped there with a carriage to go up and bring Mrs. Hillmon down to see the corpse, they stopped there with the carriage just as I came out.

Q. These exhibits twenty and twenty-one are photographs of the cadaver of the dead body that you saw there on that occasion, are they? A. Yes, sir.

Q. Now, Mr. Eldridge, you say that you called that body the body of John W. Hillmon, didn't you? A. Yes, sir.

Q. That is what you called it, ain't it? A. Yes, sir.

Q. Do you mean that was the impression that you had in regard to it? A. Yes, sir.

Q. Going in there under those circumstances—I want to ask you, Mr. Eldridge, if there was any particular mark by which you claim to have identified that body?

A. Nothing more than the general feature of his face.

Q. There was no special mark by which you called that Hillmon? A. No.

Q. I will ask you if you did not say, if you have not stated that these remains didn't look like Hillmon?

A. No, sir, it is not, I said that it did not look like John W. Hillmon the last time I seen him.

Q. Well, it didn't look like John W. Hillmon the last time you saw him, that is a fact?

A. It looked like his nose and cheek bones.

Q. You give those as the reasons why you called him Hillmon—on account of his nose and cheek bones?

A. I could not state but I took that to be Hillmon just as any other man I would see dead.

Q. Well, when you went down there you expected to see Hillmon? A. Yes, sir, I certainly did.

Q. And you had no special marks or means by which you identified it as Hillmon? A. I had no special mark.

Q. This Exhibit "19," you say that is the picture of John W. Hillmon, do you? A. Yes, sir, I do.

Q. And you say that that is the picture of the dead body which you saw down there? A. I do, yes, sir.

Q. And it is your impression that they are the same person, it is? A. It is.

Q. That is your impression in regard to that?

Q. I want this marked, or rather these two, as Exhibit "F" and "G."

By the Court: Are not they those that have been marked?

By Mr. Barker: Have those marked "F" and "G."

Q. Look at Exhibit "G" and state if that is also a picture of John W. Hillmon? A. I should say it is.

Q. Exhibit "G" is a picture of John W. Hillmon?

A. Yes, sir.

Q. And Exhibit "F," look at that? A. Yes, sir.

450 Q. That is also a picture of John W. Hillmon?

A. Yes, sir. Let me look at that.

Q. Yes, sir, look at it all you want? A. Yes, sir.

Q. You should say that was a picture of John W. Hillmon —you have spoken in regard to Mr. Wiseman being over at your place of business? A. Yes, sir.

Q. When was that? A. That was—

Q. Have you any means of fixing it definitely?

A. That was when he became acquainted with Mr. Hillmon.

Q. I wanted to fix the date as definitely as you can when it was? A. I told you I could not fix the date.

Q. Could you fix the month when it was? A. No, sir.

Q. Do you know how long it was before Mr. Hillmon was married, about how long it was before that time?

A. Well, I should say, I should not think it was over a couple of months, I should think it was not over three months.

Q. You should think it was not over three months before Mr. Hillmon was married that Wiseman was over there and had this talk with him? A. Yes, sir.

Q. I will ask you to state, Mr. Eldridge, if heretofore you have not stated simply that it was an impression that you had that was Hillmon, that the remains did not look like Hillmon? A. No, sir.

Q. And that you had no means by which you could identify Mr. Hillmon?

Q. Yes, sir, I have stated that I had no means, no scar or nothing of that kind to identify him.

Q. You never observed anything of that sort upon him?

A. No, sir.

Q. No scars or anything of that kind upon him by which you could identify him? A. No, sir.

Q. Did you make a pretty thorough investigation of that body you saw there? A. No, sir, I did not.

Q. You stood and looked at it?

A. I just stood and looked at it.

Q. Did you examine the hands?

A. I saw the hands there, I looked at them.

Q. But you did not make any examination of the hands besides that did you? A. No, sir.

Q. There are a great many people in North Lawrence you know better than you did Mr. Hillmon and whom you have known a good deal longer? A. Yes, sir.

Q. How close has he lived to you?

A. About a mile.

Q. Lived there during all that time has he not? A. Yes, sir.

Q. What kind of hair has Mr. Westfall so far as the texture? A. The color do you mean?

A. No, by texture I don't mean color, I mean whether it is fine or coarse? A. Well, it is finer than it is coarse.

Q. How does it compare with Mr. Hillmon's hair?

Q. And you said two years?

Q. And when you state that you have known him for eight or ten years you mean you had seen him?

A. I said I had been personally acquainted with him, but the time I had intimate acquaintance with him was when he was herding cattle, not before.

Q. You had not had any intimate acquaintance with him until up to a year or two—? A. Yes, sir.

Q. There is another matter I want to call your attention to and that is your testimony on the former trial of this case. Did I understand you to say that Mr. Wiseman was present when you and Hillmon were measured? A. Yes, sir.

Q. When was that?

A. That was the day that I signed that paper.

Q. Who did the measuring on that occasion?

A. If I remember right, Mr. Wiseman did.

Q. You say that on that occasion Mr. Wiseman measured you and Mr. Hillmon?

A. Yes, sir, we stood right back against the [—] in the office.

Q. That was the same date you signed this certificate as to the length of time among other things which you had known him? A. Yes, sir.

Q. I will ask you if you did not testify on a former trial of this case to wit, on the second trial of this case in Leav-
452 enworth, in answer to the question that you had no difficulty in recognizing these remains as the remains of John W. Hillmon, did you not answer: "It looked to me I thought it was Hillmon."

Q. The question was, "But you had no difficulty in recognizing these remains as the remains of John W. Hillmon," and the answer is, "It looked to me, I thought it was Hillmon."

By Mr. Barker:

Q. Did not you testify in that manner on the second trial of this case in Leavenworth? A. I do not remember now.

Q. You do not remember in regard to that; did you not in answer to the question, "Now, if the remains did not look as John W. Hillmon did when you last saw him how are you able to identify these as being the remains of John W. Hillmon,"

did you not answer, "Because his mouth was open wide when I saw him there in the corpse. He had been shaved with an old razor and hacked up."

By Mr. Barker:

Q. Did you so answer that question? A. How is that?

[A.] Didn't you make this answer to the question, "Now if the remains did not look as John Hillmon did when you last saw him how are you able to identify these as being the remains of John W. Hillmon?" did you not answer, "Because his mouth was open wide when I saw him there in the corpse. He had been shaved with an old razor and hacked up?" Did you not answer that question in that manner?

A. I remember saying about his being shaved but I do not remember of saying his mouth was open.

Q. Well didn't you say it didn't look like Hillmon?

A. I have answered all the time that it didn't look like Hillmon when I last saw him?

Q. Well, in answer to the question, "Well, if the remains did not look as John W. Millmon did when you last saw him how are you able to identify these as being the remains
453 of John W. Hillmon's did you not answer "Because his mouth was open wide when I saw him there in the corpse, he had been shaved with an old razor and hacked up?"

A. I do not remember of ever having answered it in that way.

Q. Cannot say whether you answered it in that way?

A. I have all the time myself said that it did not look as Hillmon did when I last saw him.

Q. Well, didn't you give that as one of the means of identifying him, "because the corpse had been shaved with an old razor? A. That that would be a means?

Q. Yes, sir? A. No, sir.

Q. That is your answer, "that you do not know how you answered the question on that occasion?" Now in regard to this measurement that took place there. I understood you to say you did not make any measurment, it was the agent Major Wiseman that made the measurement of you and Hillmon?

A. I said if I remembered right we were measured that day and I think Mr. Wiseman measured us. I would not say positive. Hillmon might have done it, but Mr. Wiseman was there, and it was done on that day.

Q. That is the only measurement you have any recollection in regard to?

A. That is the only measurement in regard to Mr. Hillmon.

Q. What day was that?

A. I could not tell you. That was the same day I signed that paper.

Q. Where do you live now, did you not say in Oklahoma?
A. Yes, sir.

A. Well, handling horses.
Q. Handling horses and keeping a saloon?
A. I think that is all.

It is admitted by the parties that exhibits 18 20 and 21, referred to in the evidence of H. Covey, John Eldridge, Levi Baldwin, Sallie E. Smith, and any other witness given upon the trial of 1895, are the same exhibits as exhibits 10, 12 and 13, at this trial respectively.

A. I met him on the street in Lawrence with his wife. I was well acquainted with her and she introduced me to her husband, and we stood and talked for some little time. I don't remember whether I seen him after that or not.
Q. Now from your recollection of John W. Hillmon, what in your opinion was his height?

Mr. Barker: To that we object on the ground that he hasn't shown sufficient knowledge of the man to form any opinion in regard to his height. It seems to me that it is incompetent.

The Court: The testimony is competent. The jury is the ultimate of judge of what credence to give it.

To which ruling of the court the defendants and each of them at the time duly excepted and still excepts.

A. Well, I should think he was something like five feet eleven inches high—something like that.
Q. How tall are you? A. Five feet, ten.
Q. You may state whether he was a taller or shorter man than you? A. I should say he was taller.

455 Mr. Barker: To that question we object as incompetent, unless there was some measurement taken or some way of ascertaining that fact.

The Court. He may answer if he knows.
Witness: What is the question.

(Previous question read by the stenographer.)
A. He was taller, in my judgment.

Cross-examination

By Mr. Barker:
Q. You made no measurement of him? A. No, sir.
Q. Or anything of that sort? A. No, sir.
Q. You don't know anything about that so far as any measurement was concerned?
A. Only by my eyes—looking him in the face.

Q. 9. What effects if any were found upon the body?

A. 9. There was a pocket-book containing $25.00 in currency found in the side pocket of pants. The pocket-book contained 2 or 3 letters and I believe a couple of bills of lading of some stock that had been shipped on a railroad and some other papers of miner importance that didn't amount to anything. I think that all that was in the pocket-book. There was a valise found in the wagon represented to belong to him containing wearing apparel.

A. 15. I took charge of everything and placed them in the wagon and brought them to Medicine Lodge.

Q. 16. State what was done with the effects in Medicine Lodge, Kas.?

A. 16. They were left in the wagon until after the man was buried, then I still retained charge of them, wrote a letter to Mrs. Sallie E. Hillmon at Lawrence, Kansas, I just kept possession of the effects until I got word from her. Then I delivered them up to J. H. Brown, wagon and team and everything that was in it.

A. 17. Body was placed in a coffin and buried in the cemetery near Medicine Lodge, Kas.

Q. 22. State if you know who accompanied the body to the cemetery?

A. 22. S. A. Ferguson, William Walt, John Upperman, and possibly Clark Gilmore; I saw these men leave with the coffin, and didn't go myself; hadn't time.

Q. 23. State whether any of the clothing found on the body at the camp was buried with him? A. 23. I think not.

Q. 24. Where did you get the coat in which the body was buried?

A. 24. Got it in a trunk that was in the wagon; I omitted to state in giving the effects before, that there was a trunk with some clothing and I think a comforter or two in it.

Q. 25. State who washed the body and shaved its face?

A. 25. William Walt, John Upperman and S. A. Ferguson.

Q. 26 Please describe as minutely as possible, the place where the camp was located, and the body was found?

A. 26. The camp was located on a little stream; I believe it has been denominated here to-day Crooked Creek; which empties into Elm Creek, and about 12 miles from Medicine Lodge in a northwesterly direction; the camp was located in a kinder of a pocket of a hill, about 50 yards from the stream, in Barbour county, state of Kansas. The country east of the camp in the vicinity is composed of a ridge sloping down to the south; west of it there is a small bottom with a gradual ascent, perhaps for a mile or two; the camp might have been seen from the west and northwest from one to two miles; on the east and southeast a person might have come within 100 yards of it without seeing it. Northeast was also some low hills; a person might come close without seeing it, say 100 or 150 yards; on the north it was more open and could have been seen for probably a half a mile. The ground around the camp fire and wagon was a very good camping place; I see nothing whatever to find fault with about the camping place; the fire was west of the wagon, probably 15 feet from it, and a little below on the lower side of the slope. The body was lying close to the fire; from appearances it might have fallen on the fire, and been pulled off on the south side of the fire, with head to the west, I think.

Q. 27. State whether there was a wagon road or trail near the camp?

A. 27. There was a trail close to the camp, going right up to the creek, the wagon road coming from Hutchinson to Medicine Lodge comes down the ridge, I think not over a half a mile east from the camp.

Q. 28. State whether that portion of Barber county was thickly settled or otherwise?

A. 28. It is about the same there as any other place on the creek. You might take an area of 4 or 5 miles up and down the creek and it is about the same.

464 Q. 29. At the time you delivered the personal effects of the dead man to Brown, who else was present?

A. 29. S. A. Ferguson; that is all except Ferguson's family.

Q. 30. Where was Brown stopping at that time?

A. 30. He stopped at my house during the time he stopped in the county after the man was killed, which was about ten days.

Q. 31. When Brown left your house with the personal effects aforesaid, who if any person or persons, went with him?

A. 31. No person to my knowledge.

Q. 32. State whether you saw him afterwards in Medicine Lodge, with the personal effects aforesaid?

A. 32. I believe I did.

Q. 33. State who was with him at the time you saw him, if any one.

A. 33. There were two men by the name of Baldwin, who went to the graveyard with him.

Q. 34. State whether the dead man had any beard on his face at the time you first saw him? A. 34. I think he did.

Q. 35. Describe it.

A. 35. It was light beard in body, rather inclined to be thin; also mustache was thin; beard (seemed) to be from two to 4 weeks old.

Q. 36. What was the color of his hair?

A. 36. It was what I would call dark, rather inclined to be black.

Q. 37. State whether his hair was straight or otherwise?

A. 37. His hair was inclined to be wavy.

206 Q. Will you describe as well as you can, the shoes, whether they were low or high cut?

206 A. They were not high shoes nor were they low shoes; they were between; that is my impression.

207 Q. Were they laced up, or were they buttoned?

207 A. I do not know.

208 Q. Did you take those shoes into your possession?

208 A. In connection with the other things, I did.

209 A. I delivered them with the other things to J. H. Brown?
210 Q. When and who was present?
478 210 A. I cannot say the date of month. I think about the 28th or 29th of March, 1879, in the presence of S. A. Ferguson and as I said yesterday, perhaps his family. It was at his house.
211 Q. When did you last visit the place where the camp was located, where you first saw Mr. J. H. Brown?
211 A. The 19th of March, 1879.
212 Q. Did you ever see that place more than once?
212 A. I do not know whether I did or not.
213 Q. Did you say that that camp was located upon or near a road?
213 A. I said the road coming from Hutchinson, in my opinion, was not over a half a mile from the camp, and that there was a trail running up the little stream upon which the camp was located, a short distance from the camp.
214 Q. Had this trail near camp that you have testified to the appearance of recent travel?
214 A. Not to any great extent.
215 Q. Had it to any extent; if so, to what extent?
215 A. It had; whether of cattle or horses I cannot tell.
216 Q. Was this trail any more than a cattle path?
216 A. I do not know.
217 Q. Did it have the appearance of having been abandoned, or unused for a long time?
217 A. I stated a moment ago I thought it had been traveled recently by something.
218 Q. From the observations which you made, can you tell by what it had been traveled?
218 A. I cannot; I paid very little attention to it that day.
219 Q. Had it the appearance of having been traveled by wagons? 219 A. Not that I recollect.
220 Q. Do you know from what place to what place this path or trail led?
220 A. It led from Mr. P. B. Briley's place; to what place I know not any more than the range.
479 221 Q. All the country in that vicinity was a range?
221 A. Principal part of it.
222 Q. What direction was the road which you have designated as the Hutchinson and Medicine Lodge road from that camp? 222 A. It is east of it.
223 Q. How far? 223 A. About a half a mile, I think.
224 Q. At this time was there much travel upon that road?
224 A. There was considerable travel upon the road.

225 Q. You had seen the travel upon that road that spring?
225 A. I won't say I had seen any travel that spring upon that road, but I had seen travel upon that road and had been there.
226 Q. Is it not a fact that at that time that road was traveled but very little? 226 A. No, sir.
227 Q. Do you mean to state that the road which you have described as the Hutchinson and Medicine Lodge road was on the 19th day of March, 1879, where it passes nearest to the camp you have mentioned, a much traveled road?
227 A. It was traveled to a considerable extent; I believe the mail from Larned to Medicine Lodge, Kansas, was carried upon that road at that time.
228 Q. Was there any trail or road leading from this Hutchinson road to the place where you saw Brown in camp?
228 A. Not to my knowledge.
229 Q. Is this road of which you speak the main road leading from Hutchinson to Medicine Lodge?
229 A. At that time it was.
230 Q. You are positive in regard to that, are you?
230 A. I think I am; there were other roads, but that received the greater part of the travel.
231 Q. What is the condition of the country between the Hutchinson road and the place where this camp was?
231 A. Principally slope downhill.
480 232 Q. Is there any broken country between the Hutchinson road and where the camp was?
232 A. I presume there were some depressions, but there were no hills rising between the road and the camp. The road was located on a ridge, gradually sloping towards the West, to the valley, about one-half mile from the road; the valley of this branch this camp was located on.
233 Q. In and about where the camp was located, was there gulches, depressions or what we call broken land, or was it level and smooth?
233 A. In the vicinity of the camp there were some depressions; there was one small gulch not a great way from camp, as I best recollect.
234 Q. Which direction was this gulch from where the wagon stood? 234 A. Northeast.
235 Q. How far?
235 A. From 50 to 75 or 100 yards.
236 Q. Was there a knoll between the gulch and the wagon? 236. A. I think there was a small one.
237 Q. How far was the wagon from that knoll?
237 A. Oh, 40 to 50 steps, perhaps.

238 Q. Is your recollection pretty clear regarding distances, or indistinct?

238 A. I think it is tolerably clear. There is a bank on the east of the wagon, that I think was nearer the wagon than the knoll I before mentioned.

239 Q. How close to that bank did the wagon stand?

239 A. Well, perhaps 25 feet; mebby more, mebby less.

240 Q. What is your best judgment regarding the distance? 240 A. 25 or 30 feet.

241 Q. In what direction does the Hutchinson (road) run at that point? 241 A. A little northeast and southwest.

242 Q. Did you notice from the wagon tracks from
481 what direction that wagon came from to that camp?

242 A. I did not.

243 Q. Did you receive a visit from one of the attorneys for the plaintiff in this case at your house last Sunday?

243 A. I believe I did; Mr. Riggs was at my house last Sunday.

244 Q. After the attorneys for the plaintiff on last evening had given notice that your evidence in chief was closed, and a recess was taken until after supper, did you have any conversation with the attorneys for the plaintiff or either of them before you took the witness stand again? 244 A. I did.

245 Q. Was that conversation in relation to that case?

245 A. It was—part of it.

Redirect Examination

By Plaintiff's Counsel, S. A. Riggs, Esq.:

246 Q. In your cross-examination, you spoke of a bank east of the wagon; describe that bank.

246 A. It was a kind of a promontory or point running down from the hill that the soil or ground had been washed away from, leaving it standing higher than the ground on either side.

247 Q. About what was its height and declivity?

247 A. Perhaps from three to five feet high; it could not be very declivitous in that height.

248 Q. You have been asked to state minutely all the personal effects found about the camp; state what other property than that which you have already stated, if any there was, you found in that camp?

248 A. I found a gun there I did not mention before; it was a breach-loading rifle, caliber about 44; I believe other things I have mentioned all of them.

249 Q. What became of that gun; state all and the last you know of it.

249 A. I kept it with the other things, and deliv-
482 ered it up to Brown with them.

250 Q. (This question is ruled out of the deposition and marked "not read.")

[—] Who did you understand to be the owner of the personal effects you say you kept and afterwards delivered to Brown?

250 A. I understood them to belong to J. W. Hillmon.

251 Q. (This question is also ruled out) How did you come to deliver the wagon, team and other personal effects, to John H. Brown?

251 A. By order of Mrs. Sallie Hillmon.

252 Q. In your cross-examination, you stated that when you were at the camp, in the morning, the wagon had bows on it, but no cover; state if you know when the cover was removed?

252 A. In my testimony yesterday, I stated I thought the cover was off, but I now think that it was on when I went there but was taken off in order to have better access to the wagon in putting the dead body in the wagon.

Recross examination

By Defendant's Counsel, Geo. J. Barker:

253 Q. State when, where and under what circumstances you ever saw or conversed with Mrs. Sallie E. Hillmon?

253 A. I never saw her nor conversed with her.

254 Q. (This question and answer are ruled out) The order from her to which you alluded in direct examination was in writing, was it not? 254 A. It was.

G. W. PADDOCK.

Q. 80. Objected to as indefinite, leading and calling for incompetent, irrelevant and immaterial testimony. Objection overruled, the defendants and each of them excepting.

Cross-examination

Q. 401. Objected to because the statement alleged to have been made by the witness Brown is in writing as appears from the opening statement of counsel and from the question

itself; and for the further reason that it is admitted by the defendants, through their attorneys, in open court that they have in their possession the paper writing alluded to in the question, and that it does not appear that the same was shown to the witness, John H. Brown, while he was giving his deposition, and calls for incompetent testimony, oral evidence not being competent, all such statements appearing to be in writing.

Objection sustained with the provision that if the original instrument is produced or its loss accounted for, the objection will be overruled. To which ruling the defendants and each of them excepted.

Q. 402. Same.
Q. 403. Same.

Q. 412. Same.
Q. 413. Same.
Q. 414. Same.
Q. 622. Same.
Q. 763. Same.

And in addition to the foregoing objection, the following: Because the question is improper in form, being put in the alternative, and because it purports to represent the contents of a written statement which was not exhibited to the witness, and because no proper foundation has been
484 laid for the examination. Objection sustained, the defendants and each of them duly excepting.

Q. 773. Same objection, ruling and exception as last above.
Q. 774. Same.
Q. 775. Same.

The following questions and the answers thereto were withdrawn:

The defendants and each of them offered to withdraw questions numbered 1378 to 1397, both inclusive, to which the plaintiff objected and the court refused to permit; to which ruling the defendants and each of them duly excepted.

By permission of the court, the plaintiff withdrew question numbered 77 on re-examination; to which the defendants and each of them objected, which objection was overruled, the defendants and each of them duly excepting.

During the reading of said deposition, and in connection with question 1377, the defendants and each of them offered in evidence the original of the letter purporting to be set out in question 1378, and also on pages.....of this record. This is the letter referred to in the evidence of J. W. Green, Reuben Brown, Wm. J. Buchan and the plaintiff and commonly known as the "Where is John" letter.

The objections written in the body of, and at the time of the taking of, said deposition are waived except as specifically renewed at the time of the reading of said deposition at this trial of these causes.

Q. 49. State what transpired that evening or afternoon in relation to Hillmon?

A. 49. Well, there was nothing more than usual that afternoon. He had the gun out and was a shooting around there towards evening or after the middle of the afternoon. I judge it was not more than an hour by sun. He was shooting from camp at some little bushes. It was in a westerly direction. Shot two or three times at the object he was shooting at. Quit shooting then and put the gun in the wagon loaded, unbeknown to me whether the gun was loaded or not. Set the gun in the wagon from the side of the wagon, with the breach of the gun in the wagon and the muzzle sticking out on some blankets or by the side of some, and left that way; and then we prepared for supper—or I did mostly myself—got supper ready and eat. Sit around camp until bed time. I went then to prepare to get ready to go to bed. I went to the side of the wagon to take out the blankets, or bedding, and the gun was in the way. I catched hold of the gun to take it or pull it out of the wagon, the lock of the gun catched on something as I went to pull it out of the wagon and the gun went off and shot John Hillmon through the head.

Q. 50. What did you do then?

A. 50. I dropped the gun and grabbed Hillmon as he was falling, and I rather moved him as well as I remember from the fire, as I rather thought he was or would be in danger of falling in the fire, and then I got a pony, went down to a house about three-quarters of a mile from the camp and told him what I had done.

Q. 51. Told whom?

A. 51. Told the man that was living there what I had done, and wanted help; and I think he asked me to wait till after supper or wait for him awhile. I told him no I was alone and I wanted help, so he came right along with me back to camp.

Q. 52. What condition was Hillmon in when you got back to camp?

A. 52. He was laying on the ground by the fire dead.

Q. 53. Do you remember the name of the man who went back to camp with you, and if so state what it was?

488 A. 53. I don't remember the name for certain. I think it was Graves.

Q. 54. After you got back to the camp what was done?

A. 54. He told me to stay there until he went and got some neighbors to come.

Q. 55. Was this the same man that was at the camp in the morning?

A. 55. Yes, sir, the same man.

Q. 56. Did any of the neighbors come afterwards?

A. 56. Yes, sir.

Q. 57. How many came, and when did they come?

A. 57. Three or four came afterwards in an hour and one-half; to the best of my memory, it was about that time.

Q. 58. What did they do after they came?

A. 58. Set around the fire and keep up a fire all night, and got up some wood.

Q. 59. Did the first man that came return again that night, I mean the man that you went after?

A. 59. Yes, sir, the same man, that night.

Q. 60. How many of them remained all night?

A. 60. Three or four of them.

Q. 61. Was the body removed or put in any different place that night? A. 61. No, sir.

Q. 62. What was done the next morning?

A. 62. Mr. Paddock held an inquest and examined the corpse; searched his pockets and the things he had on him; then they examined the wagon and clothing and the trunk and the hand valise, and searched me, myself; and then they taken the body and put it in the wagon, and myself, the body and the team, and everything belonging with the outfit was in charge of Mr. Paddock and Mr. Watt, if I remember the name right, and went to Medicine Lodge. And then they had another jury, or inquest, I should say, and they taken the body and put it in a house there and kept it over night. The next morning it was washed, shaved and dressed, and was put in a coffin and taken to the burying ground and buried. Mr. Paddock taken charge of the team and everything belonging with it, and taken it home, and I went with him. I stayed with him for several days, and then Mr. Paddock brought the team to Medicine Lodge, and I rode with him; met two of the Mr. Baldwins there from Lawrence. I went back the same day, home, with Mr. Paddock, and came back to Medicine Lodge the next morning; stayed in Medicine Lodge all day, from the time I got there, and all night. The next day I was getting ready to go out to the grave with the two Mr. Baldwins.

Q. 63. Did you go out to the grave? If so, with whom did you go?

A. 63. I went out to the grave with the two Mr. Baldwins, and one or two other men.

Q. 64. What was done when you got to the grave?

A. 64. The body was taken up and brought to Medicine Lodge and was put in a house there, and layed there over night, and the next day started with the team and body to Lawrence, Kansas.

Q. 65. How did you start with the body?

A. 65. Started with it in a spring wagon, with the body in a coffin; took it to Hutchinson, Kansas, and put it on the cars.

Q. 66. Who had charge of the body from Medicine Lodge to Hutchinson, Kansas, where you shipped it?

A. 66. Levi Baldwin and his brother.

Q. 67. How did you go to Lawrence from Hutchinson?

A. 67. I went on the cars.

Q. 68. What did you do with the team and wagon and other things at Hutchinson when you left for Lawrence?

A. 68. The team and wagon was left in charge of Albert Baldwin, Albert, I believe was his name; the other things were taken on the cars.

Q. 69. What time did you arrive in Lawrence?

A. 69. Early in the morning.

Q. 70. What was done at Lawrence.

A. 70. The coffin was taken up to an undertaker's, and I went to the Lawrence House to breakfast. I don't know what was done with the body or coffin that day. I was summoned as a witness to appear at the court house.

(The defendant moves to strike out all of the witness' answer, commencing with the words, "I was summoned" for the reason that it is not responsive to any question and is incompetent as evidence.)

Q. 71. Did you appear at the court house and give testimony?

(The defendann objects to the foregoing question as calling for irrelevant, incompetent testimony.)

A. 71. Yes, sir.

Q. 72. After giving your testimony, where did you go?

A. 72. I went to Wyandotte, to my home close to Wyandotte.

Q. 73. Where have you been since that time.

Q. 74. Where is Platte County, Missouri?

A. 74. Right across the Missouri river north of Wyandotte County, Kansas.

Q. 75. Where have you been in Platte County, Missouri, and what have you been doing there?

(The foregoing question is objected to by the defendant because it calls for incompetent and immaterial testimony.)

A. 75. I have been working for W. J. Fulton, railroad contractor, contractor for lumber and piling and wood, until the last five weeks or six. Since then I have been working for Smith & Pitztel, walnut lumber men.

Q. 76. While you were working for W. J. Fulton, where were you?

(The foregoing question is objected to by defendant because it calls for incompetent and immaterial testimony.)

A. 76. I was in the neighborhood of Parkville, Platte County, Missouri, and the rest of the time near Smithville, Clay County, Missouri.

Q. 77. Where were you while you were working for Smith & Pitztel?

(The defendant objects to the foregoing question because it calls for incompetent and immaterial testimony.)

A. 77. Part of the time in near Smithville, about five miles from Smithville, Clay County, Missouri, and part of the time in Platte County, near the line.

Q. 78. How far from Wyandotte, Kansas, is each of the places, Smithville and Parkville?

(The defendant objects to the foregoing for the reason that it calls for incompetent and immaterial testimony.)

A. 78. Parkville about seven miles straight across the river, Smithville, about twenty.

Q. 79. What work have you been engaged in at those places?

(The defendant objects to the foregoing question for the reason that it calls for incompetent and immaterial testimony.)

A. 79. The first work I done on Fulton's job was driving my brother's team, hauling logs, piling and wood and lumber, next driving Mr. Fulton's team, hauling the same kind of material. The next for Smith & Pitztel, I had charge of their work, his men and teams, hauling and chopping and shifting their lumber from the mills to Platte City.

Q. 80. What was the purpose of the last trip you made with Hillmon, from Wichita around through Medicine Lodge, Sun City to the place where you say Hillmon was shot?

(The defendant objects to the foregoing question because it is indefinite, leading and calls for incompetent, irrelevant and immaterial testimony.) (Overruled Oct. 20, '99.)

A. 80. It was for the purpose of finding a stock ranch, suitable with range and water, without getting too close to the farmers around on the creeks.

Q. 81. About what time in the evening was it that you took the gun out of the wagon when the lock caught, and the gun went off, shooting Hillmon in the head?

A. 81. It was about sunset or a little after.

Q. 82. Have you contemplated leaving Missouri, and do you now contemplate doing so before next June?

(The defendant objects to the foregoing question because it calls for incompetent and immaterial testimony.)

A. 82. Yes, sir, that is my calculation.

Q. 83. Where do you intend to go?

A. 83. I was calculating on going to Colorado.

Q. 84. About how far from the city of Leavenworth in Kansas?

(Objected to by plaintiff's counsel on the same ground as the last preceding question, and also for the reason that the question calls for hearsay evidence.)

A. 337. Not that I know anything of.

Q. 338. On the 4th day of April, A. D. 1879, in the office of George J. Barker, in Lawrence, Kansas, were you not shown a postal card from Griffin, Texas, directed to Mr. Brocklesby, city marshal of Lawrence, inquiring if a man by the name of Hillmon lived in Lawrence, and stating in substance that he had a difficulty with reference to a train of cattle, also stating that Hillmon formerly lived near Grass Hopper, and if you were not asked if Hillmon was ever at Griffin, Texas, and if in reply thereto you did not state that he, Hillmon, had been at Griffin, Texas, and that you was with him there?

(Objected to by plaintiff's counsel. First, because the question calls for immaterial, irrelevant and incompetent testimony. Second, because the subjects of inquiry are not proper subjects of cross-examination. Third, because the question is leading. Fourth, because the question calls for the oral statement of the contents of a written instrument which is not the best evidence of such contents. Fifth, the question contains inquiries as to several separate and distinct subjects. Sixth, if the question is asked for the purpose of obtaining an answer from the witness to be contradicted it is incompetent, because the subjects of inquiry are immaterial to the issues in this case.) (Objection sustained.)

A. 338. I don't have any knowledge of anything of the kind, or being shown anything of the kind; and as stating whether I said he was ever in Griffin or I ever met him there or not I don't remember.

Q. 341. How much did he receive from the sale at Trinidad?

(The defendant moves to strike out all of witness' answer in reference to hogs for the reason that it [—] not in responsive

to the question; it is simply the uncalled for statement of the witness.)

Q. 377. Did you not on or about the 5th day of April, A. D. 1879, in the office of George J. Barker in Lawrence, Kansas, state in his presence and in the presence of others, "We arrived at Pueblo last of August, 1878; he paid me off there, stayed in Pueblo only a few days whence we came direct home."

(Objected to as incompetent, being an attempt to impeach the witness by proving different statements in relation to an immaterial matter, and as irrelevant, immaterial and not legitimate cross-examination.)

A. 377. Yes, sir, I made a statement similar to that, but as to the date of the year I must have been mistaken at that time.

Q. 378. After your visit to Lawrence in November or December, 1877, as you have stated, when did you next go up there?

A. 378. I went up there in the month of December, if I remember right, a while before Christmas?

The further taking of these depositions is on account of the arrival of the hour of adjournment postponed until to-morrow morning at 9 o'clock.

[Seal] HENRY McGREW,
Notary Public.

My commission expires April 21, 1883.

January 4th, 1881.

January 5th, A. D. 1882. The further taking of these depositions is hereby resumed pursuant to adjournment.

Q. 396. Was this visit to Lawrence which you have mentioned as being about Christmas, 1877, the time referred to, by you, in your direct examination as being the time when you was employed by Hillmon to go southwest from Wichita with him to hunt up a cattle ranch?

A. 396. Yes, sir, that was about the time; soon after I was under his employ.

Q. 397. Was the contract of employment made between you and Hillmon during that visit of yours to Lawrence?

A. 397. Yes, sir, it was at that time, the year 1878; if I stated it was in 1877 I was mistaken.

Q. 398. Is it a fact that you were employed by Hillmon at that time for the purpose of going with him to hunt a cattle ranch, and for no other purpose?

A. 398. It was for no other purpose; no specified price for labor until he located a stock ranch, only to bear my expenses.

(The defendant moves to strike out all of the foregoing answer of the witness except the words, "It was for no other purpose," for the reason that the rest of said answer is not responsive to the question, but is simply the uncalled for statement of the witness.)

Q. 399. When did you and Hillmon leave Lawrence?

A. 399. A few days before Christmas, as well as I can remember.

Q. 400. In what year?

A. 400. In 1878, if I remember right.

Q. 401. Did you and Hillmon leave Lawrence at that time for the sole purpose of hunting a stock ranch, or was that the ostensible purpose?

A. 401. It was for the purpose of locating a stock ranch and hunting one; that was our only purpose.

Q. 401. On or about the 4th day of September, A. D. 1879, in Platte County, State of Missouri, in the presence of W. J. Buchan, of Wyandotte, Kansas, did you not make the following statement, to wit: "Along about the 10th of December, 1878, John W. Hillmon, Levi Baldwin and myself talked about and entered into a conspiracy to defraud the New York Life Insurance Co., and the Mutual Life of New York out of some money, to be obtained by means of affecting a policy or policies on the life of said John W. Hillmon; Baldwin was to furnish the money to pay the premiums and to keep up the policies in case they had to be renewed. Our orginal arrangement was to get Hillmon's life insured for fifteen thousand but it was afterward changed to twenty-five thousand dollars. Hillmon and myself were to go off southwest from Wichita, Kansas, ostensibly to locate a stock ranch, but in fact to in some way find a subject to pass off as the body of John W. Hillmon, for the purpose of obtaining the insurance money aforesaid. We had no definite plan of getting the subject, but to in some way get one, the final termination of the matter was the last idea thought of. Our first trip out from Wichita the last days of December, while the snow was on the ground, we expected to find a subject, that would appear to be Hillmon, frozen to death, and that could not be identified only by the clothes and papers found upon it, and so could pass off as

Hillmon. We went from Wichita to Medicine Lodge, then direct to Sun City, from there to Kinsley, from there to Great Bend on the Santa Fe road, thence to Larned and on to Wichita via Hutchinson; Hillmon and myself were entirely alone on this trip. Iliff of Medicine Lodge saw Hillmon on this trip. We put up at his stable," and did you not at said time and place, sign a written statement and swear to the same before one Francis M. McDonald, a Notary Public, and did not said statement in writing include the statement embraced in this question?

(Objected to by plaintiff's counsel on the ground of incompetency, because the original statement being in writing and in the possession of the defendant is the best evidence, and should be produced, shown to the witness and offered in evidence.)

A. 401. Myself and Buchan, together, made such a statement similar to that at my brother's in Platte county. Don't think the statement included over half as much as this. I signed it or swore to it in Parkville, I don't remember which, with the understanding that that paper should never be used in law, and couldn't be used. He only wanted it to show to the insurance men and no one else, and was to hand it back to me and I was to destroy it myself, and I done so. He said he only wanted this statement from me to show to the insurance men in order that he should get his pay for his work, stating that the statement was not lawful and wouldn't injure me hereafter any more at all, and if I didn't the insurance men would hunt me down and have me put in the penitentiary for murder, and by doing this I would be released from any other trouble from them.

508 (The defendant moves to strike out all of the witness's answer commencing with the words—with the understanding—for the reason that the same is not responsive to any question, but is simply the uncalled for statement of the witness, and because the understanding and that portion of the statement of the witness is not competent evidence and is irrelevant to any issue in this case.)

Q. 402. Did you not both sign and swear to the statement in writing, to which your attention has been called in question 401?

A. 402. Don't remember whether I did or not.

M. McDonald and in what business was he engaged?

isfied.

nald's office?
. 408. He done a little writing, I believe, and looked on
e map to find for the county of Kingman and the town of

ent he and I had there. That was all the business that I
ow of that we was there for.

nd which is contained in question 401 of this deposition?

Q. 413. State definitely what portion, if any, of the state-
ment contained in question 401 was not included in the state-
ment or paper which you have testified to signing or swearing
to in McDonald's office?

(Objected to by the plaintiff as incompetent, for the reason that the original paper which was signed or sworn to is in the possession of the defendant or its attorneys, and can and should be produced for identification by the witness, and as the best evidence in this case and as otherwise incompetent.)

A. 413. Can't testify definitely. I don't remember.

Q. 414. Did you not, at the time and place mentioned in question 401, make the following statement to said Buchan: "Hillmon and myself were to go off southwest from Wichita, Kansas, ostensibly to locate a stock ranch, but in fact to in some way find the subject to pass off as the body of John W. Hillmon, for the purpose of obtaining the insurance money aforesaid;" or did not the statement or paper which you have testified to signing or swearing to in McDonald's office contain said statement?

A. 610. Mr. Hutchings, Mr. Riggs and myself.

Q. 611. Have you had any conversation with any person since that time in regard to the testimony of said witnesses at Medicine Lodge, or in regard to the testimony of any of them. A. 611. No, sir.

Q. 612. When the team was standing near the post office in Medicine Lodge, upon which side of the street was it standing and in which direction was it facing?

A. 612. Standing on the east side of the street, facing a northerly direction.

Q. 613. Nearly opposite from the post office were vacant lots, and across these lots the road ran, leading up Medicine river in a northwesterly direction, did it not?

A. 613. The road lead northwest from Medicine Lodge after you get out of town a little ways. I don't know whether the road led in a northwesterly direction across these lots or not. There were some vacant lots there.

Q. 614. Did not this road leave the main street in Medicine Lodge near Updegraff's hotel?

A. 614. Not that I know anything of.

Q. 615. Were there not vacant lots immediately north from Updegraff's hotel, up the street for some distance?

A. 615. There were some, but how many I can't tell anything about.

Q. 616. Was there not a street or road or traveled way running from near the southeast corner of said lots, near the Updegraff hotel, in a northwesterly direction across said lots?

A. 616. I don't know anything about them cross corner lots road. I don't know anything about it.

Q. 617. Describe the place where you camped that night after passing through Medicine Lodge; state the distance and direction it was from Medicine Lodge.

A. 617. Camped on the Medicine Lodge river, close to a farm house, where the road left the Medicine Lodge bottom road, and bore up on the ridge 8 or 10 miles northwest of Medicine Lodge.

Q. 618. What time did you get there.

A. 618. Early in the evening.

Q: 619. Before or after sundown.

A. 619. Before sundown.

Q. 620. Was the stranger whom you and Hillmon invited to ride with you about two and one-half to three miles from Wichita, and who was with you at the camp at Cow Skin, with you at this camp last spoken of? A. 620. No, sir.

Q. 621. Was he with you at the place where you camped the night previous to this time? A. 621. No, sir.

Q. 622. Did you not on or about the 4th day of September in 1879, in Platte county, State of Missouri, sign a written statement and swear to the same before one Francis M. McDonald, a Notary Public, at Parkville in said county and state, which statement contained the following statement: "We got there about an hour before sundown and stayed in camp until the next evening. We overtook a stranger on this trip the first day out from Wichita, about 2 or 2½ miles from town, who Hillmon invited to get in and ride, and who, he, Hillmon, proposed to hire and work for him on the ranch as proposed to be located. This man was with us during all this trip. Hillmon proposed to me that this man would do for a subject to pass for him. I told him and contended with him that the man would not do to pass off for him, giving him various reasons why the man would not answer his description, and complained and objected because his proposition was to take the man's life, and I protested and said that was going beyond what we had agreed and something I had never before thought of, and was beyond my grit entirely, but Hillmon seemed to get more deeply determined and more and more desperate in the matter. Pains were taken not to have more than two of us seen together in the wagon; sometimes one and then the other would be kept back out of sight. On his trip up to Lawrence Hillmon was vaccinated; his arm was quite bad. Hillmon kept at the man until he let him vaccinate him, which he did, taking his pocket knife and using virus from his own arm for the purpose. He also traded clothes with him, Hillmon first giving him a change of underclothing, then traded suits, the one he was killed in; the suit he was buried in was a suit Hillmon traded with Baldwin for. The man appeared to be a stranger in the country; a sort of easy go long fellow, not suspicious or very attentive to anything. His arm became very sore and he got quite stupid and dull. He said his name was either Berkley or Burgess, or something sounding like that; we always called him Joe. He said he had been around Fort Scott awhile, and also said he had worked at Wellington or Arkansas City. I don't know where he was from or where his home or friends were. I did not see him at Wichita that I know of. I had but very little to say to the man and less to do with him. He was taken in charge
518 by Hillmon and yielded willingly to his will. I dreaded what I thought was to be done and kept out of having any more to do with him than possible. I frequently remonstrated with Hillmon and tried to deter him from carrying out his intention of killing the man. The next evening after we got to the camp last named, the man Joe was sitting by the fire; I was at the hind end of the wagon either putting feed in the box for the horses or taking a sack out, when I heard a

gun go off. I looked around and saw the man was shot, and Hillmon was pulling him around to keep him out of the fire."

[A.] (Objected to by the plaintiff for the reason that the original statement is in the possession of the defendant and its attorneys and should be produced for identification by the witness and to enable him to refresh his recollection as to the statement he did sign, if any, and for the further reason that the question does not, and does not pretend to embody the whole of the statement which it is claimed the witness made at the time and place stated in the question, and because the witness is fairly entitled to an inspection of the entire statement before being compelled to testify in relation thereto, and because the question is otherwise incompetent, irrelevant and immaterial, and the plaintiff hereby formally demands a full and accurate copy of said pretended statement in order that she and her attorneys may be fully advised as to the nature and extent of said pretended statement in order to intelligently examine this witness in relatoin thereto.)

A. 622. I signed or swore to a statement that Buchan and I made out, but what the contents were I don't know anything about now, and as to this being the statement, I don't have any recollection or thought about it; he done all the writing and getting up of the paper. I gave him the details of our trip down there and back; told him who was with us after leaving Wichita at the camp there. He said he could fix it so he could make it appear to the insurance company that he and I could kill this man and pass him off for Hillmon. He first stated that he could make it appear that he froze to death or killed some way. After I told him of this man that camped with us at Cow Skin, then he said that he could make it appear that this man was killed instead of Hillmon, and stated in his paper in writing to that effect, and by me consenting to do this would insure me that I would never have any trouble about it from that time on, and if I didn't the insurance men would hunt me down and penitentiary me for murder, and that they had plenty of money, and never calculated to paying the woman her money, and it would enable him to get big pay for this paper, and that if I needed any money or anything he would give me all I wanted. I told him as to the money that it was not that I was wanting at all; all I wanted was to be freed from the insurance company, as he had often told me, before this, that they had been after me all the time or a wanting me, to arrest me and put me in jail, and that it was through him, that he had been keeping them off of me.

At this point and before the witness had finished his answer to the question the counsel for plaintiff asked of the Notary the time of day, to which the Notary answered, "Ten minutes past 6 o'clock." Counsel for plaintiff then asked for an adjournment, to which counsel for defendant objected until witness should finish his answer. To this plaintiff's counsel objected and refused to proceed further at this time, thereupon the further taking of these depositions was by the undersigned Notary Public adjourned until to-morrow morning at 9 o'clock.

My commission expires April 21, 1883.

[Seal] HENRY McGREW,
Notary Public.
January 6th, A. D., 1882.

Saturday morning, January the 7th, A. D., 1882. The further taking of the dispositions is hereby resumed pursuant to adjournment.

(And now plaintiff's counsel objects further to the question last asked the witness, for the reasons: That it calls for the contents of a written instrument which should first be produced and proven and which would then be the best evidence of such contents. Second, Said question is leading and is not a proper question for cross-examination. Third, The paper speaks for itself and the contents can not be proven by parol or secondary evidence until its loss is duly shown. Fourth. The plaintiff demands the production of the original instrument so that she or her attorneys may inspect the same in order to ascertain whether it is subject to any legal objections, and, if so, that they may have an opportunity to make such objections, if any exist, before said statement or its contents [or] put in evidence. Fifth, That the evidence called for is immaterial and irrelevant.)

(Defendants counsel objects and protests against any further objections being interposed until the witness shall have fully completed his answer to the question, and here asks that the deposition show that this objection and protest were made before the said objection of the plaintiff were interposed and now moves to strike out the objections of said plaintiff.)

The plaintiff's counsel now asks that the question be read to the witness before he is required to make further answer, which then is accordingly done, which makes the second time the said question had been read to the witness in full by me, the Notary, since the commencement of the taking of the depositions on this day.

That is my answer; that is sufficient. I don't know anything about what the statement was I signed or swore to.

Q. 623. Since the adjournment of last evening have you had any conversation with any person, concerning this case, or concerning your evidence in this case?

519 A. 623. No, sir, I have not.

Q. 624. Were you not called out of this office this morning by D. B. Hadley, Esq., and at his request did you not go to his office and there meet him and some of the other attorneys in this case?

A. 624. I was called out by D. B. Hadley this morning; I didn't go to his office or didn't meet any one or talk with them concerning this case or concerning anyone interested in this case.

Q. 625. Did you have any conversation with said Hadley concerning this case or any matter connected with it?

[A. 625.] The defendant's counsel here asks the Notary Public to make the follow- entry: "John Hutchings, Esq., stated in the presence of the witness the best way to answer this question is by telling what was said, to which statement the defendant's counsel then and there objected and asked to have the same taken down, entered by the Notary."

John Hutchings, Esq., desires to make the following statement and have it entered by the Notary: "He says he can see no reason why the witness should not state what was said between him and Mr. Hadley or any other person in regard to this case, if the plaintiff or any other person makes no objection thereto; if the witness states what was said it will then be seen whether any proper communication had been had, and for the plaintiff he consents that the witness may state fully all that was said between him and Mr. Hadley or any other person since the adjournment of the taking of these depositions last evening, or any conversation that the witness may ever have had with him, the said Hutchings, in regard to this case." To which defendant's counsel replied and asked to have the same taken down by the Notary, that upon the cross-examination of this witness they are entitled to have direct answers from the witness without his being directed therein by suggestions from plaintiff's counsel. To which plaintiff's counsel agree and say they will try to make their conduct conform thereto.

A. 625. I had a few words with Mr. Hadley. He asked me if Buchan gave me them papers; I told him he hadn't; he asked me a second time if I got them; I told him I hadn't. This was about the substance of it.

(The defendant moves to strike out all of the witness' last answer from the words, "He asked me," for the reason that

the remainder of said answer is not responsive to the question, but is the uncalled for statement of the witness simply.)

Q. 626. Did Mr. Hadley take you from this office, across the street to the building in which his office is situate, this morning? A. 626. I went over there with him; yes, sir.

Q. 627. Did you meet Mr. Hutchings in that building this morning? A. 627. No, sir.

Q. 628. Did you not on or about the 4th day of September, A. D. 1879, near Parkville, Platte county, State of Missouri, tell said Buchan, in substance: "This man was with us during all this trip; that this was the man Hillman shot," and did you not tell him, in substance, that you did not kill Hillmon, but that Hillmon killed the stranger who got in to ride with him, about 3 miles out from Wichita, on the first day out on this trip?

Plaintiff's counsel asks the following preliminary question:

Q. 629. Was W. J. Buchan, at the time referred to in the last question by defendant's counsel, acting as your attorney?

(To which question the defendant objects as being irregular in order, and an improper question to ask at this time, and because it is otherwise improper, incompetent, irrelevant and immateral and asks that the Notary direct the witness to first answer the last question asked him by defendant's counsel, which the Notary then and there refuses to do; to which action of the Notary the defendant then and there accepts.)

Answer to preliminary question number 629:

A. 629. Yes, sir; that is what he told me.

(The plaintiff's counsel objects to the question of defendant's counsel number 628, for the following reasons: First, That the statements called for by said question, if made at all, were made to said Buchan when acting as attorney for the witness. Second, because it already appears that whatever statements were made by the witness to Buchan at that time, or consented to him, were reduced to writing and signed by the witness, which writing is the best evidence, and the plaintiff's counsel demand that said writing be here produced.)

A. 628. Didn't have any knowledge of knowing what the statement was at this time.

Q. 630. Did you not at the time and place in the last question, to wit, in question 628, mentioned tell said W. J. Buchan, in substance, that you did not kill Hillmon, but that Hillmon killed the man whom you have called the stranger, and that you tried to prevent and keep said Hillmon from killing the man?

(Objected on same ground as the question last above.)

A. 630. I don't have any knowledge at present of telling Buchan anything of the kind, but told him time and again before that, that I killed Hillmon accidentally, and that I didn't see how that he and I could make out that we killed him in any other way.

520 (The defendant moves to strike out all of the last answer of the witness commencing with and including the words, "but told him," for the reason that said answer is not responsive to the question, and is simply the uncalled for statement of the witness.)

Q. 631. Do you swear now that you did not tell said Buchan, at said time and place, in substance, what is mentioned in question number 630? Here notary reads the question again to the witness.

(Objected to by plaintiff on same ground as the question last preceding.)

A. 631. I will swear that I told Buchan that I didn't do anything of the kind.

ntentionally or by accident. I was excited.
Q. 710. How far from the wagon did the gun fall?
A. 710. Fell almost between the fore wheel and hind wheel.
don't suppose it was a foot from the wagon.
Q. 711. In which direction from the wagon did the gun lie?
A. 711. I don't remember.
Q. 712. Do you know whether the gun lay with the breech
or muzzle toward the wagon?
A. 712. I don't know just how the gun did lay.
Q. 713. Was the gun laying on the ground with its breech
or muzzle toward the wagon?
A. 713. I don't remember just how the breech or muzzle
of the gun did lay from the wagon.
Q. 714. Did either end of the gun point toward the wagon
or was the gun laying parallel with the wagon?
A. 714. I don't have any knowledge now of remembering
of how the gun did lay on the ground.

Q. 715. When did you remove that gun from where it fell?

A. 715. I didn't remove it at all myself as I remember of.

Q. 716. When and by whom was the gun removed, and what was done with it?

A. 716. Don't know just when the gun was removed; the men that came there that night or the next morning picked the gun up and was looking at it. I don't remember who it was.

Q. 717. Do you know who first picked the gun up?

A. 717. No, sir.

Q. 718. After taking hold of the gun at the wagon, what did you next do?

A. 718. I went to pull it out of the wagon.

Q. 719. What next?

A. 719. I pulled the gun out of the wagon and it went off.

Q. 720. What did you then do?

A. 720. Catched Hillmon, as I thought he was falling in the fire, and layed him on the ground.

Q. 721. Where abouts did you seize him—that is upon what portion of his person?

A. 721. About his shoulders or arms, if I remember right.

Q. 722. What was his position with reference to your own? How far was he from you, and in which direction was he facing at the time you caught him?

524 A. 722. He was standing behind me as well as I remember. I turned to catch him as he was sinking down, and as I catched him I was standing at the side of him as well as I remember.

Q. 723. When you turned to catch Hillmon, in which direction was he facing?

A. 723. I don't remember which way he was facing.

Q. 724. When you turned to catch Hillmon, how far was he from you?

A. 724. I don't know; he was standing between me and the fire. I don't think it could have been two feet at the outside from me, if that far.

Q. 725. How far was you from the wagon?

A. 725. I don't know just how far; it couldn't have been over a foot and a half.

Q. 726. In catching Hillmon did you take a step in advance? A. 726. I don't remember whether I did or not.

Q. 727. In what part of the wagon was this gun sitting?

A. 727. About middle ways of the wagon from the ends.

Q. 728. To catch Hillmon to save him from falling, did you have to take a step in advance?

A. 728. I don't remember whether I did or not; I took several steps after I caught him. As I caught him I swung his body off from the fire, and it took several steps to swing his body away from the fire.

Q. 729. When you finally layed him down, where did you place the body with reference to the wagon and the campfire?

A. 729. He was lying rather quartering from the way the wagon stood, with his feet toward the wagon; his feet was closer to the fire than his body, if I remember right.

Q. 730. After he was thus layed down by you, where were his feet with reference to where they were at the time you say you caught him?

A. 730. As near as I can guess, they couldn't have been over a foot and a half from where they was when I caught him.

Q. 731. In which direction were they moved from where they were when you caught him?

A. 731. In a southwesterly direction, if I remember right.

Q. 732. How far from the muzzle of the gun did you take hold of it when you went to take it out of the wagon?

A. 732. I don't know just how far, about middle ways of the barrel.

Q. 733. Did you not at a coroner's inquest, held on this body at Lawrence about April 4th, 1879, in answer to the following question, "How far from the muzzle of the gun did you seize the barrel?" did you not answer and testify as follows: "It must have been four or five inches from the muzzle of the gun?"

A. 733. I don't remember that I testified to that or not.

Q. 734. Do you remember that you testified on that occasion?

A. 734. I don't remember just now whether I did or not.

Q. 735. Do you remember whether you were sworn or examined as a witness at the inquest in Lawrence?

A. 735. Yes, sir, I remember that I was.

Q. 736. When you caught Hillmon what was he doing?

A. 736. He was sinking down.

Q. 737. Was he sinking down or staggering around when you caught him?

A. 738. I don't think he was staggering around; I think he was sinking down and apparently falling one way.

Q. 739. When you caught him was he staggering or simply sinking? A. 739. Appeared to be sinking down.

Q. 740. Did you not before a coroner's inquest in Lawrence, Kansas, held about April 4th, 1879, testify as follows: "He was staggering, not making much effort; I just grabbed him in my arms, I thought he was going to reel over into the fire."

A. 740. Yes, sir, I believe I remember stating something similar to that.

Q. 741. Did you or did you not, at the time and place above mentioned, make the statement to which your attention has been called, to wit, in question number 740?

A. 741. I did make such a statement; I don't remember whether it was just word for word like that?

Q. 742. In what position did you lay the body of Hillmon at that time? A. 742. On his back on the ground.

Q. 743. In what position did you place his hands?

A. 743. Don't remember now whether I moved his hands at all or not.

Q. 744. Can you say positively that you did move his hands?

A. 744. I couldn't say positively whether I did or not.

Q. 745. Is it not a fact that you placed one of his arms across his breast, while he way lying on the ground, and before you went for any assistance?

A. 745. I couldn't state now whether it was or not.

Q. 746. Upon what did you place the head of the body?

525 A. 746. On some wood lying by the fire.

Q. 747. When you left this body did it lie just as it fell, or had some portions of the body been arranged by you?

A. 747. It lay just as it fell. I might have moved his feet some, but I don't remember whether I did or not.

Q. 748. Why do you say you might have moved his feet?

A. 748. Because I think I moved them, but I wouldn't be positive of it.

Q. 749. Why do you think you moved the feet if you have no recollection of doing so?

(Objected to by plaintiff as incompetent, being unfair and misleading, the witness not having stated that he had no recollection of moving the feet, and having stated that he thought he moved them but couldn't be positive about it.)

(The defendant's counsel moves to strike out the objection, that said objection is made for the purpose of enabling counsel for the plaintiff to get a suggestion to the witness and the question withdrawn for the present.)

Q. 750. Do you now remember that you did move the feet of that body?

(Objected to by plaintiff's counsel as incompetent for the reason that the same question has been once asked and fairly answered.)

A. 750. I don't remember positively whether I did or not.

Q. 751. Have you any recollection of moving the feet of that body? If so, when did you move them?

A. 751. I don't have any recollection now of doing so. If I did I did it before I left the body. They were close to the fire.

(The defendant moves to strike out all the last answer of the witness, commencing with the words: "If I did," for the reason the statement is incompetent as evidence, is not responsive to the question, the question not calling for what the witness did unless he had some recollection in regard to it.)

Q. 752. What other, if any, portion of the body did you fix or move, after the body had fallen?

A. 752. No other that I remember of.

Q. 753. Did this body accidentally fall upon this pile of wood or did you see the wood while the body was falling and direct the body toward it, or did you place the head upon this wood after the body had fallen?

A. 753. Never thought anything about the wood; wasn't directing it toward the wood or ground. I wasn't thinking anything about it. I did not place the head upon this wood after the body had fallen.

Q. 754. How long did you remain at camp after you had layed the body down as you have stated?

A. 754. Don't think I stayed there a minute, not longer than I could get a horse and get on the horse.

Q. 755. Were all the changes which were made in the position of that body made before you left the camp on horseback? A. 755. All that I know of.

Q. 756. This man was killed by the discharge of the gun which you have described in this examination and which was present at coroner's inquest at Lawrence, was he not?

A. 756. Yes, sir, the same gun.

Q. 757. Describe accurately the position of this body when you left camp on horseback that evening.

A. 757. Laying on his back and full length of his body, laying out straight; one of his hands laying out from his body like on the ground or wood, I don't remember which. His other hand was laying by his side or on his body, I don't remember which; I believe it was on his body.

Q. 758. Had you straightened out the body?

A. 758. No, the body was pretty well straightened out when it fell.

Q. 759. What time did you leave camp on horseback that night? A. 759. About sun down.

Q. 760. When that gun was discharged, was the wind blowing a pretty stiff breeze or was it pretty quiet?

A. 760. The wind was blowing some.

Q. 761. In catching hold of the body did you get any blood upon your clothes? A. 761. None that I know of.

Q. 762. And you now swear that that man whom you killed was Hillmon, do you? A. 762. Yes, sir.

Q. 763. Did you not on or about the 4th day of September, A. D. 1879, in Platte county, in the State of Missouri, state to

W. J. Buchan in substance, as follows: "The next evening after we got to the camp last named, the man Joe was sitting by the fire. I was at the hind end of the wagon, either putting feed in the box for the horses or taking a sack of corn out, when I heard a gun go off. I looked around and saw the man was shot, and Hillmon was pulling him around to keep him out of the fire. Hillmon changed a day-book from his own coat to Joe's, and said to me everything was all right, and in shape just as he wanted it, and that I need not be afraid, but it would be all right. He told me to get on a pony and go down to a ranch about three quarters of a mile and get some one to come up. He took Joe's valise and started north; this was about sundown. We had no arrangements about
526 communicating with each other. He first proposed to do so, but I told him I did not want to know where he was, that in case I should I might find out some other way. I have never heard a word from him since. At Lawrence Mrs. Hillmon gave me to understand that she knew where Hillmon was and that he was all right. The man over whom an inquest was held at camp afterwards at Medicine Lodge and at Lawrence, Kansas, was this man Joe Burges or Berkley, killed by Hillmon, as related above, and John W. Hillmon I believe to be still alive; at least he left our camp and went north as stated above. After killing Joe, Hillmon said he would assume the name of William Marshall. Baldwin's wife and Mrs. Hillmon know all about this. In my testimony at Lawrence I stated the route taken as above described, but the man who I described as being in camp with us and who I said went off with some waggoner, was Joe, the man killed," or did you not, about the time and place above mentioned, in the presence of one Francis M. McDonald, sign or swear to a statement in writing which contained, among others, the foregoing statement in substance.

(Plaintiff's counsel objects to the question last asked the witness for the reasons, first, That it calls for the contents of a written instrument which should first be produced and proven, and which would then be the best evidence of such contents. Second, Said question is leading and is not a proper question for cross-examination. Third, The paper speaks for itself, and the contents can not be proven by parol or secondary evidence until its loss is duly shown. Fifth, That the evidence called for is immaterial and irrelevant.)

A. 763. I didn't state such as that to Buchan but Buchan made such a statement to me and asked me how it would do. I told him he was doing that and knew better than I did. He told me he hadn't left anything undone; that it was all right

and that he wanted me to swear to it before a justice of the peace or a lawyer at Parkville and I done so.

The question asked me is about the substance of what he got in the statement.

Q. 764. Where did you sign this statement?
A. 764. In McDonald's office in Parkville, I think.
Q. 765. Did you swear to it at the same time?
A. 765. I don't have any recollection now whether I swore to it or not.
Q. 766. Do you remember of having any conversation with McDonald with regard to the contents of that paper, or hearing any conversation between him and Buchan in regard to it?
A. 766. No, sir, I don't.
Q. 767. This instrument had been written before you and Buchan went to McDonald's office, had not?
A. 767. Yes, sir, it had been written before at my brother's.
Q. 768. What is that brother's name, and where did he live at that time, in what direction and how far from Parkville?
A. 768. Rheuben Brown is his name; lived in Platte county about 4 miles east of Parkville.
Q. 769. Does he reside at the same place now?
A. 769. Yes, sir; same place.
Q. 770. Who went with you and Buchan to Parkville to the office of McDonald?
A. 770. Buchan, myself and a man by the name of Ward went to Parkville together, and Buchan and I went to McDonald's office.
Q. 771. Did you or did you not at that time swear to the contents of that paper which you state contained, in substance, the statement to which your attention has been called, to wit, in question number 763?

(Plaintiff's counsel objects to last above question as incompetent, as not being the best evidence.)

A. 771. I wouldn't be positive now, as to whether I swore to it or not.
Q. 772. Do you know whether you swore to it or not?

(Objected to by plaintiff on same ground as question last preceding.)

A. 772. I don't know now whether I did or not.
Q. 773. You signed a paper in which you charged your friend Hillmon with the murder of a man by the name of Joe, and yet, do you state now that you do not know whether you swore to such a statement or not?

A. 773. I don't remember; couldn't say whether I did or not; I have stated heretofore that I signed or swore to such a paper, but I don't remember which it was.

Q. 774. Did you not both sign and swear to that paper?

(Plaintiff counsel objects to the last above question on the same ground as in question 771.)

A. 774. Not that I remember of now, I didn't.

Q. 775. Do you now testify that you never did swear to the contents of that paper, before Francis M. McDonald at Parkville, Missouri, or before any other person?

A. 775. I never swore to it before any other person, and whether I did before McDonald, I don't remember.

Q. 776. What did you, Buchan and Ward go to Parkville on that day for?

A. 776. Buchan and I went there to see McDonld, or went there to go to his office rather, for the purpose of me signing or swearing to that statement he had, and to look at the map of Kansas to look for a town out in southwestern Kansas; and I don't know what Ward's business was there.

527 Q. 777. You now say that that statement which you there signed was false, and that you do not remember whether you swore to that false statement or not, do you not?

A. 777. I say that was a false statement; don't remember whether I signed or swore to it or not, don't remember which one I done.

Q. 778. After the shooting you did leave the camp about sundown upon a pony did you not? A. 778. Yes, sir.

Q. 779. In what direction, and where did you go?

A. 779. Went in a southern direction from camp to Mr. Graves' house; I wouldn't be positive, I think that's his name.

Q. 780. How far was that from the camp?

A. 780. Half or three-quarters of a mile from the camp.

Q. 781. Did this man come back with you?

A. 781. Yes, sir.

Q. 782. Who else returned with you, if any one, at that time? A. 782. No one else.

Q. 783. Did you remain at camp then, that is, after you returned with this man Grave? A. 783. Yes, sir.

Q. 784. Graves went away again did he not?

A. 784. Yes, sir.

Q. 785. You were then left alone with the dead body were you not? A. 785. Yes, sir.

Q. 786. How long did Graves remain at camp before he went away?

A. 786. Not longer than a half an hour at the outside.

Q. 787. State as definitely as you can, how long you and this man you have called Graves remained there at that camp together?

A. 787. Not longer than between a quarter and a half an hour; this best that I can remember.

Q. 788. What, if anything, was done with or to the body while he was there? A. 788. Nothing at all.

Q. 789. Where was the gun laying at this time?

A. 789. Laying on the ground.

Q. 790. Did you and Graves examine the gun at this time?

A. 790. No, sir, not that I have knowledge of.

Q. 791. Did you call his attention to the gun and where it was lying?

A. 791. I don't know now whether I did or not.

Q. 792. Did you and he have any conversation or talk about the gun at this time?

A. 792. Not that I recollect of now.

Q. 793. Did either of you pick the gun up at this time?

A. 793. I didn't, and don't think that he did.

Q. 794. How was the feet of this body clothed at this time?

A. 794. With shoes and socks on.

Q. 795. What kind of shoes, high or low shoes?

A. 795. Kind of a gaiter shoe.

Q. 796. Were they similar to the kind of shoes you were wearing at that time?

A. 796. No, sir, I was wearing boots.

Q. 797. At the time of shooting, were the ponies hitched to the hind end of the wagon?

A. 797. No, sir, they were picketed out close to the wagon.

Q. 798. After Graves left, how long did you remain alone with the dead body?

A. 798. About an hour or an hour and a half, as near as I can guess at it.

Q. 799. Was this man Graves the same man who was at your camp on the morning of the same day this shooting took place? A. 799. Yes, sir.

Q. 800. And he was the first man at the camp after the shooting took place was he not? A. 800. Yes, sir.

Q. 801. There was an inquest held over this body at camp; afterwards at Medicine Lodge, and at Lawrence, Kansas, was there not? A. 801. Yes, sir.

A. 806. Yes, I see it; I couldn't help seeing it, it was laying on the ground close to me.

Q. 807. Did you pick it up or move it?

A. 807. Never touched it.

Q. 860. Did you not, in the office of George J. Barker, in the City of Lawrence, on or about April 4th, 1879, make the following statement, "Hillmon was dark complexion; his shoes were low cut, wore on whole of last trip?"

(Objected to by plaintiff's counsel as immaterial and irrelevant. Second, Because no foundation has been layed for the inquiry for the purpose of contradicting the witness; if such statement was in writing it should be produced.)

A. 860. I stated Hillmon was of dark complexion, and stated that he wore them shoes on that trip; don't know whether I stated they were low cut shoes or not.

Q. 870. Was it bound about the rim or not?

A. 870. I couldn't say whether it was or not.

A. 871. About 2 feet or 2½ feet, as near as I can guess at it.

Q. 872. Did you have a brisk fire at the time or but little?

A. 872. Yes, sir; we had a brisk fire at the time.

Q. 873. The reason you had a brisk fire was on account of the inclemency of the weather, was it not?

A. 873. Yes, sir.

883. Did you see the hat, or any portion of it, burning
r he left?

.. 887. It was Hillmon's hat.
. 888. That hat was brought to Lawrence with the other
tents of the trunk was it not? A. 888. Yes, sir.

A. 889. I don't recollect now whether I did or not.
. 890. Did you not see the hat at each of the places above
ntioned?
A. 890. I think I did, but I wouldn't be positive of it.

on size felt hat or fur; I don't remember as to the quality
it.

y was burned up.
A. 892. I think this hat was a dark bluish color, and as
the size about the same.
Q. 893. Was that all the difference between the two hats?
A. 893. That's all the difference I could describe now.

ark color, was all the difference that I can remember.
Q. 898. Which was the better hat; the one that was burned

A. 898. I think that the one that was burnt was the best hat.

Q. 899. Did you not before the coroner's inquest in Lawrence, in April, 1879, testify as follows: "You think the hat he had on was the better of the two?" in reply to the above question did you not testify and answer, "Yes, sir, it was the best hat?"

(Objected to by plaintiff's counsel as: First, Immaterial and Irrelevant. Second, It is incompetent because the inquiry is intended to elicit contradictory statements of the witness about immaterial matters, and with regard to testimony drawn out by defendant's counsel by which they are bound and not inquired into by the plaintiff; and further, the testimony before the coroner's inquest is in writing and should be produced and identified by the witness and is the best evidence.)

A. 899. I don't recollect now whether I did or not.

Q. 900. And did you not on the same time and occasion, in answer to the following question, "Then at the time of the accident he was wearing his best hat?" answer, "Yes, sir?"

(Same objection by plaintiff's counsel as to last preceding question.)

A. 900. I don't remember now whether I did or not.

Q. 901. What was done with the shoes that were upon the feet of this body at the time of shooting?

A. 901. They were put in the wagon or trunk, I don't remember which; they were left on the road, at Kingman or Hutchinson; I never missed them until I got to Lawrence.

Q. 902. When and where were they delivered to you?

A. 902. At Mr. Paddock's, about the 20th or 25th of March, in Barber county, Kansas.

A. 908. Black hat; that is as near as I can describe it.

A. 909. I couldn't say now whether it was or not.
Q. 910. Have you given all the description you can of the stranger's hat?
A. 910. That's all I can give now. Yes.
Q. 911. Did you not testify at the coroner's inquest on this body at camp, in Barber county, Kansas, on or about the 17th day of March, 1879, and at a coroner's inquest held upon the same body at Medicine Lodge, in said county, on or about the 19th day of March, 1879, and at a coroner's inquest held upon the same body in Lawrence, Kansas, about the 4th day of April, 1879, that your residence was in Wyandotte county, Kansas?

(Objected to by plaintiff's counsel for the reasons: First, That the question calls for irrelevant and immaterial testimony. Second, The witness' testimony before the coroner's inquiry is, or should be, in writing, and should be produced and identified by the witness and is then the best evidence of the testimony he then gave. Third, That the evidence sought is incompetent to contradict the witness, it being in regard to immaterial matters and matters inquired of only by defendants.)

A. 911. Yes, sir, I stated that residence or home, I don't know which it was.
Q. 912. Then your residence was in Wyandotte county, Kansas, on the 4th day of April, 1879, was it not?

A. 918. About the 19th or 20th of March, from Medicine Lodge. Since I come to think I don't believe I wrote at all; but I think Mr. Paddock wrote, and I wrote some in the letter. I wouldn't be positive whether I wrote or no.

A. 919. I don't recollect now whether I did not.

Q. 920. Had you ever written to her before this shooting took place? A. 920. No, sir.

A. 921. Yes, sir, I feel positive of it.

Q. 922. How many letters, if any, did you write her from Barber county?

A. 922. I might have written one. If I did, it was the only one.

540 (This question is objected to by counsel for plaintiff on the following grounds: First, The inquiry is immaterial and irrelevant to the issues in this case. Second, It is calling for the contents of a written document which must be produced to the witness and identified by him, and there used as the best evidence of its contents in the case. Third, It is calling for the confidential communications between the witness and his atorney, W. J. Buchan, to contradict which, the said Buchan can not be called. Fourth, The written statement is the only evidence that is competent to show the statements of the witness referred to.)

A. 1110. I wouldn't be positive whether I told him there or not.

Q. 1111. Was it in the house or by the tree by the mill where you made the statement last referred to to Buchan?

Q. 1112. Did you not at said time and place tell said Buchan, in substance, "That along about the 10th of December, 1878, John W. Hillmon, Levi Baldwin and myself talked about and entered into an arrangement to cheat the New York Life Insurance Company and the Mutual Life of New York out of some money?"

Hillmon; that Baldwin was to furnish the money to pay the premiums and to keep up the policies in case they had to be renewed; our first arrangement was to get Hillmon's life insured for fifteen thousand dollars, but it was afterwards changed to twenty-five thousand dollars?

Q. 1117. Did you not at that time, to wit: about the 1st of September, 1879, at or near your brother's house near Parkville, in Platte county, Missouri, tell said Buchan, in substance, "That Hillmon and myself were to go off southwest from Wichita, Kansas, ostensibly for the purpose of locating a stock ranch, but in fact, to in some way find a subject to

pass off as the body of John W. Hillmon for the purpose of obtaining the insurance money?"

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1117. No, sir, but he made that statement to me.

Q. 1118. When, and where did he make that statement to you?

Q. 1119. Did you not at that time and place, to-wit, at your brother's house near Parkville, in Platte county, Missouri, in September, 1879, tell said Buchan, in substance, "That we had no definite plan of getting the subject, but to in some manner get one; the final termination of the matter was the last idea thought of. Our first trip out from Wichita was in the last days of December while the snow was on the ground. We expected to find a subject that would appear to be Hillmon, frozen to death, and that could not be identified only by the clothes and papers found upon it, and so I could pass it off as Hillmon. We went from Wichita to Medicine Lodge, and then direct to Sun City, from there to Kinsley, from there to Great Bend on the Santa Fe road, then to Larned and then on to Wichita by the way of Hutchinson?"

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

I then stayed at Wichita until the 4th of March, Hillmon in meantime went up to Lawrence to see his wife and get some more money; he returned about the first of March, and on the fifth of
541 March we left on our second trip. We went due west to Cow Skin creek, then west to Harper City, then to Medicine Lodge, on by Sun City and beyond some miles, then we turned northeast down Medicine river to a camp on Elm creek, about 18 miles north of Medicine Lodge, where Hillmon is claimed to have been killed?"

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

Q. 1120. Yes, sir.

Q. 1121. Did you not at the same time and place tell said Buchan, in substance, "That we got there about an hour before sundown and stayed in camp until the next evening; we overtook a stranger on this trip the first day out from Wichi-

ta, about two or two and one-half miles from town, who Hillmon invited to get in and ride, and who, he (Hillmon) proposed to him to work for him on the ranch which he proposed to locate."

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1121. Yes, sir; told him something similar to that.

Q. 1122. Did you not at the same time and place tell said Buchan, in substance, "That this man was with us during all this trip; that Hillmon proposed to you that this man would do for a subject to pass off for him, and you told him that the man would not do to pass off for him, giving him various reasons why the man would not answer his description, and complained and objected because Hillmon's proposition was to take the man's life, and protested and said that was going beyond what we had agreed and something I had never before thought of and was beyond my grit entirely?"

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1122. No, sir, I didn't.

A. 1123. No, sir.

Q. 1124. Did you not at your brother Reuben Brown's, in September, 1879, near Parkville in Platte county, Missouri, tell said Buchan, in substance, "That Hillmon seemed to get more desperate and determined in the matter; pains was taken not to have more than two of us seen together in the wagon, sometimes one and then the other would be kept back out of sight. On his trip up to Lawrence Hillmon was vaccinated, his arm was quite bad; Hillmon kept at the man until he let Hillmon vaccinate him, which he did, taking his pocket knife, and using virus from his own arm for the purpose. Hillmon also traded clothes with him, first giving him a change of underclothing, and then traded suits; the suit he was buried in was a suit Hillmon traded with Baldwin for?"

(Same objection made to this question by plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1124. Part of that I remember of telling him and a part I don't remember anything about.

Q. 1125. Did you not at said time and place tell said Buchan, in substance, "That this man appeared to be a stranger in the country, an easy going sort of a fellow, not suspi-

cious or attentive to anything; his arm became quite sore, and he became quite stupid and dull. He said his name was Berkly, Burgis or something sounding like that, we always called him Joe; he said he had been around Fort Scott awhile, and had worked about Wellington and Arkansas City. I don't know where he was from or where his home or friends were. I did not see him at Wichita that know of; I had but very little to say to the man and less to do with him; he was taken in charge by Hillmon and yielded willingly to his will. I dreaded what I thought was to be done, and kept out of having anything more to do with him than possible. I frequently remonstrated with Hillmon and tried to deter him from carrying out his intention of killing the man?"

(Same objection made to this question by plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1125. No, sir, there, nor nowhere else.

Q. 1126. Did you not at said time and place tell said Buchan, in substance, that "The next evening after we got to the camp last named, the man Joe was sitting by the fire; I was at the hind end of the wagon either putting feed in the box for the horses or taking a sack of corn out, when I heard a gun go off. I looked around and saw the man was shot, and Hillmon was pulling him around to keep him away from the fire. Hillmon changed a day-book from his own coat to Joe's, and said to me everything was all right and just as he wanted it, and that I need not be afraid but that it would be all right."

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1126. No, sir, I didn't.

Q. 1127. Did you not make the foregoing statement, in substance, to him at the mill near your brother's house, at Parkville in Platte county, Missouri, or at Lexington, Missouri?

A. 1127. No, sir.

Q. 1128. Did you not at said time and place, to-wit, at your brother's house in Parkville, in 1879, tell said Buchan, in substance, that "He, meaning Hillmon, told me to get on a pony and go down to a ranch about three-quarters of a mile, and get some one to come up. He took Joe's valise and started north; this was about sundown. We had no arrangements about communicating with each other; he first proposed to do so, but I told him I did not want to know where he was, that in case I should I might find out in some other way?

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1128. No, sir; there, nor anywhere else.

Q. 1129. Did you not at said time and place tell said Buchan, in substance, that "I have never heard from him since; at Lawrence Mrs. Hillmon gave me to understand that she knew where Hillmon was, and that he was all right?

(Same objection made to this question by the plaintiff's counsel as was made to the foregoing question number 1110.)

A. 1129. No, sir; there, nor nowhere else.

Q. 1130. What was the conversation between you and Buchan at that time about Mrs. Hillmon knowing where Hillmon was?

(Plaintiff's attorneys object to this question for the following reasons: First, that it calls for testimony that is immaterial and irrelevant to the issues in this action. Second, That the statements made by the witness and Buchan in any conversation between them at which the plaintiff was not present are incompetent and inadmissable as evidence against her. Third, The question is not proper as cross-examination, the plaintiff in her examination of the witness in chief not having inquired anything about the conversation referred to. Fourth, For the reasons stated in plaintiff's objection to previous question number 1110.)

A. 1130. None at all that I have any knowledge of.

Q. 1131. Did you not at said time and place have any conversation with said Buchan about your having seen Mrs. Hillmon in Lawrence at the time of the inquest?

(Same objection made to this question by plaintiff's counsel on the same grounds and for the same reasons as stated in the objection to the preceding question number 1130.)

A. 1132. I don't recollect of saying anything.

Q. 1133. Did you not at said time and place, to-wit, at your brother's near Parkville, in Platte county, Missouri, tell said Buchan, in substance, that "The man over whom an inquest was held at camp, afterwards at Medicine Lodge and at Lawrence, Kansas, was this man Joe Burgis or Berkly, killed by Hillmon, and John W. Hillmon I believe to be still alive, at least he left our camp and went north as stated above?"

(Same objection made to this question by plaintiff's counsel on the same grounds and for the same reasons as stated in the objections to the preceding questions numbers 1110 and 1130.)

A. 1133. No, sir; I did not.

A. 1134. Did you tell him that, in substance, at any other time or place in the state of Missouri?

(Same objection made to this question by the plaintiff's counsel on the same grounds and for the same reasons as stated in the objections to the preceding questions numbers 1110 and 1130.)

A. 1134. No, sir.

Q. 1135. Did you and he ever have any conversation about the man over whom the inquest was held, at the places above mentioned, being the stranger who got in to ride with you and Hillmon near Wichita, Kansas; state where and when you and Buchan had the first conversation in regard to that matter and state what was said by each of you?

(Same objection made to this question by plaintiff's counsel on the same grounds and for the same reasons as stated in the objections to the preceding questions numbers 1110 and 1130.)

A. 1135. At Lexington, in May, 1879, I believe was the first place we had a conversation. Buchan told me that he he could arrange it so as to make it appear that he was the man over whom the inquest was held, and killed, in place of Hillmon. I told him I didn't see how he could do it. He said that he could very easy if I would sign the statements, that he could make out that this was all a fraud. I told him that I couldn't nor I wouldn't do anything of the kind. He told me that he couldn't do anything for me if I didn't do as he wanted me to do, as he was acting as my attorney and that he wouldn't have me do anything out of the way but what was right for nothing. I told him I thought that wasn't doing right. He contended that it was, and he would stand between me and all danger. That was about the substance of our conversation.

Hillmon, Levi Baldwin and myself to defraud the New York Life Insurance Company, and the Mutual Life of New York out of some money, to be accomplished by securing pol-

icies on the life of John W. Hillmon; and that they knew that Baldwin was to furnish the money to pay the premiums and to keep up the policies in case they had to be renewed, and that the original arrangement was to get Hillmon insured for fifteen thousand dollars, but that it was afterward changed to twenty-five thousand dollars; and that they knew of the arrangement of Hillmon and myself to go off south from Wichita, Kansas, ostensibly to locate a stock ranch, but, in fact, in some way to find a subject to pass off as the body of Hillmon, and that we expected to find on this trip a body that would appear to be that of Hillmon, frozen to death, and that could be identified by the clothes and papers found upon it and in this way could be passed off as the body of Hillmon?"

A. 1175. No, sir.

Q. 1176. Did you state that in substance to said W. J. Buchan at any other time or place?

Did you not state to said Buchan, on or about the 4th day of September, 1879, at your brother's residence near Parkville, Missouri, referring to a statement or statements of your's, which you had made to him, as a true version of the killing of a man on Spring creek near Medicine Lodge, in Barber county, Kansas, and of the subsequent holding of a coroner's inquest over his dead body, and of a conspiracy to defraud the New York Life Insurance Company, and the Mutual Life Insurance Company of New York, and the Connecticut Mutual Life Insurance Company of Hartford, out of some money by affecting policies on the life of one John W. Hillmon, and after securing those policies to in some way procure a body to be passed off as the body of John W. Hillmon, and the facts and circumstances connected with such conspiracy. (I make the above statements in the Hillmon case as the full and true facts in the case, regretting the part I have taken in the affair.)?

(Objected to by plaintiff because the question is leading, the question is not a cross-examination upon any matter inquired into by plaintiff, it is calling for evidence in chief for defendant, and the witness should be asked distinct what was said.)

A. 1191. Yes, sir, I told him something similar to that.

Q. 1192. During this conversation did Mr. Buchan prepare a statement in writing in reference to these matters?

A. 1192. Yes, sir; partly.

(Objected to by plaintiff on the grounds and for the reasons following: First, That the instrument carries with itself the best evidence of the fact as to whether it was sworn to or not,

and the jurat or certificate of the officer thereto attached, if any, should be produced; counsel for plaintiff here demands the production of the instrument. Second, The question has been repeatedly asked before and repeatedly answered.)

A. 1197. I wouldn't be positive now whether I did or not.

Q. 1198. After this statement was prepared you and
547 Buchan went to the office of Francis M. McDonald located at Parkville, Missouri, did you not?

(Objected to by plaintiff because the same question has been several times asked before and answered, and plaintiff protests against any further waste of time by the repetition of such question.)

Q. 1200. What was done with the statement there?

Q. 1201. What object did Buchan have in looking at this name in the statement?

(Objected to by plaintiff because it is immaterial what object Buchan had, it is not cross-examination, it is incompetent to prove Buchan's objects.)

A. 1201. I suppose to find out whether he had the name of a town or county right or not.

The hour for adjournment having arrived the further taking of these depositions is hereby adjourned until Monday morning at 9 o'clock, a. m.

A. 1210. Yes, sir.

Q. 1211. What, if anything, did he (McDonald) do to this statement?

A. 1211. Nothing that I know of.

Q. 1212. How was his attention called to the statement?

A. 1212. I think by Buchan telling him he wanted me to sign or swear to it.

Q. 1213. For what purpose did you and Buchan go to McDonald's office at this time?

A. 1213. For the purpose of my signing or swearing to that, and to see whether he had the name of a town or county on the paper right or not.

Q. 1214. What do you refer to by the word "that" in your last answer? A. 1214. That paper he had with him.

Q. 1215. By that paper do you mean the statement which Buchan had prepared at your brother's house during your conversation with Buchan in regard to the Hillmon case?

A. 1215. Yes, sir.

Q. 1216. Will you state what was said in McDonald's office in Parkville by yourself, Buchan and McDonald, and each of you, about that statement and about your signing and swearing to the same?

(Objected to by plaintiff as hearsay and incompetent, and as immaterial.)

548 A. 1216. I don't recollect just now what was said, any more than McDonald wanted to look at it and Buchan told him he needn't to, or didn't have to; he asked Buchan what it was and he told him it was a little business of his and mine; that was all I remember of now.

A. 1220. About a week after that time in 1879, in Buchan's office at Wyandotte.

Q. 1221. What was done with it at that time?

A. 1221. Buchan handed it to me and I tore it up, and put it in the stove.

Q. 1222. Have you ever seen it since? A. 1222. No, sir.

Q. 1223. At whose request, or by whose directions, was it destroyed?

A. 1223. By Buchan's and myself both, that I should destroy it; that was his promise to me when I made the statement out.

Q. 1224. What was his promise to you when you made the statement out; what was said about the destruction of it at that time?

A. 1224. He said that he would insure me that this statement would never be again me in law anywhere, and to convince me that it wasn't lawful and if I would allow him, for us, to make this statement he would give it back to me and I could destroy it; that to convince me that it would never be used again me, there would not be a scratch of a pen contrary to the two testimonies that I had testified before, and as he was acting as my attorney that he would stand between me and all danger. He told me that it would be better to allow him to do that than it would be to be arrested and put in jail and probably go to the penitentiary, and that if the insurance men once got me in jail that they would make me out a liar and murderer; and if I didn't, he couldn't do any more for me, that he had been trying to do all he could for me and that

he was only advising me for the best, and that I would have to do something now or never, that Ward, the deputy sheriff of Wyandotte county, would probably take me now.

Q. 1216. The defendant's attorney here repeats the question: What was his promise to you when you made the statement out; what was said about the destruction of it at that time?

(Plaintiff objects to the repetition of this question for the reason that it has been fully answered.)

A. 1216. He said that he would hand it back to me and that I could destroy it myself.

Q. 1217. Was anything said about when he would hand it back to you, and if so, what?

A. 1217. Yes, sir; that any time I would come over to Wyandotte.

Q. 1237. How did you recognize this statement which you tore up and put in the stove at Buchan's office, as being the same statement which Buchan prepared at your brother's house near Parkville?

Q. 1244. State if the following is the statement made and prepared on the 4th day of September, 1879, at your brother's residence, situate near Parkville, Missouri, and which you afterwards saw at the office of Francis M. McDonald at Parkville, Missouri, and which you afterwards tore up and put in the stove at the office of W. J. Buchan in Wyandotte, Kansas:

"State of Missouri,
County of Platte—ss.

"John H. Brown, of lawful age, being first duly sworn according to law, deposes and says: 'My name is John H. Brown, my age thirty years, I am acquainted with John W. Hillmon, also Mrs. S. E. Hillmon and Levi Baldwin of Douglas county, Kansas; have known John W. Hillmon for about five years, have been with him a good deal for the past two years, was with him last March at Wichita, and on the trip from there to and around Medicine Lodge in Barber county, Kansas,
550 where it is claimed that I killed him on the 17th of March, 1879. Along about the 10th of December, 1878, John W. Hillmon, Levi Baldwin talked about and entered into a conspiracy to defraud the New York Life Insurance Company and the Mutual Life of New York out of some money, to be obtained by means of effecting a policy or policies on the life of said John W. Hillmon; Baldwin was to furnish the money to pay the premiums and to keep up the policies in case they had to be renewed. Our original arrangement was to get Hillmon's life insured for fifteen thousand, but it was afterwards changed to twenty-five thousand dollars. Hillmon and myself were to go off southwest from Wichita, Kansas, ostensibly to locate a stock ranch, but in fact, to in some way

find a subject to pass off as the body of John W. Hillmon for the purpose of obtaining the insurance money aforesaid. We had no definite plan of getting a subject, but to in some manner get one, the final termination of the matter was the last idea thought of. Our first trip out from Wichita the last days of December while the snow was on the ground we expected to find a subject that would appear to be Hillmon, frozen to death, and that could not be identified only by the clothes and papers found on it, and so I could pass off as Hillmon. We went from Wichita to Medicine Lodge, then direct to Sun City, from there to Kinsley, from there to Great Bend on the Santa Fe road, then to Larned, and on to Wichita via Hutchinson. Hillmon and myself were entirely alone on this trip. Hiff of Medicine Lodge saw Hillmon on this trip; we put up at his stable. I then stayed at Wichita until the 4th of March, Hillmon in the meantime went up to Lawrence to see his wife and to get some more money; he returned about the first of March, and on the fifth we left on our second trip. We went due west to Cow Skin creek, then west to Harper City, then to Medicine Lodge, on by Sun City and beyond some miles, then we turned northeast down Medicine river to a camp on Elm creek, about eighteen miles north of Medicine Lodge, where Hillmon is claimed to have been killed. We got there about an hour before sundown and stayed in camp until the next evening. We overtook a stranger on this trip the first day out from Wichita, about two or two and one-half miles from town, who Hillmon invited to get in and ride and who he (Hillmon) proposed to hire and work for him on the ranch as proposed to be located; this man was with us during all this trip. Hillmon proposed to me that this man would do for a subject to pass for him. I told him and contended with him that the man would not do to pass off for him, giving him various reasons why the man would not answer his description, and complained and objected because his proposition was to take the man's life, and I protested and said that was going beyond what we had agreed and something I had never before thought of, and was beyond my grit entirely. But Hillmon seemed to get more deeply determined, and more and more desperate in the matter; pains were taken not to have more than two of us seen together in the wagon, sometimes one and then the other would be kept back out of sight. On this trip up to Lawrence Hillmon was vaccinated; his arm was quite bad. Hillmon kept at that man until he let him vaccinate him, which he did, taking his pocket knife and using virus from his own arm for the purpose. He also traded clothes with him, Hillmon first giving him a change of underclothing, then traded suits, the one he was killed in; the suit he was buried in was a suit Hillmon traded with Baldwin for. This

man appeared to be a stranger in the country, a sort of [an] easy-go-long fellow and not suspicious or very attentive to anything; his arm became very sore and he got quite stupid and dull. He said his name was either Berkley or Burgis or something sounding like that; we always called him Joe. He said he had been around Fort Scott awhile, and also had worked about Wellington or Arkansas City. I don't know where he was from nor where his home nor friends were. I did not see him at Wichita that I know of. I had but very little to say to the man and less to do with him; he was taken in charge by Hillmon and yielded willingly to his will. I dreaded what I thought was to be done, and kept out of having any more to do with him than possible. I frequently remonstrated with Hillmon, and tried to deter him from carrying out his intentions of killing the man. The next evening after we got to the camp last named, the man Joe was sitting by the fire, I was at the hind end of the wagon either putting feed in the box for the horses or taking a sack of corn out, when I heard a gun go off; I looked around and saw the man was shot, and Hillmon was pulling him away around to keep him out of the fire. Hillmon changed a day-book from his own coat to Joe's, and said to me everything was all right and in shape just as he wanted it, and that I need not be afraid but it would be all right. He told me to get on a pony and go down to a ranch about three-quarters of a mile and get some one to come up. He took Joe's valise and started north; this was about sundown. We had no arrangements about communicating with each other; he first proposed to do so, but I told him I did not want to know where he was, that in case I should I might find out in some other way. I have never heard a word from him since; at Lawrence Mrs. Hillmon gave me to understand that she knew where Hillmon was and that he was all right. The man over whom an inquest was held at camp, afterward at Medicine Lodge, and at Lawrence, Kansas, was the man Joe Burgis or Berkley, killed by Hillmon, as related above, and John W. Hillmon I believe to be still alive, at least he left our camp and went north as stated above after killing Joe. Hillmon said he would assume the name of William Marshall. Baldwin's wife and Mrs. Hillmon know all about this. In my testimony at Lawrence I stated the route taken as above described, but the man who I described as being in camp with us, and who I said went off with some wagons, was Joe the man killed. I afterwards, sometime in August, 1879, made four affidavits, under great importunities from Baldwin who came after me three different times, the last time persuading me to go with [—] to Kansas City, where Honorable Samuel Riggs insisted on my signing them. I

don't think Mr. Riggs is aware of the facts in this case,
551 nor the other counsel in the case. I make the above statement in this Hillmon case, as the full and true facts in the case, regretting the part that I have taken in the affair."

(The last question is objected to by the counsel for the plaintiff for the follow reasons: First, Because it calls for testimony which is immaterial and irrelevant to the issues in this case. Second, Because it is not a cross-examination concerning any matter inquired about by the plaintiff in the examination in chief. Third, Because no conversations or statements held or made by the witness and by W. J. Buchan, or either of them, when the plaintiff was not present or to which she has not given her assent, are competent or admissible against her. Fourth, Because it is sought by the question and answer to prove the contents of a written document which is now in existence and within the control of the defendant in this action, which document must be produced to the witness and identified by him and then offered as the best evidence of its contents. Fifth, Because it is not competent to prove in this way that the statement was made under oath, the original statement being in existence and under the control of the defendant. Sixth, Because the question calls for confidential communications between the witness and his attorney, W. J. Buchan, which are privileged, and to contradict which the said W. J. Buchan can not be called as a witness. Seventh, Because the evidence called for is otherwise incompetent.)

was in the paper, that it was not necessary to have it
l to you, or words to that effect?
bjected to by plaintiff for the reason that the testimony
ed for is immaterial and irrelevant. Second, That it is
a proper cross-examination. Third, Because no conver-
ons between the witness and McDonald, or statements
le by either of them, when the plaintiff was not present
competent or admissible against her.)

re signed or swore to?

Objected to by plaintiff for the reasons that the testimony
led for is immaterial and irrelevant. Second, That it is
a proper cross-examination. Third, Because no statement
de by the witness when the plaintiff was not present is
mpetent or admissible against her. Fourth, Because it
not competent in this way to prove the contents of a writ-
statement or that such statement was made under oath.)

A. 1266. I remember of Buchan telling McDonald where he was from and the business he was following, and McDonald asked me if I was a brother of Reub. Brown's, and Buchan asked McDonald if he had the map of the state of Kansas; that was about all I remember of hearing said.

McDonald in Parkville, Platte county, Missouri, at the same time you and W. J. Buchan were there, which paper or statement you afterwards tore up and threw into the stove
553 in the office of said Buchan in the city of Wyandotte, Kansas; if not, state wherein the statement contained in said question differs from the statement above referred to, which you say you tore up in Buchan's office? Hillmon for about five years and about your having been with him for the past two years and about your being with him last March, to wit: March, 1879, at Wichita, and on the trip from there to and around Medicine Lodge in Barbour county, Kansas?

(Objected to by plaintiff on same ground as question last preceding.)

A. 1273. Yes sir, I believe there was, that was my understanding.

Q. 1274. Was there anything in that statement about you, John W. Hillmon and Levi Baldwin having a talk along about the 10th of December, 1878, about defrauding the New York Life Insurance Company and the Mutual Life of New York out of some money by means of effecting a policy or policies on the life of John W. Hillmon, or about Baldwin agreeing to furnish the money to pay the premiums and keep up the policies in case they had to be renewed or about the original agreement being to get Hillmon's life insured for fifteen thousand and about its afterwards being changed to twenty-five thousand dollars.

(Counsel for the plaintiff objects to this question and all other and further questions that may be asked of this witness touching the contents of the paper or written statement mentioned for the following reasons: 1st. That they call for testimony which is immaterial and irrelevant. 2nd. Because they are not a cross-examination concerning any matter inquired about by the plaintiff in the examination in chief. 3rd. Because the same subject-matter has been fully inquired about of this witness and he has given full and fair answers. 4th. Because such inquiries do not constitute a sufficient foundation for the impeachment of the witness. 5th. Because no statement made by the witness and W. J. Buchan, or
554 either of them, when the plaintiff was not present or to which she has not given her assent, [or] competent or admissible against her. 6th. Because it is sought by such questions and the answers thereto to prove the contents of a written document which is now in existence and within the control of the defendant to this action, which document should be produced to the witness and identified by him or in some other way, and then introduced as the best evidence of its contents. 7th. Because the questions called for confidential communications between the witness and his attorney, W. J. Buchan, which are privileged and to contradict which the said W. J. Buchan can not be called as a witness. 8th. Because the evidence is otherwise incompetent.)

A. 1277. Not that I know anything of.

I then stayed at Wichita until the 4th of March, Hillmon, in the meantime, went up to Lawrence to see his wife and get some more money. He returned about the 1st of March, and on the 5th we left on our second trip. We went due west to Cow Skin creek, then west to Harper City, then to Medicine Lodge, on by Sun City and beyond some miles, then we turned northeast down Medicine river to a camp on Elm creek, about eighteen miles north of Medicine Lodge?

(Objected to by plaintiff on same grounds as stated in objections to question No. 1277.)

A. 1279. I know of the fore part of that being in that statement; the other I don't recollect anything about.

Q. 1280. State what there was in that paper about Hillmon shooting a stranger whom you and Hillmon overtook on the first day of your second trip out from Wichita, about two and one-half miles from the town.

(Objected to by plaintiff on the same grounds as stated in objection to question No. 1277.)

A. 1280. I don't know what there was.

Q. 1281. Did not that statement implicate Hillmon as the murderer of that stranger?

A. 1281. Not that I know of.

Q. 1282. Do you say there was nothing in that paper about Hillmon shooting that stranger?

A. 1282. Not that I know anything of.

Q. 1283. Do you know whether there was or was not anything in that paper in regard to Hillmon shooting that stranger?

(Objected to by plaintiff on same ground as stated in objection to question number 1277.)

A. 1283. I don't know whether there was or not.

Q. 1284. Do you know whether there was or was not any thing in that statement about you and John Hillmon and Levi Baldwin having a talk along about the 10th of December, 1878, about defrauding certain insurance companies.

(Objected to by plaintiff on same grounds as stated in objection to question number 1277.)

A. 1284. No, sir.

Q. 1285. Do you know whether there was or was not any thing in that statement about you and John W. Hillmon going off southwest from Wichita, Kansas, ostensibly to locate a stock ranch, but in fact to in some way find a subject to pass off as the body of John W. Hillmon?

(Objected to by plaintiff on same ground as stated in objection to question number 1277.)

A. 1285. I don't know whether there was or not.

Q. 1286. Do you know whether there was or was not anything in that statement about your expecting to find a subject that would appear to be Hillmon frozen to death, and that could not be identified only by the clothes and papers found upon it and so I could pass it off as Hillmon?

(Objected to by plaintiff on same grounds as stated in objection to question number 1277.)

A. 1286. Not that I know of.

(The defendant moved to strike out the last answer of the witness because it is not responsive to the question and repeats the same question.

Q. 1287. Do you know whether there was or was not anything in that statement about your expedition to find a subject that would appear to be Hillmon frozen to death, and that could not be identified only by the clothes and papers found upon it, and so I could pass it off as Hillmon?

A. 1287. I don't know whether it was or not.

555 Q. 1288. Was there anything in that statement about this man being with you and Hillmon during all this trip, or about Hillmon proposing to you that this man would do for a subject to pass off for him.

(Objected to by plaintiff on same ground as stated in objection to question number 1277.)

A. 1288. I don't know whether there was or not.

Wednesday, February 8th, 1882, 9 o'clock a. m. The further taking of this deposition is hereby resumed pursuant to adjournment.

My commission expires April 21, 1883.

[Seal] HENRY McGREW, Notary Public.

Q. 1289. Do you remember whether you did or did not sign or swear to a statement in the office of Francis M. McDonald, in Parkville, Platte county, Missouri, on or about the 4th day of September, 1879, which, in substance, charged John W. Hillmon with murder?

(Objected to by plaintiff on same ground as stated in objection to question number 1277.)

A. 1289. Don't remember whether I did or not.

Q. 1290. Do you remember whether you signed or swore to a true or false statement at said time and place?

(Objected to by plaintiff on same ground as stated in question number 1277.)

A. 1290. I don't know what it was I signed or swore to.

Q. 1291. In what part of the statement was the portion which you say you read in Buchan's office, on the occasion when you say you destroyed that statement?

A. 1291. Right where Hillmon and I had started out from Wichita to Medicine Lodge on our trip; I don't recollect in what part it was.

Q. 1292. Have you stated fully all that you recollect of the contents of that statement; if you have not, proceed now to give in detail all that you recollect of the contents of that statement, to wit, the statement destroyed in Buchan's office by you?

(Objected to by plaintiff on same ground as stated in objection to question number 1277.)

A. 1292. That's all that I recollect of now.

Q. 1293. Have you stated all that was said to you by Buchan at your brother's house near Parkville, Missouri, on or about the 4th day of September, 1879, about your making or signing a statement, and all that was said by Buchan at all other times and places about your making and signing that statement?

A. 1293. About all that I remember of now, I believe.

Q. 1294. State anything else which was said to you by Buchan relative to your making or signing that statement, giving the time and place where the conversation occurred?

A. 1294. He told me if I would submit to that statement, or allow him to make that statement, it would be the best

thing that I could do, and that they then would let me alone; and if I didn't, they never would. And as for that statement, the insurance men would have to pay him dam- big money for it; and that he would give my brother Reub. $100.00 for a horse that he had over there, and for me to ride it over the next time I came over and that he would buy the horse from him and give him to me; that's about all I remember of now.

Q. 1295. State anything else in regard to that matter, which you remember?

A. 1295. And that he would pay me about forty dollars that his brother had owed me, and more too, because I had befriended his brother when he wasn't able to; and that he wouldn't persuade me to do anything wrong for all the money the insurance had got, and only advised me as my lawyer and a friend, and insured me that I wasn't doing anything wrong at all; and as to the statement not being true, it didn't make any difference at all, that I wasn't throwing myself liable and that it couldn't be used in law, and to convince me of that he would return me the paper and I could tear it up; and that he was satisfied and everyone else he knew, except the insurance men, that my true statements was so, and that everybody believed them; but the insurance men would break it down, as they had the money to do it with, but if they got this statement they would be satisfied, and there would be no more of it; I don't recollect of anything else just now.

Q. 1296. When and where did this conversation between you and Buchan, which you have mentioned in your last two answers, first occur or take place?

A. 1296. The conversation in general took place at Fulton's mill in Platte county, Missouri, and on the way to my brother's and about his stable and house. That's as near as I can tell you where it occurred.

Q. 1297. When did Buchan first speak to you about making a statement in this matter?

(Objected to by plaintiff because the defendant has once examined the witness on the same subject-matter.)

556 A. 1297. At Lexington, Missouri, in May, 1879.

Q. 1298. State what Buchan said to you at that time about making a statement.

(Objected to by plaintiff on same ground as the question last preceding.)

A. 1298. He first said he had come down here to see me, that my father and brother Thorn had employed him to act as my lawyer or attorney in this Hillmon trouble, between her and the insurance men; he asked me how it was, and I told him just as near as I could, and he said he knew that and had

heard of it before, and told me that wasn't the point he wanted to get at, and that I stood in a rather dangerous place, that the insurance men would never pay any attention to what I said, and that his object was to satisfy them, and then they would let me alone; and that they would not until he did satisfy them, and that all this difficulty and trouble was left with him and no one else, and whatever compromise was made would be satisfactory with them, and what he wanted to get a statement from me to make it appear that it wasn't Hillmon who was killed, but someone else. And I told him that that was something that couldn't be done, that I had done what I had and couldn't help it, and told him I didn't see how I could do it. He said he could in several different ways; that he could find somebody froze to death or find somebody killed and that all that would be changed in the testimony would be by making out that there was someone else killed besides Hillmon. I told [——] that [——] couldn't be done; says I, Bill, you know that can not be done. Says he, John, you know that I am a lawyer and could plan out anything of that kind a good deal easier that I can. I told him that I couldn't help that, that I had done what I did and to help it I couldn't. He told me that if I didn't do something of that kind the insurance men would hunt me down and make me out a murderer and a liar. He told me that he couldn't do anything for me unless I would [believed] and paid attention to him, and that it was the only way I could ever keep the insurance men away from me or off of me, and that they was hunting for me and had been, and that it was himself keeping them off the track, and that if I didn't do anything now, to keep away from Parkville or Wyandotte. I then wanted to go up to my brother's and drive team for him, he wanted me to. Says he, John, for God's sake don't do that; for to get away from Lexington. He says, I have got a hundred dollars here and I will give you fifteen dollars; that will take you away from here and find you a job somewhere else, and that he wanted to know where I was all of the time. I told him he could find out through Reub., that I was writing backwards and farwards to him once and a while; that was about the substance of the conversation there at Lexington at that time.

Q. 1299. Was there anything else said by Buchan at that time about your making a statement?

A. 1299. He said that he had it all pictured out and he could make it appear very easy in a statement, that this fellow, that got into the wagon to ride with us, was the man killed and not Hillmon; I don't remember of anything else just now.

Q. 1300. Where did this conversation take place?

A. 1300. In Lexington, Missouri, on the side of the street on some rocks leading from the river up in town, and from the

hotel down to that place, and in a beer saloon up in town, and from where we was sitting on the street to the depot, is about where all the conversation took place.

Q. 1301. Was said Buchan ever with you and Hillmon in Barber county, Kansas? A. 1301. No, sir.

Q. 1302. Did you and Buchan have any conversation about Mrs. S. E. Hillmon there at Lexington.

A. 1302. Some, yes, sir.

Q. 1303. Did you and Buchan have any conversation about Levi Baldwin there at Lexington? A. 1303. Yes, sir.

Q. 1304. State what the conversation was between you and Buchan at Lexington about Levi Baldwin?

A. 1304. Was that the insurance men claimed that this was a fraud and that Levi Baldwin knew all about it.

Q. 1305. Have you stated all that was said at that time between you and Buchan about Levi Baldwin?

A. 1305. That's about all I remember of just now.

Q. 1306. State all that was said between you and Buchan about Levi Baldwin at that time?

A. 1306. Buchan said that the insurance men claimed that he had put up the money to bear expenses; I don't recollect anything else now, that was said in regard to him.

Q. 1307. What was said between you and Buchan about Mrs. S. E. Hillmon at Lexington at that time?

A. 1307. He said that they claimed that she knew all about this and that it was a fraud and nothing of it; nothing else said about her that I remember of.

Q. 1308. Did you tell Buchan at that time that you was present when Hillmon was buried in Medicine Lodge?

A. 1308. Yes, sir.

Q. 1309. What had you done with the money which you had with you, or took with you, when you left Wyandotte for Lawrence, to go with Hillmon to Wichita?

A. 1309. I gave it to Hillmon.

Q. 1310. When and where did you give it to Hill-
557 mon?

A. 1310. When I first got up to Lawrence; don't remember where, but I think it was in some of those stores on the street.

Q. 1311. Was that before you started upon this trip to Wichita? A. 1311. Yes, sir.

Q. 1312. How much money did you let him have in all?

A. 1312. Three or four hundred dollars, as near as I remember now.

Q. 1313. Did you let him have it all at one time?

A. 1313. About all; yes, sir.

Q. 1314. At what other time besides the one you have mentioned as as being in one of the stores did you let him have money?

A. 1314. I don't remember now of ever letting him have any more money.

Q. 1315. How long was it before you and Hillmon started on that trip to Wichita in December, 1878, that you let him have this money in Lawrence?

A. 1315. A few days before.

Q. 1316. Did you take his note, due bill, or any evidence of indebtedness from him?

A. 1316. No, sir; the money belonged to him.

Q. 1317. Then you had no money of your own when you started upon this trip, had you? A. 1317. Yes, sir.

Q. 1318. From whom did you get this money which you say you let Hillmon have a few days before you started upon your trip to Wichita?

A. 1318. From the packing house over here where I sold some hogs for him.

Q. 1319. State the name of the proprietor of that packing house at that time?

A. 1319. I couldent call the name now, it was the stone packing house down here in West Kansas City.

Q. 1320. Who was present when you let him have that money?

A. 1320. I don't remember now who was present.

Q. 1321. Was Levi Baldwin present?

A. 1321. I don't recollect now, whether he was or not.

Q. 1322. Was it in the day time or in the evening that you paid this money to Hillmon?

A. 1322. I don't remember just now.

Q. 1323. Do you remember a shooting gallery there in Lawrence at that time?

A. 1323. I don't remember just now of one.

Q. 1324. Did Hillmon let Baldwin have the money which you gave him, at or about the time you gave it to him?

(Objected to by plaintiff as irrelevant and immaterial.)

A. 1324. Not that I know of.

Q. 1325. Did you not pay this money to Hillmon in a shooting gallery in Lawrence, then kept by a man by the name of Jack, in the presence of Levi Baldwin, and did not said Hillmon, then and there give the identical money which you paid him to Baldwin?

(Objected to by plaintiff as irrelevant and immaterial.)

A. 1325. Not that I recollect, not that I know anything of.

Q. 1326. Now you may state when you paid him the rest of that money.

A. 1326. I don't remember just now of paying him any more, only that one time.

Q. 1327. Did you pay him all the money at one time?
A. 1327. All that I remember of now, I did.
Q. 1328. Who else did you let have any money besides Hillmon before you went away on that trip?

(Objected to as irrelevant and immaterial.)

A. 1328. No one, that I recollect of.
Q. 1329. Was you present when the body of the man who was killed near Medicine Lodge, Barber county, on or about the 17th day of March, 1879, was first examined?

(Objected to by plaintiff as incompetent, being vague, indefinite and misleading.)

A. 1329. Yes, sir; Hillmon's body.
Q. 1330. State how much money, if any, was found upon this person.
A. 1330. Twenty-five or thirty dollars, as near as I can recollect.
Q. 1331. Was that all the money that was found then, either upon his person or among his effects?
A. 1331. All that I know of.
Q. 1332. State what part of the conversation between you and Buchan, on or about the 4th day of September, 1879, took place at or near Fulton's mill, what portion between there and your brother's house and what portion at or near the stable on your brother's farm?

(Objected to by plaintiff as incompetent, as calling for hearsay testimony and as leading and not being a cross-examination of any subject inquired of by the plaintiff, as irrelevant and immaterial.)

A. 1332. His conversation with me at the mill the first
558 time was in regard to me and him making out a statement, and that it had to be now or never, as he had kept them fellows off just as long as he could and that he was only trying to get me to do just what any one else would, and if I would consent to let him do it it wouldn't take him a great while and that I wouldn't have any more trouble about it. And the conversation was that (talked about in general), from there all the way to my brother's stable and the house.
Q. 1333. Did you and Buchan have more than one conversation at Fulton's mill in regard to this matter?
A. 1333. One conversation was all.
Q. 1334. Did you have more than one conversation with him in regard to this matter at the barn?
A. 1334. I had one before we left the barn for dinner and one after dinner.

A. 1335. I couldn't state. It was a general conversation before dinner and after, and during all the time he was over there.

Q. 1336. Had this statement been prepared by you and Buchan before dinner? A. 1336. After dinner.

Q. 1337. About what time in the day did you and Buchan finish preparing this statement?

A. 1337. About an hour or an hour and one-half, by sun, as near as I can guess.

Q. 1338. Was there any one present when you [—] Buchan had this conversation at the barn before and after dinner?

A. 1338. No one but my brother, and part of the time he was.

Q. 1339. In what part of the barn were you and Buchan when you had your conversation in regard to this matter before dinner?

A. 1339. I don't remember just now. It was inside the barn lot and a shed, I think.

A. 1340. No, sir.

A. 1346. Buchan asked my brother if he didn't think he had offered fair with me; if he didn't think he could smooth this all over and make it look plain and satisfactory without a doubt; whether it wouldn't be the best to consent to it, and

if I did he could go to the house and do it up in a little of no time, and that he had paper, pen and ink with him, and I told him that I would.

Q. 1347. Was there anything else said at that time between your brother and Buchan or yourself and Buchan?

A. 1347. My brother asked him if he didn't think I would be a laying myself liable by doing anything of that kind. He told him no, and that it wasn't lawful and couldn't be used in law, and that he would stand between me and all danger; that it was only to please the insurance men. I told Buchan if he thought it was right I would just leave it with him. He told me he wouldn't advise me to do anything but what was all satisfactory and would back me in it.

Q. 1348. Have you stated fully now all that was said about that matter when your brother was present?

A. 1349. All that I recollect of now.

Q. 1352. Where did your brother go when you and Buchan went into the house?

A. 1352. I left him out in the barn lot with Ward.

Notary Public.

My commission expires April 21, 1883.

Q. 1353. Did Ward and your brother return to the house, while you and Buchan were preparing that statement?

A. 1353. Ward didn't; my brother came in the house a time or two, while we were in there.

Q. 1354. What was your brother doing in there?

A. 1354. He just passed through the room; I don't know what he was doing.

Q. 1355. After you and Buchan had prepared this statement, what was done with it then?

A. 1356. Went to Parkville.
Q. 1357. Is it not a fact that you went to Parkville, with Buchan on that day, for the purpose of swearing to that statement?

(Objected to by plaintiff as immaterial.)

A. 1357. I wouldn't be positive whether I did or not.
Q. 1358. Do you know what you went to Parkville with Buchan on that day for?

(Objected to by plaintiff as immaterial, and because the same question has been several times asked of the witness and by the witness answered.)

A. 1358. Not positively, I don't.
Q. 1359. Did you have any purpose in going to Parkville with Buchan on that day?
A. 1359. One purpose was to see McDonald, and to see whether Buchan had the name of a town or county down on that paper right or not.
Q. 1360. What other purpose did you have in going there?
A. 1360. No other purpose that I know of.
Q. 1361. Could not Buchan have ascertained whether he had a name right without your presence?
A. 1361. I don't know whether he could or not.
Q. 1362. Did you go to Parkville with him then only to assist him in that matter?
A. 1362. Partly for that purpose, and partly because I wanted to go.
Q. 1363. Did you have other business there at that time?
A. 1363. No other business that I know of, but to go to the postoffice and get some chewing tobacco.
Q. 1364. You went to the postoffice and got some chewing tobacco that day, did you? A. 1364. Yes, sir.

A. 1365. I don't remember whether I did or did not.
Q. 1366. How long did you and Buchan remain in Parkville on that day?
A. 1366. About a half or three-quarters of an hour, as near as I can guess at it.
Q. 1367. From Parkville, where did you and Buchan go?

A. 1367. I went home to my brother's after I left him; I don't know where he went.

Q. 1368. Did you not on or about the 19th day of March, 1879, from or near Medicine Lodge, Kansas, write the following letter to the plaintiff:

"Medicine Lodge, Kansas, March the 19th, 1879.—Mrs. S. E. Hillmon: I am sorrow to state the news that I have to state to you. John was shot and killed, accidentally, by a gun as I went to take it out of the wagon, about fifteen miles north of this place. I had him dressed in his best clothes and buried in Medicine Lodge grave yard. I shall wait here until Mr. Paddock hears from you. Write to me to take charge of the team; I will dispose of them the best advantage, and take the proceeds to you; and when I get back to Lawrence I will relate the sad news to you. Probably you have heard of it before you get this letter. Yours truly, John H. Brown."

(Objected to by plaintiff because the letter is the best evidence as to what it contains and should be produced and shown to the witness, and by him identified, and because no sufficient foundation has been laid for the introduction of [of] secondary evidence.)

A. 1368. I don't recollect now whether I did or not. Mr. Paddock was writing at the same time and I don't know whether it was him or myself that wrote it.

Q. 1369. Attorneys for the defendant here present to the Notary a letter, which they ask to have the Notary mark with the letter "A" and attach his official signature and seal thereto, for the purposes of identification, which the Notary does.

Here said letter, so identified as aforesaid, is presented
560 to the witness and the witness asked to read said letter and state whether the same is, or is not, in his hand writing, and has his signature thereto?

A. 1369. Yes, sir; I would say that is my writing, and the signature is mine.

Q. 1370. Did you then write the letter just exhibited to you, to the plaintiff in this case, from Medicine Lodge about the 19th of March, 1879? A. 1370. Yes, sir.

Q. 1371. Had you written any letters or notes to her before you wrote this one?

A. 1371. None that I have any recollection of at all.

Q. 1372. Have you ever written any letter, letters, note, or notes, to her since you wrote this one exhibited to you?

A 1372. None that I know of.

Q. 1373. Do you know whether you have or have not written to her since that time?

A. 1373. I don't know that I have.

Q. 1374. Is that the only letter which you ever wrote to her before you returned to Lawrence in April, 1879?

A. 1374. All that I have any recollection of.

Q. 1375. Have you ever written her any note or letter since you left Lawrence in April, 1879?

A. 1375. None that I know anything of, unless it was a little note that I wrote from Lexington, or that Buchan wanted me to write. He wanted me to, but I wouldn't be positive whether I did or not.

Q. 1376. Have you since the 19th of March, 1879, ever made any inquiry of Mrs. Hillmon by letter or otherwise as to his—Hillmon's—whereabouts? A. 1376. No, sir.

Q. 1377. (Here attorneys for the defendant here present to the notary another letter which they ask to have the notary mark with the letter "B." and [attack] his official signature and seal thereto for the purpose of identification, which the notary does.) Look at the letter marked "B" by the notary as aforesaid and state whether the same is in your handwriting and has your signature thereto?

(Objected to by the plaintiff as incompetent, because it is not authenticated either by envelope or post-mark as a letter sent to the plaintiff, and because it does not appear that it ever was or was intended to be sent to the plaintiff, or that it was ever received by her, and as otherwise incompetent, irrelevant and immaterial.)

A. 1377. It is in my handwriting and has my signature attached.

Q. 1378. Did you not, in May, 1879, write the following note or letter to plaintiff, Mrs. Hillmon: "I would like to now where John is, and how that business is, and what shall I do, if anything. Let me know through my father." (Signed) John H. Brown.

(Objected to by the plaintiff on the same ground as stated in the objection to the question last preceding.)

A. 1378. No, sir, I never wrote that to her. I wrote that to Buchan, or for him, rather.

Q. 1379. Did you write the letter referred to in question No. 1378?

(Objected to by the plaintiff on the same ground as the question last preceding.)

A. 1379. Yes, sir.

Q. 1380. Did you write it at Lexington, Missouri, in the Month of May, 1879?

(Objected to by the plaintiff on the same ground as the question last preceding.)

A. 1380. If I recollect right it was at Lexington, Mo., in May, 1879.

Q. 1381. Was this letter written at Lexington the first time said Buchan was there when you was there?

(Objected to by the plaintiff on the same ground as the ques- last preceding question.)

A. 1381. Yes, sir.

(Objected to by the plaintiff for the following reasons. First, Because it is not competent in this way to prove the contents of a letter. Second, Because he paper shown the witness is not authenticated either by envelope or postmark as a letter or as having been sent to the plaintiff, nor does it otherwise appear in the evidence that it ever was, or was intended to be sent either by mail or otherwise to the plaintiff, or that it had ever been set to her. (Objected to by the plaintiff because the same subject-matter has been fully inquired into by the defendant on cross-examination, and the answers of the witness has been full and explicit, and because the question is otherwise incompetent, irrelevant and immaterial.)

A. 1485. In the neighborhood of Orrick, in Ray county, Missouri, and close to Glascow, Missouri, in the neighborhood of Higginsville awhile, and several other places a short time.

Q. 1486. Did you ever get any reply to the inquiry which ou made at Lexington as to the whereabouts of Hillmon?

Re-Examination by the Council for the Plaintiff.

Q. 1. You were asked in your cross-examination about the paper marked "B," a note addressed to Mrs. Hillmon. State who were present besides yourself when you wrote that note.
A. 1. My brother Reub, Buchan and myself was all.
Q. 2. Who, if anybody first suggested the writing of that note?

(The defendant objects to the foregoing question for the reasons: First, That [is] is not a re-examination upon any matter drawn out upon the cross-examination. Second, Because it is leading and calls for the conclusions of the witness. Third, Because it calls for incompetent, irrelevant and immaterial testimony.)

A. 2. Bill Buchan begged of me to write it for him; that it didn't amount to anything anyway.

(The defendant moves to strike out all of that portion of the last answer of the witness after the word that, because the same is not responsive to any question.)

Q. 3. You have testified to a conversation between yourself and Buchan at Lexington, Missouri, in which conversation he proposed to you that you should make a certain state-

ment in relation to the person who was killed near Medicine Lodge. Now state whether it was before or after his request to you to make such statment that he suggested your writing the note to Mrs. Hillmon.

(Objected to by the defendant on all the grounds stated to question No. 2 of the re-examination, and on the additional reason that the recitals and assumption of fact in said question are not correct; and the defendant also objects to the recitals preceding said last question and moves to strike the same out, because they form no part of the question and are incompetent as evidence.)

A. 3. It was after that that he suggested to me write the note.

Q. 4. Now state all the circumstances attending the writing of that note marked "B," stating specifically what was said and done by each of you?

(Objected to by defendant on the same ground as stated in objection to question No. 2.)

A. 4. He told me that he had come way down here for my benefit, and that I hadn't given him any satisfaction at all, and asked me if I wouldn't write this for him, asking Mrs. Hillmon where John was and what I must do, and to let me know through my father. I told him that it was the funniest question I ever heard a man ask, and that I didn't see what he meant by it. He told me that it didn't amount to anything if I was to ask where a dozen Hillmons was at; that there was no stamp or envelope about it. I told him if it was any satisfaction to him I would write it for him. He told me then that he was employed as my attorney, and that if I didn't take some steps towards giving him any satisfaction on his trip down here he couldn't do anything for me. That was about the substance of the conversation there about that.

Q. 5. State what you did, if anything.

(The defendant makes the same objection to the above question as stated in objection to question No. 2, of re-examination.)

A. 5. He pulled a book and piece of pencil out of his pocket and I wrote it. During the conversation he told me he had a hundred dollars and that he would give me fifteen dollars, that would be enough for me to get away from there and find a job of work, and he got on the train and left.

(The defendant moves to strike out all of the last answer of the witness after the words, "I wrote it," for the reason that said portion of his answer is not responsive to the question and otherwise incompetent.)

Q. 6. After you wrote the paper what did you do with it?
A. 6. I gave it to Buchan.
Q. 7. What, if anything, was said by either you or Buchan as to what he was to do with the paper?

(Objected to by the defendant because it is not a cross-examination, because it calls for incompetent, immaterial and irrelevant testimony.)

A. 7. He said he would give it to my father; that he only wanted it to show to the insurance men.
Q. 8. Have you been asked in your cross-examination about a coroner's inquest held at Lawrence in April, 1879. State what attorneys, if any, conducted the examination of the witnesses at that inquest.
A. 8. Mr. Barker and Mr. Green.
Q. 9. Do you mean the same Mr. Barker and Mr. Green who are present here at the taking of this deposition, representing the defendant?
A. 9. Yes sir, the same two men.
Q. 10. Your attention was directed, in your cross-examination, to a conversation between you and Buchan at Lexington about Levi Baldwin and Mrs. Hillmon, and you gave certain statements made by Buchan as to what the insurance men claimed as to Baldwin and Mrs. Hillmon, now state what Buchan said in relation to Levi Baldwin, and what you replied to it, if anything.

(The defendant moved to strike out the preamble to said question because the same is not correct, but is improper and incompetent as evidence, and objects to said question because it is not a re-examination of any new matter drawn out upon the cross-examination, is leading, and calls for incompetent, irrelevant and immaterial testimony.)

567 (Withdrawn by plaintiff's counsel.)

Q. 11. You have stated on your cross-examination that shortly after you and Buchan had prepared the statement at your brother's house near Parkville you saw Mrs. Hillmon at Levi Baldwin's, state now the circumstances, under which you went to Levi Baldwin's at that time; stating who, if anybody, suggested your going and giving all the circumstances and conversations in detail.

(The defendant moves to strike out the preamble to said question to wit, all which precedes the words "state now," for the reason that the same is an improper statement to make to the witness and is incompetent as evidence, and the defendant objects to said question for the following reasons, because it is not a re-examination upon any new matter called out by

the cross-examination, is leading, and calls for incompetent, irrelevant and immaterial and hearsay testimony.)

A. 11. Bill Buchan sent me there to tell her what we had done. I went there and seen her and told her that Buchan wanted me to come up here and see her. She wanted to know what business Buchan wanted with her. I told her that we had made out a statement in regard to her case. She wanted to know what it was. I told her that Buchan could tell her better than I could, and she said if Buchan wanted to know anything about that business or trial that he could go and see her lawyers, and she wanted to know what I meant about that statement, and I told her if she carried on that suit I couldn't appear for her as a witness. I told her that I couldn't now and wouldn't, and that if she would see Buchan he could explain it to her better than I could as he wanted to see her anyway and would meet her anywhere, at Leavenworth, Wyandotte, except at Lawrence, and he could explain to her all about it; that was about the substance of our conversation there, as well as I can remember now.

Q. 12. Now state what Buchan said to you when he sent you there, state all that he said.

(The defendant objects to the above question for the reason that it is not re-examination upon any new matter drawn out upon the cross-examination and calls for incompetent and hearsay testimony.)

A. 12. Says he, John you go up there and see Mrs. Hillmon, and while I am up there I needn't be alarmed or afraid, that he would go to Lawrence while I was up there, and would keep them from arresting me while I was gone and see that I wasn't arrested or molested at all, and asked me if I had the money to go on and I told him yes, and he pulled out five dollars and gave me, and said that would bear my expenses, and for me not to fail to see her and persuade her, if I could, to give him the policies which she held against the insurance companies, and to tell her that this was all a fraud of Hillmon's being dead, and to tell her I had made that in the statement, and be sure and have her promise to meet him some where soon, as near as I can recollect that was about the substance of the conversation.

Q. 13. Where did you go from Baldwin's house at that time? A. 13. Back to Wyandotte.

Q. 14. Did you see Buchan there, if so, state what you said to him?

(Objected to by the defendant for the reason that it is not a re-examination of any matter inquired of or called out by defendant on its cross-examination of the witness; second, Be-

cause it calls for incompetent, immaterial and hearsay testimony.)

A. 14. I seen Buchan and told him what I had done and that Mrs. Hillmon had promised to meet him in Leavenworth the next day, and I told him she would never give him up the policies or believe any of this stuff we had made up, I didn't think. He told me he wanted me to go up with him, and to not be uneasy any time I was over there for they wouldn't bother me as long as he said for them not, and so we went up to Leavenworth the next morning.

(The defendant moves to strike out all of that part of the witness' statement, he told me, as not being responsive to the question, being a voluntary statement on the part of the witness.)

Q. 15. State what, if anything, he said to you at that time about his having been at Lawrence while you were at Baldwin's, and about his business there.

(Objected to by the defendant on the same ground as the question last preceding, and as being suggestive and leading.)

A. 15. He told me he had been up to Lawrence, and had told them fellows that I was up there and that he didn't want them to bother me or arrest me, and to not arrest me while I was over here.

Q. 16. When you went to Baldwin's at this time did you take with you the statement which you and Buchan had prepared at your brother's?

(Objected to by the defendant on the same ground as the objection made to question 14.)

A. 16. No, sir.

Q. 22. What kind of a building is it, and where is it situated?

A. 24. About the same time.
Q. 25. By the same train that you went in on or another?
A. 25. She came in on a different train.
Q. 26. What time in the day or night did you leave Leavenworth, and for what place?
A. 26. I left about 5 o'clock in the afternoon of the same day, for Wyandotte.
A. 27. Did Buchan or Mrs. Hillmon leave at the same time you did?
A. 27. No, sir; I left them there at the hotel.

Buchan called me into the room where they were and Mrs. Hillmon asked me if this was the kind of business Mr. Buchan wanted to see her about, and Mrs. Hillmon asked me to explain myself, and I asked her if Buchan hadn't expla[—] his business to her, and she, Mrs. Hillmon, said that she didn't understand this at all and wanted to know what I meant, and I told her that I meant what I had said and what Buchan had told her and would be compelled to stand by it. Then Mrs. Hillmon asked Mr. Buchan if he thought he was doing just to her and everybody else, and he told her that he was and wouldn't do otherwise, and Buchan asked her if she didn't believe what he had been telling her and what I had told her, and whether now she wouldn't consent to give him an order for them policies on the insurance companies, and she told him that she had no right to do that, and he told her that she was the only one that had any right to do it, and Mrs. Hillmon told him that if she did give him an order for them she didn't believe he could get them, and Buchan told her that he would

make that all right whether he got them or not, and he wrote out an order for them, and if I am not mistaken he had me sign my name to it as a witness. That was about the substance of the conversation had there.

Q. 36. What, if anything, was said by Buchan at that time and place to Mrs. Hillmon about her being able to recover against the insurance companies the amount of her pol-

Q. 37. Which left the hotel first of the parties you have named?

(Objected to by the defendant for the same reasons as those offered to question 14.)

Q. 40. About how long were you present in the room during that interview?

A. 50. I went up in the office and found Buchan and Mrs. Hillmon there and spoke to them. She told Buchan she wanted to see that statement he was talking about, and he showed her the paper and she looked at it, and turned around to me and asked me how I dared to make such a statement as that, and wanted to know my reasons for it and why I had done it, and I told her that I had done that and would stand by it, and Buchan pulled out a piece of paper and showed it to

her, or he read it first rather, then handed it to her and she handed it back to him and told him that she had no use for that; then Buchan handed me the statement that we had made out, and said, here, John, is that paper that I promised to return back to you, and he said I could take it and destroy it or tear it up, or do as I pleased with it, and I tore it up and put it in the stove, and then Buchan told me that, that now was forever settled and that there wouldn't be any more trouble about this matter at all, and that, that was the end of it, and, says he, John, there ain't the scratch of a pen against you about this difficulty anywhere, only my true statement that I had made at Lawrence, and that I was free to go anywhere, was about the substance of the conversation as well as I can recollect now.

Q. 51. Which left Buchan's office first on that day, you or Mrs. Hillmon? A. 51. I left there first.

Q. 71. State whether or not he vaccinated the stranger you took into your wagon, about 2 or 3 miles out from Wichita, and who as you say remained with you some two or three days?

Q. 78. You have stated in your cross-examination that Levi Baldwin came to see you at your brother's house in July, 1879, state if you know what he came for.

(The defendant moved to strike out all that portion of the foregoing question preceding the words, what he came for, for the reason that it is an improper method of examining the witness; second, It is not a re-examination of any subject-matter brought out by the defendant on the cross-examination; third, It calls for incompetent, immaterial and irrelevant testimony.)

A. 78. He came to see me in regard to Mrs. Hillmon's law suit against the insurance companies, and that she had sued the insurance companies for her money and that her attorneys wanted to see me.

(Objected to by the defendant on same ground as question last preceding.)

A. 84. No, sir, I didn't learn.

Q. 85. When did you first learn the amount of insurance upon Hillmon's life, and from whom or how did you learn it?

Q. 95. They took the lid off of the coffin and looked at the body, and then they ripped the coat sleeve and shirt sleeve [—] of his arm and examined his arm where he was vaccinated, and they examined his mouth and the place where he was shot; that's all I noticed they particularly examined.

Q. 97. Mr. Wiseman made the remark after he had cut his sleeve off, that there was the vaccinate on his arm sure enough, and the doctor made the remark after he had examined his mouth, why, said he, he hasn't any false teeth. Levi Baldwin made the remark, he hasn't any false teeth; the doctor made the remark after he had examined his teeth, that his teeth were sound.

(Same objection as to question last preceding.)

A. 98. No, sir, he didn't have any missing.

Yes, sir; he wanted to know if I had seen Mrs. Hillmon or any of her lawyers, or whether I had done anything in regard to her trial, and wanted to know of me if I wouldn't consent to do what he wanted me to do down at Lexington, and whether I intended to or not; and then he wanted to know how I expected him to act as my attorney without I would take his advice. I told him as to his advice I didn't know that he

ight be right about it; and then he told me there would ever be anything wrong in it, and as he was a lawyer he ught to know, and then he wanted to know what Levi Bald- in wanted. I told him he had come down here to see me in gard to Mrs. Hillmon's trial or suit, and that her lawyers anted to see me. Then Buchan told me to not go near them, nd to not sign any statements or anything whatever and to eep away from them and to not do anything until he seen e, and that he would tell me when to do anything of that ind. This was about the substance of his statement to me.

A. 16. I don't recollect who it was, it might of been himself.

Q. 17. For what purpose did you go up there?

A. 18. I couldn't say for certain whether I knew or not.

Q. 19. Did John W. Hillmon and Levi Baldwin ever trade clothes with each other to your knowledge?

A. 19. I knew only by them telling me.

Q. 20. Did Hillmon ever tell you they traded clothes?

Q. 21. Did he show you the suit which he had secured in the trade? A. 21. Yes, sir.

Q. 22. What became of that suit do you know?

A. 21. He wore it part of the time, and afterwards he was buried in it.

Q. 22. How much taller do you say that Hillmon was than you?

A. 22. He was an inch or an inch and one-half taller.

Q. 23. Do you arrive at that by judgment or actual measurement? A. 23. Only by judgment.

Q. 24. How tall a man do you say he was?

A. 24. I guess he was five feet and between ten and eleven inches.

Q. 25. Is that estimate with his boots on?

A. 26. Yes, sir.

Q. 27. When were you measured, and with whose rule?

Q. 28. And you had your boots on when measured?

A. 28. Yes, sir.

Q. 29. Will you now allow yourself to be measured in your stocking feet? A. 29. Yes, sir.

A. 31. Yes, sir.

Q. 32. Did you ever stand up with him to measure with him? A. 32. Yes, sir.

Q. 33. And you found that he was taller than you?

A. 33. Yes, sir.

Q. 34. When do you say you first learned that Hillmon had an insurance on his life?

A. 34. On our first trip, at Medicine Lodge.

Q. 35. Had you ever heard Hillmon talking about getting his life insured before that time at Medicine Lodge?

A. 35. No, sir.

Q. 36. Did you not hear him talk in regard to insurance before you and he went to Wichita in December?

A. 36. No, sir.

Q. 37. Did you not state at the law office of George J. Barker, at Lawrence, Kansas, in the fore part of April, 1879, in the presence of said Barker, Mr. Tillinghast and others, as follows: "I first knew about his insurance when Mr. Baldwin came to Medicine Lodge after Hillmon's death. Mr. Levi Baldwin stated that he was insured for a small amount. I heard Hillmon talking in regard to insurance before we went to Wichita in December."

A. 37. I don't recollect now whether I stated that or not.

Q. 38. Referring now to the time you went to Baldwin's after you had made the statement at Parkville, please state how long it was after this statement had been prepared that you went to Baldwin's?

A. 38. A few days afterwards. I don't think it was over three or four days at the outside.

Q. 39. Where were you when Buchan, as you say, asked you to go and see her at Mr. Baldwin's?

A. 39. I was at Buchan's office.

Q. 39. How did you happen to be at Buchan's office at this time?

A. 40. He told me after he had made out the statement to come over in two or three days, or sent for me, I wouldn't be positive which.

Q. 41. If he sent for you, how did he send?

575 A. 41. I don't know, unless it would be by my father.

Q. 42. What did he want you for at this time?

A. 42. He wanted me to go up to Baldwin's and see Mrs. Hillmon.

Q. 43. For what purpose did he want you to see Mrs. Hillmon.

A. 43. To see if she wouldn't give him the policies she held against the insurance companies.

Q. 44. How did he propose to obtain these policies from her?

(Objected to by plaintiff as incompetent, as calling for the opinion of the witness as to Buchan's plans, and not calling for what was said by Buchan.)

A. 44. For me to go up there and tell her that we had made out a statement that would injure her, and it wouldn't do for me to go on the stand to appear again her, and that Buchan wanted to see her. Buchan wanted me to see her and have her meet him somewhere and he would convince her that she couldn't gain the suit, and to tell her that we had made out a statement contrary to the two statements I had made and that this was all a fraud, that this wasn't John W. Hillmon's body but was someone else's.

Q. 45. Then Buchan directed you to go up and see Mrs. Hillmon and tell her that you and he had prepared a statement together, did he? A. 45. Yes, sir.

Q. 46. And that that statement was a different statement than the true one which you had heretofore given?

A. 46. Yes, sir.

Q. 47. Were you directed to tell her what was in this statement that you had prepared?

A. 47. Partly. Yes, sir.

Q. 48. What part was you to inform her of?

A. 48. That it wasn't John W Hillmon, but some other man that was killed.

Q. 49. Was that the only portion of the statement that you was to tell her?

A. 49. The only portion that I recollect of that I was to tell her.

Q. 50. How long was you at Baldwin's at this time?

A. 50. About a day and a half, if I remember right.

Q. 51. You had an interview with Mrs. Hillmon at this time, did you? A. 51. Yes, sir.

Q. 52. Now please state all that was said during that interview?

A. 52. I told Mrs. Hillmon that I had come up here to see her about this suit she had again the insurance companies, and I told her that Bill Buchan had sent me up for that purpose, and Mrs. Hillmon wanted to know what business Buchan had with her, and I told her Buchan said that she never would recover her money against the insurance companies if she brought suit against them, and that Buchan and I had made out a statement contrary to the statement I had made at Lawrence, and that it would compel me to testify again her if I went on the stand. Mrs. Hillmon told me she didn't un-

derstand me and wanted me to explain myself, what I meant, and I told her I meant about what I said, and that if she would go and see Buchan that he would explain it to her better than I could. She said she had no business with Mr. Buchan and that if he wanted to see anything about her law suit that he could go to Lawrence and see her lawyers; and I told her that Buchan was anxious to see her and would meet her anywhere except Lawrence, and that he could explain matters to her better than I could. That was about the substance of our conversation there.

Q. 53. Did you tell her at this time that the dead body which was brought to Lawrence was not the body of her husband, but that of some other person? A. 53. No, sir.

Q. 54. Where was she first told that that body was not the body of her husband? A. 54. At Leavenworth.

Q. 55. Did you tell her at this time anything that is contained in that statement?

A 55. I told her that we had made out a statement—Buchan and I—that it was some one else besides Hillmon.

Q. 56. What did she say to that?

A. 56. I don't recollect now what she did say.

Q. 57. Did you tell her that in this statement which you had prepared, that you had stated this man came to his death at the hands of her husband? A. 57. No, sir.

Q. 58. Then all you stated to her of those things which are contained in this statement was that the body was some other person than Hillmon?

A. 58. All that I recollect of now.

Q. 59. Who was present during this conversation?

A. 59. Mrs Hillmon and myself was all.

Q. 60. Where was Baldwin at this time?

A. 60. About the house somewhere, I don't know where now.

Q. 61. Did you have more than one interview with Mrs. Hillmon at Baldwin's at this time, about her insurance matter?

A. 61. I had two, one in the evening and one the next morning, about the same conversation.

Q. 62. Was that the evening of the day on which you arrived?

A. 62. If I am not mistaken, it was the second day after I got there, I am not positive.

Q. 63. What time in the day did you leave there to return home?

A. 63. Sometime in the forenoon, I don't know just what time.

Q. 64. State as nearly as you can.

A. 64. About nine or ten o'clock, if I remember right.

Q. 65. Was Baldwin present at either of these interviews?

A. 65. No, sir.

Q. 66. Did Baldwin know what your business was at his place at his time?

A. 66. Not only by what I told him that I know of.

Q. 67. What did you tell him?

(Objected to by plaintiff as incompetent and immaterial.)

A. 77. I told him that I wanted to see Mrs. Hillmon about her suit against the insurance companies, and that Bill Buchan from Wyandotte had sent me up there to see her, that was about the substance of it that I recollect now.

Q. 78. If there was anything further please state.

A. 78. I don't recollect just now of anything that was said.

Q. 79. Did you not state to him for what particular purpose you came up? A. 79. No, sir.

Q. 80. Did you at any time while you were there?

A. 80. I think not, if I recollect right.

Q. 81. Was it talked over in his presence by you and Mrs. Hillmon? A. 81. No, sir.

Q. 82. Did he ask you why you wanted to see Mrs. Hillmon about her insurance matter? A. 82. Yes, sir.

Q. 83. What answer did you give him?

A. 83. I told him that if she would go and see Mr. Buchan that he would tell her the reasons.

Q. 84. Did he want to know why Buchan wanted to see her?

A. 84. He didn't ask why he wanted to see her, he said he didn't know what business Buchan wanted with her.

Q. 85. Did you tell him at this time that you had made this statement?

(Objected to by plaintiff as incompetent, as calling for statements made by the witness to Baldwin when the plaintiff

was not present, and as otherwise incompetent, irrelevant and immaterial.)

A. 85. No, sir.

Q. 86. State the exact conversation had between you and Mrs. Hillmon at your first interview at Baldwin's.

A. 86. I told her that Bill Buchan wanted me to come up there to see her in regard to her suit again the insurance companies. Mrs. Hillmon wanted to know what business Mr. Buchan had with her suit. I told her that Buchan and I had made out a statement and that if she did bring suit again the companies that I would be compelled to testify again her, and she wanted to know what I meant by talking that way. I told her I had and would be compelled to stick to it and would stick to it, and that if she would go and see Buchan he could explain it to her better than I could. That is about the substance of our conversation that I recollect now.

Q. 87. Was that all that was said at this time?

A. 87. All that I remember of now.

Q. 88. Did she ask you at this time why you would have to testify against her if called as a witness?

A. 88. I don't remember now whether she asked me that or not.

Q. 89. What do you mean by the expression, "I told her I had and would be compelled to stick to it."

(Objected to by plaintiff as incompetent, the language speaking for itself, and as immaterial.)

577 A. 89. I meant that I had made out that statement.

Q. 90. Did you tell her at this time anything that was contained in that statement?

A. 90. Not that I recollect of now.

Q. 91. Did she ask you what that statement contained at this time?

A. 91. Yes, sir, I told her that Buchan could tell her.

Q. 92. What did she say to that?

A. 92. She told me that she didn't understand me, nor Mr. Buchan either.

Q. 93. Was it at this interview you told her that the body which was brought to Lawrence, and over which an inquest was held, was not the body of Hillmon? A. 93. No, sir.

Q. 94. When did you tell her that?

A. 94. I think it was the next morning I told her the statement Buchan and I had made out was that it was the body of someone else and not Hillmon.

Q. 95. Did you inform her of the character of the evidence which you would be compelled to give if called as a witness?

(Objected to by plaintiff as incompetent as calling for the opinion of the witness as to the character or effect of his evidence, and because it does not call for the conversations between the parties upon that subject.)

A. 95. No, sir.

Q. 96. Did she ask of you at this time why you would be compelled to testify against her?

A. 96. Yes, sir, I think she did.

Q. 97. What answer did you give?

A. 97. I told her if she could go and see Buchan, he could give her the reasons why.

Q. 98. Did she ask what you would testify to if called as a witness? A. 98. No, sir, not that I recollect of.

Q. 99. Did you tell her at this time that Buchan wanted to get [up] the policies which she had against the insurance companies, or words to that effect?

A. 99. I told her that Buchan wanted to get the policies that she had against the insurance companies.

Q. 100. What answer did she give to that?

A. 100. She said that Buchan had no right to them policies.

Q. 101. Was it at this interview that you told her that Buchan would meet her at Wyandote, Leavenworth or any place except Lawrence? A. 101. Yes, sir.

Q. 102. What reason did Buchan give [of] not wanting to meet her at Lawrence?

A. 102. I don't know as he gave any.

Q. 103. Did he not say to you why he did not wish to meet her at Lawrence, but would meet her at either of these other places? A. 103. Not that I recollect of.

Q. 104. Your second interview was the next morning, I believe? A. 104. Yes, sir.

Q. 105. Now will you state all that was said by each of you at that interview?

A. 105. I have just been stating what was said the next morning, the same conversation about.

Q. 106. State if you please the conversation had between you and Mrs. Hillmon at this interview the next morning?

A. 106. I told Mrs. Hillmon that if she brought suit that Buchan and I had made out a statement and that I would have to testify again her, and in that statement it stated that it was the body of someone else and not the body of Hillmon. Mrs. Hillmon made the remark that she knew her husband when she see- him and that she knew that that was him, and that she didn't understand Mr. Buchan or me either; and I told her that Buchan wanted to see her at Leavenworth or Wyandotte, any place except Lawrence, and would explain the matter a good deal better than I could, and what I done I

would have to swear to; that was about the substance of the conversation, as well as I can recollect of now.

Q. 107. Did you state to her at this time that you would be compelled to swear to the statement contained in this paper which had been made out, if you were called as a witness?

A. 107. I told her I would do it, or be compelled to do it, I don't know which I used.

Q. 108. And you informed her at this time that this statement contained the statement that this body which was brought to Lawrence was not the body of her husband, Mr. Hillmon?

A. 108. I informed her that in that statement it stated that it was not the body of Hillmon but of some one else, as Buchan told me to tell her that rather than to have her miss to come to see him.

Q. 109. Did you have any conversation with Baldwin this morning about this matter?

A. 109. None in particular, that I recollect of.

Q. 110. Did you prevail upon Mrs. Hillmon to meet Buchan? A. 110. Yes, sir.

578 Q. 111. At which of these interviews did she consent? A. 111. The next morning before I left.

Q. 112. Did you inform her at either of these interviews that this statement was prepared and was now in the hands of Buchan? A. 112. Yes, sir, I told her that Buchan had it.

Q. 113. The next morning after you left Baldwin's you three met at Leavenworth, did you?

A. 113. No, sir, the second morning after.

Q. 114. Did she inform you while you were at Baldwin's where these policies were that she held against the companies?

A. 114. I don't recollect just now whether she did or not.

Q. 115. What was the first conversation you had with her at Leavenworth at this time?

A. 115. I asked her if Buchan didn't explain things to her satisfactory. She says no, he hasn't, nor didn't. Buchan then asked her if she didn't believe that was [—] one else besides her husband, and [—] says, Mr. Buchan don't you think I know my husband when I see him. She said that was him there at Lawrence, and that he was buried there and that she didn't want him to talk to her in that kind of a style and try to make her believe that that wasn't her husband; and he said to her, of course I know that and believe that as far as that is concerned. He told her that if she brought suit against the companies that I would testify again her; and I told her that I would. I told her that she had better take Mr. Buchan's advice; that he said that the insurance companies never would and never calculated to pay her the money. That was about

the substance of the conversation as far as I recollect. I wasn't in the room with them much.

Q. 116. How long was you in the room with them at this time?

A. 116. I was in the room an hour or an hour and a half. I was out of the room a time or two during that time, for the reason that I wanted to have as little to say to her as I could.

(The defendant moves to strike out all that part of the answer commencing with the words, "for the reason." First, Because the same is not responsive to the question. Second, Because it is incompetent and immaterial.)

Q. 117. Did you have any further conversation with her that day?

A. 117. Not that I recollect of, particular just now.

Q. 118. What did she say to you the next time you met that day about this business?

A. 118. I don't recollect just now what was said.

Q. 119. When she said, I know that's my husband and he is buried there at Lawrence, what did you say in reply thereto? A. 119. I don't recollect of saying anything.

Q. 120. Were you in the room with them again that day?

A. 120. Yes, sir.

Q. 121. Did you have any further conversation with them about this matter at that time?

A. 121. They were talking of the policies being in the hands of a lawyer there at Leavenworth. I didn't have any conversation particular with them myself.

Q. 122. How many times were you in the room with those parties that day?

A. 122. Two or three different times.

Q. 123. Was she told in your presence that day what is contained in this statement, further than it stated that this was not the body of Hillmon but of some other person?

A. 123. No, sir.

Q. 124. Did you tell her at that time, or any other, that you would have to testify that there was a conspiracy formed between Hillmon, Baldwin and yourself to defraud the insurance companies out of some money? A. 124. No, sir.

Q. 125. Did you inform her that the statement contained that? A. 125. No, sir.

Q. 126. Did you inform her at Baldwin's or at Leavenworth that this statement had been, or was, to be shown to the companies or their lawyers? A. 126. No, sir.

Q. 127. Was she so informed to your knowledge either at Baldwin's or at Leavenworth? A. 127. No sir.

Q. 128. Then, if I understand you correctly, all you did state to her was that if you should be called as a witness in

any suit that she might bring against the companies on the policies which she held against them you would be compelled to or would testify that the body brought to Lawrence was not the body of Hillmon but that of some other person?

A. 128. That is about all I recollect now of telling her.

Q. 129. And you so stated to her, did you not, to induce her to surrender up the policies which she had against the companies to Mr. Buchan? A. 129. Yes sir.

579 Q. 130. You knew at the time that this statement was false and that if you should so testify it would be false testimony, did you?

A. 130. Yes sir, I knew it was a false statement.

Q. 131. And you did all this to please Buchan?

A. 131. Yes, sir.

Q. 132. Was Hillmon usually in good health while you knew him?

A. 132. As far as I knew, I thought he was a pretty healthy man, I never knew of his having any spells of sickness.

Q. 133. Was he ever sick in bed while you knew him?

(Objected to by the plaintiff as irrelevant and immaterial.)

A. 133. Not that I recollect of now.

Q. 134. Did you, Buchan and Mrs. Hillmon meet by appointment after you came from Leavenworth?

A. 134. No sir. Buchan told me to come up in his office next morning.

Q. 135. Was it the next morning after you had met at Leavenworth that you three met at Buchan's office, at which time he handed you the statement and you destroyed it?

A. 135. Yes sir, the next morning.

Q. 136. Are you positive that it was the next morning that you destroyed that paper?

A. 136. Yes sir, I feel positive that it was the next day, I may possibly be mistaken, but I don't think so now.

Q. 137. What did he wish you to come up in his office for?

A. 137. That he would give me that statement as he had promised.

Q. 138. When you went up there he handed you the paper, did he?

A. 138. Yes sir, he handed it to me after I went up there.

Q. 139. Did Mrs. Hillmon read the paper at that time?

A. 139. She was looking at it, I suppose she read it.

[A.] 140. What did she say as to the contents of the paper?

A. 140. She didn't say anything in regard to the contents of it that I know of, only she wanted to know how I dared to do anything of that kind, that I knew that that was her husband as well as she did.

Q. 141. What did you say in answer to that?

A. 141. I don't recollect just what I did say.

Q. 142. You say that Buchan showed her a paper, what paper was that, if you know?

A. 142. I don't know what paper it was, he read it and handed it to her. I wasn't paying attention when he read it.

Q. 143. Did he read it aloud?

A. 143. He didn't read it very loud.

Q. 144. Did he read it so you could hear it if you desired to? A. 144. Yes sir.

Q. 145. After Mrs. Hillmon had finished that paper, that is the statement, what did she do with it?

A. 145. She handed it back to Buchan.

Q. 146. Buchan then handed it to you, did he?

A. 146. Yes sir.

Q. 147. And you tore it up and put it in the stove in the presence of Buchan and Mrs. Hillmon?

A. 147. Yes sir, I tore it up and put it in the stove.

Q. John W. Hillmon? A. (No answer—Rep.)
Q. What do you say as to his height; about what was his height? How tall was he?
A. Five feet ten, or six feet; somewhere in there close. Nearly six feet I would suppose.

581 Q. Nearly six feet?

A. Six feet. I should say five feet eleven and one half inches, or six feet.

Cross-examination.

Questions by Mr. Barker:

Q. You state you are a veterinary surgeon?

A. Yes sir.

Q. Practice your profession in Lawrence, do you?

A. I do.

Q. How long have you lived in Lawrence?

A. Ten years.

Q. Where did you come from there?

A. Bloomington, Illinois.

Q. You stated that you knew John W. Hillmon? When did you become acquainted with him?

A. I think it was in the fall of 1879.

Q. You are mistaken in regard to that evidently.

A. I don't know. I don't say positively 1879; somewhere near that.

Q. Your best recollection was that you became acquainted with him in 1879?

A. Yes sir, somewhere along there.

Q. Then you only knew him a short time?

A. One winter; along in the fall and winter, during that time.

Q. What was he doing when you knew him?

A. He was not doing anything that I know of—no business that I knew of.

Q. Your acquaintance with him was confined to Lawrence—what you saw of him there? A. Yes sir.

Q. Are you intimately acquainted with him, or did you only have a casual acquaintance with him, see him occasionally? A. I saw him quite often.

Q. Was he not away from there during the winter of 1878 and 1879?

A. I could not tell you sir. I would see him occasionally—well, quite often you might say. We both lived on the same street for awhile; we walked together quite often going home of an evening.

582 Q. What do you state in regard to his height?

A. I suppose he was nearly six feet, sir.

Q. That is a mere supposition, is it not?

A. I am guessing at his height just the same as I would yours or anybody's else.

Q. You are just guessing at his height? A. Yes sir.

Q. And you estimate him at six feet?

A. Yes sir, five feet eleven and a half inches or six feet.

Q. Do you remember the color of his hair, his mustache, and his whiskers? A. Yes sir.

Q. Do you remember how he wore his hair and whiskers at that time? Look at that and see if that is the manner in which he wore his mustache and whiskers at that time?

A. I didn't know him when that was taken.

Q. How do you know when that was taken?

A. I don't.

[—] Well, then, I asked you if he wore his mustache and whiskers in that manner.

A. He wore a mustache a little longer than mine and chin whiskers.

Q. I am asking you if he wore them as in that picture?

A. They seem to be larger and more of them; they were longer when I knew him.

Q. Are you able to recognize that picture?

A. Some parts of it—yes sir.

Q. What is that a picture of?

A. I should say it resembled him.

Q. You think it was a picture of Hillmon, do you?

A. It resembles him.

Q. Do you recognize that picture? I just ask if you recognize it, not to state who it is. (Picture handed to witness—Rep.) What do you say in regard to that? (Witness
583 turned picture over and looked at the back.) You don't have to look at the back of it to recognize it, do you?

A. No sir, not at all.

Q. Do you recognize that picture at all?

A. No sir, I don't think I do.

Q. Do you recognize this one (Handing witness another picture—Rep.)

A. Something from there above (illustrating by placing his hand on lower part of picture.) I don't see anything to them below.

Q. The lower part don't look like Hillmon?

A. Not to me.

Q. The upper part does. A. Somewhat.

Q. Is it a close resemblance at all?

A. Not very. Yes, you can tell.

Q. Do you know whether that is a picture of Hillmon at all or not? A. I do not.

Q. Then you can't tell whether that is a picture of Hillmon or not? A. The upper portion resembles Hillmon.

Q. I want to know whether or not you recognize that as a picture of Hillmon, and swear that it is a picture of Hillmon? A. I would not do it, sir.

Q. Do you remember the color of Hillmon's hair?

A. Yes sir, I think I do.

Q. You think you recollect that? A. Yes sir.

Q. Now, how were you enabled to recognize these remains which were brought there as the remains of Hillmon?—By what mark, what peculiarity, what feature?

A. By the general appearance, size of the man, the high cheek bones. I examined his hands—picked them up. I didn't stay very long. His head was to the east and feet to the west.

584 Q. I was asking you if there was any peculiar or particular mark by which you recognized those remains? A. No sir.

Q. Simply by the general appearance?

A. Yes sir, by the general appearance.

Q. You didn't recognize him by his hand, did you?

A. No sir, not particularly.

Q. You only gave that as an incident? A. Yes sir.

Q. Were those remains well preserved when you saw them? A. Not very well preserved—no sir.

Q. What day did you see the remains, do you remember?

A. I don't sir.

Q. Do you remember whether they had been interred at the burying ground when you saw them?

A. They had not, no sir.

Witness dismissed.

Q. State as near as you can?

Q. That is as definite an answer as you can give to that question, is it? Do you know when she was married?

A. She was married in the winter.

Q. State when she was married, giving the date definitely.

A. I couldn't give you the date.

Q. She was married in the winter of what year?

A. She might have been married in 1878, and it might have been in 1879.

A. Yes, sir.
Q. You mean by your house, your mother's house?
A. My mother's house.
Q. Where was she living at that time?
A. In a story and a half house on the corner of Henry and Alabama streets.
Q. In Lawrence? A. Yes, sir; in Lawrence.
Q. You stated, I believe, that Mr. Hillmon lived there after he was married? A. Yes, sir.
590 Q. Did he live there before he was married?
A. Yes, sir.
Q. How long?
A. Two or three weeks, or three or four; I wouldn't say positive. He was backwards and forwards. He was buying stock and boarding there.
Q. He boarded there how long after he was married?
A. It might have been two and it might have been three weeks before they went to house-keeping, and it might not have been so long.
Q. Then they went to keeping house in one room there at your house? A. Yes, sir.
Q. And they were keeping house in that manner when Mr. Hillmon went away? A. Yes, sir.
Q. Do you remember when he went away?
A. I don't,—not the date.
Q. Do you remember the season of the year?
A. It was in the winter time.
Q. Could you tell what year it was in? A. I could not.
Q. Now, at the time he went away, how long had you known him?
A. I had seen him several times off and on during the year before.
Q. Had you had any acquaintance with him until he came to board at your house? A. Yes, sir, I had.
Q. What was the extent of that acquaintance?
A. I had seen him at Mrs. Hillmon's several times, and got acquainted with him there.
Q. Now, after he went away in the winter, how long was he gone before he came back again?

Q. Were you at home on the day on which they left—Brown and Hillmon? A. I was.

Q. But you don't remember when that was?

A. No, sir, I don't—the date nor the day of the week.

Q. Now, I believe you stated that Hillmon was measured, Hillmon and two other persons. When was that,—in what year?

A. That was after they was married and keeping house up stairs. The marks is on that door yet I expect, if it has not been painted.

Q. You were present on that occasion? A. I was.

Q. And remember who else was measured? A. Yes, sir.

Q. Who else was measured?

A. Miss May Baldwin and myself.

Q. Did you do the measuring? A. Part of it.

Q. Who did the other part?

A. Mr. Hillmon, I think. I wouldn't say positive, but I think it was him.

Q. Do you remember of testifying at the coroner's inquest in regard to his height? A. No, sir.

Q. You remember of being sworn there, do you not?

A. I don't know whether I was sworn there or not.

Q. Did you not, at the coroner's inquest in Lawrence, Kansas, in 1879, testify as follows: "Do you remember how tall Mr. Hillmon was," and did you not say, "I never heard him say."

A. No, sir, I don't remember that I testified to that.

Q. Can you say whether you did or not? A. I could not.

Q. Did you not, in answer to that question, on that
592 same occasion, as to how tall you should judge him to be, say "Between five and six feet; he was not six feet, I know."

A. I don't remember whether I said that or not. I might have said it and I might not.

Q. You have no recollection in regard to it now?

A. I don't remember it, no, sir.

Q. Did you at that time testify that he was five feet eleven and one-half inches high? A. No, sir, I believe not.

Q. Did you not testify as I have stated, that he was between five and six feet?

A. I may and may not. I don't remember what I testified.

Q. Your recollection of his height would be as good in 1879 as it would now, I presume? A. I should think so.

Q. Now, when did you first discover or remember that he had been measured up there?

A. I could not remember that exactly.

Q. You testified on the trial of this case here three years ago did you not? A. I did.

Q. Didn't you testify on that occasion that you recollected the fact that he was measured there just before that trial came on?

A. I don't think I did,—not exactly in those words.

Q. Did you not state that in substance,—that you recollected the fact that he was measured just before the trial?

A. I don't know that it was just before. It may have been some time before.

Q. I am asking you if you didn't testify on the former trial of this case, that you recollected the fact that he was measured there, just before that trial came off?

593 A. I don't remember whether I did or did not.

Q. Is it not a fact that you did recollect just before that trial the fact that he was measured?

A. I don't remember.

Q. You don't remember then, when it first occurred to you that he was being measured there?

A. I remember his being measured there.

Q. And you don't remember anything about it if you testified on the coroner's inquest?

A. I don't remember. I don't believe I was asked.

Q. Then you don't believe you were asked how tall Hillmon was?

A. I don't believe I was. I know I was not asked very many questions at the coroner's inquest.

Q. Can you state now when it first occurred to you that he was measured there,—when you first remembered the fact that he was measured?

A. I remember distinctly that he was measured there.

Q. That does not answer my question. When did it first occur to you? A. I don't remember exactly.

Q. You said somebody was talking about it?

A. We were speaking about it at home.

Q. Who was speaking about it? You and Mrs. Hillmon?

A. I don't remember whether Mrs. Hillmon and I was speaking about it or not. I don't remember whether she was present at the time or not. She might have been and might not have been.

Q. Did you not, on the last trial, testify that Mrs. Hillmon called your attention to the fact that Hillmon was measured about two weeks before the trial?

A. I don't know whether I did or not.

Q. You don't recollect?

A. I don't remember whether I did or not.

594 Q. You don't recollect very definitely what you did testify to on that occasion, do you?

A. I don't remember now. I have been sick and my memory is not quite as good as it used to be. I was sick all winter.

Q. And your memory has been affected by your sickness?

A. I don't know as it has. It might and might not have been.

Q. I understood that was the reason that you gave, that you had been sick and it affected your memory. Which one of the party measured five feet nine inches?

A. Miss May Baldwin.

Q. And the other was your own measurement?

A. Yes, sir.

Q. Now, did you say that you recollected anything in regard to Mr. Hillmon's teeth?

A. I don't. I don't remember whether I—

Q. Do you recollect anything in regard to his teeth?

A. I don't.

Q. Have no recollection in regard to them at all?

A. No, sir, I never noticed them in particular.

Q. Look at that photograph. Do you recognize that?

A. I didn't recognize it before.

Q. I am not asking what you did before. Your memory may have improved.

A. It is a very poor picture. I didn't remember of knowing the person at that time.

Q. Do you know it now?

A. I have been told who it was.

Q. How did you recognize this body that came there as the body of John W. Hillmon?

A. By general appearances as near as I could see.

Q. I understand, then, that from the general appearance it was your judgment that that was the body of Hillmon?

A. Yes, sir.

595 Q. There was no special marks by which you were enabled to identify it, were there?

A. The hair and mustache, and the resemblance and features.

Q. Now, do you say that you identified it by the hair and mustache?

A. I could not say positively to that alone. By the general features.

Q. What I was trying to get at was whether there was any peculiar feature or mark by which you were able to identify it? A. None that I know of.

Q. The remains were in such a condition that you were able to identify them without any difficulty, were you—so well preserved that you were able to identify them?

A. It was pretty well preserved. But that is something I don't understand myself. I don't know whether it was well preserved or not; but the features were there. Of course it didn't look as natural as life.

Witness dismissed.

596 The plaintiff next read in evidence the deposition of Mary Judson, taken on the 23d day of May, 1883, in the city of Lawrence.

It is admitted by the parties that Mrs. Judson is dead. Said deposition was thereupon read to the jury and is in words and figures as follows, to wit:

A. They were good and sound so far as I knew.

Q. Could he have had a missing upper front tooth, the absence of which was noticeable when talking or laughing, and you not know it?

The defendants object to the question as incompetent, irrelevant, immaterial and calling for the conclusion of the witness.

The Court overruled the objection to which action of the Court the defendants and each of them then and there duly excepted.

A. No, he could not.

Q. Did you ever notice his hands as to their shape
597 and characteristic marks if any? A. I have.

A. I can't tell just how long it was after, but it was within a day or two. I don't remember if any was with him or not.

The defendant objected to all the testimony in Mrs. Judson's deposition touching the conversation between Selig and Tillinghast and Mrs. Hillmon and Mrs. Judson.

The Court sustained the objection to which action of the Court the plaintiff then and there duly excepted.

612 A. Why, he had wrote a letter to me for me to come over, he wanted to see me; I believe I got two letters from him.
Q. You got two letters from Buchan?
A. I think it was two before I went over, yes.
Q. Did you go in to see him as requested in the letters?

Counsel for the defendants object to any statement of what was contained in the letters. The Court sustained the objection, to which ruling of the Court the plaintiff duly excepted.

Q. What has become of those letters?

A. Well, sir, I couldn't tell you; they were destroyed, or throwed away, or something; never kept them.

Q. Have you seen them lately? A. No sir.

Q. Have you looked for them? A. No sir.

Q. After you received those letters, did you call on Buchan? A. Yes sir.

Q. How long afterwards?

A. Yes sir—Well, it couldn't have been more than a couple of days after I got the first of the letters before I went over; I was real busy at that time.

Q. Did you have a conversation with Buchan at that time?

A. Yes sir.

Q. You may go on and state what conversation you had with Mr. Buchan at that time.

The defendants object to the question because it calls for incompetent, irrelevant and immaterial evidence. The Court overruled the objection, to which ruling of the Court the defendants at the time duly excepted.

By the Court: I assume that by this question and others of a similar character, you propose to show Buchan's connection with this case, in so far as it led up to the execution of these releases.

By Mr. Hutchings: That is the object of this testimony.

Q. Go on and state the conversation that you had with Buchan.

A. I found Mr. Buchan in his office, and he wanted to know if I knew where John were; I told him that I did not
613 but I thought I could find him; he wanted I should go and look him up; he said he had got himself into a bad scrape and my father and brother had employed him for his attorney, and he wanted to do all he could for John and wanted I should go and hunt him up immediately.

Q. Anything further said?

A. Well, that was about the amount of the conversation.

Q. Well, what did you say to him about whether you would go and hunt him up?

A. I told him I would; I would go out and look for him; that I didn't know exactly where he was, that he had gone down to look for work.

Q. After that conversation with Buchan, what did you do, if anything, about looking him up?

A. I got on the train and went down and found him at Orrick.

Q. Where is Orrick, where is it situated?

A. It is down in—I don't know how far it is from Kansas City, probably 12 or 15 miles, on the north side of the river, right along the river.

Q. Now, then, when you found your brother John H. Brown at Orrick did you communicate to him what Mr. Buchan had said?

The defendant objects to what took place between the brothers as immaterial. The court overruled the objection to which ruling of the Court the defendants duly excepted.

Q. Go on and state.

By the Court: The question was, did you communicate to him what Buchan said?

A. Yes, sir, I told him just exactly what Buchan had said.

Q. Did you request him to go back with you to Buchan's?

The defendants object to the question as leading.

By the Court: It is leading.

Q. What, if anything, did you say to him with reference to going back with you?

A. I told him he had better go back with me and see Buchan and have this thing straightened up, that he was liable to be arrested, from what I could understand Buchan
614 to say that there was a warrant out for him and he was liable to be arrested at any time, and he wanted to see him and have a talk with him and have this matter straightened up.

Q. What did he say with reference to that?

A. He said he could not do anything more than he had done, he had told the truth at that inquest up there, or trial at Lawrence, and he couldn't do anything more.

Q. What did you do then?

A. I came back and saw Buchan and told him what brother John had said.

Q. When did you next see Buchan?

A. I saw him, I think, it was the next day, probably two days afterwards; I wouldn't be positive now, but it was a short time afterwards.

Q. Where was it you saw him?

A. I went over to Wyandotte and saw him.

Q. Did you have a conversation with him on that occasion?

A. Yes.

Q. You may state that conversation.

A. I told him what brother John had said and he wanted I should go with him and see if we could not get a statement from John different from what he had made, and have this matter straightened up; my father and my brother Tom had employed him as John's attorney, and he said he wasn't getting anything for his trouble, but he was willing to get John out of trouble if he had got into any; so we got ready and went down to Lexington.

Q. Who got ready and went to Lexington?

A. Buchan and myself.

Q. With reference to the time that you had this conversation, when did you start to go to Lexington?

A. We started sometime in the morning; left Wyandotte.

Q. Of the same day or when?

A. On the same day, yes, sir.

Q. How did you go to Lexington?

A. We went down on the train from Kansas City; Buchan went over in a buggy to the Kansas City depot and went from there down on a train.

Q. Who paid your fare?

A. Mr. Buchan paid the fare there and back.

Q. What time did you get to Lexington?

A. It was about eleven o'clock, I should judge ten
615 or eleven, probably half past ten or eleven o'clock; somewheres right in there.

Q. Whom did you meet there in Lexington, if anybody?

A. We met my brother, John Brown?

Q. Where was he at that time; where was John Brown?

A. He was near the depot.

Q. Did you have any conversation, did any conversation take place then between Mr. Buchan and John Brown in your presence? A. Yes, sir.

Q. State what was said at that time?

A. About the first thing Buchan said, "Well, old fellow, you have got yourself into a heil of a scrape, ain't you?" I think that is the words he used.

Q. Used by whom? A. Buchan.

Q. To whom?

A. To brother John. And he says, "Reuben and I have come down here now to help you out of it, and we haven't got very long to stay; we want to talk fast and get this matter in shape so we can go back on the evening train." I think those were the words spoken.

Q. Go on and state what further, if anything, was said on that occasion between you?

A. My brother told Mr. Buchan, he says, "I have made a true statement, and I can't change it at all." He says, "What I have stated is the facts, and I can't change it," and Buchan kept at him——

The defendants object to the answer and insist that the witss shall state what was said and done.

y the Court:

State what he said and did as near as you can.

A. He told him that he wanted him to make a statement; said there was a warrant out for him and he was liable to arrested at any time, and he didn't want him arrested; he anted him to make some kind of a statement so he could have e warrant stopped, or stayed for a while, at least.

Q. I wish you would go right on and state what further was id by either one of you in the conversation; state it as fully as you can?

A. Brother John told him repeatedly that he could not make any other statement than he had already ade; that he didn't fear anything from it at all; we went and our dinner; nothing was said much while we were in the tel eating dinner. After dinner, Mr. Buchan told me to k to John, and see if we couldn't get some kind of a statent out of him, a letter to Mrs. Hillmon or something of the nd, so he could show to the insurance company that it s not as first stated, to satisfy them; that is what he wanted do to get John out of trouble; John held out that he couldn't ke any other statement——

The defendants ask to have the last statement of the witness icken out as not proper evidence.

the Court:

That is another way of saying that John repeated what he l said before. The Court overruled the motion, to which ion of the Court, the defendants then and there duly exted.

Q. Go on.

A. I got at him to give Buchan some kind of satisfaction; I l him that Buchan had always been our friend, and that her and my brother, Tom, had employed him to look after s, and keep him out of trouble, and if he could do him any od, why to do so, and he declared he could not make any er statement, and finally, just before train time, Buchan s, "Here, John," he says, "Give me a letter to Mrs. Hillmon ing where John is. John Hilmon." He said that would a funny kind of a letter; that wouldn't do any good. Bun says, "You write it and I will word it, to Mrs. Hillmon, ing where John is, and where can I see him or when can I him, hear from him; that is about all there was in the er. John signed his name and asked Buchan if that would him any good.

Q. Who did you say wrote it?

A. John Brown wrote it.

Q. Who did you say dictated it?
A. Buchan dictated it.
Q. Now, what was done with the letter?
A. Buchan put it in his pocket.
617 Q. What did you do th-n?
A. We got on the train and came back.
Q. Do you remember the wording of that letter?
A. That was the wording as near as I can recollect.
Q. I wish you would state that again.
A. Asking Mrs. Hillmon where he could find, where he, where is John, and where can I find him, and when can I see him or hear from him; when can I hear from him? That was about all there were in the letter to my knowledge.
Q. Did you see the letter and read it yourself?
A. No sir, I just heard him, Buchan dictate, and seen John writing it.
Q. You are giving your recollection from what you heard at the time? A. Yes, sir.
Q. What, if anything was said at that time, about John H. Brown's turning state's evidence?
A. Why, he had asked him before this to turn state's evidence and John told him he never could do it because he had done nothing wrong and that the statement he had made was true, and that he couldn't tell any other story, and he didn't propose to turn state's evidence.
Q. After the writing of this letter how long did you remain at Lexington?
A. We didn't remain but a few minutes until train time.
Q. Where did you go them?
A. We came back to Kansas City, Wyandotte, rather.
Q. When did you next see Buchan?
A. I next seen Buchan at my house.
Q. When; how long after this trip to Lexington?
A. Well, it must have been three months; maybe two or three, somewheres along in there; I don't recollect just the exact time now, but I know it was quite a little bit.
Q. Returning to Lexington, you say you came away from there; who came away? A. Buchan and myself.
Q. Where did John Brown—did he remain at Lexington?
A. He remained at Lexington.
Q. During the time of that conversation at Lexington, do you remember whether or not anything was said in relation to money?
618 A. Why, yes, Buchan asked him if he needed any money; John told him he wasn't quite broke; Buchan handed him fifteen dollars and told him that would pay his board and get him farther away, that would pay his board a week and get him farther away.

Q. Coming back to the next time you saw Buchan after the visit at Lexington, where did you see him next?
A. At my house in Platt county.
Q. Was anybody with him at that time?
A. Yes, a man by the name of Ward came over with him.
Q. Who was Ward?
A. Afterwards I understood he was a deputy sheriff or constable of Wyandotte county.
Q. Were you acquainted with Ward at that time?
A. No, sir, I had heard of him but was not acquainted with him.
Q. Did you know that Buchan was coming there that day before he came? A. No, sir.
Q. Where was John Brown at that time?
A. He was at work right close by.
Q. Who was he working for? A. He was working for me.
Q. What was he doing?
A. He was hauling lumber or wood; don't know which one it was that day; he generally hauled wood a while and then lumber from the sawmill.
Q. How did Buchan and Ward come there?
A. They came over in a buggy.
Q. You may state what took place there, what was said between you and Buchan at the time he and Ward came there?
A. Buchan asked me where John was and I told him.
Q. What did you tell him?
A. I told him John was probably up there at the mill or if he wasn't he was on the road to the depot with either lumber or wood and he would probably meet him on the road; he got to the mill and found John.
Q. Where were you when you told him this?
A. I was near the house in the barn lot.
619 Q. Who was present?
A. No one except this man Ward who was with him.
Q. Where was Ward at that time?
A. He was in the buggy with him.
Q. Was Buchan also in the buggy then? A. Yes, sir.
Q. What did Buchan do or where did he go after you had the first conversation with him?
A. They went to hunt John up about the mill.
Q. What did you do; where did you go?
A. I knocked around the house there.
Q. Did they come back again; did Ward and Buchan return again to the house? A. Yes, sir.
Q. Did they bring John with them? A. Yes, sir.

By Mr. Barker: It seems to me he is leading the witness.
By the Court: Yes, that question is leading.

Q. When they came back with John Brown, what did they do; what was done?

A. They put their teams up and after they put the teams up Buchan came to me and wanted me to talk to John, and see if he would not turn state's evidence; that there was a warrant out for his arrest and he was liable to be arrested anyhow; he said the deputy sheriff here was along and he didn't want John to be arrested if he could possibly help it; he wanted me to talk to John and do all I could towards getting him to turn state's evidence. He repeatd that father and my brother had employed him as John's attorney, and he wasn't getting anything out of it himself, but he was doing it for to get John out of trouble because we had been acquainted a good many years, and I had a talk with John and done all I could.

Q. Did you and Buchan have a conversation with John there after your return to the house? A. Yes, sir.

Q. Was that before or after the conversation that you have testified to between you and Buchan?

A. I think that was after I talked to John; I am not positive but I think it was after; I talked with John first; I think Buchan had spoken to John on the road down there about what he came for and what he wanted him to do. I
620 think the first thing Buchan told me was to have a talk with John and see what I could do.

Q. What, if anything, did Buchan say in relation to having talked with John about it? A. At that time?

Q. Yes, or at any time there that day?

A. Well, he had a talk with John when I wasn't present; they took a walk up in the orchard and were gone some little time, and then after that Buchan came to me and he said John seemed to be determined that the statement he had made was true, and he couldn't change it one bit, and he couldn't do nothing with him and he wanted me to talk to him again and see what I could do. I got to talking to him, and he says, "Reub, I have told the truth."

Q. Who was it that said that? A. John Brown.

Q. Yes, go on.

A. And he was going to stick to it, and he didn't see why Buchan should try to persuade him to do something contrary to the statement that he had made, the truth, and he wasn't going to vary from it.

Q. Well, what further was said, if anything?

A. Well, Buchan then got John and I together and went off to one side, and I talked to John and told him that I thought Buchan would not ask him to do anything that would lead him into any trouble, and I thought it best to do as Buchan asked him to do, and he still repeated that he had told the truth. He says, "Reub, I can't change it; that is my statement, and it

is true, and I can't change it," but we pinned him down so close and he was afraid that the officer that was with Buchan—I made sure that he would be arrested if there wasn't some change made in the—

The defendants object to the statement of the witness as to what he made sure of as incompetent, irrelevant and immaterial.

By Mr. Hutchings: I understand this to be his method of stating it.

By the Court: It is objectionable unless he told John Brown.

621 A. That is what I told my brother John Brown.

Q. I wish you would state that; you say that you made sure; what did you mean by that?

A. I made sure, I told him I made sure he would be arrested if he didn't make a statement in the way Buchan wanted him to, to turn state's evidence, or something of the kind, or write a letter of some kind showing that it was the way Buchan wanted him to do. He finally agreed to write some kind of a letter and they went then into the house, in the hall, and got a table and was there writing a letter.

Q. Who did the writing? A. Buchan did the writing.

Q. How long were they engaged there in that work?

A. Well, I think as near as I can recollect probably an hour.

Q. Where were you during that time?

A. I was knocking around the house; Ward and I was together a little while and then I passed through the hall a time or two from the house to the barn.

Q. Did you hear any conversation between them while they were engaged in writing this paper?

A. No, sir, if I did I didn't know what the conversation was; I heard them talking but didn't understand what they were talking about.

Q. After they got through this writing, what, if anything, was done?

A. We hitched up Buchan's buggy, and I saddled a horse or two, and all four of us went to Parkville.

Q. Who was it suggested going to Parkville, if anybody?

A. Buchan.

Q. Well, what did you observe after you got in Parkville?

A. From Parkville?

Q. In Parkville.

Q. Why, Buchan and John went up to the justice of the peace office, I believe his name was Donald.

Q. How long were you there?

A. Why, I don't think more than half an hour or such a matter.

Q. What was done then?

A. I couldn't tell you, I wasn't with them; we got ready to go home; we all come home together, that is, down to
622 the turning off place; Buchan and Ward went on to Kansas City and John and I came on out home.

Q. When did you next see Buchan if at all?

A. I don't think I saw Buchan any more; I don't recollect when I did see Buchan after that.

Q. At that time about how old was your brother John?

A. Well, I will have to kind of study that up.

Q. Well, approximately? A. About thirty, I think.

Q. Was he older or younger than you?

A. Younger than I am.

Q. How much younger?

A. He is four years, I believe, or five.

And in answer to cross-interrogatories propounded to him by Geo. J. Barker, Esq., counsel for the Mutual Life Insurance Company, one of the defendants, the witness testified as follows, to wit:

Q. Have you told all that was said there?

A. Why, as near as I can recollect; the substance of what was said.

Q. Now, is it not a fact and have you not so testified before, that Mr. Buchan told you not to bring him up there but he would go down and see him?

A. And that Buchan had always been a particular friend of ours, and he said, "You have got yourself into a terrible scrape, and he wanted to see you and have a talk with you, and see if he couldn't straighten it up.

Q. Is that all you said to him? A. No sir.

Q. Go on and state all you said to him?

A. I don't recollect word for word all that I did say, but I did tell him I thought whatever Buchan asked us to do, him or any of us, we ought to do it because we knew that Buchan had always been a friend to us, and never had any trouble, that father put confidence in him, and I thought whatever Buchan wanted us to do that we had better do it, that he might get himself into a terrible scrape if he didn't listen to Buchan and do as Buchan wanted him to. He says, "Reub, I will never, I can never change my statement I made in the first place; it is the truth and I can't make a change in it."

Q. Is that all that he said?

A. That is about all the substance of the conversation.

Q. Now, what did he say about going up to see Buchan; I understood you to testify on your direct examination that you urged him to go and see Buchan and he said he wouldn't do it? A. I don't know as I urged him to go up.

Q. That he had made this statement and that he could not change it for Buchan or anybody else; that was your idea wasn't it? A. Yes.

Q. Mr. Buchan up to that time had never said a word about changing the statement, had he? A. Yes sir.

Q. When and where?

A. Not direct to me, only through brother Tom.

Q. You had had no conversation, you and Mr. Buchan had never had any conversation in regard to that?

A. Only that time when I met him when I went down to see John.

Q. I am speaking before this conversation between you and John? A. Yes sir.

Q. And you had another conversation with him, did you, there? A. Yes sir.

Q. What did you tell him there?

A. I told him that I had found John and had a talk with him.

Q. Did you tell him where John was? A. Yes sir.

Q. Did you tell him he was down at Orrick? A. Yes sir.

Q. Tell all that was said there now between you and Mr. Buchan on that occasion. Don't let anything escape.

A. I don't recollect just word for word, but the main talk was about John. Buchan wanted to see him, he said he must see him, and we got on the train and went to Lexington.

Q. You have stated all you recollect of the conversation between you and Mr. Buchan on that occasion, have you?

A. Well, it was about wanting to see John—

Q. Now, I want you to state what was said, and all there was in regard to it. You told him where John was, you had been to Orrick and had seen John? A. Yes sir.

Q. You told him he was down there? A. Yes sir.

Q. Mr. Buchan said he wanted to see him? A. Yes sir.

Q. And you said you would go down with him, didn't you?

A. Yes sir.

Q. And that very same day you did leave, you and Mr. Buchan for Orrick? A. For Lexington.

631 Q. How far is Lexington from Orrick?

A. I don't know; it can't be far.

Q. About how far?

A. I would just [giess] about ten miles.

Q. How did it happen that you saw your brother John at Orrick and then you and Mr. Buchan went to Lexington to see him the next day?

A. Because brother John was going to Lexington.

Q. You made arrangements then, did you, with your brother John, it was understood that you and Mr. Buchan were to meet him at Lexington the next day?

A. No sir, I didn't make any arrangement.

Q. It commenced near the depot, and you walked along, did you, to near the hotel? A. Yes, sir.

Q. What else did Mr. Buchan say?

A. Well, he told John that he had got himself into a scrape, and he had come.

Q. I was inquiring in regard to this conversation at Lexington. You had told me the first thing, I think, that Mr. Buhan said, and I asked you what was the next thing he said, that is, after he said [said] to John that he had gotten into a bad scrape; what was the next thing that was said between them?

A. He said, "John, I have come down to see you and have a talk with you to see if I can't get this thing straightened up. He says, There is a warant out for your arrest, and you are liable to be arrested and put in jail at any time, and he says I want to help you out of it if you will—

Q. Anything else that he said?

A. And he wanted John—

Q. No, I want you to state what he said as near as you can; I want all that he said, now.

A. I could not state exact word for word all that he said.

Q. Are you sure that he said on that occasion there was a warrant out for John? A. Yes, sir, sure of that.

Q. You testified in this case in 1895 and 1896, did you not; I beg pardon; you testified in this case in 1895, did you not; you testified in this case in 1895, did you not, before Judge Thomas at Topeka?

A. I think that was about the date, yes, sir.

Q. In your testimony there, did you say that there was nothing said about a warrant that you recollected of on that occasion; do you understand my question? A. Yes, sir.

Q. I will ask you if in 1895, before Judge Thomas,

633 you did not testify that you had no recollection of there being anything said about a warrant on that occasion?

A. I think that was the time.

Q. I know, but do you recollect testifying in that way? before Judge Thomas? A. No, sir.

Q. Do you recollect what you did testify in regard to that matter before Judge Thomas in 1895? I am calling your attention to Mr. Buchan saying anything about a warrant?

A. I think though that at Lexington as near as I can recollect now—

Q. Did you testify that Mr. Buchan said there was a warrant out for him, in 1895? A. Yes, sir.

Q. In 1895, did you testify that Mr. Buchan said that there was a warrant out for John Brown's arrest when he was at Lexington? A. I think I did.

Q. You have stated all you recollect of Mr. Buchan stating up to that time?

A. He told John if he couldn't do something for him,—I talked to John awhile—

Q. What do you say Mr. Buchan said?

A. He asked him if he couldn't do something for him; that he had come down to see him and try to get him out of that trouble, and wanted to do something to show that he was trying to do all he could for him, as father and brother Tom had employed him as attorney, and he wanted the insurance company, he wanted John to give him a letter of some kind, or turn state's evidence or something.

Q. What did he say in regard to having John turn state's evidence on that occasion?

A. Well, sir, I don't recollect if I gave that in Topeka; I don't recollect.

Q. I am not asking you anything about Topeka; I am asking you now what Mr. Buchan said to John about John turning state's evidence?

A. I think he wanted him to do it at that time.

Q. What did he say? A. He said he couldn't do it.

Q. I know, but what did Mr. Buchan say to John in regard to that; give the substance of his language in regard to turning state's evidence?

634 A. I believe the substance of it was that he had better do it.

Q. That is, Mr. Buchan told John he had better turn state's evidence? A. Yes, sir.

Q. What did John say to that?

A. He said he couldn't do it, he had made a true statement and he couldn't vary from it.

Q. Was that before or after you and John had a talk?

A. It was neither one; we were all together; that is, when that conversation was going on.

Q. You state what Mr. Buchan said and what John said; what did you say?

A. I would speak up once in a while and urge John to do something.

Q. State as definitely as you can what you said?

A. I told John that he had better do it.

Q. That is, you meant by that, that John had better turn state's evidence? A. Yes, sir.

Q. You advised John to turn state's evidence, did you?

A. Well, yes, advised him to do it because I thought that Buchan—

Q. I am not asking that; I am asking what you did state; I am not inquiring for your thoughts. You advised him to turn state's evidence? A. Yes, sir.

Q. What else was said there?

A. John was so determined—

Q. State what was said, Mr. Brown, as near as you can remember; I don't expect you to give the exact language but the substance.

A. I could not state word for word what was said as it was said.

By the Court: Remember, Mr. Barker, that this conversation occurred over twenty years ago.

By Mr. Barker: I am only asking for the substance of the conversation. What I want to get at is what was said and done after Mr. Buchan advised him to turn state's evidence and after Mr. Brown had advised him to turn state's evidence, what was said?

A. The substance was that both done all we could to get John to do something, either write a letter or turn state's evidence or do something of the kind to satisfy Buchan;
635 we thought—

Q. I cannot permit you to state what you thought. Then I understand—see if I am correct in regard to that—you and Buchan advised John to turn state's evidence? Is that a fair statement? I say you and Mr. Buchan both advised John to turn state's evidence; I say you and Mr. Buchan both advised John to turn state's evidence did you not?

A. I don't know that we advised him but we asked him to.

Q. You and Buchan both asked him to turn state's evidence? A. Yes.

Q. And John declined to do so? A. Yes, sir.

Q. What was the next thing that was said?

A. The next thing was said, when we found out John wasn't going to do anything of the kind Buchan got at him to write a letter.

Q. I want to ask you again: What did you understand by turning state's evidence? A. Well, really I didn't know.

Q. You didn't know what turning state's evidence was?

A. No, I really did not.

Q. You mean to say now that you didn't know what turning state's evidence was? A. No.

Q. How old a man are you? A. I am 54 years old.

Q. You are 54 years old? A. Yes, sir.

Q. Didn't you testify in this matter at Topeka and state that you did know what turning state's evidence meant?

A. Why, I don't recollect.

Q. Didn't you state before Judge Thomas on the trial of this case that you understood that turning state's evidence meant turning from truth to falsehood; did you not so state that you understood turning state's evidence meant turning from truth to falsehood and were you not asked in the same connection if you advised your brother to do so and you stated you did? A. I don't recollect what I said then.

Q. You don't recollect in regard to that?

A. No, sir.

636 Q. Now, the next thing is in regard to a letter; you said there was some conversation in regard to a letter, was there? A. Yes, sir.

Q. State what you say that conversation was?

A. Mr. Buchan got at him, and he says, "You must do something for me," he says, "Write me a letter if you won't do nothing else," and then I got at him.

Q. State what you said to him.

A. "John, I would do as Buchan says if nothing more than write that letter for him." John says, "That would be a great letter," worded like Buchan wanted him to word it. Buchan says, "John, can't you do that for me," and pulled out a paper and pencil, and, "John," he says, "You do that any way." He says, "Write me a letter," and John took the paper and pencil and wrote it.

Q. Now, I will ask you in regard to that: Where did John get the paper on which the note was written?

A. Buchan gave it to him.

Q. Where did Buchan get it? A. I could not tell you.

Q. Did he take it out of a note book or did he take a piece of paper out of his pocket, tear it out of a pass book or get it out of his pocket?

A. I don't know whether he tore it out of a book or not.

Q. Now, where were you when you were talking about that letter?

A. We were close to the depot standing on the side of the railroad track.

Q. At Lexington, Missouri? A. Yes, sir.

Q. Now, where did John write that letter, I mean, did he write it on a book, on the bottom of a flat car, or the side of a car? A. He wrote it up against a car.

Q. He wrote it up against what kind of a car, a box car?

A. I couldn't tell you; it seems to me it was like a coal car.
Q. A coal car or a flat car?
A. I am not positive about what kind.
Q. I don't want to misunderstand you; you say he wrote it on the side of a coal car?
A. I don't recollect whether it was a coal car or not;
637 I say on a car; it might have been a box car for all I know.
Q. What would be your recollection; was it on the side of a box car?
A. It was on the side of the car; I couldn't state positive.
Q. Then he put that paper up against the side of a box car and wrote that letter against the car; that is a fair statement of it, is it? A. Yes, sir.
Q. That is a fair statement of it, is it; he wrote it against, or put the paper up against the side of a car and wrote the letter.
A. I don't know whether it was against the side; he was probably standing up so he could lay it down on the boards.
Q. I will ask you if in 1895 you did not testify that he wrote that on the bottom of a flat car, that note, referring to the same note, on the bottom of a flat car?
A. It might have been on the bottom, but it was on the end that projected out.
Q. I will ask you if you did not testify in 1895 before Judge Thomas that he wrote that letter on the bottom of a flat car? A. I don't recollect.

Counsel for the plaintiff objects to the questions for the reason that they do not tend to contradict the witness, and are not inconsistent with his former testimony.

[Q.] By the Court: There is no real difference between you, as to whether he wrote the letter on the bottom or top of a car or what kind of a car it was, unless to test the recollection of the witness.
By Mr. Barker: It is to show that the witness does not know whether it was written on the top, or the side or the bottom of a car or on a book.

The Court overruled the objection, to which ruling the plaintiff duly excepted.

Q. Now, I will ask you if you did not testify before Judge Brewer in 1885 that he wrote that letter on a book, holding the book in his hand? A. Well, sir, I don't recollect.
Q. I will ask you if you have not testified in regard to this matter that he wrote it on the bottom of a flat car,
638 that he wrote it on the side of a box car, and that he wrote that letter on a book, holding the book in his

hand; if you have not testified in these various ways in regard to that letter?

Counsel for the plaintiff objects to the question for the reason that it does not fix the times of the trials.

Q. I will ask you if you remember whether in 1885, you did not testify that John wrote that letter on a book, holding the book in his hand. Objected to and not answered.

Q. I will ask you if you didn't testify before Judge Shiras that he wrote it on the side of a car, Judge Shiras in 1887?

A. I don't recollect.

Q. I will ask you if you didn't testify in 1895 before Judge Thomas that he wrote it on the bottom of a flat car?

By the Court: He answered that question.

Q. At the same time before Judge Thomas, in 1895, did you not state that the letter might have been written partly on the side of a box car, partly on the bottom of a box car, and the bottom of a flat car; I will ask you if you didn't testify that the letter might have been written partly on the side of a box car and partly on the bottom of a flat car?

A. I don't recollect sir.

Q. You say that letter was given to Mr. Buchan by your brother there at Lexington, and that you and Mr. Buchan went away and left your brother there at Lexington?

A. Yes, sir.

Q. About what time did you go away?

A. It was in the afternoon probably half-past three.

Q. Where did you go?

A. I went back to Wyandotte, and from that on over home to Platte county.

Q. Did you remain in Wyandotte that night?

A. I don't recollect whether I did or not; I think not, though.

Q. You think you went over to your home?

A. Yes, sir.

Q. Now, when was the next time you saw Mr. Buchan?

A. The next time, I don't recollect when the next time was.

Q. Can you fix any date at which you saw him
639 again? A. It was at my house.

Q. When was that; sometime in September, 1879?

A. It was along in August or September.

Q. 1879? A. Yes, sir.

Q. That is the time he came there with Mr. Ward?

A. Yes, sir.

Q. How long had you known Mr. Ward?

A. I never knew him.

Q. Didn't you know him when you lived in Wyandotte county? A. No, I had heard of him,

Q. Were you personally acquainted with him?

A. No, sir.

Q. You say Mr. Buchan and Mr. Ward came there to your place at the time you have mentioned? A. Yes, sir.

Q. Came with a team, did they? A. In a buggy.

Q. Do you know whose buggy? Mr. Ward's buggy, wasn't it? A. I couldn't tell you.

Q. Where did you first meet them, up by your house?

A. Yes, sir.

Q. Did Mr. Buchan introduce Mr. Ward to you at that time? A. Yes.

Q. Then Mr. Buchan inquired where John was, did he not?

A. Yes, sir.

Q. And you told him where John was? A. Yes, sir.

Q. Now, then, you and Mr. Ward went down to the barn, didn't you? A. No, sir.

Q. Where did you and Ward go?

A. Buchan and Ward went up to where John was.

Q. Where was John with reference to where you were at that time?

A. He was about half a mile from myself, where they found him.

Q. Did you see them; you saw them drive off in that direction, did you?

A. No, I didn't notice which way they went; I told him how to go and I didn't notice them any more.

Q. When did you next see them?

A. About probably half an hour after that.

Q. Where were they when you saw them the next time?

A. They were coming up in the barn lot.

640 Q. Walking or driving? A. They were driving.

Q. All three of them in the buggy?

A. No, my brother brought his team back; Ward and Buchan, I think, was in the buggy; I am not certain about that, but one of them drove the team and the other the buggy.

Q. Wasn't Ward and Buchan riding in the buggy, and John hauling a load of lumber?

A. I couldn't say to that but they all came back and brought both teams.

Q. And stopped at the barn, did they? A. Yes, sir.

Q. Did Mr. Ward put his team in the barn? A. Yes, sir.

Q. And Mr. Buchan came along down to the house where you were?

A. After they got the horses put up; they were all there in the yard.

Q. Did you help put the horses up? A. Yes, sir.

Q. Then there was you, Mr. Buchan and Ward and John there? A. Yes.

Q. Did there any conversation take place in regard to this matter while all four of you were together?

A. Not that I recollect of.

Q. You have no recollection of any conversation at that time? A. No, sir.

Q. Then you all walked down to the house, did you?

A. Well, not right at that time. I think John and Buchan stayed back talking.

Q. And you and Mr. Ward walked on down to the house, did you? A. Yes,—I don't know as we walked to the house.

Q. You walked away from John and Buchan? A. Yes, sir.

Q. So that John and Buchan had a conversation there by themselves, did they not? A. I suppose so, yes.

Q. You saw them talking? A. Saw them together.

Q. You couldn't hear what they said there?

A. I could not, no.

Q. How long did they remain there in that way?

A. Well, probably half an hour or three quarters.

Q. Then John and Buchan were talking half an hour or such a matter there by themselves? A. Yes, sir.

641 Q. You didn't hear what was said there?

A. No, sir.

Q. Then, when did you next see John and Buchan have any talk together?

A. They were talking more or less all the time; they were not togther all the time except in the orchard; they were gone a little.

Q. They walked up in the orchard togetber; were you with them up there? A. No, sir.

Q. Was Mr. Ward with them? A. No, sir.

Q. When was the first conversation, now, after they came back that you and Buchan had, where was it, and who was present?

A. It was somewheres in the lot or yard, that Buchan came to me.

Q. Buchan came to you somewhere in your lot or yard at Parkville, Missouri? A. Yes, sir.

Q. What did he say to you there?

A. I couldn't state word for word.

Q. I am not asking you to state word for word; I am simply asking you to state the substance of it, Mr. Brown; state as definitely as you can, of course?

A. He said that John had got himself into a scrape and he came over for the purpose of helping him out, and John seemed to be determined in his stand, said he had told the truth, and he was going to stick to it, and there was no way

to persuade him to do so; he said he had been talking to him and trying to get him to turn state's evidence, I think, and Buchan said he could not do nothing with him, and wanted I should go and talk with him. He says the deputy sheriff is here and he is liable to be arrested most any time,—the deputy sheriff or constable, I don't remember now; I know, however, he mentioned the official, and so I had a talk with John.

Q. What did you say when Mr. Buchan made that request of you, in substance?

A. I told him I thought he had better do as Buchan advised.

Q. I am asking your what reply you made to Mr. Buchan when he made that statement to you; what was the substance; what did you say to Buchan?

642 A. I don't recollect what I said to him.

Q. Was John there when Buchan made that statement to you?

A. I couldn't state now whether he was or not; he wasn't far off.

Q. You went and saw John, did you? A. Yes, sir.

Q. You had a talk with him? A. Yes, sir.

Q. You may state what you said to him in regard to turning state's evidence?

A. I told him we ought to do as Buchan advised us to do, I thought it was the best thing to be done to get him out of trouble. John says: "Reub, I can't do it, I have told the truth and I am going to stick to it, I can't make any change." While I talked to him he seemed determined not to do anything, and then Buchan and I and John together went in a shed, a stable like there, and talked.

Q. What was said in the stable when you were together?

A. The same thing; we wanted John to turn state's evidence, or something of the kind or write a letter of some kind. Finally John consented and we went to the house.

Q. What was in the letter? A. I couldn't tell you.

Q. Was there any conversation in regard to John writing a letter, the last time he was there in September, 1879; did Mr. Buchan say anything about John writing a letter that day? A. Oh, yes.

Q. What did he say? A. He wanted him to write a letter.

Q. Give us the language as near as you can?

A. I don't recollect what he said, but just asked him if he couldn't write a letter; he would dictate it to him.

Q. That was after he had written the letter at Lexington, wasn' it? A. Yes, sir.

Q. You said he spoke to him about writing another letter?

A. Yes.

Q. Wanted him to turn state's evidence? A. Yes, sir.

Q. And John said that he had made a true statement, and couldn't do it, and you advised John to turn state's evidence; you urged him to turn state's evidence, didn't you?

A. I advised him to do as Buchan wanted.

643 Q. I ask you if you didn't advise and urge him to turn state's evidence? A. Probably did.

Q. You know you did, don't you?

A. Yes, sir, I told him I thought that was the best thing he could do.

Q. You understood then what that meant, did you?

A. I didn't know how severe probably it might be afterwards.

Q. That is to say, your brother told you he had made a true statement, and then you advised him to make a statement that wasn't true, did you? A. Yes, sir.

Q. You advised him to tell a falsehood?

A. I done it through—

Q. I am asking if you did not advise him right then and there to tell a falsehood? A. Yes, sir.

Q. In regard to the killing of a man, in regard to this Hillmon business, you advised him to tell a falsehood—

A. I done it—

Q. I am not asking you why you did it; I am asking if you did it? A. Yes, sir, I did.

Q. Then John went into the house with Mr. Buchan?

A. Yes, sir.

Q. I understood you to say you didn't know what took place there?

[Q.] No, sir, I saw them writing but didn't hear.

Q. How long were they in there?

A. Probably half an hour; maybe an hour.

Q. They were in there half an hour to an hour.

A. Maybe, yes.

Q. Where was Mr. Ward during this time?

A. Him and I was together part of the time, knocking around through the orchard and barn lots.

Q. And left Mr. Buchan and John there in the house writing? A. Yes, sir.

Q. You passed through the house three or four times, through the room three or four times, while they were writing?

A. I recollect once going through, and might have went through twice.

Q. After they had finished writing, what was said first to you?

A. They said, "Reub, we will all go up to Parkville and have this paper signed by a justice of the peace and

644 sworn to.

Q. Who said that? A. Buchan.

Q. Then you saddled up your horses, did you?
A. I think two of us went horseback and the other two in the buggy.
Q. You and John went on horseback?
A. Yes, I think we did.
Q. And Buchan and Ward went in the buggy?
A. I think that is about the way we went; I am not positive.
Q. You went over there, did you, to give John an opportunity to swear to this statement, whatever it was; that was your only business over there, wasn't it?
A. Yes, sir, I didn't know what kind of a statement he had written.
Q. You didn't know what kind of a statement he had written but you knew you advised him to make a false statement, did you not; you had so advised him, had you not? A. Yes sir.
Q. And you went with him over there to this place—Lexington, was it—Parkville, for him to swear to the false statement you had advised him to make? A. Yes, sir.
Q. That is a fact, is it? A. Yes, sir.
Q. He went over there, did he? A. Yes, sir.
Q. And they went up in the justice's office or notary public's office? A. Yes, sir.
Q. You did not go up with them? A. No, sir.
Q. They came down? A. Yes, sir.
Q. Do you know whether he swore to it up there or not?
A. No, sir, I don't.
Q. You don't know in regard to that? A. No.
Q. Then you came back, did you? A. Yes, sir.
Q. You went to your home? A. Yes, sir.
Q. John went with you, didn't he? A. Yes, sir.
Q. John remained with you then? A. Yes, sir.
Q. And Buchan and Ward went home? A. Yes, sir.
Q. Did you see the statement, the paper that was prepared there before you went there? A. No sir.
645 Q. Did you see it after you came back?
A. No sir.
Q. You say that John is now down in Arkansas, do you?
A. Yes sir.
Q. And he has been there for a good many years, I think you said, something over fifteen years?
A. He has been down there about fifteen years I think.
Q. Where do you say you live now?
A. I live in Kansas City.
Q. You have moved back to Kansas City? A. Yes, sir.
Q. And you are working in the stock yards? A. Yes sir.
A. Yes sir.
Q. In what capacity?
A. Why, my general work is yard cleaning.

Q. How many times have you been up there on this occasion to testify?
A. This is my second trip up to Leavenworth this last time.
Q. Have you had your evidence read over to you?
A. I read it.
Q. You read over your evidence? A. Yes sir.
Q. You had a copy of this note that John signed furnished to you, didn't you? A. No sir.
Q. In your evidence wasn't there a copy of that note?
A. I didn't see it.
Q. But you have said—
A. It was given too; I recollect this note.
Q. So you have read your evidence, including a copy of the note?
A. Yes sir, the one that was gotten up at Lexington.
Q. I will ask you if in 1895; before Judge Thomas, on the trial of this case, you were not asked the following question: "Q. You understood the meaning then of turning state's evidence," and if you did not answer, "Well, yes." Did you not answer it in that way?
A. I don't recollect whether I did or not.
Q. Then another question: "It means for a man to come out and tell the whole truth, the exact facts, and get the benefit of that. That is what you understand by turning state's evidence, don't you? A. By turning state's evidence I understood if he told the truth in the first place. Q. Well, I didn't ask you in regard to that; I ask you if you don't un-
646 derstand by turning state's evidence a man told the truth and received immunity thereby." And to that question did you not answer, "No, sir." A. I don't recollect.
"Q. But you don't understand that a man was to turn from telling a falsehood to telling the truth," and to that question, did you not answer, "No sir."
A. I don't recollect whether I did or not.
"Q. Don't you understand that turning state's evidence is to make a clean breast of the whole transaction; is that your understanding," and to that question, did you not answer: "My understanding is that a person turning state's evidence is that he varies from the truth, that he states a falsehood by turning state's evidence." Did you not so answer that question? A. I don't recollect.
Q. I will ask you if you did not testify before Judge Thomas in this case in 1895, that you understood by turning state's evidence was—You said you don't recollect answering that; then I asked you if you didn't understand that by turning state's evidence, that he varies from the truth, that he tells a falsehood by turning state's evidence? A. I don't recollect.

Q. You knew as much about the effect of turning state's evidence then as you do now, did you not? I mean in 1895?

A. I should think so, yes sir.

"Q. That is what you understand, that he turns from the truth to falsehood; that is what you understand, that he turns from the truth to a falsehood," and to that question did you not answer: "Yes sir."

By Mr. Hutchings: I object to the question as not proper cross-examination; it is not proper for any purpose unless it is to impeach the witness, and he has already said he understood he wanted Brown to tell a falsehood. The Court overruled the objection, to which ruling the plaintiff duly excepted.

The question was read. A. ' I don't recollect.

Q. Did you not on that occasion, to wit, before Judge Thomas in 1895, in answer to this question: "Q. You
647 understood he was turning to a lie, did you,—that he was turning to a lie, did you," and did you not answer, "Yes sir."

By Mr Hutchings: Doesn't he say precisely that now?

By the Court: He may answer that question if he recollects.

A. I have no recollection about that question.

Q Another question: "Q. You understand it then," and did you not answer, "Yes sir." Do you remember?

A. No, sir, I don't remember.

Q. And the question: "Q. Clearly, did you?" And to that question, did you not answer, "Yes sir."

A. I don't remember.

"Q. I understood you to say you understood turning from the truth to a falsehood was turning state's evidence," to which question, did you not answer: "Sometimes, yes sir."

By the Court: What question is predicated on that?

By Mr. Barker: If he didn't understand it at that time.

By the Court: You are simply reading a question and answer from a trial four or five years ago without predicating any question upon it.

By Mr. Barker: I am asking if he did not answer that question at that time in that way.

A. I don't recollect.

Q. This question: "Q. You understood that he had told the truth before"—this question before Judge Thomas in 1895, and in answer to that, did you not say, "Yes sir."

A. I don't recollect.

Q. To this question on the same time and occasion; "Q. And that by turning state's evidence he would tell a false-

hood?" And to that question, did you not answer: "Yes sir." A. I don't recollect.

Q. I understand you don't understand whether you testified before Judge Thomas that you understood that turning state's evidence meant to turn from truth to falsehood?

A. I don't know what Judge it was.

Q. You don't recollect anything about that.

[—] I recollect attending the trial as a witness.

The Connecticut Mutual Life Insurance Company, de-
648 fendant, adopts the cross-examination of Mr. Barker as its own.

Witness excused.

649 James W. Green, a witness already produced and sworn on behalf of the plaintiff, being recalled for further examination on behalf of the plaintiff, testified, in answer to direct interrogatories propounded to him by Mr. Hutchings, counsel for the plaintiff, as follows, to wit:

Q. Do you remember, Mr. Green, of the bringing of a body to Lawrence that was claimed to be Hillmon's? A. Yes, sir.

Q. What official position did you hold at that time in Douglas county? A. I was county attorney.

Q. Were you present at the inquest that was held in Lawrence over that body? A. I was.

Q. You may state who, if any one, appeared there representing the insurance companies at that inquest?

A. No one that I know of. Do you mean appeared there to take part in it?

Q. Yes, in the examination of witnesses at the inquest, if any one appeared there representing the insurance companies?

A. No.

Q. You may state whether any persons appeared there and examined witnesses who are now counsel for the insurance companies?

The defendants object to the question as immaterial.

By the Court: It is preliminary. The court overruled the objection to which ruling of the Court the defendants at the time duly excepted.

A. Mr. Barker and myself.

Q. Did John Brown testify at that inquest? A. He did.

Q. You may state whether or not at that inquest he testified that that body was the body of John W. Hillmon?

A. My recollection is that he testified it was the body of John W. Hillmon.

Q. Now, do you know a man by the name of H. B. Munn?

A. I do.

Q. What connection did he have in 1879 with these insurance companies?

A. He represented to me that he was representing the insurance companies.

By Mr. Barker: We object to the statement of this
650 witness as to what Munn represented himself to be.

The Court sustained the objection and motion to which ruling of the Court the plaintiff duly excepted.

Q. You may state if you know who employed attorneys, if anybody, at Lawrence, for the insurance companies.

Counsel for the defendants object to the question as incompetent.

By Mr. Hutchings: We want to show that Mr. Munn did, and to follow that by proof of interviews between the County Attorney and Mr. Buchan to show the origin and genesis of the getting of these releases. The Court overruled the objection, to which ruling of the Court the defendant at the time duly excepted.

A. Mr. Alton of the Connecticut Mutual employed myself and one Dr. Carney employed Mr. Barker and myself for the New York Life. I don't know who employed Mr. Barker for the Mutual Life.

Q. When did you first see Mr. Munn?

A. It was about the 15th of July.

Q. What year?

A. 1879; I have stated heretofore I thought it was the last of May or the first of July, but on examination of memoranda I find it was about the 15th of July.

Q. Now, I will get you to state—I believe you have already said you were county attorney of Douglas county?

A. Yes, sir.

Q. When did your term begin and when did it end?

A. It began on the 14th of January, 1879, and would terminate two years thereafter.

Q. Now, I will get you to state whether, during the time you were county attorney of Douglas county, and especially prior to September, 1879, any warrant was issued in Douglas county for the arrest of John H. Brown?

The defendants object to the question as not the best evidence. The Court overruled the objection, to which action and ruling of the Court the defendants then and there duly excepted.

A. I have no distinct recollection of a warrant having been issued; I presume—

Q. I don't care for what you presume, whether you
651 have any knowledge. When did you next see Mr. Munn after the meeting in July?

A. When I first met him in July, Mr. Munn was there for, I will say several days at that time and I saw him from day to day.

Q. You saw him from day to day? A. Yes, sir.

Q. He had some connection with this matter, had he not?

Defendants object to the question as incompetent. Question not pressed for answer.

Q. I will ask you what the subject of your interviews with him was in July, and state whether it had any connection with this Hillmon matter.

The defendants object to the question as incompetent, irrelevant and immaterial.

By the Court: Do you expect to show that he was a representative of the insurance companies by his own declarations?

By Mr. Hutchings: We expect to show it by their accepting the fruits of what he did. These releases were obtained by him. He hired a man to get them, and we invoke the doctrine that where the insurance companies take the benefit of an act, they take it cumonere.

The Court overruled the objection, to which action and ruling of the Court the defendants then and there duly excepted.

A. Among other things, we discussed this Hillmon matter.

By the Court: Was Mr. Green at that time a representative of one of the insurance companies?

By Mr. Hutchings: He was county attorney.

Q. At that time, had you been employed by the insurance companies? A. Yes, sir; I had.

Q. You had at that time? A. Yes, sir.

Q. You had been employed to manage the cases of the company in relation to the claim upon these Hillmon policies?

A. My first employment was to investigate the case.

Q. Well, at the time that Mr. Munn came there, at
652 that time, you were employed by the defendant companies or one of them, to look after their interests generally in relation to these Hillmon policies?

A. I was employed to investigate the case.

Q. When was your employment made?

A. That was made about the 12th or 15th of April, 1879.

Q. Now, are you acquainted with W. J. Buchan?
A. I am, yes, sir.
Q. When did you become acquainted with him?
A. I am not able to state exactly when I did meet Mr. Buchan first. Possibly I was acquainted with him at that time.
Q. Did you ever meet him, to your recollection, until he came to Lawrence?
A. Not to my recollection but I may have done so.
Q. Now, when did Mr. Buchan first appear at Lawrence in connection with this Hillmon matter?
A. The first time that I recollect of Mr. Buchan's coming there would be along in the fore part of September.
Q. Where did you meet him? A. At my office.
Q. Who was there besides Mr. Buchan? A. Mr. Munn.
Q. That was the H. B. Munn that we have spoken of?
A. Yes, sir.
Q. Now, I will ask you to state what conversation you had with Mr. Buchan there on that occasion?

The defendants object to the question as incompetent, irrelevant and immaterial.

By Mr. Hutchings: It goes to the question of these releases.

The Court overruled the objection, to which action and ruling of the Court the defendant at the time duly excepted.

A. Mr. Buchan came to the office, and among other things he proposed or he thought that he could get up the policies which had been issued on the life of John W. Hillmon.
Q. Could you fix the date, or approximately the date of that?
A. I would say from memoranda that I have that that must have been about the fifth of September, 1879.
Q. When he came there and proposed to get up
653 these policies, did you know he was the attorney of John H. Brown?
A. Not from anything that he had told me; I had so understood.
Q. Now, you may whether on that occasion, a paper was prepared and signed by Mr. Munn; if so, produce it.
A. There was a paper prepared, but I think not at my office, but whether just at that time or not, I am not able to state; my recollection would be that the paper which I presume you refer to, was prepared by Mr. Munn at the hotel as he did most of his work at the hotel.
Q. I refer to the paper that has been heretofore known as the "To whom it may concern paper." A. Yes, sir.

Q. Will you produce that?
A. As I say, I think it was prepared at the hotel and brought over.

Said paper is produced and marked for identification "Exhibit 15."

Q. This paper, Exhibit 15, which I will designate as the "To whom it may concern" paper. When did you first see that paper? A. It was at that time.
Q. At that time you were county attorney of Douglas county? A. Yes.
Q. And you were also attorney for the defendants?
A. For the Connecticut Mutual and the New York Life.
Q. One of the defendants, the Connecticut Mutual?
A. Yes, sir.
Q. After that paper was signed by Mr. Munn, as you have stated, what was done with it?
A. It was handed to Mr. Buchan.

By Mr. Hutchings: We desire to offer the paper in evidence for the purpose of examining further in relation to it.

By Mr. Barker: We object to the paper as incompetent, irrelevant and immaterial, and especially on the part of the Mutual Life Insurance Company of New York, because it is not claimed Mr. Green was attorney for it.

Q. Do you know whether this paper was seen by Mr. Barker at that time? A. I do not.
Q. Was Mr. Barker, at that time, do you know, re-
654 tained by the defendants or either of them?
A. The New York Life, I know as to that. I don't know as to the others of my own knowledge.

By the Court: Do you expect to connect this man Munn by further evidence with the Mutual Life?

By Mr. Hutchings: I am not so certain as to that except in this way: We shall show that these releases were obtained; that this paper was presented to the plaintiff herself; that it was one of the instrumentalities by which they obtained the releases; that they availed themselves of all that Mr. Munn did by virtue of this paper and I think we will show that their attorneys, who are managing this case, knew all about it when they set up the releases. It was claimed that Buchan was the attorney of Brown. This paper was given to Brown's attorney, and it was used as a lever on Brown through his attorney; it was then exhibited to the plaintiff and the releases were obtained.

By the Court: I do not recall that it was shown to Brown.

By Mr. Hutchings: No, but it was shown to his attorney; he was acting for the insurance companies and for Brown. It will apepar that the paper was written after the Parkville incident; that Mr. Munn, Mr. Buchan and Mr. Green were discussing the getting up of the policies at Lawrence on the 6th of September, 1879; that Buchan wanted such a paper and that Munn gave him this identical paper.

By Mr. Barker: In the first place it is conceded that Mr. Green was not the attorney of the Mutual Life, so of course, he could not have any authority to speak for that company. It is admitted that the paper was written after the Parkville incident; therefore the paper could not have influenced John Brown in his actions, and Mrs. Hilmon swears that she never heard of this paper until after the releases were signed.

By the Court: Were the releases ever delivered to Munn?

By Mr. Wheat: They were delivered to the companies. I think there is evidence that Munn had them at one time.

The Court overruled the objection, to which action and ruling of Court the defendant at the time duly excepted.

655 Mr. Hutchings here reads the paper, Exhibit 15, in evidence. It is in words and figures as follows, to wit:

"The undersigned attorney, representing the Mutual Life Insurance Company of New York, the [The] New York Life Insurance Company of New York and the Connecticut Mutual Life Insurance Company, hereby stipulate and agree, so far as said companies are concerned, to desist from any further pursuit and prosecution of John W. Hillmon, John H. Brown, or any other parties in connection with the Hillmon cases, provided the respective policies are surrendered and order for their delivery executed, and all claims under the same released to said companies by Sallie E. Hillmon, wife of said John W. Hillmon and beneficiary under said policies, and in so doing represent their officers and agents everywhere.

Lawrence, Kansas, September 6th, 1879.

H. B. MUNN."

Q. Now, then, I will get you to state to the jury what conversation there was at that time between you and Mr. Munn and Mr. Buchan as to giving him this kind of an instrument?

The defendants object to the question as incompetent, irrelevant and immaterial, and desire it understood that all testimony upon this subject is under their objection. The Court overruled the objection, to which action and ruling of the Court the defendants at the time duly excepted and still except.

A. I do not at this late day presume to state the exact words [whic] which were used at that time, but as I state- before, Mr. Buchan proposed that he could get up the policies which had been used by the companies on the life of Hillmon. I remember sta-ing myself in substance I did not believe he could do any such thing, and he thought he could and wanted an opportunity to try. Mr. Munn told him that he might go ahead and try to get the policies up if he could and if
656 he could, that he would pay his expenses anyhow, and if he could get the policies up, he would pay him liberally for so doing. Mr. Buchan then wanted authority from Mr. Munn to pay the plaintiff Mrs. Hillmon something for delivering up the policies. Mr. Munn refused, and said that the companies would not pay a dollar; that they believed the whole scheme was a fraud, and consequently they would not pay a dollar for these and went further and said that Mr. Buchan should not go so far as to pay any of the compensation wh-ch might be given him, or which he might receive in payment, to Mrs. Hillmon for delivering up the policies. That was substantially the conversation, a portion of it, possibly, in the words.

Q. Now, calling your attention directly to the point. What, if anything about prosecuting and sending these parties to the penitentiary?

A. Nothing at this particular conversation.

Q. This instrument is dated the 6th day of September?

A. Yes, sir, 1879.

Q. This paper, as I understand, was delivered to Buchan there at that first conference?

A. No, my recollection would be that Mr. Buchan was up there on the 5th.

Q. That was the first conference? A. Yes, sir.

Q. As to the date of this instrument, when was it delivered to Mr. Buchan?

A. I have no distinct recollection but I have no doubt from the date of the instrument that it was delivered on the day that it bears date. My recollection as I say, was that he came up on the 5th and was there again on the 6th.

Q. The conversation in which Buchan said that he thought he could get up these policies, and in which Mr. Munn offered to reward him in case of success, was that on the 5th?

A. That would be on the 6th. That would be my recollection.

Q. You think he was there on the 5th? A. Yes.

Q. Do you remember whether there was an interview between Mr. Munn and Mr. Buchan on the 5th? A. Yes.

657 Q. What was the nature of that?

A. Mr. Buchan brought the so-called confession of

John H. Brown up there and showed it to Mr. Munn and myself.

Q. That was on the 5th?

A. That is my recollection now, that that was on the 5th

Q. Well, upon that occasion, was anything said by Mr. Munn about his intention to prosecute Brown and Hillmon and everybody?

A. Mr. Buchan showed Mr. Munn that paper, and Mr. Munn read it, and Mr. Munn said, after reading the paper, that a man who would be guilty of a cold-blooded murder—I think he said it in a way like that—should be prosecuted, even if he had to see it was done by himself. Mr. Buchan in a few moments asked to see the paper; Mr. Munn handed him the paper and Mr. Buchan put the paper in his pocket, and said that he would not prosecute a client of his by a paper which he procured him to sign, or words to that effect, and put the paper in his pocket and refused to give it up. I had some considerable difficulty in harmonizing things.

Q. Now, then, before Mr. Munn signed this paper granting immunity, he had read what Mr. Buchan brought there as being some confession or statement of John Brown?

A. That is my recollection, yes, that that was on the 5th and that this paper was delivered on the 6th.

Q. And he had expressed himself on the 5th that it was a cold-blooded murder and ought to be prosecuted and he would prosecute at his own expense?

A. He didn't say at his own expense, but that he would see it prosecuted.

Q. And on the 6th he gave this paper? A. Yes, sir.

Q. Now, then, did you see that paper which was brought there which you have spoken of as the confession of John Brown, or something of the kind? A. Did I see it?

Q. Yes. A. Yes.

Q. Did you see it before this paper was delivered to
658 Buchan?

[Q.] My recollection would be that I saw it the day before.

Q. The day before it was delivered? A. Yes, sir.

Q. So that, after you had seen that paper, this Exhibit 15 was delivered to Mr. Buchan in your presence?

A. I think it was.

Q. Now, I want to ask you whether you ever again saw that paper which you have spoken of as John Brown's confession? A. I don't know.

Q. Did you ever see any paper similar to it. That is, what is your information about it? A. I have seen a copy of it.

Q. Did you ever see the paper which was exhibited to you in Lawrence as the John Brown confession, either in its integrity or torn to pieces afterwards?

A. I saw what was said to be it.

Q. You say it was said to be; what is your opinion?

[—] I cannot give an opinion because I never compared it at all.

Q. But you read it; you read the one that was brought there to Lawrence? A. Yes, sir.

Q. And you read the one that you saw afterwards?

A. I don't understand, Mr. Hutchings.

Q. You saw the statement which was brought to Lawrence by Mr. Buchan early in September? A. Yes, I saw that.

Q. And subsequently you saw a paper torn in shreds, did you not? A. I saw pieces of paper.

Q. Well, now, then, you read both of them, didn't you?

A. No, sir.

Q. Have you ever read the one that was torn to pieces?

A. No, sir.

Q. Didn't you make a copy of it?

A. No, sir. One moment, Mr. Hutchings; allow me, so that we will have no misunderstanding, I never made a copy of the paper, if that is the paper, after it was torn in pieces.

Q. Will you state from whom you received a paper torn in pieces?

The defendants object to the question as incompetent, irrelevant and immaterial. The Court overruled the objection, to which action and ruling of the Court the defendants then and there duly excepted.

A. W. J. Buchan.

659 Q. When?

A. Probably in the month of January, 1882.

Q. Where? A. At his office at Kansas City, Kansas.

Q. Did you ever put those pieces together and try to read them? A. Not that I recollect of.

Q. Did you ever compare it to see whether it was in fact the paper which you had seen in Lawrence torn to pieces?

A. No, sir.

Q. Did you ever look at it to tell, to see if there was anything written on those pieces that were torn up?

A. I probably did that.

Q. There was something written on those pieces?

A. Yes, there was something written on those pieces.

Q. Now, the something that was written on those papers, did it bear any resemblance to what was written on the paper you saw it Lawrence?

The defendants object to the question as not the best evidence.

By the Court: You would want to account for the pieces before you do that.

Q. Now, then, I will get you to produce, if you please, the paper that is called the "Where is John" letter. I believe it has already been introduced in evidence.

By Mr. Hutchings: In order that the jury may understand what this [—] I will read.

"Mrs. Hillmon: I would like to know where Johny is and how that buisness is, and what shall i doe if anything. Let me know threw my Father. JOHN BROWN."

Q. When did you first see that paper?

A. Presumably in the month of January. I say in the month of January, because I saw it during the time of the taking of this deposition which we have just finished, and that deposition began in December, and ended in January, I think.

Q. From whom did you receive it? A. I received it from W. J. Buchan.

660 Q. Now, if you please, produce the releases which are set up in the answers in this case—So far as you know that paper was never in the possession of Mrs Hillmon, the plaintiff? A. I don't know anything about that.

Q. I will get you to examine the endorsement on the back of this release which will be marked "Exhibit 16" and state in whose handwriting it is, if you know?

A. That is in Mr. Munn's handwriting.

Q. H. B. Munn's handwriting? A. H. B. Munn.

Q. That is the same H. B. Munn who was there at the time Mr. Buchan was there, and who gave this other paper?

A. Yes, sir.

Q. Now, state whether the releases on the back of all these releases is in the handwriting of H. B. Munn, the same H. B. Munn you have already mentioned? A. They are.

Q. When did you first see these releases?

A. My recollection would be the first time I saw them was a short time prior to the first trial of this case; I don't remember of having seen them before.

Q. From whom did you receive them?

A. I have not a distinct recollection, but I think from the companies.

Q. Did you get them from the companies or from Munn?

A. I don't recollect whether I got them from the companies or from Munn.

Q. These are the same releases set out in your answers?

A. I believe they are, yes, sir.

Said releases are marked, respectively, at this trial, Exhibits 16, and 17. No. 16 is the release of the Mutual Life policy and No. 17 of the Connecticut Mutual policy.

The paintiffs offers the same in evidence. There being no objection, said reeases were severally read to the jury and are, respectively, in words and figures as follows, to wit:

661 EX. 16.

Leavenworth, Kansas, Sep. 15, 1879.

In consideration of one dollar to me in hand paid, the receipt whereof is hereby acknowledged, I hereby release—surrender and acknowledge satisfaction in full of all claims against the Mutual Life Insurance Company of New York by release of policy No. 195,132, issued by said company, dated Dec. 10, 1878, and for the sum of ten thousand dollars in the life of my husband, John W. Hillmon, and hereby enter satisfaction in full and order the dismissal of any and all suits or proceedings commenced or that may hereafter be commenced by any person in my behalf for the collection of the same.

(Signed) SALLIE E. HILLMON.

Attest:

W. J. BUCHAN,
JOHN H. BROWN.

EX. 17.

662 Leavenworth, Kansas, Sept. 15, 1879.

In consideration of one dollar, to me in hand paid, the receipt whereof is hereby acknowledged, I hereby release, surrender and acknowledge satisfaction in full of all claims against the Connecticut Mutual Life Insurance Company by reason of policy No. 153,614, issued by said company, dated March 4th, 1881, and for the sum of five thousand dolars, on the life of my husband, John W. Hillmon, and hereby enter satisfaction in full, and order the dismissal of any and all suits or proceedings commenced or that hereafter may be commenced, by any person in my behalf, for the collection of the same.

(Signed) SALLIE E. HILLMON.

Attest:

W. J. BUCHAN,
JOHN H. BROWN.

663 Q. When did you next see Buchan after this Munn paper, Exhibit 15 was delivered to him?
A. I don' tremember when I did next see him.
Q. Do you remember where you saw him next?
A. I do not.
Q. You say you never saw these releases at all until in 1882?

A. I have no recollection of seeing these releases, but it may be that after Mr. Buchan secured these releases, that he brought them to Lawrence. My recollection would be however, that he did not; if he did, I probably saw them at that time.

Q. Don't you remember that he did bring them to Lawrence and delivered them to Mr. Munn there at Lawrence?

A. I can't recollect.

Q. You don't remember? A. No, I don't remember.

Q. Is it not a fact that you and Mr. Barker and Mr. Munn and Mr. Buchan met in Kansas City?

A. No sir, I don't think I was ever in Kansas City.

Q. Did you have a meeting at a hotel anywhere, you and Mr. Barker and Mr. Buchan and Mr. Munn? A. No sir.

Q. Now, at the coroner's inquest, I will get you to state if you remember seeing the plaintiff? A. I saw her there.

Q. Do you remember of the plaintiff producing there photographs of John W. Hillmon?

A. I remember that she produced photographs[ther]there of John W. Hillmon.

Q. Now, I want to direct your attention specially to the fact of her producing a picture of two standing figures one of which was John W. Hillmon?

A. I remember of her producing a photograph there or tintype of two persons standing, said to be Brown and Hillmon.

Q. Said to be Brown and Hillmon? A. Yes sir.

Q. You recognized them to be such, didn't you?

A. I never saw Hillmon, to my knowledge.

Q. But from the other pictures of Hillmon that were produced there?

The defendants object to the question as incompetent. The Court sustained the objection, to which action and ruling of the Court the plaintiff duly excepted.

664 Q. Well, did you recognize one of those pictures as being that of John H. Brown who was present and testified?

A. I presume I did; I have not distinct recollection of it one way or the other.

Q. They were standing, I believe you said; taken in a standing attitude or pose?

A. They were standing; whoever the persons were, were standing.

Q. Do you know what became of that picture?

A. I do not.

Q. Do you know whether it was left with Dr. Morris, the coroner?

A. I don't; my recollection is that the pictures were produced by Mrs. Hillmon upon notification of Dr. Morris, or the

request of Dr. Morris, to bring all pictures which she has, and they were brought there; to whom they were delivered, I don't know, whether to Sheriff Clarke, or to the coroner or to whom.

Q. Do you remember of Mrs. Hillmon, the plaintiff, producing at that coroner's inquest, a letter which was said to have been written by her and addressed to her husband at Medicine Lodge which was taken from the body?

A. No sir, I don't remember of any such letter.

Q. Do you remember of her producing any letters there from her husband? A. From her husband?

Q. From her to her husband? A. No sir.

Q. Did any one produce any papers there at that inquest that were said to have been taken from the body after death?

A. There was one paper produced there which was said to have been taken from his body.

Q. What was that?

A. That was a discharge, I presume, from the army.

Q. Was the diary produced?

A. Yes, there was a diary produced also.

Q. Was a picture of his wife produced which was said to have been taken from the body after death? That is, a picture of the plaintiff, a photograph? A. I don't remember.

Q. Now, as to that coroner's inquest, if you know, Mr. Green, you may state who paid the expenses of that inquest?

The defendants object to the question as incompetent,
665 irrelevant and immaterial.

By the Court: What relevancy has that?

By Mr. Hutchings: I confess I cannot exactly see what it has.

Q. Now, then as to the services which were performed by Mr. Buchan in the matter in getting these releases and surrendering them, state if you know who paid them, and what amount was paid to Mr. Buchan?

A. I don't know who paid it or what amount.

By Mr. Wheat: This matter of payment of the cost of the inquest by the insurance companies: If it was paid by them, it helps to show the question of the bona fides of the transaction. We are claiming all the time that the inquest was not held for the purpose of ascertaining who that corpse was, but for the purpose of picking up such items of evidence as they could get by swearing people, etc., to show that it was not Hillmon. Here was the county attorney at the time attending to the matter and we want to show that the county did not pay the expenses but that the insurance companies did.

The defendants object to proof on the subject. The Court sustained the objection, to which action and ruling of the Court the plaintiff at the time duly excepted.

And in answer to cross-interrogatories propounded to him by Geo. J. Barker, Esq., counsel for the defendants, the witness testified as follows, to wit:

Q. Where were you living in 1879?
A. In Lawrence, Kansas.
Q. How long had you been residing there then?
A. I moved from Olathe to Lawrence, Kansas in January, 1877.
Q. State if you have lived there ever since? A. I have.
Q. State if you are living there now; if Lawrence is your home? A. It is my home.
Q. You may state what position, if any, you hold in
666 the University?
Q. I am dean of the law school.
Q. How long have you held the position of Dean of the law school?

The plaintiff objects to the question as incompetent, irrelevant and immaterial. The Court overruled the objection to which ruling of the Court the plaintiff at the time duly excepted.

A. Ever since the [plsition] was created; I think it was created along about 1883, before that I was connected with the law school, had charge of it.
Q. How long have you been connected with the law school in that capacity? A. In what capacity?
Q. As Dean of the Law Department?
A. I say ever since it was created, I think, about 1883.
Q. I understood you to say before it was created—
A. I had charge of the law school before that position was created.
Q. And been county attorney of Douglas county?
A. Yes sir.
Q. You were county attorney from 1879 to 1881?
A. Yes sir.
Q. You have stated the fact that you remember the fact of a body being brought to Lawrence? A. I do.
Q. In the spring of 1879? A. Yes sir.
Q. And the holding of an inquest there? A. Yes sir.
Q. At the time that body was brought there and this inquest was held, I will ask you to state what connection, if any, you had with the defendants in this case?
A. None whatever nor never had.
Q. I will ask you to state if you were employed by me as attorney for the Connecticut Mutual, or the Mutual Life Insurance Company of New York, or any other insurance company?

The plaintiff objects to the question as not proper cross-examination.

By the Court: Nothing was said as to whether you employed him.

By Mr. Barker: Not in the testimony, but you remember the opening statement.

The Court overruled the objection, to which ruling of
667 the court the plaintiff at the time duly excepted.

A. I was not.

Q. Now, you may state by whom you were employed?

A. By Mr. Alton.

Q. And Doctor Carney, I believe? A. Yes sir.

Q. Have you stated, if not, I will ask you what was the nature or character of your employment, what were your first duties, what was the first thing they required of you?

A. It was to still further investigate the question as to whether that was the body of John W. Hillmon or not.

Q. That was the purpose for which you were employed?

A. Yes sir.

Q. I will ask you if you carried on to some extent an investigation then for the purpose of determining whether that was the body of John W. Hillmon? A. I did.

By the Court: Did you take directions from Mr. Munn?

A. After Mr. Munn came there, and that was in July, I should say I did more or less; in some things I did.

Q. Were you employed before Mr. Munn came upon the scene at all? A. Yes sir.

Q. Some time before that?

A. I was employed as I said in my direct examination somewhere from the 12th to the 15th of April; and my first acquaintance with Mr. Munn was about the 15th of July.

Q. Now, I will ask you in regard to certain pictures. I understood you to say that those pictures were brought to the inquest by Mrs. Hillmon? A. I understand they were.

Q. I will ask you, for the purpose of refreshing your memory, if you remember who was sheriff at that time?

A. Mr. H. S. Clarke.

Q. I will ask you to state now whether those pictures, whatever they were, were not brought to the inquest by Mr. H. S. Clarke?

A. That would not be my recollection; my recollection is that Mrs. Hillmon was requested to bring them there, or notice was served on her, probably by Mr. H. S. Clarke, and that she brought them; that would be my recollection.

Q. I will ask you if the first time the pictures were
668 ever submitted to you or to us they were not submitted by Mr. Clarke at the inquest?

A. That may have been.

Q. What is your recollection now?

A. I haven't any distinct recollection on that point.

Q. How long was it after this coroner's inquest before you saw or had a conversation with Mr. Buchan and Mr. Munn together, the one they have called your attention to?

A. That would be in September.

Q. The following September? A. Yes sir.

Q. Was that the first time that you recollection of having seen Mr. Buchan or had any talk with him in connection with this Hillmon matter? A. Yes sir.

Q. About how many times did you see him about that time? I mean by that time during the early part of September, and I mean by him, Mr. Buchan?

A. If my recollection serves me right, I first saw him about the 5th.

Q. The 5th of September? A. Yes sir.

Q. Where was that? A. It was at my office.

Q. Who was present?

A. Mr. Munn was present some of the time anyhow.

Q. Yourself and Mr. Buchan? A. Yes sir.

Q. Do you remember anybody else being present?

A. No sir, I don't.

Q. That was the first time you had a conversation?

A. Yes sir.

Q. Now, I will ask you to state briefly what that conversation was, this conversation of September 5th?

A. As I say, Mr. Buchan came to the office and he had with him the so-called confession of John H. Brown, and also another paper signed by John H. Brown.

Q. Will you look at this paper and see if you recognize that as the other paper which you spoke of his having there at that time? A. Yes, that is the other paper.

Said paper is marked for identification Exhibit 18.

Q. You may state when and where you first saw Exhibit 18?

A. I saw it at that time, on September 5th; I presume it was; I think it was on that date, 1879.

669 By Mr. Barker: In connection with the cross-examination of this witness, I now offer this paper (Exhibit 18) in evidence.

Admitted without objection.

Said papers is in words and figures as follows, to wit:

EX. 18.

"Parkville, Missouri, September 4th, 1879.

I hereby authorize W. J. Buchan to make arrangements, if he can, with the insurance companies, for settlement of the Hillmon cases by them stopping all pursuit and prosecution of myself and John W. Hillmon if suit for money is stopped and policies surrendered to Companies.

JOHN H. BROWN."

Q. Now, when was the next time that you had an interview with Mr. Buchan?

A. You have asked me a question that I have not answered.

Q. I asked you first was this the paper?

A. I saw it at that time, at the time that Mr. Buchan brought the so-called confession of John Brown there.

Q. This is the first time, is it not, that the companies were approached by John Brown or his attorney, for a settlement of this matter that you have any knowledge of?

A. That I have any knowledge of, yes.

Q. Was this paper presented at the time that there was a conversation in regard to Mr. Buchan getting up the policies?

A. Yes sir.

Q. Was this paper shown to Mr. Munn or to yourself at that time? [Q.] Shown to Mr. Munn and I saw it.

Q. Shown to Mr. Munn in your office? A. Yes sir.

Q. Now, what was the question I asked that you did not answer?

A. You asked me in regard to the conversation that took place; that is the same conversation that I repeated as near as I can on my direct examination; the conversation turned upon Mr. Buchan's getting up the policies and his ability to do it.

670 Q. Then, when did you see Mr. Buchan again?

A. I think the next day.

Q. In the presence of Mr. Munn? A. Yes sir.

Q. You three were there together, were you?

A. Yes sir.

Q. What took place then; I am speaking now of the second time?

A. The second time would be on the 6th I think, the date of that paper. I was mistaken as to the authorization. The first day he brought that confession up; the next day the conversation took place in regard to his getting the policies up; it was at that time that the paper which you have just produced was shown. I don't remember of seeing it the day before.

Q. Tell the jury briefly what Mr. Munn did say to Mr. Buchan in regard to getting up these policies?

A. Mr. Buchan proposed to get up these policies.

Q. Did he state anything at that time about being authorized by John Brown to get them up?

A. He showed that paper as an authorization from Brown, and as I say, I said that I did not believe he could get these policies; he thought he could. I don't remember what Mr. Munn said in that connection, or if he said anything, but the result was that Mr. Munn told him he could try to get up these policies; that he would pay him his expenses anyhow, whatever expense he might be at, and that he would pay him liberally if he should be able to get the policies, and then Mr. Buchan wanted an authorization to pay some money towards getting them up. Mr. Munn told him that he could not and would not permit a dollar to be paid, and further stated in that connection that he would not even permit any of the money which he might pay Mr. Buchan for his services in getting them up, to be applied in that way.

Q. That was the last conversation you recollect having with Buchan and Munn in regard to this matter of the policies before the releases were produced?

A. Yes, that is the last I remember of.

Q. I understood you to say on your direct examin-
671 ation that these releases you think you received them from the companies? A. That is my recollection.

Q. You received them by mail?

A. That is my recollection.

Q. From their offices?

A. That is my recollection; my recollection is that the releases were to be sent to Mr. Munn by a mail. My [My] memory is indistinct in regard to that.

By Mr. Hutchings: By Buchan?

A. I am not sure as to that; but I don't recollect havingseen these releases until they were sent to me by the companies. I had not to do with the releases; my employment was simply as an attorney in the case; I had no authority one way or the other to settle the case or employ any one to get up the policies. I had nothing to do with it except that I was there while the matter was being done.

Q. Now, you have spoken about, in regard to where you first saw this note from Mr. Brown to Mrs. Hillmon which has just been introduced in evidence? A. Yes, sir.

Q. You may state the facts and circumstances under which you first saw that note. Will you produce it now, if you have it?

The plaintiff objects to the question as not proper cross-examination; the mere fact was, when he received it.

By the Court: He may state the circumstances concerning the reception of it.

To which ruling of the court the plaintiff then and there duly excepted.

A. We were attempting to introduce the confession of John H. Brown in the deposition and the objection was made that it was secondary evidence. I then went to Mr. Buchan's office to see if he had the original, and he went to a drawer and looked in a drawer to see if he had that and found that paper, and says, "Here is something you haven't seen," or something to that effect.

Q. You may state if it was delivered to you at that time?

A. It was delivered to me at that time.

672 Q. And was that the same time that the deposition of John H. Brown was being taken? A. Yes, sir.

Q. In Wyandotte? A. Yes, sir.

Q. The same deposition which was read in evidence here?

A. Yes, sir.

Q. State whether or not that was the first knowledge you had of the existence of this letter marked Exhibit—whatever it is? A. Yes, sir, that is the first knowledge I had of it.

Q. I will ask you to state if at the time the deposition of John H. Brown was being taken, if we had, I mean by that the attorneys for the defendants, the confession of John H. Brown in our possession?

The plaintiff objects to the question as not proper cross-examination, as calling for the opinion of the witness and as incompetent. The court overruled the objection, to which ruling the plaintiff at the time duly excepted.

A. You speak,—at the time?

Q. Yes, at the time of taking—

A. Mr. Buchan handed it to me I think at that time, when I went over there,—what purported to be it. I don't know whether it was or not.

Q. At what stage of the deposition was that then; do you know whether the deposition was nearly complete or not?

A. My recollection would be that the deposition was half or two-thirds taken.

Q. When was it with reference to the time that Brown had testified in regard to his connection, and the transaction between Buchan and him? A. It was after.

Q. State whether or not at the time you got this exhibit and the other paper, whatever it may have been, if you had

a conversation with Mr. Buchan in regard to what Brown was testifying and had testified to.

The plaintiff objects to the question as not proper cross-examination and as hearsay. The court sustained the objection, to which action and ruling of the court the defendants at the time duly excepted.

673 By a Juror: If the court please, there has been a statement of the witness a good many times with regard to getting up the policies. What do we understand by getting up the policies?

A. That he was to get a surrender of the policies by the plaintiff.

Q. Now, referring again to the coroner's inquest there at Lawrence, you have stated that John Brown testified on that occasion that the body was the body of Hillmon? A. Yes, sir.

Q. Do you remember of his having testified about a third party having been with them, that is, Hillmon and Brown, at what is called the Cowskin on a part of their second journey, about the first day out from Wichita?

The plaintiff objects to the question as not proper cross-examination and hearsay.

By Mr. Barker: I want to state our position in regard to that. We think that, having asked this witness if Brown testified to a certain matter before the coroner's inquest, we are entitled to all that he said at the inquest. They cannot select out a part and exclude us from showing all that he said.

By the Court: I think not, Mr. Barker, no more than if a witness would testify to one fact about a case, you could ask him about everything else, unless they hinged together so that one drew out the other. If he had asked Mr. Green if John H. Brown at the coroner's inquest gave a version of the affair differing from that which is alleged to be in the confession, then you might ask your question.

The Court thereupon sustained the objection, to which action and ruling of the court the defendants at the time duly excepted.

674. Q. At the time the coroner's inquest was being held, was there many or few people there?

A. There was a large number of people there.

Q. You spoke about pictures being brought there. I will ask you what was done with those pictures at the time of the inquest, whether they were in the hands of the bystanders?

A. They were exhibited there and were examined by the bystanders, a large number of them looking at them. They were passed from hand to hand.

Q. I will ask you to look at exhibit number 10, and state whether that picture was produced by any one on that occasion and when, if ever, you first saw that picture. That is, exhibit number 10 in this trial, I mean?

Counsel for the plaintiff objects to the question as not proper cross-examination.

The court sustained the objection, to which action and ruling of the court the defendants and each of them at the time duly excepted.

Q. The pictures that were there—have you any knowledge of what became of them?

A. I have not; so far as I know, they were returned to the plaintiff.

Q. Now, you were interrogated in regard to what certain papers were presented at that time which they claimed to have been found upon the body of Hillmon. You may state what papers those were?

A. There was a discharge—

Q. (Interrupting) What do you mean by that? His army discharge?

A. Yes, sir, Hillmon's discharge as a soldier from the army of the United States.

Q. And what other papers?

A. There was what purported to be a diary kept by John W. Hillmon. There were some, if I recollect right now, there were some old bills of lading, but my memory is more indistinct as to those than the other two.

Q. Do you remember of any letter or letters being there?

A. No.

Q. Now, I will ask you if the army discharge and the book, the diary, had been produced upon any of these trials by the plaintiff or her attorneys?

Counsel for the plaintiff objects to the question because the same is not proper cross-examination.

The court overruled the objection, to which ruling and action of the court the plaintiff at the time duly excepted.

A. They have.

Q. Now, I will ask you what attorneys were present at that coroner's inquest—I will ask you if Mrs. Hillmon was
675 represented by attorney upon that occasion, and if so, by whom?

Counsel for the plaintiff objects to the question because the same is not proper cross-examination.

The Court overruled the objection to which ruling of the Court the plaintiff at the time duly excepted.

A. Mr. Borgalthaus appeared there for her.

Q. Who was Mr. Borgolthaus?

A. Mr. Borgolthaus was a lawyer, living at that time at Lawrence and one of the original attorneys in this suit. He has since moved to Minneapolis, Minnesota.

By the Court: How do you know, Mr. Green, that Mr. Borgolthaus appeared for Mrs. Hillmon when you don't know for whom Mr. Munn appeared.

A. I know that he represented and did appear there for Mrs. Hillmon.

By the Court: I don't mean at the inquest; I mean later. (No response.)

By Mr. Hutchings: You don't know anything about Mrs. Hillmon's employing Mr. Borgolthaus, do you?

A. I wasn't present when she employed him, no sir.

Q. He just simply appeared there and asked questions?

A. He appeared there at the inquest and did ask some questions and she was present at the time.

Q. What do you mean by acting as though he represented her? A. Objecting to questions.

Q. That were asked? A. Yes, sir.

Q. Did he ask questions of any of the witnesses?

A. He did not; yes he asked a question, but—

Q. (Interrupting) Of what witness?

A. I don't remember now which witness.

Q. Now, in relation to these orders which you testified to as having been given to Mr. Wheat for these insurance policies; will you produce those, the orders that were given—that were obtained from Mrs. Hillmon at Leavenworth by Buchan.

A. (Witness hands paper to counsel. Said paper is marked Ex. 19.)

By Mr. Hutchings: We offer this in evidence for the purpose of examining the witness concerning it. (Admitted.) (See next page for exhibit 19.)

Excused.

By the Court: The objection will be overruled, except as to what Brown said.

To which ruling of the Court the defendants and each of them at the time duly excepted.

15 A. The way I came to see the gun after we had empaneled the jury I had Mr. Brown to show to the jury how the thing happened before we, the jury, went off to one side, and then Mr. Brown went to the wagon took his left hand raised the wagon sheet, drawed the gun and as he drawed it he said the gun went off and killed the man standing by the fire. Cross-examination

By Defendant's Counsel, Geo. J. Barker:

25 Q. Where were you living in March, 1879?

25 A. Living on Elm Creek, Barbour County, about 11 miles north of Medicine Lodge.

26 Q. How far from the residence of P. B. Briley's and in what direction?

26 A. About 1½ miles about nearly south.

27 Q. How did you happen to go up to that camp that evening?

27 A. Mr. John Chadwick came to my house and told me there was a man shot above Briley's and wanted me to go with him and I went with him.

28 Q. When you got to this camp you found this man Brown there did you? 28 A. Yes sir.

29 Q. Was that the first occasion of your meeting or seeing Brown? 29 A. It was.

30 Q. I wish you would describe fully as to the position of the wagon, the direction in which it was standing, the direction and distance of the camp fire from the wagon?

30 A. Well it was standing with the tongue that is to the southeast, with the side of the wagon, that would be the southwest side of the wagon toward the camp fire. The camp fire was from the wagon between 10 and 12 feet. The camp fire was south of west of the wagon.

31 Q. Where was the body lying with reference to the camp fire and in what direction was the head of the body lying?

31 A. The body was lying southwest of the camp fire nearly south with its head nearly to the east.

32 Q. How far was the body lying from the wagon?

32 A. Well I should judge it from the wagon to the body to be from 12 to 15 feet.

33 Q. Which portion of the body was nearer the wagon?

33 A. I should think the head was a little the nearest, not much to the forepart of the wagon.

34 Q. What position did the body lie with reference to the wagon?

34 A. It didn't lie exactly square with the wagon the head was lying more east than south and the feet was west, so that it did not exactly square with the wagon.

690 35 Q. What was the position of the hands and feet of the body when you first saw it?

35 A. One of the hands, the left was lying extended from the body, the right hand kinder folded across the body and his feet was drawn south of west away from the fire. I think the feet were close together. The legs were kinder pulled around. I wouldn't say whether they were right straight or crooked.

36 Q. Was the camp fire burning when you got there?

36 A. There was some fire burning not very much.

37 Q. Do you remember what the character of the weather was on this day?

38 Q. What was the position and character of the ground from the wagon in the direction to where the body lay?

38 A. It descended some a little from the wagon to the body. The wagon stood on a little higher ground than where the body law.

39 Q. You may state answer as you can how much of a descent there was between the wagon and the body.

39 A. I should say there was twelve inches or more or probably a little more.

40 Q. On this occasion you remained how long?

40 A. Until about 2 o'clock in the morning and returned about 10 o'clock the same morning.

41 Q. This inquest of which you have spoken was held on the morning after you returned?

43 Q. What was upon the feet of the body when you first saw it, boots or shoes?

42 A. I can't hardly answer that question in that way because I didn't take any notice to his feet the first time I saw the body. Don't know what he had on at that time. When I first observed the feet and noticed what he had on he had on shoes. That was when I returned at 10 o'clock the next morning.

44 Q. It was quite dark when you got to this camp in the evening was it not? 44 A. It was.

45 Q. It was so dark that you could not see distinctly what there was in and about the camp was it not?

691 48 Q. It was.

49 Q. In what pocket did you find the pocket book of which you spoke in your direct examination?

49 A. His left pants pocket.

50 Q. Where abouts in the pocket did you find it in the top or bottom of the pocket.

50 A. I think it was at the bottom of the pocket. The pocket was very shallow; wouldn't more than hide the pocket book very much.

51 Q. While you were making this examination of the clothing of the deceased, who were standing by so they could observe what you were doing?

51 A. William Walt was and the whole jury might have seen it but I don't remember of any one standing right by and looking on but William Walt.

52 Q. Do you know where Brown was while you were making this examination?

52 A. I do not but suppose he was in camp; saw him after I got through making examination of the body.

53 Q. Where is William Walt now if you know?

53 A. He is in Washington Territory, Louis County, Silver Creek Post Office is his address.

695 state what his own name was? 19 A. I did.

20 Q. What did he then say his name was?

Counsel for the defendant objects to the question because the same is incompetent, irrelevant and immaterial. The Court overruled the objection to [to] which action and ruling of the Court the defendant at the time duly excepted.

84 Q. Have you not since that time been in frequent consultation and conversation with the attorneys for the plaintiff in this case in regard to this cause and in regard to the proceedings here before this notary, that is, since last Sat-

92 A. It was.

93 Q. And after the lapse of two years you are now able to swear from recollection to the exact shade of the hair upon the head of that body, the shade and color of the moustache and the length and color of the beard upn his face, are you?

93 A. I remember very distinctly the color of his hair and beard.

93 2d A. The shade of the hair I am positive about, but the beard I don't know whether it would be called auburn or light brown.

94 Q. Is that all the answer you have to make there to the above question? 94 A. It is.

701 95 Q. I will ask you that if after the lapse of two years you are now able from recollection to swear to the exact shade of the hair upon the head of that body?

95 A. I am.

96 Q. Is the same true of the beard and whiskers upon the face of that body? 96 A. It is not.

97 Q. What is the reason you are not able to carry in your mind the shade of one as well as the other?

97 A. For the reason I am not able to determine the exact, I want you to underscore the word exact, shade of light brown or auburn.

98 Q. The question is why cannot you recollect the exact shade of one as well as you can of the other?

98 A. Because the hair was a dark brown, easily to be distinguished from any other color and the beard was several shades lighter but the exact shade I am not able to state.

99 Q. Do you mean to swear that dark brown is more easily distinguished than any other color or shade of brown?

99 A. I do, when it comes to describing an exact shade.

100 Q. Is it more readily distinguished than any other color?

100 A. No more readily distinguished than black or white.

101 Q. Is the color dark brown any more easily remembered or carried in the mind than any other color?

102 Q. When and where did you first see the picture exhibited to you to-day while you were giving your evidence by Mr. Riggs, one of the attorneys for the plaintiff or a picture similar to it?

102 A. I think it was on last Monday. Mr. Riggs was showing it to some other parties in my presence and I examined and looked at it at that time.

104 Q. You first saw the dead body in a wagon near E. W. Iliff's livery stable did you not?

104 A. I first saw the body near Iliff's livery stable. I don't know whether it was E. W. Iliff's or not. I think it was a firm name.

105 Q. Was there more than one man named Iliff engaged here in the livery business at that time?

105 A. There was Lemuel Iliff and his three sons. I don't know who of them owned the stable, have seen them all there doing business connected with the stable.

111 A. Yes, sir, I don't recollect that the wagon was covered.

112 Q. How long did the wagon remain in front or near Iliff's stable before it crossed over the street?

115 A. My recollection is the lid was lying across the foot of the coffin crossways.

116 Q. How was the body dressed when you first saw it?

116 A. Had on a dark colored coat considerably worn, I think it was a frock coat. Had a pair of overalls on, I don't know whether any pants on the inside or not. Brown overalls I think. I don't recollect the kind of shirt. I don't know about vest, coat was buttoned up. Head was bare.

117 Q. You spoke in your direct examination about the hair upon this body being in a ruffled condition when you first saw it? 117 A. I did.

121 Q. Had it been in your judgment been either oiled or wet in combing?

121 A. It had a glossy appearance, but don't know whether it had been oiled or wet.

122 Q. Now you may state all the differences which you now remember between the appearance of the hair upon the head of the body the last time you saw it and the appearance of the hair in the picture exhibited. You describe them accurately.

122 A. The appearance of the hair when I last saw it was that of having been recently been combed having a wavy tendency and as shown by the picture it looks like it was curled or ruffled.

123 Q. Any other difference?

123 A. I am not able to note any other difference in the appearance.

124 Q. Will you describe the character of the nose on the face of the body as you last saw it in the coffin?

DERRICK UPDEGRAFF.

762 Plaintiff next read the following deposition of Alonzo Fuller, taken at Lawrence, Kansas, June 30, 1885:

Alonzo Fuller of a lawful age being by me first duly examined, cautioned and solemnly sworn to testify the truth, the whole truth and nothing but the truth, deposeth and saith that:

Q. State your name, age, residence and profession?
A. Alonzo Fuller, my age is 67 years; I reside in Lawrence, Kansas, and am a physician and surgeon.
Q. How long have you been engaged in the practice of medicine and surgery? A. Ever since January, 1842.
Q. State the condition of your health as to your ability to attend the sitting of the United States Circuit Court at its present term at Leavenworth, Kansas?
A. My health is not good, but am infirm caused by a slight stroke of paralysis two years ago, which has been followed by nervous prostration, the latter is greatly increased by any unusual excitement. I am troubled very much from insomnia, which is aggravated by new or strange surroundings. I do not regard it prudent to go from home and I am advised by physicians with whom I have consulted that it would be unsafe for me to attend the sitting of the United States Court at Leavenworth.
63 Q. Do you remember an inquest held upon a dead body claimed to be the body of John W. Hillmon, said inquest being held by Dr. Richard Morris as coroner of Douglas county, Kansas, sometime in the spring of 1879?
A. Yes.
Q. State whether or not at or about the time that inquest you made any examination of the dead body the subject of the inquest, if so, at what instance did you make such examination and with what other physicians and surgeons, if any, did you act?
A. I did make an examination of the dead body, but do not remember now whether I made it at the request of the coroner or of the insurance companies' agents—It was, however under the control of the coroner. Dr. V. G. Miller, Dr. J. H. Stuart, acted with me—I do not recollect whether Dr. Mottram acted with us or not, but he came in and was present part of the time.
Q. State what kind of an examination of the body you made?
A. We examined first as to external appearances, as to any marks on the body—marks of identification or scars or other peculiarities of any nature. We examined the body very minutely and carefully in that regard. We stripped the body, laid it out on a board and examined it on all sides and in all places. We used a magnifier to examine the body for scars.
Q. State what, if any scars, marks or other identifying peculiarities, if any, you found upon the body?

A. We found no marks or scars, except a vaccination mark, a double mark from which the scar had not peeled off. The body was remarkable because of its freedom from scars.

Q. State whether or not there were any scars upon the calves of the legs or either of them? A. There was not.

Q. Was your examination close enough to enable you to say positively that there was no visible scar on the calf of either leg? A. Yes.

Q. If a scar resulting from the bite of a dog by which a portion of the flesh had been torn away had been upon either leg, would you have seen it? A. I think we would.

Q. Did you notice or examine the nose of the dead body?

A. I did.

Q. State what its apeparance was at the time and what if any evidences of injury to that organ you discovered?

A. The nose was not exactly in the median line of the face, but was a little one-sided, the point was turned a little. There was some discoloration on the side of the nose; decomposition had set in there. The nose had the appearance of having been injured during life at the point where decomposition had set in.

764 Q. State if you know whether or not the portion of the flesh of the arm containing the vaccination marks was removed from the arm; stating in this connection all you know of your own knowledge in relation thereto.

A. It was removed from the arm—a square piece of skin was removed from the arm, the marks being in the center of it. I saw it afterwards at the office of Dr. J. H. Stuart in Lawrence.

Q. State if you know whether Dr. J. H. Stuart was at that time professionally retained to any one of the insurance companies having policies on the life of J. W. Hillmon?

A. He was examiner for I think the New York Life Insurance Company.

Q. At the time you made the examination of the body of which you have spoken had the piece of skin containing the vaccination marks been removed?

A. It had, but Dr. J. H. Stuart had informed me that he had removed it, and showed me the piece to account for the appearance of the arm at that place.

And further deponent saith not.

A. FULLER.

Q. 18. When you saw this wagon on the old Griffin trail describe it as to whether it had on wagon bows and wagon cover.

A. 18. To the best of my recollection it had on wagon bows, and I think the sheet was over two or three of the hind bows.

Q. 19. Describe how and where these two men were sitting in the wagon at that time?

A. 19. I don't recollect. They were not sitting under the cover.

Q. 20. State if you can what kind of a seat they were sitting on? A. 20. I can't do it.

Q. 21. Were they sitting in the bottom of the wagon bed?

A. 21. To the best of my recollection they were not.

Q. 22. How much of the wagon bed was covered by the cover?

A. 22. To the best of my recollection it would be a third or half.

NATHAN S. PRIEST.

767 The plaintiff next offered in evidence the testimony of W. W. Standiford, given upon the trial of 1895, which is in words and figures as follows, to wit:

Direct Examination of W. W. Standiford.

Q. Mr. Standiford, state your name?

A. W. W. Standiford.

Q. Where do you reside?

A. Medicine Lodge, Barber county, Kansas.

Q. Where did you reside in the years 1878 and 1879?

A. Medicine Lodge, Barber county, Kansas.

Q. What was your business at that time?

A. I was selling goods; handling a little stock.

Q. What is your business now? A. Handling stock.

Q. How long did you reside in Barber county prior to 1879?

A. Well, I am not very good on dates; I think about—I think I went to Medicine Lodge in 1876 or in the spring of 1877.

Q. Did you know one G. W. Paddock who was a justice of the peace in that county? A. I did.

Q. Do you remember the circumstances of a dead body being brought into Medicine Lodge in the month of March, 1879 by G. W. Paddock? A. Yes, sir.

Q. State whether or not an inquest was held upon that body by Squire Paddock in Medicine Lodge? A. It was.

Q. State whether or not you were a member of the coroner's jury at that inquest? A. I was.

Q. Where in Medicine Lodge did you first see that dead body?

A. In a wagon northeast corner of Iliff's stable on Main street.

Q. Who was with the body when you first saw it?

A. Well, there was quite a number; but I remember Mr. Paddock, Mr. Ferguson and a man by the name of Walt and others that I couldn't name; I know there was quite a number there.

Q. When did you first look at that body and where was it when you first looked at it? At its features.

A. You mean out in the wagon?

Q. When you first looked at the body, the features of the body, when was it you first did that?

A. I was called there by Mr. Ferguson or Mr. Paddock who said there was a dead man—

Q. You need not state what was said.

By the Court: When did you look at it?

A. As soon as I got to the wagon.

Q. State to the jury whether or not you had ever seen that body in life? A. My best recollection is that I had.

Q. When?

A. Sometime in the month of December, 1878.

Q. Where? A. In my store.

Q. What was the name of the person whose body that was, in your judgment?

Counsel for the defendants object to the question as
768 incompetent, irrelevant, immaterial and hearsay.

The Court sustained the objection, to which ruling of the Court the plaintiff at the time duly excepted.

A. John W. Hillmon. (This answer not read.)

Q. At the time you saw that body, calling your attention to the persons who were present, either then or during the inquest, did you see a man by the name of John H. Brown?

A. I saw a man that they called Brown but I couldn't say as to his initials.

Defendants move to strike out the answer to the last question as hearsay.

The Court overruled the motion, to which ruling of the Court the defendants, and each of them, at the time duly excepted.

Q. Did he testify; did the man Brown testify at the coroner's inquest? A. Yes sir.

Q. When you saw the man John W. Hillmon in your store, state whether or not you saw the man Brown?
A. I did, the man that they called Brown.

The defendants object to the answer to the last question as incompetent, irrelevant, immaterial and hearsay.

By the Court: I think that ought to be admitted with this qualification: That the jury should not take it as evidence that the name of the man was Hillmon, but it is allowed simply for the purpose of calling attention to the man about whom the testimony is being given and not as evidence of his name.

To which ruling of the Court the defendants and each of them at the time duly excepted.

Q. Were they together?
A. They were not right together; when he went to go out of the store he spoke and called this man Brown—
Q. You need not state anything that was said.
Q. Did they come into the store together?
A. I couldn't say.
Q. Did they go out of the store together? A. They did.
Q. State how frequently you saw this man Hillmon upon the streets in Medicine Lodge at that time in December?

The defendants object to the question as incompetent, irrelevant and immaterial.

By the Court: The objection is overruled with the statement to the jury that it should not be considered that the witness is testifying that the man's name was Hillmon; that the name is used for the purpose of calling attention to some particular man who it is claimed was with Brown.

To which ruling of the Court the defendants and each of them at the time duly excepted.

A. I couldn't say; I saw the man before he had come into the store; I recognized him as a stranger that afternoon. I passed him a time or two in going to Iliff's stable; it seemed to be headquarters.
Q. After he had been in your store or before?
A. Before; I knew him as a stranger; identified him
769 as a stranger, and afterwards he came into the store; I couldn't say when I met him and passed him but I saw him once afterwards.
Q. Had you a conversation with him in the store?
A. I did.
Q. How long a time did that conversation occupy?
A. Well, sir, it was a good while ago and I couldn't say.
Q. To the best of your judgment?
A. I would say probably ten minutes; maybe longer.

Q. Mr. Standiford, without stating what was said between you and the man Hillmon, state what the subject of the conversation was between you?

Objection. Question withdrawn.

Q. Mr. Standiford, you may state what Mr. Hillmon said in that conversation if anything, as to where he was going, and what his intentions were when he left Medicine Lodge?

The defendants object to the question as incompetent, irrelevant and immaterial.

By the Court: So far as the use of the word Hillmon is concerned, the same direction will be made to the jury as before—that the use of the word Hillmon in the question and answer shall not be construed to mean that that man was Hillmon.

To which ruling of the Court the defendants and each of them at the time duly excepted.

Q. He said he wanted to talk to me about a stock ranch; he was hunting a stock ranch.

Q. Go on and state all that was said by him about that matter?

The defendants object to the question as incompetent, irrelevant and immaterial.

The Court overruled the objection to which ruling of the court the defendants and each of them at the time duly excepted.

Q. I am asking at this time, the time that Hillmon went away and came back, during that season, if they were running the ferry across the river at Lawrence, or using the bridge?

A. I don't remember.

801 Q. How long did Hillmon remain when he came back after the first trip? A. I can't tell you.

A. I got a dark coat; I think it was black.

Q. Got a black coat? A. And vest.

Q. And vest did you? A. Yes, sir.

A. No, I don't remember much about it, that part of it, how I got there, I don't remember what cause I was there.
804 Q. Where did Alva Baldwin live then?
A. Alva lived in Kanwaka township.

A. Yes, sir.
Q. Frequently?
A. Well, once or twice a year, probably.
Q. He used to visit you once or twice a year and stay some time when he came over there?

Q. You don't remember in regard to that? Do you remember whether he was over there in 1871 or '72 or not?
A. No, I have no recollection of it now just at the time.
Q. You could not tell what particular time he was over there but he was over there frequently, wasn't he, and you visited backwards and forwards like any other two brothers, didn't you? A. Yes, sir.
805 Q. There wasn't a year passed but what he was over there two or three times, was there?
A. Oh, yes, I don't know about that.
Q. How is that?
A. I don't know about that; he would come there every year or two.

Q. He would come every year or two?
A. Maybe two or three times a year; I don't remember it now.
Q. How did you go from Lawrence to Medicine Lodge?
A. Went to Hutchinson on the train.
Q. And then took a private conveyance from there over?
A. Took the mail line.
Q. You went from Hutchinson to Medicine Lodge by stage; is that a fact?
A. Mail line; buckboard, I guess it was; I don't remember now.
Q. You don't remember whether it was stage or buckboard? A. I knew they had some mail.
Q. You know you didn't go by rail, don't you, from Hutchinson? A. Yes.
Q. There was no railroad into Medicine Lodge at that time, was there? A. No railroad there at that time.
Q. How many days do you think you were on the road from Lawrence to Medicine Lodge?
A. I don't remember how long we was going to Medicine Lodge.
Q. It would be one day, or part of a day to go to Hutchinson, and then a day and a half or such a matter to go from Hutchinson to Medicine Lodge by stage, or two days at the outside; do you remember in regard to that?
A. It took us two days coming back.
Q. I asked you about going down there?
A. I don't remember, sir.
Q. Don't remember how long you were going down. Do you remember when you got there, what time in the month?
A. No, sir.
Q. Do you remember the day of the week? A. No, sir.
Q. Don't remember anything about that? A. No, sir.
Q. Do you remember of seeing when you got there, John H. Brown? A. Yes, sir.
Q. Do you remember where you saw him first?
A. No, I can't tell you that, but I think he was at
806 the hotel.
Q. Do you know about what time in the day that you got into Medicine Lodge, you and Alva Baldwin?
A. I don't remember, I think it was night.
Q. You remember of seeing John H. Brown that night?
A. I don't remember sir.
Q. Do you remember anything in regard to that? How long had you been in Medicine Lodge before Colonel Walker and these parties whom you have mentioned arrived from Lawrence?

A. I don't remember that, probably a day or day and a half somewhere.

Q. You think a day or a day and a half?

A. I would think so, yes.

Q. Probably two days. Would you draw the line at a day and a half?

A. I wouldn't draw any line at all, because I don't remember just about it.

Q. Couldn't say, then?

A. I think it was about a day, maybe a day and a half.

Q. A day and a half; that will be as denifitely as you can fix the time? A. Yes, sir.

Q. During that time you had made arrangements, had you not, to fence the grave? A. Yes, sir.

Q. And when they arrived there on the ground you had part of the material at the cemetery for the purpose of fencing the grave, did you not? A. I think so.

Q. Some lumber and some posts and some barbed wire; do you remember in regard to that, Mr. Baldwin?

A. We had lumber and posts; I don't think there was any wire.

Q. You don't think there was; there was lumber and posts then and you had them out there for the purpose of fencing the grave? A. Yes.

Q. Do you remember when that had been taken out there, that is, how long after your arrival had you caused this material to be taken out there?

A. I can't say as to that, but I think it was the next morning.

Q. The next morning after your arrival—you ar-
807 rived at night, and the next morning you made arrangements to fence the grave, didn't you?

A. I think that was it.

Q. Then the next morning or the second or third morning, Colonel Walker and his party arrived on the scene, did they not; that would [—] about the order in which they came, sir?

A. They came the next day or the next day after that; I don't remember now which that was, but I think it was the next day probably.

Q. They came there: There was Colonel Walker, Major Wiseman, and Mr. Tillinghast?

A. I think that was the party.

Q. Those were all; then there was from Lawrence, yourself, and your brother Alva? A. Yes, sir.

Q. And this man Brown also? A. Yes, sir.

Q. And then I understand you to say that on the same day that these parties arrived in Medicine Lodge, the body was disinterred?

A. Yes, I think it was the same day; they might have come there at night; I don't remember now what time they came in.

Q. It was either the same day or the next day? That is correct, is it not?

A. That is about as near as I can remember it.

Q. On the day they arrived there or the next day after their arrival, this body was taken up? A. Yes, sir.

Q. That was the first time it was taken up there?

A. Yes, sir.

Q. It was, of course, enclosed in a coffin? A. Yes, sir.

Q. And a box, an ordinary box around the coffin?

A. I don't remember about that; I think so.

Q. You think there was a box also, don't you? That is the body was enclosed in a coffin and the coffin enclosed in a box? That is a fact, is it not?

A. I think so; I don't remember about these things; it is a long time ago.

Q. I know, but I want to get at the best of your recollection in regard to it; you have stated now that you remember being there, yourself and these parties from Lawrence, yourself, your brother and what other parties were

808 present, now, when the body was taken up?

A. Brother Alva was there and myself and the negro that went out.

Q. A colored man; who else?

A. I don't remember, the party that came from Lawrence, I think they was all there, and Alva and I was there, and probably two men with the wagon that went down to take out the lumber to fence the grave.

Q. Do you remember their names? A. No, sir.

Q. Now, you stated all you remember being there, especially the parties from Lawrence, yourself, and Alva and the colored man and two men who were there with the team?

A. I think there was a physician along.

Q. You think there was a physician there also, do you?

A. Yes, sir.

Q. You say you think there was a physician there, do you?

A. Yes.

Q. After the body was taken up, the coffin, of course, was opened, and you saw there, did you not, upon that body, the clothes which you had exchanged the coat and vest?

A. Yes, sir.

Q. Did you not? A. Yes, sir.

Q. And then you say that the sleeve was opened; is that a fact? A. Yes, sir.

Q. Did you examine the arm? A. Not particular.

Q. Did you notice who did examine the arm?

A. I don't remember, I think it was the doctor opened the sleeve; it might have been Walker but I don't remember as to that.

Q. Now, standing immediately around this coffin when the sleeve was opened, there was Colonl Walker, Major Wiseman, Mr. Tillinghast, Alva Baldwin and yourself, and the physician, was there; were not they the parties who were nearest to the coffin at the time the sleeve was opened?

A. I think so, and the parties that was opening the grave; I don't know where they was; I presume they was just as near as the rest.

Q. Who was standing nearest to the head of the coffin, nearest to the body at that time?

A. Colonel Walker; Colonel Walker and I stood close together.

809 Q. Did you stand next to Colonel Walker or on the opposite side of the Colonel?

A. I stood next to him if I remember right; is the memory I have of it now.

Q. You remember now that you stood next to Colonel Walker on that occasion? A. Yes, sir.

Q. Is it not a fact now that Major Wiseman stood next to him, and you stood on the opposite side? A. I don't think so.

Q. You are quite positive that that is not correct?

A. Yes, sir.

Q. You say that after the body was thus opened, I mean the sleeve, that you looked at it and these various parties that were there looked at it, did they? A. Yes, sir.

Q. And then the body was put back in the coffin and the coffin closed and taken where?

A. To Medicine Lodge. I don't think the body was ever taken out of the coffin.

Q. Well, the coffin was closed then, was it not?

A. Yes, sir.

Q. And the box closed, the box in which the coffin was put, was nailed up, was it not, or screwed up?

A. I don't remember that there was any box around it now, but the coffin was closed up.

Q. Then you say it was taken to Medicine Lodge?

A. Yes, sir.

Q. How far distant was Medicine Lodge from the cemetery or is the cemetery from the city?

A .Mile and a half maybe or two miles; I don't remember the distance, but it was not a very great distance.

Q. Do you remember what time in the day?

A. That was in the forenoon, I think.

Q. Do you know where the body was kept that night?

A. I think it was taken to the hotel, but I don't know; I can't testify to that now just where it was; but it was, I think kept in the hotel.

Q. It was kept there at Medicine Lodge that night, you think? A. Yes.

Q. You think they didn't start with the body that afternoon. For the purpose of refreshing your memory, was not this examination made in the forenoon, and after dinner didn't you have it and other effects packed, and didn't the body start for Hutchinson? A. No, sir, I don't think we did.

810 Q. Well, then, when did it start out?

A. The next morning, to the best of my recollection about it.

Q. It started the next morning?

A. That is what I think now; that is my best recollection about it.

Q. The coffin and remains were put into this spring wagon, were they not? A. Yes, sir.

Q. And John H. Brown and who else went with the wagon? A. Alva Baldwin.

Q. Alva Baldwin and John H. Brown traveled with the wagon which contained these remains? A. Yes, sir.

Q. In regard to the luggage or baggage and the effects which you found there and put up; do you remember what they consisted of?

A. No, sir, I don't think I had anything to do with them; I don't remember now.

Q. Didn't you see the luggage or the effects of Mr. Hillmon put into that wagon?

A. I don't remember it now, I don't think I did.

Q. I want to ask you particularly in regard to a pair of shoes; do you remember those shoes being put into the wagon?

A. No, sir.

Q. If I understand you correctly, you are not able to state any of Mr. Hillmon's effects which were found there and which were put into the wagon; not able to mention any of them?

A. No, sir.

Q. You were present, weren't you, Mr. Baldwin, when they were put in?

A. I don't remember about them now, at this time.

Q. You don't remember in regard to that? A. No, sir.

Q. Do you remember anything in regard to John Brown's luggage or baggage, what he had?

A. I don't remember anything about the baggage.

Q. You don't remember anything about the baggage of either Hillmon or Brown, do you?

A. No, I presume they were put in the wagon, but I don't remember about it.

Q. You don't know anything about the luggage of either?
A. No, sir, it was fifteen years ago.
Q. With whom did you ride back to Lawrence; I mean to Hutchinson.
A. I think I went on the mail if I remember right.
811 Q. The other parties went back with their private conveyances, did they? I mean Colonel Walker, and Mr. Tillinghast; they went back the same way they came down, did they not? A. I think so.
Q. You got into Hutchinson, did you not, before any of the other parties?
A. I don't remember about that who got in first.
Q. Didn't the mail make better time, so you arrived at Hutchinson before either Brown got there with the remains, or the other parties with their private conveyance?
A. I don't remember about that; we stayed on the road over night; I can remember that part of it.
Q. Don't remember which of the party got into Hutchinson first? A. No.
Q. Now, do you remember in regard to the luggage or baggage when you got to Hutchinson?
A. I don't remember anything about it.
Q. Don't remember anything about any baggage or luggage either at Hutchinson or at Medicine Lodge? A. No, sir.
Q. I will ask you now if you don't remember of discussing, asking, when a conversation was had, discussing the loss of a certain portion of the baggage or luggage that was put in there at Medicine Lodge, if, at Hutchinson, you did not ask about some of it having been lost?
A. No, sir, not that I have any recollection of now.
Q. You have no recollection either in regard to a trunk or satchel being put into the wagon at Medicine Lodge, or arriving at Hutchinson?
A. No, sir, I don't remember anything about it.
Q. Then, at Hutchinson, of course, the remains were taken and shipped to Lawrence? A. Yes, sir.
Q. Did you assist in taking the remains from the wagon and putting them on board the cars at Hutchinson; did you assist in that matter? A. I think not.
Q. Don't think you did? A. No.
Q. Do you remember being around the wagon there at Hutchinson in which the remains were brought there?
A. I think the remains went right to the depot and [—] put in the baggage room and shipped the next train.
812 Q. You think they were put in the baggage room and shipped the next train, but I asked you if you were about the wagon?

A. Don't know where I was. I was around there somewhere.

Q. What I was getting at is whether you assisted in taking e remains from the wagon?

A. I don't remember about that.

Q. All you know is that they were put on the train and at they arrived at Lawrence? A. Yes, sir.

Q. You went down there on the same train that the remains did? A. Yes.

Q. And all these other parties whom you have mentioned?

A. I think they were all on the train; I don't remember out that but I think Mr. Walker and Mr. Wiseman both.

Q. How did you ascertain or first learn that these remains re at Medicine Lodge? I don't ask you to state what was d. But I want to know how you first learned that they re down there?

A. I don't remember how I first got the word; don't remember now.

Q. I want to ask you in that connection if you did not receive a letter from John H. Brown at Tonganoxie in reference this matter? A. I don't think I did.

Q. Well, can you say whether you did or not?

A. I would say I did not.

Q. You are positive in regard to that?

A. No, I ain't. I couldn't be positive fifteen years back out such things.

Q. Didn't you testify on the second trial of this case that received a letter from John H. Brown in regard to that tter?

A. I don't know, sir, I can't tell; I am testifying to just at I remember.

A. I don't think I did, sir.

Q. Is that as strong as you can say?

A. That is as strong as I can say it.

Q. How far is Tonganoxie from your farm?

A. Four miles.

Q. Tonganoxie at that time was your postoffice address was it not? A. Yes, sir.

Q. I will ask you to state if it is not a fact that before you started on that trip for the remains of John W. Hillmon, if you hadn't made arrangements with Mrs. Hillmon to borrow $10,000 of money from her? A. No, sir.

Q. Hadn't made any such arrangements? A. No, sir.

Q. I will ask you to state if it is not a fact that immediately after your return from Medicine Lodge, you did not arrange to borrow $10,000 of money from her? A. No, sir.

A. I don't remember what month it was, but I went there to get him to sign some papers.

Q. You went over there to get him to sign some papers?

A. Yes, sir.

Q. Those papers were a proof of death in this case, were they not? A. I think that was it.

Q. You think you got it, you think it was sworn to there, do you?
A. I don't think it was sworn to in Parkville; I don't remember where it was.
Q. You understand the question, if at the time you went to Parkville for the purpose of getting the proof of death from John H. Brown, you did get it? A. Yes sir.
Q. Then, why did you bring John Brown to Kansas City with you afterwards?
A. I don't know but what he made that at Kansas City, I don't remember.
Q. You don't remember whether it was made in Parkville or Kansas City?

818 A. I don't remember where that was made, sir.

Q. I will ask you if it is not a fact that you didn't get it on the first trip, and that you had to make a second trip down there for that purpose before you got it, just to refresh your mind in regard to that, Mr. Baldwin?

A. No, sir, I don't think; I think I got it.

Q. You are not quite positive in regard to that? A. No.

Q. Is it not a fact now, Mr. Baldwin, that you was down there in Missouri and saw Mr. Brown three times between the time you saw him at Lawrence at the coroner's inquest, and the time that he was at your house in September, 1879; if you were not down there three times?

A. No sir, that ain't a fact.

819 Q. How many times do you say you went down there?

A. I was there once, it might have been twice.

Q. Do you know—if you went there twice, what did you go there the second time for, Mr. Baldwin?

A. I don't know that I was there twice.

Q. But assuming that you did go there twice, concerning which you are not positive, what would you say you went there the second time for?

A. I never went for any purpose, I don't think, only to get

them papers, his affidavits; that was all ever I had any business with him.

Q. I understood you got those in Kansas City?

A. I don't know about that; I ain't said that; don't understand me that way, if you please.

Q. All right, you say you don't know whether you got them at Parkville, or at Kansas City; am I correct about that?

A. No, I ain't sure about that.

Q. Where do you say now, those proofs were made?

A. I can't say; I don't remember about that.

Q. You left the team at Hutchinson, did you?
A. Yes, sir.
Q. What did you do with that team and wagon after you had brought them over there?

The plaintiff objects to the question as incompetent, irrelevant and immaterial and not proper cross-examination.

841 The Court overruled the objection, to which ruling the plaintiff at the time duly excepted.

A. That team and wagon were sold the next day.
Q. Where?
A. At public auction, at Hutchinson, Kansas.
Q. By whom?
A. I had it done; an auctioneer sold them.
Q. You had an auctioneer sell the whole outfit the next day? A. The next day.
Q. Was Brown there at the time they were sold?
A. No, sir.
Q. He had come on to Lawrence? A. I suppose so.

Q. Then, what did you do after you had sold the team and that outfit; what did you do then?

A. I went to Lawrence.

Q. When did you arrive in Lawrence?

A. The next day or the day after; I am not positive which.

Q. Then you got in there, is it not a fact, just one day later than your brother did? A. Yes, one day later.

Q. Just one day later than your brother you got into Lawrence? A. Yes, sir.

Q. You simply stayed back to sell the team?

A. Yes, sir.

Q. At the time you arrived there was there an inquest being held? A. I believe so.

Q. There was an inquest being held over this body?

A. I believe so.

Q. The same body? A. Yes, sir.

Q. Of course, you knew before that that there was a controversy in regard to the identity of that body? A. Yes, sir.

Q. I understood you to say that you did not testify on that occasion? A. I did not.

842 Q. You went out home when?

A. The same evening I got home.

Q. You went out home the same evening you got home. When did you come back again?

A. I don't remember as to that.

Q. Did you come back again until after the inquest was over? A. I could not state as to that.

Q. You have no recollection in regard to that?

A. No, sir.

Q. There was considerable excitement there in regard to the matter was there not?

The plaintiff objects to the question as incompetent, irrelevant and immaterial, calling for the conclusion of the witness upon a matter of no possible importance. The Court sustained the objection to which action and ruling of the Court the defendants at the time duly excepted.

By Mr. Isham: May I state the ground upon which I consider this evidence relevant. This witness has said that he was at the grave at Medicine Lodge; that he saw the corpse and recognized it as as that of John W. Hillmon; he returns to Lawrence where there is an inquest in progress. The evidence

has already shown that Levi Baldwin was asking people to go and identify the body, but this witness was not asked to go and did not go. We think that a very relevant circumstance bearing upon the question of identity. The implication is that witness if he had gone, would have testified it was Hillmon, and the fact that he was not invited, and did not go, is evidence that the body was not that of Hillmon.

By the Court: Whatever may be said on behalf of the plaintiff in reference to this question from the defendant's standpoint, all that could possibly be gained by this question, or questions of like character would be to reflect upon the witness who is now testifying. It is clearly not cross examination of this witness.

To which ruling of the Court the defendants at the time duly excepted.

Q. I believe I asked you when, after the inquest,
843 were you in Lawrence again?

A. I think it was the next day.

Q. You have no means of fixing the date any more definitely? A. I don't believe I understand your question.

Q. I said, when after the inquest, were you in Lawrence?

A. I have no recollection at all.

Q. You were in Lawrence nearly every day?

A. Not every day, Oh, no.

Q. But frequently? A. Yes, sir.

Q. You had been down to Medicine Lodge and back?

A. Yes, sir.

Q. Who paid the expenses of that trip?

A. I paid my own expenses.

Q. Do you know who paid Mr. Levi Baldwin's?

A. No, sir, I could not state.

Q. How much did this team bring? This outfit?

The plaintiff objects to the question as not cross-examination and immaterial.

By the Court: What is the purpose of that, Mr. Barker?

By Br. Barker: I think it would throw some light upon this question to show with what kind of an outfit a man able to carry $25,000 of life insurance was traveling around the country.

The Court overruled the objection, to which action and ruling of the Court the defendants at the time duly excepted.

A. I don't remember.

Q. Can you approximate it? A. No, sir.

Q. Can't even tell now how much it sold for? A. No, sir.

Q. This picture, marked, I believe by this Court, Exhibit
10. When did you first see that picture?

A. This is the first time I have seen it so far as I know.
Q. This is the first time you have seen that picture?
A. Yes, so far as I know.
Q. To-day? A. So far as I know.
Q. Has the picture or one like it been shown to you by either the plaintiff or her attorneys since you have been here?
A. Yes, sir.
Q. You have seen either this or one just like it?
A. Yes, sir.
844 Q. Seen it several times, have you not, since you have been here? A. Yes, sir.
Q. It has been shown to you by either the plaintiff or her attorneys? A. Yes, sir.
Q. You stated that that was a picture of John W. Hillmon?
A. Yes.
Q. To make this matter clear: You never saw it, you say, until you saw it here, I mean, here in Leavenworth since you came here this last time?
A. I don't know as I have seen the same picture; I have seen pictures like it.
Q. Before you came here?
A. Before I came here to Leavenworth?
Q. Where did you see it? A. I don't remember exactly.
Q. You don't know where you saw it? A. No, sir.
Q. Now, look at this picture—I can't tell what exhibit it is—look at that picture. You have seen that picture or one like it before? A. Yes, sir.
Q. Of whom is that a picture? A. John W. Hillmon.
Q. That is a picture of John W. Hillmon also, is it?
A. Yes, sir.
Q. You say that these two pictures are pictures of the same individual? A. Yes, sir.
Q. Have you had any pictures sent to you? A. No, sir.
Q. The small picture which I show you is Exhibit 14 of this Court. Did you see those remains there at Lawrence while they were at Bailey & Smith's? A. No, sir.
Q. You did not go down there at all?
A. I did not see them.
Q. Were you present when the remains were buried; that is, did you go out to the cemetery? A. No, sir.
Q. Do you know of your own knowledge when the remains were buried? A. No, sir, I do not.
Q. You know nothing in regard to that? A. No, sir.
Q. Do you know anything about there being any funeral there at Lawrence over these remains? A. No, sir.
Q. You never heard of any, did you?
A. I don't remember anything of it.
845 Q. At Lawrence: I say, you never heard?
A. No sir.

Q. Now, I want to call your attention again to what took place down there at the cemetery when these people were standing around there; I will ask you to state, sir, if there wasn't a cloth on the face, and when that cloth was removed, and you saw the features, you didn't say, "Hell, that isn't Hillmon?" A. I never said so.

Q. I will ask you to state if you didn't make a remark to that effect? A. I never did.

Q. Did you say so in that occasion in substance, I mean on the occasion at Medicine Lodge when the coffin was opened and the face of the corpse exposed there, if you did not exclaim that that was not Hillmon? A. I never said so.

Q. You are positive in regard to that?

A. I am positive in regard to that.

Q. Now, I will ask you to state if at the time of the coroner's inquest was being held in Lawrence, you did not state to parties there on Henry street—I will give you the name of the party presently—that these could not be the remains of John W. Hillmon because there was too much discrepancy in the height; if you did not state that in substance?

The defendants object to the question because the time, place and person are not definitely given.

The court sustained the objection to which action and ruling of the court the defendants at the time duly excepted and still except.

A. Are you acquainted with one Mr. C. E. Emery?

A. I am acquainted with an Emery that used to live near us, but I have forgotten his initials.

Q. You are acquainted with an Emery who lived near you in Kanwaka township? A. Yes sir.

Q. I will ask you if you did not state to this Mr. Emery at or near Henry street in the city of Lawrence, at or about the time that the inquest was being held that those could not be the remains of Hillmon because there was too much
846 discrepancy in the height; that those remains which were at Bailey & Smith's could not be the remains of Hillmon because there was too much discrepancy in height?

A. I never said so.

Q. I will ask you if you didn't state that in substance?

A. I did not.

Q. I will ask you if you didn't state to Mr. Emery on that occasion. You know whom I am referring to now?

A. Yes sir.

Q. That you could not account for the discrepancy in height between the remains there and John W. Hillmon. I am asking about Henry street, at or about the time the inquest was being held, and Mr. Emery. I will ask you to state

if on the same occasion, you did not tell him, in substance, that those remains could not be the remains of John W Hillmon on account of the teeth, there being so much difference in teeth? A. No sir, I never said any such thing.

Q. Didn't you state to him that in substance?

A. I did not.

Q. Did you not state to him on that occasion, that is, at the time the inquest was being held, on Henry street in the city of Lawrence, that you could not account for the difference between the teeth of the remains lying down there and those of John W. Hillmon?

A. I never made any such statement.

Q. You know this man Emery?

A. If it is that one, I know him, yes.

Q. I will ask you that question in a little different shape. Referring, now, to the same time and place, and the same man, I will ask you if Mr. Emery did not ask you how you accounted for the difference between the height of the remains down there and John W. Hillmon, and if you did not state to him in substance that you could not account for the difference?

A. No sir.

Q. I will ask you to state if on that occasion Mr. Emery didn't ask you how you accounted for the difference between the teeth of the remains down there and the teeth of John W. Hillmon, and you did not state to him that you could not account for the difference?

847 A. Never such a conversation.

Q. I will ask you if he did not ask you how you accounted for the difference between the appearance of the hair of the remains at Bailey & Smith's and the hair of John W. Hillmon, and if you did not tell him that you could not account for the difference? A. No sir.

Q. You had no conversation in regard to that matter?

A. No conversation with him at all.

Q. With him at that time? (No answer.)

Q. Referring now to the grave at Medicine Lodge, you have already spoken about the coffin being opened, and the remarks that were made by Mr. Wiseman and Levi Baldwin. Now, I will ask you how long, after the coffin had been opened and the face exposed, before anything was said to you or you said anything in regard to it?

A. It was not long; I don't remember exactly.

Q. Well, about how long?

A. It had only been a few moments.

Q. Well, I understood you to state on your direct examination that they asked you what you said about it?

A. Yes sir.

Q. They asked for your opinion, did they not?

A. Yes sir.
Q. Who asked for your opinion there?
A. Colonel Walker.
Q. How long was that after the coffin had been opened?
A. Only a short time; I couldn't state exactly.
Q. Five, ten or fifteen minutes? A. Probably.
Q. There had been considerable discussion going on around
ere before they asked your opinion? A. Yes sir.
Q. You did not express any opinion you say, in regard to
until you were asked? A. No sir.
Q. After you were asked your opinion by Colonel Walker
u said you were satisfied that was Hillmon? I understood
u to say that? A. Yes sir.
Q. Now, have you not talked with various parties in regard to the identity of those remains?

s Counsel for plaintiff objects to the question unless the time, place and party, are named.

By Mr. Barker: I just ask the general question.
By the Court: I suppose it is preliminary.

A. Yes sir.
Q. You have talked with parties there at Delaware, have
ou not? A. Not as I remember of.
Q. You have talked with parties at Delaware from Kan-
s in regard to it?
A. Not as I remember of at Delaware.
Q. Do you remember a man by the name of Spangler talk-

Q. You don't remember his name?
A. No, I don't remember his name.
Q. I did not understand you to say where he came to?
A. He came to Ohio.
Q. To Delaware? A. Yes sir.
Q. Where did you see him?
A. At Center Village, Ohio.
Q. How far is that from Delaware?
A. About twenty miles.
Q. What were you doing there?
A. I was living there at that time.
Q. You were living at Center Village? A. Yes sir.
Q. What business were you engaged in there?
A. I was clerk in the postoffice and store.
Q. Have any of the attorneys in this case for the plain-
iff visited you? A. No sir.
Q. Has Mrs. Hillmon been down there?
A. Not to my knowledge.

Q. You have not seen her down there? A. No sir.

Q. Now, I will ask you if you did not state to Mr. Spangler that you could not say whether those were the remains of John W. Hillmon or not? A. Never stated so.

Q. I will ask you at the time Mr. Spangler saw you at this place in Ohio, five or six years ago—you had a talk with him in regard to this case? A. Very little.

849 Q. I will ask you if you did not on that occasion state to him that you could not say that those were or were not the remains of John W. Hillmon but you thought they were? A. No, sir, I did not state it that way.

Q. You remember the circumstance, do you?

A. Yes, sir, I do.

Q. And the conversation? A. Yes, sir.

Q. I desire to ask you this question: Did Levi Baldwin ask you to go down to Bailey & Smith's to look at the remains there while they were lying three?

A. Not to my remembrance.

Q. You have no recollection in regard to that? A. No, sir.

Q. Referring now to Hutchinson: What train did you leave Lawrence on for Hutchinson at the time you and Mr. Levi Baldwin started for Medicine Lodge?

Q. What time in the evening?

A. I could not remember that exactly.

Q. You think you took the afternoon train from Lawrence to Hutchinson and got in there in the evening?

A. Yes, sir.

Q. Now, what time in the morning did you start on your trip from Hutchinson?

A. It was very early in the morning; probably six o'clock.

Q. Very early in the morning, at six o'clock, you had started on your trip? A. Yes, sir.

Q. Then, you say between the time you got in there at night and six o'clock the next morning, you had consulted with this undertaker whose name and residence you cannot give? A. Yes, sir.

Q. At whose request was the body brought back?

A. At the request of Mrs. Hillmon.

Q. Now, I mean after it was buried there and taken up, didn't Colonel Walker insist on the body being brought back?

A. No, I don't think—

Q. He was there that day? A. We decided after finding—

Q. No, I ask you who spoke about bringing it back;

850 I asked you who at the grave first spoke about bringing the body back.

A. I had a conversation with Levi there.
Q. Well, was it in the presence of these other parties?
A. While we were talking in regard to it Colonel Walker came up and asked us what we intended to do with the body?
Q. Well, go on and state.
A. We told him we intended to take it to Lawrence.
Q. Who was present when that conversation was had?
A. Levi Baldwin and Colonel Walker.
Q. Anybody else? A. Not to my remembrance now.
Q. Now, I understand you that at Hutchinson you were informed by an undertaker that the body could not be removed?
A. Yes, sir.
Q. Then you went down there and made arrangements to fence the grave, had the material on the ground to fence it, and that you then concluded to bring the body back, did you?
A. After it was removed from the grave and we found the condition it was in.
Q. After it was removed from the grave and you found what condition it was in you concluded to bring the body back, and you did bring it back? A. Yes, sir, brought it back.
Q. How many days were you gone upon that trip; that is, how many days was it from the time you left Lawrence until you got back there. A. Why, five or six days.
Q. I understood you to say that you never observed any scar upon Mr. Hillmon's hand? A. No, sir.
Q. And never discovered any peculiarity in regard to his teeth? A. No, sir.
Q. And in regard to his hair, you describe that as—how did you describe his hair? A. Dark brown in color.

And in answer to redirect interrogatories propounded to him by Mr. Hutchings, counsel for the plaintiff, the witness testified as follows, to wit:

851 Q. You have been asked about some party by the name of Spangler visiting you in Ohio some six or seven years ago. Do you see him here in the court house?
A. No, I do not recognize him.
Q. I will get you to state whether at that time he told you that represented the insurance companies?
A. No, sir, he did not.
Q. What did he say?
A. He said he came there in regard to a case where Green was plaintiff against the Lawrence Strawboard Company. I told him I knew nothing about any case of that kind.
Q. Go on and state the conversation that you had with him.
A. And he wanted my affidavit. We went to a notary public by the name of L. B. Hanover and there he asked me some questions in regard to the Hillmon case.

Q. What did you tell him as to whether that was Hillmon?
A. He asked me if I recognized him as John W. Hillmon, and I told him I did; he asked me if I did not state in the presence of Colonel Walker, Major Wiseman and some others that that was not Hillmon. I said that I never had said so or in their presence or anybody else's.

Q. Now, then, you may state whether that was written down before a notary public and signed by you for this man Spangler? A. Yes, sir, it was written down and signed.

By Mr. Hutchings: Will you please produce that paper?

By Mr. Barker: Never saw such a paper or heard of it before.

Q. How many times or upon how many other occasions did the insurance companies send a man there to you?

The defendants object to the question because it assumes, without proof, that the insurance companies sent men to him, and not re-examination. The Court sustained the objection, to which action and ruling of the Court the plaintiff at the time duly excepted.

By Mr. Barker: I asked you before if you had ever testified in this case, and you said you never had testified before?

A. Yes, sir.

852 Q. I meant to include in that whether or not the plaintiff had ever taken your deposition?

A. The plaintiff?

Q. Yes? A. No, sir.

Q. Your deposition has never been taken in this case, has it? A. No, sir.

By Mr. Hutchings:

Q. Defendant never took your deposition, either?

A. Only that one time.

Q. When Mr. Spangler came there?

A. Whatever his name was; I don't know his name.

By Mr. Green: We adopt that cross-examination for the Connecticut Mutual Life Insurance Company.

By Mr. Barker: You have never been called as a witness in this case before in any stage of it? A. No, sir.

Witness excused.

853 Mrs. Sallie E. Smith, the plaintiff, called in her own behalf, in answer to direct interrogatories propounded to her by Mr. Hutchings, Counsel for the plaintiff, testified as follows, to wit:

Q. What is your name? A. Sallie E. Smith.

Q. What was your maiden name? A. Sallie E. Quinn.

Q. Where were you born? A. Near Columbus, Ohio.

Q. What was your father's name? A. John Quinn.
Q. When did you come to Kansas?
A. In 1872, the fall of 1872.
Q. How old were you at that time?
A. I was 14 years old; a little past 14.
Q. What was your father's business?
A. He was a farmer.
Q. Is he living? A. No, sir.
Q. When did he die? A. He died I think—
Q. Before or after you came to Kansas?
A. Before we came to Kansas.
Q. Of whom did your family consist when you came to Kansas?
A. My mother, my grandmother, and my brothers and sisters.
Q. How old were your brothers and sisters?
A. I cannot tell the ages.
Q. Well, comparatively, were they older than you or younger?
A. Yes, sir, there was seven of us, and there was three younger than me.
Q. After you came to Kansas, where did you live?
A. We came to our uncle's west of Lawrence, five miles west, I. C. Baldwin's.
Q. Was he either of these Baldwins we have mentioned?
A. He was the father of the one just on the witness stand.
Q. How long did you live there?
A. I think we remained there six weeks.
Q. Where did you live then?
A. Mother bought a farm over near Levi Baldwin's, and I remained with Levi Baldwin; mother rented a house on the adjoining farm to the one she bought; she couldn't
854 get possession until March, and she remained with the rest of the family in that house until the first of March, and then we all moved home on the farm.
Q. Now, then, when you got settled on that farm, who was in the family?
A. There was mother and my brothers and sisters, except one sister.
Q. What year was that?
A. That would be in the spring of 1873.
Q. How long did you continue to live there?
A. We lived there until, I think it was 1876; we rented the farm and moved to Lawrence.
Q. Of whom did your family consist then?
A. My mother, two sister and myself.
Q. Where had your brothers gone?

A. They were at home, my two [two] brothers, my sisters and myself were at home.

Q. These brothers, were they older or younger than you?

A. Younger.

Q. They were children? A. Yes, sir.

Q. Then your father was dead, you had no older brothers and lived with your widowed mother? A. Yes, sir.

Q. When did you first become acquainted with Hillmon?

A. About the holidays of 1872, or just after, I think it was after the holdays. I think it would be in 1873 just after the holidays.

Q. Where were you living at that time?

A. I was at Baldwin's living at Mr. Baldwin's.

Q. Now, I will get you to state to the jury the extent of your acquaintance and your relations with Mr. Hillmon: When were you engaged to marry him?

A. About a year from that time; I think he came back from the west; then he went away again, and then he came—

By Mr. Barker: The question was, when were you engaged?

By Mr. Hutchings: You say that you first became acquainted with him in 1873? A. Yes sir.

Q. Where was he living at that time?

A. He was living somewhere in the west; he was just back on a visit.

855 Q. He was engaged somewhere in the west in some kind of business?

A. I think it was stock; I don't know; I think he brought some stock in from the west.

Q. Well, how long did you see him at that time on the occasion of your first acquaintance?

A. Just a short time; he was backwards and forwards there every two or three weeks; he would come and perhaps stay over night, or perhaps stay a day or something like that.

Q. When were you engaged to be married to him?

A. I think it was the following year—Well, along perhaps in the following May. We were not really engaged; Mamma said I was too young. I hadn't left school. It was not really an engagement.

By Mr. Barker: What her mother said is not competent. Stricken out.

Q. About what year was it that Mr. Hillmon spoke to you about marriage?

A. It was in my fifteenth year, at least.

By Mr. Hutchings: We would like to show the extent of her acquaintance with him.

By Mr. Barker: I think it is incompetent.

By the Cort: Wherein do you claim it is incompetent.

By Mr. Barker: It calls for a conversation between parties to an independent contract that has nothing to do with this case.

By the Court: You may ask her when she became engaged.

Q. State?

A. I can't; I know at that time I was in my 15th year.

Q. Now, after that, where was Mr. Hillmon?

A. Somewheres in the west; he went west.

Q. About what year was that?

A. About 1873, I think.

Q. How long did he remain in the west at that time?

A. I don't think—He remained until in 1876.

Q. During that time you may state if you were in correspondence with him? A. I was.

Q. When did he return? A. In 1876.

Q. Where were you living then?

A. We were living at Lawrence, Kansas.

856 Q. Did you see him then? A. Yes sir.

Q. How long did he remain there at that time?

A. He remained several months.

Q. You may state how frequently you saw him?

A. He was buying stock over Missouri and Kansas, and when he would come into town he would generally come and see us at our house.

Q. Well, after that, state where did he go?

A. He went west again.

Q. How long was he gone west on that occasion?

A. I think he came back the following winter.

Q. Of what year? A. 1877.

Q. He came back in the winter of 1877?

A. The winter of 1877, I think the last of January or first of February.

Q. How long did he remain there at that time?

A. Not more than two or three weeks.

Q. Had you been in correspondence with him in the meantime? A. Yes sir.

Q. How often did you see him during that period of three weeks or thereabouts?

A. I saw him, Oh, I saw him quite a number of times; he came and went; he went down to St. Louis, he told me, and then to Kansas City, a number of different places and then he came back.

Q. Well, where did he go after that time?

A. He went back in the west.

Q. How long was he gone then?

A. He came back the next August or September.

Q. August or September 1878? A. 1878, yes sir.

Q. In the meantime, had you been in correspondence with

him? A. Yes, sir, all the time.

Q. Now, when were you married?

A. Married the 3d of October, 1878.

Q. Now, I want you to describe to the jury the appearance of Mr. Hillmon as to his height, his general appearance, the color of his hair and his eyes, what kind of teeth he had, and so forth?

857 A. He measured five feet eleven and one-half inches in his shoes, he was a dark complexioned man, he had brown eyes, and dark brown wavy hair and I think would weigh about 160 pounds. I have seen him weighed.

Q. Now, I will get you to state to the jury whether he had any defective teeth? A. He did not.

Q. What kind of teeth did he have; describe them to the jury? A. Just good, even, white teeth.

Q. You spoke about his being five feet, eleven and a half inches in height. You may state to the jury how you know that? A. I saw him measured.

Q. When was that?

A. Sometime after we were married; I don't remember just how long.

Q. Where did it take place; who was present?

A. In our room at Mrs. Judson's. Mr. Arthur Judson, my cousin May and myself were there.

Q. How did he wear his beard, if he wore a beard?

A. Sometimes he wore just a mustache and sometimes he wore just chin whiskers and a mustache.

Q. Now, why don't you speak louder, Mrs. Smith?

A. I speak as loud as I can; I have throat trouble.

Q. Where were you living at the time of your marriage to Mr. Hillmon? A. At Mrs. Judson's on Henry Street.

Q. In what place? A. Lawrence, Kansas.

Q. You say that was in what month?

A. October 1878, October 3d.

Q. Now, after your marriage, where did you live with your husband?

A. We boarded a short time. Then we went to housekeeping.

Q. How long were you housekeeping, up to what date, to what time? A. I can't remember.

Q. Did Mr. Hillmon after your marriage go away and if so, when?

[Q.] Yes, sir he went south on the 18th of November, or December 18th; December.

Q. 18th of December of what year? A. 1878.

858 Q. You say Mr. Hillmon went south on the 18th of December, 1878? A. Yes, sir.

Q. Do you know whereabouts south he went?

A. I received a letter from him from Wichita, Kansas.

Q. Well, did you receive other letters from him?
A. Yes, sir.
Q. From what places? A. From different places.
Q. What other places?
A. From Hutchinson, from Harper, Kingman, Medicine Lodge and I presume Sun City.
Q. Now when did you next see him after the 18th of December, when, as you say, he went south?
A. He came back somewheres along about the 25th of January, I think.
Q. Of what year? A. Same year, 1879.
Q. The same year or the next year? He went away, you say, in December, 1878? A. Yes, sir.
Q. And you saw him again on the 25th of January, 1879?
A. Yes, he was not home the holidays.
Q. I am speaking about the year; you say he went away in December, 1878? A. Yes, sir, he did.
Q. It was the following January?
A. It was the following January yes.
Q. How long did he remain at home when he returned on the 25th of January, 1879?
A. I think he returned on the last of the month, perhaps the 27th. I won't say positively but he didn't remain very long.
Q. Where did he go then? A. Back to Wichita.
Q. Did you receive letters from him? A. Yes, sir.
Q. From what places? From any other places except Wichita?
A. Yes, sir; I received letters from him from some of these places I have just spoken of, Wichita and Hutchinson, and perhaps Kinsley.
Q. Well, where did you see him next?
A. He came back to Lawrence in—
Q. When was it he came back on that occasion?
A. Saint Valentine's Day, the 14th of February.
859 Q. How long did he remain at Lawrence then when he came on St. Valentine's Day; how long did he remain in Lawrence?
A. I think he returned about the 27th day of February.
Q. That is, went away again? A. Went away, yes, sir.
Q. Where did he go? A. Went back to Wichita.
Q. Did you get letters from him at Wichita? A. Yes, sir.
Q. Do you remember the date of the last letter you received from him?
A. I don't remember the last letter I received from him; Medicine Lodge or Harper.
Q. Well, from Wichita; the last letter that you received from Wichita? A. The fourth day of March.

Q. Where is that letter?

A. I think the attorneys had it but they returned it to me, they claimed, and I think it was burned up with other letters.

Q. Now, you may state how it came to be burned up.

A. I had my trunks at my mother's and the house burned on Saint Patrick's Day, 1884, I believe. It was of 1894.

Q. 1894? A. Yes, sir.

Q. Do you remember the substance of that letter?

A. Well, I could not—It was a short letter—I couldn't—

Q. Do you remember the substance of that letter?

A. I think so, yes, sir.

Q. Well, you may state it.

The defendants object to the question as incompetent, irrelevant and immaterial, because the letter was a communication between husband and wife.

By Mr. Hutchings: I suppose the objection is based upon the statute. We expect this testimony will show that the letter was a direction from the husband to the wife appointing her as agent, directing her to do certain things, and established an agency.

By the Court: If you expect to show that, you may do so.

To which action and ruling of the Court, the defendants at the time duly excepted.

860 By Mr. Hutchings: State the contents of the letter, the substance of it.

A. I could not state just word for word; there was certain things that I remember distinctly, that he told me to go to Selig and tell him if the policy that he had in his hands or if he had not received it for me to take the money back as he would be home in a short time and was going to drop that policy anyhow and I could get the money on it.

Q. Who was Selig? A. He was an insurance agent.

By Mr. Barker: We desire to have the answer of the witness stricken out as incompetent, irrelevant and immaterial, because, having made a contract in that way, they could not rescind it.

By Mr. Hutchings: This testimony is upon the good faith of Hillmon in taking out so much insurance.

By Mr. Barker: He could not make testimony for himself in that way more than in any other.

By the Court: Suppose the defendant company desired to cancel the policy and surrender the premium, and Hillmon refused to take it and there was no authority in the policy permitting it, could not the companies introduce evidence of that fact as bearing upon Hillmon's good faith? Most

certainly they could. Now, suppose on the other hand, that Hillmon had attempted to secure a cancellation of the policy and receive his money back; would it not be competent for that to be shown as bearing upon Hillmon's good faith. Now, what Hillmon could do, or attempt to do, he could authorize somebody else to do. If it was competent for Hillmon to show what he himself attempted to do, it is competent for Hillmon to show that he directed somebody else to attempt it. As his agent in that respect, his wife differs from no one else. The objection is overruled.

To which action and ruling of the Court the defendants and each of them, at the time duly excepted and still excepts.

By Mr. Barker: How does that apply to the Mutual Life?

I object on behalf of each company but particularly on
861 behalf of the Mutual Life.

By the Court: The answers allege that there was a plan to secure policies in three companies, and the answers set out the names of the companies and the amounts of insurance obtained in each company. Now, anything that attacks the integrity of that defense is competent evidence, whether it relates to one policy in one company, or all the policies in all the companies. It bears upon the good faith of this transaction.

To which action and ruling of the Court the defendants and each of them at the time duly excepted.

Q. Now, after you received that letter on the 4th day of March, dated the 4th day of March, at Wichita, from your husband, John W. Hillmon, you may state what you did, if anything, in relation to the directions that he gave you?

A. Sometime afterwards I received a letter or postal card from Selig asking me to come to his office, that he had received the policy, Mr. Hillmon's policy; I went to the post-office; his office was just on the opposite side of the street. I went to his office and he told me that he had received the policy. I told him I didn't want the policy as I had just received a letter a short time before from Mr. Hillmon, and he told me that I could go and get the money and have the policy cancelled as he was going to drop it any way and he thought it was not worth continuing it and I should take the money back.

The defendants move to strike out the answer of the witness for reasons last above fully stated. The Court overruled the motion to which action and ruling of the Court the defendants and each of them at the time duly excepted.

Q. What did Mr. Selig say when you told him that you wanted to get back the premium and surrender the policy?

A. Mr. Selig said the money had been paid, and he could not return it to me; it had been sent on to the home office and he had received the policy and I would have to take the policy, and I told him I didn't want the policy, Mr.
862 Hillmon was going to drop it on his return anyway; and he said I had better continue, he said, because he was down in a wild country and I didn't know what might happen before he would get back.

Q. Who was it that said that? A. Mr. Selig.

Q. Mr. Selig was the insurance agent?

A. He was, yes, sir.

Q. Now, did he give you the policy?

A. Yes, sir, he gave it to me.

Q. You may state whether this Exhibit No. 3 is the policy that Mr. Selig gave you at that time?

The defendants move to strike out the last answer of the witness for the reason that it is not proper proof of agency.

By the Court: That may be stricken out, wherein she states he was agent of the company. She may state what connection he had with the transaction, so far as she knows.

To which action and ruling of the Court the defendants and each of them duly excepted.

A. This is the one I received from Mr. Selig on that day, on the 15th.

Q. You may state whether it was the same Selig who gave you this policy you have sued on here? A. He is the same.

Q. I will ask you to state whether he gave you a receipt for $60.70?

A. A. L. Selig told me it had been paid and the receipt was in the policy, and I found it some time afterwards.

Q. When he gave you the policy the receipt was in it?

A. Yes, sir, I found it afterwards; he told me it was in there; he told me it had been paid for.

By the Court: The jury can infer from what he did in reference to this transaction whether he was agent or not. It might not be competent for this lady to say he was an agent where the agency is in dispute.

Q. Now, can you fix the date that it was that you went to Selig's office and he gave you this policy and receipt?

A. Yes, it was the 15th day of March.

863 Q. Now, then I will get you to state to the jury when it was that you heard of the death of your husband?

A. The 24th day of March.

Q. How did you hear it?

A. Mrs. Judson told me; I was at my mother and had just gotten in town and Mrs. Judson came out and told me, told

Mr. Baldwin and then told me; she took me in the house and told me.

Q. Now, I want you to state when Mr. Hillmon went away the last time, after his return, as you say on Saint Valentine's day, what, if anything, you know about his having been vaccinated?

A. Yes, sir, he was vaccinated on his last trip home.

Q. After you heard of the death of your husband, what, if anything did you do in relation to it?

A. My two cousins came in and I asked them if they would go down and bring him home.

Q. What two cousins do you refer to?

A. Levi Baldwin and Alva Baldwin; at first Levi thought—

Q. I expect they will object to your saying what he said; you may state whether they went; whether your cousins went?

A. Yes, sir.

Q. What instructions did you give them when they went; for what purpose did you send them to Medicine Lodge?

The defendants object to the question as incompetent, irrelevant and immaterial. The court overruled the objection, to which action and ruling of the court the defendants and each of them at the time duly excepted.

A. To bring my husband home.

By the Court: The witness may answer as to the purpose in sending her cousins to Medicine Lodge.

To which ruling of the court, the defendants separately at the time duly excepted.

A. I sent them down to bring my husband home.

Q. Now, in addition to Mr. Selig, do you know G. W. E. Griffith? A. Yes, sir.

864 Q. Do you know Mr. Tillinghast?

A. Yes, sir, I have met him twice I believe.

Q. You may state whether, after the death of your husband, you saw those gentlemen, and if so, where?

A. I saw them at Mrs. Judson's, I think, it was the next day, the next day, the next afternoon after my cousins had gone south; they came to our house.

Q. Who came? A. Mr. Selig and Mr. Tillinghast.

Q. What time of day did they come there? A. I can't tell.

Q. Do you know what their business was; what business they followed?

A. Only what they told me; they represented the New York Life—

By Mr. Barker: To what they said as to their business, we object as incompetent, irrelevant and immaterial.

By Mr. Hutchings: I think it was stated in the opening statement that these gentlemen were agents of these companies.

By the Court: I do not think that would be a proper reason for permitting incompetent testimony from this witness. You cannot prove agency by the declarations of the parties made to the witness.

Q. When did Mr. Griffith come there?
A. He came after Mr. Selig and Mr. Tillinghast came.
Q. Now, I would like to have you state what conversation, if any, you had at that time with Tillinghast and Selig in relation to the death of your husband?

Mr. Green: We object to the question as calling for incompetent, irrelevant and immaterial evidence. There will be no attempt to show that these men had any authority from the companies; and especially will it not be attempted to be shown that Tillinghast had any shadow of authority from any of the companies whose cases are now on trial.

By Mr. Wheat: We claim that at this stage of the case, a conspiracy was organized by the insurance companies, their agents and representatives to throw doubt upon the identity of this body and to destroy as much as they could the evidence of identity, and that they worked continuously at it from that time until they procured whatever they got from John
865 H. Brown. We claim that on the 25th day of March, they went there and tried to persuade the plaintiff not to see her husband. We expect to prove that Mr. Griffith invited this lady to call at his office that day, or as soon as she could, and that he would make out her application, asking her to bring her papers, etc., along. She went there and they began to talk to her and made it clear to her that they wanted to make out her application for the payment of the money upon the policies.

The court sustained the objection, to which action and ruling of the court the plaintiff at the time duly excepted.

Q. You may state whether you received a letter from either of these persons, and if so, when?
A. I received a letter from Mr. Griffith.
Q. I will get you to examine this paper here, to be marked "Exhibit 21," and state whether that is the letter you received from Mr. Griffith?
A. Yes, this is the one I received from Mr. Griffith.
Q. When did you receive that letter?

A. On the second of April, in the evening.
Q. After receiving that letter, you may state what, if anything, you did?
A. I received the letter from the postoffice, and I went on my way home I stopped at his office.
Q. At the office of whom? A. Of Griffith.
Q. Whom did you see at that office at that time?
A. Mr. Griffith and Mr. Selig.
Q. Mr. Selig, the same person who delivered you the policy for the Connecticut Mutual? A. Yes, sir, the same one.
Q. State what took place; state what was said and done there at Griffith's office at the time you met Griffith and Selig there in response to this letter?

The defendants object to the question as incompetent, irrelevant and immaterial.

By the Court: That is substantially the question that was ruled out. The objection will be sustained.

866 To which ruling of the Court, the plaintiff at the time duly excepted.

By Mr. Hutchings: We now offer the letter in evidence. (Exhibit 21.)

The defendants object to the admission of said letter in evidence as incompetent, irrelevant and immaterial. The Court sustained the objection, to which action and ruling of the Court the plaintiff at the time duly excepted.

Q. In order to save the point, I will repeat the question since the letter has been offered and ruled out.
You may state what was done at that time, if anything, at the office of Griffith, when you went there in response to this letter marked Exhibit 21.

The defendants make the same objection as before.

By the Court: In view of the statement of counsel for plaintiff as to the purpose of this evidence, the objection will be sustained.
To which ruling of the Court the plaintiff at the time duly excepted.

Q. You may state whether you were at the office of Mr. Griffith at any other time, after the death of your husband, except this time that you have mentioned?
A. I think not, sir.
Q. Did you meet Selig and Griffith at any other place except at the office of Griffith at the time you have mentioned?
A. Never together.

Q. Whatever was done or whatever was said at any time when Selig, Griffith and yourself were together, was on that occasion? A. Yes, sir.

Q. Now, after your husband return to Wichita in February, did you see him again alive? A. No, sir.

Q. Did you receive any other notice than the communication from Mrs. Judson of the fact that your husband was dead?

A. There was letters but they had been sent to the country; they took the wrong road and they brought them in in the afternoon; there was letters from the county attor-
867 ney and letters from the minister—

By Mr. Barker: I object; I do not object to the fact that she had notice, but I don't think it competent to go into details.

Q. Do you know where those are now? A. No, sir.

Q. Were they burned up at the time you spoke of at the time the other papers were burned?

A. Yes, sir, there was more than two letters; there was one from the county attorney, and Mr. Paddock—

Q. The coroner?

A. The coroner; and a minister and one from Mr. Brown.

Q. How long was it that you received those after Mrs. Judson had told you?

A. Her son had gone to the country for me and he took another road; we missed him on the road; I came in on another road, and he brought the mail in in the evening; so I received those letters the same time; I don't know as I ever read them; I don't remember; I didn't read them; I looked them over but not read them then; I did not.

Q. These have been produced here at previous trials and introduced in evidence up to the time they were burned up; all these papers? A. Yes, sir, they have.

Q. You may state where you next saw the body of your husband?

A. At Bailey & Smith's at Lawrence, Kansas.

Q. Who were Bailey & Smith?

A. They were undertakers.

Q. When did you lean the body was to brought to Lawrence; or that it was being brought back?

A. On the second day of April in the evening, Mr. Smith, the undertaker, brought me a telegram.

Q. Who was the telegram from?

A. From my cousin, Levi Baldwin.

Q. Who was the telegram to?

A. I think it was Mr. Smith, and he requested him to bring it to me.

The defendants object to the contents of the telegram as incompetent.

Q. What was done with the telegram?

By the Court: What was that question?

A. In the telegram, Mr. Baldwin requested him to bring the telegram to me.

868 By Mr. Hutchings:

Q. Mr. Baldwin sent the message to Mr. Smith, and requested Mr. Smith to communicate it to her, she says.

By the Court: After you heard of your husband's death?

By Mr. Hutchings: About bringing the body back.

By the Court: Counsel for the defendants object to her stating the contents of the telegram. That objection ought to be sustained.

Q. What was done with this telegram?

A. I gave it back to him and told him to take it to Mr. Selig and give it to him, or show it to him, rather.

Q. The Mr. Selig that you before mentioned? A. Yes, sir.

Q. Have you ever seen it since? A. No, sir.

Q. When was it that telegram was brought there?

A. The evening before my husband was brought back in the morning.

Q. Now, you may state what, if anything, after that telegram was brought there, you did in relation to preparing to receive the body?

A. I asked Mr. Judson if he would go down to the depot and have them bring the body to the house, and he went down there the next morning to meet the seven o'clock train.

Q. Did they bring the body to the house?

A. They did not.

Q. You may state what, if any authority or permission you ever gave to take the body and deliver it to Bailey & Smith?

A. I never gave any.

By Mr. Barker: I think that is a conclusion to be determined from the facts and circumstances in the case, and move to strike out the question and answer for that reason.

By the Court: I do not think it necessarily involves a matter of law.

To which ruling of the Court, the defendants severally at the time duly excepted.

A. I never gave any one permission to take it anywheres but to bring it home to the house.

Q. When did you first learn that the body had been
869 taken to Bailey & Smith's undertaking establishment?

A. Mr. Judson came back and told me they would not let him have it; that they had taken it to Bailey & Smith's.

The defendants move to strike out what Mr. Judson said.

By the Court: It may be stricken out.

Q. The question is when did you first learn that the body had been taken to Bailey & Smith's undertaking establishment? A. Mr. Judson came back and told me.

Q. When he came back? A. Yes, sir.

Q. When did he come back?

A. He came back along about, he went down to meet the seven o'clock train, and perhaps an hour; I don't know the exact time, but a little while.

Q. You may state what you did when you learned that the body was at Bailey & Smith's?

A. Mr. Judson came up with a carriage and horses, and along I think about nine or ten o'clock we went down there; he got horses and a carriage and took mama, Mrs. Judson and myself down to the undertaker's.

Q. Did you see the body?

A. No, sir, we did not.

Q. What took place?

A. Mr. Smith came out and we were getting out of the buggy, and he said that we couldn't go into the room, it was not in a fit condition for us to see. That was about ten o'clock I should think. I ain't positive; it seemed a long time.

Q. You may state to the jury what, if any permission you gave to any person to cut this body into pieces, or to perform a post mortem examination upon it?

A. I gave no one any such permission.

Q. State what knowledge, if any, you had, prior to the taking of that body to Bailey & Smith's, or prior to the time that they dissected it, that it was to be done?

A. I did not know anything about it.

Q. You may state whether any one asked your permission or consulted you in relation to it? A. They did not.

Q. Well, did you finally see the body at the undertaker's?

A. I did.

870 Q. Whose body was that?

A. It was the body of my husband.

Q. The body of your husband?

A. The body of my husband, John W. Hillmon.

Q. You may state what the condition of the body was at the time they permitted you to look at it, that is, so far as you could see?

A. Is was back in a back room across the alley from the furniture house; it was in a box; the cover was off, and he was lying there.

Q. What was the condition of the hair?

A. It was all ruffled all over his head, all ruffled up, mussed up; I took my fingers and smoothed his hair down and parted it as best as I could; then I sat down for a few minutes.

Q. Now, after that, you may state to the jury whether any person requested you to go to some place where they were pretending to have an inquest over the body?

A. Yes, sir, Sheriff Clarke, H. S. Clarke, came up to the house afterwards, and after we got back home, and asked me to go down to the courthouse and bring all the letters and photographs that I had of Mr. Hillmon. He asked me if I understood his request, and I told him yes; he said, "Well, then, come down at two o'clock," I believe.

Q. Did you go down there? A. Yes, sir, I went down.

Q. Did you take any letters down there?

A. Yes, sir, letters and photographs.

Q. What else did you take there?

A. Some letters that had been brought home to me.

Q. From whom? A. From Mr. Hillmon and a diary.

Q. By whom were those letters written?

A. Those letters I took down were letters I had written to my husband.

Q. Where to?

A. There was one at Harper, Wichita and Medicine Lodge.

Q. Do you know what became of those letters?

A. I received them all back but one.

Q. Where are the letters now? A. They are burned up.

Q. Did you produce the same letters at some of the early trials of the case? A. I think so.

871 Q. What letter was there that you had written to your husband at Medicine Lodge?

A. I think it was the last letter that I wrote to him at Medicine Lodge.

Q. Do you know about the time that you wrote that?

A. No, I don't. But he received it just before he died because Mr. Brown told me he had received a letter—

The defendants object to the answer and move to strike it out as incompetent, irrelevant and immaterial. The Court sustained the objection and motion to which action and ruling of the Court the plaintiff at the time duly excepted.

Q. How did the letter come back into your possession?

A. I think that Mr. Brown brought it to me; they brought all these things back to me, a tin type of myself; and the coroner, Mr. Paddock wrote and asked me if he could keep

that one picture of myself and I gave it to him and he just kept it.

The defendants move to strike out the last part of the answer of the witness.

By Mr. Hutchings: It may be stricken out.

Q. I did not ask you that. When did you get these papers, these letters, that you had written to your husband were they returned to you? A. I was saying that Paddock—

Q. Were they sent back to you in a letter from the coroner, or did Mr. Baldwin bring them, or how did you get them, or don't you remember?

A. I don't remember but I know I received them back.

Q. Did you take any pictures there? A. Yes, sir.

Q. What pictures did you take there?

A. I took two tin types and a photograph.

Q. Now, you may examine this picture which has been introduced in evidence as Exhibit 14, and state if that is one of the pictures that you took there?

A. I don't know whether this is but it was one just like this.

Q It was that or a copy of it?

A. It was this or taken at the same time; I don't know.

872 Q. Now examine this tin type which will be marked Exhibit No. 22, and state whether that is one of the pictures that you took there?

A. I think so; that is one; I am very positive of that.

Q. Did you take any other picture there; if you did, describe it.

A. I took another tin type of Mr. Hillmon and Mr. Brown standing together side by side.

Q. Did you deliver those pictures to the coroner; exhibit them?

A. Either to him or Mr. Green, I gave them to one or the other; they both had them in their hands while I was there.

Q. Now, that tin type of Mr. Hillmon and Mr. Brown, you say they were standing side by side? A. Yes, sir.

Q. I will get you to state whether that standing picture of your husband was a good picture?

A. Yes, sir, it was a good picture.

Q. Of whom? A. Of my husband.

Q. You may state when the standing picture, that is the picture with Brown and Hillmon standing was taken?

A. Sometime before they went away.

Q. Was it the last picture he ever had taken?

A. I think it was, yes, sir.

Q. You may state whether it was the best picture you had of Mr. Hillmon? A. Yes, sir, I considered it the best.

The defendants object to the testimony because it is incompetent to compare pictures in that way.

A. At that time I considered it the best picture.
Q. By the word best, I mean the most faithful, or best likeness, the one that represented him the most correctly?

The defendants object to the question as leading, and as calling for incompetent, irrelevant and immaterial evidence.
By the Court: The first objection is sustained; the latter one overruled.
To which action of the Court in overruling the objection, the defendants and each of them at the time excepted.

873 Q. You may state then to the jury what kind of a picture that was of Mr. Hillmon.

By the Court: That is to say, the objection to the question preceding the last one is sustained; the objection to the last one is overruled.

Q. You say it was the last picture he had taken before he was killed? A. Yes, sir.
Q. Do you remember in the picture, which of the two standing persons was the tallest? A. Yes, sir.
[—] Which? A. My husband was the tallest.

The defendants object to the question as incompetent, irrelevant and immaterial.

By the Court: You mean which was shown to be the taller by the photograph?

By Mr. Hutchings: Yes, sir.

By Mr. Isham: In the first place, this is entirely secondary evidence; in the next place, it ought to be shown in what relation the parties were standing to the camera. If one of them is thrown into perspective, there will be a false appearance as to their relative heights.

By the Court: The objection for the present will be sustained. To which and ruling of the Court [the Court] the plaintiff at the time duly excepted and still excepts.

Q. Are you acquainted with John H. Brown? A. Yes, sir.
Q. Was one of these figures in the picture John H. Brown?
A. Yes.
Q. Was it a good picture of him?
A. It was a good picture.
Q. Now, how did those figures that appeared upon this picture, how did they stand; what was their position?
A. Side by side.
Q. Was it a front view or a side view?

A. It was a front view.

Q. Now, you may state which of the two persons was the tallest as shown by the picture.

The defendants object to the question for the reason
874 that the integrity of the picture has not been shown. Before a picture is admissible, it must be shown that it is a correct representation of the object, and that it has not been tampered with or changed in any way.

Q. By the Court: When was this picture taken, Madam, if you know?

A. It was taken some little time before Mr. Hillmon and Mr. Brown went away.

Q. About how long?

A. Well, just a few weeks I should judge.

By Mr. Hutchings: Allow me to make a suggestion as to the purpose for which we offer this proof. We do not offer it for the purpose of showing that Hillmon was taller than Brown; that was not in my mind when I asked the question. Dr. Patterson testifies that there was exhibited to him by Dr. Morris, a tintype containing two persons, one of whom appeared by the picture to be taller than the other, and that the taller of the two persons he recognized as the one he had been working over two or three days in taking this cast. Now, we have brought this witness upon the stand, in the first place to show that she was requested to bring the pictures she had, and that she took this picture, among others, and delivered it to the coroner, and that the person appearing upon
875 the picture to be the taller of the two was—

By the Court: Not for the purpose of showing that Hillmon was the taller of the two?

By Mr. Hutchings: Certainly not, but for the purpose of making it certain to the jury that the picture which was put into the hands of the coroner was the picture which Dr. Patterson saw, and that it was the taller of the two that was her husband as it appeared upon the picture.

By the Court: With that statement of the purpose of this question that is, that it is for the purpose of identifying the picture concerning which Dr. Patterson testified, the objection will be overruled, and I will say to the jury that they should not consider the answer given by the witness as showing the height of John W. Hillmon or the relative heights of John W. Hillmon and John H. Brown shown by that picture, but simply to connect one of the figures in the photograph, which has been lost, with the figure concerning which Dr. Patterson testified.

To which action and ruling of the court, the defendants and each of them then and there duly excepted.

Q. Now, with reference to this tintype with the two figures, you may state what you did with it when you took it there to the coroner?

A. I gave it to the coroner or to the county attorney; I don't know which; they were both sitting there together.

Q. Did you leave it with them when you went away?

A. Yes sir.

Q. You may state whether you know of any other picture, had any other picture with two figures on it?

A. No sir, the only one.

Q. I believe you already stated that one of these pictures was a picture of your husband, and the other of John H. Brown? A. Yes sir.

Q. Now, do you know what has become of that picture with the two figures on it?

A. I don't know where it is now.

Q. You may state—

A. I left it either with the coroner or the county attorney. Then I went to the coroner and asked him for it, and
876 he gave me the other pictures and letters, but he said that Mr. Green had it.

The defendants object to the witness stating what the coroner said.

By the Plaintiff's Counsel: We think it competent to show what effort was made to produce the original.

A. I went to the coroner's office—

By the Court: Hardly what Dr. Morris said.

Q. Well, you say you asked him for the picture?

A. Yes sir.

Q. And he gave you the other pictures? A. Yes sir.

Q. But didn't give you this one? A. No sir.

Q. Did you make any other efforts?

A. I went to the coroner and asked him for the picture; we did not see him then but I went some little time afterwards and asked him for them, and he said the county attorney had them—

What the coroner said was stricken out.

Q. You inquired of the coroner to whom you had delivered them? A. Yes sir.

Q. And he said he didn't have it?

Objected to as leading and not answered.

Q. You may state whether Mr. Green and the coroner were there at that time? A. Yes sir, both together.

Q. Now, you may state what other efforts you made, if any, to get that picture back?

A. When Dr. Morris told me that he didn't have the picture, he would get it for me, that the county attorney had them.

By the Court: You are insisting on telling what Dr. Morris told you.

A. I do not ask you what Dr. Morris said; I ask you whether, after you went and inquired of Dr. Morris, and he did not give you the picture, if you made any other efforts to get it; if you inquired of anybody else? A. Yes sir.

Q. Of whom? A. Of Mr. Green, the county attorney.

Q. Did he give to you?

877 A. No, he said he didn't—

Q. Did you ever get it back, or have you seen it since? A. No sir.

Q. Now, while we are on this subject, speaking about the height of your husband and John Brown, you may state what their relative heights were, which was the taller of the two?

The defendants object to the question as incompetent, irrelevant and immaterial and because it is not shown that the witness has any knowledge on the subject.

The Court overruled the objection, to which action and ruling of the court the defendants and each of them at the time duly excepted.

A. Yes, sir, Mr. Hillmon was the tallest.

Q. You may state to the jury whether you have seen them together?

A. Yes sir, I have seen them walking together and standing together.

Q. Have you seen them standing side by side as they were in the picture? A. Yes sir.

Q. You may state to the jury when you have seen them standing side by side in the manner described, which appeared to be the taller; which was the taller of the two?

A. Mr. Hillmon was the tallest, perhaps two inches.

Q. Now, do you know Mr. Borgolthaus? A. Yes sir.

Q. I will get you to state whether Mr. Borgolthaus appeared there at the coroner's inquest as your attorney; whether you gave him any such authority? A. I did not.

Q. You may state what, if any relations, you had had with Mr. Borgolthaus before that inquest or up to that time that the inquest concluded?

A. Mr. Selig told us that we would have to get some one, or get a letter of introduction—

The defendants object to the answer of the witness as hearsay.

By Mr. Hutchings: We will show that Mr. Selig sent Mrs. Hillmon to Borgolthaus to prepare some papers to get the body back, and that that was the sole relation she had with Mr. Borgolthaus.

Thereupon, the Court overruled the objection, to
878 which action and ruling of the court the defendants and of them at the time duly excepted.

A. Yes sir.
Q. Go on and state now?
A. Mr. Selig said we would have to have some form in order to get the body of my husband; so he suggested going to Mr. Borgolthaus to write out the form, so Mr. Borgolthaus came up to the house and said Mr. Selig sent him.
Q. Came to your house?
A. Yes, sir, Mr. Selig had sent him.
Q. What did he do?
A. He wrote—prepared a form and I signed it and gave it to my cousins and they took it with them.
Q. What was the form about; what was it for?
Q. So they could get the body of my husband and bring it back.
Q. Now, then, you may state whether up to the time of the conclusion of this inquest, you had employed Mr. Borgolthaus or authorized him to do anything else for you?
A. I did not.
Q. Going back to the subject of the pictures. You were shown yesterday a picture which has been introduced in evidence as exhibit No. 10. It is this picture. I will get you to state whether you took that to the coroner's inquest?
A. No, sir.
Q. Why didn't you?
A. I didn't have it; it was over at Mr. Baldwin's.
Q. You may state whether it was your picture at that time? A. No, sir, it was Mr. Baldwin's.
Q. And you hadn't it in your possession? A. I had not.
Q. Well, after this body had been at Bailey & Smith's, you may state what was done with it; after they had done what they pleased with it, what was done with the body?
A. They sent word to us and we took him out to the cemetery and buried him.
Q. You may state who it was that delivered the body to you then? A. Bailey & Smith took it to the cemetery.
Q. Did you pay the expense of burying it? A. Yes, sir.
Q. Procure a grave for it A. Yes, sir.

879 Q. Now, you may state what knowledge, if any, you had, of their going there afterwards to the grave where you had buried your husband, and taking up the body?

A. I didn't have any knowledge of it until afterwards.

Q. Were you consulted at all? A. No, sir.

Q. The grave was broken open and the body taken up without any consultation or knowledge upon your part?

A. Yes, sir.

Q. Now, you have been present during the examination of John H. Brown.

A. I heard John H. Brown's deposition here, most of the time.

Q. Did you hear read here a paper purporting to be written by Mr. Brown directed to you which commences, "Where is John" or something to that effect; did you hear that paper read? A. Yes, sir.

Q. This paper which has been introduced in evidence here as an exhibit to John Brown's deposition, marked B, Henry McGrew, Notary Public. In order that the jury may understand, I will read: "Mrs. Hillmon. I would like to know where Johnnie is, how that business is, and what I shall do, if anything. Let me know through my father.

JOHN H. BROWN."

I will get you to examine that paper and state to the jury whether that was ever delivered to you?

A. No, sir, I never received the letter.

Q. Did Mr. Buchan ever give you that letter?

A. No, sir, he did not.

Q. When did you first hear that John H. Brown had ever written any such a letter as that? A. On a trial of this case.

Q. Now, after the body had been delivered to you for burial, you may state if you know what was done with the personal effects, for instance, the trunk of your husband?

A. I never received the trunk.

Q. Did you apply for it? A. Yes, sir.

Q. To whom? A. To Mr. Green.

Q. When was that?

A. Just a short time after my husband died.

880 Q. Do you know W. J. Buchan? A. Yes, sir.

Q. You may state to the jury when you first became acquainted with him.

A. In the spring of 1879, along in the latter part of May or the first of June.

Q. How did you form his acquaintance; under what circumstances?

A. Old Mr. Brown, John Brown's father, asked me to go to see Mr. Buchan—

Q. You may state at whose request you went to Buchan's office? A. Old Mr. Brown's.

Q. When you there, you may state what occurred, if anything? A. He introduced me to Mr. Buchan.

Q. Who introduced you?

A. Mr. Brown. Brown said that he had employed him as his attorney to take care of his son.

Q. Buchan was present at that time? A. Yes, sir.

Q. What further was said in that conversation, if anything, by Mr. Buchan or Mr. Brown in the presence of you and Buchan?

A. I didn't understand what care that his son needed. I told Mr. Brown that I didn't understand what care that his son needed; the old gentleman said that there was a warrant out, or something out for him, and that he had Buchan to look after him, and had employed him as his attorney to take care of him.

Q. Well, what further, if anything, was said?

A. I don't remember so very much more.

Q. Where did you go after that interview; where did you go? A. I went back to Lawrence.

Q. You were living at Lawrence at that time?

A. Yes, sir.

Q. When did you next see Buchan or hear from him?

A. Some time in the summer of 1879; some time later; I think perhaps in August.

Q. Well, how did you—

Q. Did you ask when I heard from him or saw him?

Q. Yes. Either saw him or heard from him?

A. I heard from him; I received a letter from him asking me to come down to Wyandotte to see him regarding
881 this case.

Q. I exhibit to you a paper here which will be marked Exhibit 23, at this trial, and get you to state whether that is the letter you received from Mr. Buchan referred to in your preceding answer.

A. Yes, sir, that is the one I received from him.

Counsel for the plaintiff reads said letter in evidence. It is in words and figures as follows, to wit:

"W. J. Buchan,
Attorney at Law.

Wyandotte, Kansas, August 25, 1879.

Mrs. S. E. Hillmon,
Lawrence, Kansas.

Madam: I have just seen Brown and have something important to communicate to you. Please come down on first train.

Respectfully,
W. J. BUCHAN."

Q. Now, you may state whether upon, or after the receipt of that letter you went to see Mr. Buchan as he requested?

A. No, sir.

Q. Well, when did you see Mr. Buchan, then?

A. Some little time afterwards, I think the same year, September.

Q. Where did you see him? A. At my house.

Q. At your house, where? A. At Mrs. Judson's.

Q. He came there, did he? A. Yes, sir.

Q. What conversation did you have with him on that occasion?

A. He said he came up to see me about this case. I told him I didn't know, I couldn't tell him much about it, but he could go and see my attorneys and they could tell him more about it, and he only stayed, he stayed just a short time, and then he went away. He asked me if I would see him at Mr. Borgolthaus' office and I told him I would and I went down at two o'clock and met him there.

Q. Did you tell him at that time who your attorneys were?

A. Yes.

Q. Well, did you meet him at Borgolthaus' office according to your appointment? A. I did.

882 Q. What conversation took place there, if any?

A. I think he came in there just after I was there, after I had gotten there; he didn't say very much; he might have spoken about the case but he stayed there only a very short time, and said it was train time and he must be going, and he went away.

Q. Now, then, you said you are acquainted with Brown. I will get you to state to the jury when next after this meeting at Borgolthaus's office did you see John H. Brown, if at all?

A. I saw him in September at my cousin's, Levi Baldwin's.

Q. Where did Levi Baldwin live at that time?

A. He lived about nine or ten miles from Lawrence.

Q. Were you at your cousin's? A. Yes, sir.

Q. What time did John Brown come there?

A. He was there when I got there.

Q. When you got there? A. Yes, sir; when I got there.

Q. Did you have a conversation with him? A. Yes, sir.

Q. You may state that conversation?

A. The substance of it as near as I can remember, I can't tell just the words, or just how it first came up. I went into the room where he was in the sitting room and spoke to him, and he told me that he had come to see me about this case, and I asked him in what way, and he said that he wanted, that Mr. Buchan had sent him there to see me, and for me to meet him at some place, and that he would explain why he

wanted to see me. I asked him if he couldn't explain and he said no, he couldn t explain. I don't remember now much what else was said that evening; that was in the evening when I got there.

Q. Did he stay there all night? A. Yes, sir.

Q. Did you see him in the morning? A. I did.

Q. Did you have a conversation with him in the morning?

A. Yes, sir.

Q. State as near as you can remember the substance of that conversation?

A. I can't now state just the words more than that the next morning I asked him, wanted him to explain himself, what he meant by the conversation we had the night
884 before, and he said he couldn't explain it, but if I would go to see Mr. Buchan he could explain it all to me; and I insisted on knowing something more about it. Then he finally said that he had made a contrary statement from the one he had made at Lawrence and at Medicine Lodge. I asked him what kind of a statement he had made and he said that he had made a statement, and that in the statement he had said that was not the body of my husband, but was a body that my husband had killed, and if I would go to see Mr. Buchan he would explain it all to me and also show me this statement that he had made; and then he didn't stay any after that; he said—that was about the last thing he said. He asked me if I would meet Mr. Buchan at any place; I told him that I could go to Lawrence; that my attorneys were there, and he said no, he didn't want me to meet him anywhere where my attorneys were but he wanted me to meet him at Wyandotte; I told him, no, I wouldn't go to Wyandotte, and he said, well, then, any place so I didn't go to Lawrence, and then I agreed to meet him at Leavenworth.

Q. What time did you appoint to meet him at Leavenworth?

A. That was on Saturday morning and I came to Leavenworth on Monday morning.

Q. Was there an appointment for Monday morning?

A. Yes, sir; I told him I would go to Leavenworth Monday morning.

Q. Did you go to Leavenworth to meet this appointment you had made? A. Yes, sir.

Q. I want you to state what occurred when you first got to Leavenworth; how did you go to Leavenworth?

A. On the train.

Q. Well, when you got to the station in Leavenworth?

A. Mr. Buchan met me at the depot.

Q. Anybody with him? A. I think not; he was alone.

Q. Well, when you met Mr. Buchan at the station, what was said, if anything; what occurred?

A. I don't remember more than he said, he asked me to go to the Planters Hotel, that Mr. Brown would be there.

Q. Did you go?

884 A. We went up to the Planters House together.

Q. Did you go?

A. Yes, sir; we went to the Planters House together.

Q. When you got there, did you meet anybody?

A. Mr. Brown came in a short time afterwards; I don't remember just how long.

Q. Now, after you got to the Planters Hotel I want you to state to the jury as fully as you can remember, the conversation that you had with Mr. Buchan?

A. I can't just remember the words.

Q. I am not asking for the words, but for the substance of what occurred there as you can best remember it?

A. I asked him what he wanted to see me for, and he asked me if Brown hadn't explained to me, and I told him no, that he hadn't explained; and then he said that Brown had made a contrary statement to the one he had made at Lawrence and at Medicine Lodge, and that he never could be a witness of mine, and that he wanted to get me to give up these policies.

Q. What did you say?

A. I told him I would not give up the policies; that I knew that was my husband that I should not give up those policies.

Q. What was said further?

A. He said, that may all be, he said, but that Brown had made a contrary statement, and that if I insisted on ever bringing suit on those policies, he would put Mr. Brown on the stand, and he would testify—that he had already made a statement that that was not the body of my husband in the statement and that he had sworn to it, and he would be obliged to stand by it and I asked him how he could make such a statement. He said he had [he had] to do it in order to protect himself because a warrant was out for him, that he had, in order to save himself, he would have to make this statement.

Q. Was Brown present at that conversation?

A. Yes, sir; he was.

Q. What did Mr. Brown say, if anything?

A. He just sat there and hung his head down.

885 Q. Did he say anything at any time during the conversation?

A. No, sir; I asked him how he dared to make such a statement and he said he had made it and he would be obliged to stick to it in order to save himself.

Q. Well, now, go on and state.

A. I don't remember much more then, but later in the day there was more conversation.

Q. Now, before we come to the conversation later in the day, I would like to have you state to the jury what the condition of your health was at that time?

Q. I had, I suppose it was called malarial fever; I was suffering with it; I don't think it was a chill; it was a kind of a low fever that I was troubled with.

Q. I will get you to state whether any of your attorneys were present, or whether you had any relative or anybody to advise with? A. No, sir; I did not.

Q. Well, after the first conversation that you testified to, what did you do?

A. I can't tell just when this conversation came in, but that was what they said before dinner.

Q. Did you go to dinner? A. No, sir, I did not.

Q. You may state the facts to the jury as to your condition at that time, whether you ate any dinner?

A. I did not have any dinner; I had a headache and fever; they went out to dinner and I lay down on a couch; they went out to dinner, and Mr. Buchan brought me a cup of tea and I believe a cracker; I drank the tea and then laid down and I think I took a nap; I think I went to sleep. They were gone some little time and then they came back.

Q. Now, then, would like to have you state to the jury, as well as you can remember, what conversation was had and what took place after dinner?

A. I think it was just about the same conversation that we had before dinner more than I think it was fuller; he went on to state that these companies had a warrant out for Brown, that Brown was frightened at that, and he being his
886 attorney that he had to take care of him and that I must surrender these policies as the companies never intended to pay me, and that Brown being my main witness that I never could prove that he was my husband, so I might just as well give up the policies.

Q. Now, did you know at that time that Mr. Brown was the only person present when your husband was killed?

A. Yes, sir.

Q. Did you believe at that time the statements of Mr. Buchan that by reason of Mr. Brown having made this statement, that you could never prove your case? A. I did.

Q. Go on and state what was further said?

A. He said that the companies had millions where I didn't have cents, and that I never could recover; that Brown was my main witness, and that he would go on the stand and testify that that was not the body of my husband but was the body of another man and that I never could recover on these

policies, and I might just as well give them up, besides it would always be a shadow over me; no matter where I might be that the shadow would follow me, and if I would give up the policies there would be nothing more said about it; as I never received the money it wouldn't do me any hurt, but if I continued it would only bring a shadow over me, and Brown would be prosecuted and perhaps put in the penitentiary, but the shadow would never be removed.

Q. How old were you at that time?

A. In my 21st year.

Q. You had lived most of your life on a farm?

A. Yes, sir.

Q. What did you do finally?

A. Towards evening he wanted me to sign some papers; he took some papers out of his pocket and put them on a little stand there, and wanted me to sign them. I told him I couldn't sign them. He said, yes, I must sign them, and at last I did sign them.

Q. Now, during this conversation, you may state, if you remember whether anything was said as to who it was claimed this body was that had been killed? As to what his name was? A. I think they said something about Nichols,—

Q. Frank Nichols? A. Frank Nichols, yes, sir.

887 Q. You may state if you remember whether it was claimed for some time that the man that was killed was Frank Nichols?

The defendants object to the question as incompetent, irrelevant and immaterial.

By Mr. Hutchings: We want to show that for a long time it was claimed it was Frank Nichols, until they found him alive, and then they claimed it was Joe Burgess until they found him alive.

By the Court: You ask, not whether the insurance companies claimed but whether it was claimed generally that the body was that of Nichols, and that that claim was urged upon her at that Buchan meeting. In that respect, it would be pertinent.

To which ruling of the Court, the defendants and each of them at the time duly excepted.

Q. You may state, if you remember, who it was generally claimed was the person that had been killed at Medicine Lodge?

The defendants object to the question as incompetent, irrelevant and immaterial.

A. Frank Nichols.

By the Court: She may answer if it is proposed to connect that claim with any argument used by Buchan at the meeting at which she signed the paper for the surrender of the policies.

To which action and ruling of the Court, the defendants and each of them at the time duly excepted.

Q. Now, you may state, whether in this conversation, Mr. Buchan stated who it was that it was claimed had been killed at Medicine Lodge instead of your husband?

A. He said in this statement that Brown had made, he said it was Frank Nichols.

Q. Well, now, as you say, you finally signed some papers there? A. Yes, sir.

Q. I will get you to examine these papers which have been introduced in evidence here as Exhibits 16, 17 and 19 at this trial. Look them over and see whether those are the papers which you signed there at the Planters Hotel, in Leav-
888 enworth at the time you have stated at the request of Mr. Buchan?

A. I never saw the contents of these papers, but that is my signature and it is on the same date that I was at Leavenworth, September 15th; I never read the contents of the papers; I don't know what the contents were; I can't say, but that is my signature and I signed it on September 15th; that was the day that I was in Leavenworth.

Q. You say then that you signed the papers, or that is your signature? A. That is my signature.

Q. They are dated the 15th of September?

A. Yes, sir, the day I was in Leavenworth.

Q. You did sign papers there that day? A. I did.

The papers in question are the two releases heretofore read in evidence, and the order on Mr. Wheat for the delivery of the policies. Counsel again reads them in evidence.

All these papers are already in evidence in the testimony of J. W. Green and are therefore not again copied.

889 Q. You may state whether you received at the time mentioned in these alleged releases, the one dollar mentioned? A. I did not receive anything.

Q. Did you receive anything whatever for executing these releases? A. I did not.

Q. Was there anything promised you for executing them?

A. No, sir.

Q. Did you receive any consideration of any kind whatever for making the releases? A. I did not.

Q. Did you receive any consideration, anything of value, or any promise of anything, for executing the order upon Mr. Wheat and your attorneys for the policies? A. I did not.

By Mr. Barker: I desire to object to the form of the question. I have no objection to his asking her to state fully what she received.

By the Court: It is leading, yes.

Q. Now, after you had signed these papers, I will get you to state what was done; what you did, and what Mr. Buchan did, if anything.

A. He asked me to go to Mr. Wheat's office and I went with him.

Q. What took place at Mr. Wheat's office?

A. We went up to his office, and I asked him for the policies; he asked me what I meant, what I wanted them for, and I told him I couldn't explain, I just wanted the policies, and he walked into the back room, as I supposed to get the policies, and came back, and he says, "I can't let you have them; this looks to me like a fraud, and I can't let you have these policies." I says, "I want them." He says, "Well, I believe we have got a lien on these for about ten thousand dollars," so then he turned and went out, and Buchan said to me, "Why didn't you insist on getting those policies?" and I said I couldn't insist on it and then we went back to the hotel.

Q. Now, up to this time, you may state whether or not you had consulted with your attorneys or any friend or had anybody to advise you in relation to your actions

A. No, sir, Mr. Wheat was my attorney but Mr. Buchan stayed right with me all the time and I went away with
890 him.

Q. You didn't get the policies?

A. I didn't get the policies.

Q. Where did you go after calling at Wheat's office?

A. We went back to the hotel.

Q. I want you to state what conversation you had then, that is, after you returned to the hotel with Buchan?

A. It was growing a little late and I said I would go home now. He said, No, the train had gone. I says, I will go to Mother's; but I was going back to Lawrence and he said the same train that ran to Lawrence was the same train that I would have to go back to my cousin's and back to my mother's. He says, You can't go back to Lawrence. I says I will go back to Mother's. Then he said No your train is gone. I didn't know whether there was any more trains going out. He said to go to Wyandotte with him. I told him, No, I wanted to go back to Lawrence. He said I could not go back to Lawrence, but if I would go to Wyandotte he would give me this Brown statement; if I would go to Wyandotte that evening with him, the next morning that he would give me the statement of Brown, this contrary statement that he had made.

Q. Well? A. I went with him to Wyandotte.
Q. When you got to Wyandotte; where did he take you?
A. To the Garno House in Wyandotte.
Q. That was a hotel there then? A. Yes sir.
Q. Who paid your expenses there at the hotel?
A. I don't know.
Q. How long did you stay at the Garno House?
A. I think two days and then I went to his house; he had company—
Q. Wait a moment? You stayed there two days?
A. Yes sir.
Q. Well, the next morning, what was the condition of your health then? A. I was still sick.
Q. You may state whether you saw Mr. Buchan the next day?
A. I went to his office the next morning about nine o'clock, I think.
Q. His office was there?
A. In Wyandotte; I don't know what street.
891 Q. His law office? A. Law office, yes, sir.
Q. Whom did you meet there if anybody?
A. John H. Brown and Mr. Buchan.
Q. I want you to tell the jury what took place on that occasion?
A. I asked him for the statement and he handed it to me and I read a small portion of it.
Q. What took place then?
A. Then I turned around and asked him how he dared to make such a statement; he said he had made it and would stick to it.
Q. What was done then; was there another paper shown you on that occasion?
A. Yes, I wanted to keep this paper because he had promised to give it to me if I would come to Wyandotte, but he took it from me and said he couldn't do it, he wouldn't dare to let me have it in my possession.
Q. Who said that?
A. Buchan; he said he wouldn't dare to leave it in my possession; he had promised it to Brown and he was going to give it to him; he turned and gave the paper to Brown and Brown tore it—
Q. What did Brown do with it?
A. He tore it up; I don't know whether he put it in the stove or Buchan put it in the stove but one of them put it in the stove.
Q. What time in the year was this? A. In September.
Q. Now, you may state whether there was any fire in the stove?
A. I don't think there was; no, it was warm.

Q. Was there any other paper shown you there at that time? A. Yes sir.
Q. Who was that signed by? A. H. B. Munn.
Q. Who gave you that paper?
A. Mr. Buchan; he read it to me and then handed it to me.
Q. What did you do? A. I handed it back to him.
Q. What did you say?
A. I said I didn't want that paper; I had no use for it.

892 The defendants object to the conversation in regard to this paper as incomptent, irrelevant and immaterial.

The Court overruled the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

Q. I believe you said that he handed this paper to you and that you handed it back to him and said you did not want it? A. Yes sir.
Q. You may look at that paper and see if that is the paper he had and handed to you on that occasion?
A. Yes, sir, this is the paper.
Q. This is marked at this trial Exhibit No. 15.

By Mr. Hutchings: I would like to read this paper.

The defendants, and each of them, object to the reading of the paper because the same is incompetent, irrelevant and immaterial, and for the further reason that it could not possibly have operated to induce the plaintiff to give the releases, because it is not claimed that she knew of the existence of the paper until the occasion in Mr. Buchan's office after the releases had been signed.

By the Court: While it may be true that it did not operate to induce the plaintiff to sign the releases, yet, on the other hand, it is an illustration of the purposes and motives of Buchan.

To which action and ruling of the Court the defendants and each of them at the time duly excepted.

Mr. Hutchings reads said paper to the jury.

(Said paper is already set forth fully in this bill of exceptions and is not, therefore, again copied herein.)

Q. Now you may go on and state after this interview at Buchan's office where you went to?
A. I went back to the hotel and stayed there, I think, two days at the hotel, and then he took me to his home.
Q. Who took you to his home? A. Mr. Buchan.
Q. This same W. J. Buchan? A. Yes, sir, the same one.
Q. How did you come to go to his home?

A. Well, he said I couldn't go back to Lawrence, and I couldn't go back to my people, and I didn't have any other place to go.

Q. Well how long did you stay there at his house?

A. I don't remember; until I got to feeling better.

893 Q. Well, about how long did you stay there?

A. A week or two; I can't give the exact time.

Q. After you had stayed at his house for a week or two, where did you go then? A. I went to Ottawa, Kansas.

Q. How did you come to go to Ottawa, Kansas?

A. I had a sister living in Ottawa, and I went to her house.

Q. How long did you stay there?

A. I don't know just how long.

Q. Well, approximately?

A. I couldn't say; not but a short time.

Q. Well, while you were there, did you hear anything further from Mr. Buchan?

A. Yes, he wrote me to come back to Wyandotte.

Q. Where is that letter? A. I don't know.

Q. Was it destroyed with the other letters you spoke of?

A. I think so; I haven't got it at least.

Q. You may state now, whether after receiving this letter from Buchan, you did go back to Kansas City?

A. Yes, sir, I went to Wyandotte.

Q. How long did you remain there on that occasion?

A. Several weeks.

Q. Several weeks where? A. At his house.

Q. By his house, what do you mean; his residence?

A. Yes, sir; his home, where his family lived.

Q. He was a married man?

A. Yes, had a wife and two children.

Q. You may state whether before that time you were acquainted with Buchan or his family or any of them?

A. I was not acquainted with his family until I went there; I was acquainted with him early in the Spring.

Q. You may state whether you had ever been on social terms with him or his family, had ever visited there?

A. No, I never had; never heard of him until old Mr. Brown told me of him.

Q. After you had stayed there three or four weeks, you may state where you then went?

A. I went to my aunt's in Trenton, Missouri.

Q. Why did you go there? A. When I did go?

894 Q. Why?

A. Because he said I mustn't go back to Lawrence and I didn't want to stay there; he said, he asked me if I had any relatives. I told him I hadn't any relatives only those living around Lawrence, except those in Ohio, except one aunt, I had one aunt in Trenton, Missouri. He said I had best go

there. He asked me if I wouldn't like to go to Colorado; he said I must, I would have to go somewheres. I told him, yes, I would go to Colorado. He said he would get me a pass but in the meantime he couldn't get it, and I should go to my aunt's in Missouri until he procured the pass for me.

Q. I wish you would state as fully as you can remember, what Buchan said to you about going back to your mother and family?

A. He said I could not go back to them, mustn't tell them anything I had done, must never tell anybody, any living soul what I had done, nor, he says, since I knew what Brown had done I must never tell it to any one.

Q. How long did you stay with your aunt in Trenton?

A. About the holidays.

Q. Did you finally get the pass from Buchan?

A. Yes sir. But in the meantime I had gone back to my mother's and he sent me the pass; it was sent to mother's and mamma asked me what I—

By the Court: You need not tell any conversation with your mother.

Q. Did you use the pass? A. I did not.

Q. You may state whether in the meantime you had, or whether upon that pass coming there, you went to your attorneys? A. Not until after I received the pass.

Q. Then you may state whether your mother advised you after you received the pass as to what course you should pursue?

The defendants object to the question as incompetent, irrelevant and immaterial.

By Mr. Hutchings: I am not asking what she advised, but whether she did go to her attorneys.

A. Yes sir, she did.

895 The Court overruled the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

Q. What did you do after your mother advised you?

A. I went back to Lawrence and went and saw my attorneys and explained to them what I had done.

The defendants object to any statement of what she said to her attorneys as incompetent, irrelevant and immaterial. (... ruling.)

Q. You consulted with your attorneys? A. Yes sir.

Q. You may state whether you communicated to them what you had done? A. Yes sir.

By Mr. Hutchings: Don't answer until they have an opportunity to object.

The defendants object to the question and answer as incompetent, irrelevant and immaterial. The Court sustained the objection to which action and ruling of the Court the plaintiff at the time duly excepted.

On motion of defendants, the answer is stricken out.

Q. Now, I will get you to state what you know, if anything, about [hour] husband, Mr. Hillmon, wearing a ring?
A. Yes, sir, he had worn a ring of mine up until the last time he was at home, and then he left it with me.
Q. What kind of a ring was it?
A. It was a memory ring.
Q. Describe it to the jury as to whether it was a band ring? A. Yes sir, it was a band ring; a flat ring.
Q. How long had your husband worn that ring?
A. I don't know; I think he wore it before we were married or just afterwards; he wore it for some time; it was large for my finger and he wore it.
Q. When did he cease wearing it?
A. On his last trip home; he said it made his finger cold and he gave it to me.
Q. That was in February? A. Yes sir.
Q. Saint Valentine's Day? A. Yes sir.
896 Q. What finger did he wear it on?
A. On his little finger on the left hand.
Q. You may state whether on each trial of this case up to the last trial, the next to the last trial, up to and including the trial in 1895, you have produced this ring in court?
A. Yes sir at each trial.
Q. You may state whether it is lost, or if you know where it is? A. I don't know where it is now; I saw it last—
Q. Where did you last see it?
A. At the next to the last trial of this case at Topeka; then the attorneys for the defense had it—
Q. Never mind about that. You may state whether it was lost at that trial? A. Yes sir.
Q. And you have not seen it since? A. No sir.

And in answer to cross-interrogatories propounded to [him] by Geo. J. Barker, Esq., counsel for the defendants, the witness testified as follows, to wit:

Q. Mrs. Smith, will you please state to the jury when and where you were born? A. Near Columbus, Ohio.
Q. When? A. 1858.
Q. What month and day of the month?
A. It was the 10th of December.
Q. 1878? A. Yes sir.

Q. I understood you to say that you came to Kansas in 1872?

A. I did on a former trial, but I afterwards,—

Q. I am speaking now of this trial, Mrs. Smith.

A. No, 1873.

Q. I am speaking of this trial; did you come to Kansas in 1872? A 1873.

Q. You come to Kansas in 1873?

A. Yes sir, I think it was; yes, I thought it was 1872 or 1873, but I think that it was 1873; I know on the former trials I thought it was 1872.

897 Q. I am only asking you about this trial. Well, when did you come to Kansas, then?

A. I think it was 1873.

Q. In 1873? A. I think so.

Q. When you first came to Kansas, you went to live over by Alva Baldwin's in Kanwaka Township, Douglas county?

A. No sir.

Q. Where did you go?

A. We came directly from the depot at Lawrence to Uncle. I. C. Baldwin's west of Lawrence, and we stayed there six weeks.

Q. That was near Alva Baldwin?

A. It was right at his home.

Q. You lived there at Alva Baldwin's for six weeks?

A. Yes, we visited there, I think, about six weeks, and then my mother bought a farm in Leavenworth county.

Q. And you then moved to Leavenworth county?

A. Yes, sir.

Q. North of Levi Baldwin's? A. Yes, sir.

Q. In Leavenworth county, Kansas? A. Yes, sir.

Q. Levi Baldwin and Alva Baldwin were relatives of yours? A. Second cousins.

Q. How long did you continue to live in Leavenworth county near Levi Baldwin's?

A. Mother bought the farm there in 1873 and in 1884, I think, she sold, and moved away.

Q. Did you live there from 1873 to 1884?

A. Yes, sir, that was my home until I was married.

Q. That was your home until you were married?

A. Yes, sir.

Q. How far did you live from Levi Baldwin's when you lived in Leavenworth county?

A. About two and a half or three miles.

Q. And there you continued to make your home until 1884?

A. We rented the farm and moved to Lawrence I think three—two years before I was married.

Q. Were you at Levi Baldwin's, live there, a portion of the time?

A. Yes, sir, before we got possession of our own house I lived at Levi Baldwin's.

Q. How long did you live with him then?

A. We got possession of our house the first of
898 March, that is the rule, the first of March, from just about Christmas until the first of March, I remained at Baldwin's.

Q. After that were you at Baldwin's?

A. Oh, frequently, yes, sir, I never lived there but I was there frequently.

Q. Did you stay at Mr. Baldwin's considerable of the time after that before you moved to Lawrence?

A. I used to go there and stay two or three days at [at] a time, visited back and forth; a short distance.

Q. You continued to do that until you moved to Lawrence, did you? A. Yes, sir.

Q. Alva Baldwin, at the time you lived in Lawrence, still continued to live in Kanwaka township, in Douglas County?

A. Yes, sir.

Q. I understood you became acquainted with Mr. Hillmon at Levi Baldwin's? A. Yes, sir.

Q. When was that? A. Along about the holidays.

Q. Of what year? A. 1873.

Q. About the holidays of 1873?

A. Just after the holidays.

Q. Just after the holidays in 1873 you became acquainted with John W. Hillmon? A. Yes, sir.

Q. Where were you at that time; at Levi's? A. Yes, sir.

Q. And he was there? A. Yes, sir, he came there.

Q. Had he been absent and come there on a visit?

A. That is the first I saw him; they told me he had been absent.

Q. And came there? A. Yes, sir.

Q. How long did he remain there at that time?

A. I don't know when he came and went.

Q. I say about how long did he remain there at that time?

A. Perhaps a day or two; then he went away, and then he came back; he was there—

Q. Well, off and on, how long was he [there] there?

A. Several months.

Q. Did he then go away? A. Yes, sir.

899 Q. I understood you to say on your direct examination that you became engaged to him; when was that?

A. Just before he went west; in less than a year.

Q. In less than a year after you met him, you became engaged to him? A. Yes, sir.

Q. Now, from the time that he came to Levi Baldwin's, and you first met him, until you became engaged to him, had he been away? A. No, sir.

Q. He had lived in that neighborhood?

A. He was here very long at a time, perhaps a month or two, on his visit, before going west to remain.

Q. Repeat that answer.

A. I say, on his last visit in before going west I was engaged to him.

Q. And then he went away, did he? A. Yes, sir.

Q. How long was he gone on that occasion?

A. I think he returned in 1876.

Q. Yes, I know, but I say, how long was he gone, six months, a year, or two years?

A. From the spring of 1873 or 1874 until 1876.

Q. From the spring of 1873 or 1874 until the spring of 1876?

A. Yes, sir.

Q. You did not see him during that interval?

A. No, sir.

Q. I understood you to say on your direct examination that you corresponded with him? A. Yes, sir.

Q. Will you state to what place you addressed letters to him during that time?

A. A number of places in Colorado.

Q. Well, will you mention one of the places in Colorado.

A. Well, there was Golden City was one, and there was a number of places, mining towns.

Q. I know, but any other place?

A. I can't now recollect any other place.

Q. Do you remember of addressing any letters to him in Texas? A. No, not on that trip, no, sir.

Q. Not on that trip? A. No, sir.

900 Q. The only place that you remember addressing letters to him during that time was at Golden City, Colorado?

A. That was one time but there was a number of other places, but I cannot now recollect them.

Q. You cannot now recollect the places? A. No, sir.

Q. Then he returned again, did he? A. Yes, sir.

Q. Have you any means of fixing definitely the time when he did return on this occasion?

A. I think about two years before we were married.

Q. Where were you living at that time?

A. Lawrence, Kansas.

Q. Whereabouts; in North Lawrence or South Lawrence?

A. South Lawrence, on Mississippi street.

Q. How long did he remain there on that occasion at that time? A. Several months.

Q. He remained there several months and then went away did he? A. Yes, sir.

Q. Can you tell the jury when he went away; what year?

A. I think it was in June of the same year that he came in; he came in in the early spring, and went away perhaps the first of June.

Q. Came in the early spring and went away again in June?

A. Yes, early, perhaps February.

Q. How long was he gone?

A. He came back the next winter.

901 A. I just now cannot.

Q. Now, will you state definitely when he returned from this trip in 1877? A. In January or February.

Q. Did he go away again? A. Yes, sir.

Q. When did he leave the last time—Before you were married I am speaking of?

A. He did not remain but a week or two.

A. Nearly so. I couldn't say positively; she was grown up; she was a good deal taller and larger than I was.

911 Q. And you said that Mrs. Judson told you in regard to that, I believe; the first information you got in regard to it was from Mrs. Judson?
A. And Mr. Baldwin brought me—
Q. I asked you—
A. And then Mrs. Judson came out to the gate and called Mr. Baldwin to her and told him something, and I saw him begin to turn pale, and I said, Is there anything the matter—

A. I won't say positive; I don't know how that was.

912 Q. Where did he bring you from?
A. From his house.
Q. He brought you from his house to Lawrence on this 24th day of March, to Mrs. Judson's? A. Yes, sir.
Q. And then on the 25th day of March, you saw Alva Baldwin, did you? A. Yes, sir.
Q. And Levi? A. Yes, sir.
Q. Were they both at the house together?
A. Yes, and Lafey; all three came together; they were all three there.
Q. They were all three together?
A. I don't think they came up together; I don't know; I think that Lafey came with Alva, and I think that Levi came in the next morning; I don't know that; I don't know as to that.
Q. What I was getting at, did Levi go out home after he brought you in, and then come in the next day, and then he and Alva met at your house? A. They were both there.
Q. You think Levi Baldwin went home, and Alva came in the next day and then they were at your house?
A. Yes, sir.
Q. You say they started from your house to go down to Medicine Lodge? A. Yes, sir.

A. I think so.

Q. But you did not see Alva? A. No.

Q. No, from the time you were married in 1878, up to this time, did Alva Baldwin continue to live out in Kanwaka township? A. Yes, sir.

Q. Did you see him frequently A. Oh, quite often.

913 Q. In the city of Lawrence? A. Yes, sir.

Q. And you were at his house, at his residence in Kanwaka township?

A. Yes, I think we were there; I think we were out there.

Q. You were on visiting terms, were you not at that time?

A. Yes, sir.

Q. And he was at your house frequently in Lawrence?

A. Yes, he came to our house and took dinner with us.

Q. You and Mr. Hillmon had visited at his house?

A. I won't say. We might have been there.

Q. You know that you had been out there, do you?

A. Yes, I used to often go out there.

Q. That is, from the time you were married?

A. No, I don't mean that; from the time that we came to Kansas; while we lived in Lawrence we used to go out there frequently.

Q. I was asking particularly if you went out there after you were married; if you still continued your visiting?

A. I won't say as to that; I know that they came in; Alva and his wife came in, and Uncle Andy came in to see us.

Q. I am only asking in regard to Alva now?

A. Alva and his wife came in to see us; I can't remember whether Mr. Hillmon and I went out there or not.

Q. Can't say in regard to that? A. No, sir; I can't say.

Q. After their return from Medicine Lodge, he continued to live out on the farm, didn't he; Alva Baldwin?

A. Yes, sir.

Q. He lived there for several years after that, did he not?

A. Yes, sir.

Q. Did you frequently see him during that time?

The plaintiff objects to the question as not proper cross-examination. The Court overruled the objection, to which ruling of the Court the plaintiff at the time duly excepted.

Q. Did you visit at his house? That is, between the time he returned from Medicine Lodge, until he left the county, of course? A. I can't understand that question.

914 A. Do you mean after my husband died?

Q. I mean from the time that Alva Baldwin returned from Medicine Lodge until he removed from Douglas county, whether or not you visited at his house? A. Yes sir, I did.

Q. Frequently? A. Why, quite often.

Q. Do you remember the last time?

A. He was away south a little while, and while he was gone I was out there and stayed several weeks with his mother and his wife and family.

Q. Now, will you kindly tell the court and jury when it was that you visited with his mother out there in Kanwaka township, what year it was, and what time in the year, as near as you can?

The plaintiff objected to the question as not proper cross-examination. The Court sustained the objection, to which action and ruling of the Court the defendants at the time excepted.

Q. How did you learn, if at all, that Levi Baldwin and Alva Baldwin were returning, and that they would be in Lawrence?

A. By a telegram Mr. Smith brought me; the telegram said they would—

Q. I am not asking you what they said; you learned by telegram? A. Yes sir.

Q. Do you remember when that was?

A. The evening of the second of April.

Q. Then it had been from the 24th of March until the 2nd day of April—

A. No, I hadn't heard from them from the time they went away until the evening before they came back.

Q. Was that telegram to you or to Bailey & Smith, the undertakers?

A. I understood it was in his care and he brought it to me.

Q. If you know, please state?

A. No, he brought it to me and I suppose—

Q. Do you know whether it was a telegram to you or to Bailey & Smith?

The plaintiff objects to the question as not proper cross examination. The Court overruled the objection, to which
915 ruling of the Court the plaintiff duly excepted.

A. Mr. Smith brought the telegram and stating—

Q. I do not ask what it stated; I simply want to know whether that telegram—

A. He brought it to me and I told him to take it and give it to Mr. Selig; so it must have been calculated for me or I would not have given orders to give it to Mr. Selig.

Q. I don't want argument; I simply want the fact, if you know it. If not, please say so.

By the Court: Give your best recollection.

A. I think that was it or I should never have given the orders to give it to Mr. Selig, if it had not been for me.

Q. You think the telegram was to you?

A. Well, now, it must have been, because I told him to—

Q. I am not asking you for that; you simply say you think it was to you?

A. I think it was because I told him to take it to—

Q. I am not asking you for reasons or an argument, Mrs. Smith. Now, do you know who the telegram was from?

A. Well, I think it was to me in the care of Bailey & Smith.

Q. No, I ask you if you know from whom the telegram was? A. From my cousin, Levi Baldwin.

Q. Do you know what time you received or got word in regard to that telegram?

A. Yes, sir, on the evening of the second.

Q. On the evening of the second of April, 1879?

A. Yes sir, just after I came from Mr. Griffith's office.

Q. Then, what did you do, if anything?

A. I gave it back to Mr. Smith and told him to go to Selig.

Q. I did not ask you what you said. You gave it back to Mr. Smith, did you? A. Yes sir.

Q. Now, the next morning, I understood you to say, you expected the remains?

A. Yes sir, it stated so in the telegram.

[Q.] Answer of the witness stricken out as not responsive to the question.

Q. Now, I understood you to say that the next morn-
916 ing you sent Mr. Judson down to the train?

A. Yes sir.

Q. Mr. Judson had an express wagon; ran an express wagon at that time, did he not?

A. I don't know whether at that time he had an express wagon or not.

Q. What business was Arthur Judson in?

A. He had a team but I don't know just what he was doing at that time.

Q. You don't remember in regard to that? A. No sir.

Q. But I understood you to say that you sent him with an express wagon. A. You didn't understand it all that way.

Q. You sent him down? A. He just walked down.

Q. Did any other members of the family go down?

A. No, not at that time.

Q. Then he came back and reported to you, did he?

A. Yes sir, came back and said that—

Q. I am not asking what he said; then after that, you went down town, did you?

A. He came up with a team and took Mamma, Mrs. Judson and myself down to Bailey & Smith's.

Q. What time in the day was that?

A. About ten o'clock.

Q. That would be on the third day of April, 1879, wouldn't it not? A. Yes sir.

Q. And that is the time when you say that you did not see the body? A. No, did not see it at that time.

Q. Then you returned home, did you? A. Yes sir.

Q. When did you go down again?

A. I think it was on the morning of the 4th.

Q. On the morning of the 4th?

A. I think it was; I won't say positively, but I went down and saw him; I don't know whether it was the next morning or not.

Q. Can you tell the jury about how long it was from the time you went down the first time until the second time?

A. I think it was the second morning.

Q. Now, did you notify, or cause to be notified, the relatives of Mr. Hillmon in regard to this matter?

917 The plaintiff objects to the question as not proper cross examination. The Court overruled the objection, to which ruling the plaintiff duly excepted.

A. I did not know his relatives at the time, just where they were living at that time.

Q. You knew he had sisters?

A. Yes, I knew he had sisters and brothers, but I didn't know just where they lived.

Q. You didn't know the residences of his sisters?

A. No, I did not.

Q. Well, then, of course, no notice was given to them?

A. No sir, not at that time.

Q. In regard to this matter.

Q. From the 24th of March to the 3rd of April, 1879, no notice was given because you say you did not know where they were? A. No sir.

Q. You knew they lived in Kansas?

A. I thought that—Well, I didn't know; I think I did; I knew they lived somewhere—

Q. You had been engaged to Mr. Hillmon for several years and had been married to him on the 3rd day of October, 1878, and didn't know where his sisters lived, or lived in Kansas; didn't you know he had a sister living in Valley Falls?

A. No, not at that time; I didn't receive any word from them until my husband was buried some time.

Q. Then you say you did receive word from them?

A. Yes, in answer to a letter I had written.
Q. Did you receive word from Mrs. Nichols?

The plaintiff objects to the question as incompetent, irrelevant and not proper cross examination. The Court sustained the objection to which action and ruling of the Court the defendants and each of them at the time duly excepted.

Q. Now, when you went into Bailey & Smith's to see the remains and when you did see them, whom did you say went in with you?
A. My cousin Levi Baldwin, and Arthur Judson were with me.
Q. Those are the persons who were with you at that time?
A. Yes.
918 Q. Did you see other people in there?
A. I saw Mr. Smith and there was several others I didn't know just in the room or just outside.
Q. Just in the room or just outside? A. Yes sir.
Q. People coming and going at that time, were they?
A. Yes, but not many.
Q. At that time, had you seen Levi Baldwin after his return from Medicine Lodge?
A. Yes, I think he came to the house.
Q. Had you seen Alva Baldwin? A. No, Alva was not there.
Q. When did you first see Alva after his return from Medicine Lodge?
A. Some time; several days.
Q. It was several days before you saw Alva Baldwin after his return from Medicine Lodge?
A. No, I think Alva came to the house after he first came back; I won't say positively.
Q. You can't say whether he came to the house when he first came back, or that you did not see him for several days?
A. I think he came to the house.
Q. That is what you say now?
A. Yes, I think he came to the house and then went out home. Yes, I think he did.
Q. Had you seen him more than once?
A. Now, I don't understand that.
Q. Had you seen him more than once before the coroner's inquest?
A. Oh, I didn't see him before the coroner's inquest; he wasn't here at that time.
Q. You didn't see him during the coroner's inquest, then, during the time it was being held?
A. Yes, I think he came to my house when he first came back.
Q. You only saw him once?

A. Yes sir; I saw him as soon as he came, when he first came in, but I don't remember of seeing him any more.

Q. Now you have spoken about the coroner's inquest, and about producing certain pictures. Do you know where the coroner's inquest was held?

A. At the court house.

919 Q. At the court house in the city of Lawrence?

A. Yes, sir.

Q. Now, you stated that you were requested to produce certain pictures. A. Yes, sir.

Q. I will ask you to state if that request was not made to you by Mr. H. S. Clarke of Lawrence, Kansas? A. Yes, sir.

Q. He was the first person who spoke to you about producing pictures there? A. Yes, sir.

Q. That conversation was at your house, was it not?

A. Yes, sir.

Q. I will ask you if you did not then and there deliver him the pictures, give them to him right there at your house?

A. He told me to bring them—

Q. I am not asking what he told you then; I am asking you if you did not then and there at your house give him the pictures? A. No, I did not; I took them down.

Q. You took them down; you did not give them to him, then? A. I did not, no, sir.

Q. Now, look at Exhibit 14 and state if that is one of the pictures or the picture itself, which you either gave to him or took down there?

A. I don't know whether it is the exact picture.

Q. Was it one like that?

A. Yes, sir, it was one like that, but I don't know whether that is the exact picture or not.

Q. It was either that picture or one like it?

A. It was either that one or one that was taken at the same time.

Q. Exhibit 22, did you take that picture too?

A. Yes, I took that.

Q. You didn't deliver it to Mr. Clarke? A. No, I did not.

Q. Now, I call your attention to Exhibit No. 10; did you take that picture down?

A. No, I didn't have it at that time.

Q. You did not have that in your possession? A. No, sir.

Q. You didn't know where it was?

A. Yes, I knew where it was.

Q. You knew where it was at that time? A. Yes, sir.

Q. You stated that this picture—

A. This is a good picture of him.

920 Q. Do you know whether that is an original or a copy?

A. No, that is the original picture that he sent in from the west.

Q. Did he send it to you?

A. No, he sent it to my cousin, Mr. Baldwin.

Q. How do you know that he sent it to him?

A. Because I saw the letter that he wrote; at the time that the box came it was in one of these specimen frames.

Q. He sent that in? A. Yes, sir.

Q. Do you know where the picture was taken?

A. Somewhere in Colorado; I don't just remember.

Q. Do you know anything about where the picture was taken? A. I won't say positively, because I don't know.

Q. Do you remember from what place it was sent? A. No.

Q. Is there anything on the picture which indicates where it was taken? A. No, sir.

By Mr. Barker: I wish to show it to the jury for the purpose of showing that there is nothing on it to indicate where it was taken.

Q. You knew at the time this coroner's inquest was going on that there was a controversy in regard to whose remains those were, did you not?

A. Not when he asked me to bring the pictures; he told he to bring all the pictures I had in my possession and these were the only ones I had.

Q. You didn't know at that time there was any controversy in regard to whose remains those were down there?

A. I don't think I did.

Q. You don't think you knew anything in regard to that?

A. Not at that time.

Q. You had seen and talked with both Levi and Alva Baldwin and still you didn't know anything in regard to that?

A. I don't think they said anything about it— No, I hadn't seen Alva at that time.

Q. Now, when did you bring those pictures with reference to the commencement of the inquest, was it the first day or the second day of the inquest?

A. I don't know; it might have been the fourth or fifth.

921 Q. I am not asking about dates, but so far as the time of the inquest is concerned; was it the first day or the second day of the inquest that you took the pictures down there?

A. I don't know; I was there just once, and I don't remember.

Q. When was it you went there?

A. Towards the last; I don't remember when it was.

Q. You have spoken in regard to another picture, have you not? A. Yes, sir.

Q. That, you said was a picture of Brown and your husband taken together? A. Yes, sir.

Q. Do you know when and where that picture was taken?

A. Yes, it was taken there in Lawrence.

Q. When?

A. I don't know; some time before they went away; several weeks.

Q. Several weeks before they went away? A. Yes, sir.

Q. Do you know of Mr. Brown being up there several weeks before he went away? I understood you to say you did not see him from the time you saw him when he returned with your husband in 1878 until after you were married?

A. No, I didn't say that, did I?

Q. I understood you to.

A. I had been in the city and I might have seen him.

By the Court: I desire to say this: There is a juror here whose conduct is very commendable, and whom I honor for it, has stated to me that a communication was made to him, which he interpreted as preliminary to an offer to bribe. He stated to me the language that was used to him, and it looks very much to me as it did to him, but inasmuch as there might be some mistake, I think it best not to mention the name of the party who made the communication, or the name of the juror to whom it was made; but I desire to say this, that if there is any further effort made in that direction, I will have that man's name presented to the United States grand jury for indictment.

922 Mr. Barker here offered to speak.

By the Court: It is no lawyer connected with this case; I do not mean to say that the effort came from either side of this case, and no counsel is called upon, it is not necessary in the mind of the Court for any counsel to say anything one way or the other about it. There is no reflection cast upon any one directly connected with this case, so far as I know, but I desire to say to the person that that must stop; it must proceed no further. If I can prevent it, this case will not be tried with anything of that sort in it.

The hour of 12 m. having arrived, the Court arose in recess until 2 p. m.

923 Afternon session. Parties present as before.

By Mr. Barker: If the Court please, the defendant has a motion which it would like to submit at this time, and I think it is a motion that ought not to be, perhaps, argued in the presence of the jury, and we would like to have a moment to present it to the Court.

By the Court: (to the jury) Remembering the admonition that has been given you, gentlemen, please retire to the corridor beyond hearing of what may transpire in Court.

The jury accordingly retired.

By Mr. Barker. It would seem from the remarks of the Judge just before adjournment that he believes that an attempt has been made by some one, the foundation has been laid for bribing a juror; that the Court believes that from the statements which the juror makes; has made. Now, upon that proposition, the Court has said that at this time, he would not investigate, but I submit that if anything of that sort has been done, if the Judge of this Court thinks anything has been done, that it ought to be probed to the very bottom, and done now; and we court the fullest investigation in regard to that matter. There is another matter which grows out of that, and upon that we make a motion, and that is, that the entire panel be discharged, and a new venire be issued. Taking into consideration the character of this case, the plaintiff and the defendants, the fact that the plaintiff is a woman, and the defendants corporations, and taking into consideration the talk which has been had in Court, the insinuations and remarks that have been made in regard to the millions which these companies are alleged to have, I submit that when the Court says in the presence of the jury that he believes that the foundation has been laid or that a juror has been tampered with, that the imputation would go out, the impression would go out; it would make an impression upon the jury that if anybody had done that, it was the defendants in this case, because the defendants have the money. I submit that under these circumstances, taking into consideration these facts that we ought not to be required to go on with the trial of this case before a jury where the Judge of this Court has made remarks of that kind, where the Judge of this Court believes, as your Honor evidently does, in regard to that matter. We are over here, so far as that is concerned, in Leavenworth county, where the plaintiff lives; where her counsel, two of them, live, and if we have been guilty, directly or indirectly, or remotely, of anything of the sort, we ought to be punished for it, and we court the fullest investigation in regard to that. But furthermore, we submit that the statement of the Court in regard to that matter would have a tendency and would necessarily and naturally prejudice the jury against defendants in this case, and that we could not go on now and have a fair and impartial trial before this jury, and we have submitted a motion here that on account of the statements of the Court in that respect, that the entire panel be discharged,

and that a new venire issue, and we save, in addition to that, an exception to the remarks of the Court in the presence of the jury.

By the Court: So far as any prejudice is concerned, I cannot conceive how the Court's remarks could operate to the disadvantage of the defendants any more than they would to the disadvantage to the plaintiff, for, as counsel says, on the one hand are the insurance companies, and they have the money—that is the expression used by counsel for the defendants; on the other hand, as counsel says, the plaintiff resides in this community, and two of her lawyers reside
924 in this community. When this matter was first brought to my attention, I considered the propriety of allowing it to proceed to see to what extent it would be carried, but I thought then that that was perhaps beneath the dignity of the Court; that it might, in a measure, be laying a trap for the man who possibly had an evil intent in that direction. I have no hesitancy in telling counsel the words that the juror repeated to me. They were a request on the part of the person in question to a juror to come to a certain place—that there was something in it for him. Now, what was the Court to do? As I say, I did not consider it the proper thing to allow that to proceed without calling attention to it, and yet, it bore to my mind, the unmistakable ear-marks of preliminary preparation for bribery, and I thought that the best thing to do was to call the attention of counsel, (and I do not think it made any difference whether it was in the presence of the jury or not), to what was considered by the Court as the beginning of an attempt to bribe a juror, and to warn the person, who, I may say, was then in the court room, that if there was any further attempt in that direction, I would do my utmost to have him indicted by the grand jury. I would have done that without regard to the connection or relation of that person; I do not propose, as long as I occupy this bench, to tolerate any conduct of that character. Now, suppose I had mentioned the name of the person who was guilty, or whom I thought might be guilty? It might have operated to cast a reflection upon him that he did not deserve; he might have said that although he made use of those remarks, that they had reference to something entirely disconnected from this case, notwithstanding their equivocal character. Now, because of that occurrence, am I to discharge this jury, and lose all the time, all the care, and all the energy that counsel and litigants have devoted to it up to the present time? I have stated to the jury that no lawyer connected with this case, and no party to it, was a party to that communication to the juror. Now, if there is anything further that I can say in that direction that will tend more fully to clear those who are

connected with the trial of this case, I am willing to say it if counsel will suggest it to me, because I have not the remotest idea that that attempt, if it be one, was inspired by either side to this case.

By Mr. Isham: Certainly no one can concur with the Court more heartily than we in the view that the Court has expressed, that nothing of this kind should be tolerated, or that the slightest shadow should fall over this case; nor do we, for a moment believe or think in anywise that there was the slightest purpose in the mind of the Court of doing prejudice to one party or the other by the remarks which your Honor made this morning in the presence of the jury. They do, practically, because we think the burden of this thing will fall upon the defendants, and that the matter ought not to stop here; it ought not to be postponed, as your Honor suggested, but should be explored to the very bottom at once. Your Honor is perfectly aware that from the beginning to the end, in the long history of this case, there has been a parade that is familiar to the people of Kansas from one end to the other, of the poverty and weakness of this plaintiff, and of the moneyed power—that is the phrase dwelt on here in this forum continually—of the defendants. We cannot bring a witness from a distance; we cannot take a single step that involves a little expense, but it is immediately dwelt upon and has been here to an extent before the Court to an extent that I think ought to have been stopped, and ought not to be permitted, as evidence of the money power, and of the corruption of their witnesses and all that sort of thing, with nothing on the face of the earth to found it upon except the fact that we have been able to bring witnesses from a distance, or we have been able to do this, that or the other, to
925 throw light upon the identity of this body at Lawrence.

Now, the very first thought, if anything of this kind occurs, is, Why, such a thing cannot emanate from this poor woman! Of course, it is the act of these wealthy corporations! That is the sentiment that is published and spread abroad, and that is abroad in the community, and finds its expression continually from counsel in this case, which, I think ought not to be allowed without some evidence to support it; but the imputation is at once in the mind of every juryman here, as it would be in the minds of any group of people that might be gathered on the street, to whom this thing might be presented. "Oh, these insurance companies have done that; of course, this poor woman has nothing to buy jurors with." Now, with that fact, the absolutely certain fact of the situation before us, I think that it is absolutely impossible for us now to have a fair trial before that jury, and we ask these two things: We ask, in the first place, that whatever of this

sort of thing may have occurred, may be explored now; if we are guilty, if counsel here, who are connected with this case, if anybody on our behalf has been doing anything of this kind, we want to know it. If, on the other hand, anything of the kind has been done by anybody else, it ought to be known. If anything has been done and worked about so that it should be calculated to give an impression abroad that we have been doing anything of the kind, it ought to be explored; it ought to be shown whether it is true or not; but in the present situation, we think the whole thing should be explored now, and not deferred, and we think if it is deferred —in any event, in the light of what has transpired here, that it is impossible for us to have a fair trial. I think consideration ought to be given to the fact of the very great disparity in weight and force of the slightest implication or word that emanates from the lips of the Court, as compared with anything that counsel on either side might possibly say in the case. Any word emanating from the Court that casts a shadow upon a juror would be potent beyond expression, and the Court declares emphatically that it is convinced that the preliminary step towards bribing a juror has occurred in this case. To say that it has not been done by parties, and not done by counsel, does not exonerate us.

By the Court: How would counsel interpret that language? When I said I was convinced, I perhaps should have said that the language used was very suggestive.

By Mr. Isham: I agree with the Court; I agree with the Court that the language was quite sufficient to challenge investigation, to entirely justify the action of the Court, even more action of the Court, but I think it was not necessary that the opinion should have been expressed before the jury.

By the Court: What could the Court have done in that situation?

By Mr. Isham: It was just at adjourning; the jury might have been let go and counsel been retained and this matter laid before them as we are doing now; the jury might not have been retained here; they might have been let go, and this thing could all have taken place just as this discussion is now occurring between the Court and counsel; and then, in addition to that, the Court could take any measures, more rigorous and better I think; this man, whoever he may be, should be hauled right up now. I haven't the slightest idea who he is, but he and his relations and whoever is behind him, all should be brought right up, and the matter explored to the bottom now.

By the Court: It is something aside from the case on trial that that should be done now.

926 By Mr. Isham: The impression is inevitable in the situation upon the minds of the jury that an attempt has been made that, in the ordinary course of things would naturally be attributed to defendants in the light of the continual talk of counsel for plaintiff which has gone on since this trial commenced, and which will be continued until the Court stops it. We cannot protect evidence; we cannot go anywhere and preserve evidence for the purpose of throwing light on this question of identity under the issues in this case; we cannot take a single step in which we are not charged with corrupting witnesses by money power, and doing everything that ought not to be done, when everything objectionable throws light upon the question [as] issue. We have consulted upon this matter; our first impulse was to make this application and challenge investigation before the Court adjourned; but we postponed it and took time to consider it carefully; and fully considered it during recess, and we think it impossible for us to have a fair trial before this jury now.

By Mr. Barker: Let us assume that the juror who has been talked to believes as the Court does—that he has been approached. Now, it is no answer to that to say that he does not know by which side he has been approached; he may have his impression in regard to that matter. Now, I submit, to require a party to go on with the trial of the case before a jury, one member of which believes that he has been attempted to be bribed by one party or the other—that that jury is disqualified from sitting in the case.

By the Court: That position must be illogical; otherwise, in a case of importance, that is bitterly contested, and which keeps from three weeks to two months to try, it could be made possible that we would never come to the end of it.

By Mr. Barker: So far as that is concerned, that is only a question of the effect of those things, or the possibility of them; I think it ought not to change the fact; you are asking us to go on with the trial of the case before a juror who believes, and whom the Court thinks has attempted to be bribed. I submit that that juror's mind is not in a condition to receive evidence in this case; he is not in a condition to act fairly and impartially in this case; he believes one way or the other; if he has an impression of which side that came from, he will be striving and leaning against that side; in other words, he is absolutely disqualified from acting in this case, and, so far as that is concerned, that matter has now gone before the whole panel; it has got before the whole panel now in this case, that the Judge of this Court believes that a juror in the box has attempted to be—that there has been an attempt to bribe that juror. Now, I submit that a juror who has received an impression of that kind, however erroneous—and

I do not say that it is erroneous, so far as that is concerned, I do not say anything in regard to that, I do not criticize the views of the Court in regard to that matter—but I submit that these matters having occurred, that, the juror having heard these things, and having considered it of moment enough to refer it to the Court and the Court having considered it of moment enough to discuss it before the jury, that that jury is disqualified from going on and hearing this case, and acting fairly and impartially between the parties. As has been said by my colleague—it is not so long since you were at the bar that you cannot appreciate how much weight a remark of that kind coming from the Judge of the Court has; that the Judge of the Court being convinced, and expressing his opinion in that manner in which he did, would carry conviction to the minds of the jury, that a matter of that kind had taken place; and I am frank to say that so far as the defendants in this case are concerned, that they firmly believe from this time on, if this case goes on, they will not receive justice at the hands of the jury.

927 By the Court: The Court is not responsible for the language that was uttered by that man to the juror, and counsel for the plaintiff, counsel for defendants, and the litigants are not responsible for it; that the whole panel heard the remarks of the Court makes the situation, in principle, no different than it would be if the juror to whom the invitation was presented had alone heard it. Suppose that the juror who communicated this information to the Court had not done so until a verdict had been rendered in this case; nevertheless, he possessed the information at all times after the invitation—had been presented to him; would the fact that the juror had been approached be sufficient to authorize the granting of a new trial upon the claim made by counsel that he must have received certain impressions from the personnel of the parties to the case? I think not; so, in principle, there is no difference between a knowledge of the situation on the part of one juror, and a knowledge on the part of the entire jury, and I cannot agree with counsel that this incident prejudices one side or the other.

By Mr. Ware: There is another feature to this I would like to urge. Having heard what the Court said the language was, I have no doubt in my mind that that was right in the line with an attempt to bribe a juror; right in line with it. It is practically a contempt; it is within the presence of the Court, so to speak; it is a contempt of the Court. This matter has been discussed in open court; it will go into the newspapers. Now, why will not the Court bring that man right straight before this Court, or before the Judge and let the lightning fall wherever it will fall, and clarify the situation as to the public as well as the parties?

By the Court: I will consider that suggestion; I will not act on it now. The motion to discharge the jury is overruled. To which action and ruling of the Court the defendants and each of them and there duly excepted.

The jury were thereupon brought into Court.

928 The jury being in their seats the Court said: Gentlemen of the jury: In addition to what I said immediately before taking the noon recess to-day, I desire to say further that I have no idea that the communication that was made to the juror, the character of which I indicated to you, was inspired by any counsel connected with this case, or by any of the parties litigant, the plaintiff or either of the defendants, and I desire to instruct you that in the consideration of this case, and in your deliberations upon your verdict, you give no heed whatever to the incident that was mentioned.

Mrs. Sallie E. Smith on the stand.

Cross-examination concluded by Mr. Barker:

Q. I was asking you in regard to pictures; you have testified in regard to two pictures that you took down there, I believe one, at least, and you say that you took another picture down to the coroner's inquest, a picture of two people?

A. Yes, sir.

Q. What time did you take that down to the coroner's inquest, what time in the day?

A. I think that Mr. Clarke came in the forenoon, or just after noon, and I think he said for me to bring them down at two o'clock; I couldn't say positively.

Q. You think you went down there about that time, do you? A. I don't know.

Q. But he requested you to bring them to the court house?

A. And I took them.

Q. Was the coroner's inquest in session when you went down there in the afternoon at two o'clock?

A. I don't know whether I went in the afternoon at two o'clock.

Q. When you went down with the pictures, was the inquest in session?

A. They were sitting around a table—not around a table but around a small stand, and Dr. Morris and Mr. Green was there.

Q. Was the coroner's jury there?

A. Yes, sir, there was some men there.

929 Q. You took those pictures and gave them to whom?

A. I gave them either to the coroner or to the county attorney; they had them between them there.

Q. You mean they had them and examined them?

A. Yes, sir, I handed them—

Q. Didu't the jury examine them also?
A. I don't know as to that at all.
Q. Don't you remember the jury looking at those pictures?
A. No, the last time I saw them Mr. Green and the coroner had them in their possession.
Q. The other men were sitting around there?
A. Yes, I suppose so, but I don't have any remembrance just how—
Q. You say that is the last time you saw that picture?
A. Yes, sir, the last; they had it there.
Q. I will ask you if that coroner's inquest was not in session two or three days?
A. I don't know; I was just once there.
Q. I will ask you if you were not down there twice?
A. No, I think not.
Q. You don't know whether it was in session two or three days or not?
A. No, I don't know anything about that; I know I went down there, and was there quite a while and came away; I don't know anything more about it.
Q. And you say that is the last you saw of that picture?
A. Yes.
Q. Now, do you remember of testifying before that coroner's jury? A. Yes, sir.
Q. When was that; was that the same day that you took the pictures down or the next day?
A. It was the only time I was there.
Q. I ask you if it was the same day or the next day?
A. I wasn't there but the one time, so it must have been the time I took the pictures.
Q. It was in the afternoon of that day?
A. I don't know whether it was the afternoon or the forenoon; it was the time I took the pictures.
930 Q. And at the time you took the pictures, you testified? A. Yes, sir.
Q. Before the coroner's jury? A. Yes, sir.
Q. I will ask you if at the time you testified the jurors were looking at the various pictures that had been brought there?
A. I don't know anything about that; I just gave them to him and they took them; I don't remember anything about that.
Q. Don't remember about the jurors looking at the pictures. A. No.
Q. At the time the inquest was being held?
A. No, sir; I don't know anything about that.
Q. Now, in regard to your testifying; you remember of testifying before the jury? A. Yes, sir.
Q. Now, I will ask you if on that occasion, at the coroner's inquest at Lawrence, Kansas, in April, 1879, if you were not

asked upon the witness stand if you knew the height of your husband, and if to that question, you did not say No, I do not know his height; I never saw him measured.

A. No, I did not say that, Mr. Barker.

Q. I will ask you if you did not state that in substance?

A. I did not in substance.

Q. I want to ask you in regard to your husband's teeth, and your testimony on that subject before the coroner's inquest. I will ask you if you were not asked at that time what kind of teeth your husband had, and if you did not say that you did not know what kind of teeth he had, but you didn't think he had false teeth?

A. No, sir; I do not think that anybody asked me about his teeth.

Q. I will ask you if you were not asked that question.

A. No, sir; I was not asked that question.

Q. And if you did not make that statement in substance at that time before the coroner's jury?

A. I did not, because the question was not asked me.

Q. Now, I will ask you if you were not asked in regard to the weight of your husband, and if you did not tell the jury that you did not know his weight?

A. No, I think not, because I think I knew his
931 weight.

Q. I am not asking you why?

A. I don't think anything was asked me about his weight.

Q. I will ask you if you were not asked this question before the coroner's jury, if you were not asked in regard to the color and character of your husband's hair? A. Yes, sir.

Q. And if you did not say that you thought his hair was dark and that is all you knew about it, except you knew he had more hair than Mr. Green, pointing to Mr. Green, who was there then. Did you not make this answer in substance?

A. No, sir; they asked me about the color of my husband's hair and—

Q. I am not asking you what the color was; I asked you if you did not say that in substance and you say no. Mr. Green was there? A. Yes, sir.

Q. Don't you remember of comparing your husband's hair with his?

A. No, sir; I do not; he asked me if his hair was as dark as his and Mr. Green's hair was red.

Q. He was as bald headed as he is now?

A. Nearly so; it was in ridicule.

Q. I am not asking in regard to the manner; I am only asking what you said. Do you remember the circumstance?

A. I do.

Q. Now, after that coroner's inquest, or during the coroner's inquest, did you see Mr. Brown. A. Yes, sir.

Q. When and where did you see John H. Brown during the inquest. A. He was around the court room.
Q. Were you there when he was examined? A. No, sir.
Q. You did not hear his testimony?
A. I don't think I heard the testimony.
Q. You knew Mr. Borgolthaus, didn't you. A. Yes, sir.
Q. He was an attorney in Lawrence?
A. Later on he was my attorney.
Q. I am not asking about that. He was an attorney in Lawrence, was he not? A. I suppose so.
932 Q. He was present at this coroner's inquest, was he not, and sat there by you?
A. Oh, no; he sat nowheres near me.
Q. He was at the coroner's inquest, was he not?
A. He was there part of the time that I was there; I don't know whether he was there all the time or not, but he was there when I came away.
Q. He was there part of the time you were there?
A. He came in.
Q. He put certain questions, did he not?
A. Nothing more than when you got to asking me to examine that trunk, to get up and identify it, and I told you I could not, then he insisted it was ridiculous for you to ask me that; that is all he said; he objected to that just out of humanity's sake.
Q. You were asked to examine the trunk?
A. Yes, sir; Mr. Green asked me to examine it.
Q. Was it present?
A. It was right there in the room, and Mr. Green says, You can go and look at it.
Q. And you refused?
A. No; I couldn't tell anything about the trunk; there are hundreds of trunks of the same kind and I couldn't tell.
Q. Couldn't you identify your husband's trunk?
A. He only bought it in the morning of the day he went away, and I told them so, but they insisted on my going and looking at it, and Mr. Borgolthaus said it was not right.
Q. Mr. Levi Baldwin was in town?
A. I don't know whether he was there while I was there or not; I don't have any remembrance about that.
Q. You don't remember about his being at the coroner's inquest?
A. No, not while I was there; I don't think so.
Q. Do you remember of his testifying before the coroner's inquest? A. No, sir.
Q. Is it not a fact that Mr. Levi Baldwin had possession of these policies at that time and took them to various attorneys to get them to act in this case; didn't he take them to Judge Thatcher?

933 A. No, sir; he did not have those policies.
Q. Had he employed Mr. Borgolthaus?
A. No, sir; I employed him myself, later on.
Q. He was acting for you at that time, was he not?
A. Who?
Q. Mr. Levi Baldwin?
A. No, sir; not that I know of.
Q. You stated you did not know how long that coroner's inquest lasted? A. No, I don't.
Q. Well, at that time, you understood there was a controversy, did you not, in regard to whose remains they were; there was a disput- in regard to those being the remains of your husband?
A. I don't know what the dispute was; they claimed that it was not.
Q. You knew that it was claimed it was not your husband?
A. Yes, sir.
Q. That it was somebody else's body and not your husband's? A. Yes, sir.
Q. You knew that? A. Yes, sir.
Q. And you knew that question was being examined before the coroner's jury?
A. I didn't know how that was at that time.
Q. Now, when, after the coroner's inquest, did you next see John H. Brown. I want to put that a little more intelligently: When, after the coroner's inquest had closed, did you next see Mr. John H. Brown?
A. I owed him some money and I paid him off the evening I think he went away; I think that was the same evning I was down that day that I was at the inquest.
Q. You think you paid him some money?
A. At the time I saw him down there; he was around the court room.
Q. And he went away, did he?
A. I think he went home that evening.
Q. When did you next see him?
A. I think he came up afterwards, but I did not see him.
Q. I did not ask you when he came up; I asked you when you next saw him, Mrs. Smith?
A. I don't know but the one time that he went home; then he came back again, but I don't know whether it was the first or last time that I paid him.
934 Q. Do you remember when you next saw him after he went away?
A. I don't think I did until at Mr. Baldwin's place; that was the next time.
Q. We will not go into that matter now. Now, you stated on your direct examination that you made the acquaintance

of Mr. Buchan in Wyandotte in the spring of 1879; is that right? A. Yes sir.

Q. And when do you say he was at your house?

A. I think it was in the latter part of May or first of June that I went down to Wyandotte to Mr. Buchan's office with old Mr. Brown. Then later, in August, Mr. Buchan came to my house; in August.

Q. Mr. Buchan came to your house in August, did he?

A. Yes sir.

Q. Of 1879? A. Yes sir.

Q. And you had a little talk with him there or considerable talk?

A. Not very much talk; just a short time.

Q. You didn't have very much talk with him there?

A. No.

Q. What did you tell him there; did you not tell him if he wanted to know anything about this case to see your attorney, Mr. Borgolthaus?

A. Yes, or Mr. Wheat, or any of them, or Mr. Riggs.

Q. Didn't you tell him at that time if he wanted to know anything in regard to this case to see Mr. Borgolthaus?

A. No, I told him to go and see my attorneys.

Q. Didn't you tell him to go and see Mr. Borgolthaus?

A. I don't think so; I told him to go and see my attorneys and they could tell him all about it.

Q. You need not go further now. Is it not a fact that you met him there in the afternoon? A. Yes sir, I did.

Q. How did it happen if you did not tell him to go and see Borgolthaus, that you met him at Borgolthaus' office the same afternoon?

A. Because he told me he would meet me at Mr. Borgolthaus' office if I would meet him there.

Q. Haven't you testified in this case three times before that you told him if he wanted to know anything about
935 your case to go to your attorney, Mr. Borgolthaus, and that you went down there and saw him there in the afternoon?

A. I told him he could see my attorneys and then he said he would—

Q. How did he know who your attorneys were?

A. I dont' know.

Q. You don't know that he knew?

A. I suppose he knew, though.

Q. You think you did not tell him?

A. I may have told him Mr. Borgolthaus was one of them.

Q. You don't recollect in regard to that? A. No.

Q. You recollect meeting him there? A. I do.

Q. You had but very little if any talk at the house before he went there?

A. He came up to see me and talk about the case.

Q. What did you say?

A. I told him I didn't know much about it but the attorneys could tell him, and he could see them; then he asked me if I would meet him at Mr. Borgolthaus' office.

Q. And you went down and met him in the afternoon?

A. Yes sir.

Q. Did you have any talk in regard to the case?

A. No; I think he just asked me something about how we were getting along, stayed around a few minutes, and then said it was train time and he must go and went away.

Q. When did you next see Mr. Buchan?

A. I think I next saw him at Leavenworth.

Q. On the 15th day of September, 1879? A. Yes sir.

Q. Now, you saw Mr. John H. Brown on the 12th day of September, 1879, at Mr. Levi Baldwin's residence in Leavenworth county, Kansas, did you not?

A. I came to Leavenworth on Monday.

Q. Now, if you say it was the 15th on which you were at Leavenworth and signed these releases, then I will ask you if you did not see John H. Brown on the evening of Friady before that?

A. Yes, and then I went to Leavenworth the following Monday; that would be—I don't know whether it would be the 12th or 13th; it was two days before I went to Leavenworth.

Q. Where were you on the morning of Friday, the 12th day of September, 1879? A. I was in Lawrence.

936 Q. At Mrs. Judson's? A. Yes sir.

Q. Did you see Levi Baldwin that day?

A. Yes sir.

Q. What time did he come there to your house?

A. Why, I think along about noon.

Q. About noon of the 12th day of September, 1879?

A. I don't know whether it was the 12th.

Q. It was the same day on which you saw John H. Brown?

A. Yes sir.

Q. Then, what did you do; did you go from Mrs. Judson's out to Levi Baldwin's house? A. Yes sir.

Q. Did you go with Mr. Baldwin, Levi Baldwin?

A. A part of the way, I did.

Q. Part of the way; you went from your house down to the ferry with Mr. Levi Baldwin? A. No, sir.

Q. How did you go?

A. He came—He usually came in on Fridays and took us to the country; the bridge was down and he came on horse-

back; he came up and told us he couldn't take us out on Friday; so that, I wanted to go out home, out to my mother's and I went down on the street and met him; I told him I was going out home; he says, You can't go; he says, I am in on horseback; the bridge is down and I couldn't go; you can't go; I will get you next Friday. I said No, I am going out home.

Q. You went out, did you? A. Yes sir.
Q. On that Friday evening? A. Yes sir.
Q. You rode out in a spring wagon or a lumber wagon?
A. We crossed—
Q. I ask you how you rode out from the city of Lawrence to Mr. Levi Baldwin's? A. I think I went in a big wagon.
Q. You think you went in a big wagon?
A. I know I did.
Q. You rode out in a big wagon from Lawrence to Mr. Levi Baldwin's? A. No, I did not.
Q. From North Lawrence? A. No.
Q. Where did you go?
A. I went part way, about three miles—

Q. Wait a moment. How did you start from the
937 city of Lawrence on that occasion?

A. I walked down the street and met Mr. Baldwin; we went down to the river bank and went over in a little row boat and when we got over there he said—
Q. I am not asking what he said; I am asking how you went over there.
A. I was going to tell you. We got up on the north side, and looked around, and he says, Sallie—
Q. I am not asking for what he said; I am asking you how you went out.
A. I am trying to tell you how I came to get there.
Q. Go on and state how you got there.
Q. He says, There is nobody here; none of the neighbors and I can't take you—

By the Court: It is not proper to repeat what Mr. Baldwin said to you; just state how you got out.

Q. Not the conversation, but how did you get out?
A. He found a neighbor living within about three miles of his house and he asked him if I could go—
Q. I asked you how you got out. You have testified eight times in this case, have you not? Once before the coroner's jury, once before Snyder, and six times in this case; this is the sixth time before this court, is it not?
A. I don't know whether I testified to this or not.

By the Court: You walked down to the river, you crossed the river in a row boat, and got on the north side of the river; then what did you do?

A. We found a neighbor who was going out to within three miles of Mr. Baldwin's and I got into the wagon and rode that far with him, and then Mr. Baldwin came for me in the evening; he went home, got his carriage and came back for me.

By the Court: State it that way, without stating the conversation.

Q. What kind of a wagon did you ride out in, a spring wagon, or a lumber wagon? A. A lumber wagon.

Q. You rode out in a lumber wagon within three
938 miles of where Mr. Baldwin lived, is that correct?

A. It was some distance.

Q. What distance should you say?

A. I don't know; I could not tell exactly; it was not very far from Baldwin's.

Q. Where was Mr. Baldwin when you rode out with this neighbor in the lumber wagon?

A. He rode alongside of the wagon.

Q. You could not state what was said?

A. They were talking while we were going down there, but I don't know that I said very much or not.

Q Who was this man that you rode out with?

A. Mr. Baldwin introduced him to me, but I don't remember his name.

Q. You don't know who you rode out with on that occasion? A. No, I don't.

Q. You could not describe the man?

A. No, I could not describe him.

Q You never have been able and you have been asked that question on every trial of this case, to tell who that man was that you rode out with; you have never been able to tell, have you?

A. I never inquired; I never met the man afterwards that I know of.

Q. I say you have never been able to tell?

A. I never inquired; I never asked his name.

Q. I ask if you have ever been able to tell?

A. I never heard his name afterwards, I don't believe.

Q. Now, where did that man leave you?

A. He took me to his house.

Q. Whereabouts was his house with reference to Levi Baldwin's? A. It was between Levi Baldwin's and Lawrence.

Q. How far was it from Levi Baldwin's to Lawrence?

A. Between nine and ten miles, I think.

Q. And you say this house was between Levi Baldwin's and Lawrence? A. Yes, sir.

Q. How long did you remain at that house?
A. We got there just in the evening; I don't know just how high the sun was; Mr. Baldwin went on home.
939 Q. I asked you about how long you remained in the house? A. I can't tell.
Q. Haven't any idea how long you remained?
A. Oh, yes, I have some idea; I remained until after supper; it was dark when we went away.
Q. Do you remember of eating supper?
A. No, I didn't eat any supper.
Q. Then Mr. Baldwin came after you and took you to his residence? A. Yes, sir.
Q. In Leavenworth county, Kansas? A. Yes, sir.
Q. And when you got there you found John H. Brown there, did you not? A. Yes, sir.
Q. Had you seen John H. Brown from that time when you saw him at Levi Baldwin's had you seen him since the coroner's inquest? A. I don't think I had.
Q. The last thing you done before that time, was to give John H. Brown some money? A. Yes, sir.
Q. No, what time should you say you got to Levi Baldwin's that night, what was it in your just judgment?
A. It was in September.
Q. I know, but I am asking you what time in the night it was? A. I don't know.
Q. Haven't you any idea whether it was late or early?
A. About nine o'clock at least.
Q. You think it was about nine o'clock?
A. I don't know; it must have been nine o'clock or half past nine; he went home, did his chores and came back.
Q. When did you first learn that John H. Brown was out there?
A. I don't know; I don't know whether I learned it from Mrs. Baldwin or whether Mr. Baldwin told me as we were going home.
Q. You don't recollect? A. No, sir.
Q. Then you saw John H. Brown that night, did you?
A. Yes, sir.
Q. Now, go on and state as definitely as you can the conversation that you had with John H. Brown at Levi Baldwin's that night, being the 12th of September, 1879?
940 A. I don't know that I can give it any more than I went into the room; he spoke to me, and then he said that Mr. Buchan had sent him up there to see me in regard to this case.
Q. Had you seen Mr. Buchan, now, between the time that you had referred him to Mr. Borgolthaus, and this time?
A. No.

Q. Go on and state what else he said?

A. He said that Mr. Buchan wanted to see me at some place, and I told him Mr. Buchan could see me at Lawrence; he said, No, Mr. Buchan didn't want to see me at Lawrence.

Q. At that time, Mr. Wheat was one of your attorneys and had possession of the policies, did he not? A. Yes, sir.

Q. Mr. Wheat lived here at Leavenworth? A. Yes, sir.

Q. Your cousin, Levi Baldwin, lived in Leavenworth county four miles from Tonganoxie? A. Yes, sir.

Q. That is correct, is it not? A. Yes, sir.

Q. Go on and state what was said now between you and John H. Brown?

A. He said that Mr. Buchan had sent him up there to see me and wanted me to meet him at some place about this case; I told him that he could come to Lawrence, and he said no, he didn't—Mr. Buchan said he didn't want to meet me at Lawrence, but he would meet me at any other place. I asked him why, what he wanted to see me about, and he said he couldn't explain, but Mr. Buchan would explain it. I don't think there was much more said that evening.

Q. At that time did Mr. John H. Brown tell you what he had done? A. No, not at that time; the next morning.

Q. Did he tell you what he proposed to do?

A. Not that evening, I don't think.

Q. You don't think he told you that evening he had made a contrary statement, he had made a statement and would swear to it that that was not the body of your husband but the body of somebody else?

A. I don't think he made that statement that night.

941 Q. I understood you to testify in your direct-examination that it was claimed that this body at Lawrence was the body of a man by the name of Nichols. When did you first hear that claim advanced, if you remember?

A. I don't know.

Q. I will call your attention again to what took place there Friday night when you first saw John H. Brown. You have stated a part of it; now, if there is anything else, state it?

A. I think that was about all of the conversation we had that evening.

Q. Did John Brown remain there at Mr. Baldwin's over night? A. Yes, sir.

Q. Levi Baldwin was there at home that night?

A. Yes, sir.

Q. And his family was there? A. Yes, sir.

Q. And he stayed and ate breakfast there the next morning, John H. Brown did, he not?

A. I don't know about eating breakfast.

Q. But he stayed there until the next morning?
A. I saw him about nine o'clock the next morning.
Q. You had another talk with him there, did you?
A. Yes, sir.
Q. Now, what was that conversation?
A. I asked him what—I wanted him to explain himself, what he meant by the conversation we had the evening before; he said he couldn't explain himself but he said if I would see Mr. Buchan that he could explain it to me; then I wanted—I kept insisting on knowing and he went on to say then he had made a contrary statement from the one he had made at Lawrence and at Medicine Lodge.
Q. Did he make that statement at Levi Baldwin's house?
A. Yes, sir.
Q. In the sitting room? A. Yes, sir.
Q. Where was Levi Baldwin at that time?
A. I don't know; he was not there.
Q. He was not in the room?
A. No, sir, he was not in the room.
Q. Was Mrs. Baldwin in there? A. No.
Q. Nobody in there except you and John H. Brown?
A. No, sir.
Q. And he told you then that he had made a statement and would stick to it?
A. Well, I don't know about sticking to it, but he said he had made a contrary statement, and if I would go and
942 see Mr. Buchan, Mr Buchan would explain it to me and that Buchan would have the statement at Leavenworth, or wherever we went.
Q. Was there anything else said there? A. I don't know.
Q. What arrangement did you make then to meet Mr. Buchan at Leavenworth?
A. Well, now, in the conversation he spoke of—that there was a warrant out for him, and that Mr. Buchan was then at Lawrence while he was there, while he was at Mr. Baldwin's, that Buchan was at Lawrence to keep the officers from arresting him while he was up there; he said Mr. Buchan was at Lawrence while he was up there to Mr. Baldwin's; that there was a warrant out for him. I told him I didn't believe there was any warrant out for him; he said, Yes, there was, and he said that was the reason he had made this contrary statement.
Q. What I asked you, Mrs. Smith, was if you made an arrangement there to meet Mr. Buchan in the Planters house, and if so, when.
A. Yes.
Q. What arrangement did you make with Mr. Brown about meeting Mr. Buchan at Leavenworth?

A. Well, at last, he insisted, would not explain any more, and said if I would meet Mr. Buchan at any place besides Lawrence he would explain the whole matter to me—

Q. Will you please tell the jury what arrangement you made as to meeting Mr. Buchan and when and where you told Mr. Brown you would meet him?

A. After this conversation he insisted on so much I told him I would meet him at Leavenworth.

Q. Did you tell him where you would meet him?

A. No, just Leavenworth; I think Mr. Wheat's office, perhaps.

Q. You didn't say anything about Mr. Wheat's office, did you?

A. No—

Q. Never mind then; you made an arrangement with Mr. Brown to meet Mr. Buchan at Leavenworth on the following Monday?

A. Yes, sir.

Q. Did you tell him what train you would be over on?

A. No, I said there was just one train.

943 Q. You went to Leavenworth the next Monday morning, did you?

A. Yes.

Q. Who took you to the depot that morning?

A. My cousin, Mr. Baldwin's little son, oldest boy.

Q. Mr. Baldwin's oldest boy took you to the Tonganoxie depot on the following Monday morning to go to Leavenworth to meet Mr. Buchan?

A. Yes, sir.

Q. You say you went over there; did any one go with you?

A. No, sir.

Q. Where was Mr. Baldwin that Monday morning; where did you leave him?

A. He was there because I wanted him to take me to the train and he wouldn't do it.

Q. He was at home, was he?

A. I don't know whether he was, but he was there at home when I asked him to take me over to the train and he wouldn't take me.

Q. When you got to Leavenworth, you met Mr. Buchan at the depot?

A. He met me at [at] the depot, yes sir.

Q. You had had no further communication with anybody in regard to your going to Leavenworth after Brown left, had you?

A. I told Mr. Baldwin I was going to Leavenworth.

Q. Now, after Buchan met you, I understand you went to the Planters Hotel?

A. Yes, sir.

Q. And you had a talk with Mr. Buchan there, did you?

A. Yes, sir.

Q. Mr. Brown came there?

A. Yes, sir.

Q. You had a talk with Mr. Buchan in the presence of Mr. Brown?

Q. Now, what did Mr. Buchan say to you in the presence of Mr. Brown? and what did you say to him; just be as brief in regard to it as you can. Mr. Buchan said that he had sent for me to come to Leavenworth to explain what he and Brown had done; he went on to say that—He says, Has John Brown told you? I said, No, I can't understand it. He said, Well, that Brown had made a contrary statement from the one he had made at Medicine Lodge and Lawrence.

Q. Mr. Brown wasn't there at that time?

A. Yes.

Q. Mr. Brown heard the statement?

A. Yes, he came in and when he was making that statement he was there.

944 Q. Then he said Mr. Brown had made a contrary statement.

A. Yes.

Q. You are positive about that?

A. Yes, sir.

Q. Go on and state what else he said.

A. He said he being Mr. Brown's attorney, and that there was a warrant out for Brown, and that Brown had made a contrary statement to the one he had made at Medicine Lodge and Lawrence, and I had better surrender those policies.

Q. What did you do in regard to that?

A. I told him I wouldn't do it.

Q. What did Mr. Brown say in regard to his having made a contrary statement, when Buchan said that Brown had made a contrary statement. What reply did Brown make to that, what did he say or do?

A. I don't know just when—whether he did or not; he came in and sat down and held his head down; he didn't talk very much.

Q. Have you stated all that was said by each one that you remember of?

A. Oh, no.

Q. I want you to try to state all that was said on that occasion, now, in regard to giving up these policies, and what was said particularly in regard to Brown having made a contrary statement.

A. He told me that Brown had made a contrary statement and that there was a warrant out for him, and that he was

Brown's attorney and that he was going to get him out of this trouble.

Q. You said you would not give them up?

A. Yes, sir, I told him they had no right to them.

Q. That was before dinner, was it not? A. Yes, sir.

Q. Did you have any conversation after dinner?

A. Yes, sir.

Q. Was any part of the conversation in the afternoon in the presence of Mr. Brown?

A. I think all the conversation about this case was while Brown—I will tell you; Brown was in there part of the time and part of the time he was walking backwards and forwards out in the hall.

Q. State substantially what was said after dinner, 945 after you had had lunch.

A. I didn't have lunch.

Q. After the other's had lunch then; I understand that you were sick at that time?

A. Yes, sir.

Q. On Friday you had ridden over from Lawrence to Levi Baldwin's in a lumber wagon, and this day you were sick?

A. I was not well at any time.

Q. State what was said there after dinner.

A. I think it was about the same as during the forenoon, he insisted on my giving up the policies, said they wouldn't be any used to me, as if I ever did sue on the policies, he would put Brown on the stand, and Brown would testify that was not the body of my husband, but was the body of a man my husband had killed.

Q. Was Mr. Brown there when he made that statement?

A. Mr. Brown was right there.

Q. You are positive? A. Yes, sir.

Q. What did Mr. Brown say when Mr. Buchan made a statement of that kind?

A. Mr. Brown said he had made that statement and he would have to stick to it.

Q. Have you stated substantially all he said after dinner?

A. Not all of it.

Q. If there is anything else that occurred after dinner, state it.

Q. I can't state any more than I told him I knew that was the body of my husband and I should keep the policies.

Q. You had seen your husband there at Lawrence?

A. I had seen him at Lawrence.

Q. And you had seen Levi Baldwin and Alva Baldwin, and knew they had been down there?

A. He said he was my main witness, and if he put him on the stand, he would put him on the stand—if I ever brought suit for these policies, he would put him on the stand and he

would swear that that was not the body of my husband but was the body of a man that my husband had murdered.

Q. Afterwards, that same afternoon, you signed the releases?

A. Yes, sir.

946. Q. All the releases that have been shown here. I will ask you if those releases were witnesses by John H. Brown?

A. No sir, they were not; John H. Brown was not—I did not see him sign his name.

By Mr. Hutchings: They show on their face that they were witnessed by him.

By Mr. Barker: Do you admit it?

By Mr. Hutchings: Yes.

Q. Where were these releases signed?

A. At the Planters House.

Q. Amout what time? A. Along in the afternoon.

Q. You signed three releases there, did you not, that day?

A. I could tell by the date. They were all dated at that time.

Q. Will you look at these papers?

A. Yes, it is September 15th.

Q. There are three? A. These all have my signature.

Q. They are all witnessed by John H. Brown, are they not?

A. His name is there but I didn't see him sign it.

Q. You don't know of any other John H. Brown being there that day?

A. That is John H. Brown's handwriting, but I didn't see him signing them.

Q. At the same time, you signed this order that is already in evidence? on Clough & Wheat? A. Yes sir.

Q. What time in the day did you sign that?

A. I don't know.

Q. After you had signed that order you went down to Clough & Wheat did you? A. Yes sir.

Q. You went down with Mr. Buchan? A. Yes sir.

Q. Did John H. Brown go down there? A. No sir.

Q. You asked Mr. Wheat for the policies?

A. I asked Mr. Brown to go with us and he wouldn't go.

Q. You asked Wheat for the policies? A. Yes sir.

Q. You have stated what the conversation was, that Mr. Wheat said he thought this was a fraud, and that he had a lien on them for ten thousand dollars?

A. Not himself; the attorneys.

947 Q. The attorneys had a lien on them for ten thousand dollars? A. He said about that.

Q. About ten thousand dollars. You didn't get the policies? A. No sir, didn't get them.

Q. You went down there for the purpose of getting them. How did you come to go down there?

A. Mr. Buchan insisted on my going with him.

Q. You knew the policies were there? A. Yes sir.

Q. You had given them to Mr. Wheat in Borgothaus' office long before that, hadn't you?

A. Yes, sir, I had given them to Mr. Wheat.

Q. Over in Borgolthaus' office? A. Yes sir.

Q. You gave them to Mr. Wheat in Borgolthous' office along in the month of June, 1879?

A. I think about the 14th or 15th of May.

Q. About the 14th or 15th of May, 1879, you gave them to Mr. Wheat in Borgolthaus' office? A. Yes sir.

Q. After having signed these papers, you went back to the hotel, did you A. Yes.

Q. And you say that the train had gone when you went back?

A. I don't know just when it went; when I spoke of going home he said the train had gone.

Q. How long did you stay at the hotel after you came back the first time? A. Just a short time.

Q. Then the train had gone?

A. I presume so; he said it had.

Q. Then you went to Kansas City with Mr. Buchan, did you? A. To Wyandotte.

Q. What is Kansas City, Kansas, now? A. Yes sir.

Q. You stayed at the hotel that night? A. Yes sir.

Q. The next morning I understand you to say that you saw Mr. Buchan in his office? A. Yes sir.

Q. That is a fact? A. Yes sir, that is a fact.

Q. You met him and Mr. J. H. Brown at Mr. Buchan's office? A. Yes.

Q. Were any papers shown or read to you at Leavenworth before you signed these releases?

A. None whatever.

948 Q. You are positive in regard to that?

A. Yes sir, he told me I didn't need to read them, to just sign them.

Q. I know, but were there any other papers excepting these releases; you saw them; were there any other papers?

A. He just put them on a table and said sign them; he said I didn't need to read them.

Q. Were any other papers shown to you excepting the releases and the orders you signed?

By Mr. Hutchings: Where?

Q. At Leavenworth, at the Planters House, on the 15th of September, 1879?

A. No, I didn't see any other papers; he said he didn't have Brown's statement there; he said it was at Wyandotte and if I would go home with him he would give it to me.

Q. And you went with him, did you?

A. Yes sir.

Q. There was a paper produced there, was there?

A. Yes sir.

Q. That paper was read, was it?

A. There was two papers; Mr. Brown's statement was there; he got that.

Q. You read that, did you? A. No.

Q. You didn't read Mr. Brown's statement?

A. No, just a part of it.

Q. You just read part of Mr. Brown's statement?

A. Yes sir.

Q. You say there was another paper there?

A. Yes sir.

Q. You have described it as the Munn paper, have you not; that is the paper that you have already identified and marked as an exhibit.

A. That is the one; Mr. Buchan read that to me.

Q. That was the first time, was it, that you had ever seen or heard of this paper?

A. Yes, sir, the first and only time.

Q. That was at Mr. Buchan's office after you had signed all these releases and this order? A. Yes sir.

Q. Had you gone with him to Mr. Wheat's office to get the policies? A. Yes sir.

Q. Then he showed you this paper at Wyandotte?

A. He gave it to me.

Q. He gave it to you and you gave it back to him, did you?

A. I told him I didn't want it; I had no use for that
949 paper; that my husband was dead.

Q. You said that the other was torn up, did you?

A. Yes sir. The statement he took away from me; he said I couldn't keep it; he said I couldn't have it; he had promised to give it back to Brown and he would keep it or destroy, and Brown tore it to pieces, one of them, and put it in the stove.

Q. It was put in the stove there? A. Yes sir.

Q. And you went back to the hotel?

A. I went back to the hotel, yes sir.

Q. How long did you remain at the hotel?

A. I think I was there two days and then he took me to his home.

Q. How long did you remain there at his home?

A. I don't know just how long, a week or two, until I got to feeling better.

Q. Then you went down to Ottawa, did you?

A. Yes sir, I went to Ottawa.
Q. You had a sister living down there at Ottawa?
A. Yes sir.
Q. Where was your mother living then?
A. She lived in Leavenworth county.
Q. Where from Tonganoxis?
A. Six miles west of Tonganoxie.
Q. On a farm near Baldwin's? A. Yes sir.
Q. You had a married sister living in Ottawa?
A. Yes sir.
Q. What was her name? A. Winslow.
Q. Do you know where she is now? A. Yes sir.
Q. Where? A. Portland, Oregon.
Q. How long did you remain there?
A. Not very long; I can't tell just how long I did remain there; not very long.
Q. Several days? A. Oh, yes, several days.
Q. Well, about how long? A couple of weeks?
A. No, I don't know; I went to Wyandotte on the 16th of September, and then I came back.
Q. You say you don't remember how long you stayed down there? A. No sir.
Could not have stayed very long.
950 Q. But you stayed there until you got a letter from Mr. Buchan, did you not? A. Yes, sir.
Q. Have you shown that letter in evidence? Is it a fact that the letter which he wrote you was destroyed?
A. I presume it is.
Q. Do you know anything in regard to it?
A. No, I looked for it; I think it was destroyed.
Q. Was that burned up?
A. Yes, sir; I think it was with the other letters.
Q. That was burned up at the same time some other papers were burned up? A. Yes, sir.
Q. It seems that all of your papers were not burned, but only a portion of them?
A. What I had at mother's were burned up; there some that I didn't have there that were not burned up.
Q. When you got this letter, you came to Wyandotte again, did you? A. Yes, sir.
Q. Can you tell how long it was from the time you left Wyandotte until you came back again?
A. It was not very long.
Q. Did you sign some other papers after you came back up there? A. Yes, sir.
Q. Look at this paper now shown you?
A. That is my signature, and it seems it was on September 25th, so I must have been back at Wyandotte on the 25th.
Q. Is that the paper you signed at that time?

A. I think it is; yes, sir.

Q. Look at Exhibit 24 and state if that is a paper which you signed in Mr. Buchan's office in Wyandotte on the 25th day of September, 1879, after you had returned from your sister's in Ottawa?

A. I don't know whether I signed it at his office or whether he wrote it up to the house.

Plaintiff objects to the examination as not proper cross-examination. The Court overruled the objection, to which ruling the plaintiff at the time duly excepted.

951 A. I don't remember where I signed it; I don't have any recollection of ever going to his office after that.

Q. Is that the paper which you signed in Wyandotte on the 25th day of September, 1879, after you had visited your sister in Ottawa, Kansas; state whether it is or not?

A. I don't know; I signed it there at Wyandotte.

Q. Did you sign it on the date of it?

A. I presume so, though I don't know as to that now, because I didn't write it; I didn't write it, but it is made out at Wyandotte, September 25th; I did not read the paper and don't know anything about it.

Q. Did you sign it after you had visited your sister?

A. I don't know.

Q. I will ask you, for the purpose of refreshing your memory, if Mr. Buchan didn't write you to come back there and finish up some papers, and if you did not go up there and sign that identical paper in Wyandotte?

A. I know he did write me that there was a paper that he wanted me to sign; I don't know whether this is it or not?

Q. Didn't you go up there to sign that paper?

A. I don't know whether to sign that paper; I signed that paper.

Q. Will you look at that signature; is that your signature?

A. That is my signature.

Q. But you don't know whether you signed that paper after you came back from your sister's or not?

A. I presume I did.

Q. Don't you know that you did?

A. I can't say positively.

Q. Just to refresh your memory, I will ask you if you did not state on the trial of this case before Judge Williams in 1896 that you went down to your sisters, and that you got a letter from Mr. Buchan and that you came back up to Wyandotte and signed this very paper which was then marked 14?

A. Oh, I don't think I made it that strong, because if I did, I surely made a mistake, because I can't tell.

Q. You can't tell in regard to it?

A. I did sign a paper when I came back, and I sup-
952 pose that is the one.

Q. How long did you remain at Wyandotte then?
A. I don't know.
Q. About how long. A. Quite a while, then.
Q. Then I understand you went to your sister's in Trenton, Missouri? A. No, sir; you didn't so understand.
Q. Where did you? A. I went to my aunt in Trenton.
Q. How long did you remain there?
Q. How long did you remain there?
A. I came back about the holidays.
Q. I ask you how long did you stay in Trenton?
A. I don't know, because I don't know when I went there.
Q. Can't tell about that? A. No, I can't tell.
Q. Haven't you any idea about how long you remained?
A. No, I can't tell how long I remained.
Q. Then you came back and went to your mother's?
A. I came back to mother's; yes, sir.
Q. Where was your mother living then?
A. Living on the old home place.
Q. Out there by Levi Baldwin's? A. Yes, sir.
Q. Was he living there then? A. Yes, sir.
Q. And continued to live there, did he? A. Yes, sir.
Q. Do you know where Alva Baldwin was living then?
A. Yes, sir.
Q. Living out there in Kanwaka township, Douglas county?
A. Yes, sir.
Q. Had you been at his house?

Question objected to and withdrawn.

Q. Do you remember when this suit was brought originally? A. When do you mean; the first trial?
Q. About the time the suit—about the time of the first trial? A. Yes, sir; it was tried the first time in 1882.
Q. I will ask you if shortly before the trial of this case you were at or near Valley Falls in Jefferson county? A. No.

Q. I will ask you if you are acquainted with one W.
953 W. Nichols?

A. I don't know just when I went to Valley Falls.
Q. I ask you if you are acquainted with one W. W. Nichols?
A. Not personally acquainted with him; I met him.
Q. When did you meet him?
A. One time when I went to Valley Falls.
Q. When was it with reference to the first trial of this case?
A. It was before the trial of this case.
Q. It was before the first trial of this case? A. Yes, sir.
Q. In the summer before? A. I don't know.
Q. You remember the circumstance of your going to his house, do you? A. Yes, sir.
Q. Were you there more than once? A. No, sir.

Q. Then you went to his house near Valley Falls in Jefferson county before this case was tried? A. Yes, sir.

Q. And you learned from him, did you not, that he was well acquainted with your husband?

The plaintiff objects to the question as not proper cross-examination and hearsay. The Court sustained the objection.

By Mr. Barker: I will withdraw the question entirely.

Q. You went there to see Mr. Nichols, did you not?

A. Yes, sir.

Q. And you had a conversation with Mr. Nichols in regard to your husband's appearance, did you not?

A. Well, I asked him if he could give a description of my husband.

Q. Now, in that description, didn't he state to you that your husband had a scar upon one hand or the other, caused by the explosion of a cartridge; if he didn't tell you that?

The plaintiff objects to the question as not proper cross-examination and hearsay.

By the Court:

It would be cross-examination, but it is hearsay evidence. By that, I do not mean to exclude any declarations that this lady may have made.

By Mr Barker: Does the Court exclude that question?

By the Court: Yes.

954 To which ruling of the Court the defendants and each of them at the time duly excepted.

A. I will ask you if you did not request him, if he was called as a witness, not to tell about that scar upon his hand?

A. I did not.

Q. You did not make and such request of him?

A. No, I did not.

Q. You had him subpoenaed as a witness, did you?

Question objected to, and not pressed for answer.

A. I will ask you if, at the first trial of this case, on the streets of this city of Leavenworth, during the first trial of this case, if you did not go to Mr. W. W. Nichols and request or ask him not to tell or testify in regard to the scar which your husband had upon his hand? A. I did not.

Q. Did you have conversation of that kind?

A. No, not at that time but in his house he asked if I—

Q. You say you had no conversation of that kind while here in the city? A. No, I did not.

Q. Now, at the first trial of this case, Mr. Hillmon's sister Mrs. Nixon, was here, was she not?

The plaintiff objects to the question as not proper cross-examination. The court overruled the objection, to which ruling the plaintiff at the time excepted.

A. I do not think her name was Nixon; Nichols I think the name was.

Q. Well, you know Mrs. George Nichols, do you, Mrs. George Nichols?

A. Well, I never met her; I met her at the different trials but I never talked to her but once.

Q. Will you answer my questions, please. Do you know Mrs. George Nichols? A. Yes, I know her.

Q. Do you know what relation she is to Mr. Hillmon?

The plaintiff objects to the question as not proper cross examination. The Court overruled the objection to which ruling of the Court the plaintiff at the time duly excepted.

A. Mrs. George Nichols was Mr. Hillmon's sister.

Q. Do you know Mrs. Nixon?

A. No, I saw her at the same time but I have no ac-
955 quaintance with either one of them.

Q. Mrs. Smith, you spoke about burying this body; who went out to the cemetery with you at that time?

A. Mother, Mrs. Judson, Mr. Arthur Judson, Levi Baldwin and Mr. Brown.

Q. John H. Brown? A. Yes sir.

Q. Do you remember who was the sexton at that time of Oak Hill cemetery?

A. No I don't remember; that was the first time I had been there.

Q. Do you remember the location of the lot or the number of the lot he was buried in? A. I have the number.

Q. Was it a single grave or a lot? A. Just a single grave.

Q. Can you tell in what part of the cemetery it was?

A. It was the eastern part.

Q. You say you have that number?

A. I have it, yes sir.

Q. The number of the grave?

A. Yes sir, I did have it somewhere; I haven't it with me.

Q. Will you find and produce it some time before we close finally; you need not delay court today?

A. I don't know as I can; I can get it by going to Lawrence; I have it somewheres but I don't know just where it is.

Q. Will you produce it during the trial, if you can?

A. Not unless I can go to Lawrence and get it.

Q. Where are you living now, Mrs. Smith?

A. About three miles out in the country on a farm.

Q. Here in Leavenworth county? A. Yes sir.

Q. How long have you been living here in Leavenworth

county on that farm? A. Over a year.

Q. You formerly lived here in the city, did you not?

A. Yes sir.

By Mr. Barker: I want to offer in evidence and read, the last exhibit identified by the witness.

The plaintiff objects to the admission of the same as incompetent, irrelevant and immaterial. The court over-
956 ruled the objection to which ruling of the Court the plaintiff at the time duly excepted and still excepts.

Said paper was thereupon read in evidence to the jury and is in words and figures as follows, to wit:

This paper is Ex 24, and is as follows, to wit:

"Exhibit No. 24, Oct. 99. W. C. H. Judge."

Wyandotte, Ks. Sept. 25th, 1879.

In consideration of one dollar to me in hand paid the receipt whereof is hereby acknowledged, I hereby release, surrender and acknowledge satisfaction in full of all claims against the New York Life Insurance Company of New York by reason of Policy No. 134,418, dated on the 30th day of November, 1878, and policy No. 134,548, dated on the 16th day of December, 1878, and for five thousand dollars each, issued on the life of my husband John W. Hillmon, and I hereby enter satisfaction in full and order the dismissal and discontinuance of any and all suits or proceedings commenced or that may hereafter be begun by any person or persons in my behalf for the collection of the same.

SALLIE E. HILLMON.

Attest:

W. J. Buchan.

957 The Connecticut Mutual Life Insurance Company, defendant, adopts the cross examination as its own.

And in answer to re-direct interrogatories propounded to [him] by Mr. Hutchings, Counsel for the plaintiff, the witness testified as follows, to wit:

Q. They have just read a paper signed by you. I will get you to state whether you ever received anything for that paper? A. I did not.

Q. You may state whether you were ever promised anything for it? A. I was not.

Q. You may state whether you ever received anything for any paper that you signed in the presence of Mr. Buchan?

The defendants object to the question as not a re-examination. The Court overruled the objection, to which action and

ruling of the Court the defendants and each of them at the time duly excepted.

A. I never received anything or promise of anything from any of them for the surrender of those policies, those releases; I never received anything or the promise of anything.

Q. Well, did you receive anything or the promise of anything, for any paper that you signed? A. No, never.

Q. Now, there is a couple of questions which I thought I asked you on direct examination but my associates say not. I will ask you them now. I will get you to state whether Mr. Hillmon had any scar on his hand or head? I was of the impression that I had asked that question.

A. No sir, he had no scars on his hands or on his head.

Q. I will get you to state whether or not he had a mole on his back, and if so, where was it located?

The defendants object to the question as incompetent, irrelevant and immaterial. The Court overruled the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

958 A. He had a mole on his back.

Q. On what part of his back as near as you can tell?

A. Just below the shoulder blade near the spine.

Q. You may state whether you were personally acquainted with any of the relatives of your husband, John W. Hillmon?

A. I am acquainted with his youngest sister some.

Q. I am speaking about whether you were at the time of your husband's death? A. No, I had never met any of them.

Q. Had you ever seen any of them?

A. No, I had not seen any of them.

Q. On your cross-examination, you said that you paid John Brown some money, I believe, on the occasion that you saw him last before you saw him at Baldwin's? A. Yes, sir.

Q. You may state what the money was for; what the payment was for?

[Q.] It was some back pay that my husband owed him after he employed him to go with him south, so I paid him off.

Q. It was wages that your husband owed Brown?

A. Yes, sir.

And in answer to recross interrogatories propounded to him by George J. Barker, counsel for the defendants, the witness testified as follows, to wit:

Q. I believe you have been present at the trial of all these cases? A. I have.

Q. This is the sixth trial of the case? A. Yes, sir.

Q. You were present in this court when what is known as the Fort Madison depositions were read the first time the case was tried, were you not?

A. I don't know whether I was there at that time.

Q. You were present at the time that those depositions were read on the first, second, third, fourth and fifth trials of this case, were you not?

A. I don't know whether I ever heard all of those depositions read or not.

Q. You have been present at all the trials of this case, have you not?

A. Yes, sir, have been present but not all the time.

959 Q. Nearly all the time; when the plaintiff was putting in her case, when you were putting in your case, you have been present all the time have you not?

A. Yes, or nearly so.

Q. You have heard one C. R. Walters testify in this case four or five times, have you not, the brother of Frederick Adolph Walters?

The plaintiff objects to the question as not proper cross-examination. The court overruled the objection, the plaintiff then and there duly excepting.

A. In part, yes, sir.

Q. You heard him testify that his brother, Frederick Adolph Walters had a mole on his back, did you not?

The plaintiff objects to the question as not proper cross-examination and hearsay. Objection overruled, the plaintiff duly excepts.

A. Yes, sir.

Q. I will ask you to state, Mrs. Smith, if you have ever in the trial of this case before testified that your husband had a mole on his back? A. Yes, sir.

Q. State when and where; on what trial?

A. On several trials.

Q. You say on several trials of this case, that you have testified that your husband had a mole on his back?

A. Every time that I was asked.

Q. Were you ever asked that question before?

A. Yes, sir.

Q. Will you state on what trial you first testified to that?

The plaintiff objects to the question as not proper cross-examination and not impeaching testimony. Objection overruled, the plaintiff duly excepting.

A. I don't remember but I have testified to it.

Q. Did you testify to it before Judge Foster?

A. I don't know whether it was asked me at that time.

Q. Did you testify before Judge Foster on the trial of this case in 1882 that your husband had a mole upon his back?

A. I don't remember; if I had been asked the question I should.

960 Q. You don't remember whether you did or not?

A. No, I don't remember whether the question was asked.

Q. Did you testify that your husband had a mole upon his back before Judge Brewer?

The plaintiff objects to the question as not proper cross-examination; objection overruled; plaintiff duly excepts.

A. I did if I had been asked the question.

Q. Will you answer whether you did or not, or don't recollect, whatever the fact may be?

A. My impression is that I did. If I had been asked the question I would have answered it.

Q. I wish you would answer my questions. Did you or did you not testify before Judge Brewer that your husband had a mole upon his back?

A. If I had been asked the question I should have answered it; I can't tell now.

[—] On the trial before Judge Shiras did you testify that your husband had a mole upon his back? A. I think I did.

Q. On the trial before Judge Thomas did you testify that your husband had a mole upon his back? A. I think I did.

Q. Now, I will ask you if it is not a fact that the first time that a question of that kind was raised was when this man Covey testified upon the trial before Judge Thomas and that they did not ask you anything about that on the direct examination, about this question of a mole; that Covey went upon the witness stand and testified, and that, after he had testified in regard to it, if you were not called back, and asked for the first time in regard to your husband having a mole upon his back, in court?

The plaintiff objects to the question as calling for secondary evidence. Objection overruled, the plaintiff duly excepts.

A. I think that I answered at every trial that I was asked.

Q. I am only asking you now in regard to this particular trial.

A. No, I can't remember anything about it, but I presume I answered yes, I think I answered every time I was asked.

Q. At the trial before Judge Williams, Mr. Covey

961 did not testify did he? A. I don't remember.

Q. Do you not know he was in jail at Lawrence at that time and that he did not testify?

The plaintiff objects to the question as not proper cross-examination; objection overruled, the plaintiff duly excepts.

A. I never heard of anybody being in jail until here the other day.

Q. Leave out that then; you know that he did not testify at this trial before Judge Williams, nor was his testimony read in evidence? A. I don't know as to that.

Q. You don't remember in regard to that?

A. No, I don't remember.

Q. Now, at the last trial of this case before Judge Williams in 1896, did you testify anything in regard to your husband's having a mole upon his back? A. Yes, sir.

Q. You did? A. I am sure I did.

Q. Before Judge Williams, what do you say in regard to that, before Judge Williams in 1896; you are positive? Are you clear that you testified that your husband had a mole upon his back? A. Yes, at every trial.

The plaintiff objects to the question as incompetent, irrelevant and immaterial and hearsay. Objection overruled, the plaintiff duly excepts.

A. Now, you state that he had a mole? A. Yes, sir.

Q. Have you stated on what portion of his back or body it was? A. Yes, sir.

Q. Whereabouts was it? A. It was right—

Q. Describe it if you can; I want to get it in the record. Locate it as well as you can.

A. It was just below the shoulder blade just close to the spine.

Q. It was below the shoulder blade close to the spine, was it?

Q. Now, describe it as accurately as you can?

A. It was a little soft mole.

962 Q. Quite a large mole? A. No, sir.

Q. Quite a long [—] mile? A. Not very.

Q. Not very large nor very long, a soft mole?

A. Not as big as half of a pea; a small pea.

Q. In regard to the color; what color was it?

A. Well, I don't know, rather dark, I should think.

Q. You should think it was rather dark?

A. I rather think it was dark.

Q. You think you remember that it was dark, do you?

A. Yes.

Q. Did he have more than one?

A. That was all I ever saw on his back.

Q. That is all you ever saw? A. Yes, sir.

And in answer to further direct-interrogatories propounded to her by Mr. Hutchings, Counsel for the plaintiff, the witness testified as follows, to wit:

Q. I will get you to state whether at each one of these trials you have been examined and cross-examined by counsel in the same matter that you were examined this time?

A. I don't understand, Mr. Hutchings; you mean by the same parties?

Q. By the Court: You mean with reference to rulings?

By Mr. Hutchings: I mean that she gave her testimony by being interrogated by counsel? A. Yes, sir.

Q. You may state whether at each trial, of this case you have been interrogated by counsel for yourself and for the other side? A. Yes, sir.

Q. Now, I will get you to state whether upon every trial of this case, you have answered every question that was asked that the judge permitted you to answer? A. Yes, sir.

Witness excused.

963 Here, the defendants moved the Court to take from the jury Exhibit 1,5 known as the Munn paper, for the reason that the plaintiff fails to connect the exhibit in any way, or to show that she ever saw or knew of the existence of the paper before the releases were signed, and therefore could not have influenced her in her action and is therefore incompetent, and irrelevant in the case. The Court overruled the motion, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

By the Court: I think there is one matter that should be withdrawn from the jury. I allowed J. D. Patterson, who will be recalled as the dentist who made a plaster-cast of the mouth of the cadaver, to testify that in his opinion the body which was at Lawrence was the body of the taller of two men whose picture he saw in the possession of Dr. Morris. It was stated at that time that the identity of that picture would be shown; that the taller of the two figures in the picture was an accurate photograph of Hillmon. It has been shown that there was a picture containing two figures, one taller than the other, and that in the picture, the taller man was Hillmon and the other one was Brown, but it is not shown sufficiently to my mind that that was the picture that Mr. J. D. Patterson saw, and for that reason, gentlemen of the jury, I direct that you do not consider the testimony of Mr. Patterson wherein he stated that the body that he saw at Lawrence was the body of the taller of two men whose picture he saw. The remainder of his testimony that was admitted, stands, of course.

To which ruling of the Court, the plaintiff duly excepted.

Here, the plaintiff having concluded her evidence in chief, rested her cause.

And thereupon each defendant for itself demurred to the evidence adduced and offered by the plaintiff for the
964 reason that the same is not sufficient, in law, to entitle the plaintiff to a verdict against it.

And thereupon, the plaintiff asked leave to offer proof on the subject of the citizenship of the parties, which leave was by the Court granted.

And thereupon, Mrs. Sallie E. Smith, was again called to the stand, and in answer to direct-interrogatories, propounded to her by Mr. Hutchings, her Counsel, testified as follows, to wit:

Q. When did you say you came to the State of Kansas?
A. In the fall of 1872 or 1873; I think it was 1873.
Q. You may state whether you have been a resident of the state ever since?
A. I have never been out of the state excepting in Missouri and Ohio once since I came here.
Q. Never been out of the state but once?
A. I have lived in Lawrence and Leavenworth.
Q. At the time this suit was brought, where did you reside? A. Lawrence, Kansas.
Q. How long had you been residing there at that time?
A. Since 1876; I had lived in the city of Lawrence since 1875.
Q. State whether you have ever resided in any other state since you came to Kansas in 1872? A. No, sir, I have not.
Q. At the time you brought this suit you were a single woman; you were not married?
A. Yes, sir; I was not married.

The, defendants object to the question as incompetent, irrelevant and immaterial.

By the Court: The jury will not consider the answer to that question as evidence upon the question of the death of John W. Hillmon.

By the Court: You had not married Mr. Smith at that time? A. No, sir. I had not.
965 By the Court: Where was your home, madam, at the time of the institution of this suit, your permanent home? A. Lawrence, Kansas.

Witness excused.

966 Ike S. Lewis, a witness produced by the plaintiff, being first duly sworn, testified as follows, to wit.

Direct-Examination

Q. What position do you hold at present?

A. Chief clerk in the State Insurance Department.

Q. Of what state? A. The state of Kansas.

Q. Have you some papers from that office? A. Yes, sir.

Q. Are they those in your hand? A. Yes, sir.

Q. Let me ask you if those are papers that are on file in your office? A. Yes, sir.

Q. I will ask you where you found those papers?

A. I found these papers in the vault in the Insurance Department, in the proper vault box.

Q. Let me ask you where the superintendent is at present?

A. At present he is in Michigan.

Q. Now, his assistant, deputy or whatever you call him, his assistant at this time at Topeka, Kansas, was he there last night?

A. Yes, sir, he was called away at four o'clock yesterday afternoon.

Q. At what time?

A. At about four o'clock he left Topeka.

Q. When did the superintendent leave?

A. The superintendent left about three weeks ago.

Q. And has not been back since? A. Yes, sir.

Q. I will ask you if as chief clerk you are in charge of the office?

A. Yes, sir, during the absence of Mr. Church and his assisant.

Q. You are in charge? A. Yes, sir.

967 Q. I will ask you where you got these papers that you have just handed me?

A. They were gotten out of a vault box with other papers there.

The papers are marked respectively, Exhibits 25, 26, 27 and 28.

The plaintiff offers said papers, and each of them, in evidence.

The defendants, and each of them, object to said papers, and to each of them, because they and each of them are incompetent, irrelevant and immaterial, because they do not in any way tend to prove the incorporation or citizenship of the defendant companies or either of them.

The Court overruled the objections, to which action and ruling of the Court the defendants and each of them then and there duly excepted.

Said papers were thereupon read in evidence, and are respectively in words and figures as follows, to-wit:

Sec. 2. In addition to the general powers and privileges of a corporation, as the same are declared by the third title of the eighteenth chapter of the first part of the Revised Statutes, the corporation hereby created shall have the power to insure their respective lives, and to make all and every insurance appertaining to or connected with life risks and to grant and purchase annuities;

The real estate which it shall be lawful for the said corporation to purchase, hold and convey, shall be:

1st. Such as shall be requisite for its immediate accommodation in the convenient transaction of its business, or

4th. Such as shall have been purchased at sales upon judgments, decrees or mortgages obtained or made for such debts.

The said corporation shall not purchase, hold or convey real estate in any other case or for any other purpose, and all such real estate as shall not be necessary for the accommodation of said company in the convenient transaction of its business shall be sold and disposed of within six years after the said company shall have acquired title to the same, and it shall not be lawful for the said company to hold such real estate for a longer period than the above mentioned.

978 3. All persons who shall hereafter insure with the said corporation, and also their heirs, executors, administrators and assigns, continuing to be insured in the said corporation as hereinafter provided, shall thereby become members thereof, during the period they shall remain insured by said corporation and no longer.

7. Every person who shall become a member of this corporation by effecting insurance therein, shall the first time he effects insurance, and before he receives his policy, pay the rates that shall be fixed upon and determined by the trustees, and no premium so paid shall ever be withdrawn from said company, except as hereinafter provided, but shall be liable to all the losses and expenses incurred by this company during the continuance of its charter.

8. The trustees may determine the rates of insurance and the sum to be insured.

979 9. It shall be lawful for the said corporation to invest the said premium in the securities designated in the following sections, and to sell, transfer and change the same and reinvest the funds of said corporation when the trustees shall deem expedient.

10. The whole of the premiums received for insurance by said corporation, except as provided for in the following sections shall be invested in bonds and mortgages on unincumbered real estate within the State of New York, the real property to secure such investment of capital shall, in every case, be worth twice the amount loaned thereon.

The plaintiff offers the six papers in evidence.

The defendants and each of them object to the admission of said papers and each of them in evidence for the reason that they and each of them are wholly incompetent, irrelevant

and immaterial, and because they do not tend to prove the citizenship of either of the defendants. Objection sustained, the plaintiff excepts.

By Mr. Wheat: I offer in evidence the return of the marshal of the service of summons in each of these cases.

By the Court: They are part of the record of this case, just as much as if they were received in evidence. I don't understand it is necessary to offer any part of the original process or pleadings in evidence.

Cross-Examination by Mr. Barker.

A. Since March 14th.
Q. Since July 1st?
A. No, excuse me, since July 1st.
Witness excused.

Here, the plaintiff, having concluded her evidence rested her causes.

And thereupon the court overruled the demurrer to the evidence interposed by each defendant to which and ruling of the Court the defendant and each of them then and there duly excepted.

985 And thereupon, the defendants and each of them, to maintain the issues upon their part, produced and offered evidence as follows, to-wit:

Theodore Wiseman, a witness produced by the defendants, being first duly sworn to testify the truth the whole truth and nothing but the truth, in answer to direct interrogatories propounded to him by E. F. Ware, Esq., counsel for the defendants, testified as follows, to-wit:

Q. Please state your name, age and residence.

A. Theodore Wiseman. I am 68 years old; I reside at Omaha, Nebraska.

Q. Major, where was your residence in October, 1878?

A. In Louisiana, Pike county, Missouri.

Q. Did you serve in the army, Major? A. I did.

Q. What was your final rank?

A. Brevet major, and assistant adjutant general U. S. Volunteers.

Q. By whom commissioned?

A. I have a commission from President Lincoln, and one from President Andrew Johnson.

Q. I will ask you, Major, if on October 31st, 1878, you were in a stable in Lawrence, Kansas, owned by one John Eldridge?

A. I was not.

Q. Did you upon October 31st, 1878, have any transaction in the presence of John Eldridge?

A. I did not.

Q. Did you upon October 31st, 1878, write any policy for John Hillmon in the New York Life Insurance Company?

The plaintiff objects to the question as leading; objection overruled, the plaintiff excepts.

Q. I will ask you whether upon October 31st, 1878, you measured John Hillmon with a square?

The plaintiff objects to the question as leading.

By the Court: The question should be if he ever measured Hillmon and when.

Q. I want to fix the date October 31st, which is Mr.
986 Eldridge's testimony.

By the Court: You are engaged in contradicting some other witness.

By Mr. Ware: Yes, sir.

By the Court: He may answer.

A. I did not; I didn't know him.

Q. Did you receive any applications from any person for insurance in Lawrence, upon October 31st, 1878?

The plaintiff objects to the question as leading; objection overruled; the plaintiff excepts.

A. I did not; I had never been there.

Q. Did you receive any applications for insurance from any one in Lawrence in October, 1878?

A. I did not.

Q. Or in November, 1878? I did not.

Q. Where were you on October 31st, 1878?

A. I left home on the 21st of October, 1887, and I was at Moberly about that time, on that day at Moberly, soliciting.

By the Court: You said 1887.

A. 1878, I mean; not 1887.

Q. I will ask you when you first came to Lawrence, Kansas?

A. On the third day of December, 1878, my first visit to Lawrence.

Q. You first came to Lawrence? A. Yes, sir.

Q. I will ask you whether or not you brought with you any advertisements or insurance literature of any kind?

The plaintiff objects to the question as leading; the court overruled the objection, to which ruling the plaintiff at the time duly excepted.

A. I did.

Q. In a general way you may state the nature of it.

The plaintiff objects to the question as incompetent, irrelevant and immaterial and not the best evidence. Objection overruled, the plaintiff excepts.

A. It was a circular about that long and about that long (illustrating) setting forth that I was special agent of the Mutual Life Insurance Company of New York and was at Lawrence in the interest of that company, and would be
987 at the service of those who might want insurance.

Q. Did you bring those to Lawrence with you or did you have them printed in Lawrence?

A. I brought them with me.

Q. What did you do with them when you got to Lawrence?

A. I gave them to a young man by the name of Winchell or Winchett and the young man told me—Objection.

Q. If you know what was done with those circulars and advertisements, you may state?

A. They were distributed in the business portion of the city generally.

Q. When did you first see John Hillmon?

A. On the morning of the 5th day of December, 1878.

Q. When did you first see Levi Baldwin?

A. At the same time.

Q. Do you remember when you first saw a man named Griffith? A. I do; Griffith the banker, do you mean?

Q. Yes. A. Yes.

Q. What took place on the occasion that you first saw Baldwin and Hillmon?

A. I took an application in the Mutual Life Insurance Company of New York for John W. Hillmon for insurance, ten thousand dollars.

Q. State the circumstances occurring at the time, state where you were and what was said and done?

A. It was in the morning about ten o'clock on the 5th day of December, 1878; I was in the back room of the bank, the Merchants Bank of Lawrence, situated on the south east corner of Warren and Massachusetts Streets; I was sitting at a table in the back room when Mr. Griffith the cashier, one of the officials, came back with two men; the men walked into this door like there was a railing up, and Griffith walked from behind the counter into this back room and these two men walked in at the side door and he there introduced me to these two men, introduced me to one as Mr. Baldwin, and the other as Mr. Hillmon. I shook hands with them;
988 Mr. Baldwin had one of these circulars I had distributed in his hand; he wanted to know whether I was the agent that represented that company: I told him I was. He said they had come to talk life insurance with me, and I told him I was very glad to hear it. We talked on; he asked me some questions, what he wanted and so on, what kind of a policy, and I explained—

The plaintiff objects to the statement because it is indefinite as to the person talking.

A. I was introduced to him by Mr. Griffith, to Mr. Baldwin.

Q. State as near as you can what each person said and what the matter under discussion was?

The plaintiff objects to the last part of the question as calling for the conclusion of the witness. Objection overruled, the plaintiff duly excepting.

A. The subject of the discussion was, we talked about life insurance.

A. What was said between the parties present in regard to the various kinds of insurance, if anything, and as regards rates? A. They inquired of me.

The plaintiff objects to the use of the word "they" as indefinite.

By the Court: If you are able to distinguish between the remarks made by each party, you may do so; if you are not, then what was said by one in the presence of the other would in effect be said by both.

A. Mr. Baldwin asked me about the different kinds of policies the Mutual Life of New York insured, and the rates; I explained to him the different forms, premiums or rates, and I asked whether he wanted—finally, after conversing probably five or ten minutes about this matter, I asked him if he wanted to get his life insured and he said no, but Mr. Hillmon did. I then invited Mr. Hillmon to sit down in front of me and I sat down at a table and got a blank that I had in

my pocket of the Mutual Life, and Hillmon and I got to talking about the kind of a policy, and he wanted to
989 take one on the ordinary life plan, premium payable semi-annually; that is my best recollection, semi-annually, I took out this application and filled out the part required to be signed by the party desiring his life to be insured; filled that out in my handwriting, Mr. Hillmon signed it, and I signed it as a witness.

Q. Who propounded questions to Mr. Hillmon, if any one, when this blank application was signed up? A. I did.

Q. Did you ask him in regard to his height? A. I did.

Q. What response did he make?

A. He gave me his height.

Q. What did he say?

A. I think he said five feet, eleven inches and probably a fraction; a quarter, I think.

Q. I will ask you if you questioned him in regard to his age? A. I did.

Q. Did you write his answers in the application?

A. I did.

Q. Could you tell that application if it should be shown to you?

A. I believe I would, yes, sir, I would know my handwriting.

Q. I now hand you a paper marked Exhibit 9, and call your attention to that portion marked Application for Insurance, and ask you to examine the exhibit, that portion of it, and say in whose handwriting this exhibit is?

A. That is my own handwriting.

Q. At the bottom of it here are whose signatures?

A. John W. Hillmon and my own, Theodore Wiseman.

Q. I will ask you if the application was signed in that room at that time or later?

A. It was at that time and in that room.

Q. Did you sign it then? A. I signed it, yes, sir.

Q. Do you remember how long you were in making out that application from the time that the parties came in until it was signed up?

A. From a half an hour to an hour probably, talking and writing it out.

Q. I will ask you who were present during all that time?

A. Mr. Levi Baldwin.

Q. Was Mr. Griffith present?

A. I think not to my recollection. He was in the
990 room adjoining this.

Q. Were there two doors into your office?

A. There was one, the gangway that ran in front of the counter, and then there was one behind the counter that ran into the back room.

Q. Did Levi Baldwin remain with you in that room and with Mr. Hillmon until the application was completed and signed up? A. Yes.

Q. When the application was completed what then did you do with it?

A. Mr. Hillmon and I went up to Dr. Miller's office on Massachusetts Street over Yates' drug store, I think.

Q. How far was that from your office?

A. Well, it was a little over half a block on Massachusetts street.

Q. What took place in the doctor's office, if you remember?

A. Dr. Miller was in there; I told him that I wanted him to examine Mr. Hillmon for insurance; he had made application—

The plaintiff objects to any conversation between Dr. Miller and the witness. Objection sustained, the defendants duly except.

By the Court: Were Hillmon and Levi Baldwin there?

A. Hillmon was Levi Baldwin was not; he left us.

Q. Was Hillmon present at the interview between you and Dr. Miller?

A. He was the whole time; we went there together.

Thereupon, the Court overruled the objection, to which ruling of the plaintiff duly excepted.

Q. What took place in the doctor's office, if you remember?

A. Dr. Miller examined Mr. Hillmon for insurance as required by the application and the rules of the company; examined him.

Q. I will ask you whether or not Mr. Hillmon was measured up there in the office at that time?

A. Not at that time that I remember.

Q. How long were you and Mr. Hillmon in Dr. Miller's office? A. About half an hour or such a matter.

Q. Where did you and Mr. Hillmon go, if you remember?

A. We went down stairs, and it being near dinner time, near noon, I went to my hotel; I don't know where he went.

991 Q. What was done with the application?

A. I sent it to the general agent of the Mutual Life Insurance Company of New York at St. Louis, Byron Sherman, his name was, that I was working for.

Q. How long up to that time had you been engaged in the life insurance business?

A. About ten years to the best of my recollection.

Q. Was there anything unusual in this transaction in your office in the bank?

The plaintiff objects to the question as incompetent, irrelevant and immaterial. The court sustained the objection, to which ruling of the Court the defendants and each of them at the time duly excepted and still excepts.

Q. I will ask you, Major, whether you had sent any person previous to December 5th, to Mr. Hillmon about life insurance?

[A.] The plaintiff objects to the question as leading.

By the Court: That is not leading; I do not know how you could ask it in any other way. To which ruling of the court the plaintiff at the time duly excepted.

A. I did not.

Q. Did you know that there was such a man living in Lawrence as John W. Hillmon on the morning of December 5th, before he came in there? A. I did not.

Q. I will ask you if you subsequently saw or became further acquainted with Mr. Hillmon? A. Afterwards?

Q. Yes. A. Yes sir.

Q. After the application?

A. Yes sir, I became acquainted with him more.

Q. Can you state how well you became acquainted with him?

A. Well, I met him a number of times in the streets of Lawrence, and once upon the cars coming from Wichita; that was in 1879. I met him in December, 1878, a number of times on the street; I don't know how often I met him.

992 Q. Met him on the streets?

A. And would speak to him.

Q. State whether or not you ever had conversations with him? A. Why, I did.

Q. Tell stories to each other?

The plaintiff objects to the question as leading and immaterial.

By the Court: It would serve to show the extent of the acquaintance; if they got to telling stories to each other it indicates a certain amount of previous acquaintance; objection overruled. The plaintiff then and there duly excepted.

A. Yes, we were both old soldiers and used to tell pretty tough ones.

Q. Please state if you can tell, from your observation, what was the condition of the front teeth of John W. Hillmon?

A. They were a good pair of teeth except one that was either broken off close to the gum or was gone entirely; my recollection is it was one of the front three teeth on the left hand side on the upper jaw.

Q. I notice you made a gesture with your right hand; explain that.

A. If I was facing him, of course, my right would be where his left was, you know, facing him.

Q. On which side of the jaw was that tooth missing?

A. My recollection is that it was on the left upper.

Q. State to what extent Mr. Hillmon in conversation and laughing showed his upper teeth?

A. Well, he was what I call a high-mouth man, exposing his gums and teeth when he was laughing or chatting. There is two kinds of people, high-mouthed, and low-mouthed; some people don't expose their teeth, but he would; when he would laugh, his upper lip would go up and expose his teeth and a portion of the gum.

Q. Would expose his upper teeth? A. Yes sir.

Q. Can you tell from what you saw or noticed whether that tooth had been broken off, or whether it had come out entirely, root and all?

A. Not that I know of; it was either broken off close to the gum or gone entirely.

993 Q. Please state whether or not, at any time, after taking the application, you did in fact see Mr. Hillmon measured? A. I did, I measured him myself.

Q. Please state where that took place?

A. At Dr. Miller's office.

Q. The same Dr. Miller to whom you formerly referred?

A. Yes sir.

Q. And at the same office? A. Yes sir.

Q. How much did John W. Hillmon at that time measure?

A. My recollection is five feet, nine inches in his footwear.

Q. Can you tell about what time that happened?

A. I can't tell the day, no.

Q. State whether you had any conversation with Mr. Hillmon after that time? A. I did.

Q. When and where did it take place, and how many conversations did you have?

A. I could not say how many conversations I had with him from that time on; I remember of one or two conversations I had with him.

Q. Well, state about how frequently you saw Mr. Hillmon and where he lived and where you lived?

A. I saw him probably four or five times in December, 1878, and then I saw him probably ten or twelve times or more in 1879, in the winter of 1879.

Q. What month in 1879?

A. Well, in January and February.

Q. I will ask you whether at any time you met Alva Baldwin in Lawrence? A. I did.

Q. Did you ever meet John H. Brown in Lawrence?
A. I did.
Q. When did you first meet John H. Brown?
A. I am not positive as to when I first met him; I am quite positive that I met him there in the first week in April; I am positive of that, and it runs in my mind that I saw him before that, but I would not be very positive about it, but I think I did.
Q. Had you met Alva Baldwin before the first week in April? A. Oh, yes.

994 Q. You spoke of having met Mr. Hillmon in January or February, 1879; where did you meet him; at what places?
A. I met him sometimes on the streets and sometimes at the store of George W. Yates—drug store—where I used to spend my idle time, and probably at other places; can't remember where.
Q. I will ask you if you ever had a talk with him in January or February, 1879, in regard to policies of life insurnace?
A. I did.
Q. You may state what was said.
A. The one that I remember specially was on the 26th day of February; I met him on the corner of Winthrop and Masschusetts streets, where the postoffice was, Bowersock's opera house, and he told me that he was going away, going to the west on business, and we had a talk about life insurance, or proofs of loss, what was necessary for the widow to do to prove the loss.
Q. What did he say to you and what did you say to him?
A. He asked me a number of questions in regard to it, and very pointed ones, and I explained to him—

The plaintiff moves to strike out the words, "and very pointed ones," as a conclusion of the witness.

By the court: Yes; you tell what the questions were and let the jury say whether they are pointed or not.

A. He asked me what his, what evidence his widow would have to furnish in the event he died, or was killed; he said he was going out west where there was a pretty rough country, where a man was liable to be killed at any time. I told him what was necessary, the evidence that was necessary for the company to have to pay the loss.
Q. What did you say to him was the necessary evidence, if you remember.?
A. I told him that it would require a certificate of the physician who attended him before death or at death, or if he was killed, a coroner's inquest, the verdict of a coroner's jury. Well, he said, he was going out to a country where ther

was no doctors and no officials, a wild country, and I remarked there wasn't much danger of his getting killed out there, as he was able to take care of himself as he was a western man;

I told him he needn't worry about it. I explained to
995 him what was necessary, what the company would require in the way of proof.

Q. I will ask you whether at any time any conversation took place between you in which Mr. Hillmon stated the reason why he had so much insurance? A. Yes sir.

Q. State where the conversation took place and what was said.

A. It took place in the city of Lawrence, to the best of my recollection in the office of the hotel, the Eldridge House, or Luddington House.

Q. What did he say?

A. He said he took the life insurance, explained to me, to protect his relatives who advanced him money in stock that he had out west.

Q. Where did he say he had money in stock?

A. In cattle out west, he said.

Q. Cattle out west?

A. Yes, I don't know as he stated the exact locality out west. That was in December, 1878, before I left Lawrence; he gave me a reference to Mr. Bergman, a merchant whom I could see, and I did see him.

Q. I will ask you whether you noticed in your various interviews with Mr. Hillmon, in regard to a scar on his nose and cheek?

A. I don't remember of ever noticing any scar on him.

Q. Referring to the conversation of February 26th, 1879, I will ask you if anything was said in regard to vaccination?

A. He told me that he had been vaccinated a day or two before, and pulled up his sleeve and showed me on his left arm some red marks, little red marks, and he said the New York Life Insurance Company required him to be vaccinated. I told him that the Mutual Life of New York did not require that he should be vaccinated, but they were always glad to have him vaccinated to protect him; for protection.

Q. What company were you working for?

A. The Mutual Life of New York.

Q. You were not working for the New York Life?

A. Never did.

996 Q. You never did? A. No sir.

Q. How long after this conversation of February 26th, did you first hear of the report that Mr. Hillmon was dead?

A. The 27th of March, 1879, following.

Q. Where were you on the 27th of March?

A. At Osage City, Kansas.

Q. Where were [—] on the 28th of March?

A. At Lawrence, Kansas.

Q. If you went anywhere at that time or soon after, you may state where you went.

A. To Medicine Lodge, Barber County, Kansas.

Q. When did you leave Lawrence?

A. We left Lawrence on the evening of the 29th of March, and arrived at Hutchinson the following morning, and left for Medicine Lodge that morning with a team.

Q. You left on the 29th?

A. Yes sir, that is my recollection.

Q. Who went with you to Medicine Lodge?

A. Colonel Walker, Samuel Walker and a Mr. Tillinghast.

Q. Do you know where Colonel Walker had been living prior to that? A. Yes sir.

Q. Where? A. Lawrence, Kansas.

Q. In what kind of a conveyance did you, Colonel Walker and Mr. Tillinghast go to Medicine Lodge in?

A. A two-horse open spring wagon.

Q. Was Mr. Tillinghast in your employ? A. No sir.

Q. Did he represent the Mutual Life of New York

A. He did not.

Q. The company that you represented?

A. Not to my knowledge.

Q. How far is it from Hutchinson to Medicine Lodge, if you remember? A. Eighty-five miles across the country.

Q. Do you remember the condition of the settlement of the country through which you passed at that time north of Medicine Lodge? A. The country?

Q. Yes. A. Very sparsely settled here and there.

Q. Did you go through Kingman?

A. Yes, what there was of it, a few houses on the north side of the Ninnescah, the main town.

Q. What was the condition of the country from Kingman to Medicine Lodge?

997 A. I don't think there was a house until we got twenty miles from Hutchinson to a place called Castell; twenty miles, said to be. There was a store there and a few houses; then I don't remember another house until we got to Kingman on the south side of the Ninnescah. There was no house on the north side of the Ninnescah.

Q. How was it settled from Kingman to Medicine Lodge?

A. The country?

Q. Yes, the country.

A. I remember but one ranch, the Updegraff ranch, right where the town of Ross is now.

Q. At what time of day did you arrive in Medicine Lodge?

A. About 11 o'clock in the morning of the last day of March, the 31st of March.

Q. Whom did you find in Medicine Lodge that you knew, if any one? A. I met John Brown there.

Q. Who else? A. I met Levi Baldwin and Alva Baldwin.

Q. Now, Major, without further questions, you may state all that took place and came under your observation in Medicine Lodge up until noon of that day.

A. On our arrival, we drove up to the livery stable, and I got out of the wagon and left Colonel Walker to have the team attended to, and I went to the hotel to secure accommodations for our party; went up the little street a little ways to Mr. Updegraff's; I then returned before dinner, and found in the barnyard Colonel Walker, Tillinghast and Brown talking, aside of a little wagon, close to a wagon.

Q. Do you know what wagon that was?

A. It was said to be the wagon Hillmon; personally, I don't know whose it was.

Q. Was it the wagon that took the body back to Hutchinson afterwards? A. Yes sir.

Q. Where was that wagon at that time?

A. In the barnyard at the livery stable on the south side of the stable.

Q. How far was Brown from that wagon when you first saw him there?

A. Oh, standing right close to the wagon, within a few feet.

998 Q. Did you hear enough of the conversation between Colonel Walker, Tillinghast and John Brown to know what they were talking about; I do not ask you to give the conversation, but to know what they were talking about?

A. I did.

Q. What did you do after you saw Colonel Walker and Tillinghast there talking with Brown; what did you do or where did you go?

A. When we left we went to the hotel and got dinner.

Q. You may state whether or not you joined in this conversation that took place between Brown and the other two men?

A. I made some remarks; I don't remember exactly; they were together and I did take part in it, but very little; very little.

Q. Do you remember whether or not that wagon was measured as to its height? A. It was, in my presence.

Q. In your presence? A. Yes sir.

Q. How high was it from the ground to the top of the box?

A. You mean the side boards?
Q. Yes.
A. My best recollection is it was four feet and ten inches and a half from the ground to the top of the side boards.
Q. Was Colonel Walker present when it was measured?
A. Yes sir, he done the measuring.
Q. He did the measuring in your presence? A. Yes sir.
Q. If you remember the depth of the wagon bed, say.
A. He did not measure the depth of the wagon bed, no sir, not to exceed about two foot, about 2 foot from the bottom of the wagon to the top of the side boards; that would be about it; two feet; it was about six inch side boards, and then about eighteen inches, regular body wagon something like that.
Q. Then what took place after dinner, if anything?
A. We had the team hitched up and Colonel Walker and Tillinghast and I went out to a grave yard half a mile or so from the town.
Q. About how far was the grave yard from the hotel in Medicine Lodge?
A. Oh, about three-quarters of a mile, probably, or a mile; something like that.
999 Q. Who did you find, if any one, out at the grave yard?
A. I found Mr. Levi Baldwin there, Alva Baldwin and John Brown with a wagon.
Q. About what time in the day did you arrive at the grave yard? A. Between one and two o'clock in the afternoon.
Q. Up to two o'clock had you seen in or around Medicine Lodge, either Levi Baldwin or Alva Baldwin?
A. I don't remember; I don't think I did; no, I don't think I saw them in the town, not until I saw them at the grave.
Q. What is your best recollection upon that, as to whether you first saw them out at the grave yard?
A. My best recollection is that I did not see them until I saw them at the grave yard.
Q. State what was done or took place at the grave yard after your arrival there? A. I had engaged Doctor Davis—

Answer objected to as not responsive.
By Mr. Ware: I withdraw the last question.

Q. Who went out to the grave yard with you?
A. Walker and Tillinghast, Brown, Levi Baldwin, Alva Baldwin, Doctor Davis and a colored man that I remember of.
Q. I asked you who went out to the grave yard with you?
A. Tillinghast and Walker, and the man who drove our team from Hutchnson.
Q. Did Levi Baldwin go out to the grave with you?

A. No.
Q. Did Alva Baldwin go out to the grave with you?
A. No.
Q. Did John H. Brown go out to the grave yard with you?
A. He did not.
Q. Who was Davis?
A. He was a doctor; I found him in a drug store there; I don't know whether he owned it or not.
Q. Who besides Davis went out with you?
A. Who besides Davis?
Q. Yes.
[—] He didn't go out with us; he came out by himself.
Q. How did he come there; in what kind of a conveyance?
A. I don't remember; I think he walked; he and the colored man walked.
Q. Do you know whether any tools were taken out?
A. Yes.
1000 Q. What did they consist of?
A. Shovel, spade, a couple of shovels.
Q. What took place on your arrival at the grave yard?
A. Why, I requested the doctor—

The plaintiff objects to what was said.

A. The grave was opened; the dirt was thrown out of the grave.
Q. Who directed the dirt to be taken from the grave?

The plaintiff objects to the question as calling for the conclusion of the witness; objection overruled, the plaintiff duly excepts.

Q. I did; I requested that it be done.
Q. You may state whether or not the coffin was lifted up?
A. Yes, sir.
Q. Where was the coffin placed when it was lifted up?
A. Say this is the grave (illustrating). Here is the east, here is south; it was lifted out, and lifted at the head of the grave, and a little to one side.
Q. State whether or not the lid of it was taken off?
A. It was.
Q. I will ask you what you saw when the lid was taken off?
A. I saw a corpse lying in the coffin with a white cloth over its face.
Q. Where were Alva and Levi Baldwin at that time?
A. At the particular time when this cloth was lifted off, do you mean?
Q. Yes. At that time.
A. Alva Baldwin and I were standing at the foot of the grave, a few feet from the foot of the grave, and Levi was be-

tween us and where the coffin was; he was moving around to and fro talking to somebody; Colonel Walker and Davis—

By Mr. Atwood: You were not asked for Davis.

A. Levi Baldwin.
Q. Where was John Brown during this time?
A. Standing near the wagon west some 50 or 60 feet at the tail-end of the wagon or near it.
1001 Q. What was he doing there, if anything?
A. He was standing there wasn't doing anything that I saw.
Q. Did he come up to the grave when it was being opened?
A. He did not.
Q. Was he at the grave when the coffin was opened?
A. No, he was not; well, he was 50 or 60 feet away.
Q. If, when that white cloth was removed from the face of the corpse, any sudden ejaculation was made by any person present you may state who made it?

The plaintiff objected to the question as incompetent, irrelevant and hearsay.

Recess to 2 o'clock p. m.

Afternoon session.

Theodore Wiseman on the stand.

Direct examination continued by Mr. Ware:
Q. I will withdraw that question and put it in a different form. If Alva Baldwin made any instantaneous ejaculation or exclamation when the face of the corpse came to his view there at that time, you may state what he said?

The plaintiff objected to the question as incompetent, irrelevant and immaterial, and hearsay. The Court overruled the objection to which action and ruling of the Court the plaintiff at the time duly excepted.

A. As I said, I was standing aside of him; him and I were right close together.
Q. State what was said, Major.
A. He says, "Hell, that ain't Hillmon." Says I, "What?" He says, "That ain't John Hillmon." I says—

The plaintiff moves that the last part of the answer be stricken out as not responsive to the question. Motion
1002 sustained, the defendants and each of them duly except.

Q. Did you see the corpse at that time?
A. Yes, sir, I did.

Q. Was that the body of any person whom you had known during its life? A. It was not.

Q. Was that corpse the body of John W. Hillmon?

A. It was not the John W. Hillmon that I knew.

Q. The John W. Hillmon of Lawrence, Kansas?

A. No, it was not.

Q. Did you ever know any other John W. Hillmon?

A. I did not.

Q. State what was the condition of the coffin and corpse as regards its being wet or dry? A. It was dry.

Q. How was the dirt that was in the grave, was that wet or dry? A. Dry.

Q. Did the coffin show signs of dampness or moisture?

A. No, sir.

Q. Did you notice whether the clothes of the corpse looked wet or dry? A. Looked dry.

Q. What was the character of the soil in which the grave was dug?

A. Well, it was clay mixed with sand, the soil of Western Kansas, on a hill.

Q. Was it rocky? A. No.

Q. Clay, was it? A. Yes, sir.

Q. I believe you said that Davis and the colored man took the coffin up?

A. Well, there was others that assisted them; yes, they were engaged in taking it up but others assisted in pulling the coffin up out of the grave.

Q. Who paid for the taking up of that coffin? A. I did.

Q. I will ask you if you had any conversation with Levi Baldwin in regard to the taking up or removal of the body?

A. I did.

Q. You may state what was said by Mr. Baldwin and yourself? A. Mr. Baldwin and I—

The plaintiff objects to the question as incompetent, irrelevant and immaterial, and because no foundation has been laid for impeachment.

1003 By Mr. Ware: I believe I will withdraw that question for the present, and proceed with the examination on other points.

The witness being sick and unable to proceed, he was excused for the time, and at a later day, resumed the stand and his direct examination was continued by Mr. Ware as follows:

1004 Q. Major Wiseman, going back to the time, now at which you were in the grave yard at Medicine Lodge, I will ask you to fix the date as near as you can, the day of the month of that day?

A. The 31st day of March, 1879.

Q. You may state whether any conversation took place between you and Levi Baldwin on that occasion in regard to the removal of the body? A. Yes, there was.

Q. You may state what that conversation was.

The plaintiff objected to the question as incompetent, irrelevant and immaterial. Objection overruled, the plaintiff excepts.

A. Levi Baldwin when I got out there, asked me what I was going to do; I told him I was going to dig up the body and take it to Lawrence. He said Mrs. Hillmon didn't want the body; he said he had brought lumber out—there was a pile of lumber; they brought lumber out to fence in the grave. I said that I thought enough of the widow to take Hillmon back there so she could plant flowers on his grave. That was the remark I made.

Q. Whereabouts was that lumber lying; how near the grave?

A. It was lying south of it, close by, as far as from the table to the chair there; there was some posts and some boards.

Q. I will ask you whether or not Alva Baldwin was present at the time that you had this conversation with Levi?

A. Yes, sir, he was there.

Q. Do you remember whether or not he participated in the conversation? A. No, he did not, to my recollection.

Q. What was done with the coffin after the body was exhumed in the grave yard, and you had finished viewing the body? A. Why, it was closed up again.

Q. Was it put into anything else?

A. It was put in a rough coffin afterward; not there; it was not put in anything there; not there.

Q. Where was it put into the rough coffin; at what place?

[Q.] In the town of Medicine Lodge, to the best
1005 of my recollection, at the drug store where Davis was.

Q. Then the body was taken back in the coffin to Medicine Lodge? A. Yes, sir.

Q. And the coffin was put into another box? A. Yes, sir.

Q. What was then done with the box?

A. I don't remember; I turned the matter over to Dr. Davis and told him—Am I permitted to tell what I told Dr. Davis?

By the Court: No, answer the question only.

Q. Well, you may state what became of that box, that was brought from Medicine Lodge; where was it taken to?

A. Taken to Hutchinson?

Q. How was it taken to Hutchinson? A. In a wagon.

Q. Did you see it in the wagon? A. I did.

Q. Did you see anything else in the wagon? A. I did.
Q. What did you see?
A. I saw a trunk and a pair of shoes.
Q. Do you remember of seeing a valise in the wagon?

The plaintiff objects to the question as leading. Objection overruled, the plaintiff excepts.

A. I would not be positive about it.
Q. Can you describe the shoes? A. Yes, sir.
Q. Please do so?
A. Well, they were a course, pretty badly worn pair of shoes, low cut, common shoes; and they were number ten size; I wear a number ten and I could have well worn them.
Q. Were they about the size of the feet of the corpse?

The plaintiff objects to the question as calling for the conclusion of the witness. Objection overruled; the plaintiff excepts.

A. I could not say because I never measured the shoes of the corpse.
Q. You never measured them? A. No.
Q. Detail the circumstances of your return from Medicine Lodge to Hutchinson, stating how you went and how the others went?

A. We started the next morning on the first of
1106 April, that is, Colonel Walker, Tillinghast and the driver, in a two horse rig in which we had come from Hutchinson; we started out; the two Baldwins started and John Brown drove the wagon that I saw in the livery barnyard at Medicine Lodge.

Q. This same wagon that you have described as the Hillmon wagon?

A. Yes, the Hillmon wagon. We started and on ahead we passed the team, and we put up for dinner or lunch at the Updegraff ranch, about where the town of Ross is now located; we put up; ate lunch, fed our team, and drove that evening to Kingman, that is, on the south side of the river; there was no buildings on the north side; we put at a store and hotel combined, the whole party of us; we left the next morning, our team taking the lead again; we crossed the river and we came to Castleton about twenty miles from Hutchinson where we had stopped before to dinner or lunch, and we there met again, the whole party of us; ate lunch, fed the team and watered them and then started for Hutchinson; that was 20 miles from Hutchinson, said to be, and we arrived at Hutchinson before the other parties.

Q. Now, then, when you stopped at those places along the roads were your teams together, and was John H. Brown and Levi and Alva Baldwin with you when you stopped?

A. No, we were always in advance. They came up afterwards, and the Brown wagon generally came in last.

Q. I am asking you about the time when you stopped for lunch, or when you stopped for meals on the road, whether you all stopped together?

A. Yes, that is my recollection; we stopped an hour or two.

Q. On arrival at Hutchinson, did you take the railroad train for any place?

A. We did, on the night of the second of April, my party—Colonel Walker, at the evening.

Q. Where did you come to?

A. Came to Lawrence, Kansas.

Q. Do you know whether John Brown and Levi Baldwin came on the same train or not?

A. I know Levi Baldwin was there; I don't remember whether John Brown was or not.

1007 Q. When you got to Lawrence what time of day was it?

A. About seven o'clock in the morning of the third of April, 1879.

Q. What road did you come in on? A. The Santa Fe.

Q. Where did you get off from the train?

A. I got off at the foot of Massachusetts street at the bridge.

Q. At what place? A. Lawrence, Kansas.

Q. Did you get off at the regular depot at Lawrence?

A. No, the train stopped there but it was not a regular depot; it was further east.

Q. How far was Massachusetts street, where you got off, from the depot?

A. Well, it was a quarter of a mile or so at that time; it is not now; it was then a quarter of a mile, I should judge.

Q. The train stopped to let off passengers at Massachusetts street did it? A. Yes, sir.

Q. Were you present at the depot when the body was received? A. No, sir.

Q. Did you have anything to do with unloading it?

A. I did not.

Q. Did you give any directions in regard to unloading it?

A. I did not.

Q. Did you give any directions in regard to the body being taken anywhere? A. I did not.

Q. Do you know who was at the depot when the body was unloaded? A. I do not; I wasn't there, anyhow.

Q. If you saw that body afterwards, you may state where you saw it?

A. I saw it in a little building used for a warehouse back of Bailey & Smith's undertaking establishment, furniture shop on Massachusets streets, on the east side of the alley.

Q. State what you had to do with regard to the removal of the body to Bailey & Smith's? A. Nothing whatsoever.

Q. Did you see it removed there? A. I did not.

Q. Did you give any directions concerning its removal?

A. I did not.

Q. How did you know it was at Bailey & Smith's?

A. How did I know that?

1008 Q. How did you find that out?

A. That the body was there?

Q. Yes. A. Colonel Walker told me, I think.

Q. Colonel Walker told you during the day?

A. That it was there, yes; I met him.

Q. Now, going back to the Medicine Lodge and Hutchinson trip, I will ask you whether the trunk came through on that trip that was in the wagon?

A. I didn't exactly catch that.

Q. I ask you whether the trunk came through on that trip from Medicine Lodge to Hutchinson. A. Yes, sir.

Q. I will ask you what became of the shoes, if you know.

A. I never saw them after I saw them in Medicine Lodge.

Q. Did you make any inquiry for them at Hutchinson when you got in there? A. We did.

Q. Whom did you inquire of?

A. Brown; Colonel Walker did in my presence; I don't know as I made the inquiry.

Q. Colonel Walker made it in your presence? A. Yes, sir.

Q. You heard an inquiry made?

A. Yes, at the depot.

Q. Did you make any search for those shoes in the wagon?

A. I don't remember that I did; I was busy with other matters.

Q. Do you know what became of those shoes?

A. I don't, except what Brown said.

Q. Do you remember of a coroner's inquest being held in Lawrence on or about that time? A. I do.

Q. I will ask you what you had to do with getting up that inquest and having it held at that time?

A. I had nothing to do with it.

Q. Did you know Mr. Green up to that time?

A. I did not.

Q. Had you had any talk with him as county attorney upon this subject?

A. I did not; I didn't know the man at that time; might have met him and not known it, on the street.

Q. Do you remember the degree of publicity attending the inspection of that corpse in Lawrence?

1009 The plaintiff objects to the question as calling for the conclusion of the witness. Objection overruled; the plaintiff excepts.

A. It was published in the paper and talked about a good deal and caused a great many people to go to the court house; and talked about a great deal.

Q. Do you remember whether or not there was any publications in the local newspapers? A. In the paper?

Q. Yes.

A. Yes, I read accounts in the paper from day to day.

Q. Do you remember whether there were any publications in the papers concerning the proceedings at the coroner's inquest.

Objection.

By the Court:

He has stated that it was generally known and talked about there in Lawrence, and mentioned in the newspapers.

Q. If you went to Wichita at any time during the month of April, you may state when? April, 1879?

A. Yes, sir; I went to Wichita during April, probably about the middle of the month; along there.

Q. Had you at that time seen any photographs of the cropse? A. Yes.

Q. Were you present when the body was exhumed in the Lawrence grave yard? A. No.

Q. Had you any particular object in going down to Wichita on this occasion in April? A. I did.

Q. What was that object?

A. I had a couple of photographs of the corpse and I went down for the purpose of finding out who the cropse might be by making inquiry, hunting up?

Q. Did you make any inquiries in Wichita upon that subject? A. Oh, yes; a great deal.

Q. Whom did you inquire of generally?

The plaintiff objects to the question as incompetent, irrelevant and immaterial, and hearsay. Objection sustained, the defendants and each of the duly excepting.

Q. I will ask you to look at Exhibits G No. 29 and G No. 30, and ask if you have ever seen them before?

A. Either them or some just like them.

1010 Q. I will ask you to state whether or not you took these or photographs just like them with you when you went to Wichita? A. I did.

Q. State what you did with those photographs when you were in Wichita?

The plaintiff objects to the question as calling for hearsay evidence.

By Mr. Ware:
We propose to prove that Major Wiseman met a Mr. Walker in Wichita; that Mr. Walker had a talk with Mr. Wiseman, and that after that, a letter of inquiry came to Mr. Walker which was referred to Mr. Wiseman.

By the Court:
You may show that.

To which ruling the plaintiff at the time excepted.

Q. Did you, among others in Wichita, have a talk with any person by the name of Walker? A. I did.
Q. Do you remember what his business or occupation was?
A. He was in a bank there.
Q. A banker. Do you remember whether or not you showed him the photographs?

The plaintiff objects to the question as immaterial. Overruled, the plaintiff duly excepting.

A. To the best of my knowledge, I did; yes, sir.
Q. How long were you in Wichita on that occasion in April? A. You mean that time?
Q. Yes.
A. I was there in Wichita off and on; and I made trips to the country until about the first of May, several weeks; I made some trips out and came back; Wichita was my headquarters; that was the way of it.
Q. Did you afterwards return to Lawrence? A. I did.
Q. If, after you returned to Lawrence, a letter was handed to you, by Dr. Morris, you may state about the date?

The plaintiff objects to the question because the witness has not stated that any letter was handed to him, and because it is leading.

1011 The Court sustained the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

[A.] You may state whether or not you were acquainted with a Doctor Morris in Lawrence? A. Yes, sir.
Q. You may state whether at any time you received any letter handed to you from him? A. Yes, I did.
Q. Where were you when you received the letter from him?
A. On the street in front of Doctor Morris' office.

Q. By whom was the letter signed?

The plaintiff objects to the question as hearsay evidence. Objection sustained, the defendants and each of them at the time duly excepting.

Q. Was it a letter written to you by Doctor Morris?

The plaintiff objects to the question as calling for hearsay evidence. Objection overruled; the plaintiff excepts.

A. Two letters were handed to me; one was from Walker, the banker at Wichita.

By the Court:

The question was whether it was a letter written to you by Dr. Morris.

A. Oh, no.

Q. I believe you said there were two letters, one enclosed in the other? A. Yes, sir.

Q. You may state what became of those letters, if you know?

A. To the best of my knowledge and belief they were burned when my house, my dwelling burned.

Q. At what time?

A. At Omaha, Nebraska, November 20th, 1894, the night of November 20th. I lost nearly everything I had.

Q. You may state by whom those letters were signed, if you know?

1012 The plaintiff objects to the question for the reason that no sufficient foundation has been laid.

By the Court: A sufficient foundation has not yet been laid.

Q. I will ask you, Major, if those letters are in your possession or under your control? A. Now?

Q. Yes.

A. Oh, no, I have not seen them since my house burned.

Q. I will ask you if you have seen them since the date of that fire? A. I have not.

Q. Are they among your papers or in your possession in any way? A. Not that I know of.

Q. Do you know anything about where they are?

A. I don't know that they are in existence; I think as already stated they burned with my house; it burned almost all my papers, nearly all but what I had in my grip.

Q. Were these papers among those papers in your grip that you preserved at the time of the fire?

A. No, they werent.

Q. I will ask you where you kept those papers before the fire, whether you kept them at the house or kept them elsewhere?

A. I kept them at my house in the third story in a large desk that I had.

Q. I will ask you what became of the desk?

A. Its contents burned up.

Q. Didn't you deliver those letters to the attorneys on the other side, Mr. Wiseman?

A. I showed them to Mr. Green; he wanted them.

Q. Did you ever deliver them to the counsel on the other side? A. Never delivered them; I showed them to him.

Q. Were they ever in the possession of Mr. Green or Mr. Barker? A. No sir, not to my knowledge, no sir.

Q. Is it not a fact that you have been present at all the trials of this case? A. I believe so.

1013 Do you remember whether or not those letters were ever introduced in evidence at any trial?

A. I don't remember; I don't think they were.

Q. You don't think they were? A. No, sir.

Q. You say you have no recollection of ever putting them in the custody of Mr. Green or Mr. Barker?

A. Never put them in their custody.

A. Not to my knowledge.

Q. They were never introduced in evidence in any trial of this case?

A. Not to my recollection, no. Will you allow me to make one other remark in connection with that; I want to answer fully. I was at outs with the companies; was lawing
1014 them for my services, and I wouldn't put them in possession of anything of value; I was fighting them and they were fighting me.

Direct Interrogatories Resumed by Mr. Ware.

[—] Now, I will ask you, Major, what were the contents of the two letters which you received at that time from Dr. Morris.

The plaintiff objects to the question as immaterial and hearsay.

By the Court: I presume it is proposed to connect these letters with inquiries from the Walters family?

By Mr. Ware: Yes, sir.

The Court sustained the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

Q. I will ask you if you read those letters which you received from Dr. Morris? A. I did.

Q. What time did you say it was in 1879?

A. About the middle of December.

Q. Now, please state the contents of those two letters which you received from Dr. Morris about the middle of December, 1879.

The plaintiff objects to the question as calling for heasay and secondary evidence, and because no sufficient foundation has been laid. The Court sustained the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

By Mr. Ware: We now offer to prove that a letter was received by Mr. Walker in Wichita, inquiring—

By Mr. Atwood: We submit that offers of testimony should be submitted in writing.

By the Court: I will allow you, in a proper way, to show that inquiry was made from Fort Madison for Frederick Adolphus Walters, but that does not involve, necessarily, the contents of written instruments.

1015 By Mr. Ware: Very well; I will get at that in another way. I will ask you when you first heard the name of Frederick Adolph Walters. A. When I first heard the name?

Q. Yes. A. I saw it in a letter the first time.

The plaintiff moves to strike out the answer as incompetent. Motion overruled; the plaintiff excepts.

A. I didn't hear it; I read it.
Q. About when did you read that?
A. On or about when I got that letter, the middle of December, 1879, to the best of my recollection.

By the Court: Did you learn at that time that it was claimed that a man by that name whose home was at Fort Madison, was missing. A. Yes, sir.

By the Court: I suppose that is what you desire to prove.
By Mr. Ware: That is it exactly. A. Yes, sir.

By the Court: If the plaintiff wants to know how you learned it, that is another question.

Q. You may state if you learned at that time whether any inquiry was being made for Frederick Adolph Walters by his family or friends. A. Yes, sir.
Q. How did you get that information? A. From the letter.
Q. From the letter that you received from Dr. Morris?
A. Yes, sir.
Q. Do you remember to where the letter was addressed that was enclosed by Mr. Walker to Dr. Morris?

The plaintiff objects to the question as incompetent, irrelevant and immaterial. Objection sustained the defendants and each of them at the time duly excepting.
of one of the letters.

Q. After hearing the name of Frederick Adolph Walters in December, 1879, what, if anything did you do concerning it? A. What did I do concerning it?
Q. Yes. A. I wrote a letter to Fort Madison to the writer of one of the letters, the letters enclosed and sent a couple of photographs.
1016 Q. What kind of photographs did you send in that letter? A. The ones I looked at here awhile ago.
Q. Photographs like exhibits G 29 and G 30? A. Yes, sir.
Q. Photographs of a body in a coffin? A. Yes, sir.
Q. Did you send one photograph or two? A. I sent two.
Q. Do you remember to whom you sent those photographs in Fort Madison?
A. I sent them to the writer of the letter that was enclosed by Mr. Walker, and his name I forget now.
Q. Could you tell the name if you heard it?
A. Not positiyely, no I wouldn't like to state; it was so long ago.
Q. Do you remember whether or not the name was Hobbs?
A. I could not positively state what the name was now.

Q. You sent the photographs to Fort Madison addressed to the person whose name appeared in the letter?

A. I sent them and they were returned to me afterwards.

Q. Major, there has something cropped out here about a disagreement between you and the insurance companies. I will ask you whether you have any connection or relation to any of these insurance companies in any way? A. Now?

Q. At present? A. None whatever.

Q. How long since you have been in the employ of any of the insurance companies mentioned in this suit?

A. I severed my connection with the General Agent with whom I was employed; I never was employed by the company; I worked for the General Agent—on the first of January,—the 31st of December, 1879.

Q. Well, since the first of January, 1880, have you been in the employ of the Connecticut Mutual or New York Life Insurance Company or the Mutual Life of New York?

A. No sir, in no way.

Q. Have you any interest whatever in the event of these suits? A. Have I what?

Question objected to, and not answered.

Q. Are you a policy holder in either of these companies?

A. I am not; not now.

1017 Q. Did you hear the testimony of John Eldridge read on this trial? A. I did not.

Q. I will ask you if he signed any application as a next friend in your presence? A. Not that I remember of.

Q. Did he sign an application as next friend? A. No sir.

Q. That you wrote? A. No sir.

By Mr. Ware: In order to preserve the point fully and to present it fully to the Court, so that it will go into the record properly, and that the Court may understand our position fully, we wish to ask the following question:

Q. Will you please state the contents of the letter enclosed by Mr. Walker to Dr. Morris, and handed to you by the latter in December 1879?

The plaintiff objects to the question as incompetent, irrelevant and immaterial and hearsay, and because no sufficient foundation has been laid.

By the Court: The admissibility of that letter is not determined by its contents but is determined by the circumstances concerning its writing and its reception, and it will not be necessary to state the contents of the letter in arguing the question as to the admissibility of the letter.

By Mr. Ware: I shall not give the verbal contents of the letter but we offer to prove that this letter was written—

Objection.

By the Court: As I say, Mr. Ware, I do not [—] a proper discussion of the materiality or competency of that letter involves a statement of its contents, assuming that it was not written by Frederick Adolphus Walters, but was written by some one at Fort Madison to some one in Wichita, and was forwarded to the witness now upon the stand. If you desire to make a statement of the contents of the letter, you may do so to me during the recess.

1018 By Mr. Ware: That is perfectly satisfactory.

Q. Did you learn by whom at Fort Madison, and on whose behalf, the inquiry for Frederick Adolph Walters was instituted at Wichita?

The plaintiff objects to the question as immaterial and hearsay. Objection overruled, the plaintiff excepts.

A. Yes sir.

Q. I can't state the man's name who made the inquiry, but I do remember the name in whose behalf the writer of that letter made it.

Q. In whose behalf was the inquiry made?

Same objection by the plaintiff; objection overruled; the plaintiff excepts.

A. In behalf of a man by the name of Walters; I don't remember his initials.

Q. Was it father or son?

The plaintiff objects to the question for the reason that it assumes that it was one or the other, leading and hearsay. Objection sustained, the defendants and each of them duly excepting.

Q. Going back: I believe you said you saw the body at Bailey & Smith's undertaking establishment in Lawrence, Kansas? A. I did.

Q. You may state whether that was the same body that you saw in the grave yard at Medicine Lodge? A. It was.

Q. I will ask you if you examined or caused to be examined the mouth of the corpse at Medicine Lodge?

A. I viewed it; I didn't touch the body.

Q. I believe you testified, did you, Major, in regard to the measurement of Mr. John W. Hillmon; did you testify to that in your former examination? A. Yes, sir.

Q. Do you remember what your testimony was as to the height of Hillmon? A. Five feet, nine inches in his footwear.
Q. Did you testify in regard to his teeth?
A. I did, yes sir.
Q. What was the condition of his front teeth, do you remember?
A. There was one missing; either broken off or gone entirely in the upper left jaw.
1019 Q. There is a question between myself and my co-counsel as to whether or not the witness testified as to the measurement of John W. Hillmon, and I desire to ask that question now. How do you know he was five feet, nine inches high? A. I measured him.
Q. At what place?
A. At Doctor Miller's office in Lawrence, Kansas.
Q. At what time?
A. I could not give the date; during the winter of 1878-9; either in December, January or February; I can't remember the date.

And in answer to cross interrogatories propounded to him by John H. Atwood, counsel for the plaintiff, the witness testified as follows, to wit:

Q. Where do you reside, Mr. Wiseman? A. My home?
Q. Yes. A. Omaha, Nebraska.
Q. When did you leave your home to come to this trial?
A. I left my home on the 18th; last Wednesday. I think it was the 18th of October.
Q. For the purpose of coming to this trial? A. I did.
Q. Since you arrived here have you read over the testimony that you have given at other trials of the case?
A. I have not; not a word.
Q. Now, then you spoke a little time ago about being employed by the insurance companies and having differences of opinion with them about the value of your services?
A. Yes sir.
Q. Going back to the time of your employment: I understood you to say in your examination that you were employed under the general agent some ten years prior to the happenings that occasioned this trial, prior to 1879? A. Yes sir.
Q. Had you been employed by the companies as a detective prior to that time or by the general agent? A. I had not.
Q. You say that you never had been employed in
1020 that capacity by the companies, but you were employed by the companies at the time you went down to Wichita; is that a fact? A. The general agent.

Q. Just answer that question; you know you went down to Wichita, you went to Wichita, did you not, on behalf of the companies? A. Yes sir.

Q. And spent several weeks there making inquiries?

A. Yes sir.

Q. Looking around trying to find if anybody had been missed down there? A. Yes sir.

Q. Took pictures with you? A. Yes sir.

Q. And interviewed people? A. Yes sir.

Q. Did you ever do work of that kind for this company or anybody prior to the time you went to Wichita?

A. I did detective work for the United States.

Q. You had done some detective work?

A. When I was in the service of the United States.

Q. Over how long did your detective work extend with the United States, or anybody else prior to the time that you did this work for the United States?

A. I did more or less detective work from 1869 to the fall of 1875 or spring of 1876.

Q. About six or seven years? A. Yes sir.

Q. Then your business was largely soliciting insurance from that time on, and in 1879, after these occurrences down at Medicine Lodge, you did the work that you have described to the jury briefly. Is that a fact?

A. I was in the insurance business all the time; I was requested by the United States Government District Attorney to do—

Q. To do detective work occasionally?

A. Yes sir, occasionally.

Q. Then detective work was not your regular employment but you did it occasionally?

A. I was United States Guager and that brought me—

Q. In that capacity did you go down there to Medicine Lodge with Mr. Walker? A. I did.

1021 Q. Who hired him to go? A. I did.

Q. In what capacity was he hired?

A. I wanted some one to go with me down there; it was on the frontier and pretty rough characters.

Q. He was a deputy sheriff at that time, was he not?

A. He might have been.

Q. He had been connected with such offices as the sheriff's office and so forth, had he not?

A. Prior to that I knew him to be marshal.

Q. Then it was in his capacity as an officer or detective that you took him down there, wasn't it? A. No sir.

Q. You took him down there in the capacity of a detective or officer did you not? A. I did not.

Q. Did you hire him as a physician to go down there?

A. No sir.

Q. Did you hire him as an insurance agent? A. No sir.

Q. What did you hire him for if it was not in the capacity of an officer to go down there; as a body servant?

A. Oh, no, I took him with me as a companion to assist me in case I needed any assistance.

Q. What pay did you agree to pay this companion of yours? A. I think it was $3 a day and expenses.

Q. Did the company allow this expense bill and pay the $3 a day and expenses?

A. They did after I lawed them two or three years in the United States Court.

Q. It is a fact that they did?

A. My bill; Judge Foster decided the case.

Q. No matter about that, Major; what we are talking about is not what Judge Foster did but what the companies did with you; were you authorized by anybody to employ this companion at $3 per day and expenses? A. No.

Q. You were not authorized by any one?

A. I did that on my own responsibility.

Q. When you came to Lawrence, and from thence
1022 to Medicine Lodge, by whose direction did you go there to Lawrence; you have told me or the counsel that you were in Moberly or somewhere in Missouri at the time you first heard of this? A. Working up business.

Q. You were directed by somebody to go to Lawrence, were you not? A. I went from Osage City.

Q. Now, you went from Osage City to Medicine Lodge?

A. I asked permission of the general agent to go there and he telegraphed me and wrote me to go ahead.

Q. You were at Osage City at the time you heard of this occurrence at Medicine Lodge; is that right? A. Yes sir.

Q. How did you get this information?

A. From the press; the newspapers.

Q. Then you deemed it your duty to communicate with the general agent and you did so? A. Yes sir.

Q. And asked of him authority to go to Medicine Lodge?

A. Yes sir.

Q. And he wired you authority to go? A. Yes sir.

Q. And you went? A. Yes sir.

Q. And thus commissioned on behalf of the companies through the general agent to go there?

A. The general agent.

Q. Where did you pick up your companion Walker?

A. At Lawrence.

Q. You [—] from Osage City to Lawrence first?

A. I did.

Q. Did you go immediately upon receipt of advices from the general agent at Osage City of Lawrence?

A. At Lawrence; to my best recollection I left Osage City on the 27th of March immediately after I telegraphed the general agent.

Q. I understand you— A. And told him—

Q. What was the general agent's name?

A. Byron Sherman.

Q. And his headquarters were in St. Louis, you say?

A. Yes sir.

Q. You communicated with Sherman at St. Louis and went immediately from Osage City to Lawrence where you received your directions from the general agent?

A. I got permission to go.

Q. And then after you received that, you deemed
1023 your authority broad enough for you to employ a companion, did you? A. I did.

Q. And you did employ Mr. Walker at $3 a day and expenses? A. Yes.

Q. And you went down to Medicine Lodge in the way you have described? A. Yes sir.

Q. Did you pay him out of your own pocket and then have trouble in getting it back?

A. I paid him and charged it up in the bill.

Q. In your expense account?

A. Yes sir, expense account.

Q. And about how much did you pay him altogether as you remember; of course, you can't tell to a dollar, but in round numbers, Major?

The defendants object to the question as not proper cross-examination and as calling for incompetent, irrelevant and immaterial evidence.

The Court sustained the objection to which action and ruling of the Court the plaintiff at the time duly excepted.

Here the Court took a brief recess, during which the following proceedings were had, in the absence of the jury:

By the Court: Now, Mr. Ware, you may state that.

By Mr. Ware, Counsel for defendants: We offer to show in answer to a former question put to Major Wiseman, that the master of a Masonic lodge in Fort Madison, Iowa, by the name of Hobbs, wrote a letter to the master of a Masonic Lodge in Wichita, Kansas, of which C. A. Walker was secretary, this being the same Mr. Walker who sent the letter to Mr. Wiseman and the substance of the letter from Fort Madison was that a man in Fort Madison by the name of Walters had a son by the name of Frederick Adolph Walters that had gone west and had written home from time to time, but of late, he had not written; that in his last letter, the said Frederick

Adolph Walters had said that he had gone west with a man by the name of Hillmon, and requested that the Wichita parties to whom the letter was addressed should see if he could not get information as to where this young man Frederick Adolph Walters who was now missing, was, and if he could get track of Frederick Adolph Walters, to let them
1024 know in Fort Madison, because the father was very much worried over the absence of his son.

The plaintiff objected to the offer as incompetent, irrelevant and immaterial and calling for hearsay. Objection sustained, the defendants and each of them duly excepting.

By Mr. Ware: We also expect to prove that a letter written by Mr. Walker, and enclosing the Fort Madison letter, was directed to the coroner of Douglas county, Kansas, and requested the coroner of Dauglas county to hand the enclosed letter to Mr. Wiseman of Hillmon fame.

The plaintiff objected to the offer as incompetent, irrelevant and hearsay. The Court sustained the objection, to which action and ruling of the Court, the defendants and each of them at the time duly excepted.

Cross-examination of Major Wiseman continued by Mr. Atwood:

Q. When did the employment of Colonel Walker or Mr. Walker, whatever his name is, who went with you as a companion to Medicine Lodge, cease?

A. When did we come back to Lawrence?

Q. How long were you gone in round days; I don't suppose you can state the exact time.

A. We started on the night of the 29th, night train for Hutchinson; 30th, on the 31st we were at Medicine Lodge; on the first and second we returned to Hutchinson, and on the morning of the third of April we came back to Lawrence; that was the trip.

Q. Five or six days? A. Yes, sir.

Q. Now, Tillinghast, a man by the name of Tillinghast was with you; is that the right name? A. Tillinghast.

Q. Who was he as regards the company; what company had he any connection with, if any one?

A. He represented the New York Life.

Q. These two defendants are the Mutual Life of New York and the Connecticut Mutual, and it was a third company that he had something to do with, that Tillinghast had to
1025 do with?

A. He was a special agent of the New York Life Insurance Company.

Q. You had nothing to do with paying his expenses, I suppose? A. Oh, no.

Q. Tillinghast was going on behalf of his company; is that a fact so far as you know?

A. I never requested him to go; he didn't want to go at first, but I told him that his company was interested and he had better go and he finally concluded to go.

Q. And did go? A. Did go.

Q. And the party consisted of yourself, Walker and Tillinghast? A. Yes, sir.

Q. When you came back from there, how long after that was it before you went to Wichita; you have mentioned going to Wichita and I have reference to that time, that occasion?

A. To the best of my knowledge a week or ten days or such a matter after I came back.

Q. That would bring it along some time in the month of April? A. Yes, sir.

Q. You went there by whose direction, if anybody's; your general agent, Mr. Sherman? A. No.

Q. Whose?

A. The matter was left to me, to my judgment; I had no instructions where to go by the general agent because he didn't know only what I told him.

Q. I see, yes; the general agent employed you with general powers to use your own discretion in the matter?

A. Oh, yes.

Q. And you went where you thought it best to go?

A. Yes, sir.

Q. And in pursuance of that general authority received from the general agent of the Mutual Life, you went down to Wichita? A. I did.

Q. And you spent some four or five weeks in this work of inquiry or detective work?

A. I did, until the first week in June.

Q. That would be five or six, would it not?

A. It would be more than that; it would be all of April and May; it would be eight weeks; well, eight or nine weeks; something like that.

1026 Q. And then you come back to Lawrence, or to where?

A. After my trip to Wichita, then of course, I came back to Lawrence about the end of the month.

Q. Coming back to your employment as a solicitor; your compensation for that was by commission, was it not?

A. Entirely.

Q. If you succeeded in writing a good deal of insurance you made a good deal of money, did you not?

A. I had a guarantee.

Q. All right, but it depended, in some measure, at least, upon the amount of insurance that you wrote, too?
A. Yes, sir.
Q. But this employment was independent of that, was it not, this employment, when you did that work? A. Yes, sir.
Q. Was done in pursuance of this independent employment? A. Yes, sir.
Q. But no terms were made between you and the general agent as to your compensation you were to receive for this work when you started to do it? A. None whatever.
Q. That was left for future adjustment? A. Yes, sir.
Q. Now, then, how long did this extra or special employment, outside of the solicitor's employment last; you say you were about eight weeks at Wichita, and then returned to Lawrence; did you still continue in this special employment?

By Mr. Ware: He did not say he was eight weeks in Wichita.

By Mr. Atwood: His answer was, April, May and June, six or eight weeks. Now, after you came back from there, did you still continue in this special employment, Mr. Wiseman?

A. Yes, sir, I continued during May and the first few days in June.
Q. Where did you go in pursuance of this employment, if anywhere, after you came back from Wichita?
A. I went back to Wichita?
Q. Went back again? A. Yes, sir.
Q. How long did you stay there the second time?
A. Well, I took a trip from Wichita out in the Medicine country; went to old Kiowa from the Medicine Riven some eight or ten miles.
Q. What I mean, of course, I suppose you didn't stay in Wichita all the time, but calling all that you did in
1027 that neighborhood the Wichita trip, how long were you gone on that second trip?
A. Well I devoted my whole time from the time I started first until I should say the first days of June, when I got into a row with attorneys from New York.
Q. That was the time your employment ceased; did you ever go to Fort Madison?
A. No; I passed through there once.
Q. I mean in pursuance of this employment? A. No.
Q. Then you worked in connection with this special employment from the time that you received your directions in Lawrence just after the killing down at Medicine Lodge until the early days of June; that would be all of the month of April, all the month of May, a little bit in the last of March and a little bit in the first of June? A. I think so.

Q. Did you do anything more in pursuance of that employment, Mr. Wiseman, after June? A. No, sir.
Q. You have never been employed by the company in a detective or other capacity of that kind from that time to this?
A. No, sir.
Q. Was any money advanced to you for your expenses at the time you were making these trips and doing this work?
A. I drew drafts for my expenses—

The defendants object to the question and answer as incompetent, irrelevant and immaterial. The Court overruled the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

A. I drew drafts for my expenses on Byron Sherman, the general agent; he honored my drafts, but finally he wrote me that he would not do—
Q. Never mind that now. Your drafts were honored to such amount as you drew them, up to the time your employment ceased? A. Yes, sir.
Q. They were drawn, were thy, to cover the expenses during these trips? A. Yes, sir.
1028 Q. Hotel bills and all sort of things were paid by the insurance company in this way? A. Yes, sir.
Q. What did you get yourself for this work?
A. I got a judgment before Judge Foster.
Q. Did you get the money; judgments don't count unless you get the money? A. The judgment was $760.35.
Q. That was the amount that was paid; you sued for $2500, didn't you Major?
A. Yes, sir, I sued for $2500, but I didn't expect to recover that much.
Q. You thought you would swell it a little bit?
A. Yes, sir, and let the judge cut it down to what he thought was right.
Q. You had a habit of swelling things?
A. One moment: Judge Foster tried it in chambers; it was not a jury trial.
Q. If you had had a jury they would have paid you more?
A. We agreed to leave it to the Judge.
Q. I believe they would. Now, then, you spoke of having a falling out with the company?
A. Yes, not that company.
Q. You were talkng about these letters and you said you were at outs with them or used an expression equivalent to that.
A. They sent an attorney out here by the name of Munn and I and he got into a row.
Q. About your compensation? A. Yes, sir.
Q. Of course, he represented the companies; is that a fact?

A. As I say, I did it through the general agent.
Q. Who was Munn?
A. He represented himself to be an attorney for the Mutual Life Insurance Company of New York.

The defendants object to the question and answer as incompetent, irrelevant and immaterial. The Court overruled the objection to which ruling of the Court, the defendants and each of them at the time duly excepted.

A. He represented himself and transacted business with me as attorney for the Mutual Life Insurance Company
1029 of New York and directly or indirectly, for the New York Life, and the Connecticut Mutual in our discussion of the amount I wanted to get for my services.
Q. He was the one with whom you disagreed as to the amount of your compensation?
A. Yes, sir, and Mr. Barker there, too.
Q. And this disagreement was the cause of this suit that you afterwards brought? A. Yes, sir.
Q. What are Munn's initials?
A. I can't remember them now.
Q. H. B. were they not? A. Probably so.
Q. This employment ceased to exist by this difference between you and Mr. Munn early in June? A. Yes, sir.
Q. Did you use an expression a little while ago, Mr. Wiseman, that from that time on for a while at least, you were at outs with the company or with its management?
A. At outs with Mr. Munn because he hadn't treated me fairly.
Q. When did you get in with the company?
A. I had no dealings directly with the company; I didn't write to them; I had no communication with it only through—
Q. Of course, the company was acting through its agents, wasn't it? A. I suppose so.
Q. Of course, you couldn't have a row with a corporation because it—
A. I think it was Mr. Munn more than the companies.
Q. When was it that your affairs with the company or with Mr. Munn, or with the agents, were so adjusted that you were willing to give information and testimony; when was it that your differences with these people were so adjusted that you were willing to give information to the attorneys for the companies and appear as a witness?
A. I think I testified during that time once or twice.
Q. When was this judgment gotten before Judge Foster?
A. It was some time in the 80s; I can't remember when, but I think there was one or two trials; I know there was one because Judge Foster was familiar with the services I had rendered.

Q. You remember, Major, in your direct examination, when you were talking about letters that were burned in 1894? A. Yes, sir.

1030

Q. You said that you were at outs with the company and would not give them the letters, and did not give them to Green and Barker. When was that?

A. That was during the summer, and all the time from June on when I had the difficulty with Mr. Munn.

Q. Did I understand you to say that this fire that destroyed these letters was in 1894 or 1884?

A. 1894, 19th of November.

Q. You were at outs with the company up to 1894, then?

A. I was not at outs.

Q. You refused to give them information?

A. I am at outs with you about as much as I would be with anybody else.

Q. You and I are not at outs; you and I are good friends; I don't want you to class me with the insurance companies. Now, Major, didn't you use the expression, that the reason you did not furnish these letters to Mr. Green or Barker was that you were at outs with the company and didn't want to give them information?

A. Mr. Green wanted the letters and I wouldn't give him the letters but I let him know that I had at last found out who that man was.

Q. When did he use the expression that he wanted the letters?

A. At the time I got the letters, in 1879, December, immediately after I received them.

Q. Well, had you brought a lawsuit against the companies at that time? A. I can't remember the date.

Q. There were differences between you at that time that were unsettled? A. They were unsettled, anyhow.

Q. Did they ever request you to give the letters to them after that time, December, 1879?

A. I can't remember, but it runs in my mind that I was requested to do and wouldn't do it.

Q. You retained them in your possession notwithstanding they were not addressed to you?

A. I got them from Dr. Morris, and they were mine.

Q. When you took the body or when the body was taken from Medicine Lodge to Lawrence, who directed it to be brought there? A. I did.

1031

Q. What was your purpose in bringing it there; did you have in mind the idea of holding an inquest, or know that an inquest should be held?

A. I understood that an inquest had been held at Medicine Lodge; I wasn't familiar with the law and rules to know, but

I wanted to take him back where he lived and where they knew him to show it was not Hillmon.

Q. I ask you whether or not you had in mind the idea that another coroner's inquest could be or might be held in Lawrence? A. I don't think I did; I didn't know.

Q. Of course, Major, our memories are not as good as they were 20 years ago; when you testified at the other trials, those trials were nearer the time when the matters occurred than to-day; that is a fact, is it not? A. I think so.

Q. And your memory would naturally be better about these things at those earlier trials than at the present time; is not that a fact?

A. It might on some things. On any of the material things I don't think it would be any better than now.

Q. Let me put this question to you, if in 1895, you did not respond to this question in this language: "I will ask you whether or not it was your plan and intention, upon your return to Lawrence, to hold an inquest, or have one held? A. Yes, sir, that was my idea."

A. I don't remember whether I made any such remark as that or not or whether the question ever was asked.

Q. I will ask you if you have any recollection that would serve you as to whether or not you had any thought of an inquest being held in Lawrence?

A. My object; I wouldn't say.

Q. Then, as a matter of fact, if you said that five years ago, it would be pretty apt to be true, would it not, Major?

A. Yes, sir.

Q. Quite natural you should hold an inquest?

A. To the best of my knowledge, at that time, if my memory serves me.

Q. Certainly, that is the only way we can testify?

1032 Q. When you got back to Lawrence, where did you get off the train.

A. At Massachusetts street; at the bridge.

Q. That is, before it reached the depot? A. Oh, yes.

Q. To what place did you go in the city of Lawrence upon your alighting from the train?

A. My recollection is that I went home to my family.

Q. When did you visit Mr. Barker, if at all?

A. I saw him after I had been home and got my breakfast; between eight and nine o'clock; around there.

Q. That same morning? A. That same morning.

Q. And after you had breakfasted, you went directly to Mr. Barker's office. A. Yes, sir.

Q. Your purpose in going there was to employ him to help you in proving it was not Hillmon; is not that the fact?

The defendants object to the question as not proper cross-examination.

By the Court:
I think that portion of the question, about employing him to help in proving it was not Hillmon is not proper.

Q. Did you go to the office of Mr. Barker, Mr. Wiseman?
A. I did.
Q. And your purpose in going there was to hire Mr. Barker as an attorney to help prove that the body that was brought from Medicine Lodge was not the body of Hillmon?

The defendants object to the question as not proper cross-examination. Objection sustained; the plaintiff duly excepts.

Q. For what purpose did you go to Mr. Barker's office at that time?
[Q.] I needed legal advice and I went to him because he was a lawyer, to give me legal advice.
Q. And you showed excellent judgment, for he is a good lawyer. Now, then, in what matters did you feel that you needed advice; personally or as the agent of these companies.

The defendants object to the question as not proper
1033 cross-examination.

By Mr. Atwood:
I am not asking if it was a personal matter of his.

The Court overruled the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

A. I went there on business for the company.
Q. And was the business of the company in connection with this dead body? A. Yes, sir.
Q. And the insurance policies that were upon the life of John W. Hillmon? A. Yes, sir.
Q. Now, I will ask you the question whether or not you went there for the purpose of employing Mr. Barker to assist you in demonstrating that it was not the body of John W. Hillmon. You believed that the body was not the body of John W. Hillmon and you went to Mr. Barker for the purpose of assisting you in demonstrating that it was not the body of John W. Hillmon?

The defendants object to the question as incompetent, irrelevant and immaterial. The Court sustained the objection, to which ruling the plaintiff at the time duly excepted.

Q. As has been suggested, I will put the question this way: If in the course of that employment, you employed him to go to the inquest that was subsequently held, for any purpose?

A. I don't know that I requested him; if there was one held, I expected, of course, him to be there and to attend to the interests of the company for whom I was acting.

Q. When did you first learn that an inquest was to be held?

A. The morning of the third.

Q. Is that the morning the body got there? A. Yes, sir.

Q. From whom did you learn it?

A. I don't remember that.

Q. Did you and Mr. Barker talk over an inquest and the possiblity of an inquest or the propriety of holding one or anything of that kind?

The defendants object to the question as incompetent, irrelevant and immaterial. Objection sustained, the plaintiff duly excepting.

1034

Q. Did you talk over with Mr. Green at any time that morning anything about an inquest?

A. No, sir; I never spoke to him.

Q. Did you see Doctor Morris, the coroner?

A. I saw him; I don't know as I saw him that morning, but I saw him that day to the best of my recollection.

Q. Were you in the office when John Brown was in the office of Mr. Barker being interviewed; were you there, or were you in company with Doctor Morris at the time, at any time, that Mr. Barker was with you?

A. In Barker's office?

Q. Anywhere?

A. I don't exactly understand that question.

Q. Were you and Morris, the coroner, and Barker together at any time that day? A. No.

Q. Were you and Brown and Barker together at any time that day?

A. No, sir; not that I know of; possibly I was.

Q. You have no recollection of it?

A. I can't remember.

Q. You say that you don't remember now where it was you first learned that an inquest was to be held?

A. I learned it that day, that morning, I think; yes, the morning, there was an inquest to be held.

Q. And you went perfectly naturally to Mr. Barker's office?

A. I did.

Q. How long did you stay there, Mr. Wiseman, approximately; of course, you could not tell to the minute?

A. Not very long; perhaps half an hour.

Q. To what place did you go from there, if you recollect? That stirs up a pleasant memory, I should judge, from your smile.

A. I can't remember; you might as well ask me what I had for dinner that day.

Q. You don't remember. A. No, sir.
Q. You don't remember where it was that you first learned that an inquest was contemplated?
A. I learned it in the morning, but where I was or
1035 from whom I first learned it, I could not now state.
Q. You say that while you don't think you told Mr. Barker to go to the inquest, you expected him to do so in the event that one was held; is that a fact?

The defendants object to the question as incompetent, irrelevant and immaterial. Objection sustained, the plaintiff duly excepting.

Q. Was there anybody else besides you in the city of Lawrence authorized to employ attorneys for your company in connection with this Hillmon matter; besides yourself? A. No.
Q. Were you at the inquest? A. Was I at the inquest?
Q. Yes.
A. I was in and out of the court house, where the inquest was being held.
Q. I don't mean that you were there every minute, but you were in and out? A. Yes, sir.
Q. You know Mr. Barker was there? A. Yes, sir.
Q. Acting for the companies? A. Yes, sir.
Q. Now, then, you went to Mr. Barker, and employed him in connection with the companies' business there, in connection with the Hillmon case; that is a fact?
A. Yes, as my legal adviser.
Q. Nobody else but you was authorized to make such employment for the company, and Mr. Barker did appear [—] the inquest for the companies; that is a fact, is it?
A. Yes, sir; to look after the interests of the company.
Q In whose behalf, if anybody's, besides the state's, the government's, did Mr. Green appear, do you know?

The defendants object to the question as incompetent, irrelevant and immaterial and not proper cross-examination. The Court overruled the objection, to which action and ruling of the Court the defendants and each of them at the time duly excepted.

A. He seemed to me to be representing the county of Douglas and the state.
Q. Do you know when it was that Mr. Green became
6310 employed by the insurance companies? A. No.
Q. Mr. Green was there, however?
A. At the inquest?
Q. Yes. A. Oh, yes.
Q. And Mr. Barker was there? A. Yes sir.
Q. You say you don't now remember who it was that first told you about there going to be held an inquest?

A. No, I can't remember.

Q. Now, then, to shift from one subject to another, we will go back to the time that the insurance was issued by you to Mr. Hillmon or upon Mr. Hillmon's life; that was in December, I think you said; I want to get at the name of the month. What month was it in the latter part of 1878, when the policies were issued by you as special solicitor, on the life of John W. Hillmon? A. I never issued any policies.

Q. Took the application?

A. The fifth of December, 1878.

Q. I was in error in the use of words. It has been suggested that you delivered the policy afterwards; is that a fact?

A. Never saw it until I saw it in court.

Q. Now, that policy, is any part, or the whole of it in your handwriting? A. You mean the application?

Q. The application I mean, yes; pardon me.

A. A part of it is my handwriting; the first part.

Q. That is the part wherein you wrote in the figures, under the words, "Feet and inches" in pursuance, as you say in this direction or statement as to his height? A. Yes sir.

Q. Now, as a matter of fact, you have since ascertained he was five feet, nine? A. Yes sir.

Q. Did he at the time that he corrected the matter or at any other time, give you any explanation as to why he had told you he was five feet, eleven inches, when as a matter of fact he was two inches shorter?

A. When I measured him, I did not remember what was put in the application; I did not remember.

Q. The question was this:

A. The application had gone off—

1037 Q. You did not quite catch the purport of my question; my fault of course, and I will repeat it. Did he at any time, either at the time that the application was made out, or at the time it was corrected, at the time he came in and you found out he was five feet nine inches, did he, at any of those dates, explain to you why he should have said he was five feet and eleven inches, when he was two inches shorter?

A. No.

Q. He gave no explanation of that? A. No sir.

Q. As a matter of fact, those two statements were made by him, one that he was five feet, eleven inches, and the other that he was five feet, nine inches?

A. He didn't make a statement that he was five feet, nine; I measured him.

Q. Where did you measure him?

A. In Doctor Miller's office.

Q. Going back to the time the application was made out by you?

A. That was in Griffith's office, in the back room.
Q. Griffith was a banker and insurance man?
A. Local agent of the Mutual Life.
Q. It was in his place of business that the writings were made by you? A. Yes sir.
Q. Now, following the filling up of the application, when you got up to that point, you had to go to some physician for the purpose of having an examination made?
A. Went to Doctor Miller.
Q. How far was it from Griffith's office to Dr. Miller's office to which you went?
A. A little over half a block; about three or four hundred feet.
Q. Did you go with him there? A. I did.
Q. Did Baldwin go with you? A. He did not go.
Q. Hillmon and you went together?
A. After we went out of the bank Baldwin went off.
Q. And you and Hillmon walked up the street together?
A. Yes sir, together.
Q. What is your height or was it in the days you were erect? A. It is six feet, one and a half inch now.
1038 Q. You walked along beside Hillmon at the time you went up to Dr. Miller's office? A. I did.
Q. Were you in the office at the time the examination was made? A. By Dr. Miller?
Q. Yes. A. Yes sir.
Q. You saw the examination in progress? A. Yes sir.
Q. Miller among other things measured Hillmon about the chest? A. He did.
Q. Expanded and contracted? A. Yes sir.
Q. Stood up in front of him at the time it was being done, didn't he? A. Yes sir.
Q. They were both in your view at that time; that is a fact? A. Yes.
Q. Did you go anywhere with him after you left the doctor's office? A. With Hillmon?
Q. With Hillmon.
A. It was about dinner time and I walked out and I went home to dinner.
Q. Now, then, how many times did you see him, if at all, during the next week? A. Who?
Q. Hillmon.
A. I can't remember exactly how many times.
Q. Oh, no, of course, nobody can do that, but approximate it?
A. I must have seen him not less than half a dozen times.

Q. You both had been soldiers, I think you said?
A. I was and he said he was.
Q. He had the same statement from you that you had been; each told the other that you had been soldiers? A. Yes sir.
Q. And this acquaintance formed at Griffith's office, ripened into something of an acquaintance so that you use to stop on the street when you met and tell stories; is that a fact? A. Yes sir.
Q. Now, then, how long did you serve in the army, Major?
A. Four years and four months.
Q. In that capacity you had lined up men in front of you and looked at them a considerable number of times?
A. A good many of them.
1039 Q. Despite the fact of your observing men as you were obliged to do in your official capacity in the army, and despite the fact that you walked beside, and talked to this man in the way you have described, and stood up in front of him, you did not suspect that he was two inches shorter than he stated, during all the time, until he came to you to be measured; is that a fact?
A. When I measured him I never thought about the statement made in the application; it was gone, and I never kept it in my mind at that time.
Q. Did you make any minute or note of the measurement?
A. I did not.
Q. Now, where was that measurement made?
A. At Dr. Miller's office.
Q. What time do you fix that date, if you can fix it?
A. I got pretty well acquainted with him; I could not say positively as to whether it was in December or January.
Q. Did you measure him more than once or only once?
A. Only once.
Q. What time do you fix as the date as your best recollection serves you?
A. In 1878 or 1879, but to tell for certain what month or what day, I could not do that.
Q. Who took the measurement of him? A. I did.
Q. Doctor Miller present at the time? A. He was.
Q. To refresh your recollection, if Doctor Miller should say that it occurred on the 17th of December, 1878, how would your recollection serve you on that point, then?
A. I should take it for granted it was so.
Q. That it was the 17th of December, 1878? A. Yes sir.
Q. Is it your independent recollection, though?
A. It must have been about that time, somewhere from the 15th to the 20th of December, 1878; just as likely to have been then as later.
Q. You measured him but the one time? A. Yes sir.

Q. Did Dr. Miller make any note of the measurement at that time? A. Not that I know of.

Q. You have no recollection of any? A. No.

1040 Q. Did you communicate to the company the fact of the measurement? A. I did not.

Q. Now, as a matter of fact, the application of this particular man had gone on to the company and was in the application as indicating that the insured was five feet, eleven?

A. It had perhaps.

Q. You knew so, at that time, didn't you?

A. I never thought any more of it after I wrote it down; I don't suppose it entered my head again, the fact as to his height.

Q. What was the occasion of his being measured by you in Doctor Miller's office this time?

A. We were talking about our respective heights, and Dr. Miller was measured, I was measured and Hillmon was measured.

Q. You three alone in the office together? A. Yes sir.

Q. Doctor Miller was one of the examining surgeons of your company? A. Yes sir.

Q. While you are speaking of doctors, Dr. Mottram, who was also at the inquest, was another? A. Yes sir.

Q. And Doctor Stuart was another? A. No.

Q. He was the Connecticut Mutual doctor?

A. I don't know.

Q. Speaking of the inquest and the doctors there, at least three of them were Miller, Stuart and Mottram; is that a fact?

A. I don't know that I knew Doctor Stewart then.

Q. But Doctor Miller and Dr. Motram were both at the inquest, were they not? A. I can't say.

Q. In any event, those two men were both employed by your company as examining surgeons? A. Yes sir.

Q. And it was in the office of one of them, Doctor Miller, that this measurement took place?

A. One moment: I can't recollect positively whether they were there, but I believe they were at times.

Q. At the inquest? A. Yes sir.

Q. Of course, there is no dispute about that, but it was in the office of Doctor Miller that the measurement you have spoken of took place? A. Yes sir.

1041 Q. There was no application being made at that time? A. No; oh, no.

Q. You were merely visiting there, so to speak?

A. Oh, yes, talking.

Q. It was a social call? A. Yes sir.

Q. You were there in a social way and Hillmon was there in a social way? A. Yes sir.

Q. And Doctor Miller, the examining surgeon, of the company, was the host? A. He was.

Q. And while you were there, you chanced to get to talking about your comparative heights? A. Yes sir.

Q. And for the purpose of determining what the respective heights were, each of you measured? A. Yes sir.

Q. You ascertained, and it was that that fixed in your mind the height of Mr. Hillmon?

A. Well, like anything else I remember.

Q. Did you make a mark on the door post? No answer.

Q. What is Miller's height?

A. Miller was about five feet, ten; he was a little taller than Hillmon.

Q. Was he exactly five feet, ten, do you think?

A. Ten or ten and a half.

Q. You say that you made no minute of it? A. No.

Q. And you made no report of it to the company?

A. No sir.

Q. Didn't know that it was material and you made no minute of it? A. No.

Q. It just occurred in the way of a social exchange of ideas? A. Yes sir.

The hour of 12 m. having arrived, the Court arose and took a recess until 1:30 o'clock p. m.

Afternoon Session. Parties present as before.

Major Wiseman on the stand. Cross interrogatories continued by Mr. Atwood, counsel for the plaintiff.

1042 Q. Mr. Wiseman, is this the application that was filled up by you. You can tell by your handwriting, I presume. A. Yes, sir, that is my handwriting.

Q. Let me call your attention to— You see under the sub-division, "Describe color of eyes and hair and special marks of identification," a description of his eyes; that is true, is it not? A. Yes.

Q. Hair brown? A. Yes.

Q. Marks of identification, None; that is right, is it?

A. Yes. That is not in my handwriting.

Q. It is not? A. No sir.

Q. Whose handwriting is that, do you [—]?

A. It looks like Dr. Miller's.

Q. What part of the application did you fill up?

By Mr. Ware: Then we want that withdrawn from the jury, if what he has been testifying to is the observation of Dr. Miller.

By Mr. Atwood: We don't care.

Q. Were you present at the time this application was made; you say that is not your handwriting? A. No.

Q. Were you present at the time this application was filled out, that is, the portion that was filled out by somebody else?

A. No sir. Allow me explain. Dr. Miller made some memoranda on some paper, and he wanted me to come back and get the application when he completed it, and when I went back he handed it to me.

Q. Was it filled out altogether when you came back?

A. I suppose it was; he handed it to me; it was filled out, and sent by me.

Q. Do you know his handwriting well enough to know whether this is his?

A. That looks like his handwriting; that is my recollection of his handwriting.

Q. You have seen his handwriting, Dr. Miller's before?

A. Oh, yes.

Q. And in your judgment this is his handwriting?

A. It looks to me like it.

1043 Q. Did you ever notice any scar on Hillmon's hand?

A. Not that I know of.

Q. Never noticed anything of that kind? A. No sir.

Q. And as to the tooth business, I think you said that one was gone; on which side did you say?

A. The upper left jaw.

Q. That was quite noticeable when he laughed or talked?

A. In talking, yes, when his lips went apart, it was noticeable especially so.

Q. This absent tooth? I didn't quite understand whether you said the tooth was gone or was marked.

A. It was either broken off right close to the gum or gone entirely. I don't remember whether there was a snag in the gum, or not. I couldn't say.

Q. Do you remember of stating on one trial that it was not ordinarily noticeable? A. I have no recollection.

Q. Is it a fact that it was or it was not noticeable ordinarily?

A. When he was conversing or laughing and his upper lip went up, then it was very noticeable, yes sir.

Q. Every time he spoke would it be noticeable?

A. I don't know as every time he spoke; you might say when he would say "Yes" or something like that, it would not be noticeable.

Q. But in a prolonged conversation it was noticeable?

A. Yes.

Q. Going back to Medicine Lodge for a minute. State whether or not you sent a telegram to one of the company's agents or some person up in Lawrence?

The defendants objects to the question as incompetent, irrelevant and immaterial, and not proper cross-examination.

[A.] The question is, a telegram in relation to this Hillmon business up there; I am not asking what it was, but just whether it related to the matter that we are considering.

The Court overruled the objection, to which action and ruling of the Court the defendants and each of them then and there duly excepted.

1044 A. Yes sir. I sent a telegram from Hutchinson.

Q. Outside of this one tooth, how were the balance of his teeth, Major? A. They were reasonably fair.

Q. Nothing very noticeable about them in the way of their being bad?

A. Nothing that I now remember of: they were not as regular as some sets of teeth, yet the balance—

Q. I think you said Hillmon's mustache was a heavy one on your direct examination? A. It was heavier than—

Q. State whether or not you did describe it as a heavy mustache, and whether or not that is a proper description?

A. My recollection is that I described it as stubby, and different from that man's (illustrating). That is my recollection.

Q. I ask you now whether or not it was a heavy mustache; what you call a heavy mustache?

A. What I call a heavy mustache?

Q. I will ask you to state whether or not you did—what was the time you were examined here in part; last Friday, was it? A. Last Friday, yes.

Q. State whether or not you then said it was a heavy mustache? A. I have no recollection of sayinog that.

Q. What do you say was the color of the hair of Mr. Hillmon? A. They were brown; that I call brown.

Q. It was brown hair? A. Yes, sir.

Q. At this coroner's inquest, you say you were present some of the time? A. Yes, sir.

Q. And Doctor Miller, one of the company's examining surgeons was present part of the time? A. Yes, sir.

Q. That would be your best recollection? A. Yes, sir.

Q. And that Doctor Motram, another one of the examining surgeons of your company was present part of the time?

A. I believe he was; I would not be—

Q. And that Mr. Barker, whom you had employed in connection with this matter was present?

A. He was present; I can't say all the time I was
1045 in and out; sometimes I would see him.

Q. Did you testify at the inquest? A. Did I?

Q. Yes? A. Oh, no.

Q. You at that time knew that the body was not the body of John W. Hillmon? A. I did.

Q. You knew that the inquest was being held for the purpose of determining the identity of that body, didn't you?

A. Yes, sir.

Q. You knew that Mr. Barker was there for the purpose of looking after the interests of the company, didn't you?

A. I had employed him to look after the interests of the company and I presume he was.

Q. And yet you didn't testify at that inquest that it was not the body of John W. Hillmon, did you?

A. I didn't testify that I remember of, no.

Q. Referring to your compensation: After you had sued for $2500 and Judge Foster didn't treat you right, I want to ask you if it is not a fact that you did enough labor, performed services, I mean, there under that special employment, so that you deemed you were entitled to receive, and that you had earned $2500?

The defendants object to the question as incompetent, irrelevant and immaterial and not proper cross-examination. The court sustained the objection, to which action and ruling of the Court the plaintiff at the time duly excepted.

Q. Now, you have already stated Mr. Wiseman, that you did not think that body was the body of John W. Hillmon?

A. Yes, sir.

Q. State whether or not at any time you claimed that that body was the body of a man by the name of Joe Burgess?

A. No, I didn't claim it; I heard that it resembled—the pictures were shown parties that said the pictures resembled a man by the name of Joe Burgess.

Q. You investigated the matter until you found Joe Burgess? A. No, I never found Joe Burgess.

Q. You found it was not Joe Burgess?

A. I was satisfied after I traced up matters it was
1046 not Burgess; he was alive; I heard from parties who saw him.

Q. Didn't you afterwards go upon the supposition and theory that it was the body of a man named Nichols?

A. I thought it was Nichols, yes. I met him on the depot platform at Topeka, and he had heard of my hunting him, and he came up and introduced himself to me and said his name was Nichols; he was in the employ of the Santa Fe road as a detective at that time.

Q. So that it turned out neither Joseph nor Francis?

A. How is that?

Q. Neither Mr. Burgess nor Mr. Nichols?

A. I was satisfied it was neither of those after investigating.

Q. The seven hundred dollars that you received was a part and separate from the expense money you have described this morning as having been drawn upon the company? A. No.

Q. I understood you drew upon the company to pay your traveling expenses?

A. I drew upon the general agent, but what I had drawn from him was taken from the judgment.

Q. Out of the seven hundred dollars? A. Yes, sir.

Q. When was the time that the judgment was obtained and settlement finally made?

The defendants object to the question as not proper cross-examination.

By the Court: I think you have gone far enough with that.

To the ruling of the Court, the plaintiff duly excepted.

Q. Do you know a man by the name of A. J. Phillips who resides in Lawrence?

A. I do. I know a man by the name of Phillips, Dr. Phillips, I don't know his initials.

Q. Do you know more than one man in Lawrence by the name of Philips, one who is not a physician?

A. Yes, I know two.

Q. I will ask you then this question: Whether or not you met A. J. Phillips, who now resides in Lawrence, whether or not you met him in the stable of Colonel Walker, or Mr. Walker, in the City of Lawrence, on the day or the even-

1047 ing of the day that the body arrived in Lawrence—

A. I didn't know him then.

Q. Just answer the question, whether you met him or not?

A. I have no recollection; I might have met him without knowing it.

Q. You say you did not meet him on that occasion?

A. I have no recollection.

Q. I will ask you whether or not you met him the next day at that place? A. I don't recollect.

Q. Now, I will ask you if at that time, on the day that the body arrived, or on the succeeding day, in the office of the stable of Sam Walker, you asked him whether or not he was an officer, and he answered that he was?

A. I have no recollection.

Q. And then, whether or not you asked him the question, or rather made the remark, "Well you are the man I am looking for," and that you further said, that you wanted him to shadow Brown. Did you make any such statement to a man named Phillips or to any man at that time and place?

A. No recollection.

A. Did not? A. No, sir.

Q. Then, whether or not the man asked you if you wanted him to arrest Brown if Brown started to leave town; was that question asked?

Q. I will put the whole question in this way, and make it more clear, I think, to the Court: Whether or not he asked you if you wanted him to arrest Brown if he was about to leave, and you said "No, that is just what we want; we want him to leave." That is the question I desire to ask.

The defendants object to the question as incompetent, irrelevant and immaterial. The Court overruled the objection, to which action and ruling of the Court, the defendants and each of them at the time duly excepted and still except.

Q. Do you understand my question?

A. You asked me if I had a conversation of that character with Phillips?

1048 Q. Yes, that is the substance.

By Mr. Barker: Our contention is that it is not cross-examination. If they ask a question of that kind they make the witness their own, and cannot be heard to contradict him. The court overruled the objection, to which ruling the defendants and each of them at the time duly excepted and still except.

Q. If he asked you if you wanted him to arrest Brown if he was about to leave, and you said, "No, that is just what we want; we want him to leave town." Did you hear the question, Mr. Wiseman? A. I did.

Q. Will you answer yes or no. A. I can't answer yes or no; I want to have—

Q. You can answer that question yes or no; it is a categorical question and I have the right to a categorical reply.

A. I had no such conversation with Phillips.

Q. Now, the question is as follows: State whether or not he then did not say to you that if you wanted him arrested and would get out a warrant for his arrest, that he would do his duty and take him into custody immediately, that otherwise, that he would have nothing to do with running off witnesses. Did he say that?

A. I have no recollection of any such thing.

Q. And did you not then say to him that the companies did not want something for nothing, and that if he would perform this service, he would be well paid. Was anything of that kind said? A. No, sir.

And in answeer to re-direct interrogatories propounded to him by E. F. Ware, Esq., counsel for the defendants, the witness testified as follows, to-wit:

Q. Do you remember any such a conversation with such an alleged person?

A. I have no recollection at all that I had such a conversation as that with Phillips or anybody else.

1049 Q. Were you engaged in running off any witnesses anywhere?

A. No, I was engaged in trying to get witnesses.

Q. Did you want this man Brown to leave town?

A. No, sir, I did not; I wanted him arrested, if anything.

Q. Did you see Brown on or about that time?

A. I saw him at the inquest.

Q. At the inquest?

A. Yes, up to the latter part of the week, Saturday, probably.

Q. You were in Lawrence on the day that the body arrived and the next day, were you? A. Yes, sir.

Q. During those two days, did you have any conversation with anybody in Lawrence in any wise resembling the conversation which has just been asked of you on cross-examination by Mr. Atwood?

A. No, I had not; not of that character.

Q. They have asked you in their cross-examination concerning a man named Nichols. A. Yes.

Q. How long did you say you looked for him?

A. Oh, probably a week off and on, or ten days.

Q. Where did you say you found him?

A. I found him sometime after that on the platform at the depot at Topeka when I was going up on the train and he introduced himself to me; that was the first time I met him. He said, "I understand your name is Wiseman." I said, "Yes." He said, "I understand you have been looking for me," and he made some remark, "I don't look much like a dead man, do I," and I said "No."

Q. You have been asked in regard to a person by the name of Burgess. A. Yes.

Q. How long did you look for him?

A. I looked for him some length of time after I dropped the Nichols matter and had heard of him.

Q. You said that you found persons who said they had seen him alive?

A. I never saw him alive that I know of, but I saw
1050 a party who told me that they had seen him since the shooting at Medicine Lodge, and then I dropped that.

Q. Did they tell you where they had seen him? A. Yes, sir.

Q. When did you first hear the name of Joe Burges mentioned? A. Down at Wichita.

Q. About what date?

A. Well, it was during my visit there in April, I think, to the best of my recollection.

Q. I believe you said you were in the government service from 1869 to 1875. What place did you say you held?

A. I was a U. S. Guager of liquors.

Q. There has been some testimony here of some litigation between yourself and an insurance company; I will ask you whether or not the second trial of this case took place while your litigation was pending; the second trial, if you remember.

A. I could not positively state; I know of one; I am sure of that, before Judge Foster.

Q. I will ask you, Major, whether you attended those first two trials as a witness? A. I did.

Q. Did you attend voluntarily or under a subpoena.

A. I came under a subpoena.

Q. Were subpoenaed, were you?

A. Yes, sir, at least, that is my recollection.

Q. Referring to the coroner's inquest. You say you saw Mr. Barker there. A. Yes, sir.

Q. Did you see Mr. Borgolthaus there. A. I did.

Q. How much of the time were you present during the inquest?

A. I was in and out; in sometimes half an hour and then maybe in five minutes at a time.

Q. You did not testify at the coroner's inquest? A. No, sir.

Q. Referring to the Fort Madison letter and the letter received from Mr. Walker which enclosed it. I will ask you whether you showed those to Mr. Green? A. Yes, sir.

Q. How near to the time at which you received the
1051 letters did you show them to Mr. Green?

A. Immediately. I went right up to his office.

A. I was on the way up Massachusetts street, and his office was in the bank building on the corner, and I went right in there.

Q. Was he county attorney at that time, do you remember?

A. I could not say; he had been but whether he was at that particular time, I cannot remember.

Q. I will ask you, Major, whether or not you told Mr. Barker to go and be present at that coroner's inquest?

Question objected to and withdrawn.

Q. Do you know whether or not at the time that Mr. Hillmon was measured in Doctor Miller's office, whether or not Doctor Miller at that time made any note or memorandum of the fact in a book? A. I do not.

Q. You did not see him? A. No, sir.

Q. I will ask you whether or not you carried in your mind the height of Mr. Hillmon as he gave it to you on the first application. A. No, I did not.

Q. Did you have in mind when Mr. Hillmon was measured, the height that he gave you when you took the application?

The plaintiff objects to the question as incompetent, irrelevant and immaterial. Objection overruled the plaintiff duly excepting.

A. No, sir, I did not.

Q. Had you taken more than one application from Mr. Hillmon? A. I had not.

Q. Had you been engaged in the insurance business from the time that you came to Lawrence in December 3rd, 1878, up until the time you went to Medicine Lodge?

A. Up to the time I left Osage City on the 27th; I was there soliciting at Osage City, and then I quit on the—

Q. To look up this matter? A. Yes, sir.

Q. During that time, from December 3rd, 1878, until you left Osage City, you had been engaged in canvassing for life insurance?

1052 The plaintiff objects to the question as incompetent, irrelevant and immaterial. Objection overruled, the plaintiff duly excepting.

A. Yes, sir.

Q. Was it any part of your duties in working for the insurance company to send or deliver the policy? A. No.

Q. You had nothing to do with the policy?

A. No; well—

Q. Do you know when the policy came to Mr. Hillmon?

A. One moment: In towns where I obtained insurance, and we had no agent, then sometimes they were sent to me to deliver, but when we had an agent it was sent to him, and he done the delivering, and collecting and I had nothing to do with that.

Q. Going back now to your search for Nichols and Burgess. I will ask you when that search terminated as to those two persons?

The plaintiff objects to the question as incompetent, irrelevant and immaterial. Objection overruled, the plaintiff duly excepting.

A. It terminated some time in May to the best of my recollection. Yes; May.

Q. How long had your search for Nichols and Burgess terminated before the Fort Madison letter was received by you?

A. Oh, seven months or so; eight months.

And in answer to recross-interrogatories propounded to him by J. H. Atwood, Esq., counsel for the plaintiff, the witness testified as follows, to wit:

Q. You say that where there is an agent in a place, policies were sent to him and he delivered, and collected?
A. Yes, sir.
Q. You didn't have to bother with it in this instance?
A. No, sir.
Q. Who was your agent at Lawrence at that ime?
A. Mr. Griffith, the banker.
Q. He was the agent of the company there? A. Yes, sir.
Q. You mean G. W. E. Griffiths, the man that is in the bank? A. I believe that is the initials.

1053 Q. Then he was not a mere broker of insurance, but your agent for this purpose?
A. He was an agent under Byron Sherman, the general agent, yes, sir.
Q. When was the premium paid, when the application was made or when the policy was received?
A. Sometimes they made payment when I took the application so as to be sure to be indemnified after examination: sometimes it was not done; it differed; it depended upon what I recommended in my letter of advice.

Witness excused.

1054 Dr. J. H. Stuart, a witness produced by the defendants, being first duly affirmed to testify the truth, the whole truth and nothing but the truth, in answer to direct interrogatories propounded to him by James W. Green, Esq., counsel for the defendants, testified as follows, to wit:

Q. You may state your name?
A. My name is J. H. Stuart.
Q. Residence? A. Minneapolis, Minnesota.
Q. Where were you residing in 1878 and 1879?
A. I was residing in the town of Lawrence, Kansas.
Q. When did you remove there to Minneapolis?
A. In the month of February, 1882.
Q. What is your occupation? A. Physician.
Q. How long have you been practicing medicine?
A. Thirty-one years.
Q. Of what university or school are you a graduate?
A. Of the Bellevue Hospital Medical College, New York.
Q. Did you practice your profession in Lawrence at the time you were residing there in 1878 and 1879? A. Yes, sir.
Q. How long had you been residing in Lawrence at that time? A. What time do you mean?
Q. In 1878, say, or 1879. Put it in 1879?
[—] I removed to Lawrence in the spring of 1872.
Q. Were you acquainted with a man by the name of John W. Hillmon? A. Yes, sir.
Q. Where did you become acquainted with him?

A. I first met him in a building on the corner of Winthrop and Massachusetts streets, opposite the post-office.

Q. Who was with you, if any one, at that time?

A. Mr. Selig, August Selig.

Q. Were you introduced to this John W. Hillmon at that time? A. I was.

1055 Q. Where did you go with him, if to any place, after the introduction? A. I went with him to no place.

Q. Did you afterwards meet him? A. Yes, sir.

Q. Where? A. I met him in my office.

Q. Was that the first time you met him after your introduction on the street? A. I think it was.

Q. What was the business which brought him to your office?

A. It was for the purpose of an examination for life insurance.

Q. Were you examining physician at that time for any life insurance companies; if so, state which one?

A. I was examining an applicant occasionally in the New York Life.

Q. Now, did you at that time examine him for a life insurance policy? A. At which time do you refer?

Q. At the time you met him at the office?

A. At my office, yes.

By the Court: Were you examining physician for the Mutual Life or the Connecticut Mutual at that time?

A. The first time—I examined him a number of times, was for the New York Life at the office of Mr. Selig before mentioned.

By the Court: My question was, were you examining physician for either of the other companies?

A. Not by regular appointment.

By the Court: Did you ever perform service, as such?

A. I did, yes.

Q. The first time you ever examined John W. Hillmon for life insurance, where was it?

A. It was in Mr. Selig's office on the corner.

Q. Now, when was that with reference to your having been introduced to him on the street?

A. Excuse me, I was not introduced to him on the street; I was introduced to him in Mr. Selig's office in a building on the corner of Massachusetts and Winthrop streets.

Q. I understood you to say before—I was mistaken probably—that you met him on the street and were introduced to him there?

A. No, sir, you misunderstood me; I did not say so.

Q. You then, as I understand you, met him first and

1056 were introduced to him in the office of Mr. A. L. Selig,

which was located in a building on Massachusetts street; is that correct? A. That is correct.

Q. Now, for what purpose did you go there to Selig's office?

A. I went there for the purpose of examining him.

Q. Now could you give me the date of that examination?

A. It was on or about the 31st of October, 1878.

Q. Look at the paper now shown you, and which is marked Exhibit A, and state what paper that is, please?

A. On this side it is the medical examiner's report on the application of John W. Hillmon for insurance in the New York Life; on this side, it is, I presume, the application by the agent.

Q. Give the date of the paper, please, doctor.

A. This is dated Lawrence, Kansas, 31st day of October, 1878.

Q. Now, did you examine John W. Hillmon for life insurance on that day, doctor? A. Yes, sir.

Q. Now, at that time, doctor, what examination, if any, did you make of John W. Hillmon?

A. I questioned him in regard to his history, personal history, his state of health, present condition, and then I examined him physically by inquiring of him for his height, measuring the circumference of the chest on expansion and expiration feeling of his pulse, counting the number of beats.

Q. Was that part of your duty as examining surgeon?

A. Yes, sir.

Q. Did you make a minute of that at that time?

A. I did.

Q. Is that contained in this paper, Exhibit A?

A. Yes, sir.

Q. Now, when did you next see him, if you saw him at all?

A. The next occasion on which I saw him was I think on or about the 4th of December following, the same year.

Q. Where did you see him at that time? A. At my office.

Q. Who accompanies him there, if any one?

A. Mr. A. L. Selig.

Q. What was his business, if any, at your office at that time? [Q.] To be again examined for life insurance.

Q. In what company?

1057 A. The same company, I think.

Q. Look at the paper now shown you marked Exhibit B, and state what that paper is?

A. That is a similar paper to the one described before. On this side is the medical examiner's report on the application for life insurance of John W. Hillmon in the New York Life, signed by myself, and filled out, bearing date Lawrence, Kansas, December 4th, 1878.

Q. Now what examination, if any, did you make of Hillmon at that time?

A. A similar examination to the one made before.

Q. What do you mean by similar; state what you did?

A. I filled out the same data that was filled out in the previous one.

Q. State what examination you made at that time?

A. Examined him as to his pulse, as to his chest measurements, his height, weight, color of his hair and eyes.

Q. Now, on the 31st day of October, did you examine him as to his height?

A. I made no measurement of him.

Q. How did you arrive at the fact of his height?

A. By his statement; by asking him and taking his statement.

Q. As I understand you, you did not measure him at that time? A. I did not.

Q. In regard to his chest expansion and contraction; did you measure him in regard to that? A. On what date?

Q. On the 31st day of October?

A. Yes, sir; I measured his chest.

Q. Now, in measuring him, in making his chest measurements, what did you do?

A. I took a tape line, an ordinary tape line, and passed it around his chest about the nipple, in the neighborhood of the nipple, and took two measurements, one on full expiration, and the other an ordinary measurement, or what we would call the smallest size.

Q. After you had done that, what did you do?

A. I wrote down the data.

Q. Where.

In that application; in the medical examiner's report.

1058 Q. Now, on the fourth day of December, when you say you examined him again for a policy, what did you do in regard to his height, if you remember?

A. I simply took his statement as I did on the previous occasion.

Q. What did you do in regard to the other measurements?

A. Those measurements were made in the office.

Q. That is to say, you measured his chest measurements again? A. Yes, sir.

Q. Both in the ordinary state and expansion. A. Yes sir.

Q. Did you weigh him at that time or either of those times?

A. No.

Q. Now, did you examine him on that occasion for any other company? If so, state what company. Excuse me, what date is that?

Q. When I say that occasion, I mean December 4th, 1878.

A. I think I did; I am not absolutely certain about that.
Q. For the purpose of refreshing your memory, I will ask you to look at Exhibit No. 5, and state what it is. You now have in your hand, exhibit 5. State, if you please, what that is?
A. This is questions to be answered by the medical examiner of the Connecticut Mutual Life Insurance Company on the application of John W. Hillmon, filled out on the 4th day of December 1878, and contains a description of the body as required by that company, including his height.
Q. Who acted as examining physician in that application?
A. I did.
Q. Now, what examination did you make of John W. Hillmon at that time? A. I recorded his height.
Q. Where did you get his height from?
A. From his statement. The first figure is weight.
Q. Did you weigh him at that time?
A. I did not; I took his statement. The circumference of his chest under forced expiration and under forced inspiration. The requirements of the two companies were slightly different.
Q. Did you take the actual measurement of the chest measurement?
1059 A. Well, I presume on this date—I am unable to say that I measured him twice; I should not think I did, at the same time. I think I measured him once and took his statement; I am unable to say that I measured the man twice; I don't think I measured him twice on that day.
Q. Then I understand you measured him once, and then from that you made out such data as you put in the Connecticut Mutual application? A. Yes, sir.
Q. Was his application for a policy in the New York Life, or his examination, rather, for a policy in the New York Life, and in the Connecticut Mutual, made on the same day?
A. Yes, sir.
Q. The fourth day of December?
A. The fourth day of December.
Q. Where did you see him on that occasion?
A. The fourth of December?
Q. Between the 31st day of October, and the fourth day of December, did you see him between the 31st day of October, and the 4th day of December?
A. I have no recollection of seeing him.
Q. You did see him on the 4th day of December?
A. I did.
Q. At your office? A. I did.
Q. Did any one accompany him there at that time?

A. Mr. Selig.
Q. Who was Mr. Selig?
A. Mr. A. L. Selig was a citizen of Lawrence.
Q. Living there in Lawrence? A. Yes, sir.
Q. Now, you may state if you examined him for a policy at any other time that you remember, doctor? A. I did.
Q. When was that as near as you can tell us?
A. On or about the 24th day of December following.
Q. Do you remember what company that was in?
A. I think it was in the Connecticut Mutual, also.
Q. Look at the paper which has been marked plaintiff's exhibit No. 7, and state, if you please, what that paper is?
A. This is the paper of examination for the Connecticut Mutual Life Insurance Company, on the life of John W.
1060 Hillmon, filled out on the 24th of December, 1878, and the same data and requirements as the one already described, filled out by myself on that date.
Q. Now, in making that examination, what did you do in regard to his weight?
A. I took the same data that I did on the 4th day of December.
Q. Did you take from his statement, or from a former paper or from your recollection?
A. From my records; from my former records in the case.
Q. Now, in regard to the height; how did you arrive at his height on that occasion?
A. In the same manner as on the previous occasions.
Q. What manner is that, please?
A. Well, it was on his statement. He had stated his height and his height was carried along in the statement and filled into the several applications.
Q. How about his chest measurements?
A. I think they were on this occasion taken from a previous examination; the same data taken in the fore part of this present month. That is, the application of the 24th of December, was in every respect a copy of the other, a copy of the one made on the 4th of December.
Q. Now you may state if, at any time, you measured him on his application for insurance again? A. I did.
Q. About what time was that?
A. That was on or about the 25th day of February, following, 1879.
Q. Look at the paper now shown you, which is plaintiff's Exhibit No. 8, and state what that is?
A. This is the examiner's record of the application of John W. Hillmon for insurance in the Connecticut Mutual Life Insurance Company bearing date the 24th of February, at the top and at the bottom the 25th of February, 1879.

Q. Is the medical examiner's report there also?
A. This is the medical examiner's report, signed by myself.
Q. Now, on that occasion—you may state whether he was present when that application was made?
A. He was.
1061 Q. You may state how you arrived at his weight at that time?
A. I took his statement as on the previous occasions.
Q. Did you measure him on that occasion? A. I did.
Q. How did you measure him? A. His height, you mean?
Q. Yes.
A. Measured him by a scale. I do not wish to be understood as stating in this answer that the measurement recorded in this paper was made on the 24th, or the 25th, certainly; it was made on my measurement of his body.
Q. But the question I asked you was, did you measure him at the time that he [—] the application for insurance?
A. I did measure him.
Q. At the time you made out that medical report?
A. That was my statement that I made awhile ago, that I measured his body for the data given in this certificate; my impression is I made it on the 24th of February, 1879; the statement of his height.
Q. You say you measured him then by a scale. What do you mean by a scale?
A. I had on my office door the data of feet and inches marked so that I could stand the applicant up against the door, and with a square over his head, mark his height on that scale, and read it from the scale.
Q. Now, how did you measure Hillmon at the time you measured him? A. In that manner.
Q. In what manner?
A. I had him stand with his back against the door on which this scale was marked and indicated his height by a book, I think it was; I generally used a square like that laid on his head, and marked upon the scale the lower edge of the book, which indicated his height.
Q. What did you find him to measure at that time?
A. Five feet and nine inches.
Q. Now, by examining the paper which is marked Exhibit No. 8, under the figures in the beginning of the medical examiner's report, under the word "height," I find the figures, 5 feet, 11. I will ask you who put those figures there?
A. The 11 is not in my handwriting; I did not put it there.
1062 Q. What did you put there? A. I put the figure 9.
Q. Did you put the figure 5 there?

A. I put the figure 5 there before the feet; 5 feet. Before the "I," I put the figure 9.

Q. When did you first discover that the 9 had been changed, doctor?

A. I think it was at Topeka, on the occasion of the trial of this case before Judge Thomas.

Q. Some time during that trial? A. Yes sir.

Q. Where were you when you discovered it, if you remember?

A. It was at the hotel at which I was stopping. The name has just passed from me.

Q. Throop? A. Yes, the Throop Hotel.

Q. Who was present? Did you discover it?

A. Yourself, Mr. Green.

Q. Any other persons there that you remember?

A. Yes sir.

Q. Who else?

A. Mr. Barker; I think Mr. Barker was there, and there were two or three others in the room I don't remember.

Q. Did you discover it or was your attention called to the fact that there was an apparent erasure there?

A. My attention was called to it; I did not discover the fact.

Q. Do you remember who called your attention to it?

A. You did, yes sir.

Q. Who was present, if any one, at the time you measured John W. Hillmon at your office? A. Mr. Selig.

Q. Did Mr. Selig come there with Mr. Hillmon, or was he there? A. He came with Mr. Hillmon.

Q. Do you remember on what day that was?

A. No, I am not sure about the date in regard to the measurement.

Q. Now, as I understand you, you examined him on the 31st day of October. For how much was that application made, if you remember?

Objected to as not the best evidence. Question not pressed.

Q. Now, when did you see John W. Hillmon the last time?

A. It was on the 25th of February, 1879.

[—] I think you said there was one application on the 31st of October, two applications on the 4th day of Decem-
1063 ber, one on the 24th of December, and one on the 24th of February. Was there any application made, do you remember, between the 24th of December and the 25th of February?

A. No sir, I made no examination between the 24th of December and the 25th of February.

Q. When was the examination made on the application as evidenced by exhibit No. 7?

A. When was the examination made?

Q. Yes. [—] The 24th day of December, 1878.

Q. Now, from the 24th day of December up until the time that you took the application in Feruary, had you seen John W. Hillmon at all? A. Yes sir.

Q. When did you next see him after you took his application on the 24th day of December?

A. I could not give you the date; it was the middle or late, I think February, at least. I think it was during the month of February sometime; I could not give you the date.

Q. Look at the certificate or paper which is pinned to exhibit No. 7 and state what that is?

A. This is a certificate of vaccination made by myself, bearing date February 25th, and signed by myself.

Q. By refreshing your memory from that paper, fix the date if you can, about when you saw him after the 31st of December? A. The 24th of December?

Q. The 24th day of December?

A. Well, I can tell circumstances that will fix—

Q. Can you tell about the date?

A. It was during the month of February; I could not give you the date certainly.

Q. Can you approximate to it from that certificate?

[Q.] He was to see me a number of times previous to the 20th of February, 1879, on the preceding days, running over a number of days; I don't know how many, perhaps a week or ten days, maybe, more or less.

Q. Now, you say you saw him frequently during that time?

A. I did.

Q. Where did you see him?

A. Some of the times in my office and some of the

1064 times near my office on the sidewalk.

[—] What was his business at your office, if anything?

A. His business on those occasions, all of them, I think, a number at least, most of them, was to consult me in regard to the effect of vaccination.

Q. Do you know whether he had been vaccinated previous to that time? A. He had not.

Q. Why was he consulting with you, if you know, if he stated to you why he was consulting with you upon that subject at that time?

A. It was necessary that he should be vaccinated, in order that his policies in the companies, some of them at least, to be valid; the companies required it.

Q. Now, you may state if you did vaccinate him at any

A. I did vaccinate him on the 20th of February, 1879.

Q. When did you next see him after you had vaccinated him, if you remember?

A. I next saw him on the 25th of February, five days later.

Q. That is the day on which you made this certificate?

A. Yes sir.

Q. And at that time, did you make an examination?

A. I made an examination of the vaccine sores.

Q. And upon that, you made the certificate? A. I did.

Q. Now, that was on the 25th day of February?

A. 25th day of February, 1879.

Q. Did you see him again after that day? A. No, sir.

Q. Do you know whether he was in Lawrence after that date, or when he left Lawrence? A. I do not.

Q. You did not see him either at your office or on the street?

A. No sir, I have no recollection of seeing him any more after that.

Q. You say he was at your office many times consulting you in regard to being vaccinated; what was the subject matter of the conversation there at that time?

The plaintiff objects to the question as incompetent,
1065 irrelevant and immaterial. Objection overruled, the plaintiff duly excepting.

A. His business was to inquire of me what effect vaccination would have upon him, whether it would disable him, whether it would make him sick, whether there was any danger in it to his health, etc. That was the character of his inquiries; whether it would lay him up.

Q. Now, you finally did vaccinate him; what virus did you use at that time?

A. I used what we call the bovine virus; the cow pox.

Q. Did you have that at your office? A. No sir.

Q. Where did you get it?

A. Whilst the matter was under consideration, I wired to the vaccine farm at St. Louis and they sent me by mail fresh virus.

Q. Now, in what condition was this vaccine sore on the 25th day of February?

[—] It was making very satisfactory progress; there was already a vesicle or blister.

Q. So that you could certify to the company that he had been successfully vaccinated? A. Yes sir.

Q. You may state, doctor, if you remember of a dead body being brought to Lawrence on or about the first of April, 1879, which was said to be that of John W. Hillmon? A. I do.

Q. Did you see that body? A. I did.

Q. When did you see it as to the time of its arrival, if you know?

A. I saw it in the forenoon on or about the third of April, 1879; I understood that the body came in that morning or some time during the night, or early in the morning.

Q. Where did you see that body?

[—] At the business place of Bailey & Smith on Massachusetts street; they were undertakers.

Q. Were they the principal undertakers at the city of Lawrence at that time? A. I think they were.

Q. And it was in their undertaking establishment that you first saw this body?

A. Yes sir. They were furniture men and had a store but this was not in the store; it was in a small building in the rear of the store on the same block; the same lot.

1066 Q. Who was with you, if any one, at the time you first saw the body?

A. Dr. Miller was with me, Dr. V. G. Miller, who was then a resident of Lawrence.

Q. He was a physician and surgeon there at Lawrence, was he? A. He was.

Q. Was there any one with you at that time, if you remember?

A. Mr. Smith of Bailey & Smith was in the room.

Q. Did you look at and examine that dead body lying there? A. I did.

Q. And did you see it afterwards? A. I did.

Q. When did you next see it?

A. I saw it repeatedly in that building during that day and the following day.

Q. Well, now, the next time that you went there to see that body, Doctor, who was with you, if any one?

A. Doctor Miller was present, Mr. Smith, and I am not sure about on my next visit; I am not so sure about who was present the next call; I think I was there twice in the forenoon.

Q. Now, were you there again in the forenoon?

A. Yes sir.

Q. Who was with you on that occasion, if you remember?

A. There were other physicians, Dr. Fuller and Doctor Mottram.

Q. I understood you to say Dr. Fuller.

A. Yes, sir, Doctor Alonzo Fuller and Dr. Charles Motram.

Q. Now, you may state to the jury whether that was the body of John W. Hillmon whom you had vaccinated, and whom you had examined on his various applications for insurance? A. It was not.

Q. Do you remember a coroner's inquest being held over that body? A. I do.

Q. Were you one of the officials?

A. Nothing except I assisted in making the autopsy on the body, and examination of the body.

Q. At whose request did you assist?

A. At the request of Dr. Fuller.

Q. Did he have any official capacity there?

A. I think he was appointed by the coroner, by Dr. Morris, who was the coroner. I think Doctor Fuller was
1067 appointed by him to superintend the examination of the body.

Q. Doctor Morris was the coroner? A. Yes sir.

Q. And he appointed Dr. Fuller as the examining physician, and at his request, you helped to hold an autopsy on the body? A. That is correct.

Q. Now, did Doctor Morris, the coroner, have any connection with either the Connecticut Mutual, or the Mutual Life Insurance Company as examining physician or otherwise?

The plaintiff objects to the question as calling for the opinion of the witness.

By the Court: He may answer, if he knows.

A. I have no knowledge that he was, at all.

Q. Do you know who the examining physician for the Mutual Life was?

A. I don't know of any one except myself; I don't think they were doing very much business there.

Q. Do you know who the examining physician of the Mutual Life was?

A. Understood that Dr. V. G. Miller was.

Q. Only if you know, doctor. A. I beg your pardon.

Q. Only if you know; not what you understand.

A. I was satisfied in my own mind from what I understood that he was; I don't know; I have no positive knowledge.

Q. Now. you may state, on the first occasion that you visited that body that morning, what examination you made of the body.

A. The lid of the coffin was first removed by Mr. Smith and I viewed the body as it lay in the coffin first.

Q. That was all on that occasion, was it? A. No sir.

Q. What else did you do?

A. On that occasion, I opened the sleeve on the left arm and examined the arm to see if there were marks of vaccination.

Q. Now, did you find marks of vaccination there?

A. Yes sir.

Q. When you vaccinated Hillmon, how many points or applications, whatever you call it— A. Insertions.

1068 Q. Insertions of virus did you make upon the arm?

A. I made two.

Q. About where were they located on the arm?

A. They were located on the left arm on the upper and back portion; the anterior and back portion of the arm in this manner.

Q. And about how far distant were they from each other?

A. I should judge from an inch and a half to two inchess, without actual measurement.

Q. In your estimation it was an inch and a half or two inches? A. Yes sir.

Q. Now, did you find vaccine sores on the arm?

A. Yes sir.

Q. Of the dead body? A. I did.

Q. Where were they located, if you found more than one?

A. I found two.

Q. Where were they located?

A. They were located approximately in the portions, as near as I could estimate, of those that I made.

Q. What examination did you make of those vaccine sores?

A. I first made a careful inspection of their appearance as they presented themselves to my eyes, and I not only did that but I removed one of them; removed a portion of the skin containing one of them, and a portion containing a part of the other one.

Q. I understand now you removed one entirely?

A. Yes sir.

Q. One of those sores entirely?

A. Yes, sir, cut it out.

Q. And a portion of the second?

A. A portion of the second one.

Q. Now, you say they were vaccine sores? A. Yes sir.

Q. Were you able to determine whether they were vaccine sores or sores of some other kind or character?

A. Yes sir.

Q. Were you able to determine that from the sore itself?

A. Yes.

Q. From the character of a vaccine sore you are able to tell that sore from a sore from an injury? A. Yes sir.

Q. Now, you found that these were vaccine sores, did you?

A. Yes sir.

Q. Are you able to tell from the appearance of the
1069 sore about how long a time had elapsed from the time of the insertion of the virus? A. Very nearly.

Q. That is, of a vaccine sore? A. Yes, sir.

Q. Now, you may state, doctor, why you removed those sores? A. I understood it was said—

Objection.

A. I was told—

By Mr. Atwood: Let him tell what he did it for, if he knows.

Q. You may answer, doctor.
A. I was informed that the body was to be buried.
Q. When?
A. That afternoon, and I removed those sores, that evidence of the vacination, its character, and its stage, might be preserved for observation.
Q. Now, what, doctor, did you do with those sores?
A. I took them across the street to my office the pieces of skin which I removed.
Q. The pieces of skin which contained these sores?
A. Yes, sir.
Q. You took them across to your office? A. Yes, sir.
Q. You may state, doctor, if afterwards there was an autopsy held, a post mortem held upon this body?
A. There was.
Q. I think you have said that was under the direction of Dr. Fuller?

The plaintiff objects to the question as leading; objection overruled, the plaintiff duly excepts.

A. It was.
Q. Who else assisted at that time?
A. Dr. V. G. Miller, and Doctor Charles Mottram.
Q. And yourself? A. Yes, sir.
Q. Now, you may state whether or not those vaccine sores were exhibited to those gentlemen? A. They were.
Q. And examined by them? A. They were.
Q. Who else, if any one, saw those sores, if you know?
A. Dr. F. D. Morse saw them.
Q. Anybody else that you know?
A. I am not able to designate by name any one especially, I think Dr. John Moore, one of Mr. Woodward's clerks, saw them. Beyond that, I am unable to name the parties
1070 that saw them.
Q. What did you do towards concealing or preventing people from seeing those sores?

The plaintiff objects to the question as calling for the conclusion of the witness. Objection overruled, the plaintiff duly excepting.

A. Nothing whatever.
Q. Where did you keep them?
A. For a while, for a few days, they lay on my office table in the center of my office; then they were laid upon the shelves of a case with glass doors against the wall; then after a number of days, probably a fortnight more or less, they were put into a little jar into a preservative fluid.

Q. Where did you keep them?
A. Sitting on a shelf of the case just mentioned.
Q. What fluid did you use, do you remember?
A. Yes, sir, I used a solution of hydrate of chloral.
Q. What finally became of them, if you know, doctor?
A. Why, I know when I saw them last.
Q. When did you see them last?
A. It was in the early part of 1882; I think in the early part of February, 1882; I left that little jar, in connection with some other jars that contained some specimens, pathological specimens, in the rear of B. W. Woodward's drug store.
Q. Do you know what became of them then? A. No, sir.
Q. When was that?
A. That was in the early part of February, 1882.
Q. What was the occasion for leaving them there?
A. I was making preparations and was on the eve of removing from Lawrence to another city.
Q. To what city?
A. The city in which I now reside, Minneapolis, Minnesota.
Q. You say you left them in the rear of the store?
A. Yes, sir.
Q. What do you mean by the rear of the store; in the store itself or—
A. I think I remember placing them on the floor; I think it was just in the rear of the store building; it might
1071 have been, it might possibly have been a narrow alley just in the rear of the store. I could not say how that was; I remember calling the attention of one of the—

Objection.

Q. Well, what did you do with them to the best of your recollection? A. I sat them down on the floor.
Q. And left them there? A. I did.
